

## Office of Independent Review

### Quarterly Report Third Quarter 2015

Richard Rasmussen Police Auditor

### **Purpose of the Office of Independent Review**

The Office of Independent Review (OIR) is responsible for ensuring that complaints about the conduct of the Fresno Police Department (FPD) are thoroughly investigated to enhance community trust. The OIR monitors ongoing investigations conducted by the FPD Internal Affairs (IA) unit and, when completed performs a comprehensive audit of the process. Each audit report will focus on evaluating the adequacy, thoroughness, quality and accuracy of the investigative report. The OIR assists in strengthening the relationship between the community and the police department by promoting greater transparency and collaboration.

By design, the OIR is independent from the FPD allowing it to work as a conduit in the community. As such, the OIR meets regularly with members from local groups to listen to the public's interest and perspective.

The OIR is scheduled to release four quarterly reports per year to increase transparency, public awareness and understanding.

### **Purpose of the Report**

The objective of the OIR, in preparing this report is that the constituents of the City of Fresno see transparency by all parties involved in the review of complaints.

The following report is intended to show a detailed summary of all complaints submitted to the FPD during the third quarter of 2015. The OIR does not conduct its own investigation but is given full access, monitors and contributes to the existing IA investigation. Once IA has completed its investigation the file is submitted to the OIR for audit.

The third quarter report reflects all complaints made to the IA Unit of the FPD, along with the recommendations made by the OIR between the dates of 07/01/2015 - 09/30/2015. The report is reflective of complaints that are handled within the Inquiry Complaint Form (ICF) system, as well as those more serious allegations which are immediately assigned within the IA Pro system. Some complaints begin as ICFs and once that investigation is concluded, mutate to become full IA investigations. As the tables within this report reflect, some cases are still pending with the IA Unit and will be audited upon completion of IA's own examination of those cases. Also, within this report are separate tables that list pending cases in previous quarters; these tables will detail if the cases have since been audited or continue in a pending status.

Additionally, recommendations are always communicated to the FPD within the audit, regarding the case that generated the recommendation. Other, broader recommendations and/or "trends" are also communicated to the FPD as they are identified weeks prior to the OIR Quarterly Report being published. This is an effort to ensure that the FPD is aware of issues and is able to react, address or consider each item, and is done so in the most time effective manner possible. The FPD has been extremely responsive to these notifications and has offered clarifying information or language, prior to the reports being published.

### Trends/Issues Identified and Relayed to the Police Department

#### **OIS Timelines:**

FPD continues to expend approximately one year to complete internal reviews of Officer Involved Shootings (OIS). OIR continues to be dismayed by the excessive time it is taking to finish these highly sensitive cases. Although there certainly are cases where the FPD is waiting for specific test results prior to finalizing an IA review, OIR believes this is the exception rather than the rule. OIR contends that if the Homicide Unit can complete an investigation, in full, in a timely manner, the FPD should be able to do the same. Awaiting a clearance letter, or a specific lab report that may shed insight on the actions/motive of the individual(s) involved, can be enlightening however these tests do not have bearing on the central issue of whether the officer's actions were within policy. OIR stresses the sensitivity of OIS cases, and the fact that OIS investigations average over 350 days for completion is too long and not supported by investigative needs. Completing these IA reviews and OIR audits within six months is something of great interest to the public and is an easy step to increase public transparency.

### **Compliant Dates – Expiration of Time:**

OIR has noted that there is a one year deadline from the date of an incident to any administrative steps being taken against an officer, if misconduct has occurred. OIR is recommending that the FPD establish a foolproof system to ensure that these expiration dates do not come into play in any case.

### **Homicide Audit Summary:**

OIR's Director of Audits completed a top-to-bottom review of the Homicide Unit that included review of policies, procedures, all related administrative items, and each member of the unit was interviewed. No significant operational issues were uncovered and as an overall assessment, the unit was found to be sound. However, a few administrative issues were noted and discussed with the unit and the Deputy Chief who is the point of contact for these audits. These issues resulted in the following recommendations:

- OIR recommends the homicide unit review the UCR guidelines and be responsible for closing cases assigned to them under the UCR guidelines as well as gaining approvals from the detective's chain of command.
- OIR recommends the department's current homicide manual, be reviewed and revised to include UCR definitions of "Cleared by arrest", and "Cleared by exceptional means" as well as "Unfounded".
- OIR recommends each homicide casebook include a checklist for "Cleared other" or "Inactive" with approval signatures from the unit sergeants. This data can then be forwarded, reviewed and approved by the records unit.

The audit showed that the Homicide Unit completes its investigation of OISs in a timely manner and forwards them to the District Attorney's Office as well as to Internal Affairs as soon as the investigation is concluded and generally, well prior to the one year mark.

### **OIR Recommendations:**

- Contact with Confidential Informants (CIs), whenever humanly possible, should be coordinated
  with a second officer to ensure that the handling officer never needs to defend themselves
  against unwarranted allegations.
- OIR recommends a full and thorough review and inspection of all policies and procedures involving the use of CIs, especially within those specialized units that are engaged in proactive policing. The following issues must be determined:
  - o The use of CIs who are "blackballed" being used as "hip pocket" CIs;
  - Verify vouchers submitted for CI activities, including information, are attached to an investigative report or case;
  - Confirm officers/detectives are submitting vouchers with the proper CI identification along with attached documentation detailing what the CI provided in exchange for the cash they received.
- In one allegation of misconduct, the field investigator did not go to the scene and search for available videotapes until after 30 days had elapsed, thereby the recording media was no longer available for review. OIR recommends that when a case is first assigned to a field investigator that IA direct that investigator to canvas the area to preserve any videotapes that are available.
- Officers are reminded that in their job, members of the public will call them names, direct
  profanity at them and generally misbehave. Officers, no matter the verbal abuse they may
  receive, are reminded that by responding in kind, including the use of profanity, they not only
  lower themselves to the other person's level, it is against policy and generally only escalates
  situations rather than deescalate them.
