

A near miss is any incident that could have led to property damage or injury to a person but didn't. When near misses occur, there is always an error...an error that could have been fatal. Use near misses as warning signs to identify unsafe acts or unsafe conditions that could lead to future accidents.

Tone: Humorous

Key Training Points:

- When you have a near miss, identify the error or errors that were involved in the incident.
- Use near misses as a learning tool to help avoid future accidents.
- To help reduce unsafe acts, follow all safety and health regulations that apply to your workplace.
- Report hazardous conditions to your supervisor.
- Report all near misses to your supervisor.
