The yield earned on the Portfolio was 1.66 percent for the month ended February 2018. It was 1.09 percent for the month ended February 2017: a net increase of 57 basis points, or 52.29 percent. The interest earned year to date has increased by $\$ 283,490$; or 7.68 percent. The increase is due to the rise in interest rates. This is reflected in the rolling 12-month return on investment which increased by 26.85 percent. The Market Value of the Portfolio decreased by $\$ 12,332,440$. The difference between $\$ 8,404,394$ in amortized cost and $\$ 12,332,440$ in market value is $\$ 3,928,046$ which represents a decrease in the Market Value in relation to the Amortized Cost.

The Money Market decreased by $\$ 19,000,000$, the Local Agency Fund decreased by $\$ 65,309,506$, and Time Deposits decreased by $\$ 6,405,705$. The total of these available resources being $\$ 90,715,211$. The net effect of these transactions was a decrease in the overall total of the portfolio by $\$ 8,404,394$. The decrease in the investment balances is primarily due to the City escrowing \$116,000,000 in March 2017 for the future defeasement of Sewer bonds. An increase in interest rates is the cause for the decrease in the Market Value in relation to the Amortized Cost.
