Permit Record Information

Planning & Resource Management Department

To Whom it May Concern:

Fresno County first established a Building Inspection Department, started issuing building permits, and making inspections on March 1, 1958.

Any construction that might have occurred in the unincorporated areas of Fresno County prior to this date would not have required building permits or inspections.

For permit record information on property within Fresno County, contact the Development Services Division of the Planning & Resource Management Department. If copies of permit records are needed, a fee for researching the records plus printing costs is required.

The Development Services Division is located at 2220 Tulare Street, Suite A, (which is on the Southwest corner of Tulare and "M" Streets - Street Level). The phone number for permit information is (559) 262-4302.
