Rev. 7/2022
Employment Not Covered by Social Security

Your earnings from a full time position in this unit are not covered under Social Security. When you retire, or if you become disabled, you may receive a pension based on earnings from the City. If you do, and you are also entitled to a benefit from Social Security based on either your own work or the work of your husband or wife, or former husband or wife, your pension may affect the amount of the Social Security benefit you receive. Your Medicare benefits, however, will not be affected. Under the Social Security law, there are two ways your Social Security benefit amount may be affected.

Windfall Elimination Provision

Under the Windfall Elimination Provision, your Social Security retirement or disability benefit is figured using a modified formula when you are also entitled to a pension from a job where you did not pay Social Security tax. As a result, you will receive a lower Social Security benefit than if you were not entitled to a pension from this job. This provision reduces, but does not totally eliminate, your Social Security benefit. For additional information, please refer to Social Security Publication, “Windfall Elimination Provision.”

Government Pension Offset Provision

Under the Government Pension Offset Provision, any Social Security spouse or widow(er) benefit to which you become entitled will be offset if you also receive a Federal, State or local government pension based on work where you did not pay Social Security tax. The offset reduces the amount of your Social Security spouse or widow(er) benefit by two-thirds of the amount of your pension. For additional information, please refer to Social Security Publication, “Government Pension Offset.”
