In accordance with State Law, the Finance Director certifies that the securities held in the City Investment Portfolio, purchased with Surplus Funds, comply with City policies. The Finance Director further certifies that the City has Operating Funds available to meet its expenditure requirements for the next six months.

**Amortized Cost** - the total amount at which investments are carried on the City books. This amount includes the amortization and accretion of premiums and discounts, respectively.

**Market Value** - the total amount at which investments are being sold in the market. Market prices are provided by the Bank of New York.

**Maturity Value** - (also referred to as “par value”) the total amount of the face or stated value of the investments at maturity.

**Average Days to Maturity** - the average time in days left in the maturity of the investments.

**Monthly Yield** - the rate of return on investments as expressed in a percentage.

**Rolling 12-Month Return** - same Monthly yield, but for the past 12 months.

**Earned Interest** - the amount of income realized by all investments.

**Basis Point** - one one-hundredth of one percent

The yield earned on the Portfolio was 1.52 percent for the month ended January 2018. It was 1.12 percent for the month ended January 2017: a net increase of 40 basis points, or 35.71 percent. The interest earned year to date has increased by $86,720; or 2.68 percent. The increase is due to the rise in interest rates. This is reflected in the rolling 12-month return on investment which increased by 23.36 percent. The Market Value of the Portfolio decreased by $55,800,855. The difference between $53,090,314 in amortized cost and $55,800,855 in market value is $2,710,541 which represents a decrease in the Market Value in relation to the Amortized Cost.

The Money Market decreased by $35,000,000, the Local Agency Fund decreased by $65,309,507, and Time Deposits decreased by $6,405,705. The total of these available resources being $106,715,212. Of these funds, $7,806,698 was invested in Federal Agency Notes, $24,875,678 was invested in Treasury Notes, $15,942,522 was invested in Corporate Notes, and $5,000,000 was invested in a Negotiable Certificate of Deposit. The net effect of these transactions was a decrease in the overall total of the portfolio by $53,090,314. The decrease in the investment balances is primarily due to the City escrowing $116,000,000 in March 2017 for the future defeasement of Sewer bonds. An increase in interest rates is the cause for the decrease in the Market Value in relation to the Amortized Cost.
