The yield earned on the Portfolio was 1.07 percent for the month ended November 2016. It was 0.98 percent for the month ended November 2015: a net increase of nine basis points, or 9.18 percent. The interest earned year to date has increased by \$337,866; or 16.61 percent. Mostly this increase is due to the portfolio earning higher yields, which can be seen in the increase in the rolling year to date yield. The size of the Portfolio increased by \$856,761. The Market Value of the Portfolio decreased by \$2,047,873. The difference between \$856,761 and negative \$2,047,873 is \$2,904,634, which represents a decrease in the Market Value in relation to the Amortized Cost.

The Treasury Notes decreased by \$15,960, the Money Market decreased by \$13,000,000, the Local Agency Fund decreased by \$24,873,959, and Time Deposits decreased by \$394,295. These resources, combined with the overall increase in the Portfolio of \$856,762, resulted in a total of \$39,140,976 in available resources to be reinvested. Of these funds, \$17,518,611 was invested in Federal Agency Notes, and \$21,622,365 was invested in Corporate Notes. The decrease in yield between October 2016 and November 2016 is attributable to a couple of calls which occurred in late October. An increase in interest rates is the cause for the decrease in the Market Value in relation to the Amortized Cost.

In accordance with State Law, the Finance Director certifies that the securities held in the City Investment Portfolio, purchased with Surplus Funds, comply with City policies. The Finance Director further certifies that the City has Operating Funds available to meet its expenditure requirements for the next six months.
