**PLANNING AND DEVELOPMENT DEPARTMENT**

**OCTOBER 2009**

**FRESNO GREEN NON-RESIDENTIAL CHECKLIST**

For a project to be certified, “Fresno Green,” it must have a minimum of 20 points from the following categories. All mandatory criteria must be met. Points must be spread over at least 5 of the major categories.

Project Name/Applicant: ______________________________________________

### I. Location, Community and Historic Preservation

#### A. Site Selection:
1. Site has not been used for commercial agriculture in past 5 years (1) ___
2. Use of designated Brownfield or contaminated site (2) ___
3. Site is located within an Inner City boundary or an Activity Center or Mid Rise High Rise Corridor (1) ___

#### B. Historic Preservation:
1. Renovation of a designated historic building or structure Or (1) ___
2. Renovation or adaptive reuse of a building within a proposed historic district (1) ___
3. Preparation of a historic survey in an area previously not evaluated (1) ___
4. Adaptive reuse of an existing non-historic building (75% of existing walls, floors and roof structure retained) (1) ___
5. Retention of existing historic landscape features (e.g. row of palms) (1) ___
6. Incorporation of historic canal with construction of wayside exhibit (1) ___

#### C. Community Resources:
1. Project approved as a Residential/Commercial Mixed Use Development (1) ___
2. And/or within 1/4 miles of public transportation (2) ___
3. Incorporation of public art as defined by the City of Fresno (1) ___
4. Provide informational kiosk about green building and sustainability. (1) ___

### II. Sustainable Sites

#### A. Site Stewardship:
1. Provide erosion controls during construction per SWPPP Mandatory
2. Provide on-site collection and diversion for recycling construction waste Mandatory

#### B. Landscaping:
1. Install drought resistance/water efficient landscaping (1) ___
2. Locate and plant trees to shade hardscapes to achieve 50% shade in 5 years (1) ___
3. Retention of mature trees on site (that are not historic landscapes) (1) ___
4. Development on site of bioswales (1) ___
5. Provide open, landscaped area = or > than 20% of project site (1) ___
6. Restoration of Natural Habitat on site (2) ___

#### C. Parking and Alternative Transportation:
1. Use pervious hardscape materials for a minimum of 50% of the site’s parking, driveway and access roads. (1) ___
2. Reduction of heat islands through use of structured parking on site (1) ___
3. Provide preferred parking for low-emission vehicles for 5% required spaces (1) ___
4. Provide preferred designated on-site parking for car/van pools for 10% required spaces (1) ___
5. Provide onsite secured parking or storage for bicycles (1) ___
6. Provide showers for employees who bike to work (1) ___

III. Energy and Atmosphere
A. Energy:
1. Install photovoltaic (PV) system that meets 5% of Title 24 energy survey (1) ___
2. Exceed energy use reduction for currently adopted Title 24 by 15% OR (1) ___
3. Exceed energy use reduction for California Title 24 by 25% or more (3) ___
4. Install solar water heating system (1) ___
5. Install a cool roof (1) ___

B. Atmosphere:
1. Install air-conditioning with Non-HCFC refrigerants (1) ___
2. Provide daylight for 75% of interior work spaces (1) ___
3. Provide 80% of office equipment that carries the energy star label (1) ___
4. Install an alternative water heating system (1) ___

IV. Water Efficiency
A. Irrigation:
1. Choose a micro-irrigation system to deliver water to landscaped grounds (1) ___
2. Install a rainwater harvesting system to provide water for landscape irrigation (1) ___

B. Interior Water Use:
1. Demonstrate that interior water use will be reduced by at least 20% as described in LEED NC 2.2 WR Credit 3.2 OR (1) ___
2. Demonstrate that interior water use will be reduced by at least 30% as described in LEED NC 2.2 WR Credit 3.2 (2) ___

V. Materials and Resources
A. Construction:
1. Use “Material efficient framing” (1) ___

B. Materials:
1. Use of innovative materials for building envelope (1) ___
2. Use environmentally preferable flooring (e.g. bamboo) (1) ___
3. At least 10% of building materials are reused, salvaged or refurbished (1) ___
4. At least 20% of building materials have recycled content (1) ___

VI. Indoor Environmental Quality

1. Use Low/No-VOC paint, adhesives and sealants (1) ___
2. Use environmentally preferable materials for interior finishes (1) ___
3. Use low-emitting materials for carpets (1) ___

VII. Innovation and Design Process

Up to 3 additional points may be earned for innovative design or materials (1-3)___

Total possible points: 55 _______
