

2023

New Year's Resolution: Conserve Water

The new year brings a new opportunity to conserve water resources during the ongoing drought emergency. Here are our top two tips to start off 2023:

Dishwasher Rewards. Washing loads of dishes saves 5-15 gallons of water versus washing each dish by hand in the sink.

Sneaky Leaks. Fixing even the smallest leak, such as a dripping faucet, can save 30-100 gallons of water per day. Get your leak alert with EyeOnWater.

Every Drop Counts. Track your water usage on the City of Fresno's EyeOnWater App. Scan the QR code or visit Fresno.EyeOnWater.com/SignUp.

Struggling to Pay for Water Utilities?

Qualified customers who apply for the Water Affordability Credit Program can earn \$5 off their monthly utility bill.

Overview of Eligibility:

- Single-family residence who receive City of Fresno water service
- Account holder lives on the property
- Account holder also qualifies for PG&E's ("CARE") Program

City of
FRESNO

JANUARY 2023 • DIVCOF-146824

To apply for the program, scan the QR code or visit fresno.gov and type "water affordability credit program" in the search bar.
