

# It's Officially the Start of Summer!

Do your part at the cart by knowing where to throw your seasonal items:

**GREEN CART**

Organic Waste

**GRAY CART**

Garbage

**BLUE CART**

Recyclables

Our Solid Waste Division collects approximately 4,900 tons of green waste, garbage, and recyclable materials each week. Help them get their job done, so they can enjoy some time in the sun, too!

For more tips and tricks, visit [www.fresno.gov](http://www.fresno.gov).

# SUMMER SUNSHINE > FOG

Fats, Oils, and Grease (FOG) are known to clog the pipes and drains for not just one house, but possibly the whole neighborhood. Make sure your family is aware of these helpful tips to maintain our drains:

Collect excess fats and oils in a sealed container and place in the gray cart.

Scrape food residue from plates, pots, and pans before washing.

Use garbage disposal sparingly.

**Maintain Your Drains.**  
Visit [www.fresno.gov](http://www.fresno.gov) for more details.
