DIRECTOR OF PUBLIC UTILITIES

Class Definition

Under general direction, plans, organizes and directs the activities of the Department of Public Utilities.

Distinguishing Characteristics

The Director of Public Utilities directs the activities of the Public Utilities Department. The incumbent exercises considerable judgement and discretion in the administration and direction of the department and its operations. The Director of Public Utilities is responsible for the development and implementation of policies and procedures relating to the operation, maintenance, long-range planning, and fiscal management of the City’s utilities including, water, wastewater and solid waste operations. This is an unclassified position in which the incumbent serves at the will of the City Manager.
