Introduction

The Budget Procedures Manual provides information for the preparation and administration of the Annual Budget. The book is divided into several sections:

- **Introduction.** This section contains general information on Budget Analyst and Officers, budget deadlines, Pay period dates, Internal Service cut off dates for year end close and account definitions.
- **General Budget System Preparation.** This includes how to access the budget preparation system, known as Budget Formulation and Management (BFM) and how to navigate within the system as well as the appropriate forms for the Mid-year review, the Base Budget Submissions, and Capital budgeting.
- **Reports.** This section gives a description and instructions for finding and using the reports within BFM. Also included is a tutorial on creating and using Budget Reports in the BI Launch Pad.
- **Employee Services and Position Management.** This provides a definition of different types of positions and the concept of Full Time Equivalents. Instructions on the preparation of the employee services budget and how to navigate within the PCF and reports accessible in the Personnel Cost Forecasting (PCF) Module.
- **Supplemental Forms.** This section gives samples of each of the budget forms, plus instructions for their completion and routing.
- **Administrative Order (AO) Policies.** This includes the AO’s which pertain to various financial and budgetary policies.
- **Master Fee Schedule (MFS).** This includes instructions on completing the various forms for the annual update of the Master Fee Schedule

All sections listed above have been edited and updated. Please take note of the cut off dates for accounting and other internal processes occurring towards the end of the fiscal year. This advance information should assist you in planning your year-end close-out activities, however, these dates are subject to change. Please make note of any communication regarding changes in deadlines.

You are encouraged to carefully review this document in order to become familiar with the scope of the information provided. Also please refer to the Manual as you are preparing your budget; it may answer your questions and save valuable time.

This manual is also available online, in the Staff Area page of the City’s website.

ACCOUNTING DIVISION

- **Direct Vouchers** must be received by the Finance Department no later than Wednesday, June 22, 2022 in order to be processed in the current fiscal year. Vouchers received after the deadline will be returned to departments/divisions of origin and will be processed only as emergency items with the approval of the Controller. Invoices related to Purchase Orders should continue to be sent to Finance after this deadline.

- **Interdepartmental billings and other accounting charges** to be processed through the Finance Department are due Wednesday, June 22, 2022. Interdepartmental billings and other accounting charges received after the deadline will be returned to departments/divisions of origin and will be processed only as emergency items with the approval of the Assistant Controller.

- **Journal Entries (JEs) and Allocation Journals** to be processed through the Finance Department must be received no later than Wednesday June 22, 2022. JEs and Allocation Journals for June transactions only or corrections for June transactions will be extended to Friday, June 24, 2022.

GRAPHIC AND REPRODUCTION SERVICES

- **Graphic and Reproduction Services (in-house) requests** for the current fiscal year will be accepted and charged to departments/divisions by interdepartmental billings through Friday, June 17, 2022.

PERSONNEL SERVICES DEPARTMENT

- **Position Authorization Resolution (PAR) Amendments** (Council or Administrative) must be processed prior to Friday, April 20, 2022. The only exceptions to this policy are very special circumstances approved by the City Manager’s Office.

PURCHASING UNIT

- **Formal competitive bid specification packages** (including Capital Improvement Projects), which are to have funds encumbered in the current fiscal year, should be submitted to the Purchasing Unit’s office no later than Tuesday, March 1, 2022, by 5:00 p.m. for first review. After that date, no guarantee of bid award in the current fiscal year, unless a schedule has been submitted and agreed to by Purchasing. Last date for bid openings: Tuesday, April 12, 2022; last date for Council award: Thursday, May 26, 2022. Last day for posting notice of staff determination is Thursday, May 19, 2022. (bid evaluation must meet new council item submissions deadline)

  The Purchasing Unit will continue to process projects that do not require award during the current fiscal year in its normal course of business for award in July and later.

- **Requisitions** (not Purchase Orders/Requisitions) must be in the Purchasing Unit, as follows:

  (a) For minor capital and other one-time expenditures: Wednesday, June 1, 2022 by 5:00 p.m.

  (b) For supplies and other purchases: No deadline, but unable to guarantee timely processing if received after Wednesday, June 1, 2022.
Requisitions received for category (a) after the deadline will be returned to departments/divisions of origin and will be processed only as emergency items with BMSD’s written approval.

- **Emergency Purchase Orders ("EPs")** for the current fiscal year will be processed as long as the charges were incurred prior to Sunday, June 19, 2022 by 5:00 p.m., the clients have entered the Purchase Order into the system, and the invoice is received in the Purchasing Unit Office by 4:00 p.m., Monday, June 20, 2022 (the last day Finance accepts payment). Unless prior arrangements are made with Purchasing and Finance, all items received after that date will be returned to the departments/divisions for re-submission and processing in the next fiscal year.

- **Informal Bids (under $149,000)** to be billed before June 22, the deadline is Friday, April 1, 2022.

  Informal Bids (under $149,000) to be encumbered before June 22, the deadline is Friday, April 1, 2022.

**INFORMATION SERVICES DIVISION (ISD)**

- **Unbudgeted Form 10X requests** are due in ISD by Friday, May 6, 2022. Submissions for quotes after this date will not guarantee processing before June 30, 2022. Please plan accordingly.

**COMMUNICATIONS DIVISION (ISD)**

- **Unbudgeted Form 10C requests** are due to the Communications Division by Friday, May 6, 2022. Submissions for quotes after this date will not guarantee processing before June 30, 2022.

**FACILITIES**

- **Unbudgeted Form 10 requests** are due to Facilities by May 2, 2022. Submissions after this date may not be processed before June 30, 2022.

**TRANSPORTATION**

- **Unbudgeted Public Safety Fleet Form 11 requests** are due to the Department of Transportation by March 1st. Submissions after this date will not guarantee processing before June 30.

- **Unbudgeted Municipal Fleet Form 11 requests** are due to the Department of Transportation by March 1st. Submissions after this date will not guarantee processing before June 30.
Account Definitions—Revenues

RESOURCES AVAILABLE FROM PRIOR YEARS

Amount transferred from fund balance and all prior-year adjustments.

30101  Transfer from Fund Balance
30102  Prior Year Adjustments

LOCAL TAXES

General taxes over which the City has some degree of control.

Property Taxes: 31101 – 31110

Ad valorem taxes on property; however, the state may provide a subvention for all or a portion of the tax.

31101  Household Tax Exempt-St Subvent
31102  Real & Secured Pers-Current Yr
31103  Unsecured Personal-Current Yr
31104  Property Tax Penalties
31105  Delinquent Tax, Penalty, Interest
31106  Secured Pers-Override
31107  Unsecured Pers-Override
31108  Supplemental Roll
31109  Other Property Tax
31110  VLF Swap - County

Franchise Taxes: 31821

Fees the City collects for the right of access to the public right-of-way.

31821  Franchise Fees

INTERGOVERNMENTAL

Revenues received from other governments in the form of grants, allocations, entitlements, and shared revenues which are not charges or costs of City services or loan repayments.

Allocations and Entitlements—Revenues generally made available to the City on the basis of an established formula set by legislation, rather than on a competitive basis. For federal, this includes Community Development Block Grant funds.

Grants—Grants, sometimes referred to as grants in aid, received from another jurisdiction upon application for a one time project and/or in competition with other agencies for funds.
Account Definitions—Revenues

**Shared Revenues**—Specialized revenues that are levied and collected by one level of government and shared with other levels of government. Occurs mostly with respect to state taxes.

**Other Revenue**—All other revenue (under the appropriate agency) except governmental charges and revenue from vehicle code fines.

**Federal:** 33101, 33104, 33107, 33110, 33114, and 33117-33120

Includes allocations and entitlements, grants, shared revenue, and other revenue as described above.

- 33101 Fed-Allocation & Entitlement
- 33104 Fed-Grant
- 33107 Fed-Home
- 33110 Fed-Miscellaneous
- 33114 Federal Reimbursement
- 33117 NSP Program Income
- 33118 Build America Bonds (BAB) Subsidy
- 33119 Advertising Program Income
- 33120 Misc. Program Income

**State:** 33401 - 33402, 33504 - 33509, 33513 - 33517, 33523 - 33524, 33526 - 33528 and 33530

Includes allocations and entitlements, grants, shared revenue, and other revenue as previously described above.

Loans and Repayments (within the City): 39303 - 39304

Receipts of loan proceeds and loan repayments from another City fund. Loan proceeds and repayments from other agencies are placed in the Other Revenue Object (see sub-objects 3925 and 3926, old line items 3975 and 3976).

- 39303 Loan Proceeds (Within City)
- 39304 Loan Repayment (Within City)

Fixed Reimbursement for Services (Non-ISF): 34001

Revenues to a division for services provided to other divisions on a regular basis, excluding ISF charges.

- 34001 Fixed Reimb from Non-ISF Div

Variable Reimbursement for Services (Non-ISF): 34002 - 34004

Revenues similar to those for Fixed Reimbursement for Services, except that payments are made for specific services requested by the user of the services.

- 34002 Variable Reimb from Non-ISF Div
- 34003 Overhead Reimb from Capital
- 34004 Equipment Reimb from Capital

Other Intragovernmental: 39020 and 39021

Specialized intragovernmental revenue. For example, revenue that a division receives for property and liability losses and Workers’ Compensation returned salaries.

- 39020 Liability Losses
- 39021 Property Losses

OTHER REVENUE

Revenues which cannot be reasonably placed in any of the above categories. This includes interest, private donations, disposal of assets, etc.
Account Definitions—Revenues

**Interest: 36101, 36102 and 36104**
Interest earned by funds from the investment of unused fund balances by the City, as well as other, specifically identified interest.

- **36101** Interest
- **36102** Interest Fr County On Prop Tax
- **36104** Loan Repay - Int/Ot. W/in City

Account Definitions—Expenditures

54000  Purchased Property Services—continued

54302  Outside Repair and Maintenance--Other Improvements
      Repair or maintenance by private vendors of alleys, streets, runways, traffic control devices, concrete walks, curbs, gutters, sprinkler systems, and road barriers.

54303  Service Contracts--Office Equipment (For Central Printing Division use only.)
      Service contracts on typewriters, registers, mailing machines, and other office equipment; copiers.

54304  Outside Repair and Maintenance--Vehicles
      Any vehicle repair or maintenance done by commercial firms.

54305  Outside Repair and Maintenance--Equipment
      All equipment, except office service contracts and vehicles.

54306  Security Services
      Payment for FAX Security Services

54411  Space Rentals
      Office and storage rentals not included in fixed interdepartmental charges.

54421  Equipment Rentals--Except Office
      Rental of equipment other than office equipment

54501  Buildings and Improvements
      Repair parts and materials for buildings, fences, underground pipes, wiring, sprinkler systems, chemicals for pools, sewage digestion plant, road barriers, etc.

55000  Other Purchased Services

55201  Insurance Payments
      Insurance premiums paid directly to carriers and agents (not payments into the self-insurance funds).

55301  Communications (For Electronics and Communications Division use only.)
      Charges for long distance calls, toll calls, leased lines, and telephone answering services.

55501  Printing and Binding--Outside Vendors
      Printing, art work, die cuts, and stencils by outside vendors.

55801  Training
Account Definitions—Expenditures

55000  **Other Purchased Services—continued**

Job related training reimbursement, plus related travel costs, or rental of movies and equipment for training.

55802  **Council Expenses Allowance**

City Council monthly expenses only.

55803  **Travel and Conference Expense**

Travel expenses, registration fees, lodging, and subsistence for conferences and conventions.

55804  **Miscellaneous Subsistence Expenses**

Miscellaneous subsistence expenses incurred in accordance with guidelines established in the Administrative Manual, Instruction No. 5 3.

55805  **Mileage Reimbursement-Nonrecurring**

Reimbursement for nonrecurring use of employee’s personal vehicle in connection with daily operations.

56000  **Supplies**

56101  **Clothing and Personal Supplies**

Badges, safety and protective clothing, safety equipment, safety glasses, and first-aid supplies for employees.

56102  **Office Equipment–Under $300**

Staplers, trays, lamps, calculators, stools, etc., which are not carried on the fixed asset inventory.

56103  **Copiers**

Charges for the acquisition and maintenance of copiers, including supplies such as paper and toner (only for single-user copiers). Departments estimate their own.

56104  **Freight**

Drayage, express, and freight charges (not related to the purchase of supplies and equipment).

56105  **Small Tools for Field Operations**

Expendable tools not exceeding $300 each (e.g., water hose, brushes, tape measures, shovels, etc).

56106  **Postage**

Stamps, postage purchased for meters, and permits.

56107  **Office Supplies**
Account Definitions—Expenditures

56000  Supplies—continued
Pencils, paper supplies, ribbons, and diskettes for office equipment, staples, bottled water, etc.

56108  Photographic Supplies and Processing
Film and developing chemicals, photo lab supplies and expendable equipment, and film developing services.

56109  Office Equipment Rentals
Rent for small office equipment such as telephone answering machines, etc.

56110  Computer Software
Packaged computer programs that allow specific functions to be performed on programmable equipment such as electronic spread sheet, project management, database management, graphics, etc.

56111  Specialized Operating Materials
Paint, brushes, etc., for the Anti-Graffiti Program

56112  Cleaning and Janitorial Supplies
Shop towels, rugs, cleansers, brooms and mops, etc.

56113  Rock and Mineral Products
Road oil and similar supplies, gravel fill, cement and concrete.

56114  Specialty Chemicals and Gases
Chemicals and gases such as chlorine, coagulants, hydrogen chloride, ferric chloride, etc., used for processing water.

56115  Materials and Parts--Vehicles
Tires, tubes, wheels, starters, etc.

56116  Materials and Parts--Equipment
Equipment and machinery replacement parts and supplies.

56117  Provisions and Forage
Feed for animals.

56118  Dormitory and Kitchen
BUDGET PROCEDURES MANUAL (BPM)

Account Definitions—Expenditures

5600 Supplies—continued

Supplies and utensils for dormitories and kitchens.

56119 Ammunition

Ammunition used by Police, and security personnel (not for acquisition of weapons).

56120 Athletic and Recreation

Expendable supplies for programs.

56121 Inventory

Purchase of operating materials and supplies for stock or resale. Only for divisions maintaining inventory control and material charge-outs on billings or time cards (i.e., Fleet Management, Central Services, Transit, and Electronics and Communications).

56122 Laboratory and Medical Supplies

First-aid supplies for public (excluding those for employees), veterinary supplies, and expendable lab and chemical supplies.

56123 Materials & Parts – Building & Improvements

Repair parts and materials for buildings, fences, underground pipes, wiring, sprinkler systems, chemicals for pools, sewage digestion plant, road barriers, etc.

56124 Materials & Supplies—Tires

56240 Oils and Lubricants

Oil and lubricants for vehicles and other equipment (e.g., mowers, pumps, etc.).

56260 Gasoline

Gas for vehicles and other equipment (e.g., mowers, pumps, etc.).

56261 Diesel Fuel

Diesel fuel for vehicles and other equipment.

56262 Alternative Fuel

Alternative fuel for vehicles.

57000 Property

57101 Land Acquisition

All costs associated with the appraisal, escrow and realtor fees, and the acquisition of real property. Includes lease/purchases of real property.

Account Definitions—Expenditures

57000  **Property—continued**

57422  **Replacement Vehicle Acquisition**

Purchase of replacement vehicles not subject to a depreciation schedule or Fleet Management Replacement Program.

57423  **Replacement Fleet Acquisition**  (For Fleet Management Division use only.)

Purchase of replacement, not additional, equipment and vehicles.

57431  **Furniture and Fixtures**

Costs for furniture and fixtures for such things as fire stations, new buildings, and paramedic services identified by specific capital project.

57502  **Planning/Project Development**

Costs associated with the planning phase of major capital improvements.

57503  **Engineering and Design**

Costs associated with the engineering and design of major capital improvements.

57507  **Contract Construction**

All costs associated with the construction of major capital improvements not broken out in other line items. Such costs will primarily be for construction contract and subsequent change orders.

57509  **Relocation**

All costs associated with the relocation of residents and businesses eligible for relocation benefits.

58000  **Other Objects**

58001  **County Jail Booking Fees**

Fees paid to the County of Fresno to cover the cost of booking prisoners into the County Jail.

58002  **Outside Agency Support**

Sub-object is used to approp funds authorized by the Council for distribution to outside agencies.

58004  **Special Projects**

One-time expenses with an established beginning and ending point and a particular scope of well-defined activities (not a contingency).

58005  **Miscellaneous Expenditures**

Expenditures not otherwise classified (e.g., ice, batteries, police riot unit expenses, and law and
Account Definitions—Expenditures

58000  **Other Objects—continued**

library books).

58007  **Witness Fee Payment/1099**

Payments made by the City to expert witnesses giving testimony at trials. This sub-object was established to meet IRS reporting requirements.

58008  **Oral Board Reimbursement**

Reimbursement of expenses (such as overnight lodging) to individuals serving on City Oral Boards. This sub-object was established to meet IRS reporting requirements.

58009  **Vehicle Accident Repair--Fleet** (For Fleet Management Division use only.)

Repairs by or for Fleet Management as a result of accidents involving City-owned vehicles and equipment.

58010  **Taxes and Bond Premiums**

Property and irrigation taxes and premium payments for bonds.

58011  **Debt Redemption**

Current bond and interest maturities (sewer, convention center, etc.) and designated loan repayments to other than City or agency funds. (Not to be used by the Fresno Redevelopment Agency, see account 58013 or loans to other City funds, account 58012).

58012  **Loans from City to Outside Agency**

Loans from City fund(s) to outside agencies, including the Fresno Redevelopment Agency (FRA).

58014  **Landfill Tipping Fees**

Fees charged for use of County landfill.

58015  **Petty Cash--Initial Increase**

The function of the Petty Cash sub-object changed as of FY 1991. This account will be used only once at the beginning of each fiscal year to establish a petty cash amount. Direct Vouchers (RFPs) to replenish the cash amount should be made to charge expenditures to the appropriate expenditure account. No charges should ever be made to this account.

58016  **Membership and Dues**

Expenses for dues, professional licenses, etc.

58017  **Subscriptions and Publications**

Costs of monthly magazine subscriptions, periodicals, books, and other printed publications.

Account Definitions—Expenditures

58000 Other Objects—continued

58616 Project Grants (State Funds)
Project grants funded with State funds.

58620 Loans within the City
Costs Associates with Loans within the City.

59000 Interdepartmental Charges

59101 Variable Interdepartmental Reimbursements to the General Fund
Variable charges for services and materials furnished by General Fund activities.

59102 City Attorney--Fixed Charge
Fixed charges for legal services provided by the City Attorney’s Office to other City departments.

59104 Admin Charges
Charges for administration support provided by the Administration Divisions of General Services, Personnel Services and Finance to their respective divisions.

59105 Purchasing--Variable Charge
Variable charges for Disadvantaged Business Enterprise (DBE) services and capital buying services provided by the Purchasing Division to other City departments.

59111 Revenue Division/UB & C
Fixed charges for collection services provided by the Revenue Division to other City departments.

59112 Variable Interdepartmental Reimbursements to Enterprises
Variable charges for services and materials furnished by Enterprise Fund activities.

59116 Equipment Usage

59117 Overhead

59120 Facilities Repair and Replace Projects
Major capital repairs identified and approved by the City Manager.

59201 Fixed Interdepartmental Reimbursements to the General Fund
Fixed charges for services and materials furnished by General Fund activities. (For Variable Charges see account 59101).

59202 Fixed Interdepartmental Reimbursement to Public Utilities
Charges for services provided by the Administration Division of the Department of Public Utilities.
59000 Interdepartmental Charges—continued

59302 Information Systems Service Charge
Charges for the Information Center, the City's mainframe computer operations, and general support
from the Information Systems Division.

59303 Information Systems Equipment Charge
Charges for equipment and maintenance paid to the Information Systems Equipment Fund, including
communications and distributive data processing equipment.

59304 Property Self Insurance Charges
Charges for property self insurance.

59305 Liability Self Insurance Charges
Charges for liability self insurance.

59306 Charges for Messenger Mail/Copier Services
Costs associated with messenger services. Charges for the lease/purchase and per-copy cost of copiers
by Central Services.

59307 Charges for Telephone Services
Standard charges for telephone installation, rental, and maintenance provided by the Electronics and
Communications Division. This includes adds, moves, and changes under $300; but this does
not include long-distance or leased lines. This account also includes each user's share of the debt
service for the acquisition of the system. All costs for taxes and long-distance costs will be included
in this account. All costs for adds, moves, and changes of telephone equipment and lines exceeding
$300 will be budgeted in this account.

59309 Facilities Management Charges
Standard charges for building and electrical maintenance on City facilities provided by the Facilities
Management Division.

59310 Non-Recurring Special Project Charges
Facilities costs for special projects completed under the direction of the Facilities Management Divi-
sion.

59311 Fleet Depreciation Charge
Fixed amortization charge for City vehicles and equipment paid to the Fleet Acquisition Fund for future replacement.

59312 Fleet Services Charge
Variable expenses for operation and maintenance of City vehicles and equipment paid to the Fleet
Account Definitions—Expenditures

59000 Interdepartmental Charges—continued

Management Division.

59314 City Hall Rent

Charges for the space rental at City Hall (includes only the debt service portion).

59315 Employee/Visitor Parking Permits

Monthly charge for parking at City Hall area lots for departments with vehicle allowance participants, official vehicle permits, and E-plate vehicles.

59316 Fleet Acquisition - New/Add/Upgrade

Purchase of new/additional and upgraded equipment and vehicles which will be on the Fleet Management Division’s inventory (e.g., trucks, autos, trailers, tractors, etc.).

59317 Fleet Special Projects - NonAuto

Variable expenses for welding, fabrication, generator PM’s, distribution of gasoline in cans, Taxi Cab inspections, and all “non-auto” related charges.

59318 Fleet Pool Vehicle Rental

Variable expenses for operation and maintenance of City vehicles and equipment belonging to the Fleet Management Division’s motor pool. Also, for rental of vehicles and equipment (e.g., forklift, backhoe, loader, etc.) through outside equipment rental agencies.

59319 Fleet Lease/Purchase Payment

Fixed charges for required lease payments for City vehicles and equipment acquired through the City’s Master Lease Agreement. Fleet Management pays committed lease payment and subsequently bills department for reimbursement.

59322 PeopleSoft Replacement Charge

Fixed charges for the replacement of the Citywide Financial and Human Resources System.

59323 Network Replacement Charge

Fixed charge for the replacement of the Citywide network.

59324 Desktop

Debt Service Payment for Leased Computer equipment.

59325 Fleet Fuel Charges

Variable expense for fuel acquired by Fleet Management and distributed to client departments.
Account Definitions—Expenditures

59000  Interdepartmental Charges—continued

59326  **10C & 10X Charge**
Interdepartmental charge account for telephone or computer acquisitions.

59327  **Security Assessment Charges**
Interdepartmental charge for security assessments.

61000  **Contingencies**

61001  **Contingency/Reserve**
Amount set aside to cover possible future operation, maintenance or capital costs. **(Note: NO expenditures can be made from this account; funds must be transferred to the applicable account of expenditure only by appropriation resolution authorized by City Council).**

61003  **Attrition Sweep**
For BMSD use only.

63000  **Insurance Claims, Refunds**

63101  **Refunds & Claims**
Refunds, Reimbursements, and property damage and liability claims.

63201  **Subrogation Recoveries**
Reimbursements received on previously paid Workers’ Compensation claims.

63202  **Risk Mgt. Recovery – Property**
Reimbursements received on previously paid property damage claims.

63203  **Risk Mgt. Recovery – Liability**
Reimbursements received on previously paid general liability claims.
Access Budget Formulation & Management (BFM)

BFM Link:
http://10.1.35.193/BFMPROD/default.aspx

Link accessible through *Internet Explorer*

![Internet Explorer icon](image)

**Note:** It is recommended to set the BFM address as a favorite once the following initial screen is displayed.

**BFM Main Screen:**

![BFM Main Screen](image)
Login with initial Password

Highlight the Main Menu tab and move cursor to highlight Login as well.

Enter assigned BFM User ID and initial Password.
Change BFM Password

Highlight “Update My Account” from Main Menu tab.

Select the “Edit” button
Select “Password” tab and click “Update Password” button.

Enter current Password: (i.e., initialpassword)
Enter New Password: (i.e., Sie1roH3nry)
Reenter New Password: (i.e., $ie1roH3nry)
Select “Update” button.
You’ll receive following dialog box if password successfully changed.
Entering Dollar Type Entries into the BFM System

Dollar type entries correspond to Non-position budget entries. Position budgeting will be covered under the Personnel Cost Forecasting (PCF) section. The following will discuss the procedures to enter dollar type entries through forms within the Budget Formulation and Management (BFM) system. Three forms will be made available during specific points in time during the budget process which are as follows.

- A1 CY Oper & DS Est (100): FY 2022 Non-capital revenue and expenditure estimates.
- A2 Base Submission (200): FY 2023 Non-capital revenue and appropriation budgets.
- C2 Preload Capital Form (700): FY 2023 Capital revenue and appropriation budgets.

A BFM user will enter estimate or budgeted data through the following path:

- Select a Form (Form 100-estimates, 200-non-capital budgets, or 700-capital budgets).
- Within a selected form, select an Instance. Instances are structured at department or division level.
- Within an instance, select the data entry screen to enter estimate or budgeted amounts. For Forms 100 & 200, amounts entered need to be assigned to a section #, fund #, and account #. For Form 700 (capital), budgeted appropriations will also need to be assigned to a project ID # along with an activity and resource codes.

The following discussion will provide instructions on building your FY 2022 estimates through the “A1 CY Oper & DS Est” or Form 100.

Select a BFM Form

Move your cursor and highlight “Budget Formulation” tab.
Move cursor to “A1 CY Oper & DS Est (100)” and click to open to enter your non-capital estimates.
Select a BFM Instance
Based on your User ID organization access rights, a list of Instances assigned to User ID will be displayed. For example, the following list is provided for User ID XYZ.

Navigating through an Instance
Select an “Instance Name”:
Navigational options:

1) Use page arrows >> and Scroll Bar if list of Instances result in multiple pages.
Quick Search

Or, 2) use Quick Search (i.e., enter 52 to find an Instance associated with Finance Divisions).
Note: BFM System looks for “52” under all columns.

2a) use org# with dash line “-” in Quick Search (i.e., 52- to find Finance Divisions) to focus search under Instance Name column.
Quick Search on specific division (i.e., 5203 for Budget division displays 520300):

Accessing an Instance’s Data Entry Screen
Under the “Actions” column, the “Header” and “Detail” buttons provide access to the data entry screen for selected division.
"Detail" vs. "Header" Buttons

Selecting the “Detail” button will take you directly to the data entry screen.

Clicking on “Header” button will also provide access to a data entry screen; however, this button navigates through multiple screens or tabs such as stage verification, Header Detail, Attachments, System Maintained as well as Estimates or the data entry screen. The following pages provide additional description of these various screens.
Stage Verification

**No need** to change the stage; this will be centrally administrated.

Move cursor and Click on “Next.”
Four tabs for an Instance
1. Header Detail
2. Attachments
3. System Maintained
4. Estimates

Header Detail
Read-only view of the Instance’s specifics (i.e., Form Definition number and name, Header Organization, and Stage Code).

Attachments
The tab allows for supporting documents associated with data entry calculations for specific Instance (i.e., 520300) to be forwarded to the Budget Office. This tab is currently not required for use.
System Maintained

Provides time and user access for specific Instance (i.e., identifies which User ID last updated Instance).
**Estimate**
Access to data entry screen, which is called the “Budget Form Entry- Lines Screen.”

The Budget Form Entry - Lines screen is where you will enter your estimates.

![Budget Form Entry - Lines Screen](image-url)
Instance layout – Data Entry Screen

Three types of columns: Dimension, Read-only, and Data entry.

**Dimension** columns: org/section, fund, and account; data saved for selected dimension combination. **Read-only** columns: 2022 Adopted, Amended, and Actuals. **Data entry and Text** columns: 2022 Field Estimate and 2022 Budget Office Estimate.

Note: Departments are to enter their estimates in the 2022 Field Estimate column. Budget Staff are to enter adjustments, if required, in the 2022 Budget Office Estimate column. Entries made by a department and/or the Budget Office will be combined in the 2022 Current Year Estimate column.

**PLEASE NOTE** - dates in screenshots are not updated.
Three Options to Enter Data
Updating this screen can be completed either by manual entry or through an import process.

Option 1: Direct Manual Entry
Double click on targeted line to enter data. Data and text cells are displayed.

PLEASE NOTE - dates in screenshots are not updated.
Highlight current data entry in row 6 currently set to zero or 0; replace with new data entry. **Note:** the current entry will be merged with revised entry if current entry not highlighted.

Enter your data entries rounded to the nearest $100 with no “$” sign or “,” commas. **Note:** BFM will automatically round data entry if entered as whole numbers. For example, an expenditure estimate of 13164 for line 520301/10101/51102 along with text entered.

PLEASE NOTE - dates in screenshots are not updated.
Targeted line identified as “Modify.” Budget & Estimate number for this line is in red pending posting to system. Click the “Save All” button to post entry.

Note: Modified line(s) will be lost if BFM User clicks on a page button before saving.

Data entry 13164 saved as 13,200. BFM will indicate a successful posting with two indicators. The system will provide a short message and modified line color change from red to black.
Budget Form Expense Line History
Click on “Magnifying Glass” to view Detail Line History (Audit Trail).

Detail Line History
Data entry and justification displayed as two separate lines.
Click “Close” button to return to “Budget Form Entry – Lines” screen.

PLEASE NOTE - dates in screenshots are not updated.
Click on targeted Line, highlight current entry (i.e., 13,200) and revise estimate entry to 14659 for dimensions 520301/10101/55102.

Click the “Save All” button to post data entry #2 to BFM DB.

PLEASE NOTE - dates in screenshots are not updated.
Data entry 14659 saved as 14,700.

Click on “Magnifying Glass” to view Audit Trail.

Detail Line History shows the incremental amount for entry #2 (13,200 initial entry #1 + 1,500 incremental change #2 = 14,700 absolute or revised entry). Note: data entries and justifications are displayed separately.
Option 2: Data Entry through “Edit” button

Create data entry #3 with “Edit” button.

To revise entry, highlight entry bubble or “x” to left side of screen to update with a revised amount.

PLEASE NOTE - dates in screenshots are not updated.
Enter revised amount (i.e., data entry #3 = 12000) to replace the current or original 14,700 estimate. Also, add audit text identifying revised entry. Click on “Update” button to save entries.

Note: Do not enter incremental amount (-2,700= 14,700 original less 12,000 revised); otherwise, the absolute estimate will be a negative 2,700.

Revised 2022 Field Estimate and Current Year Estimate displays 12,000. Select “Magnifying Glass” to view Audit Trail of cumulative estimate entries for 520301/10101/51102.

Note: As mentioned at the start of the estimate section, departments are to enter their estimates in the 2022 Field Estimate column, while Budget staff are to enter adjustments in the Budget Office Estimate column. Entries from a department and /or Budget staff will be combined in the FY 2022 Current Year Estimate column.
The Budget Form Expense Line History screen summarizes the various entries. Entry #1 displayed as absolute amount, while entries #2 & #3 as incremental. Note that entry #3 per “Edit” screen also reflects dollar entry and justification text on same line.
Option 3: Data Entry by Import Function

The BFM system allows for data entry into a data screen through an export and import process. In the “Budget Form Entry – Lines” screen, select “Export to Excel” to create an import template.

Select “Yes” to open export file in Excel.

PLEASE NOTE - dates in screenshots are not updated.
The Excel template will include dimension columns (i.e., org, fund, and account), data entry columns (i.e., 2022 Field Estimate and 2022 Budget Office Estimate), and Text column.

Save template to your PC. For example:
Location: Desktop
File Name: Form 100_Export Test
File Extension: Excel Workbook (*.xlsx)
Import sample #1 – Entries for Existing Dimensions
For example, 1000000 entered for 520301/10101/51101 (data entry #4)
39899 entered for 520301/10101/51103 (data entry #5).

</tbody>
</table>

Save Excel file in order to import data entries #4 & #5 into Instance 520300.

Toggle back to BFM system and select “Import Lines from Excel” to begin import process.

PLEASE NOTE - dates in screenshots are not updated.
Click “Browse” button to select import file.

Select down arrow symbol from Look in box. Select designated location (i.e., desktop)

Select Import file (Form_100_Export_Test.xlsx and Click on Excel file.)
Select “Load Selected File” button to begin import process into designated Instance (i.e., 520300).

Import process successful if upload details are displayed in **black**. If upload details in **red**, an error as occurred.
Either click on “Close” button or the “X” button to move to “Budget Form Entry – Lines” screen. **Highly recommend** using the “Close” button.

**Note:** the “Close” button will refresh data screen with imported data, while selecting the “X” button (top right hand corner of above screen) will not refresh the data screen.

If “X” button is used, select the “Refresh” button to update the data screen.
Data entries #4 and #5 imported into the “Budget Form Entry – Lines” screen.

Select “Magnifying Glass” to view Audit Trail for 520301/10101/51101 line.

The 1,000,000 estimate and justification are displayed separately in Audit Trail screen.

PLEASE NOTE - dates in screenshots are not updated.
Import sample #2 – Invalid Dimension

Inserted a new line: 520301/10101/30104/50000 (Invalid account)

Toggle back to BFM, display “Budget Form Entry – Lines Screen,” and select “Import from Excel” to re-import.

PLEASE NOTE - dates in screenshots are not updated.
Select “Browse” to choose revised import file and click on “Load Selected File.”

Select “Load Selected File” to import data

Import Error – details in red
Import unsuccessful if upload details are in red; import data not posted to BFM DB.
Select “See Validation Results” button to identify invalid record location and dimension.

Invalid record location and dimension.

Select the “X” button to close screen.

Replace account 30104 (invalid) with an active account. For this example, account 30104 replaced with account 39015 (Miscellaneous--Other Revenue; active in BFM).

Save Excel file to upload into BFM data entry screen.
Toggle back to BFM, display “Budget Form Entry – Lines Screen,” and select “Import from Excel” to re-import.

Select “Browse” to choose revised import file and click on “Load Selected File.”

Select upload File (i.e., Form_100_Export_Test.xlsx)

Select “Load Selected File” to import data
Import process successful if upload details are displayed in **black**.
Select “Close” to review data entry screen.

Data entry screen reflects Entry #7.

---

Please note - dates in screenshots are not updated.
Import sample #3 – Import File with Blank Cell

Below a new row was inserted and saved with dimensions (org 520301, fund 10101, & account 43910) along with 25000 as Field Estimate, but a blank cell for Budget Office Estimate (cell +E5).

</tbody>
</table>

Note: a blank cell will cause an unsuccessful import.

Toggle back to BFM, display “Budget Form Entry – Lines Screen,” and select “Import from Excel” to re-import.

Select “Browse” to choose revised import file and click on “Load Selected File.”
Select upload File (i.e., Form_100_Export_Test.xlsx)

Select “Load Selected File” to import data

Import Error due to Blank Cell

Following message as a result of unsuccessful import; data not posted to BFM DB.
Selecting the “OK” button provides an error message in program language. Just know if you receive the following screens, the error is due to a blank cell in the Excel upload file.
BFM did not post data from latest import, specifically for account 43910 in the “Budget Form Entry – Lines” screen.

To correct error, enter a zero in blank cell, save file, and re-import.

Note: new record 520301/10101/43910 (row 5) placed out of sequential order. BFM will resort automatically once data is imported into the “Budget Form Entry – Lines” screen.
Toggle back to BFM, display “Budget Form Entry – Lines Screen,” and select “Import from Excel” to re-import.

Select “Browse” to choose revised import file and click on “Load Selected File.”

Select upload File (i.e., Form_100_Export_Test.xlsx)

Select “Load Selected File” to import data
Upload successful; results are in **black**.

Select the “Close” button to move to “Budget Form Entry – Lines” screen with most current upload data.

Data entries #7 for 25,000 now displayed and posted to BFM.

**Note:** BFM resorted new record (520301/10101/43910) in sequential order. This new record was placed above 520301/10101/39015 in the Excel import file.
In Import file, BFM does not require import file to have all records from the “Budget Form Entry – Lines” screen. BFM allows for import of one or several records to add to the current “Budget Form Entry – Lines” screen.

For example, one record based on 520301/10101/36101/1000/Text is saved in the import file.

It is highly recommended to use just one Import file. The use of multiple import files can result in layering in outdated data.
Re-import successful per upload details displayed in **black**.
Select “Close” button to refresh following “Budget Form Entry – Lines” screen.

New line imported; entries #1 - #8 were not affected.

PLEASE NOTE - dates in screenshots are not updated.
General Budget System Preparation

All budgeted resources (expenditures) are to be identified within the Form 1, Form 1 Summary, & Form 14. A discussion on completing these forms can be found in the Forms section of this book.

The primary objective to using this form is completing your request budget for non-centrally loaded employee services (i.e., overtime, education, etc.) as well as operational and maintenance expenditures (accounts 53XXX – 58XXX).

Please note that budget requests above the established base or current service level budget will need to be submitted via the Form 1 and entered into BFM, by the submitting department/division. Form 1’s that are not approved will be removed by your Budget Analyst.

The following pages will provide specific detailed guidance on navigating and entering information into the Budget Formulation and Management (BFM) system. Please contact your respective analyst for any information that is not currently addressed in this manual.
Select A2 Base Submission (200) Form
Move cursor and highlight “Budget Formulation” tab.
Move cursor to “A2 Base Submission (200)” Form to enter your FY 2023 operating & DS revenue and reallocate Base Budget appropriations. Starting in FY 2023, the new Form 1 Decision Package will be used for all department Form 1 requests for appropriations above and beyond Base Budget appropriations. This includes all Personnel Services Form 3 requests, Non-Personnel Services, and ID Charge Form 10-11 requests.

Click on Form 200.

Form 200 list “Instances” by division. Divisions listed will be based on your User org access rights.
Select an Instance (Division)

Similar to the Estimate Form 100, data entry screens for Form 200 Instances’ can be accessed through the “Actions” column selections. Selecting the “Detail” button will provide you direct access to the data entry screen, while the “Header” button will provide multiple screens to display the current stage level plus multiple tabs. Again, these tabs will also display header detail, attachments, system maintained, and the data entry screen.

Select “Detail” button for direct access to data entry screen.
Instance layout (Data Entry Screen)

Three types of columns: Dimension, Read-only, and Data entry.

**Dimension** columns: org/section, fund, and account; data saved for selected dimension combination. **Read-only** columns: 2022 Amended Budget, 2023 Initial Base Budget, 2023 Request Base, and 2023 Department Submission.  

**Data entry and Text** columns: 2023 Adjustments and 2023 One-Times.

**Budget Form Entry - Lines**

</tr>
</thead>
<tbody>
<tr>
<td>12652</td>
<td>200</td>
<td>120100 - City Cares Office Division</td>
<td>Base Submission</td>
</tr>
</tbody>
</table>

**Note**: The FY 2023 Department Submission column will combine data entries populated by central uploads and adjustments as displayed in the 2023 Initial and Request Base Budget columns as well as through department entries. Departments’ budget entries are to be made in columns:

- **2023 Adjustments**: Enter reclassifications for revenue and appropriation between org/fund/account combinations. Reclassifications should net to zero.

- **2023 One-Times**: Enter new requests above base budgets.
Navigational buttons include:

1. **Close**: Takes you back to previous screen.
2. **Export to Excel**: Can you be used to create a template to import data entry.
3. **Import from Excel**: Starts import process from Excel to populate current data entry screen.
4. **Refresh**: updates data entry columns per import process.
5. **Add new Lines**: Create a new line if you don’t see a specific dimension combination.

</table>
Manual Line Entry

Manual data entry can be made in similar fashion as outlined in the Estimate Form 100 section. Double click on targeted line(s) to enter data in the 2023 Adjustment or 2023 One-Times columns. For example, a negative 1000 entry made in row 6 and an offsetting positive 1000 entry made in row 5. Similar to the Estimate form, enter your data entries rounded to the nearest $100 with no “$” sign or “,” commas. BFM will automatically round data entry if entered as whole numbers.

---
Sample of "Org Code" selection. Click "Select" next to the desired Org.

Note: the selection screens for Fund Code and Account are similar to the above Org Code selection screen.

The following shows the org, fund, and account selected as well as a “One-Time” entry of 2000 with corresponding audit text. Select “Save” to post entry.

**Budget Form Entry - Add New Line**

A 2,000 entry has been saved under the “2023 One-Times” and the “2023 Department Submission” columns.

PLEASE NOTE - dates in screenshots are not updated.
Data Entry by Import Function
In the “Budget Form Entry – Lines” screen, select “Export to Excel” to create an import template.

Depending on the internet browser you use, you can receive different formats of download boxes. Below is received through Internet Explorer. Select “Open” button to create Excel template.

Excel may open the spreadsheet in PROTECTED VIEW, click on “Enable Editing” to make change to the file.
Excel template will display dimension columns (i.e., Org, Fund, and Account), the data entry columns (i.e., 2023 Adjustments and 2023 One-Times), and Column Text.

Save template to your PC. For example:
Location: Desktop
File Name: Form 200_Export
Save as type: Excel Workbook (*.xlsx)

PLEASE NOTE - dates in screenshots are not updated.
Import Example
The following example reclassifies $1,000 from 120101/10101/54411 to a 120101/10101/new account. The negative 1,000 is entered in the existing line item as a “2023 Adjustment.” In this example, a new Excel row is inserted and updated with 120101/10101/54421 with a positive 1,000 entered as a “2023 Adjustment.”

Import Notes: 1) Columns “D” through “I” cannot be left blank or an upload error will occur. Enter zeros in any blank cells in this range. 2) There is no need to adjust the “2023 Department Submission” cell as the totals in these cells will automatically update in BFM after the import is complete. 3) Save the Excel file with updates prior to starting the import process.

[Table]

Toggle back to the BFM Budget Data entry screen. Select “Import” to begin import process.

Budget Form Entry - Lines

Click “Browse” button to select import file.

Budget Form Import

[Form]
Select targeted Import file (i.e., Form 200_Export.xlsx).

Select “Load Selected File”

Results are in black indicating successful import into the “Budget Form Entry-Lines” screen.

Upload Completed:
- 30 - Records Read
- 0 - Severe Errors
- 0 - Warning Errors
- 30 - Records Uploaded
Note: Use the “Close” button to refresh the following “Budget Form Entry-Lines” screen. Otherwise, selecting the “X” button can result in data not refreshed/displayed in the “Budget Form Entry – Lines” even though import processed successfully.

“Budget Form Entry – Lines” screen updated. If “X” button used in previous screen, click on the “Refresh” button. The two example entries are now displayed and saved in following screen.

**Budget Form Entry - Lines**

<table>
<thead>
<tr>
<th>ID</th>
<th>Budget Form</th>
<th>Organization</th>
<th>Form Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>12552</td>
<td>200</td>
<td>120100 - City Clerk's Office Division</td>
<td>Base Submission</td>
</tr>
</tbody>
</table>

**Actions:**

- [Close]
- [Export]
- [Import]
- [Refresh]

**PLEASE NOTE - dates in screenshots are not updated.**

**Note:** BFM will sort accounts in ascending order within the data entry form regardless of their location within the upload form.
Potential Causes for Import Process to error out.
Potential causes as summarized below are not unique to a specific form. The following errors can affect the A1 CY Oper and DS (100), A2 Base Submission (200), A3 Base Sum Revenue Only (300), or the Preload Capital Form (700). Refer to the import process for Estimate Form 100 section to review print screens potential errors that can cause the import process to error out in any of these forms. Note that if an error does occur, the import details screen will be displayed in red and no data will post to targeted budget data entry screen.

Potential Error #1- Invalid Dimension
Inactive or transposed dimension(s) will create an import error. For example Org = 349901 (transposed) instead of 439901 (valid), or account mistyped as 30104 (Invalid) instead of 30102 (valid).

Potential Error #2 – Import File with Blank Cell(s)
A blank cell(s) in the import Excel file will also cause an unsuccessful import.
**Budget Form 1 Decision Package**

New in FY 2023, the BFM Form 200 will now only be used to reallocate existing Base Budget appropriations. The new Form 1 Decision Package is the budget form that will be used for all department requests above and beyond base budget appropriations. This includes all Personnel Services Form 3 requests, Non-Personnel Services, and ID Charge Form 10-11 requests, which will still require estimates through ISD and Fleet and attached as supporting documents to each of the Form 1 requests where applicable.

A new Form 1 will need to completed and prioritized for each individual request and should not be consolidated with other requests that should be reviewed by the Mayor/City Manager on their own merit i.e., a request for a new position that will require O&M appropriations, a phone, computer, and a vehicle should be treated as one request whereas additional appropriations for geobase tree trimming should not be consolidated with a request for additional parks maintenance lawn mowing equipment.

The Form 1 can be found in BFM under the Budget Formulation Tab by clicking on “Decision Package”:

---

**Add New:** Once a user selects the Form 1 Decision Package, click on “Add New” and complete the Form using the drop down menus: 1) “3003 - Request” is the default Stage; 2) the Org on this screen is at the Division Level, but budget appropriations will be entered at the Section Level; 3) the name is determined by the department; however, once saved, the **Name cannot be changed or updated**; and, 4) click “Save” at the bottom.

Once a Form is created and saved, a system generated “Form ID” and identical “Instance ID” will automatically be created and is
how each Form 1 request is tracked in BFM and can be found on the Decision Package home screen:

**Header Tab:** Once the new Form has been created, the department will need to complete the narrative for all of the fields noted on the “Header” Tab to include the Priority or Rank. The
ranking must be numerically sequential with numbers that do not repeat. The form will also not allow additional alphabetical identifiers such as a, b, etc.

Once all of the fields have been completed on the Header Tab, click the “Save” button and then click on the “Budget” Tab. The Budget Tab is where the department can enter the appropriations associated with the new Form 1 request. The entries should be entered in the “On-Going” and/or “One-Time” columns. The definition of On-Going expenditures are those costs associated with the request that will repeat in future years while One-Time expenditures are defined as initial startup costs like vehicle purchases and replacements, computers, phones, etc.

Entering the budget data for the new Form 1 requests is similar to the other BFM Forms in that the data can be entered manually or uploaded via the Import Tab.
Manual Data Entry: When entering the data manually for the first time, the Form will automatically populate the Line #, while all other data is entered just similar to other BFM forms. Editing form data is similar to other BFM forms by double clicking on the existing data and ensuring you click “Save All” before proceeding to the next page or closing the Form to ensure all changes are saved.

Importing Budget Data: It is recommended that the Form is exported using the Export Tab to ensure proper formatting. When populating the data in Excel, the Line # should always be entered as 1000. All data cells must be populated with exception to the Budget Line Text. Which is optional:
Creating a new record: If a specific combination of section/fund/account is not listed, you can create needed combination by clicking on “Add New” under Actions.

After clicking on “Add New” button, you’ll receive following screen:
Enter needed section (Org) Code, Fund Code, Account Code, amount (determine if On-going or 1x), and note the reason for requested appropriation under Audit Text:

Click on the “Save” button once done.

Attachment Tab: Any supporting documents such as Form 3 Position requests, Forms 10/10C/10X and Form 11s should be added via the “Attachments” Tab:
**New Position Change Tab:** At this time, all Form 3s associated with a specific Form 1 will need to be attached via the Attachment Tab and then emailed to the department’s respective Budget Analyst for entry into BFM. When requesting new positions and forwarding to Budget for entry, please be sure to enter the Form ID number and the Name of the Form 1 on the Form 3 in the Justification Section and include that same information in the email to your Budget Analyst.

**Cancelling Form 1 Requests:** If a Form 1 has been created by a department in BFM and the department no longer wishes to proceed with the request, the request will remain as a permanent record in BFM; however, the budget data associated with that request must to be zeroed out either manually or via the Import Tab.

**Decision Package Ranking Form**

The Decision Package Ranking selection is designed to give the departments a summary overview of all of the current Form 1 entered, the ranking and appropriation totals for the Ongoing and One-Time requests as well as the FTE of any positions requested:

![Decision Package Ranking Form](image)

**Printing and Submission of Form 1 Details and Summary**

Printing Form 1 detail and summary pages in preparation for the budget submission can be found through the BFM Reporting link:

![BFM Reporting](image)
Once in BFM Reporting, locate the Budget folder and Reports 222 and 223 can be found toward the bottom of the menu:

An example of **Report 222 – Decision Package Detail** can be seen on the following page. This report provides the department with an itemization of the details associated with each of the Form 1 requests. This report should be printed and provided as a supporting document to the department’s Form 1 summary report.
Decision Package Detail

Request Title: FWSM-2 Concrete Power Screed  Internal Form Number:  Priority #: 5
Department: 181500 - Street Maintenance Division  Division: 181500 - Street Maintenance Division  Form #: 14287

Mayor's Priority
Citywide Beautification

Description
Replace (1) Concrete Power Screed.

Justification
Current equipment (#7100/3) is a 2006 model and has been non-operational for over two years.

Impact If Not Approved
A power screed can be used in place of a man powered screed, which can increase efficiency and volume by a factor of eight. The department has not had the ability to replace the current equipment therefore total concrete production has been decreased for two years.

</table>
For Capital Project Budgeting & Tracking – Project Managers (PrjMgrs) are identified for each Capital Project. Within the parameters and direction set by the City Manager, Department Heads, Division Managers and BMSD, the Project Managers are responsible for the fiscal and physical management of their project(s).

With assistance as required, Project Managers are responsible for planning, managing, monitoring, and reporting on project activities. They are expected to ensure the validity of transaction data and its consistency with financial accounting and budgetary requirements to include: Working with BMSD to make sure only currently active structure is available for transaction input; that Standard Capital Activities are used; and, that non-Standard Capital Activities are only used following identification of specific needs and with BMSD approval.

Tools used in the Capital Project Budgeting and Management process should be consistent with the City’s choice to use PeopleSoft Project Costing and the BFM budgeting system. While a variety of tools like Access, Excel, MS Projects, etc. are appropriate in the overall process, Departments, BMSD, and ISD should work together to minimize redundancy and optimize the effectiveness of Capital Project Management.

All new Capital Projects require BMSD approval both during and outside the annual budget building process. These new projects will be created using Standard Capital Activities with non-Standard activities allowable with BMSD approval.

Project Managers or other department staff is required to communicate the inactivation or closure of existing Capital Projects.

**Capital Budgeting in BFM**

Capital budgets are created in BFM using a combination of PeopleSoft (PS), General Ledger (GL) and Project Costing (PC) structure. The budget build will create the Appropriation Control budget for Capital Orgs, Funds and Projects. The Capital Project budgets go through the scrutiny of the Budget Division, City Manager, Mayor and Council along with the Operating budgets. Once adopted, Capital Project budgets are exported to the PS PC module in detail and summary formats.

The PS PC Module is used to capture cost details, provide cost and revenue matching for grants, and to facilitate managerial analysis of activities for operating and capital activities. BFM has been developed to provide a Project Costing environment for Capital Projects budgeting that is consistent with GL Fund, Accounting and Appropriation Control. The building of capital budgets in BFM includes the requirement of identifying a minimum of Fund-Org-Account-Activity detail, with the capability for budgeting down to the Resource Type detail, and provisions of notation areas for reference and description.

*PeopleSoft appropriation control of expenditures will be at the project level*  

If a project has insufficient funds for expenditure, payment requests will be rejected by PS. The practical effect of this change is that departments are required to use an Appropriation Transfer (AT) form to move funds from one project to another within the same fund/org.
Existing elements of Fund, Org, Account, and Activity will be required for each capital project. This information should only be entered once for each project. The supplemental information of Project Descriptions, Council District, General Plan Area, Function and Status will be entered via the Information Edit Screen in BFM.

**Financial Information**

Accurate estimation of revenues and expenditures will provide the best possible information about the financial situation of your organization for the upcoming fiscal year. The budget for the upcoming fiscal year will be constructed using the PeopleSoft structure. Expenditure and revenue summary reports that include expenses, encumbrances, and projection columns are available through the COF Reports option of the PeopleSoft Financials. Contact Finance for questions related to access, structure or column calculations.

**General Navigation in BFM Capital**

**Year 1 (FY 2023)** – Input amount rounded to nearest $100 requested. Starting with a $0 base for each project, detail accounts should be used. Detailed instructions on utilizing the forms can be found under the Capital Budgeting Form—C2 Preload Capital Form (700) in this book.

**Year 2 through Year 5 (FY 2024 through FY 2027)** – Input amount rounded to nearest $100 planned. Detailed instructions on utilizing the forms can be found under the Capital Budgeting Form—Capital Form (700) in this book.

**Supplemental Information**

The format of the capital presentation will require that some additional information be obtained related to each project. This process has not yet been finalized as of the publishing of this document, further direction will be provided by the Budget and Management Studies Division at a later time.
**Entering Capital Budget Dollars**

Move cursor and highlight “Budget Formulation” tab.  
Move cursor to “C2 Preload Capital Form (700).”  
Click on Form 700 to enter your FY 2023 capital project revenue and expenses.

Form 700 list instances are structured by department. The department listed will be based on your User org access rights. The following instructions will be based on the PARCS Department as an example.

**Accessing an Instance’s Data Entry Screen**

Under the “Actions” column, the “Header” and “Detail” buttons provide access to the data entry screen.
“Detail” vs. “Header” Buttons
Similar to Estimate or non-capital forms, selecting the “Detail” button will take you directly to the data entry screen, while “Header” button will navigate you through multiple screens and tabs (Stage Verification and Header Dimensions) prior to accessing the data entry screen.

Instance layout – Data Entry Screen
Three types of columns: Dimension, Read-only, and Data entry.

Dimension columns: Project, Org, Fund, Resource, Activity, and Account; data saved based on dimension combination for a given row.

Read-only columns: 2022 Adopted Budget data and 5 Year Project Total (not shown).

Data entry and Text columns: 2022 Year End Estimate plus five years of capital budgets (FY 2023 thru FY 2027).

Budget Form Entry - Lines

Note: For ease of viewing these instructions, the above capital data entry screen does not display all columns, such as the 5 Year Project Total, and Budget Line Text columns.
Navigational buttons include:

1. Close: Takes you back to previous screen.
2. Export: Can you be used to create a template to import data entry.
3. Import: Starts import process from Excel to current data entry screen.
4. Refresh: updates data entry columns per import process.
5. Add New: Create a new line if you don’t see a specific dimension combination.
6. Copy: Create a copy of a specific line.
7. Show Filter: Opens filters to help locate specific Project, Org, Fnd, Resource, Activity and Account dimensions.

Two Options to Enter Data
Similar to the BFM estimate and non-capital forms, Updating this screen can be completed either by manual entry or through an import process.

Option 1: Direct Manual Entry
Data entry can be made directly into the “Budget Form Entry – Lines” screen. Keep in mind that this screen can have multiple pages of rows. You’ll need to view each page by with the page forward and back buttons. To find a specific combination of dimensions (fund/org etc.), utilize the filters.

**PLEASE NOTE - dates in screenshots are not updated.**

122
Clicking into a different row will cause the data previously entered to turn **RED** to remind you that you have not yet saved the entry. Click the “Save All” button to save the entry. **If you leave the page without clicking "Save All" your data will not post into the system.**

### Notes:

- If you click to the next or previous page buttons before clicking "Save All" your entry will not be saved in the system.
- If you need to add a new line with the "Add New" button, be sure to include an Activity Code in the entry. Appropriation entries **need** an **Activity code** not equal to 0 (zero) in order to upload the entry into PeopleSoft Financials as part of the final adopted budget.

After clicking "Save All" your entry will be displayed in black with a message that these entries have posted.

Please note - dates in screenshots are not updated.

After saving the entries, they will change to black.
### Option 2: Capital Entries by Import Function

In the “Budget Form Entry – Lines” screen, select “Export to Excel” to create an import template.

**Budget Form Entry - Lines**

```
<table>
<thead>
<tr>
<th>ID</th>
<th>Budget Form</th>
<th>Organization</th>
<th>Form Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>1234</td>
<td>700</td>
<td>179000 - PARCS Department</td>
<td>C2 Preload Capital Form 16</td>
</tr>
</tbody>
</table>
```

**PLEASE NOTE - dates in screenshots are not updated.**

Depending on the internet browser you use, you can receive different style of download boxes. Below is received through Internet Explorer. Select “Open” button to create Excel template.
Excel template will display dimension columns (i.e., Project, Org, Fund, Resource, Activity, and Account), data entry columns (i.e., FY 2022 Year End Estimate plus 2023-2027 Capital Projects), and Text column.

PLEASE NOTE - dates in screenshots are not updated.

Save template to your PC. For example:
Location: Desktop
File Name: Form 700_Export Test
File Extension: Excel Workbook (*.xlsx)
Capital Import Example

The following is an example of an import file updated and ready for upload into Form 700. Make sure to save upload file with updates to your PC.

Note: Once the upload is complete, BFM will record changes in all seven of the columns where entries can be made. There is no need to enter totals in the "5 Year Project Total" column as the system will update this field automatically after upload.

To start the import process:
1) Toggle back to the BFM system and click "Import"
2) On the resulting Budget Form Import window, select "Browse"
3) Find and select your file in the "Choose File to Upload" window then click "Open"
4) Select "Load Selected File" on the Budget Form Import screen

PLEASE NOTE - dates in screenshots are not updated.
Import process successful if upload details are displayed in **black**.
Select “Close” button to move to “Budget Form Entry – Lines” screen.

If you do not see your changes in the Budget Form Entry-Lines, click on the "Refresh" button to update the lines.

Please note - dates in screenshots are not updated.
Potential Causes for Import Process to Error out.

Potential causes as summarized below are not unique to a specific form. The following errors can affect the A1 CY Oper and DS (100), A2 Base Submission (200), A3 Base Sum Revenue Only (300), or the Preload Capital Form (700). Refer to the import process for Estimate Form 100 section to review print screens potential errors that can cause the import process to error out in any of these forms. Note that if an error does occur, the import details screen will be displayed in red and no data will post to targeted budget data entry screen.

Potential Error #1- Invalid Dimension

Inactive or transposed dimension(s) will create an import error. For example Org = 197901 (transposed) instead of 179901 (valid), or account mistyped as 30104 (Invalid) instead of 30102 (valid).

Potential Error #2 – Import File with Blank Cell(s)

A blank cell(s) in the import Excel file will also cause an unsuccessful import.

Reports

BFM provides budget reports. BFM is not intended to be used to track actual expenditures, revenues or positions through the year. PeopleSoft is the tool for that purpose since it can post actual transactions without an organization (i.e., 30101 Transfer from Fund Balance or 36101 Interest).

BFM will be available for general field use during the FY 2023 Budget submission process, and remain active with limited access thereafter. Updates to the Amended and Actual columns for the current year will be determined by the Budget Office and notifications will be made. Personnel information was downloaded in January; additional downloads are not scheduled to occur thereafter. Current activity and estimates should be based upon data from the PeopleSoft systems.

The following provides an overview on how to access PeopleSoft reports. For additional information on PeopleSoft reports, a manual describing and viewing all available reports can be found in the Staff Area of the City’s webpage. If you have any questions concerning the PeopleSoft manual, please contact the Information Services Department.

PeopleSoft

The primary PeopleSoft financial reports that will be useful in monitoring and building budgets are the Revenue and Expenditure Summary Reports. These are found in the PeopleSoft Financials system. Select, COF Financial Reports from the Process Monitor panel. When the COF Financial Reports panel loads, select Reports - the panel should look like the one below. The arrow points to the two reports mentioned above. The panels for each work approximately the same. They do not show detail transaction information. If you want the transaction detail behind data in the Summary reports, you will need to use the Detail Transaction Report.
The illustration below shows the Expenditure Summary Report panel. It should be noted that, the Revenue Summary Report panel works on the same principles.

These reports roll up account level detail based upon your selections. For example, if you select Detail Fund in Fund Options, Suppress for Organizational Options, Detail for Account Options, and Value under Chart Fields Fund Opt (picking one fund) you will get a report showing all account level activity in the fund regardless of the org.
Use the same parameters; except check Sect for Organizational Options, and All for Org Opt in Chart Fields. This gives a report that will have account level detail for every section (with object and section totals) in the selected fund. As you can see from the panel, there are a myriad of selections possible.
Reports from PeopleSoft 8.9 HRMS are available by selecting Workforce Administration and Job Information (see below).
SAP BI Launch Application (Non-Position Reports)

A system enhancement has been established so that the SAP BI Launch Pad reporting system can be accessed directly while in the BFM system. The following will provide procedures to access SAP reports through BFM.

Accessing the SAP Reports from BFM:

Point your cursor over the “Links” tab and click on “BFM Reporting.

The “BFM Reporting” command will take you directly into BI Launch Pad’s “Documents” tab that displays report folders (left side screen) and subfolders and/or report files (right side of screen).

Note: Accessing the BI Launch Pad system from BFM is known as the “Single Sign-on” (SSO) connection. Through this connection, the BFM password will open BI Launch Pad. Creating BI Launch Pad passwords are no longer required.
The SSO connection initially opens only one internet browser.

Press the <Ctrl> and “N” keys simultaneously just once. This will create a secondary web browser and allow for toggling between BI Launch Pad and BFM.

Be Careful not to hold down with a pause or press multiple times on these hot keys. This will create many internet browsers as well as confusion.
Location of Canned Reports
Select the “Departments” folder. You’ll see two subfolders that hold the Non-position reports under “Budget” and position reports under “PCF” (Position Cost Forecasting).

Click on the “Budget” Subfolder to see list of non-position reports.
SAP Report Selection
Non-Position reports located in Budget Folder. Highlight and double click a report to open.

Prompt Selection
Data displayed on a report can be filtered by utilizing report prompts:
As an example Report 001 prompts are:
1. Fund
2. Department
3. Division
4. Section

Note that the percent sign “%” corresponds to requesting all data for prompt based on assigned User’s security rights.
Example 1 – Run Report 001 for a Department

As mentioned earlier, your organization access rights will determine the data available for view. The following is based on a User ID with access to multiple organizations.

Click on “Enter Department:” prompt and select targeted department (i.e., 520000 Finance).

You can expand or contract the display screen on the right side of prompt panel by clicking and dragging the expand symbol.
Department panel expanded to view full name descriptions.

Double click highlighted selection or click on greater than symbol or “>” to lock in targeted section. Click “OK” to run report.

Note: The department prompt confirms the targeted selection by replacing the defaulted “%” to department number, such as 520000. This will also occur when making selections with any prompt.

SAP reports can have multiple report views or tabs. For example, Report 001 has five tabs.

1. Department tab will display data at department level by fund and accounts.
2. Division tab will display data at division level by fund and account.
3. Section tab will display data at section level by fund and account.
4. Citywide tab will display data per organization security rights for a User ID.
5. Export tab will provide all data that populates previous tabs.
Department Tab

Division Tab
Navigating through a report

The SAP reporting system allows you to revise your prompt selection to filter results for selected dimensions (i.e., Fund, Department, Division, Section).

Left side of report panel provides options to drill down to a specific dimension within displayed report.

For example, the following will allow drilling to a specific section within displayed report.
Find a specific organization (i.e., section).
Select "Navigation Map."
Select the “+” symbol next to “Section”
Select targeted section.
Selected section 520401 for this example.

Within this panel, current prompt selection can be revised. Revise prompts by selecting “User Prompt Input.”

Current prompt selections.
Revised Section prompt selection to 520301 and select “Run”

**Note:** Be careful with revising dimensions through the above process. The system will not flag you for incorrect edits (i.e., transposed entries).

The following screen print reflects the section change under the “Prompt Input” screen.

Again, all tabs for the above report will display results based on prompt settings.
Re-running report – Recommend Approach

Click on the “Refresh” button to update prompt selections.

The Prompt screen will be displayed with latest filters.

For example, the prompt “Enter Section:” was revised from “%” to section number 520401. Click “OK” to run report.

Note: The “Enter Section:” prompt has been updated with “520401.” The benefit to this approach in updating your report is the Prompt Screen will validate your selections are correct and have been locked in on the right side of the prompt screen.
The results for all tabs will only display results for 520401.

Export a report as PDF or Excel format

BI Launch Pad allows for entire reports or specific tabs within reports to be exported into a PDF or Excel file.

Click the Export icon.
Report exported to create a PDF file

The following example exports all tabs into PDF. Click on the “Export” button.

BI Launch Pad will open a new window where you will select how you want your report to print. ALWAYS select “Reports” (NEVER select DATA).

Check or uncheck the tabs from your report you want to export, if you want all tabs “select all”. Scroll down to see all tabs.

Select the file type as PDF. Click Ok to export.

Your report will display and a message will open asking “Do you want to Open or Save?”

Select Open
Your report will be displayed and available to be saved as a PDF file. Click Enable.

Report exported to create an Excel file
The following example exports all tabs into Excel.
Select “Excel.xlsx” option.

Your report will display and a window will open asking “Do you want to Open or Save?”
Select Open

The SAP report will open in Excel. Click on the “Enable Editing” button to edit and save the Excel report.
You must save your report under a different name; otherwise you will not be able to export a second report if the same name is currently in an active window and the following error message will pop up.

Print BI Launch Pad Report

BI Launch Pad allows for reports to be printed in addition to the export function. Select the print icon. The report will be directed to PDF to print. This method does not allow you to select individual tabs within the report and will send all of the tabs to PDF.

Your report will display and a window will open asking “Do you want to Open or Save?”

Select Open

Take note of the number of pages for your report before printing. Reports can become sizable especially since all tabs (Department, Division, Section, Export) will be directed to PDF for printing.
Budget Form Detail (Form 14)

The Form 14 will be the mechanism to submit your explanations regarding significant changes between your FY 2023 Budget Submission and the FY 2022 Amended Budget as well as the corresponding impact to services. This information will be needed to facilitate discussions during the Budget Review Meetings as well as Council Budget Hearings.

General Instructions

You will be using the BI Launch Pad, specifically report #221 City Review Meetings, to extract budget data and the Excel application to enter the requested explanations. The budget data extracted from BI Launch Pad will include the FY 2022 Amended Budget, the FY 2023 Budget Submission, Percent Change from Amended, and Dollar Change from Amended. The Form needs to be completed for just expenditure accounts.

Specific Instructions

At the account level, you will be required to provide a two part explanation. The first should address significant changes (what the changes caused) from the FY 2022 Amended Budget reflecting a ±7% or ±$100,000 variance. The second part is to explain how services or programs will be affected by the significant change. As you explain the impact to services, you need to quantify your comments. The only exception to this rule will be for centrally loaded accounts, including base ID charges. However, you should still take the steps to evaluate any sizable ID variances.

The following are steps to 1) access the report, 2) export the budget data from BI Launch Pad to an Excel file, and 3) create and format columns corresponding to requested explanations.

Creating a Form 14 from BI Launch Pad

Select Report 221 – City Review Meetings and double click to open.
The report will run for just your assigned department if you leave all prompts with % sign. Below example shows selecting 520000 for Department based on logging in as User ID FIN.
Select the “City Review with Text” tab to create the Form 14. This tab will include any text entered in the Budget Form Entry – Lines” screen.
Export all tabs to Excel by clicking on Export icon. Select “Export Document As” to capture all tabs and “Excel 2007.”

Running reports using Internet Explorer, you’ll receive the following message below report. Select “Open” to complete export process.
Click on the “Enable Editing” button to make edit to the spreadsheet.

Select “Save As” from “File” command and update:

**Location:** Desktop selected as an example

**File Name:** Give it name

**File type:** make sure save with Excel extension. Click on the “Save” button.
Use the "City Review with Text" tab to build your Form 14.
Enter “Service Impact” and “ISF Form #” to the right of “Form Text” or column K.

Highlight Columns L and M and click on the format command “AutoFit column width.”
You have added and formatted the two additional columns in the “City Review with Text” tab. You can replicate adding and formatting the two columns (L-M) for the Division or Section tab depending on the level you traditionally have submitted in prior budget submissions. Just note that text entered in BFM data entry screen can only be captured in the “City Review with Text” tab.

As mentioned earlier, provide an explanation based on a ±7% or ±$100,000 variance on significant changes along with comments quantifying the service impact. In addition, enter all the ISF Request Forms (i.e., 10X – PC) and ISF reference number for all equipment requests whether or not the request meets the variance criteria. Finally, items can be listed in groups to address the variance (i.e., $4,000 for 15 chain saws, $5,000 for six chairs, etc.)

Submit your Form(s) via email to your respective Budget Analyst. The due date for this form is the same as your operating budget submission. It is recommended that you send your department’s Form 14 submission as one Excel file with a tab for each fund and division combination.
Personnel Cost Forecasting (PCF)

This Section will outline the personnel policies and procedures to be used in the preparation of your employee services budget for permanent full-time, permanent part-time, and temporary (wages) positions. It will also provide an overview of Personnel Cost Forecasting (PCF), which is a module of the BFM budget system. Please remember that PCF is a budget preparation tool only; ongoing position management is performed by the Personnel Services Department in the PeopleSoft Human Resources Management System (HRMS).

Personnel Cost Forecasting (PCF) is a web based budgeting system that provides annual position costing data for the City by Fund and Organization. PCF is a pay period costing system that is designed to coincide with PeopleSoft Financials by forecasting personnel costs based on the first and last pay periods of the budget year. This methodology will accurately reflect actual costing on an annual basis by forecasting salary and step increases within the pay periods they occur.

Position and employee data provided in PCF is derived via download from PeopleSoft HRMS, T&L Task Profiles, and payroll at the beginning of each budget cycle. If the current position information in PeopleSoft HRMS, T&L, and payroll is incorrect, PCF will be incorrect. It is the responsibility of each city department to maintain its own position information. Any corrections must be made in consultation with and through the Personnel Services Department.

Employee Services and Position Management

The number of positions authorized in a department or division for specific periods of time during the fiscal year is set by the Position Authorization Resolution (PAR). The allocation of positions by class within a division may be changed by administrative action, as long as the total number of positions and Full Time Equivalent (FTE) authorized in a department for specific time periods does not change. An eight-digit number has been established in HRMS for each authorized position in order to provide a basis for matching employees with authorized positions.

Permanent Full-Time and Permanent Part-Time Positions – Permanent positions are established annually with the adoption of the Personnel Authorization Resolution (PAR). This includes permanent full-time and permanent part-time positions.

A Permanent Part-Time (PPT) position is defined by the Fresno Municipal Code as a "position for which the regularly scheduled work week is less than 40 hours ...." For administrative purposes, the code has been interpreted to mean a PPT employee would work a regular schedule of 32 hours or less per week. These hours might be worked in full eight-hour work days, or in scheduled parts of full work days.

Employee services’ costing of filled positions will be based on the employee’s current salary, step rate and fringe amounts. Typically, vacant positions will be based on the "B" step rate for salary and fringe of the particular job class.
**Full Time Equivalent (FTE)**

FTE is the percentage of time a position is authorized in a given fiscal year. Currently authorized full time permanent positions have an FTE of 100 percent (1.00) and permanent part-time (PPT) have FTEs of no more than 80 percent (.80). The position count is the number of positions in a given organization in a given fiscal year regardless of type. As a simple example, a division has ten full-time permanent positions and three PPTs at 80 percent; the FTE for the division would be 12.40 with a position count of 13. This distinction is important in that the employee services budget is based on FTEs and not position count.

**Temporary (Non-permanent) Positions**

Temporary (wages) employees are typically hired for intermittent, seasonal, special project, and vacation relief services. All non-permanent positions will be requested during the budget cycle each year and are approved through the budget adoption process. To request non-permanent positions, each department will need to submit a completed Form 3 signed by the Department’s approving authority to the budget office. Non-permanent position requests will be entered into PCF and given a temporary PCN of 00010xxx and assigned to the fund and organization noted on the Form 3. Employees hired to fill temporary positions may be employed no longer than one year (2,080 hours) in any two consecutive fiscal years.

Non-permanent (Wages) employee service costs will be calculated at "A" step rate for wages, statutory fringe, and the hours authorized for each class in each section.

**Preparation of the Employee Services Budget**

*Employee Services Request* – The opportunity to add, delete, or adjust the allocation of positions will begin when the departments receive their base budgets and will continue throughout the preparation of the request budgets.

**Adding, Deleting or Converting Positions**

To request permanent, permanent part-time and temporary positions, a completed and signed Form 3 request must be sent to BMSD during the budget process. For Form 3 requests to become effective, they must first go through an approval process that involves approval by the Mayor/City Manager and ultimately the City Council through the budget adoption process. Form 3s actions not approved by the Mayor/City Manager or the City Council will result in the reversal of the action.

**Navigation of PCF**

The position database can be accessed by clicking on the PCF tab at the top of the screen and then clicking on “Position Maintenance.” The Position Maintenance Screen will appear as shown on the following page.
The Position Maintenance screen allows users to narrow down the positions that will be displayed. Positions can be filtered using the filter selection bars, entering the search criteria in the space provided and hitting “Apply Criteria.” The option most used is by Home Org or Organization. A large volume of data can be viewed by changing pages in the lower right corner or the data can be viewed as a list by changing the number of records per page. To view a position record click “Edit.”

The position screen will appear next. Clicking on the Position and Salary tabs will enable users to view details specific to that position such as the Home Org, Job Class, salary, current step, etc. Position allocations can be viewed and edited by clicking on the “Allocations” tab at the top of the page.

Note: BMSD manages costing data by position and job class and does not transfer employee data to other PCNs.

Adjusting the Allocation of Positions

Departments are responsible for any changes in the allocation of currently authorized positions for the coming budget year. To view the current position allocation, click on the “+” for a drop down menu. To modify the current allocation, simply click on the “Edit” button.
Funding Date Range – The Funding Date Range will reflect the employee’s hire date as annotated in HRMS or for vacant and new positions, the system will default to 12/27/2016.

Organization – Users must ensure the org is entered at the section level. Users can manually enter the org or use the magnifying glass at the right to view a menu of org options. If the org entered is the primary org or has the dominant or highest allocation, check the “Home” box on the right to identify it as the “Home Org” for the new allocation. If the “Home Org” has been changed, users must ensure the new “Home Org” is entered in the Position Tab on the home screen.

Fund – Users can manually enter the fund or use the magnifying glass at the right to view a menu of fund options. Invalid/Inactive funds will produce a red validation error in the upper left corner of the screen. Invalid/Inactive funds or orgs will need to be corrected before proceeding.

Allocation – The total allocation spread for each position must equal 100 regardless of FTE. The allocation must be entered as 100 or say 90 in the event of a split allocation of 90/10. When entered as a number less than 100, users will need to click on the “Add New Allocation” tab at the top of the previous page to create additional allocation lines that total 100.

Once all edits are complete, click on “Save” and “Close” to update the position record and return to the main screen.

Note: Any changes in spread will not result in any task profile changes in T&L. If the reallocation in Org/Fund involves changes to Task Profiles, the departments are responsible to work with Personnel to adjust the Task Profile in T&L for the new budget year.

Capital Labor

All positions spread to capital will use the Capital Labor Fund (90000) and will be allocated to the unbilled capital labor org of the individual department/division. Distribution of a position to Capital Labor anticipates work will be performed by that position on major Capital Improvement Projects (CIPs) and will be charged to CIPs for each payroll period worked. This method allows for the identification of positions or portions of positions which will not participate in a division’s operating activity, but will be dedicated to CIP project(s). The steps to do this are described in the Allocation section above.

Only the dollars associated with employee time spread to operating sections will be loaded into BFM so salaries spread to the Capital Labor Fund should be offset in the department’s capital budget.
Employee Leave Payout at Separation

Beginning in FY 2012, a new Employee Separation Fund was established for all employees leaving City service. The fund is designed to: 1) Compensate an employee for any applicable remaining leave balances upon termination; 2) Allow for each city department to project the ongoing liability of each of its current employees; and, 3) To alleviate the current departmental obligation for termination payouts. A new account was also created as part of the departmental base budgets; each fund/section that has employees will have the account 51109 “Leave Payoff at Termination.” Account 51109 is directly tied to each employee and is derived by each employee’s budgeted fiscal year termination payout liability by bargaining unit.

Methodology for Bargaining Unit Deduction

A payroll query is used to determine the budgeted fiscal year’s total termination payout liability by employee and bargaining unit. Then the value of each bargaining unit’s annual accumulated leave by the total City liability is segregated to derive the factor of each bargaining unit. Finally, the bargaining unit factor is applied to the determined (prior year actual term amount) amount of future year need and finally distribute the fixed amount by each employee in the bargaining unit.

Projections

The PCF projection engine projects salary and benefits by pay period based on current authorized and proposed position records. The Funding Dates on the position records determine when the projection begins. The salary amount is determined by the Salary Table and Step/Grade entered for the employee or the Salary Override Amount. The Step Duration in conjunction with the Step Increase Date determines when the employee gets a step increase/pay raise.

Projections are identified by Version codes where specific projection dates, parameters, and selection criteria are setup for the specific projection.

- The current Budget Stage will always be version 0 i.e., Base, Request, Proposed, Adopted.
- The Projection dates will coincide with the first and last pay periods of the year.
- Projections include specific selection criteria for Home Org, Allocation Org, Bargaining Unit, and Status code.

During the request budget preparation time, departments will be able to add, delete, convert, reallocate or transfer positions. Changes made in PCF will not be reflected in the system until a projection has been run and the results posted to BFM. With the inclusion of a Projection Scheduler, PCF will run and post projections every hour throughout the budget preparation period. If the desired results are not reflected on an SAP report, users must first go back to the position maintenance screen to ensure the information is accurate. If the position detail and allocation is accurate, then the current changes may be in between projection runs. If not, contact your budget analyst.
PCF/SBFS Reports

PCF and historical SBFS reports can be accessed by clicking on the “Links” tab located in the BFM module.

Once logged in, users can select current PCF reports by clicking on the Departments folder drop down and then selecting PCF or users can choose reports from prior years by clicking on the Historical folder and selecting SBFS. The reports offer various aggregations of the same position costing data in both summary and detail reports. All PCF and SBFS reports are printable and exportable.

Note: When viewing or comparing PCF and SBFS reports, it should be noted again that the PCF system calculates salary and benefits by pay period while SBFS calculated salary and benefits on an annual basis (7/1–6/30) for a given year. The pay period methodology is designed to coincide with PeopleSoft Financials and will more accurately reflect actual annual expenditures by forecasting salary and step increases within the pay periods they are scheduled to occur.

Like SBFS, the Title section provides a list of available reports and a description of what each report provides. To run a report, simply click on the report selection and use the Prompt Summary screen to filter the desired data.

The Prompt Summary screen now allows users to filter data by Org, Fund, PCN, Employee Name, Bargaining Unit, Status Code and by various groupings. The available filters have been designed to allow departments to quickly view employee costing data in a variety of aggregations.
Prompt Summary Filter Screen

The Prompt Summary screen allows users to edit the data they would like to view in the selected report. To begin editing:

- Highlight each section by clicking on it. Your selection will also appear on the top of the Values header.
- If the user knows the value to be filtered, they can enter it in the space provided and hit enter or click the select button.
- If the user is unsure of the value to be filtered, they can click on “Refresh Values” for a drop down menu or for a quick search, enter it here.

**Note:** The Projection Code is defaulted to “0” and will always represent the current budget stage i.e., Base, Request, Proposed and Adopted snapshots. The Bargaining Unit value is for all units and should remain as such unless running for a specific unit.

To select your data:
- Hit enter once the data is entered in the open window, or
- Double click a selection from the drop down menu, or
- Highlight the desired value and click the select button.

Once a selection is made it should appear in the upper right window first and then on the highlighted Prompt Summary line to confirm the selection. Once all “Prompt Summary” data has been selected, click OK.
The buttons to print or export the report are available in the bar at the top of the page. To save a report, users will need to export the document and then save it to their personal drives.

The report can be viewed as a list in the Quick Display mode or in the Page mode by clicking on one of the tabs. The size of the report can also be adjusted at the bottom of the page as well.

NOTE: When printing reports, reports are converted to PDF and will include all three report tabs. To print or save only the current report, users can select “Export Current Report As” and this will export only the selected report.
Once a report has been run, users have options available to quickly change the filter parameters for differing views:

Clicking on the (?) button allows users to see and quickly change the existing report filter settings. Entering the new parameters and clicking run will re-filter the existing report.

To use the search features to re-run the existing report, users can click on the Advanced or Refresh button to bring up the original filter.

The number of positions reflected in each report is by position Count and/or Full Time Equivalent (FTE). Position count will only appear on Home Org reports because it counts each time a position appears, which would be falsely inflated on allocation reports where positions can appear multiple times.

Please notify BMSD if you have staff members working in BFM who should not view salary and benefit information; BMSD can then adjust the security level for those members to limit their access.

PCF reports can be printed and/or exported with the same selections and adjustments that are available in BFM. A list of available reports and descriptions is available on the following page. BMSD encourages departments to explore and find those reports that best serve their needs.

</table>
Facilities Operations

Facilities ISF Budget Build

- **City Hall**
  - The City Hall ISF Budget Build is based on each Department/Division’s occupied square footage.
  - The following is a list of pass-through expenses for City Hall, which are allocated using this square footage methodology: Utilities, Fire Inspections, Air Control District, Landscape, Fire Alarm Monitoring/Annual Equipment Inspections, HVAC Quarterly Maintenance, Custodial, Security, Elevator Maintenance, Mat Rental and Pest Control.
  - Facilities Management Division uses the average maintenance costs for the past two and a half years for each area specified on the Department approved space allocation to determine the Building Maintenance charges for each Department/Division. These charges include all routine building maintenance requests. Some examples of this type of work include changing lights, HVAC requests, plumbing requests, roof leaks, etc. These maintenance charges, along with the pass-through amounts, are included in your Base Budget under account 59309.
  - Repair and Replacement Costs- An amount is determined each year for larger projects needed per the Facilities Condition Assessment or deemed necessary by the Director/City Manager’s Office. The approved total amount is charged to the Departments/Divisions based on their square footage of occupied space at City Hall. These charges are included in your Base Budget under account 59120.

- **Municipal Service Center (MSC)**
  - Charges for the MSC ISF Budget Build are based on each Department/Division’s square footage or employee count.
  - The following is a list of potential pass-through expenses which are allocated to the Departments/Divisions in the MSC: Utilities, Fire Inspections, Landscape, Parking, Custodial, Security, Alarm Monitoring, Elevator Maintenance, Mat/Rag Rental and Pest Control. Some of these services are at the request of the Division, such as Pest Control and Custodial.
  - Facilities Management Division uses the average maintenance costs for the past two and a half years for each building/area at the MSC to determine the Building Maintenance charges for each Department/Division. These charges include all routine building maintenance requests. Some examples of this type of work include changing lights, HVAC requests, plumbing requests, roof leaks, etc. These maintenance charges, along with the pass-through amounts, are included in your Base Budget under account 59309.
  - Repair and Replacement Costs- Each year larger projects are identified using the Facilities Condition Assessment or deemed necessary by the Director/City Manager’s
Office. The approved total amount is charged to the Departments/Divisions based on their square footage of occupied space at the MSC. These charges are included in your Base Budget under account 59120.

- **Other Various City Locations**
  - Charges for other City locations are determined by the Department/Division’s actual costs.
  - The following is a list of potential pass-through expenses which are allocated to each Department/Division per their request for the services: Utilities, Fire Inspections, Air Control District, Custodial, Security, Alarm Monitoring, Elevator Maintenance, Mat/Rag Rental and Pest Control.
  - Facilities Management Division uses the average maintenance costs for the past two and a half years for each building/area to determine the Building Maintenance charges for each Department/Division. These charges include all routine building maintenance requests, such as; changing lights, HVAC requests, Plumbing requests, roof leaks, etc. These maintenance charges, along with the pass-through amounts, are included in your Base Budget under account 59309.
  - If it is decided to add any Repair and Replacement projects to other various City locations the project total will be determined and included in base budget for the Department in account 59120.

**Requested Billable Work**

- **Non-Maintenance Work Requested Under $3,000**
  - This is work requested by Departments which is not routine building maintenance in nature, such as; moving or reconfiguring workspaces, hanging whiteboards, installing keyboard trays, nameplates, keys, irrigation repairs, etc. This work is ID billed monthly to account 59310.

- **Non-Maintenance Work Requested Over $3,000**
  - This is work requested by Departments that is estimated to be more than $3,000 and follows our Form 10 process. The Department submits a completed Form 10, Facilities Management provides an estimate to the Department and if the Department chooses to move forward with the project they submit the Form 10 to Budget for approval. Once Facilities Management receives the approved Form 10 from Budget the project will move forward and be ID billed with our monthly billing to account 59310 as expenses occur. Examples of Form 10 requests include new buildings, new splash pads, lighting upgrades, remodels, adding electrical, shade structures, etc.
Form V, Request to Fund Vacant Position

Source: Budget Management Studies Division (BMSD)

Purpose:

This form is to be completed by Departments that have vacant positions and require that the funding be continued into the following Fiscal Year. The submissions will be reviewed and recommendations for funding will be forwarded to the City Manager for final approval and inclusion in the budget.

General Instructions:

It is not necessary to fill out a separate Form 3 for requests involving more than one position in the same division, same classification, with identical duties and justification that are part of the same recruitment status.

1. Department Name/Org: Indicate the Department.
2. Division Name/Org: Indicate the Division.
3. Department Contact: Indicate who should be contacted with questions regarding this position.
4. Department Contact Number: the number for the person above.
5. Form 1 Reference No: Applicable only if this request is critical to a Form 1 request. For example, a new program the following fiscal year and the positions will be part of this program.
6. Vacant Position Title: the title of the position.
8. Position Control Number: the assigned PCN.
9. How long has position been vacant? (days) this should closely match the Vacant Position Report in PeopleSoft.
10. Anticipated date position will be filled: When does the department anticipate that the position will be filled.
11. Will funding allocation remain the same? Indicate if the funding allocation will remain the same or if it will be changing. For example, if in FY 2021 a position is 100 percent funded in the General Fund, but in FY 2022 50 percent will be allocated to a grant and 50 percent to the General Fund.
12. Recruitment Status: In this section be as thorough as possible in indicating what the status is of the recruitment.
   A. Vacancy has been filled: An employee has been hired, indicate date of hire from PeopleSoft.
   B. Recruitment in Progress, you must indicate where in the process the recruitment is and when it is anticipated that the completion for each step is.
   C. Position in process of conversion: There is an electronic Form 3 that has been submitted to Personnel.
   D. Other: provide details if none of the above apply.
13. Justification to keep vacant position funded: Be as thorough as possible to indicate the reason why the position must remain funded and the impact of defunding to the operations.
14. Position Allocation: This section is to be completed only if item 11 above is marked No.
15. Signatures should include Department/Division Budget Officer and Department Director Signature.

174
Personnel Request Form (Form 3)

Source: Personnel Department

Purpose:
To request and justify new permanent, Permanent Intermittent (PI), and Permanent Part-Time (PPT) positions; to request a position reclassification; to request a conversion or trade of a vacant position; to request a classification title change; to request a transfer of a position between divisions; to request deletions or Nonpermanent (wages) FTEs as a part of the budget preparation process. To request wages FTEs during the fiscal year, use the Attachment B.

General Instructions:

It is not necessary to fill out a separate Form 3 for requests involving more than one position in the same division, same classification with identical duties and justification. Simply indicate the number of positions requested.

The Form 3 is to be submitted to the Budget and Management Studies Division (BMSD) and if the position is approved, will then be forwarded to the Personnel Services Department (PSD).

Form 3’s processed during the fiscal year are currently entered and routed electronically in PeopleSoft. Contact the Personnel Services Department for specific instructions on this process.

Specific Instructions:

1. Enter the DEPARTMENT NAME/ORG, DIVISION NAME/FUND/ORG and DATE in the appropriate boxes.
2. Please indicate the Type of Request by checking one of the choices listed.
3. Enter the CURRENT CLASS TITLE/JOB CODE, REQUESTED CLASS TITLE/JOB CODE, POSITION CONTROL NUMBER(S) affected, and the DEPARTMENT CONTACT and PHONE EXTENSION in the appropriate boxes.
4. Provide an Appointing Authority Signature (division or department director). Please indicate whether this is a budget preparation request.
5. Please provide a detailed justification in support of the transaction requested. If a PI or PPT position is being requested, please indicate why it is appropriate to have that status.
6. Please indicate the effective date.
7. If the Type of Request requires an alteration in a new task group, enter the information here.
8. If you are requesting either a new position or a transfer of a position between divisions you will need to complete the position spread section on the Form 3. In the case of new positions, please indicate the PCN(s), FUND, ORG, and NEW FTE. Since these are new positions, there will be no CURRENT FTE. For Transfer Positions, please provide all the above as well as the Current FTE. This will be the source of data input information during the budget preparation process.

Budget Form Detail (Form 10)

Source: Facilities Management Division, Public Works

Purpose:

To request a special project performed or coordinated by the Facilities Management Division of Public Works Department i.e., remodeling, painting, re-roofing, new air conditioning or electrical systems, flooring, locks, office moves, and additional furniture and furniture moves at City Hall.

General Instructions:

A. A single form should be used for multiple units of the same item.

B. Forward the original Form 10 to Facilities Management Division for an estimate of project costs. It is critical that Special Project Requests (Form 10’s) be submitted on time because they are a component of your department’s budget package.

C. When cost information has been provided by Facilities Management, the requesting department reviews the project estimate and may modify its original request. Any modifications should be submitted in writing to Facilities Management as soon as possible in order to update the project cost estimate.

D. If the department desires to proceed with requesting the project, the Form 10 amount should be entered into the department’s requested budget and the original Form 10 submitted with the Department’s budget.

Specific Instructions:

To provide more efficient and effective services, please fill out the “Multiple City Services Coordination,” section on the Form 10. With this information provided and the appropriate forms submitted, Facilities Management can identify those requests that need to be coordinated with other service providers.

1. a) Complete Department/Division name, fund/org numbers.

   b) Project title: Briefly state what is to be done. Examples: Install emergency generator, paint and re-carpet offices, re-roof Community Center, construct equipment cage, install modular workstations.

   c) Project location: Give exact building address or location including room name/number, if applicable.

   d) Requestor/contact person: The name and telephone extension of the individual most familiar with the request.

   e) Check the appropriate box indicating whether the request is a base request, an annual budget request, or a capital improvement funded project.

2. Project description: Describe the project and what is to be done as completely and accurately as possible. Include the number of units required, if appropriate. Drawings may be attached if this helps in project description.
3. Justification: Completely explain the usage of the requested project and the necessity for its acquisition (use extra sheets if necessary). Indicate cost savings if any.

4. Source of funds: Identify applicable fund/org/Project/Activity/Restype to be charged for the requested project. For **unbudgeted** projects, identify and explain the basis of funding source. For example: Canceling a budgeted special project, moving funds by Appropriation Transfer (AT) from operations and maintenance, etc.

5. Department Head/Designee approval to proceed with request for estimate: Signed by department director or designee.

6. a) Priority: Place the department priority number in the upper right-hand of the page of each Form 10 submitted (for assurance of project costing in the order preferred by the requesting department during the budget preparation cycle).
   
   b) Forward the completed (original) Form 10 to Facilities Management Division prior to the deadline specified by Facilities Management.

7. The costed Form 10 will be sent back to the requesting department for review, at which time the department director may choose to:
   
   a) Authorize the proposed project as costed.
   
   b) Modify the proposed project and/or authorize only a portion of the project. Any modifications should be noted on/or attached to the Form 10.
   
   c) If the initiating division chooses not to proceed with the special project request, it should be marked “Canceled” clearly across the face of the project request form and forwarded to Facilities Management to note the cancellation on the master list.

8. a) If the initiating division chooses to proceed with the special project request, the cost estimate should be included in the budget request and the original Form 10 submitted with the Department’s budget.
   
   b) Following adoption of the budget, BMSD will notify departments of the approved projects.

**Unbudgeted Special Projects:** Form 10’s for unbudgeted special projects will need BMSD approval and should be submitted to BMSD with an Appropriations Transfer (AT) to provide the funds in the proper line item, unless funds are available due to cancellation of a specific budgeted special project which is listed as the “source of funds” (item 4 of the Specific Instructions). No work can proceed until the Form 10 is approved by BMSD.
Public Works Department

FACILITIES MANAGEMENT DIVISION

SPECIAL PROJECT AND CITY HALL FURNITURE REQUEST – FORM 10

Facilities Management Division, 2101 “G” St., Bldg. “A,” Fresno, CA 93706  Ph: 621-1487  Fax: 498-2746

Budget Procedures Manual (BPM)

Budget Form Detail (Form 10C)

Source: Communications Services Division, ISD

Purpose:
To request services (budgeted or unbudgeted) from the Communications Services Division of the Information Services Department (ISD) for telecommunications projects. These projects can consist of adding a new telephone or lines, moving and/or changing equipment, or the purchase of cellular telephones, tablets and iPads.

General Instructions:
A. To begin the process, a Form 10C, “Request for Communications Additions, Moves, and Changes”, must be completed. Be sure to specify if request will be part of a Facilities Management Special Project.

B. Forward the original Form 10C to the Communications Services Division for an estimate of project costs.

C. The Form 10C is also used by Communications Services in the following instances:
   • Requests for new telephone equipment (when a new position is added, for example). Such requests will be analyzed in the context of a department's overall telephone needs.
   • Requests for cellular telephones and pagers.

D. Communications Services sends a copy of the Form 10C Request and the Form 10C Estimate back to the requesting department for department director review and approval

   For a budgeted request: the department director signs the Form 10C Request for Estimate. The department must include the Fund/Org/Project on the Form 10C Request and on the budget submission form and must include the original Form 10C Estimate in the budget package as well. The department will enter the request in BFM under account 59326.

   For an unbudgeted request: The Form 10C Request and 10C Estimate are sent to the Budget and Management Studies Division (BMSD) for review.

Please note that if the Facilities Management Division has to perform work on the project, a Form 10 will also be required.

E. BMSD reviews the 10C Estimate Form to determine if sufficient funds are available for the project and that the funds are in the appropriate sub objects. BMSD also ensures guidelines established by the City Manager are followed.

F. Upon BMSD approval, the Form 10C Estimate is returned to Communications Services.

G. Communications Services processes the request and schedules the work.
Budget Form Detail (Form 10X)

Source: Information Services Department (ISD)

Purpose:

The Form 10X is utilized to request computer hardware and software, technology projects and services, and programming of applications from the Information Services Department (ISD). The Information Services Department developed an Electronic Request System; this system enables the requester to submit and route the Form 10X electronically. New requests should be entered into the system during the annual budget process and as unbudgeted special projects arise.

Requests can be submitted for the following items:

**Hardware:** Desktop PCs, laptops, monitors, printers, backup systems, hardware upgrades (additional memory or hard drives), network hookup (LAN or Mainframe), copiers and other related computer equipment.

**Software:** Microsoft Office, Adobe, packaged software, business software, developer tools, design software and other related software products.

Requests can be submitted for the following services:

**Project initiation:** To analyze and evaluate current systems (manual and automated) and explore alternative possibilities for meeting information technology needs or presenting automated solutions to problems.

**New systems development:** Development and/or implementation of a new automated data processing system or software package to replace an outmoded system or a manual system.

**System enhancement:** The addition of a new subsystem or a modification of an existing system or PC system evaluation to determine if a PC is adequate for the software applications needed.

**General Instructions:**

A. Submit a new 10X request for each individual request or project. To access the Form 10X, double click on the desktop icon titled ‘10X Application’ to open the ‘ISD Request System’.

B. The electronic system will forward the request to ISD for a cost estimate.

C. ISD will provide a cost estimate to the requesting manager. The manager reviews the cost estimate and can choose to modify the request, approve, or deny the cost estimate.

D. If the requesting department manager desires to proceed with the request, the amount should be entered into the department’s budget under account 59326 and the electronic form should be included in
the Department’s budget packet.

Specific Instructions:

For detailed information, please refer to the ISD Request System (10X) User Manual located under the help menu of the Electronic Request System. The manual outlines the entire process.

1. Click on New Order Request or New Service Request. Click on the details tab and populate the following fields: fiscal year, contact name, manager, justification, account information and comments.

2. Add standard and non-standard products to the products tab.

3. If you would like to add an attachment to the request, click on the attachments tab and upload an attachment. Click save and ‘send to manager’.

4. The electronic system will route the request to the specified manager for management’s approval.

5. If the manager and DBO approvals the request, the system will automatically request a cost estimate from ISD. ISD will return the cost estimate to the manager.

6. If the cost estimate is approved by the manager, the DBO will review the request, provide budget analysis, print the request, attach necessary documentation, and forward the request to the appropriate Budget Analyst.

7. Following adoption of the budget, BMSD will notify departments of the approved requests.

Unbudgeted Form 10X requests will be processed in the following manner:

10X requests for unbudgeted items and services require BMSD approval and should be entered into the electronic request system (same process as budgeted requests). After routing the request for signatures, the DBO should submit the request and an Appropriations Transfer (AT) to BMSD. Approved requests will be forwarded to ISD with authorization to proceed with the request.
DATE: December 23, 2021

TO: DEPARTMENT DIRECTORS
ASSISTANT DIRECTORS
DEPARTMENT BUDGET OFFICERS (DBO’s) and BUDGET FOLKS

FROM: KIM JACKSON, Administrative Manager
Information Services Department

SUBJECT: FY23 10X and 10C REQUESTS

The Information Services Department (ISD) will continue to use the new 10X / 10C / AT Electronic Request System to facilitate the ordering of computer hardware/software, copiers, VOIP and mobility phones/devices, as well as any technology projects and services. The system also allows for the electronic creation of Appropriation Transfers (ATs) for BMSD approvals and Finance’s posting.

All FY23 budget build 10X / 10C requests must be entered into the 10X / 10C / AT Electronic Request System through the URL http://isdapps.fresno.gov/projects/ or directly from the website on the right hand side of COF Staff Page’s Link which also takes you to the URL. ALL 10X / 10C budget requests must be notated as a Budget Request (check box) which will help us identify if the quote is for budget needs only or for a currently needed order. Make sure you change the fiscal year when submitting your FY23 requests as it will be defaulting to FY22 automatically. Please complete your entries no later than Monday, January 31, 2022 at 5:00 pm. This will allow time for ISD to provide costing of product and/or services and return quotes to our customer departments no later than Monday, February 28, 2022. If you have any questions about the 10X / 10C process, please contact Jackie Larkin at ext. 7140, Rachel Archer at ext. 7138, or Kim Jackson at ext. 7103.

Both City standard and non-standard costing will be returned electronically back to the department no later than February 28, 2022 for inclusion in your respective FY23 Budget Packet. Please notate on the 10X / 10C forms that this is for a Budget Requests Only. This will be the standard procedure from now on. All Budget Requests will be closed out at the end of the fiscal year if not approved during the Budget process.
ADDITIONAL NOTES/INSTRUCTIONS

New Workstations and Email Account Requests
New workstation/laptops require a monitor, headset, laptop bag, and City Standard Software – preferably, a laptop will be requested. Prices are available under the product list in the Electronic Request System. City Standard Software includes Microsoft Office Suite, Adobe Acrobat DC, Virus Scan, and Security tools. If the new workstation requires a network account and/or an email account, (i.e., a new employee), the department will incur an additional licensing fee.

Microsoft Software
Microsoft software will be charged on a per user basis. The initial authorized amount will be included with the ISD fixed charges. Any increases in the number of named users will result in additional charges.

Form 10C Requests – Communications Additions, Moves, and Changes
Follow the instructions outlined in the Budget Procedures Manual (BPM). The deadline dates for the 10C requests will be the same as the 10X requests.

Budget Form Detail (Fleet Form 11)

Source: Fleet Management Division, Transportation/FAX Department

Purpose:
To request new, additional, or leased/loaner equipment serviced by Municipal or Public Safety Fleet Management Division of the Transportation/FAX Department. To request an upgrade or change of equipment scheduled for replacement; and to provide for the transfer of existing equipment; and request special projects such as welding or fabrication services.

General Instructions:
A. Fleet Management provides acquisition cost estimates for new/additional equipment and cost differences for upgraded equipment. Fleet Management also assigns a control number for each request and returns the form to the requesting division. The cost estimates for new/additional equipment or cost differences for upgraded equipment should be included in the requesting division's budget request along with a copy of the Form 11 when appropriate.

B. All replacements will be initiated by the Fleet Management Division.

C. Forward the original Municipal Form 11 or Public Safety Form 11 to the Fleet Management Division for unit price costing.

D. Fleet Management develops an annual schedule for the Form 11 process which will be distributed to all departments.

Specific Instructions:
Please note the Form 11 has been amended to include requests for special projects such as welding or fabrication services. In the past, special project requests to Fleet Management were done with a Form 10. This is no longer the case. Please use the Form 11 for special project requests to Fleet Management as well as requests for new/additional vehicles, upgrades or rental/loaner vehicles.

1. Complete budgeted/unbudgeted, department/division name, contact person, and extension number.

2. DEPARTMENT HEAD SIGNATURE: Signed by the department director or an authorized representative. Fleet Management will prepare an estimate of unit cost and return the form to the requesting department/program. Fleet Management will cost out all Form 11s submitted by the deadline.

3. Check appropriate space; i.e., new/additional equipment, upgrade, rental/loaner, special project.

4. PROJECT DESCRIPTION: Describe the units (i.e., compact sedan, standard pickup 5,000 - 6,900 Gross Vehicle Weight (GVW), side-loader disposal truck) requested and all extra or specialized equipment required to make the vehicle useful; i.e., trailer hitch, tool boxes, hydraulic lift, fire extinguisher, crane, etc. The completeness of this list is essential to an accurate cost estimate. Also, include a comprehensive justification of how the vehicle or piece of equipment will be used.
5. **MONTHLY ESTIMATE MILES/HOURS:** Number of miles or hours the vehicle or equipment will be used each month. Enter the number of months of anticipated usage for requested equipment charged on a flat monthly rate or leased.

6. **NUMBER REQUESTED:** Enter the number of vehicles or pieces of equipment that are requested.

7. **BILLING INFORMATION:** Fill in the appropriate Fund, Org, Project ID and Activity ID.

8. Indicate if the required auxiliary equipment must be purchased or is to be transferred from an existing vehicle or piece of equipment. If it is to be transferred, enter the specific group/equipment number on which the auxiliary equipment is currently employed.

9. **COMMUNICATIONS SERVICES:** If the vehicle or equipment requires the installation or transfer of communications or special equipment by Communications Services, prepare a Form 10C and submit to Communications.

10. Enter in **Equipment Acquisition Cost** the number of vehicles or pieces of equipment requested. Fleet Management will provide a unit cost and extend the total acquisition, amortization, and usage charges.

11. Remember to add the additional depreciation acquisition, and operating costs of the new/additional or upgraded equipment into your total fleet charges (expense subobject 59311, **Fleet Depreciation Charge**, and 59312, **Fleet Services Charge**, and 59325, **Fuel**, respectively) on the budget submission form.

**Budget Form Detail (Form 14)**

The Form 14 will be the mechanism to submit your explanations regarding significant changes between your FY 2023 Budget Submission and the FY 2022 Amended Budget as well as the corresponding impact to services. This information will be needed to facilitate discussions during the Budget Review Meetings as well as Council Budget Hearings.

**General Instructions**

You will be using the BI Launchpad to extract budget data and the Excel application to enter the requested explanations. The budget data extracted from BFM will include the FY 2022 Amended Budget, the FY 2023 Budget Submission, Percent Change from Amended, and Dollar Change from Amended. The Form needs to be completed for just expenditure accounts that reflect a significant change at a fund and division level.

**Specific Instructions**

At the account level, you will be required to provide a two part explanation. The first should address significant changes (what the changes caused) from the FY 2022 Amended Budget reflecting a ±7% or ±$100,000 variance. The second part is to explain how services or programs will be affected by the significant change. As you explain the impact to services, you need to quantify your comments. The only exception to this rule will be for centrally loaded accounts, including base ID charges, unless the increase is related to a Department request such as a Form 10, 10C, 10X or 11. However, you should still take the steps to evaluate any sizable ID variances.

Instructions on downloading information from the BI Launch Pad into Excel can be found on the Budget Form Detail (Form 14) in the Reports Section of this book.
Travel and Conference

Each department/division must request reimbursement funds for account 55803, Travel and Conferences, for the upcoming fiscal year through the normal budget process.

Authorization for reimbursement for travel and conference expenses will be granted only for which a clear benefit to the City is apparent. Reimbursement for a spouse is not authorized.

All attendance at major conferences or meetings (including travel) that can be anticipated in advance of a given fiscal year should be included in the budget request. Unless approved by the department director, no more than one City employee shall attend the same meeting or conference at City expense. Unless specifically included in the adopted budget, all out-of-state travel must be approved by the department director. All travel outside of the continental United States (e.g., Hawaii, Japan) must have prior approval by the City Manager’s Office.

The per diem option meal allowance during out-of-city travel, including gratuity, shall not exceed the federal per diem in effect at the time the expense is incurred.

No reimbursement shall be provided for travel or expenses until Form 57, “Travel Request & Claim for Reimbursement” has been properly prepared, approved, and submitted to the Finance Division.

For additional information, please see Administrative Order No. 1-4.

Business Lunches Charged to City

Any business lunch charged to the City must be charged to account 55804, Miscellaneous Subsistence Expense. To be eligible, the lunch meeting should have a clear benefit to the City. Petty cash can be used to reimburse an individual with a receipt for a business lunch if the amount does not exceed the current limit. When the petty cash request for payment is turned in, those business lunch expenses should be charged to account 55804, Miscellaneous Subsistence Expense.

Membership and Dues

Memberships and dues must be charged to account 58016 and will be paid by the City only when such membership provides a direct benefit to the City. Unless otherwise approved by the City Manager, no more than one City-paid membership in the same organization shall be allowed in each functional operation, program, or division.

Training (55801) and Travel and Conference (55803) funds will be appropriated directly into those respective accounts. No formal City Manager approval will be required aside from the regular budget deliberations.
**Master Fee Schedule (MFS)**

The Master Fee Schedule (MFS) includes all fees, reimbursements, and refunds administered by the City with the exception of those charges which are negotiated and covered by contract agreements or are filled on actual time and material basis. The MFS accomplishes the following objectives:

- Provides a centralized reference for all fees which are charged by the City.
- Assures that all fees, reimbursements, and refunds have been approved by the City Council.
- Allows for periodic review and adjustment of fees to reflect changes in costs of providing services.
- Reduces revisions to the Fresno Municipal Code for fee adjustments and is more flexible in establishing effective dates.
- Provides a history of fees as they are established and revised.

The MFS is divided into department sections. Within each section, fees are arranged alphabetically and identify, wherever possible, other requirements associated with the specific fee.

**Amending the Master Fee Schedule:**

The MFS has to be amended by Council resolution in any of the following cases. The term "fee" as used below also refers to refunds and reimbursements.

- Introduction of a new fee for a new service.
- Revision of fee amounts/units or other conditions, such as exemptions.
- Deletion of a fee.
- Change in or addition of mandated services or fees established by another agency for which costs are recovered through the City; i.e., seismic fees, state fingerprint charges.

**Annual Amendment Procedures:**

As part of the annual MFS process, each August departments are asked to review their section of the MFS for any new and/or changes to existing fees for the next fiscal year. Two packages of revisions should be prepared and delivered to BMSD. The original package will remain with BMSD the duplicate package will be forwarded to Raj Badhesha in the City Attorneys’ Office.

Any changes that Council makes, to recommended fee changes, will be incorporated in the annual revision amendment.
Revisions should be made by the department responsible for the fee(s). The following are some guidelines:

1. Review all fees that your department is responsible for, whether they reside within your department’s section of the MFS or not. This includes UGM fees and fees under a contract. BMSD will need a copy of the contract(s) if the fee is increased annually on a given date. Remember, this should be a comprehensive review of fees. If a contract is to increase on a known date by a known amount, it should be included in this annual update. The goal is to minimize the number of mid-year MFS adjustments.

2. Make all your revisions in red pen or highlighted on the “working copy”. (See attachment 3)

3. “Request to Amend Master Fee Schedule” form should be filled out for any new and/or fee change. Multiple fees can be included on one form, provided that they are being changed in the same way for the same reason. (Sample form located under Request to Amend the Master Fee Schedule (MFS) form in this book.)

4. The Amendment detail page(s) must show the basis and computation for establishing the fee amount: Include all pertinent costs and show computation. This step is important for legal compliance of permit fees and with regard to the GANN Spending Limit and Proposition 218. (Sample located under Master Fee Schedule Amendment Detail in this book. While a sample has been provided. Other formats may be used as long as the basis and computation are provided.)

   Detail pages should also explain the background for the new fee and/or fee change and the estimated revenue to be collected. Some of this information will be included in the Council Agenda Item when the annual revision amendment is taken to Council for adoption.

Please note the Detail Pages should not include a repetition of the actual MFS layout. The detail pages should contain cost detail for the fee you are proposing to change.

5. The effective date of the new fees and/or fee changes will be July 1, 2021 unless you designate otherwise. This may be important to you if there are “noticing” requirements attached to fees that you are adding or changing (ie., Assembly Bill 1600 requirements).

Ongoing Amendment Procedure:

Request for changes to the MFS shall be submitted to BMSD no later than 5 p.m. on the Friday three weeks prior to the council meeting date.

1. All requests shall be submitted on the "Request to Amend Master Fee Schedule" form and shall be accompanied by a draft staff report for the Council and a draft ordinance, if the Municipal Code is to be amended. Attach a copy of the current page(s) of the MFS on which the fee appears and show the changes requested by writing them in red ink. (Sample form located under Request to Amend the Master Fee Schedule (MFS) form in this book.)

2. The Amendment detail page(s) must show the bases and computation for establishing the fee amount: Include all pertinent costs and show computation. This step is important for legal compliance of permit fees and with regard to the GANN Spending Limit and Proposition 218. (Sample located under Master Fee Schedule Amendment Detail in this book. While a sample has been provided other formats may be used as long as the basis and computation are provided.)
3. Detail pages should also explain the background for the new fee and/or fee change and the estimated revenue to be collected. Some of this information will be included in the Council Agenda Item when the annual revision amendment is taken to Council for adoption.

In requesting an amendment, please pay special attention to the following areas:

- **Fee Description:** The name of the fee should describe the purpose and nature of the fee in simple and concise terms.

- **MFS Section/Name:** Include the Department and name where the fee does/will appear. Identify other sections if the fee logically falls into more than one department. **Be sure to include copies of all page(s) of the MFS where the fee does/will appear with any changes or additions written in red.**

- **Fee Amount, Unit/Time:** The fee amount should be explicit as to units/time to which it is applied.

- **Exemptions or special conditions:** State the special conditions which are applicable, if any. If complex, these conditions may have to be supported by a written administrative policy.

- **Effective date:** Amendments may become effective either the day following adoption of the resolution, or on a specified future date. On rare occasions, fees may be retroactive. In cases where a fee requires a new/changed ordinance, the MFS amendment is submitted for adoption together with the ordinance. In these cases, fees become effective on the thirty-first day after adoption of the MFS amendment.

- Requests must be signed by department directors or authorized representatives, the affected division manager, and the Department Budget Officer (DBO).

- If another department or division will collect or administer this fee, obtain the signature of the appropriate division manager and the department director **(this is important).**

**Note:** Legal review is needed (new fee or other reason), deliver a duplicate package to the City Attorney’s Office, by the Friday three weeks prior to the Council meeting date. If consent item, deliver duplicate package the Monday prior to the Friday when draft copy of agenda item is due to the City Manager for review. For new fees or changes that may require public noticing periods, the City Attorney may require additional time to review. If in doubt, call the City Attorney’s Office to confirm whether a longer review period may be needed.

4. BMSD will prepare a resolution amending the MFS as well as revised page(s) for the MFS before the Wednesday Agenda deadline.

5. BMSD will contact the requesting department and send an electronic file (PDF) of the original resolution and revised page(s) of the MFS when complete.

6. The requesting department submits the agenda item, including the resolution and the revised page(s) of the MFS to the City Clerk along with any ordinance changes or other resolutions that are necessary.
**Maintenance of the Master Fee Schedule:**

1. BMSD maintains an updated copy of the MFS and history of revisions. Additional current copies of the MFS are available for purchase from BMSD. The MFS may also be found on the City’s website https://www.fresno.gov/finance/budget/#tab-2

2. Outside parties who are subscribers will continue to receive revised pages. Departments administering fees are responsible for keeping MFS copies within the department up-to-date and should also ensure that any City offices outside the department that are responsible for the collection of the fees are provided with replacement pages. Any revisions to the interdepartmental mailing list should be made in writing from the Department Budget Officer to BMSD.

There is an annual maintenance service fee established to offset the cost of sending updated pages to outside businesses or individuals. Only those businesses or individuals who pay the annual fee will receive revised pages.
Request to Amend the Master Fee Schedule (MFS)

1. Complete this form for each new or revised fee and have it signed by the Division Manager, the Department Budget Officer, and the Department Director (as Requesting Department/Division). 
2. If another department or division will collect or administer this fee, obtain the signature of the appropriate Division Manager and the Department Director. *(This is important.)*
3. Attach a copy of the current page(s) of the MFS that will be affected. Indicate in red on the copy all corrections, the new fees, and effective dates.
4. Attach a copy of the report to Council and, if applicable, the draft ordinance and Council resolution.
5. Deliver this completed form with all attachments to BMSD by the Friday, three weeks prior to the meeting date.
6. **Provide a duplicate package to BMMD for subsequent submission to the City Attorney’s Office.**
7. Contact Elida Rubio, Ext. 7073, Elida.Rubio@fresno.gov. BMSD will prepare amended MFS pages and the MFS Amendment Resolution for the department staff to include with their report to Council.

PARKS, AFTER SCHOOL, RECREATION, AND
COMMUNITY SERVICES DEPARTMENT

Woodward Park Rotary Amphitheater Rental Fees

PARCS recommends revising the Woodward Rotary Amphitheater rental fees. The purpose is to bring the rental fees of the Woodward Park Rotary Amphitheater to the levels necessary to obtain full cost recovery. The historical operating expenses of the facility are not reflective of the future as current improvements have vastly improved the marketability, demand, and corresponding use of this venue. The Department proposes to adjust reservation fees from the current fixed rate rental structure to a variable formula that ensures organizers pay their fair share of event proceeds while maintaining access for non-profit organizations.
