# Redistricting Rules and Goals

## 1. Federal Laws
- Equal Population
- Federal Voting Rights Act
- No Racial Gerrymandering

## 2. California Criteria for Cities
- Geographically contiguous
- Undivided neighborhoods and “communities of interest” (Socio-economic geographic areas that should be kept together)
- Easily identifiable boundaries
- Compact (Do not bypass one group of people to get to a more distant group of people)

**Prohibited:**
- “Shall not favor or discriminate against a political party.”

## 3. Other Traditional Redistricting Principles
- Minimize voters shifted to different election years
- Respect voters’ choices / continuity in office
- Future population growth
- Preserving the core of existing districts
Defining Neighborhoods

1st Question: What is your neighborhood?
2nd Question: What are its geographic boundaries?

Examples of physical features defining a neighborhood boundary:

- Natural neighborhood dividing lines, such as highway or major roads, rivers, canals and/or hills
- Areas around parks or schools
- Other neighborhood landmarks

In the absence of public testimony, planning records and other similar documents may provide definition.
Beyond Neighborhoods: Defining Communities of Interest

1st Question: What defines your community?
- Geographic Area, plus
- Shared issue or characteristic
  - Shared social or economic interest
  - Impacted by city policies
- Tell us “your community’s story”

2nd Question: Would this community benefit from being “included within a single district for purposes of its effective and fair representation”?
- Or would it benefit more from having multiple representatives?

Definitions of Communities of Interest may not include relationships with political parties, incumbents, or political candidates.
Beyond Neighborhoods: Communities

Under the California Elections Code, “community of interest” has a very specific definition in the context of districting and redistricting cities and counties:

A “community of interest” is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Communities of interest do not include relationships with political parties, incumbents, or political candidates.
