The City of Fresno is pleased to issue the FY 2007 NOFA pre-application for HOME Program funding for Affordable Housing Activities. All proposals must utilize this pre-application to request funding consideration from the City.

In order to be considered for funding, all sections of this application, including attachments and exhibits, must be complete and accurate. No facsimiles or incomplete applications will be accepted. The application Check-off List must be completed and included in each proposal. Specific requirements for several selected items are described in the application packet. A proposal's outline should follow the sequence of items on the Check-off List. If your project is selected for preliminary approval, you will be requested to complete a full application which will include several more sections in addition to this pre-application. Applications under this Notice of Funding Availability ("NOFA") will be considered on an "over-the-counter" basis until available funds are exhausted.

Application Funding and Approval Process

Under the direction of the Housing and Community Development Manager, staff will perform a technical review of proposals for eligibility, feasibility and completeness, in the order in which they are received. To be considered eligible, applications for project funding must be consistent with the goals and priorities of the state-mandated Housing Element and federally-mandated Consolidated Plan. Major criteria used to evaluate affordable housing proposals include:

Conceptual Soundness

The project design and scope of work respond to a locally identified housing need. The site, structure, location and program design are appropriate for the proposed residents, and elements of the project concept meet all threshold and eligibility requirements of the funding sources.

Readiness to Proceed

Site control, environmental studies, project entitlements and design are in process or completed. The project schedule and cash flow indicates that the project can be completed within two years of the contract execution date.

Consistency with Housing Plans

Projects assisted with City funds must demonstrate consistency with the goals, priorities and objectives of the Housing Element, the Consolidated Plan and Annual Action Plan. In addition, projects must comply with applicable comprehensive plans and must meet all zoning and building code requirements.

Financial Feasibility

Project sources and uses of funds are consistent, accurate, justified and well documented. The projected cash flow for the project indicates a warranted City funding participation as well as a sufficient revenue flow to successfully complete the project.

Leverage of Other Funds

City funding participation is maximized by other public and private equity and debt in the project. Documentation of other committed funds is included.

Organizational Capacity

The skills and experience of the project sponsor are appropriate to the size and complexity of the project. The project sponsor is fiscally strong, has a plan to mitigate organizational shortfalls, and has provided a prudent operations and maintenance plan for the length of the funding commitment.

The City's Housing Element is available from the Housing and Community Development Division for a small reproduction fee. Consolidated Plan priority housing goals are as follows:

1. **New Construction of Affordable Housing.** Increase housing opportunities for very low- and low-income families, especially those with five or more members.
2. **Housing Rehabilitation and Acquisition Program.** Improve the available housing stock for low- and very low-income households.
3. **Redevelopment and Relocation.** Provide increased housing opportunities and assistance for those displaced through either code enforcement or redevelopment.
4. **Emergency Shelter and Transitional Housing / Prevention of Homelessness / Permanent Housing for Homeless.** Continue to provide assistance for the homeless and those in danger of becoming homeless and improve the communication and service delivery capabilities of agencies and organizations that provide programs to assist the homeless.

If the application is incomplete or ineligible, it will not be considered for funding until the deficiencies are cured. Only applications that meet all Program criteria and are substantially complete will proceed through the City's application funding and approval process.

After Staff technical review and analysis, and possibly third party review, staff will determine funding recommendations. Funding recommendations are presented for review to the City's Interagency Housing Task Force and to the City's Housing and Community Development Commission (HCDC). Final approvals are obtained from the City Council, who will review and consider the project and/or HOME Program Contract for funding consideration. The Contract will specify, among other things, the amount of funds granted, timelines, project requirements, as well as the proposed use of funds. If approved by the City Council, the HOME Program Contract will be executed pending finalization of an environmental review.

The City reserves the right, at its sole discretion, to suspend, amend, or modify the provisions of this NOFA. If such an action occurs, the City will notify all interested parties. The completion of this application process in no way guarantees or commits City funds to the proposed project.

SECTION 2 PROJECT DESCRIPTION

(Limit narrative to two pages)

Provide a complete but succinct description of the *project activity* and the *population to be served*. Include the following:

- Describe the property to be acquired, constructed and/or rehabilitated. Include a physical description of the planned project that includes the size, number of stories, type of construction, layout of the buildings, and any other unique features of this particular project and target population.
- If the project includes existing buildings, give the original date of construction.
- If your organization already owns the project and/or project site, when did your organization purchase it and what was the purchase price?
- Provide a detailed description of any planned construction, rehabilitation or other site improvements, including project design elements. If your project includes rehabilitation, explain why rehabilitation is preferred over new construction and environmental or abatement issues for this project and population.
- Provide a description of the type of household to be served, including information such as the number of tenants, the size and description of the households, and known special characteristics of tenants (i.e. age, disabilities, special needs, etc.). Also include a description of the living arrangement (i.e. individual apartments, shared housing with onsite management, etc.).

Additionally, list design features and material specifications that accomplish the following:

- Promote the health and safety of the residents.
- Make the project more durable/sustainable over its lifetime.
- Minimize the use of resources in either construction or operation of the building.
- Increase affordability for residents who will pay at least a portion of their utility bill. These items should be shown in the construction cost estimate.
- Explain why the chosen design features are responsive to the housing needs of the target population.
- Describe the location of the project and its surrounding neighborhood. Include a discussion of transportation options, nearby services, etc.

Area Map and Site Pictures

Provide the project's area map and related site pictures in color. If any of the following are located within 2,000 feet of this project, please indicate location and identify on project's area map: a) major road/highway, b) railroad track, c) airport (within one mile), d) building or structure 50 years old or older (please include photographs), e) perennial or intermittent water courses, f) storage tanks (e.g., propane, grain silo, agri-chemicals (please include photographs), g) known hazardous waste site, h) explosive or flammable operation (within one mile).

SECTION 3 SITE AND PROJECT READINESS

(Limit narrative to two pages)

Provide a description of the *proposed* or *actual* site, and discuss any issues of site control, zoning, special permits, environmental hazards and how they can be resolved in a timely manner. Please identify and/or include the following:

- Current status of: 1) architectural plans, 2) design, and 3) project financing and how they contribute to the timeliness of the proposed schedule.
- If available, provide an architect's description of the proposed or actual site, photos of the proposed project or comparable project(s), and/or preliminary drawings.
- Zoning for the site and if the proposed project is consistent with existing zoning requirements and the permit process. If the project is not consistent with zoning, describe the steps you have taken to alleviate the inconsistency. Ensure critical decision points are included in the Project Schedule.
- Letter from the Planning Division of the Planning and Development Department verifying that proposed project is consistent with existing zoning or if a variance of special use permit is needed, the letter should provide assurance that approval can be obtained prior to HOME contract execution. If a proposed project will continue an existing use, a zoning letter is not required.
- Issues or hazards, man-made or natural, associated with the site that will affect its development and/or use for housing. Include a discussion of any recommendations for mitigation of existing conditions noted in the Phase I Environmental Assessment (if available). For projects that include rehabilitation, discuss any recommendations for abatement of asbestos, lead paint, or mold noted in the Hazardous Material Survey.
- In the case of scattered site rentals, if a site has not been identified, describe the characteristics of the location being sought and document the availability of applicable sites and the timeline for obtaining site control.
- Documentation of site control if project is multi-family, subdivision development.
- Include a Phase I Environmental Survey. Full survey in original application. Executive Summary in copies.

SECTION 5 TENANT RELOCATION PLAN

(Limit narrative to one page)

Potential applicants should carefully consider how their development may be impacted by the Uniform Relocation Act ("URA") before making the final decision to apply for HOME funds or to obtain site control of a given property. If not taken into account, relocation expenses could render an otherwise viable development not feasible. Relocation benefits are triggered under the URA when a resident is displaced permanently or temporarily. In all cases in which a proposed development site is either partially or fully occupied, relocation information must be completed and submitted concurrently with the application and the applicant is required to contact the City's Housing and Community Development Division for instructions **BEFORE PROCEEDING WITH AN APPLICATION.**

Describe the process to be used for relocation, either permanent or temporary, and how these activities will be funded.

- Note the availability of comparable replacement units.
- Include a budget for relocation showing estimates of staff time and using the maximum benefits allowed to people being displaced.
- Show how the relocation plan is consistent with the relocation requirements of any of the fund sources anticipated for the project.

If relocation activities are not necessary, skip to next section.

SECTION 6

EXPERIENCE OF APPLICANT/DEVELOPMENT TEAM

(Limit narrative to two pages)

The applicant must demonstrate that the skills and experience of the development team are appropriate to the size and complexity of the project.

- Describe your organization's experience and capacity to develop the type of housing you are proposing.
- Describe the applicant's experience with the utilization of HOME Program funds or other public-private developments.
- List key development team staff, including key consultants such as legal counsel, architects, engineers, planners, etc., and their qualifications and attach resumes.
- Identify the person or persons with the authority to represent and make legal binding commitments on behalf of the applicant.
- Identify the roles of key individuals in the development team.
- Identify any legal action, bankruptcies, or lawsuits your organization is currently involved in.
- Complete Form 6 - Projects Completed and Under Development
 - Complete one copy of this form for your organization
 - Complete a second copy of this form for your housing developer if you have contracted with a separate entity to do your development work
- Attachments in this Tab:
 - Resumes of development team members
