A new garage was added in 1917 and again in 1952. Both garages were removed at unknown dates. At least one addition exists at the rear of the building, and the original wood walls have been stuccoed. An outbuilding was added at the rear of the property sometime after 1970. Overall, the residence has low integrity. |

In 1964, a<br>prefab warehouse was added. Around 1985, an addition was built on the north<br>end of the prefab warehouse; likely at this time, the corrugated steel sheeting<br>was added to the facade and cornice of the 1921 building. |
