

AIRPORTS OPERATIONS OFFICER I/II

DEFINITION

Under general supervision, performs administrative duties contributing to the efficiency of Airport operations; and monitors the airfield, airport facilities, and personnel to ensure compliance with FAA, TSA, and airport policies and procedures.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from Airports Operations Manager, or designee.
No supervision exercised.

DISTINGUISHING CHARACTERISTICS

Airports Operations Officer I is the entry level working class in this flexibly staff series in which the incumbent oversees daily operations of the Airport. Incumbents are expected to progress with training and experience as well as satisfactory performance to the Airport Operations Officer II. Airports Operations Officers monitor and report airfield safety and security issues/matters to Airport management and ensures compliance with Federal Aviation Regulation (FAR) 139, Transportation Security Regulation 1542, and other federal regulations and complementary airport system rules, policies and procedures. Incumbents will be assigned to work rotating shifts that will include nights, weekends, and holidays. These classes are distinguished from the Supervising Airports Operations Officer in that the latter is the first line supervisory class.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES

May include, but are not limited to, the following:

Inspects airfield, terminal, perimeter and grounds for compliance with Federal Aviation Administration (FAA), Transportation Security Administration (TSA), and Airport rules and regulations.

Conducts inspections of airport lighting, taxiways, runways and aprons; and reports hazardous or substantial maintenance construction problems.

Coordinates airport operations during assigned shift ensuring the safety and security of the public, tenants and airport staff.

Directs and participates in the inspection of terminal buildings and ground transportation facilities, including concourse, terminal, gate areas, concession areas, interior and exterior of buildings, sidewalks, parking lots and public access roadways to assure the safety, security and efficiency of terminal and ground transportation operations.

Submits maintenance requests based on observations and results of inspections.

Monitors the activities of tenants, licensees, and maintenance personnel during assigned shift to ensure compliance with airport standards, policies and regulations.

Issues and files Notices To Airmen (NOTAMS) to report all conditions that impact the safe operations of aircraft and ensures prompt communication to the FAA, air carriers and other airport users.

Maintains a working knowledge of FAR Part 139 and other federal aviation regulations pertaining to airfield markings and lighting; and maintains a working knowledge of additional rules governing the certification and operation of the Airport.

Works cooperatively with other divisions to ensure compliance with applicable aviation, safety, and security regulations.

Provides support to Airports Operations Division in overseeing airside and/or landside operations on assigned shift; serves as a resource in resolving difficult problems; and provides input in employee performance evaluations.

Provides frequent contact with Airport management to exchange information and concerns with respect to policies, procedures, airport activities, operating conditions, tenant relations, and FAA directives.

May occasionally escort vendors or contractors, depending upon assignment and work location.

May act as the airport's representative until relieved by higher authority, and may be required to make decisions which may have an impact on the operation of the airport, such as opening and closing the runways for evacuation of the airport's facility.

May serve on committees and attend a variety of meetings; and may be assigned to administrative tasks such as revising airport rules and regulations, emergency plans, certifications manuals, security plans, and training programs.

Performs related duties as required.
