

Fresno Central Southeast Area Specific Plan

Workshop #1 Summary

June 20, 2018, 6:00pm – 8:30pm
Sal Mosqueda Community Center
4670 E Butler Ave, Fresno, CA 93702

Overview

On Wednesday, June 20, 2018, the City of Fresno hosted a workshop to engage with community members about their vision for the future of CSE Fresno. The workshop was held at the Sal Mosqueda Community Center and took place from 6:00-8:30pm. The event was attended by approximately 45 community members and interested stakeholders. During the registration period, participants were asked to review 2 informational posters and provide input on 4 interactive stations.

The workshop began with a brief introduction by Brenda Rapada and Daniel Cisneros from Councilmember Luis Chavez's office, and by City staff including Sophia Pagoulatos and Drew Wilson.

Following this, Matt Raimi from Raimi + Associates provided a brief overview of the Specific Plan project, Plan Area, process, and a summary of the previous outreach conducted. David Sargent, project consultant with Sargent Town Planning, followed with a presentation highlighting areas for change in CSE Fresno and ideas for the types of change that could occur. The project team then provided instructions for the two workshop activities, as well as the importance of community participation and collaboration in the process. Spanish and Hmong translators from the City were present to provide real-time interpretation of the presentation and to facilitate the table activities.

The following pages summarize the results of the workshop.

Summary of Results

The workshop included 2 informational posters and 4 interactive stations for participants to provide input at their leisure as they entered the workshop, and 2 small group table activities during the workshop.

Welcome Stations:

Existing Land Use

This informational station provided a large-format map of existing land uses in the Plan Area.

General Plan Land Use Designations

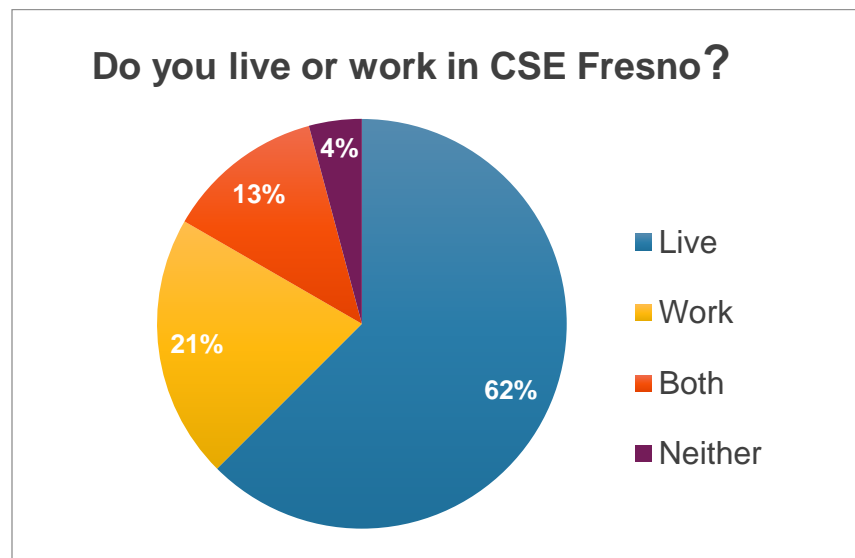

This informational station provided a large-format map of General Plan land use designations in the Plan Area with a brief description of each designation.

STATION #1: About You

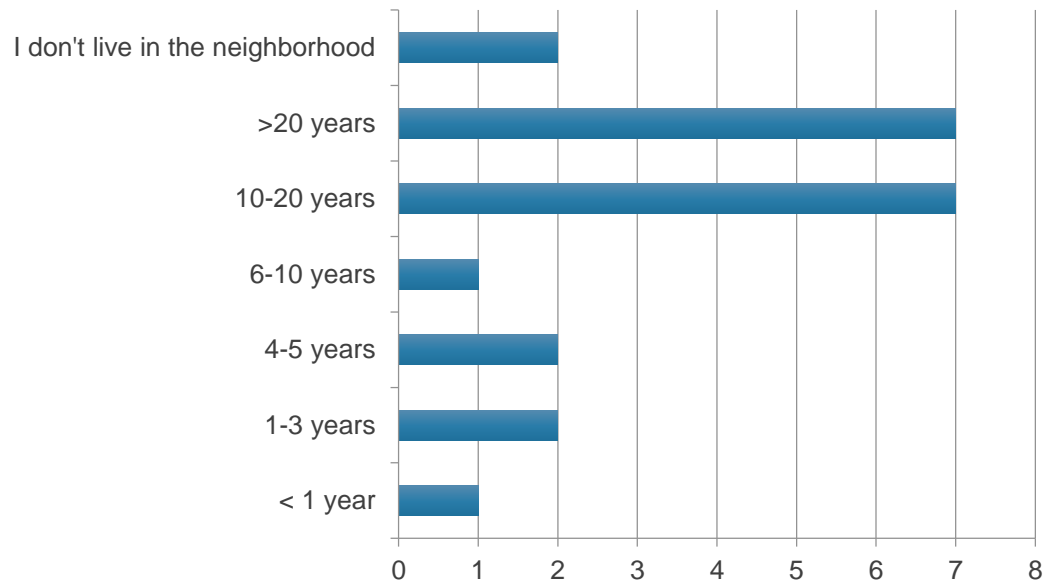

This station provided a large-format poster board to gather demographic information about participants such as relationship to the Plan Area, age, and race/ethnicity.

There were 24 total participant responses at this station. The results show that the majority of participants:

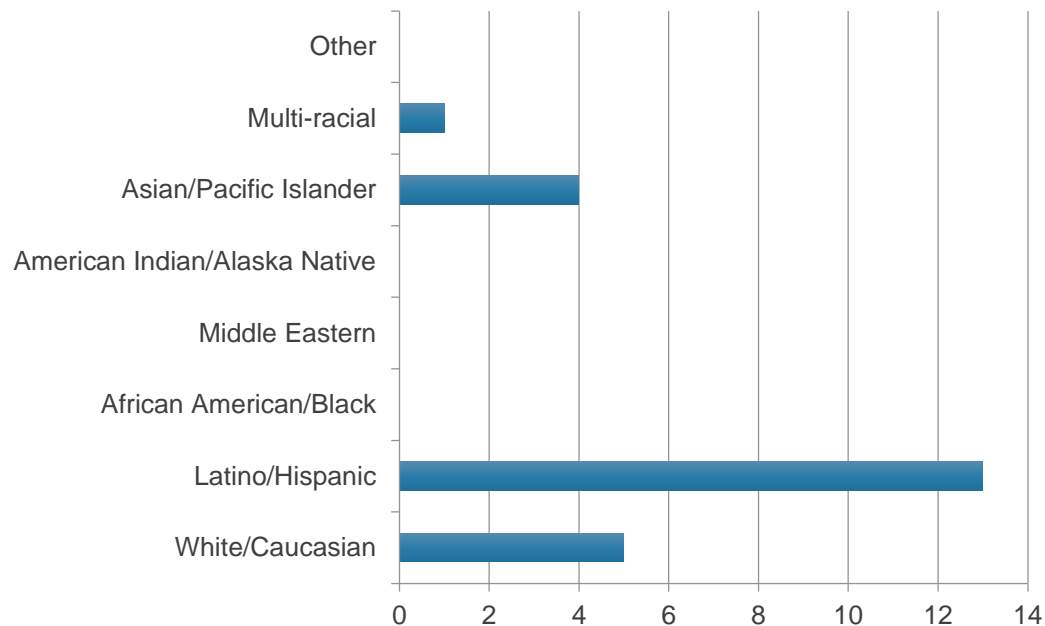

- Live in CSE Fresno
- Have lived in the area for more than 10 years
- Are Hispanic/Latino
- Are over 45 years old

How long have you lived in CSE Fresno?

Race/Ethnicity

STATION #2: Strengths

This station allowed participants to articulate the attributes they love most about Central Southeast Fresno.

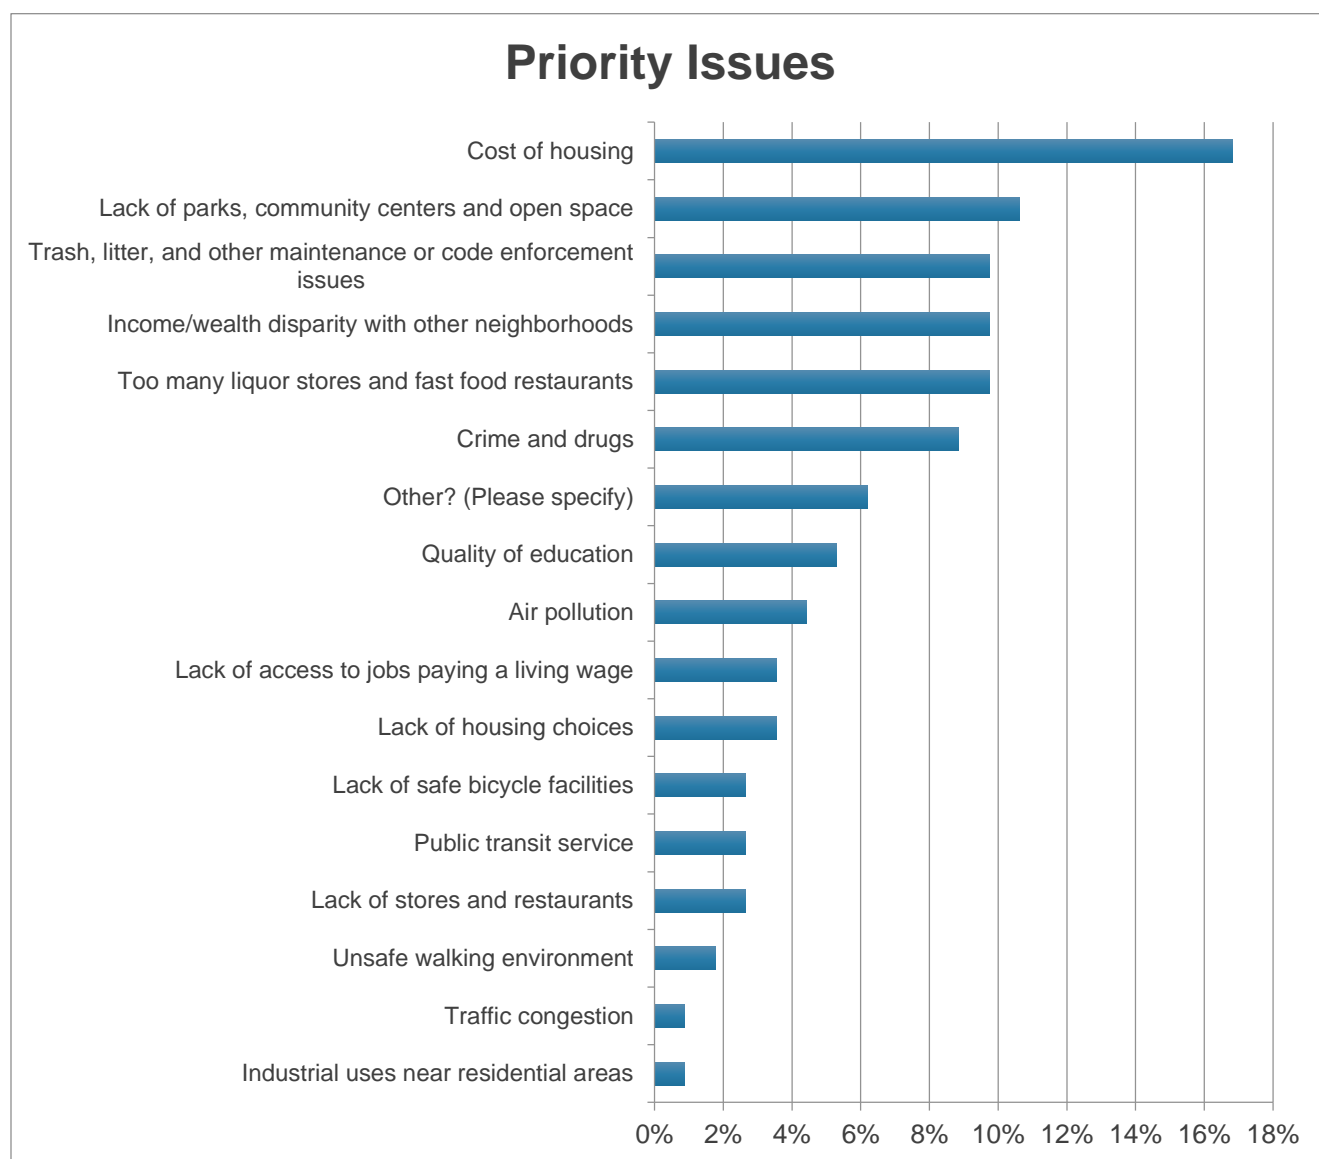

Participants noted the following strengths or community assets:

- The Fair
- Great institutions
- Bus lines (22 and Q)
- Diverse population
- United community
- Close to fire department, hospital, police, and schools
- Neighbors are always willing to help
- Hard working people
- Many opportunities to improve the community
- Playgrounds

The strengths cited the most by community members were the diverse population, the Fair, and bus lines.

STATION #3: Key Issues

The project team identified a number of issues for the Plan Area based on previous outreach efforts and printed them on a large-format poster. Using a dot-voting exercise, participants were able to identify their top 5 priority issues.

Participants that selected the “Other” category added the following issues:

- Lack of senior centers, services, and healthcare
- Infrastructure issues
- Lack of movie theaters
- Lack of movie theaters, pet supply stores, vets
- Police department sub station
- Lack of quality housing
- No youth center/cultural center

STATION #4: Guiding Principles

The project team drafted a set of guiding principles for the project based on previous outreach efforts and printed them on a large-format poster. Participants were asked to provide their comments, additions, or revisions on an adjacent flipchart.

Participants provided the following comments on the Guiding Principles:

- Improve police treatment for CSE residents and response times
- Need more activities for people of all ages
- Address homelessness
- Beautification - more greening. Address old and dying trees.
- Address trash and illegal dumping
- Façade/home improvements - beautification and upkeep of neighborhoods

Small Group Table Activities

Activity 1 - Activities, Amenities, and Opportunities

Each table was asked to discuss and answer a set of questions focusing on the overall question: What assets and opportunities already exist in Central Southeast (CSE) Fresno, and what could be added in the future to make it an even better place to live, work, and play? Each participant received a worksheet on which to write down their answers to each of 8 detailed questions.

ANDREINA'S ~~TOP~~ TABLE

Instructions: Based on your discussion in Part 1, as a group, using the stickers and other materials provided, please create a map of CSE Fresno, identifying the positive assets and amenities that already exist here, as well as areas where you think specific types of change should be prioritized to make CSE Fresno a better place to live, work, and play:

Sticker Legend

The following stickers have been provided to each group identifying specific types of change. If this list is insufficient or incomplete, feel free to be creative and record your ideas/feedback on the map in whatever way you feel most effective;

-  **Existing Assets & Amenities:** Where are the businesses, services, activities, skills, traditions, etc. that already exist in CSE Fresno?
 -  **Small Neighborhood Center:** A small concentration of neighborhood-serving activities (cafés & eateries, shops, services, etc...).
 -  **Mixed-Use District:** A larger, more-intense concentration of activity; including housing, commercial/retail/entertainment, jobs, etc... in an active walkable, urban district.
 -  **New/Improved Parks & Community Open Space:** Community spaces focused on local/neighborhood-serving activities (playgrounds, playing fields/courts, picnic areas, etc...).
 -  **House-Scale Neighborhood Infill:** Infill housing at the scale of single-family houses. May include house-scale multi-family housing, including duplexes/multiplexes that look no different from a big(ger) house, neighborhood courtyard types and accessory units (back-houses) on larger lots and lots with alleys.
 -  **Multi-Family Infill:** Infill housing that may include more intense types ranging from townhouses (attached single-family), to neighborhood- and urban-courtyards, to contemporary condos and apartments.
 -  **Employment District:** A concentration of employment generating businesses - often part of a mixed-use district with supporting commercial/services and potentially housing.
 -  **Street Improvements:** Focused on multi-modal (bikes, pedestrians, transit, cars) safety and ease-of travel, as well as creating valuable, attractive, comfortable, well-shaded street-addresses for homes and businesses.
