**TOILET PAPER**

# **THE ONLY STORE-BOUGHT FLUSHABLE**

**With so much talk about toilet paper right now,** we want to remind you that it's the only product you can flush. Even alternatives to toilet paper, including tissues, paper towels, and wipes, are

**NOT flushable.** While these items may say "flushable," don't be fooled and follow one simple rule: if it's not toilet paper, don't flush it!
