

**Help Keep
Fresno Beautiful
by Knowing**

What Goes Where

As we continue to follow the City's health and safety guidelines provided during this time, it's important to remember to properly dispose of the items we are all using more of these days.

How to Do Your Part

with the Help of Fresno's Clean, Safe, and Reliable Water!

The City of Fresno is continuously working to make sure your water is **clean, safe, and reliable** for you and your family.

You can contribute to our efforts to **Keep Fresno Beautiful** by limiting your daily use of plastic water bottles and using your clean tap water to **fill up reusable bottles**.

According to CalRecycle, **6 billion bottles and cans end up in the landfill** so let's work together to decrease the number!
