

**ASSOCIATE PLUMBING AND MECHANICAL CONSULTANT II***Class Definition*

Under supervision, examines, evaluates, and approves complex plumbing and mechanical installations in residential, commercial, and industrial buildings in accordance with the Plumbing and Mechanical Regulations of the Fresno Municipal Code. Provides assistance to the Senior Plumbing and Mechanical Consultant in advising and assisting others on work methods and practices, assignment and dispatching of work, training, and field assistance to subordinates.

*Distinguishing Characteristics*

Associate Plumbing and Mechanical Consultant II is an advanced working level class in the Plumbing and Mechanical series. Incumbents examine, evaluate, and approve complex plumbing and mechanical installations in commercial and industrial buildings whose plans and specifications require the signature of a professional licensed by the State of California, and provide plumbing and mechanical consulting services to architects, engineers, designers, contractors, and owners. This class is distinguished from Associate Plumbing and Mechanical Consultant I in that incumbents of the latter do not assume the role of a lead worker while assisting the Senior Plumbing and Mechanical Consultant. This class is distinguished from Senior Plumbing and Mechanical Consultant in that incumbents of the latter are the first-line supervisory level in the Plumbing and Mechanical Consultant series.

*Typical Tasks*

(This list is neither inclusive nor exclusive. Consequently, this information may not reflect essential functions or cover all duties which may be assigned for this class.)
