

SENIOR FIRE PREVENTION INSPECTOR

DEFINITION

Under general supervision, provides lead direction to Fire Prevention Inspectors engaged in the inspection, examination, evaluation and approval of construction or alteration of fire safety systems. Responsible for assessing conformity with fire safety codes and other ordinances with regard to approving the construction or alteration of buildings, structures, and properties for potential fire hazards.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from the Supervising Fire Prevention Inspector. Exercises no supervision. Provides lead direction and/or technical assistance to lower level staff.

DISTINGUISHING CHARACTERISTICS

Senior Fire Prevention Inspector is the advanced working/lead class in the Fire Prevention Inspector series. This position is a sworn, non-safety class in which incumbents are assigned to a specific section within the Fire Prevention Division and provide lead direction/and or technical assistance to other staff engaged in inspection of residential, commercial, industrial, and institutional facilities for fire hazards and to assess conformity with fire safety codes and other ordinances. Senior Fire Prevention Inspector is distinguished from Supervising Fire Prevention Inspector in that the incumbent of the latter has full supervisory responsibilities. This class differs from Fire Prevention Inspector II in that the latter is the journey level class in which incumbents perform the full range of inspection duties, but do not have lead responsibilities.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES

May include, but are not limited to, the following:

Conducts training and provides lead direction to Fire Prevention Inspectors on fire prevention code interpretation, application and enforcement.

Assigns and reviews work, monitors deadlines and coordinates efforts of lower level staff.

Provides lead direction and technical information to fire companies regarding fire prevention, inspection, and code enforcement.

Reviews and approves building construction plans for compliance with fire safety standards.

Provides lead direction and/or technical assistance on assigned projects to include, but not limited to: hazardous materials, public education, plan review, pre-planning for emergencies, training, and enforcement action.

Provides lead direction and participates in the conducting of field inspections of residential, commercial, industrial, and institutional facilities to assess conformity with fire safety codes and other laws and ordinances.

Provides lead direction and participates in providing technical advice to property owners in the methods of controlling and eliminating hazardous conditions.

Provides lead direction and participates in the identification of fire hazards, demonstrates fire hazard control techniques, and instructs the general public in fire prevention methods.

Provides lead direction and participates in the preparation of correction notices and letters pertaining to initial inspections; prepares documentation in support of citations or warrants for arrest of violators; testifies in court on criminal and civil matters filed by the Fire Prevention Division on offenses against fire laws, ordinances, and regulations.

Provides lead direction and participates in the preparation and issuance of infraction and misdemeanor citations for fire code violations.

Provides lead direction and participates in the preparation of reports and other office correspondence and is responsible for the maintaining of the section's plan review records of the buildings examined, evaluated, and approved.

Performs related duties as required.
