

What a way to die. What if your building has emergency exits but you can't escape disaster because you can't exit safely? While many building safety codes must be met by owners, occupants can play a key role in safe egress and exiting. Three key points are covered — obstructions, exit doors, and how to exit safely.

**Tone: Drama**

**Answers: 1. True, 2. D, 3. False, 4. D, 5. Discussion**
