

FRESNO POLICE DEPARTMENT
REPORTABLE RESPONSE RESISTANCE PROJECT

First Quarter 2006
(January/February/March)

Jerry P. Dyer
Chief of Police

Final Report

Use of Reportable Response Resistance (Force) Data Collection

Despite Fresno police officers routine use of verbal commands, and attempts to negotiate peaceful solutions when involved in adversarial situations, there are times when physical force is necessary to make an arrest, prevent an escape, overcome resistance, or defend against injury to officers or citizens. Officers use force as a last resort, with the vast majority of confrontations resolved with very little, if any, force applied. On rare occasions, deadly force must be used; however, the public is often unaware of the vast majority of potentially deadly confrontations that are peacefully resolved without resorting to deadly force.

Until recently, the Department had no method to determine the number of times officers used non-lethal means to resolve potentially lethal situations, losing critical information needed to illustrate this important fact.

Effective March 31, 2003, the Professional Standards Unit began reviewing police reports and other force data for comparative analysis and composite reporting. This information is used to determine effectiveness and necessity of the force used, reliability of equipment, training needs, policy modifications, etc.

The Department defines reportable force as any force when:

1. Officers (including canines) use force and a person is injured; or
2. Officers strike a person with a body part (i.e., fist, foot, elbow, etc.) or any object (i.e., flashlight, clipboard, etc); or
3. Officers use (not merely display) a department issued weapon (i.e. electronic immobilizing device, less-lethal impact projectile, chemical agents, baton, firearm, etc.).

Fresno police officers applied force in 116 incidents while responding to 98,017 calls for service (CFS). This equates to officers applying force in less than one-sixth of one percent (0.12%) of all calls for service for this reporting period.

REPORTABLE FORCE USED BY OFFICERS

Some incidents require multiple applications of force to take a suspect into custody or stop an unlawful attack.

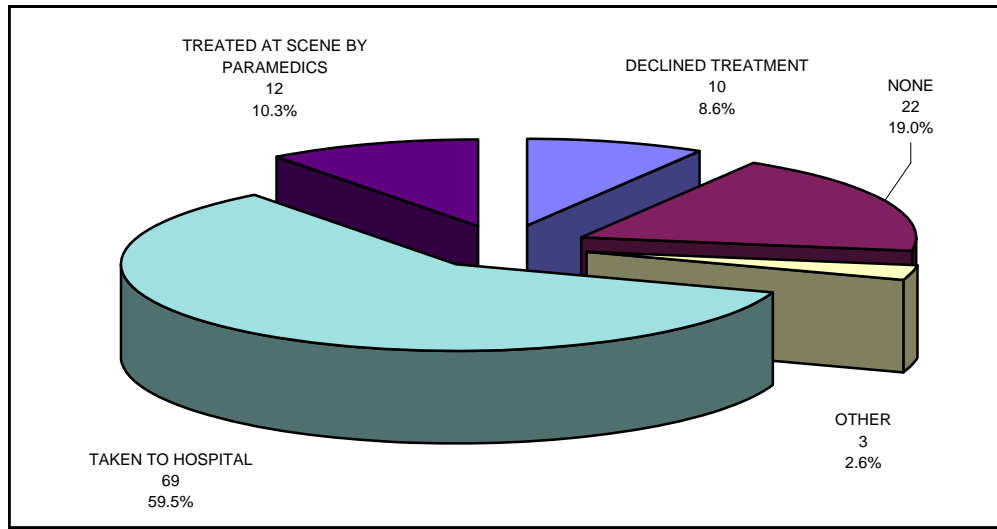

Order by Force:

Electronic Immobilization Device	-	42.9%
Body Strike	-	38.3%
Pepper Spray	-	7.1%
K-9	-	4.5%
Baton	-	3.2%
Projected Impact Weapon	-	1.9%
Firearm	-	1.3%
Object Strike	-	0.6%

Note: Electronic Immobilization Device is also referred to as a Taser.

Projected Impact Weapon is also referred to as a Less Lethal Shotgun or bean bag gun.

SUSPECT MEDICAL REVIEW AFTER REPORTABLE FORCE APPLIED

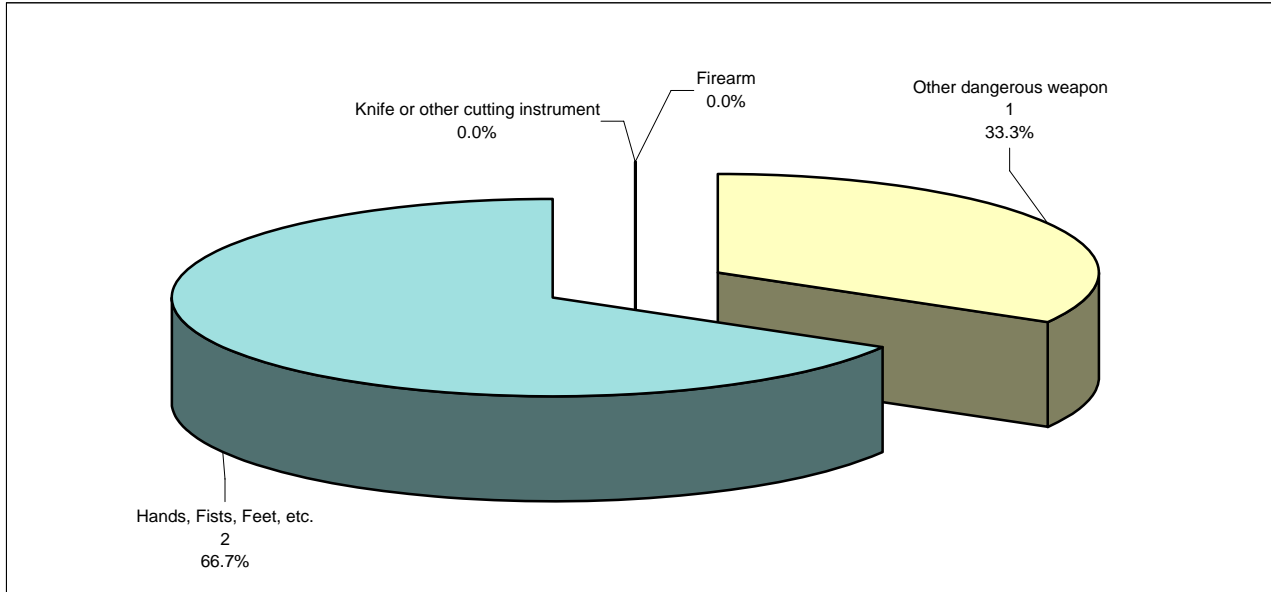

Not all suspects who received medical review were injured. Per Department policy, any person subjected to a chemical agent/mace, electronic immobilizing device (taser), less lethal impact projectile, or any force which causes injury or renders temporary disability to an arrestable subject, is automatically provided medical care by on-scene medical personnel or at a hospital.

OFFICERS ASSAULTED *

66 officers were assaulted.

OFFICER'S INJURED *

3 officers were injured requiring immediate medical treatment.

* Data based on the 1st Qtr 2006 LEOKA (Law Enforcement Officers Killed or Assaulted) report. Not all incidents, where an officer was injured, involved a use of reportable force, i.e., the suspect gives up after injuring an officer.

SUPERVISOR ON SCENE WHEN REPORTABLE FORCE APPLIED

A supervisor may be enroute to assist an officer on a call; however, the officer may be required to use reportable force prior to the supervisor's arrival. In these circumstances, the supervisor would be considered "not on scene."
