SENIOR CRIME SCENE TECHNICIAN

DEFINITION

Under general supervision, provides lead direction to employees engaged in processing crime scenes, evidence and fingerprints used in the prosecution of criminals. Operates automated fingerprint identification and ballistic imaging systems.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from a Supervising Crime Scene Technician, Manager or designee. Exercises no supervision; provides lead direction to assigned staff.

DISTINGUISHING CHARACTERISTICS

Senior Crime Scene Technician is the lead level class in the Crime Scene Technician series. Incumbents perform various identification and evidence duties including fingerprint classification, latent comparison, and other duties related to evidence collection and preservation. Incumbents perform the more complex tasks associated with the operation of automated Fingerprint Identification Systems. This class is distinguished from Supervising Crime Scene Technician in that the latter is the first-line supervisor. Incumbents may be assigned to any shift including nights, weekends, and holidays.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES

(may include, but are not limited to, the following:)

Provides lead direction and participates in police identification activities, including collecting, preparing, identifying, analyzing and preserving evidence, assisting in conducting special investigations, latent comparisons and filing operation and maintains records including photographs and fingerprints.

Performs the more complex tasks associated with the operation of the automated fingerprint systems, including evaluating prints for entry, purging of fingerprints stored in system, maintaining records, and collecting statistical data.

Participates in establishing and administering training programs for technicians and other department personnel.

Performs various crime lab procedures such as chemical development of latent prints, collecting gunshot residue used for analysis, narcotic presumptive testing, serial number restoration, collection of DNA samples and DNA buccal swabs, crime scene diagramming, and trace evidence fluorescence testing.

Testifies in court as an expert witness.
Performs the duties of the Supervising Crime Scene Technician in the Supervisor’s absence.

Operates photographic equipment.

May process prisoners for identification or evidentiary purposes.

Performs related duties as required.
