Interest rates dramatically decreased between November 2008 and November 2009. The yield earned on the portfolio followed this trend and decreased as well. The yield earned was 2.66 percent for the month ended November 2009, while it was 4.49 percent for the month ended November 2008, a decrease of 1.83 percent. The interest earned year to date has decreased by \$3,281,469. The size of the Portfolio decreased by \$850,529, while the market value decreased by \$429,993. The difference of \$420,536 is an increase in the market value of the Portfolio.

In accordance with State Law, the Controller certifies that the securities held in the City Investment Portfolio comply with City policies. The Controller further certifies that the City has funds available to meet its expenditure requirements for the next six months.

Amortized Cost - the total amount at which investments are carried on the City books. This amount includes the amortization and accretion of premiums and discounts, respectively.

Market Value - the total amount at which investments are being sold in the market. Market prices are provided by the Bank of New York.

Par Value - (also referred to as "par value") the total amount of the face or stated value of the investments at maturity.

Par Value + Accumulated Future Earnings - Par Value plus the future interest earnings on the investments if they were held to maturity.

Average Days to Maturity - the average time in days left in the maturity of the investments.

Monthly Yield - the rate of return on investments as expressed in a percentage.

Rolling 12-Month Return - same Monthly yield, but for the past 12 months.

Earned Interest - the amount of income realized by all investments.
