## Introduction

The Master Fee Resolution reports fees for services that are provided to our citizens. Fees that do not recover the full cost of providing the service, result in a subsidy which shifts funds away from the critical, high priority needs of job creation, public safety initiatives, utility services and neighborhood programs.

Before a fee increase was considered the Department responsible for the service demonstrated that the services are being provided as efficiently and effectively as possible. There are a minimal number of fees that were considered for an increase in this budget. For these fees, each respective department demonstrated that services are provided in a best practices manner, and that all reasonable opportunities for savings have been exhausted. As a result of this critical analysis, only fees for new programs or services have been added. Additionally, other fees have been lowered, deleted, or consolidated to clarify actual fees charged for services.

Details of these changes are included in the following pages. For your convenience the MFS is presented in this report in its entirety. However, the enabling document will only include the amendments or changes proposed on the 480<sup>th</sup> amendment to the MFS.
