

QUESTIONS: ENVIRONMENTAL SUSTAINABILITY

I. How important is it that the SEGA plan include “green” building standards that require energy and water efficiency?

Place a sticker in the box of your choice.

Very Important

Somewhat Important

Not at All Important

QUESTIONS: ENVIRONMENTAL SUSTAINABILITY

2. How should energy be provided to homes and businesses in the SEGA?

Place a sticker in the box of your choice.

All Renewable Generation
(i.e. solar on homes, smaller generation systems)

Some On-Site, Some Conventional from the Power Grid

All Off-Site from the Conventional Grid
(i.e. PG&E natural gas power plant)

QUESTIONS: ENVIRONMENTAL SUSTAINABILITY

3. How important is it to include water recycling and reuse in a water conservation plan for the SEGA?

Place a sticker in the box of your choice.
