Project: City of Fresno Air Quality Element for the 2025 General Plan
District Reference No: 20090212

Dear Ms. Brock:

The San Joaquin Valley Unified Air Pollution Control District (District) has reviewed the City of Fresno's Draft Air Quality Element and offers the following comments:

1. The air quality element includes the following discussions: (1) a description of local air quality conditions, attainment status, and state and federal air quality plans; (2) a summary of local, district, state, and federal policies, programs, and regulations to improve air quality; (3) a comprehensive set of goals, policies, and objectives to improve air quality; and (4) feasible implementation measures designed to achieve these goals.
2. The Air Quality Element includes the discussion of the status of air quality and strategies to improve air quality as required by AB 170 (Reyes).
3. The District has no further comments or recommendations at this time.

If you have any questions or require further information, please call Jessica Willis at (559) 230-5818.

Seyed Sadredin

Executive Director/Air Pollution Control Officer
