The yield earned on the Portfolio was 1.28 percent for the month ended June 2017. It was 1.00 percent for the month ended June 2016: a net increase of 28 basis points, or 28 percent. The interest earned year to date has increased by \$587,834; or 12.16 percent. Most of this increase is due to the portfolio earning higher yields, which can be seen in the increase in the rolling year to date yield. The size of the Portfolio decreased by \$102,146,998. The Market Value of the Portfolio decreased by \$105,208,657. The difference between \$102,146,998 and \$105,208,657 is \$3,061,659 which represents a decrease in the Market Value in relation to the Amortized Cost.

Federal Agency Notes decreased by \$49,783,359, Corporate Notes decreased by \$6,386,459, the Local Agency Fund decreased by \$92,615,038, and Time Deposits decreased by \$7,394,295. The total of these available resources being \$156,179,151. Of these funds, \$32,153 was invested in Treasury Notes, and \$54,000,000 was invested in the Money Market. The net effect of these transactions was a decrease in the overall total of the portfolio by \$102,146,998. The decrease in the investment balances is due to the City escrowing \$116,000,000 in March 2017 for the future defeasement of Sewer bonds. An increase in interest rates is the cause for the decrease in the Market Value in relation to the Amortized Cost.

In accordance with State Law, the Finance Director certifies that the securities held in the City Investment Portfolio, purchased with Surplus Funds, comply with City policies. The Finance Director further certifies that the City has Operating Funds available to meet its expenditure requirements for the next six months.
