SUBJECT: STUDENT AND NEIGHBORHOOD RESOURCE OFFICERS SUMMER
2017 STUDENT CONTACT ANALYSIS

This Student Contact Analysis (SCA) report provides an analysis of documented student contacts at the 16 Fresno Unified School District (FUSD) middle schools where Student and Neighborhood Resource Officers (SNRO's) are staffed. The SNRO unit is supported by a three-year federal Community Oriented Policing Services (COPS) grant and a partnership between the Fresno Police Department and the Fresno Unified School District. The unit has officers assigned to Ahwahnee, Baird, Computech, Cooper Academy, DeWolf, Gaston, Hamilton, Kings Canyon, Manchester Gate, Scandinavian, Sequoia, Tehipite, Tenaya, Terronez, Tioga, and Yosemite Middle Schools.

SNRO's work to ensure the safety of the students and school personnel on their campuses. They investigate incidents that occur at the schools, assist with mediation to prevent criminal violations, and mentor the students. They also work in the neighborhoods around the middle schools and elementary schools that feed into their assigned middle schools. They address crime in the neighborhoods and quality of life issues that put our school-aged youth at risk. SNRO's actively participate in school events and community events in the neighborhoods.

SCA reports are published quarterly. This SCA report covers the reporting period for July through September 2017. The SCA data contained in this analysis is generated by reporting mechanisms required of SNRO's and maintained by the sergeant assigned to the SNRO unit. Citation and arrest data is also maintained automatically in the Department's Report Writer Systems under each officer's identification.

The demographic breakdown of the City of Fresno used for Demographic Data Analysis, as reported in the US Census Bureau's most recent published information, is as follows:

- Hispanic 46.9%,
- American Indian / Alaskan Native 1.7%,
- Asian 12.6%,
- Black / African American 8.3%,
- Hawaiian / Pacific Islander 0.2%, and
- White 30.0%.

2017 Student Contact Analysis
July 10, 2017

As provided at the beginning of the school year, the total student population in Fresno Unified School District's middle schools at all campuses where SNRO's are assigned is 11,368. Demographic information and student populations were provided by each school site and represent a point in time analysis for August 2017.

The demographic breakdown of the schools where SNRO's are assigned is as follows:

- Hispanic 68.3%,
- White 11.6%,
- Asian 9.1%,
- Black / African American 7%,
- Native American 0.5%,
- Filipino 0.3%,
- Pacific Islander 0.3%, and
- Multiple Races 2.8%.

A review of the SCA for this reporting period established that there were a total of 52 reported crimes. Of the reported crimes, seven were felonies, 35 were misdemeanors, and 10 were infractions reported for 11,368 students on the 16 campuses where SNRO's are assigned. This represents 0.46% of the student population (52 of 11,368 students) were involved in reported criminal activity during this period of analysis.

Of the 52 reported crimes, two juveniles were booked into the Fresno County Juvenile Justice Campus. Additionally, 28 students who were contacted by SNRO's for being involved in low-level, non-violent criminal behavior were either reprimanded or released or were involved in restorative practices or peer mediation practices involving school staff. This equates to 53.85% of all crime-related contacts made by SNRO's during this reporting period being diverted from the Juvenile Justice System through alternative resolutions and effective use of restorative practice techniques.

The demographic data of the 52 youth committing reported crimes during this analysis period is as follows:

- Hispanic 76.92%,
- Black 17.31%, and
- White 5.77%.

The demographic data of the 28 youth who were reprimanded and released or involved in restorative practices, including peer mediation and Youth Court, is as follows:

- Hispanic 73.33%,
- Black 20%, and
- White 6.67%.

2017 Student Contact Analysis
July 10, 2017

Of the 52 reported crimes that occurred for this analysis period on school campuses where SNRO's are assigned, the following crimes were reported most often:

- 23 violations of Penal Code 415 – fighting (44.23% of all reported crimes),
- 9 violations of Health and Safety Code 11357(d) – minor in possession of marijuana (17.31% of all reported crimes),
- 4 violations of Penal Code 594 – vandalism (7.69% of all reported crimes), and
- 4 violations of Penal Code 242 – battery (7.69% of all reported crimes).

The data reflected in the current SCA report will be reviewed and then compared to the next SCA report to determine what modifications, if any, should be made to the Student and Neighborhood Resource Officer Unit to enhance its effectiveness.
