Since 2019, I authored several policies that gained unanimous approval from my colleagues on the Fresno City Council. These policies are helping us reduce the saturation of liquor stores, require洗澡设施 to shelter our homeless residents and restore our neighborhoods by building out town landlord accountability for their properties while we build new housing and restore older neighborhoods.

Our REBUILD District 3 plan was approved by the City Council in June 2021 and includes $25 million to build new housing, improve housing and add new public-related roadways and stimulate and jump thousands of new jobs. We would like your input on what additional projects should be funded through the City’s budget. Email or call our District 3 office at District3Office@fresno.gov or (559) 441-9742 for projects to be added to our list.

Thank you for giving me the opportunity to serve you. As always, I am available to all our residents on my personal mobile phone at (559) 906-1443.

Fresno City Council
State of District 3

It is with deep gratitude and pride that I serve the Southwest, Tower District, Downtown, Chinatown, South Fresno, and our Central Unified communities. As always, I want to keep you fully informed and engage you in building safer, vibrant neighborhoods that allow our City to thrive.

I hope this second annual State of District 3 report provides you with a glimpse of the progress we are making to invest in all our neighborhoods.

Sincerely,

Randy L. Ghan

Fresno City Council - District 3
**Investment in District 3 Neighborhoods**

Re-investing in the Tower District, Downtown, Southwest, and Central Area neighborhoods has been the top priority.

Support from Assemblymember Joaquín Arambula, City Council members, and private and public partners led to recorded new resources for our neighborhoods.

- **$1.5 BILLION**
