1. Summary

Soar Environmental Consulting, Inc. (Soar Environmental/Contractor) has performed a Phase I Environmental Site Assessment (ESA) in general conformance with the scope and limitation of the American Society for Testing and Materials (ASTM) Standard Practice for Preliminary Site Assessments E 1527-05 for the subject property described as Fresno County Assessor Parcel Numbers (APNs) 459-032-23, 459-032-15, and 459-032-05, located at 450 E. Belmont Ave, Fresno, California. Any exceptions to, or deviations from this practice are described in Section 2.4 of this report. Within the scope of this investigation, Soar Environmental discovered no evidence of recognized environmental conditions or significant environmental concerns in connection with the subject property.

While no initial site assessment can fully eliminate the uncertainty regarding the potential for recognized environmental conditions, the ASTM standard does cite the balance between appropriate levels of inquiry and the cost of such exhaustive investigations. It is Soar Environmental's opinion that a full assessment of the site has been completed. Based on the results of this report, further investigation is not warranted.

2. Introduction

2.1. Purpose

As per Section 1.1 of the American Society of Testing and Materials (ASTM) Standard Practice Designation E 1527-05, the purpose of this assessment is to identify recognized environmental conditions, as defined in Section 3.3.31 of the same Standard Practice; that is "the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property." This practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner defense to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA); that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in 42 USC § 9601(35) (B).

Soar Environmental has conducted this Phase I ESA under the direction of an environmental professional, as defined by ATSM Standard Practices §3.2.32 and 40 CFR §312.10(b), whose signature appears hereon. This document serves to identify recognized environmental conditions (RECs) in association with the subject property.

2.2. Detailed Scope-of-Services

The Phase I ESA conducted at the subject property was in general accordance with ASTM Standard E 1527-05 and included the following:

- Review of previous environmental site assessments
- Records review
- Interviews with regulatory officials and personnel associated with the subject and adjoining properties
- A site visit
- Evaluation of information and preparation of the report provided herein.

Typically, a Phase I ESA does not include sampling or testing of air, soil, groundwater, surface water, or building materials. These activities would be carried out in a Phase II ESA, if required. For this Phase I ESA, no additions to the ASTM E 1527-05 standard were made.

2.3. Significant Assumptions

Soar Environmental believes the results, specifications, conclusions and professional opinions to be accurate and relevant but cannot accept responsibility for the accuracy or completeness of public documentation or accuracy, completeness, or possible withholding of information by interviewees or other private parties. We make no other warranty, either expressed or implied.

It is assumed that this investigation is being conducted to identify RECs concerning the subject property, and to permit the user to satisfy one, or more, of the requirements to qualify for the innocent landowner defense to CERCLA liability. This investigation may mention but does not fully address non-scope considerations such as:

- Asbestos

- Radon
- Lead-based paint
- Lead in drinking water
- Wetlands
- Regulatory compliance
- Cultural and historic resources
- Health and safety
- Ecological resources
- Endangered species
- Air quality
- Water Quality

This property assessment did not include air, soil or water sampling, or laboratory analysis. Therefore, the results of this investigation do not preclude the presence of substances presently, or in the future, being defined as hazardous existing on the subject property. This report does not purport to address all safety problems, if any, associated with the subject property.

2.4. Limitations, Exceptions, and Data Gaps

The scope of services performed to complete this Phase I ESA is limited in nature. Site conditions can vary with time; therefore, this assessment is not intended to predict future site conditions. Because of the nature of this assessment, site history has been developed based solely upon information provided by the client, through the interview process, or during the review of available regulatory files on this site and nearby sites. This report is not a complete risk assessment and the scope of services does not include a complete determination of the extent of, nor the environmental or public health impact of, known or suspected hazardous materials or wastes.

Along with all of the limitations set forth in various sections of ASTM E 1527-05, the accuracy and completeness of this report may be limited by the following:

- Access Limitations – None.
- Physical Obstructions to Observations – None.
- Outstanding Information Requests – None.
- Historical Data Source Failure – None.
- Other – None.

It should be noted that, no evidence or recognized environmental conditions were discovered in the database search; therefore this assessment does not include an audit of operational environmental compliance issues or the research of any environmental management systems (EMS) that may, or may not, exist on the property. The information presented in this report was provided through existing documents and interviews, which requires the assumption that the information provided is accurate.

The information and conclusions contained in this report are based upon work performed by trained professional and technical staff in accordance with generally accepted engineering and scientific practices at the time the work was performed. The conclusions and recommendations presented herein represent the best judgment of Soar Environmental Staff and are based upon the information obtained from field

reconnaissance and data review. Due to the nature of this investigation Soar Environmental cannot warrant against undiscovered environmental liabilities. Conclusions and recommendations presented in this report should not be construed as legal advice.

Should additional information become available which differs significantly from our understanding of conditions presented in this report, we request that this information be brought to our attention so that we may reassess the conclusions provided herein.

The government database search included five (5) orphan sites within the search range of the subject property. The subject property does not appear on the orphan summary.

Based on information obtained during the interview process and general knowledge of the history of this vicinity of Fresno County, it is the opinion of Soar Environmental that the historical subject property uses have been adequately defined.

Aside from the limitation(s) listed above, it is the opinion of Evan G. Studley, Program Manager (Geology), that this Phase I ESA provides an appropriate degree of inquiry to determine if RECs exist on the subject property.

2.5. Special Terms and Conditions

Authorization to perform this assessment was given by the client on July 8, 2016. Instructions as to the location of the property, and details of access were supplied by Jeff Cazaly Consulting.

2.6. Environmental Personnel

This field reconnaissance was conducted under the supervision of Evan G. Studley, Program Manager (Geology). The following personnel contributed to the assessment:

- Evan G. Studley, Program Manager (Geology), provided supervision, performed site reconnaissance, conducted interviews, document review, and opinions/conclusions;
- Patrick N. Sauls, Senior Environmental Consultant, coordinated and reviewed database searches, conducted local file reviews, performed site reconnaissance, and prepared this report.

3. Site Description

Soar Environmental Consulting Staff performed a site inspection on July 20, 2016.

3.1. Location and Legal Description

The subject property is legally defined as Fresno County Assessor's Parcel Number (APN) 490-032-23, 459-032-15, and 459-032-05. The subject property location is outlined in Appendix A of this report.

3.2. Site and Vicinity Characteristics

The subject property consists of three (3) developed parcels owned by Shehadey & Shehadey, L.P. (aka Producers Dairy). The main parcel (APN 459-032-23) is entirely developed and consists of two brick buildings totaling 12,000 square feet, as well as a fenced broken concrete parking lot used for delivery trailer parking. The two small parcels (APN 459-032-15, and 459-032-05) are dirt lots separated by a public alley. The subject property is accessed via N. Roosevelt Ave from the east.

For information regarding the physical setting and soil composition in the general area of the subject property, refer to Section 5.1.

3.3. Current Use of the Property

At the time of the July 20, 2016 site inspection. The subject property is being utilized by Producers Dairy to temporarily park semi-trailers. Presently, Producers parks approximately 25 trailers onsite daily.

3.4. Descriptions of Structures, Roads, Other Improvements on the Site

At the time of the July 20, 2016 site inspection, structures, roads, and other improvements for the subject property(s) include the following:

- A broken concrete-asphalt parking lot surrounded by chain-link fence and cinderblock wall topped with razor wire. The chain-link fence is located to the north, at E. Belmont Avenue, and extends southward along the east and west sides of the property to the existing gates. The cinder wall begins on the south side of the gates and wraps entirely around the southern boundary of the main parcel (APN 459-032-23);
- Two dilapidated brick structures near the northeast corner have been boarded to preclude illegal entry. The larger of the two structures is 1.5 stories tall and measures approximately 150 feet by 55 feet, while the smaller 1 story structure measures approximately 65 feet by 45 feet. Together these two building total approximately 12,000 square feet;
- Property access is at North Roosevelt Avenue through a rolling chain-link gate on the east side of the property. There is an additional driveway on the west side of the property, which can be accessed from N. Ferger Avenue. This N. Ferger Ave driveway is currently fenced off and has no gate.

3.5. Current Uses of the Adjoining Properties

During the field reconnaissance, Soar Environmental observed the following land use on properties in the immediate vicinity of the subject property.

Direction	Property/Description
North	E. Belmont Ave, Several Auto/Mechanic Businesses
South	City of Fresno Alley, residential lots.

East	N. Roosevelt Ave, residential lots.
West	N. Ferger Ave, parking lot, residential lots.

4. User Provided Information

4.1. Title Records

A Preliminary Title Report (PTR) was supplied by Producer's Dairy (client). It is assumed that the Title Report satisfies the portion of the contract between the Client and Contractor to determine the presence or absence of environmental liens or activity and whether use limitations exist. No liens were found in the PTR. A copy of the PTR is included in Appendix F.

4.2. Title Records

An Asbestos Survey, Lead-Based Paint, & PCB Inspection Report was supplied by the Client. This report, dated January 19, 2016, was conducted by T.Brooks & Associates and concluded the subject property contains asbestos, lead-based paint, and PCB-containing light ballasts. The presence of these materials is not out of the ordinary considering the buildings on the subject property were built in 1929.

4.3. Environmental Liens or Activity and Use Limitations

On July 25, Soar Environmental searched through local county records for environmental liens or activity and use limitations. No report or record of any environmental liens, activity, and/or use limitations due to hazardous material issues were found regarding the subject property.

4.4. Valuation Reduction for Environmental Issues

No environmental issues were identified that could result in property value reduction.

4.5. Owner, Property, and Occupant Information

No written or verbal communication with the property owner, representative and/or tenants revealed any information which suggested that there are any present or historical recognized environmental conditions associated with the subject property.

4.6. Reasons for Performing Phase I ESA

The Phase I ESA is being conducted as part of environmental due diligence for a California Environmental Quality Act (CEQA) Initial Study (IS).

5. Environmental Setting

5.1. Physical Setting

The elevation of the subject property is approximately 288 feet above mean sea level, as depicted on the U.S.G.S. 7.5 Minute Series Topographic Map of the 2012 SOUTH FRESNO, CA. The general topography of the subject property slopes west-southwest.

The project is in the Central Valley of California, which is in the Great Valley Geomorphic and Physiographic Province. The Central Valley is a large, nearly flat valley bound by the Klamath and Trinity mountains to the north, the southern Cascade Range and Sierra Nevada to the east, the San Emigdio and Tehachapi mountains to the south, and the Coast Ranges and San Francisco Bay to the west. The Central Valley consists of the Sacramento Valley in the north and the San Joaquin Valley in the south.

The Central Valley occupies a structural trough created about 65 million years ago by collision of the Pacific and North American tectonic plates. Sediment from ocean water, river deposition, and glacial deposition filled the trough with an approximately 6-mile-thick layer of continental and marine sediments above rock (Authority and Federal Railroad Administration 2004). The study area is located in the central part of the San Joaquin Valley. The topography in this part of the Central Valley is flat-lying, with elevations across the project alternatives and HMFs ranging between +395 feet (North American Vertical Datum of 1988 [NAVD 88]) to +205 feet (NAVD 88). A general downward gradient occurs in the study area to the west-southwest, determined principally by the gentle slope of the vast alluvial fans extending from the Sierra Nevada in the east to the center of the San Joaquin Valley.

5.2. Subject Property Reconnaissance

On July 20, 2016, Soar Environmental staff performed a physical site inspection of the subject property to assess potential environmental or hazardous conditions. The subject property is a 1.82 acre parcel identified as APNs 490-032-23, 459-032-15, and 459-032-05 (Appendix A). The property address is 450 E. Belmont Avenue south of Belmont Avenue and bordered by N. Ferger Avenue to the west and N. Roosevelt Avenue to the east. The largest parcel of the property (APN 490-032-23) consists of an asphalt parking lot with 2 boarded-up brick structures, surrounded by a chain-link fence and cinderblock wall topped with razor wire. Both abandoned buildings were built in 1929 and have been boarded since the mid 1990's to prevent illegal entry and use. APNs 459-032-15 and -05 are located south of the larger APN and consist of 2 dirt lots. These parcels were converted from residential use to industrial use sometime between 1957 and 1970.

Building 1 (Large)

The larger of the two buildings (formerly Central Valley Cheese) was previously utilized as a dairy/cheese plant. The exterior of the building is dilapidated, covered in graffiti, and appears unsafe to enter. A Fresno City fire hydrant is located outside the property limits on the west side of the building along E. Belmont Avenue. Additionally there is a buried utility box immediately north of building inside the property fence line. On the western exterior of Building 1 is an underground sump with a secured metal access hatch. The sump appears to contain grease and oil from the former dairy/cheese plant vehicles.

The tile walls of the interior are covered with graffiti and miscellaneous trash. Most of the floor within the building is poured concrete. However the section of the building identified by Sanborn maps (Appendix G) as cold storage contains a section where the floor is moist sandy soil. The source of this moisture is unknown. However, a floor drain located immediately outside the southern wall of the building, in line with the moist sandy soil in the former cold storage, contains standing water. A 5-gallon bucket with approximately 3 gallons of a dark oily liquid with a petroleum odor was observed within the former office space of the building. The upstairs crawlspace contains an old water heater and other assorted debris. Due to safety issues, Soar Environmental staff did not venture into the crawlspace to inspect further.

Building 2 (Small)

The smaller of the two buildings was previously used as an ice cream factory. The western exterior is partially collapsed. The interior of the building was also filled with trash and graffiti, and the south east corner of the interior displayed signs of a former fire. The former cold storage section contains a hollow wooden floor approximately 12 inches deep and is partially collapsed. An unknown sealed black plastic container (approximately 5 gallons) was observed in the former boiler room and filled with a solid material with no apparent odor. Additionally a Quaker State 55 gallon drum, labeled propylene glycol, was observed immediately south of the boiler room. The bung was missing and liquid with a chemical odor was observed filling the drum to the brim.

Parking Lot

A majority of the site is covered with broken concrete asphalt and is currently used for parking of semi-truck trailers. Staining was observed on a 3 foot by 2 foot section of asphalt immediately west of Building 1. In addition, a 1 foot by 3 foot dark stain was observed on asphalt near the northwest corner of the property, where condensation from the refrigeration unit of the semi-truck trailers collects.

No other potential environmental or hazardous conditions were observed during the site visit.

6. Historical Site Research and Usage

6.1. Historical Site Usage Overview

The two industrial buildings on the site were first constructed in 1929 according to a December 14, 2015 report prepared by the City of Fresno Historic Preservation Commission staff. The two small dirt lots (APN 459-032-15, and 459-032-05) were originally residential lots. According to aerial photo reconnaissance, a house was constructed on each lot sometime between 1920 and 1948, and each were demolished sometime between the years of 1950 and 1960... The property was owned and operated by KF Foods until its bankruptcy in 1986. The property was then purchased by Producers Dairy sometime between 1988 and 1986.

6.2. Historical Tenant City Directory Report

A search of historical city directories was conducted by on July 14, 2016. The report, attached as Appendix D, identifies the previous tenants of the main industrial site (APN 459-032-23) from 1990 to 1932. During this time the majority of tenants were either food or dairy companies, consistent with the "Central Valley Cheese" sign still on display on the front of the larger of the two buildings on the subject property. The two small dirt lots (APN 459-032-15, and 459-032-05) were originally residential lots with single family dwellings from approximately 1920 to 1960. By 1970, according to Sanborn Maps, the properties were used for industrial parking.

6.3. Aerial Photograph Search

Aerial photographs are included in Appendix A. The 2012, 2010, 2009, 2006, 2005, 1998, 1962, 1957, 1950, 1946, and 1937 show the main industrial site (APN 459-032-23) and as present day configuration. Aerial photos from 1937, 1946, 1950, and 1957 show houses on APN 459-032-15 and 459-032-05. Aerial photos from 1962 are not clear enough to determine the presence or absence of the houses. Aerial photos from 2012 to 1998 show no houses on the two small parcels, and only dirt.

6.4. Historical Topographic Map Report

Historical topo maps dated 1921 to 2012 are included in Appendix A. These topo maps show developed land at and in the near vicinity of the subject property from 2012 – 1947, while the 1923 and 1921 maps show development around the subject property.

6.5. Sanborn Maps

Sanborn Fire Insurance Maps are detailed drawings of site development, and were typically used by fire insurance companies to determine site fire insurability. Sanborn Fire Insurance Maps with coverage of the subject property were reviewed and are included as Appendix G. According to EDR, there was Sanborn coverage for the subject property. The report certifies that the complete holdings of the Sanborn Library LLC collection, have been searched based on Client supplied property information, and that fire insurance maps covering the target property were located and investigated.

Year	Description
1970	The maps shows two buildings on the property, a large building at the NE corner, and a smaller building on the E side facing Roosevelt Avenue. Both buildings are labeled "Foremost Dairies, Inc." and both contain cold storage rooms. The large building is gas powered (for fuel) and contains a

	bottling, wash, and milk depot, as well as office. The small building contains cold storage, an engine room, and a boiler room. The small building was originally twice its current size. The two small lots (APN 459-032-15 and 459-032-05) are shown as parking.
1950	The maps shows two buildings on the property, a large building at the NE corner, and a smaller building on the E side facing Roosevelt Ave. Both buildings are labeled "Golden State Co. LTD Milk Depot" and both contain cold storage rooms. The large building is gas powered (for fuel) and contains a bottling, wash, and milk depot, as well as office. The small building contains cold storage, an engine room, and a boiler room as the ice cream factory. The small building was originally twice its current size. Small houses appear on both of the small lots (APN 459-032-15 and 459-032-05).
1948	The maps shows two buildings on the property, a large building at the NE corner, and a smaller building on the E side facing Roosevelt Ave. Both buildings are labeled "Golden State Co. LTD Milk Depot" and both contain cold storage rooms. The large building is gas powered (for fuel) and contains a bottling, wash, and milk depot, as well as office. The small building contains cold storage, an engine room, and a boiler room as the ice cream factory. The small building was originally twice its current size. Small houses appear on both of the small lots (APN 459-032-15 and 459-032-05).
1919	APN 459-032-23 (the large parcel) and 459-032-05 (the SE parcel) are empty and undeveloped. A house is shown on the SE parcel (APN 459-032-15.
1906	The property is empty and undeveloped.

7. Regulatory Government Agency Research

Soar Environmental ordered the radius map from Environmental Data Research (EDR) that has databases maintained by the federal, state, and local regulatory agencies (Appendix C). This report was reviewed to identify facilities and properties recently or currently under investigation for environmental contamination at and near the site.

7.1. Subject Site

A review of environmental records found the subject property listed in three separate databases: 1) CUPA Listings, 2) SWEEPS UST, and 3) HIST UST. These three listings are discussed below:

1. CUPA Listings. CUPA is the California Unified Program Agencies, an association of agencies coordinating the consistent implementation of hazardous materials regulatory programs in the state of California. The CUPA Listings showed the subject property, listed under Facility ID FA0169112, as Underground Storage Tank (UST) Removal/Closure of 2 tanks.

2. SWEEPS UST. The SWEEPS UST is a listing of licensed Underground Storage Tanks (UST) within the state of California. This database listed 2 active UST on the subject property from 1988 to 1992, both used for diesel fuel.

3. Historical UST. The Historical UST database showed a file from 1988 of 4 potential historical underground storage tanks (File Number 0002402E, Appendix C). The 4 potential historical UST are listed below:

Tank #	Capacity (gallons)	Fuel Type
1	12,000	Diesel
2	10,000	Diesel
3	5,000	Diesel
4	Unknown	Diesel

A further search of UST records (Appendix E) at the Fresno County Department of Public Health revealed a 1947 Fire Record originally permitting 5 fuel UST at the subject property: one 12,000 gallon tank, one 10,000 gallon tank, one 1,500 gallon tank, one 290 gallon tank, and one 100 gallon tank.

290 & 100 Gallon Tanks

Of these 5 tanks, 2 (the 290 gallon tank and the 100 gallon tank) are never mentioned again. Their status is unknown.

12,000 Gallon Tank

The County Health Records contain a written summary of a conversation between a Randy Isner of the Fresno Fire Department and a Luis Ledezma of the Fresno County Department of Public Health, in which Ms. Ledezma wrote that Ms. Isner "said that [the Fire Department] only has record of a 12k tank being removed". Soar Environmental was not able to find an official record of this tank being removed.

10,000 Gallon Tank

The County Health Records contained a record of this tank's removal on June 29, 1989.

1,500 Gallon Tank

The County Health Records contained a record of this tank's removal on November 7, 1991.

7.2. Adjacent Properties

All records of Adjacent Properties mentioned below can be found in Appendix C.

1. A review of the Leaking Underground Storage Tank (LUST) list on 07/14/2016 has revealed that there are 5 LUST sites within approximately 0.25 miles of the subject property. Further information can be found in Appendix C.

2. A review of the EPA's Resource Conservation and Recovery Act (RCRA) small quantity generators (SQGs) on 07/14/2016 found 2 sites within 0.25 miles of the property. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the RCRA. SQGs generate between 100 kg and 1,000 kg of hazardous waste per month. Further information can be found in Appendix C.

3. A review of the State Water Resources Control Board's Hazardous Substance Storage Container Database for Underground Storage Tanks (UST) on 07/14/2016 found 2 UST sites within 0.25 miles of the property. The facility IDs for these two UST sites are FA0266676 (250 E. Belmont Avenue) and FA0001682 (249 E. Belmont Avenue). No other information was discovered during Soar Environmental's research.

4. A review of the Statewide Environmental Evaluation and Planning System (SWEEPS) UST list on 07/14/2016 found 14 SWEEPS UST sites within 0.25 miles of the property. The SWEEPS list is no longer updated or maintained, and dates from 06/01/1994. Further information can be found in Appendix C.

5. A review of the Historical UST Registered Database on 07/14/2016 found 9 HIST UST sites within 0.25 miles of the property. The status of these 9 HIST UST is undetermined as the HIST UST list dates from 1990. Further information can be found in Appendix C.

6. A review of the California Facility Inventory Database CA FID UST list on 07/14/2016 found 13 CA FID UST sites within 0.25 miles of the property. The CA FID UST list dates from 10/31/1994. The Facility Inventory Database contains active and inactive underground storage tank locations. The source is the State Water Resource Control Board. Further information can be found in Appendix C.

7. A review of the Certified Unified Program Agency (CUPA Listings) list on 07/14/2016 found 25 CUPA Listings sites within 0.25 miles of the property. A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection

established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities. Further information can be found in Appendix C.

8. A review of the HIST CORTESE list on 07/14/2016 found 4 HIST CORTESE sites within 0.25 miles of the property. The sites for the list are designated by the State Water Resource Control Board [LUST], the Integrated Waste Board [SWF/LS], and the Department of Toxic Substances Control [CALSITES]. This listing is no longer updated by the state agency.

9. A review of EDR's Historical Auto list on 07/14/2016 found 8 sites within 0.125 miles of the property. EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments.

10. A review of EDR's Historical Dry Cleaners list on 07/14/2016 found 6 sites within 0.125 miles of the property. EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments.

8. Findings, Opinions and Conclusions

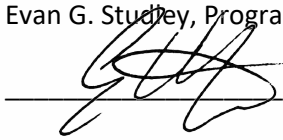

Soar Environmental has performed a Phase I ESA in general conformance with the scope and limitation of the ASTM Standard Practice for Preliminary Site Assessments E 1527-05 for the subject property described as APN 459-032-23, 459-032-15, and 459-032-05 located at 450 E. Belmont Ave, Fresno, California. Any exceptions to, or deletions from this practice are described in Section 2.4 of this report. Within the scope of this investigation, Soar Environmental discovered no evidence of recognized environmental conditions or significant environmental concerns in connection with the subject property.

While no initial site assessment can fully eliminate the uncertainty regarding the potential for recognized environmental conditions, the ASTM standard does cite the balance between appropriate levels of inquiry and the cost of such exhaustive investigations. It is Soar Environmental's opinion that a full assessment of the site has been completed. Based on the results of this report, further investigation is not warranted.

9. Qualification and Signature

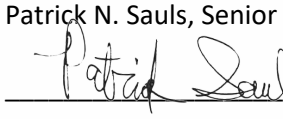

Soar Environmental Consulting, Inc. has performed this assessment under my supervision in accordance with generally accepted environmental practices and procedures, as of the date of this report. I declare that, to the best of my professional knowledge and belief, I meet the definition of environmental professional as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. I have employed the degree of care and skill ordinarily exercised under similar circumstances by reputable environmental professionals practicing in this area. The conclusions contained within this assessment are based upon site conditions readily observed or were reasonably ascertainable and present at the time of the site inspection.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/09/2015 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent NPL

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, and dated 05/02/2016 has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 05/02/2016 has revealed that there are 2 ENVIROSTOR sites within approximately 1 mile of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

HIST Cal-Sites: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

A review of the HIST Cal-Sites list, as provided by EDR, and dated 08/08/2005 has revealed that there is 1 HIST Cal-Sites site within approximately 1 mile of the target property.

Other Ascertainable Records

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 25 CUPA Listings sites within approximately 0.25 miles of the target property.

HIST CORTESE: The sites for the list are designated by the State Water Resource Control Board [LUST], the Integrated Waste Board [SWF/LS], and the Department of Toxic Substances Control [CALSITES]. This listing is no longer updated by the state agency.

A review of the HIST CORTESE list, as provided by EDR, and dated 04/01/2001 has revealed that there are 10 HIST CORTESE sites within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
PG AND E MGP, FRESNO	BLOCK OF N THORNE,W	SW 1/4 - 1/2 (0.493 mi.)	P73	88

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 8 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 6 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Global Id:	T10000006100
Latitude:	36.7411885445727
Longitude:	-119.810627528064
Case Type:	LUST Cleanup Site
Status:	Open - Remediation
Status Date:	01/18/2016
Lead Agency:	CENTRAL VALLEY RWQCB (REGION 5F)
Case Worker:	KDJ
Local Agency:	Not reported
RB Case Number:	5T10000914
LOC Case Number:	Not reported
File Location:	Regional Board
Potential Media Affect:	Aquifer used for drinking water supply, Soil, Soil Vapor, Well used for drinking water supply
Potential Contaminants of Concern:	Waste Oil / Motor / Hydraulic / Lubricating
Site History:	In October 2013 an unauthorized release from an underground storage tank (UST) system was discovered. Analytical results of soil samples collected during the repair of a pipeline draining to a waste oil UST, indicated concentrations of total petroleum hydrocarbons diesel range constituents (TPHd) at 250 milligrams per kilogram (mg/kg) in soil at five feet below ground surface (bgs).

POTW:	Not reported
Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Manufactured Gas Plants:

PG AND E Fresno -1 purchased site in 1917, began operations as a Manufactured Gas Plant (MGP) in 1918. The site operated from 1918 to 1929 producing gas from oil. Chemicals of potential concern (COPC) are PNA's, TPH motor oil, Lead and Arsenic in thee soil. The COPCs are found primarily in the northern and middle areas, but also to a lesser degree in the southern area. Waste are exposed at the surface making ingestion or dermal contact with soils possible with neighboring residents and constructtion workers. A Preliminary Assessment was completed by PGE in 1986.

Background Info:	PG&E Fresno -1 purchased site in 1917, began operations as a Manufactured Gas Plant (MGP) in 1918. The site operated from 1918 to 1929 producing gas from oil. Chemicals of potential concern (COPC) are PNA's, TPH motor oil, Lead and Arsenic in the soil. The COPCs are found primarily in the northern and middle areas, but also to a lesser degree in the southern area. Waste are exposed at the surface making ingestion or dermal contact with soils possible with neighboring residents and construction workers. A Preliminary Assessment was completed by PGE in 1986.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/07/2016

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/13/2015

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Data Release Frequency: Varies

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/22/2015

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board?s review found that more than one-third of the region?s active disposal pits are operating without permission.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 07/30/2013

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

450 E. BELMONT AVE
FRESNO, CA 93701

TARGET PROPERTY COORDINATES

Latitude (North):	36.750021 - 36° 45' 0.08''
Longitude (West):	119.806327 - 119° 48' 22.78''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	249454.3
UTM Y (Meters):	4070612.2
Elevation:	288 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5603170 FRESNO NORTH, CA
Version Date:	2012
South Map:	5603172 FRESNO SOUTH, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

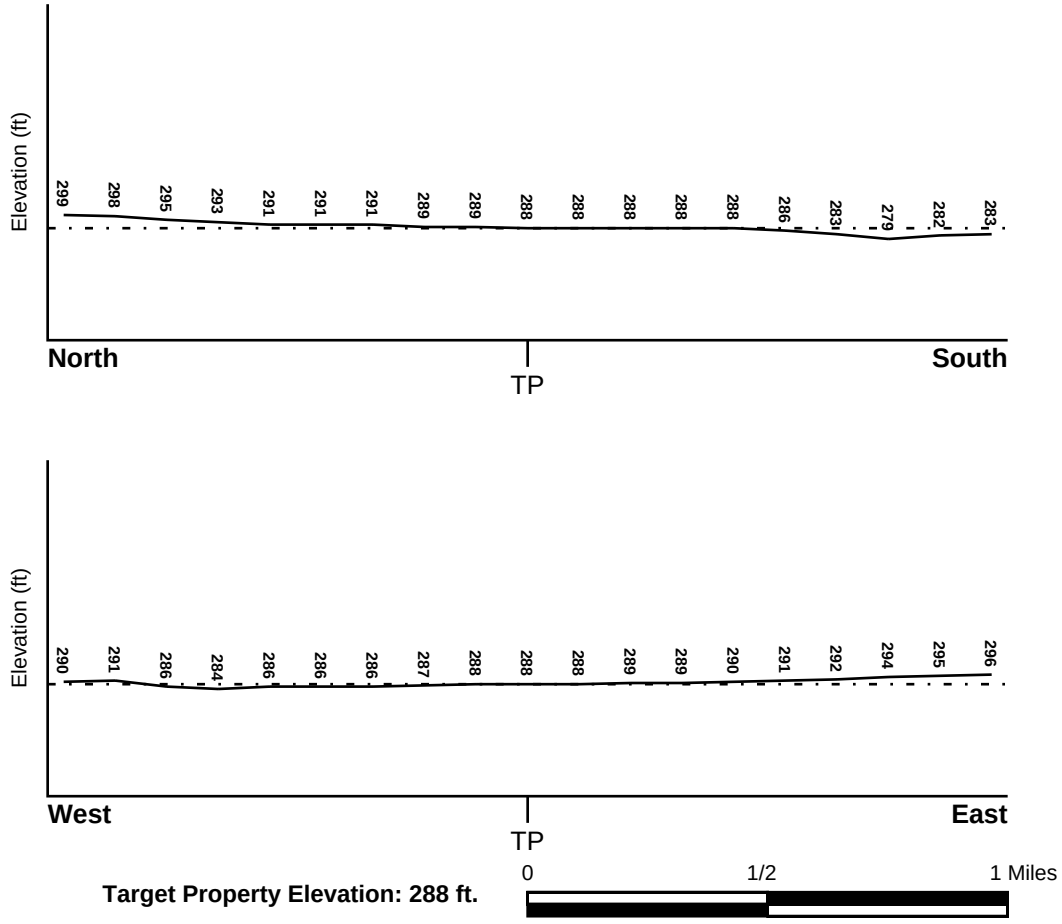

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
FRESNO, CA	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 06019C - FEMA DFIRM Flood data

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
FRESNO NORTH	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: GREENFIELD

Soil Surface Texture: cemented

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	38 inches	42 inches	cemented	Not reported	Not reported	Max: 1 Min: 0.1	Max: Min:
2	0 inches	16 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 7.8 Min: 6.1
3	16 inches	38 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 7.8 Min: 6.1

Soil Map ID: 2

Soil Component Name: HANFORD

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	16 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 7.3 Min: 6.1
2	16 inches	72 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 7.3 Min: 6.1

Soil Map ID: 3

Soil Component Name: SAN JOAQUIN

Soil Surface Texture: sandy clay loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Moderately well drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	16 inches	27 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 4 Min: 1.4	Max: 7.3 Min: 6.1
2	27 inches	29 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.42 Min: 0.01	Max: 7.3 Min: 6.1
3	29 inches	35 inches	cemented	Not reported	Not reported	Max: 0 Min: 0	Max: Min:
4	35 inches	59 inches	coarse sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 1.4 Min: 0.42	Max: 7.3 Min: 6.1
5	0 inches	16 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 14 Min: 4	Max: 6.5 Min: 5.6

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish & Game
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

RADON

State Database: CA Radon
Source: Department of Health Services
Telephone: 916-324-2208
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2013. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

(Time)

Summary of Discussion

I telephoned Mr. Grewe about conducting another inspection of Eastside Main building located at the above address. I informed Mr. Grewe that I had contacted Mr. Enzo & Mr. Stats. He appeared to realize this already. I told Mr. Mr. Grewe that the inspection would include using HNu meter to find USTs (if any).

He said he would contact me Monday with a time & date.

Summary of Discussion

I returned John Stats telephone call today. Mr. Stats works for Producers (Engineer). He said he would send compaction & soil analyses results. I told him that soil analyses report was needed but not compaction. (Bldg. Dept.).

I asked Mr. Stats about possibly inspecting eastside main building again using HNu meter to check piping protruding through floors & walls for possible USTs. I explained that SWEEPS & Fire Records show more tanks for site address, etc.

Mr. Stats said [redacted] I would have to contact Mr. Ray Grewe about the inspection (He was told).

(Time)

Summary of Discussion

I contacted Mr. Guzzo at 266-5055 (number given by Mr. Guzzo secretary). I requested that mr. Guzzo have Soil Analysis report for UST removed in November. I also requested that that an inspection be conducted of Main building at the above site. I explained to Mr. Guzzo that an HNU meter could be used to possibly detect hydrocarbons from any USTs in or under bldg. I told Mr. Guzzo that according to Phil Oliver, who once worked for Fresno Fire Prevention Bureau, he (Oliver) was aware of a 12,000 gallon tank being located under Main building at east side of property. Also, I gave List various tank's (USTs) on record for the site. These tanks (most) have not been [redacted] removed according to records (Two tanks [redacted] removed on record only). Mr. Guzzo said that he would not agree to anymore (over)

Summary of Discussion

I contacted Mr. Oliver regarding letter/notice dated July 19, 1988 sent to Mr. David Collier at K-F Foods concerning his finding of USTS at 450 E. Belmont. He made reference to a site plan, however after checking our records, Fire Preven Bureau Records and Building Dept. records no site plan showing all USTS for 450 E. Belmont can be found.

(Mr. Oliver once worked for Fresno Five.)
According to Mr. Oliver ~~the~~ the tanks he found were 1,500 gal gasoline tank, a waste oil tank & a 12,000 gal. tank under main building at eastern end of property.

Mr. John Guzzle
264-6583

10/22/91

8:28

Mr. Guzzle thinks, after talking to engineers, that two other unaccounted for tanks were or are located across from Belmont which was supposed to be all same property address at one time. Mr. Guzzle said that in which case his company would have nothing to do with this case because that property is in bankruptcy & not ~~being~~ is not being leased or rented by Producers.

He said it would be okay to inspect the property at 450 E. Belmont. I told him that I would talk to Peggy Wilkinson about this case since she sent the "clean letter" on it for a UST removal.

GUIDELINES FOR INSPECTION OF PUBLIC RECORDS

All public records of the Fresno County Department of Health, Environmental Health System, which are subject to disclosure under the provisions of the California Public Records Act (Government Code Sections 6250 - 6260), are open to inspection by the public during normal office hours of the office at which those records are located. However, certain records are confidential, and the Department may not release these records to the public. They include all complaint files, inter-office memos, all material in "Confidential" air pollution folders, personnel records, well logs, field notes and preliminary drafts for use by the Department.

Any person who wishes to inspect a public record may present his request to the clerk on duty where the public record is located. A particular record, or if not known, the particular type or class of records, may be requested.

No record may be removed from the office unless subpoenaed. Copies can be made at a charge of 10¢ for each original copy for copies 1 - 8. A charge of .05¢ per copy will be made on copies of 9 or more. The requestor may reproduce a copy by his own means, subject to the limitations that no record is removed from the office and that the record is not damaged by the reproduction equipment.

The Department may temporarily deny or restrict inspection of public records under the following circumstances:

1. Records are at the particular time required by staff or other officials in performing their duties.
2. Supervision of inspection is at that particular moment not possible.
3. Other members of the public are waiting to inspect those records.

REQUEST TO INSPECT PUBLIC RECORDS

Program: 2210 ☐ ROUTINE ☒ REINSPECTION ☐ COMPLAINT ☐ CONSTRUCTION ☒ SWEEPS UST Investigation

VIOLATIONS LISTED BELOW SHALL BE CORRECTED WITHIN ___ DAYS / *IMMEDIATELY

Mr. Ray Greive from Producers Dairy Products telephoned me this morning to inform that one UST (Underground Storage Tank) had been found while demolition work was in progress. He requested that I be present when pavement & concrete over openings #1 & 2 were to be uncovered/removed and possible tanks exposed. (See report dated 10/23/91 for site sketch and openings that are numbered).

Opening #3 is definitely connected to a tank. The UST can be seen through opened fill/drop tube. Opening #4 appears to be a sewer clean-out ~~[illegible]~~ or a remote fill for tank at #3 opening. Openings #1 & #2 looked like drain openings for sewer line -- pipe was cast iron & appeared to be of type used for sewerages.

Please secure a permit to remove tank at Opening #3 and inform this office if more tanks are found. Also review information left today.

Program: 2210 ☐ ROUTINE ☐ REINSPECTION ☐ COMPLAINT ☐ CONSTRUCTION ☒ SWEEPS UST Investigation

VIOLATIONS LISTED BELOW SHALL BE CORRECTED WITHIN ___ DAYS / *IMMEDIATELY

According to State SWEEPS (records) several Underground Storage Tanks (USTS) were registered for the above property (450 E. Belmont). Also, according to Fire Dept. records, several USTS are still listed for this site (4 USTS). According to Producers Dairy Foods Inc. manager, John Guzzo, with whom I talked to today, he can not determine whether USTS remain.

An inspection was conducted of the above property along with Mr. Guzzo & Ray Grewe. Photographs were taken of the site. A few buildings & parking lot, driveway pavement and concrete were being demolished at the time of inspection. Mr. Grewe & Guzzo indicated that new construction was to go in where loading dock was located (westside/end of cooler room).

During the inspection three [redacted] uncapped & capped openings were found in driveway concrete & pavement. These openings appeared to be fill openings to under ground storage tanks. A fourth opening was found in driveway at east end

of site (between two remaining permanent buildings). This may be a sewage cleanout due to appearance of cap (plug actually (#4)

Mr. Grewe put a stick into opening located on west side of buildings #1 He pulled it out & it was wet and smelled of gasoline and oil (See diagram below).

Please secure permits to remove the USTs (or bring into compliance) within 30 days. The California Underground ~~Tank~~ Storage Tank Law requires that abandoned (no longer being used) tanks be properly closed under permit from this Department. Failure to comply may result in further action. Please contact this office if you have questions.

Notes: Explained to Mr. Guzzo that "clean letter" was just for 10K site only.
① Mr. Guzzo stated that the subject property is being leased by his company
② If [redacted] the openings found today are not to USTs then evidence must be presented to verify this. Contact office for more details/options.

Subject: Certification of Response Actions
Location: 450 E. Belmont, Fresno

Based on information currently and actually known to the County of Fresno Health Department:

_____ We have determined that all appropriate response actions have been completed, all acceptable remedial practices have been implemented, and no further investigation, remedial or removal action, or monitoring is required with regard to a release of hazardous waste or substances from one or more underground storage tanks located at the above site.

XXXXX And based on a site assessment, we have determined that the above site poses no significant threat to public health, welfare, or the environment with regard to a release of hazardous waste or substances from one or more underground storage tanks located at the site. Therefore, implementation of any further removal or remedial measures is not necessary at this time. The site should now be properly closed, including backfilling as necessary.

If any tank has been abandoned in-place the existence of the tank(s) and fittings must be recorded on the property deed.

Nothing in the above determination shall constitute or be construed as a satisfaction or release from liability for any conditions or claims arising as a result of past, current, or future operations at this site. Nothing in this determination is intended or shall be construed to limit the rights of any parties with respect to claims arising out of or relating to deposit or disposal at any other location of substances removed from the site. Nothing in this determination is intended or shall be construed to limit or preclude the County or any other agency from taking any action authorized by law, including, but not limited to, any previous directives, you may be required to take further actions as are necessary to protect public health and the environment.

Please call me at (209) 445-3271 if you have any questions.

Respectfully,

Peggy Wilkinson

RE: Underground Storage Tank Abandonment
Soil Sampling and Analysis

Location: 450 E. Belmont Avenue
Fresno, California

SSB Environmental Consultants, Inc., was retained by Mr. Steve Bridges of W. M. Lyles to obtain soil samples from the above-referenced site for laboratory analysis. Presented herewith is a description of the project, our sampling procedures, a site plan, and other pertinent information. The analytical results of the soil samples retrieved from the site and the chain-of-custody documentation are attached.

Site Description

The subject property is located at 450 E. Belmont Avenue in Fresno, California. Structures in the vicinity of the former location of the underground storage tank consist of a brick building north of the tank. A 4 inch diameter water line is located just south of the former tank location. The surface in the area was paved with asphaltic concrete cement. The layout of the facility in the area of the former location of the underground storage tank is shown on the site plan presented on Page 2.

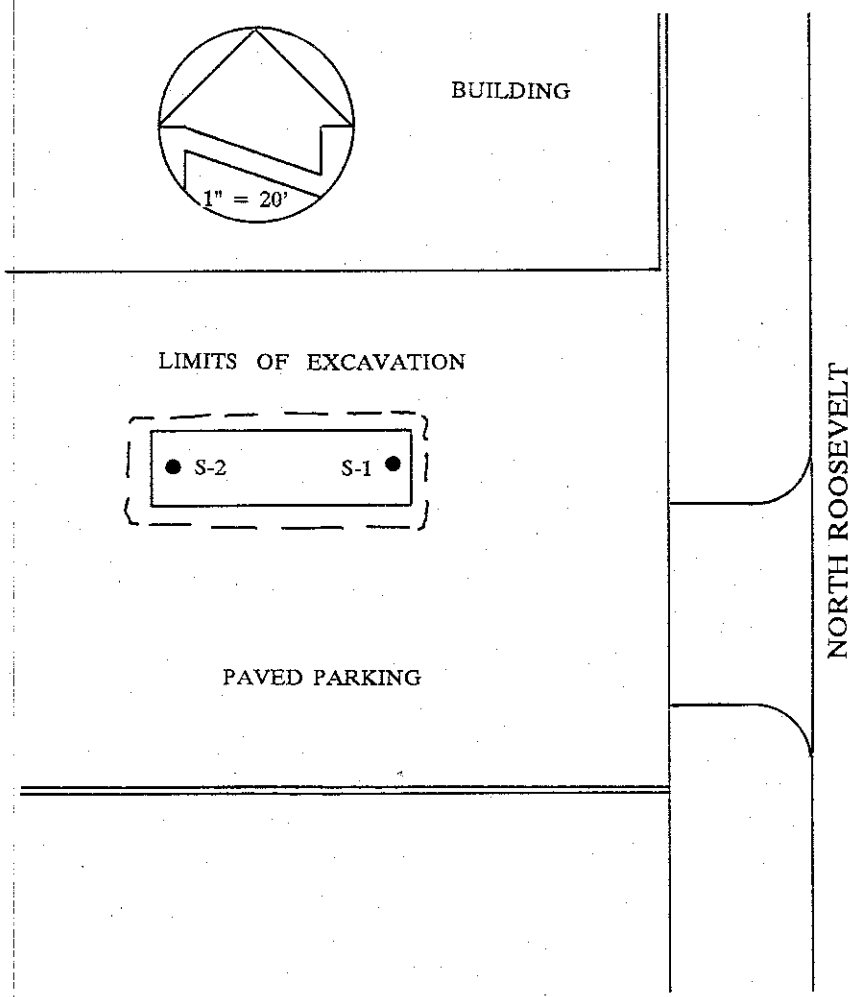

Project Description

The project consisted of the removal of an abandoned 10,000 gallon capacity diesel fuel storage tank. The removal was conducted to obtain site closure from the Fresno County Environmental Health Department. Minor rust was evident on the surface of the tank. No holes were noted in the tank. Two soil samples were retrieved from beneath the storage tank from either end of the tank at a depth of approximately 13 feet below the surface. The underlying soil appeared to be free of any hydrocarbon odor or discoloration. The tank was removed from the site on June 29, 1989.

Site Plan

Depth to Samples: 13 Feet
Capacity: Approximately 10,000 Gallons

Product: Diesel Fuel

Sampling Procedure

The soil samples were obtained by Mr. David A. Sholes of our firm on June 29, 1989. The samples were retrieved from a depth of approximately 13 feet below the surface (approximately 3 feet below the tank bottom). The location and depth of the samples were specified by Ms. Peggy Wilkinson of the Fresno County Environmental Health Department. The soil samples were retrieved from the bucket of a backhoe by driving a 2 inch diameter brass sleeve into the soil. The sleeve was driven into the soil a sufficient depth to prevent any head space from occurring in the sample container. Aluminum foil was placed over the ends of the sleeve which were then sealed with plastic end caps and secured with electrical tape. The samples were clearly labeled with chain-of-custody seals. The samples were delivered to The Twining Laboratories, Inc., in Fresno, California, on June 29, 1989, for analysis.

Analytical Test Methods

The soil samples retrieved from the site were analyzed using the listed U.S. EPA methods as requested by the Fresno County Environmental Health Department.

Total Petroleum Hydrocarbons - EPA Method 8015 (Modified)
(Diesel Standard)

The analytical results and the analytical method detection limits are presented in The Twining Laboratories, Inc., report attached to this report.

If you should have any questions regarding the information contained in this report or if we can be of further assistance, please do not hesitate to contact our office.

Sincerely,
SSB Environmental Consultants, Inc.

Subject: Vacant Buildings/Underground Flammable Liquid Tanks at
450 E. Belmont (Occupancy Number 10712) and
435 E. Belmont (Occupancy Number 9812)

A.E.C.

Dear Mr. Collier:

Pursuant to your telephone inquiry of June 28, 1988, concerning underground flammable liquid tanks at the captioned properties, please find enclosed copies of relevant information from our files. Additionally, I personally inspected the properties and located what appear to be (3) underground flammable liquid tank filler connections and a vent pipe at the 450 E. Belmont address; I have indicated the location of these items on the copy of the enclosed site plan.

The City of Fresno, Development Department may have additional relevant information in their job address files. They may be contacted at 2326 Fresno Street, Fresno, CA 93721, telephone (209) 488-1504.

1022.

Please regard this letter as a second official Fire Department notice to safeguard or abandon the underground flammable liquids tanks located on the captioned properties in an approved manner as prescribed by Uniform Fire Code, Section 79.114.

Also, please regard this letter as a second official Fire Department notice to fully comply with my letter to you dated June 2, 1988, regarding barricading the street exposures at 450 E. Belmont Avenue and providing the on-site security guard with an appropriate 10-A:60B:C portable fire extinguisher. These corrective actions must be taken forthwith.

Thank you for your cooperation in this matter.

Sincerely,

FIRE PREVENTION BUREAU

Dear Mr. Collier:

This is in response to our telephone conversation regarding the above mentioned subject. Our office is attempting to identify all existing underground storage tanks which may be located at the above mentioned properties.

We would appreciate you sending us any and all information, (site maps, permits, etc.), you might have regarding these properties with respect to any underground storage tanks.

We thank you for assisting us with this matter.

If you have any questions, please feel free to contact us at (209) 445-3271.

Sincerely,

NOTE: PERMIT EXPIRES NINETY (90) DAYS AFTER THE APPLICATION DATE

Note 2 additional tanks have been identified at this site 1500 gasoline, 500 W.O.

PLOT PLAN: Please indicate the location of the following: major building(s), tank(s), lines, island(s), and dispenser(s).

CONDITIONS OF ABANDONMENT:

1. Tanks which are to be removed from the ground shall be sampled as per the underground storage tank sampling procedures. These sampling procedures are outlined in the local service providers letter dated, November 2, 1988.

2. 48 hour advance notice shall be given to a Fresno County Environmental Health Underground Storage Tank Section Analyst prior to initiating excavation.

3. All residual liquids, solids, or sludges, shall be removed and properly manifested.

4. All tanks shall be purged with carbon dioxide or dry ice at the rate of 15 lbs. per 1,000 gallon capacity at least four (4) hours prior to removal.

5. All associated piping shall be removed from the underground soil. All trenches to be left exposed for inspection and sampling if appropriate.

6. This permit shall be onsite during excavation .

7. A copy of the Permit to Abandon is to accompany the tank(s) to the final destination. The facility accepting the tank(s) is to sign for receipt and return the permit to the County. The County must receive the permit within 14 days of tank removal.

8. Permittee shall contact the local Fire Department prior to initiating abandonment procedures.

9. If tanks are to be Abandoned In Place, a written proposal for soil analysis shall be submitted to this office by a qualified soils consultant. The existance of the in place tank and fittings shall be recorded on the property deed.

Subject: Report of Soil Sampling and Analyses
1,000-gallon Diesel Tank Removal
450 East Belmont Avenue
Fresno, California

Dear Mr. Statts:

We are pleased to submit this report of the results of soil sampling and chemical analyses associated with the removal of the 1,000-gallon underground storage tank at 450 E. Belmont Avenue in Fresno, California.

Our investigative procedures were consistent with those used by the Fresno County Environmental Health Services Department to determine impacts from leaking underground fuel tanks.

We trust that this investigation satisfies your current needs. We appreciate having had the opportunity to work with you. If you have questions or need additional information, please call the undersigned at (209) 485-3200.

Respectfully submitted,

REPORT OF SOIL SAMPLING AND CHEMICAL ANALYSIS
UNDERGROUND STORAGE TANK (UST) REMOVAL
450 EAST BELMONT
FRESNO, CALIFORNIA

1.0 INTRODUCTION

This report presents the results of soil sampling and chemical analysis of soil collected from beneath the former location of the 1,000-gallon UST previously located at the subject site. The subject property is located at 450 East Belmont Avenue in Fresno, California. Figure 1, Site Plan, is an illustration of the site.

The UST had previously been used to store diesel fuel at the subject site. The age of the tank is not known.

2.0 SITE LOCATION AND DESCRIPTION

The subject site is a former cheese processing and manufacturing facility (formerly operated as K-F Foods) located in a commercial and light industrial area in Fresno, California. The street address for the site is 450 East Belmont, Fresno, California. Geographic coordinates for the site are NW¼ of NW¼ of Section 4, T14S/R20E.

Structures at the subject site include a concrete and brick building at the northeast corner of the site and a brick building along the east site boundary. Buildings at the site had been formerly used for processing, manufacturing and storage of dairy products. Figure 1 is a Site Plan showing the location of these structures.

3.0 PURPOSE AND SCOPE OF SERVICES

The purpose of the sampling was to evaluate for the presence of possible petroleum hydrocarbons (as referenced to Diesel) in soil below the former UST, subsequent to removal of the UST.

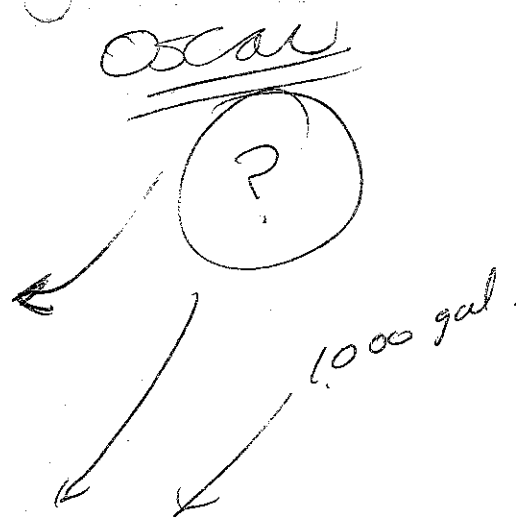

BSK & Associates performed the following tasks:

- Observed the tank removal.
- Collected one soil sample from beneath the UST for chemical analysis.
- Chemically analyzed soil samples at BSK & Associates State-certified laboratories for Total Petroleum Hydrocarbons as referenced to diesel (TPHd) according to the Department of Health Services (DHS) GC/FID Method.
- Prepared this report.

4.0 METHODOLOGY

4.1 UST Removal and Soil Sampling

The tank was uncovered by All America Trenching (AAT) u
excavator, and on November 7, 1991, the 1,000-gallon UST w
ground by AAT, an experienced licensed contractor familiar
regulations for UST removal. Prior to removal, the UST was
triple-rinsed by AAT. The UST passed a Lower Explosive Li
removal.

A BSK & Associates geologist was present during the UST re
of the soil from directly beneath the UST for chemical analysis. Fresno County Environmental Health Department Representative, Ocar Hernandez, was present when the UST was removed from the ground. The 1,000-gallon, steel-walled, cylindrical tank was examined and noted to be rusted and pitted, and no obvious holes or breakages were observed.

Subjective analyses of soil surrounding the tank included observation of possible soil discoloration and odor in soils. No odor or discoloration was observed in the soils of the tank excavation. Based on field observations, soil from the base and sidewalls of the excavation appeared clean and emitted no petroleum odor.

The soil sample obtained for chemical analysis was collected in a stainless steel tube pushed into soil from the teeth of the backhoe bucket. The sample was obtained from a depth of approximately 2 feet below the bottom of the former UST, approximately 9 feet below the ground surface. The sample designated S-W-1, obtained from the west end of the excavation, was stored in an ice-chest cooled to 4°C with "Blue-ice" and transported directly from the site to BSK & Associates State-certified Analytical Laboratories in Fresno, California. Proper Chain-of-Custody (COC) protocol was maintained throughout the transfer. A copy of the COC is attached to this report.

5.0 SUBSURFACE CONDITIONS

Soils excavated from around the tank and to a depth of approximately 6 feet consisted of dark brown to brown silty sand. Soils from below a depth of approximately 6 feet consisted of very hard, dark reddish-brown sandy silt (hardpan). Groundwater was not encountered during the investigation.

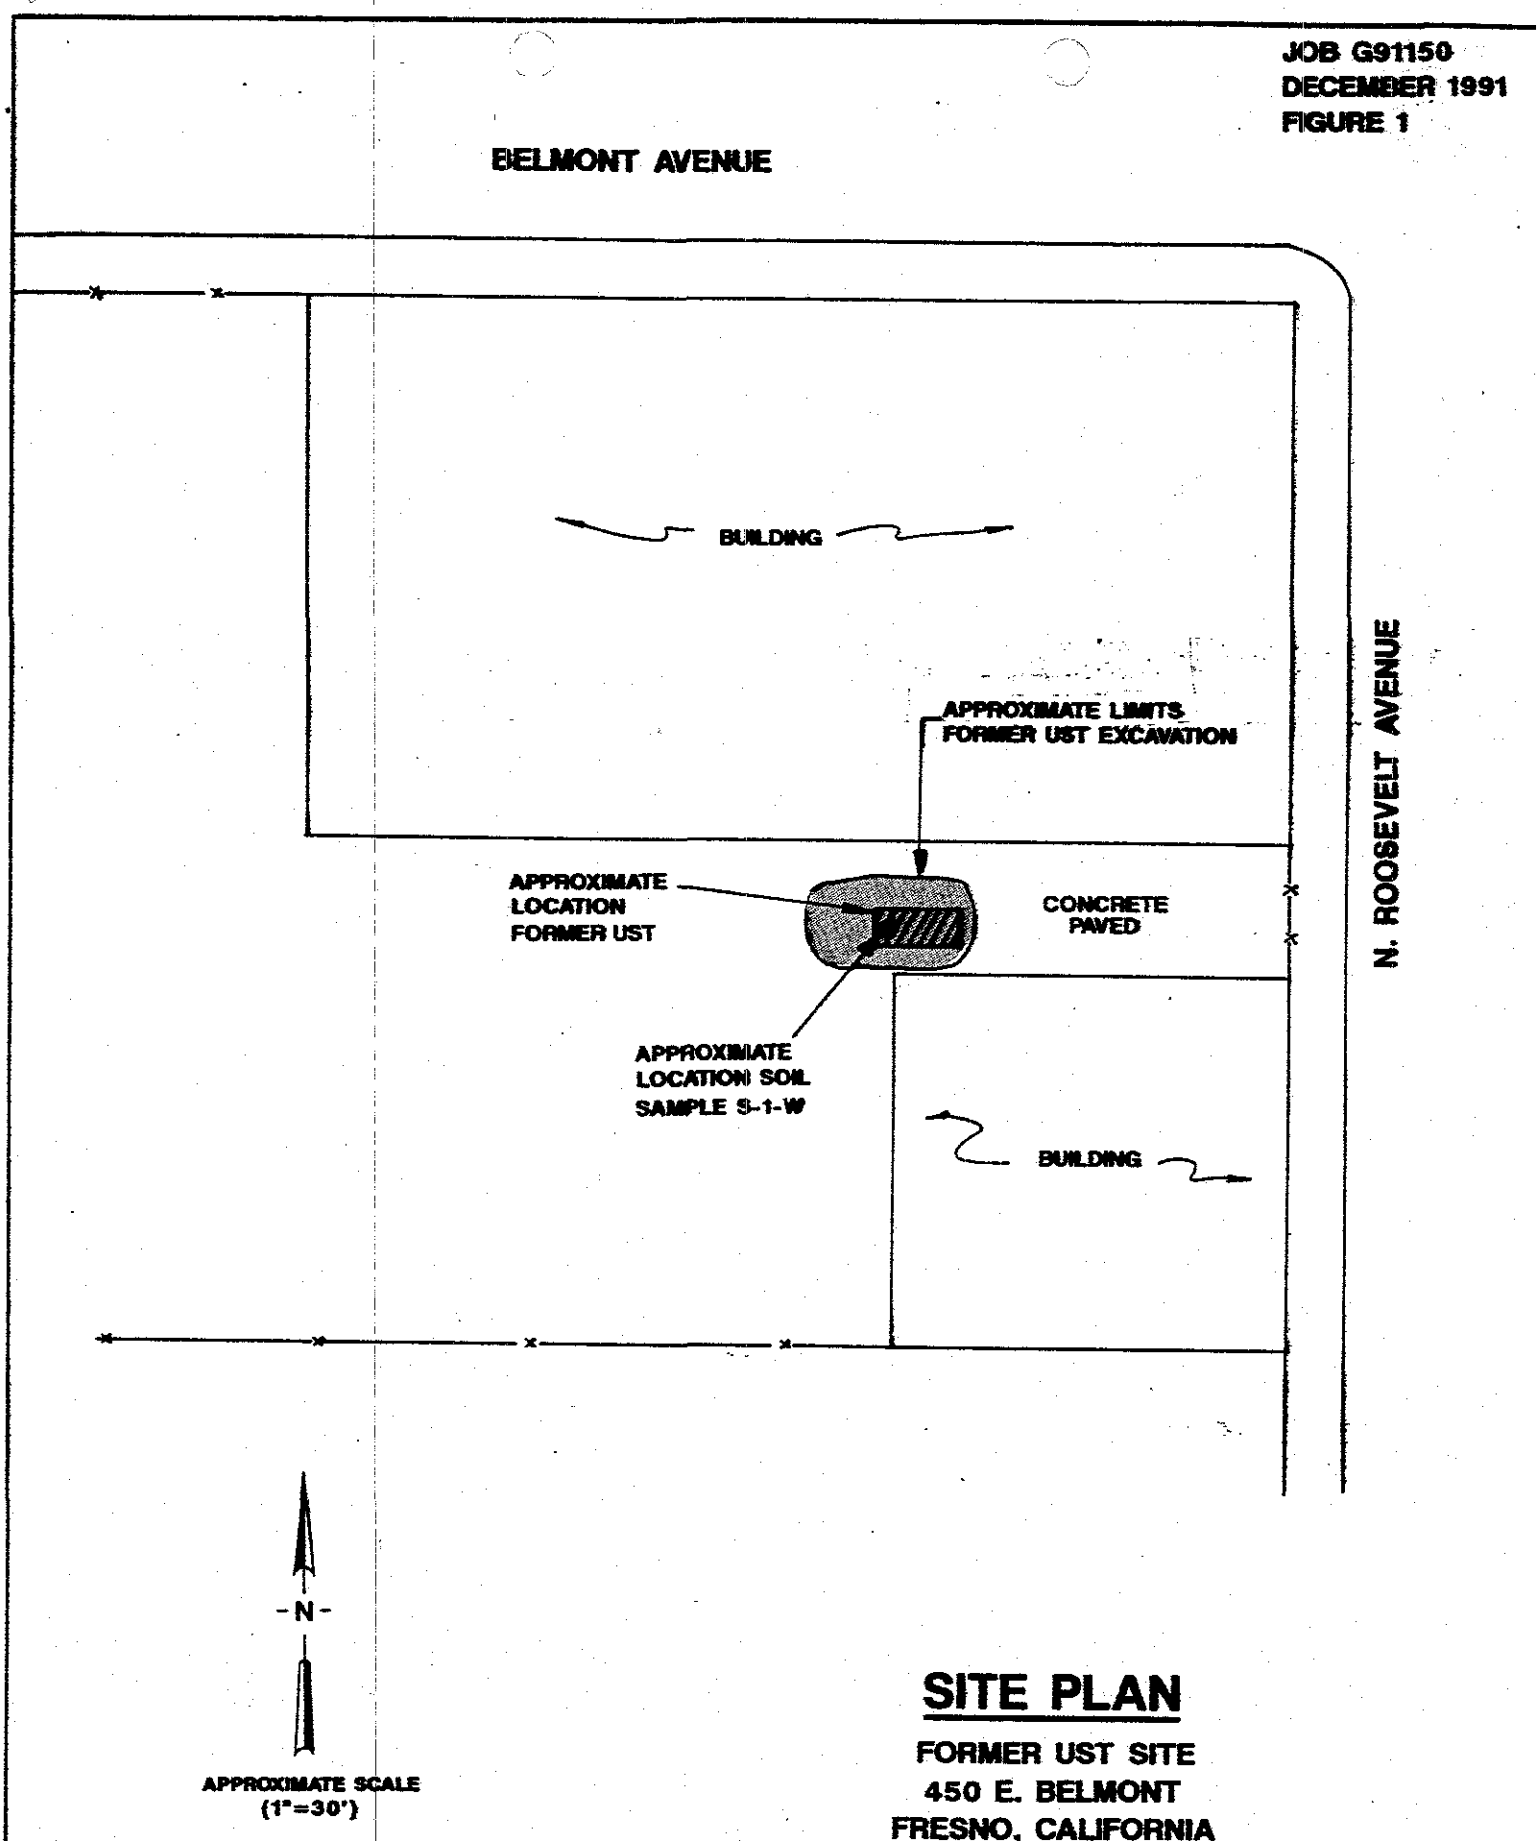

6.0 RESULTS OF CHEMICAL ANALYSES

One soil sample, collected from the depth and location listed above, was submitted to BSK Analytical Laboratories for chemical analysis. The sample was analyzed for Total Petroleum Hydrocarbons (TPH) as referenced to diesel according to the Department of Health Services (DHS) GC/FID Method. Results of chemical analyses for TPH (diesel) were reported as " None Detected". The Analytical Laboratory Report Form is included in the Appendix of this report.

7.0 LIMITATIONS

This report was prepared in accordance with generally accepted standards of environmental practice in Fresno County at the time this investigation was performed. This investigation was conducted solely for the purpose of evaluating environmental conditions of the soil with respect to the presence of petroleum hydrocarbons at the locations sampled. No soil engineering or geotechnical implications are stated or should be inferred. Evaluation of the conditions at the site for the purpose of this investigation is made from a limited number of observation points. Subsurface conditions may vary away from the data points available.

Terms and Limitations

Compaction test results reported herein provide an indication of the degree of compaction of backfill for specific, prescribed locations but do not necessarily reflect the overall character of the backfill or prepared subgrade. Test results should be considered accurate only at the locations and depths indicated.

Interpretation of test results as to the adequacy of compacted backfill remains solely the responsibility of the project engineer and no engineering evaluations, unless specifically stated, are provided herein as to the adequacy of compacted material.

Respectfully submitted,

BSK & Associates

RE: Underground Storage Tanks
450 E. Belmont Ave.
Fresno, CA 93701

Dear Mr. Ledezma:

Please accept this letter as a confirmation of our conversation yesterday on the above referenced matter.

Producers Dairy Foods, Inc. is the Lessee of the property located at 450 E. Belmont Ave. in Fresno. Producers removed one 10,000 gallon tank in July, 1989, in conformance with the procedures in effect at the time.

During the course of your inspection, you identified three capped and uncapped openings where additional tanks might be located. It is our intent to contact your office when sufficient excavation is completed so that a determination can be made by your office as to whether the identified openings are in fact connected to underground tanks.

It is also our intent to notify your office immediately if we should find evidence of any other underground tank(s) during the course of our current demolition or subsequent construction. Demolition and excavation has already commenced at the site.

Any tanks which are found on the property will only be removed in strict accordance with applicable laws and regulations.

Please feel free to contact me at (209) 264-6583 if you need further information from us on this matter.

Sincerely

John Guzzo

RE: Underground Storage Tank
450 E. Belmont Ave.
Fresno, CA 93701

Dear Mr. Ledezma:

Your letter of September 25, 1991, to Shehady & Shehady (properly Shehadey & Shehadey) on the above referenced matter has been referred to me for response.

Producers Dairy Foods, Inc. is the Lessee of the property located at 450 E. Belmont Ave. in Fresno. Producers had the tank in question removed in July, 1989.

Enclosed for your review are: 1) a copy of the billing from W. M. Lyles Co. for the removal of one 10,000 gallon underground tank; 2) a copy of the Tank Disposal Form from American Metal Recycling, Inc. certifying the tank disposal/destruction; and 3) a copy of a letter dated July 20, 1989, from the County of Fresno stating that the "... site poses no significant threat to public health, welfare or the environment with regard to a release of hazardous waste or substance from one or more underground storage tanks located at the site".

Please feel free to contact me at (209) 264-6583 if you need further information to close this matter.

Sincerely

John Guzzo

"Under the Mechanics' Lien Law (Calif. Code of Civil Procedure Section 3082 et Seq.) any contractor, subcontractor, laborer, supplier or other person who helps to improve your property but is not paid for his work or supplies, has a right to enforce claim against your property. This means that, after a court hearing, your property could be sold by a court officer and the proceeds of the sale used to satisfy the indebtedness. This can happen even if you have paid your contractor in full, if the subcontractor, laborer or supplier remains unpaid."

Rec'd 7-24-89

Subject: Certification of Response Actions
Location: 450 E. Belmont, Fresno

Based on information currently and actually known to the County of Fresno Health Department:

_____ We have determined that all appropriate response actions have been completed, all acceptable remedial practices have been implemented, and no further investigation, remedial or removal action, or monitoring is required with regard to a release of hazardous waste or substances from one or more underground storage tanks located at the above site.

XXXXX And based on a site assessment, we have determined that the above site poses no significant threat to public health, welfare, or the environment with regard to a release of hazardous waste or substances from one or more underground storage tanks located at the site. Therefore, implementation of any further removal or remedial measures is not necessary at this time. The site should now be properly closed, including backfilling as necessary.

If any tank has been abandoned in-place the existence of the tank(s) and fittings must be recorded on the property deed.

Nothing in the above determination shall constitute or be construed as a satisfaction or release from liability for any conditions or claims arising as a result of past, current, or future operations at this site. Nothing in this determination is intended or shall be construed to limit the rights of any parties with respect to claims arising out of or relating to deposit or disposal at any other location of substances removed from the site. Nothing in this determination is intended or shall be construed to limit or preclude the County or any other agency from taking any action authorized by law, including, but not limited to, any previous directives, you may be required to take further actions as are necessary to protect public health and the environment.

Please call me at (209) 445-3271 if you have any questions.

Respectfully,

Peggy Wilkinson

RE: Possibility of an UST located at
450, 419 or 435 Belmont Avenue, Fresno

Dear Ms. Wilkinson:

Pursuant to your request in a letter dated July 17, 1989, please find enclosed copies of all information I could find regarding fuel storage tanks at the above-referenced properties.

The property at 450 Belmont was sold to Richard A. Shehadey and Larry A. Shehady, dba Shehady Properties on March 14, 1989.

The 419 and 435 Belmont Avenue properties are still owned by the bankruptcy estate of KF Foods (formerly Knudsen Foods and Foremost Dairies, among others). The debtors' records regarding real property are in poor order, therefore the documents enclosed may be the only records on this subject.

If you have any questions, please don't hesitate to call.

Sincerely,

David L. Collier DF

APPENDIX F: PRELIMINARY TITLE REPORT

CHICAGO TITLE COMPANY

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Chicago Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(ies) of title insurance to be issued hereunder will be policy(ies) of Chicago Title Insurance Company, a Nebraska corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Recording No.: 2007-0131880, of Official Records

The present ownership of the leasehold created by said lease and other matters affecting the interest of the lessee are not shown herein.

Affects: The herein described Land and other land.

An agreement recorded July 10, 2007 at Recording No. 2007-0131881, of Official Records which states that said lease has been made subordinate to the document

Entitled: Deed of Trust
Recording Date: July 10, 2007
Recording No.: 2007-0131879, of Official Records

EXCEPTIONS
(continued)

14. Matters which may be disclosed by an inspection and/or by a correct ALTA/ACSM Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.

15. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

16. Water rights, claims or title to water, whether or not disclosed by the public records.

17. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

    The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

    The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

18. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

    Party(ies): Shehadey & Shehadey, L.P., a California Limited Partnership

    The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

19. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the limited partnership named below.

    Name: Shehadey & Shehadey, L.P., a California Limited Partnership, a limited partnership

    a. Satisfactory evidence that the partnership was validly formed, is in good standing and that there have been no amendments to the partnership agreement.

    The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

END OF EXCEPTIONS

NOTES
(continued)

Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

Note 6. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land Commercial Property, known as 450 East Belmont Avenue, Fresno, CA, to an Extended Coverage Loan Policy.

Note 7. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

Note 8. Your application for title insurance was placed by reference to only a street address or tax identification number. Based on our records, we believe that the legal description in this report covers the parcel(s) of Land that you requested. If the legal description is incorrect, the seller/borrower must notify the Company and/or the settlement company in order to prevent errors and to be certain that the correct parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

Note 9. If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

Note 10. Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirements cannot be met, please call the company at the number provided in this report.

END OF NOTES

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE
Effective: April 1, 2016

Order No.: FWFM-TO16001244

At Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF", "our" or "we"), we value the privacy of our customers. This Privacy Notice explains how we collect, use, and protect your information and explains the choices you have regarding that information. A summary of our privacy practices is below. We also encourage you to read the complete Privacy Notice following the summary.

Types of Information Collected. You may provide us with certain personal information, like your contact information, social security number (SSN), driver's license, other government ID numbers, and/or financial information. We may also receive information from your Internet browser, computer and/or mobile device.	**How Information is Collected.** We may collect personal information directly from you from applications, forms, or communications we receive from you, or from other sources on your behalf, in connection with our provision of products or services to you. We may also collect browsing information from your Internet browser, computer, mobile device or similar equipment. This browsing information is generic and reveals nothing personal about the user.
Use of Your Information. We may use your information to provide products and services to you (or someone on your behalf), to improve our products and services, and to communicate with you about our products and services. We do not give or sell your personal information to parties outside of FNF for their use to market their products or services to you.	**Security Of Your Information.** We utilize a combination of security technologies, procedures and safeguards to help protect your information from unauthorized access, use and/or disclosure. We communicate to our employees about the need to protect personal information.
Choices With Your Information. Your decision to submit personal information is entirely up to you. You can opt-out of certain disclosures or use of your information or choose to not provide any personal information to us.	**When We Share Information.** We may disclose your information to third parties providing you products and services on our behalf, law enforcement agencies or governmental authorities, as required by law, and to parties with whom you authorize us to share your information.
Information From Children. We do not knowingly collect information from children under the age of thirteen (13), and our websites are not intended to attract children.	**Privacy Outside the Website.** We are not responsible for the privacy practices of third parties, even if our website links to those parties' websites.
Access and Correction. If you desire to see the information collected about you and/or correct any inaccuracies, please contact us in the manner specified in this Privacy Notice.	**Do Not Track Disclosures.** We do not recognize "do not track" requests from Internet browsers and similar devices.
The California Online Privacy Protection Act. Certain FNF websites collect information on behalf of mortgage loan servicers. The mortgage loan servicer is responsible for taking action or making changes to any consumer information submitted through those websites.	**International Use.** By providing us with your information, you consent to the transfer, processing and storage of such information outside your country of residence, as well as the fact that we will handle such information consistent with this Privacy Notice.
Your Consent To This Privacy Notice. By submitting information to us and using our websites, you are accepting and agreeing to the terms of this Privacy Notice.	**Contact FNF.** If you have questions or wish to contact us regarding this Privacy Notice, please use the contact information provided at the end of this Privacy Notice.

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

FNF respects and is committed to protecting your privacy. We pledge to take reasonable steps to protect your Personal Information (as defined herein) and to ensure your information is used in compliance with this Privacy Notice.

This Privacy Notice is only in effect for information collected and/or owned by or on behalf of FNF, including collection through any FNF website or online services offered by FNF (collectively, the "Website"), as well as any information collected offline (e.g., paper documents). The provision of this Privacy Notice to you does not create any express or implied relationship, nor create any express or implied duty or other obligation, between FNF and you.

Types of Information Collected
We may collect two (2) types of information: Personal Information and Browsing Information.

Personal Information. The types of personal information FNF collects may include, but are not limited to:

- contact information (*e.g.*, name, address, phone number, email address);
- social security number (SSN), driver's license, and other government ID numbers; and
- financial account or loan information.

Browsing Information. The types of browsing information FNF collects may include, but are not limited to:

- Internet Protocol (or IP) address or device ID/UDID, protocol and sequence information;
- browser language;
- browser type;
- domain name system requests;
- browsing history;
- number of clicks;
- hypertext transfer protocol headers; and
- application client and server banners.

How Information is Collected
In the course of our business, we may collect *Personal Information* about you from the following sources:

- applications or other forms we receive from you or your authorized representative, whether electronic or paper;
- communications to us from you or others;
- information about your transactions with, or services performed by, us, our affiliates or others; and
- information from consumer or other reporting agencies and public records that we either obtain directly from those entities, or from our affiliates or others.

We may collect *Browsing Information* from you as follows:

- Browser Log Files. Our servers automatically log, collect and record certain Browsing Information about each visitor to the Website. The Browsing Information includes only generic information and reveals nothing personal about the user.
- Cookies. From time to time, FNF may send a "cookie" to your computer when you visit the Website. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. When you visit the Website again, the cookie allows the Website to recognize your computer, with the goal of providing an optimized user experience. Cookies may store user preferences and other information. You can choose not to accept cookies by changing the settings of your Internet browser. If you choose not to accept cookies, then some functions of the Website may not work as intended.

Use of Collected Information
Information collected by FNF is used for three (3) main purposes:

- To provide products and services to you, or to one or more third party service providers who are performing services on your behalf or in connection with a transaction involving you;
- To improve our products and services; and
- To communicate with you and to inform you about FNF's products and services.

When We Share Information
We may share your Personal Information (excluding information we receive from consumer or other credit reporting agencies) and Browsing Information with certain individuals and companies, as permitted by law, without first obtaining your authorization. Such disclosures may include, without limitation, the following:

- to agents, representatives, or others to provide you with services or products you have requested, and to enable us to detect or prevent criminal activity, fraud, or material misrepresentation or nondisclosure;
- to third-party contractors or service providers who provide services or perform other functions on our behalf;
- to law enforcement or other governmental authority in connection with an investigation, or civil or criminal subpoenas or court orders; and/or
- to other parties authorized to receive the information in connection with services provided to you or a transaction involving you.

We may disclose Personal Information and/or Browsing Information when required by law or in the good-faith belief that such disclosure is necessary to:

- comply with a legal process or applicable laws;
- enforce this Privacy Notice;
- investigate or respond to claims that any information provided by you violates the rights of a third party; or
- protect the rights, property or personal safety of FNF, its users or the public.

We make efforts to ensure third party contractors and service providers who provide services or perform functions on our behalf protect your information. We limit use of your information to the purposes for which the information was provided. We do not give or sell your information to third parties for their own direct marketing use.

We reserve the right to transfer your Personal Information, Browsing Information, as well as any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of our bankruptcy, reorganization, insolvency, receivership or an assignment for the benefit of creditors. You expressly agree and consent to the use and/or transfer of this information in connection with any of the above described proceedings. We cannot and will not be responsible for any breach of security by any third party or for any actions of any third party that receives any of the information that is disclosed to us.

Choices With Your Information
Whether you submit your information to FNF is entirely up to you. If you decide not to submit your information, FNF may not be able to provide certain products or services to you. You may choose to prevent FNF from using your information under certain circumstances ("opt out"). You may opt out of receiving communications from us about our products and/or services.

Security And Retention Of Information
FNF is committed to protecting the information you share with us and utilizes a combination of security technologies, procedures and safeguards to help protect it from unauthorized access, use and/or disclosure. FNF trains its employees on privacy practices and on FNF's privacy and information security policies. FNF works hard to retain information related to you only as long as reasonably necessary for business and/or legal purposes.

Information From Children
The Website is meant for adults. The Website is not intended or designed to attract children under the age of thirteen (13). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

Access and Correction
To access your Personal Information in the possession of FNF and correct inaccuracies, please contact us by email at privacy@fnf.com or by mail at:

Fidelity National Financial, Inc.
601 Riverside Avenue
Jacksonville, Florida 32204
Attn: Chief Privacy Officer

Your Consent To This Privacy Notice
By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of information by FNF in compliance with this Privacy Notice. We reserve the right to make changes to this Privacy Notice. If we change this Privacy Notice, we will post the revised version on the Website.

Privacy Outside the Website
The Website may contain links to other websites, including links to websites of third party service providers. FNF is not and cannot be responsible for the privacy practices or the content of any of those other websites.

International Users
Because FNF's headquarters is located in the United States, we may transfer your Personal Information and/or Browsing Information to the United States. By using our website and providing us with your Personal Information and/or Browsing Information, you understand and consent to the transfer, processing and storage of such information outside your country of residence, as well as the fact that we will handle such information consistent with this Privacy Notice.

Do Not Track Disclosures
Currently, our policy is that we do not recognize "do not track" requests from Internet browsers and similar devices.

The California Online Privacy Protection Act
For some websites which FNF or one of its companies owns, such as the Customer CareNet ("CCN"), FNF is acting as a third party service provider to a mortgage loan servicer. In those instances, we may collect certain information on behalf of that mortgage loan servicer, including:

- first and last name;
- property address;
- user name and password;
- loan number;
- social security number - masked upon entry;
- email address;
- security questions and answers; and
- IP address.

The information you submit is then transferred to your mortgage loan servicer by way of CCN. **The mortgage loan servicer is responsible for taking action or making changes to any consumer information submitted through this website. For example, if you believe that your payment or user information is incorrect, you must contact your mortgage loan servicer.**

CCN does not share consumer information with third parties, other than those with which the mortgage loan servicer has contracted to interface with the CCN application. All sections of this Privacy Notice apply to your interaction with CCN, except for the sections titled Choices with Your Information, and Access and Correction. If you have questions regarding the choices you have with regard to your personal information or how to access or correct your personal information, contact your mortgage loan servicer.

Contact FNF
Please send questions and/or comments related to this Privacy Notice by email at privacy@fnf.com or by mail at:

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY - 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

3. Defects, liens, encumbrances, adverse claims or other matters:

   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;

   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;

   (c) resulting in no loss or damage to the insured claimant;

   (d) attaching or created subsequent to Date of Policy; or

   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.

4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.

5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.

6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.

2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.

4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

[Except as provided in Schedule B - Part II,[t[or T]his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

[PART I

[The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:]

   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (12-02-13)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.
