Wastewater to flush or not to flush?

You've probably noticed that many products are labeled as "flushable," including wipes, condoms and diapers. But it's easy to remember this one fact: the only store-bought item you can flush is toilet paper! The following are popular items that are marketed as flushable, but they belong in the trash:

Dental Floss
Feminine Hygiene Products (including tampons)
Cotton Swabs & Cotton Balls
Makeup Pads
Disposable Gloves (including latex)
Wipes

If it's not toilet paper, don't flush it!
