PRINCIPAL BUDGET ANALYST

Definition

Under general direction, supervises and directs subordinate staff engaged in professional analytical, budgetary, and fiscal administration duties.

Distinguishing Characteristics

Principal Budget Analyst is the first-line supervisory class in the Budget Analyst series. Incumbents supervise subordinate staff performing analytical, budgetary, and fiscal administration duties and completing special projects on a City-wide basis. An incumbent may act in the absence of the Budget Manager. This class is distinguished from Senior Budget Analyst in that incumbents of the latter are not responsible for providing direction to other employees on an on-going basis. It is distinguished from Management Analyst III in that incumbents of the latter perform a broad range of supervisory and administrative support duties in an operating department. These are unclassified positions in which incumbents serve at the will of the City Manager.
