

Energy Resources for Fresno Businesses

Energy Efficiency Tips & Tricks

1. See how you stack up to your neighbors

Calculate your building's EnergyIQ to identify energy efficient opportunities at energyiq.lbl.gov

2. Understand your PG&E rate plan

Knowing when you use energy can help you manage costs

3. Identify strategies to start saving energy today

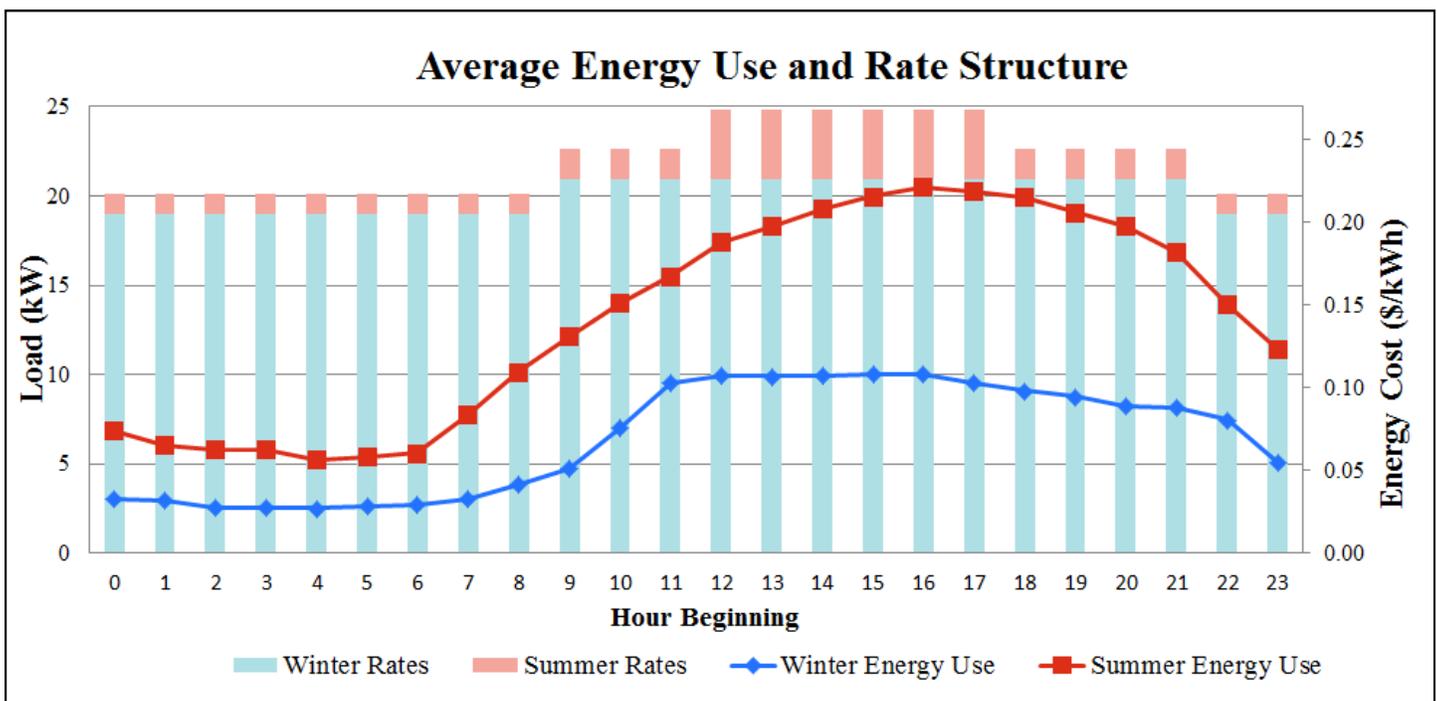

Changing your energy use behavior and practicing routine maintenance can help you save money right away. Learn more at coolcalifornia.org

4. Get an energy audit and use incentives to upgrade your business

There are incentives to help Fresno businesses with upgrades to lighting, HVAC equipment, window screens, water heaters, and more. See reverse for details!

Typical Tower District Energy Load and PG&E Time of Use Rates

Understanding when you use energy can help you to shift some activities to other parts of the day when electricity is less expensive. Here you can see typical energy use for small businesses in the District. This is for graphical representation only and you should refer to your PG&E account to confirm your rate plan and personalized usage information.

Commercial Energy Efficiency Programs

Here are a few energy efficiency and clean energy program options for you to consider:

A collaborative effort led by Fresno EDC to help small and medium businesses improve their energy efficiency. Get a free energy assessment and guidance on which upgrade rebates you are eligible through PG&E.

Call **559-476-2503** for more information. www.fresnoenergywatch.com

A no-cost managed energy program for qualified small to medium sized businesses. Provides comprehensive energy efficiency solutions that guarantees 20-50+% savings.

Call **914-646-4016** for more information. www.joulesmart.com

No-to-low cost Electric Vehicle charging station installations. Turn Key utilizes two incentive programs to install Charge Point EV chargers.

Call **559-905-5988** for more information. www.turnkeyfresno.com

PG&E Resources

PG&E offers services to small and medium sized businesses in their Business Energy Solutions department. Advisors can help identify which incentives are available to your business and connect you with energy efficiency partners. Call **559-263-5536** for more information.

Want to Promote Your Sustainability to Customers?

California Green Business Network Certification. Get support and recognition for your sustainability efforts from the Green Team operating out of the Fresno Metro Black Chamber of Commerce.

Call **559-441-7929** for more information.
