

LIMITED SPACES: ATTICS, BASEMENTS AND CRAWL SPACES

T315

Limited spaces such as attics, basements, and crawl-spaces can be filled with hazards, including irritating insulation, protruding nails, electrical hazards, inadequate ventilation, and even mice, birds, spiders and snakes. To help ensure your safety, avoid going into limited spaces blindly. Know the hazards, and take steps to control or avoid these hazards.

Tone: Actuality

Key Training Points:

- Appropriate clothing
- Preparedness
- Assessing the worksite situation
- Heat Stress

Answers: 1. D 2. A 3. B 4. C, 5. A
