July 17, 2023

San Joaquin Valley Unified Air Pollution Control District
1990 E. Gettysburg Ave
Fresno, CA 93726-8718
Attention: Mr. Lupe Jauregui

Dear Mr. Jauregui,

It has been brought to my attention that a fire occurred on or about June 19, 2023, which caused damage to the structural components at the building located at 741 H St.

A field assessment conducted on 7/12/2023 has determined the current conditions pose an imminent danger to the public and an attractive nuisance caused by vandalism and unsafe entry by transients and/or homeless people who continually break into this fire damaged/dilapidated building, thus warranting immediate demolition. As set forth in Fresno Municipal Code Section 11-415(a)(4), the Building Official is authorized to demolish and grade that portion of the building or site to prevent further collapse and remove any hazard to the general public.

Due to the current conditions of the structure, and as the Building Official for the City of Fresno, I strongly recommend an immediate emergency demolition be performed. It is hereby requested that the 10-day waiting period required by the San Joaquin Valley Unified Air Pollution Control District be waived so that demolition may promptly occur. Thank you for working with the City to remove this life safety hazard.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles Clark".

Charles Clark, C.B.O.
Building Official
City of Fresno/Building and Safety Services Division
