

Welcome to Electronic Comments

Electronic Comment

Constituents can comment on upcoming agenda items via our website using PrimeGov <https://fresno.primegov.com/public/portal?fromiframe=1>. To leave a comment users must go to the agenda item that they wish to comment on and click on the comment icon under “Options” on the right side of the page. Electronic comments begin at 5pm on Friday prior to the Thursday Council meeting and closes at 9am on Wednesday prior to the Thursday meeting.

Electronic Comment can Improve Meeting Participation

Due to work, school, and family commitments, constituents are not always able to attend City Council meetings. The Electronic Comment solution provides constituents an additional opportunity for participation when they cannot be at a city Council meeting in person. Using Electronic Comments allow for any person, anywhere to leave a comment on an agenda item via the internet.

Electronic is Transparent Government

Electronic Comment is also a valuable tool for staff. Significant staff time savings can be realized by encouraging constituents to post their comments using the Electronic Comment feature as opposed to sending emails or leaving phone messages with City staff. Having a central repository for comments ensures that the City Council and City staff is compliance with the Brown Act by having a transparent, predictable process for managing public comment.
