Housing Element

- State-mandated planning document for housing – 1 of 7 state-required General Plan elements
- Only element requiring review and “certification” by a State agency - California Department of Housing & Community Development (HCD)

July 7, 2017

Mr. Bruce Rudd, City Manager
City of Fresno
3600 Fresno Street
Fresno CA, 93721

Dear Mr. Rudd:

Re: Fresno City’s 5th Cycle (2015-2023) Adopted Housing Element

Thank you for submitting Fresno’s housing element adopted April 13, 2017 and received for review on April 17, 2017. Pursuant to Government Code (GC) Section 65585(h), the Department is reporting the results of its review.

The Department is pleased to find the adopted housing element in full compliance with State housing element law (Article 16.5 of the Government Code). The adopted element was found to be substantially the same as the revised draft element the Department’s April 7, 2017 review determined met statutory requirements.

The department applauds the efforts of the City to adopt a compliant housing element. For example, the element contains many important policies and programs such as maintaining and creating sufficient sites throughout the City (Program 2), considering annual input from the public on policies and programs (Program 9), prioritizing sustainable communities (Program 11), preserving displacement (Program 12A) and ensuring equitable communities (Program 27). These and several other policies and programs are crucial to compliance with the housing element law.

As part of the annual report on general plan implementation (GC Section 55450), the City must monitor the effectiveness of its programs and make adjustments, as appropriate, to encourage and facilitate the development, maintenance and improvement of housing for all income levels. Taking actions inconsistent with the housing element or lack of implementation of programs could warrant an amendment of the housing element or impact compliance with housing element and related laws. The Department supports and urges the City to implement the housing element with high priority and to continue taking actions consistent with the housing element.
