Fresno Police Department Policy Manual

Law Enforcement Code of Ethics

As a Law Enforcement Officer, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities, or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...law enforcement.

Fresno Police Department Policy Manual

Civilian Member Code of Ethics

As a civilian member of the Fresno Police Department, my duty is to be courteous and impartial while providing service to the public, the officers, and all other public safety agencies with whom I interact. I will be exemplary in conduct, edifying in my conversation, honest in my dealings, and abide by the laws of the city, state, and country.

I will be aware and accountable for the Department's rules, regulations, policies and procedures in order to create and maintain a harmonious and professional work environment. I will possess integrity, dependability, personal sensitivity to those I come into contact with and be able to present good judgment while under pressure.

I will perform my duties with accuracy, efficiency, and thoroughness while ensuring my attendance and fitness for work. I will treat my co-workers and supervisors with respect and do only those things that reflect honor on the Department and myself.

Fresno Police Department Policy Manual

Department Role in the Criminal Justice System

101.1 POLICY

The Department provides primary law enforcement services to the City of Fresno.

101.1.1 PURPOSE AND SCOPE

The Chief of Police and management staff shall develop and establish guiding principles for the Department. These principles shall take the form of mission statements, value statements and other written directives which determine the operational philosophies of the Department. These guiding principles shall be reviewed annually to ensure they accurately reflect the needs of the community.

101.2 PRIMARY ROLE IN THE CRIMINAL JUSTICE SYSTEM

Services provided include, but are not limited to, emergency responses to crimes in progress, conducting investigations, enforcement of local, state, and federal laws, required documentation, required records maintenance, court room testimony, property/evidence storage and handling, and effective administration to coordinate and manage these services

101.3 COOPERATION WITH OTHER AGENCIES

The criminal justice system relies upon the cooperation of this Department with other law enforcement agencies, prosecutors, courts and correctional officers to ensure the development of a safer community. When possible, members will fully cooperate with outside agencies to allow for the greatest level of service to the community.

To foster this cooperation, the Department will establish a close working relationship with professional organizations directly involved with the planning of responses to crime in the community. Programs such as the Prostitution Abatement Program, Life Skills, Crisis Intervention Training, and CARE Fresno are examples of public and private collaborations that address social issues as they relate to law enforcement responses and needs within the community.

101.4 COMMUNITY ORIENTED POLICING COMMUNICATION

The Fresno Police Department is dedicated to the philosophy of Community Oriented Policing. The Department is comprised of members of our community and is enriched by the diversity of personnel who dedicate themselves to the Department mission.

In order to help integrate the Community Oriented Policing strategy into our operations, open communication is encouraged and should be fostered by all members. In order to assure that concerns raised by members of our community are taken seriously and handled appropriately, every member of the Department is responsible to listen, understand and communicate concerns to their immediate supervisor. Those issues which can be solved by the member should be handled appropriately. Department members are also an integral part of the community policing strategy. When a Department member observes activity or situations that affect quality of life they are encouraged to immediately report the information to the appropriate district or bureau.

Issues that affect quality of life should be reported through the chain of command in written memorandum, police reports or E-mail. These issues shall be reported to the Chief of Police on a weekly basis in staff meetings. Strategies to solve the problems are to be discussed with staff members and action plans put in place to address the problems. Each week, follow up questions are presented by the Chief to track progress. These remarks shall be recorded into the meeting minutes to provide a written record and to facilitate tracking of the issue.

Four things to be recorded by the bureau secretary are, at a minimum:

- (a) A description of current concerns voiced by the community;
- (b) A description of potential problems that have a bearing on law enforcement activities within the community;
- (c) A statement of recommended actions that address previously identified concerns and problems; and
- (d) A statement of progress made toward addressing previously identified concerns and problems.

102.1 POLICY

The Department will use a structured chain of command for communication and direction of all members.

102.1.1 PURPOSE AND SCOPE

Each level of supervision will carry commensurate responsibility and authority. Every member will be held accountable for their use of delegated authority. Each member will be responsible to only one supervisor at any time.

102.2 CHIEF OF POLICE REQUIREMENTS

The Chief of Police must, on appointment, have completed or shall, within two years of appointment, complete a course of training prescribed by California Commission on Peace Officer Standards and Training (POST) and obtain the Basic Certificate by POST within two years of appointment.

102.3 CERTIFICATION

The California Commission on Peace Officer Standards and Training (POST) has mandated that all sworn officers and dispatchers employed within the State of California receive certification by POST within prescribed time periods.

102.4 RESPONSIBILITIES

The Chief of Police is responsible for the day-to-day operations of the Department including administration, coordination and delivery of all law enforcement services provided by this Department to the community. The Chief of Police is also responsible for the fiscal operations of the Department including the annual budget.

102.4.1 ABSENCE OR INFIRMITY

In the absence or infirmity of the Chief of Police, the Chief will delegate the Assistant Chief (or a Deputy Chief) command responsibility and authority for the Police Department.

In exceptional circumstances where the Chief is unable to conduct the business of the Department, and has not delegated overall command responsibilities, the Assistant Chief will assume command followed by the Administrative Division Commander, the Patrol Division Commander, the Support Division Commander, and the Investigative Services Division Commander.

102.5 CHAIN OF COMMAND

The Department will use a structured chain of command for communication and direction of all members.

Each level of supervision will carry commensurate responsibility and authority. Every member will be held accountable for their use of delegated authority.

Each member will be responsible to only one supervisor at any time.

102.6 RANK AUTHORITY

Orders, business, and operations of the Department that concern enforcement and/or emergency operations shall function through the following hierarchy of rank, listed from highest to lowest:

- (a) Chief of Police
- (b) Assistant Chief
- (c) Deputy Chief of Police
- (d) Captain

- (e) Lieutenant
- (f) Sergeant
- (g) Specialist/Corporal/FTO
- (h) Officer
- (i) Community Service Officer (CSO)
- (j) Cadet II
- (k) Cadet I

Under normal day-to-day operations, the highest ranking member on scene may exercise command over an incident.

102.6.1 EXCEPTIONAL CIRCUMSTANCES

In exceptional circumstances a higher ranking member may delegate specific authority to a subordinate based on the skills or expertise of that member. In these situations, the higher ranking member will retain overall command of the incident but may delegate tactical, investigative, or other functional control of an incident.

Where different departmental functions are engaged in a single operation, the highest ranking member for each function will retain operational control over that function, however overall incident command will be retained by the highest ranking member on scene.

102.7 DELEGATING AUTHORITY

There may be circumstances when a member of lower rank is delegated authority for a situation based on expertise, training, or experience. In these situations a supervisor will delegate the authority to accomplish the task. Any subsequent orders given by the person receiving the delegation will be treated as if the superior officer had given the order.

102.8 CONFLICTING ORDERS

When a member receives an order that is in conflict with a previously issued order, the member will follow the guidelines listed below.

102.8.1 WRITTEN ORDERS IN CONFLICT

Any time written orders or other Department documents are in conflict, the order of highest authority shall be followed. Members who discover a conflict shall advise the issuing authority of the conflict, who shall then take immediate steps to resolve the issue. When written orders of the same authority are in conflict, the most recent order shall be followed, and the issuing authority shall be advised.

102.8.2 WRITTEN-VERBAL / VERBAL-VERBAL CONFLICTS

When any member receives a verbal order from a superior that conflicts with a written or verbal order of another superior, the member shall immediately advise the superior giving the conflicting order of the conflict. When the superior still wishes the order carried out, the member shall do so, and shall suffer no disciplinary action for doing so. The superior issuing the conflicting order shall contact the issuing authority of the other order as soon as possible to reconcile the conflict.

102.8.3 ORDERS IN CONFLICT WITH LAW

When a member receives a written or verbal order that conflicts with the law, the order shall not be obeyed, for which disobedience the member shall not be subject to disciplinary action. Members shall not be excused for violating the law because they were acting under the orders of a superior. Members receiving orders in violation of law shall immediately advise the issuing superior of the conflict, and that the order will not be carried out. Superiors issuing unlawful orders shall immediately rescind them and fully report the incident to their own superior.

102.8.4 MEMORANDA

Memoranda will be considered as verbal orders.

106.1 POLICY

The manual of the Department is hereby established and shall be referred to as the "Policy Manual". Fresno Police Department Policy Manual
Retired Officer ID and CCW Endorsements

220.1 POLICY

Upon retirement from the Department, any full-time sworn officer who separated in good standing may request a retired officer identification card. If the officer in good standing had been authorized to and did carry a concealed firearm during the course and scope of their employment, they may be issued an identification card with a "CCW Approved" endorsement [Penal Code §25455].

220.1.1 PURPOSE AND SCOPE

The purpose of this policy is to outline the process and conditions associated with the issuance, revocation, and denial of a carry concealed weapons (CCW) endorsement for retired officers of the Department.

220.2 QUALIFIED RETIREES

For the purpose of this policy, "honorably retired" [as defined in PC §16690] or in good standing includes all peace officers who have qualified for, and have accepted, a service or disability retirement. This shall not include any officer who retires or resigns in lieu of termination, or any peace officer who is terminated for cause, prior to or after receiving a service related or disability retirement. The Chief of Police or their designee may deny a retiree identification card after review of the circumstances related to the separation or termination on a case-by-case basis.

Service retirements qualify for a "CCW Approved" endorsement when the retirement is from regular employment as a law enforcement officer for an aggregate of 15 years or more. Officers who voluntarily separate from the Department and are not "honorably retired" as defined above, do not qualify for the CCW endorsement. Officers who fall into this category must seek a CCW permit through the civilian processes in the jurisdiction of residence.

Officers who are separated for a medical disability are eligible for a CCW permit upon receipt of a retroactive medical disability retirement, provided they meet the requirements outlined in section 220.1. Officers who have not received a medical disability retirement may seek a CCW permit through the civilian process in the jurisdiction of residence.

No "CCW Approved" endorsement shall be issued to any officer retiring because of a psychological disability [PC §26305(a)].

When a member separates from employment with the Department, they will not be issued a CCW permit until all issued Department equipment has been returned or accounted for.

Prior to the issuance of a "CCW Approved" endorsement or if the member allowed their CCW to expire for more than two years, the member will be required to submit to a DOJ background check at their expense.

Any firearm that is presented to this Department for concealed carry and range qualifications must meet the minimum requirements as prescribed in Policy §312.

220.2.1 OFFICERS RETIRED PRIOR TO JANUARY 1, 1981

Officers who have honorably retired from this Department prior to January 1, 1981, and wish to carry a concealed weapon, are required to have a CCW endorsement, and must petition this agency every year to renew the ID card. These retirees must also qualify at the range and sign a liability waiver. If no CCW endorsement is desired, the officer is only required to renew the ID card once every five years. This agency may deny or revoke this privilege to carry a concealed firearm for "good cause" as outlined in [PC §26305(d)]. This denial will be indicated by "No CCW Privilege" stamped on the card.

220.2.2 QUALIFIED RETIRED RESERVES

Qualified retired Level I reserve officers who meet the Department requirements shall be provided an identification card with a "CCW Approved" endorsement [PC §26300].

220.3 MAINTAINING A CCW ENDORSEMENT

In order to maintain a "CCW Approved" endorsement on an identification card, the retired officer shall:

- (a) Qualify annually with the authorized firearm at a course approved by the Department at the retired officer's expense. Upon verification by the Department that all annual requirements have been met by an otherwise qualified retired officer, the "CCW Approved" endorsement shall be re-stamped and dated (18 United States Code §926C);
- (b) Remain subject to any departmental rule, or state or federal law that, if violated by an officer on active duty, would result in that officer's arrest, suspension, or removal from the agency [PC §26305(b)]; and
- (c) Only be authorized to carry a concealed firearm inspected and approved by the Department.

220.4 CARRYING FIREARMS OUT OF STATE

Subject to 18 USC §926C and Policy §312, qualified retired officers of the Department may be authorized to carry a concealed weapon in other states.

 - 1) The Act permits the nationwide carrying of concealed handguns by qualified current and retired law enforcement officers and amends the Gun Control Act of 1968 (Pub. L. 90-618, 82 Stat. 1213) to exempt qualified current and retired law enforcement officers from state and local laws prohibiting the carrying of concealed firearms.
 - 2) It does not exempt current or retired officers from any state or local firearm owner registration laws.

220.5 MAINTAINING A CCW ENDORSEMENT WHILE RESIDING IN ANOTHER STATE

The local agency should gather a photograph and fingerprints and conduct a local criminal history check.
- (b) Affidavit of Compliance - As required by HR 218, the retired officer must present an affidavit to the local agency, declaring that the officer is "honorably retired" and qualified to carry a concealed weapon in compliance with HR 218. The Personnel Bureau will complete the top portion of the form, checking the appropriate boxes, prior to including the form in the packet. The retired officer will sign the form and have it notarized. This form should be kept by the local agency with the range qualification records.

The CCW endorsement for any officer retired from the Department may be denied or revoked only upon a showing of good cause, as outlined in PC §26305. Any denial or revocation under this section shall also be considered disqualification under 18 USC §926C(d). The CCW endorsement may be immediately and temporarily revoked by the Field Commander when the conduct of a retired officer compromises public safety [PC §26305(c)].

220.8 OUT OF TOWN / STATE AGENCY RETIRED OFFICERS

It shall be the policy of this agency to provide reciprocal services to retired law enforcement officers from other jurisdictions/states that reside within the city limits and seek to renew a CCW endorsement issued by the law enforcement agency from which they retired in good standing. 221.3 DEPARTMENT VOLUNTEERS

The Department may use qualified volunteers for specified tasks and duties to create efficiencies for the Department and improve services to the community. Volunteers are intended to supplement and support, rather than supplant, sworn officers and civilian personnel. Volunteers help to increase departmental responsiveness, delivery of services and information input, and provide new program opportunities.

A volunteer performs a service for the Department without promise, expectation, or receipt of compensation for services rendered. This may include unpaid chaplains, unpaid reserve officers, interns, and persons providing administrative support, among others. A documented background investigation shall be completed on each volunteer applicant as outlined within Policy 1000 Recruitment and Selection.

Volunteers should receive position-specific training to ensure they have adequate knowledge and skills to complete tasks required by the position and should receive periodic ongoing training as deemed appropriate by their supervisor.

221.3.1 DEPARTMENT OF DEFENSE SKILLBRIDGE VOLUNTEERS

In collaboration with the United States Department of Defense, our Department may utilize the Department of Defense's (DOD) Skillbridge Program. This program supplements the current volunteer program and allows active service members to transition into a career with the Fresno Police Department. The intended use is to transition candidates through the Cadet program to become sworn police officers. Though this is the intended purpose, it will not prohibit candidates from transitioning to other positions within the Department.

The Skillbridge Program is open to active-duty service members with less than 180 days until the end of service. To apply, service members need to go through the Department's Volunteer in Police Service (VIPS) program. Eligibility will be determined based on the completion of a Personal History Statement (PHS) and a successful background investigation.

Upon completion of the VIPS hiring process and approval from their command staff, candidates will begin participation in the Skillbridge program until the end of their active enlistment. The program's standard duration is 180 days, but it can be adjusted based on the Department's needs, as determined by the Chief of Police or the authorized designee. The Chief of Police or the authorized designee also holds the right to terminate a candidate's participation if their performance is deemed unsatisfactory.

Program participants are required to work 40 hours per week. Participants will shadow and train in areas of the Department to prepare for a career within the Department. These areas will be determined based on the Department's needs by the Chief of Police or the authorized designee. At the completion or near the end of their enlistment, participants would be expected to apply for employment with the Department.

221.4 PATRIOTIC PROTOCOL

National Anthem - When the National Anthem is played at any place where uniformed members are present, members shall stand at attention and salute the flag until the last note of the anthem.

Passing of the Flag - On approach of the American flag, uniformed members on foot shall render a military salute as the flag passes. The time to salute is when the flag is within six paces on approach, to end when the flag is beyond six paces on passing. Motorcycle officers at fixed post shall dismount and salute.

HQ Flag - The American flag shall be flown on the HQ flagpole every day of the year from sunrise to sunset, except during inclement weather.

No other flag shall be displayed above, equal to, nor in a position of superior prominence or honor to or in place of the American flag.

The flag will be flown at half-staff on Memorial Day and Veteran's Day, and on any other day specially designated by the President, Governor, City Council, Mayor, or Chief of Police.

At the direction of the Chief of Police, an escort and/or procession, as defined below, may be assigned to a funeral detail.

During an escort, the escorting emergency vehicles shall not operate in a code-3 capacity, unless responding to an emergency, and shall obey all traffic laws. Once approved by the Chief of Police, escorts shall only be conducted after consultation with the Commander of the Traffic Safety/Support Services Section and shall only be used under the following circumstances:

- (a) When a sworn department member, sworn member from another law enforcement agency, or on-duty reserve officer is killed in the line of duty, an escort shall be provided any time the member's body is transported between locations prior to any formal funeral services.
- (b) When any current non-sworn member dies, or a sworn member dies other than in the line of duty, an escort may be provided during the formal funeral services to transport the member's body from the service location to the place of interment.
- (c) Other circumstances wherein the escort has been authorized by the Chief of Police.

Procession – A procession is defined as the use of marked or unmarked emergency vehicles, in a show of respect, to assist in the transport of a fallen member during the formal funeral services. - (b) Other circumstances wherein the procession has been authorized by the Chief of Police.

Sworn personnel in marked or unmarked emergency vehicles may, as an option, line a designated section of roadway while operating their emergency lights as a show of respect to the fallen as the escort

detail or procession passes by. The Traffic Safety/Support Services Section Commander shall designate the roadway section to be used and ensure the information is conveyed to on-duty personnel. All traffic safety laws shall be obeyed by participating personnel.

221.5.3 UNIFORM

Members of the Honor Guard assigned to funeral details shall attend in full Honor Guard uniform. All other members assigned to funeral details shall attend in dress uniform or as directed by the Chief of Police.

221.5.4 ASSEMBLY

Assembly shall be outside of the location of the funeral, one-half hour prior to commencement of services, or as directed by the superior officer in charge.

221.5.5 OTHER AGENCY FUNERAL DETAILS

When uniformed members of this Department attend the funeral of a member of another law enforcement agency, the members shall report to and follow the instructions of the officer in charge of the uniformed detachment.

221.6 CHIEF'S ADVISORY BOARD

**Fresno Police Department
Policy Manual**

Chapter 3: General Operations

300 Use of Force

300.1 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. On a daily basis, officers are involved in numerous and varied interactions and, when warranted, may use reasonable force in carrying out a legitimate law enforcement purpose. The primary purpose of this policy is to prevent the use of unnecessary force as defined by law, ensure accountability and transparency, and to enhance the community's trust and confidence in our officers' ability to protect and serve.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone and places a priority on it.

Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation, and a careful balancing of all interests. (GC § 7286)

300.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide officers of the Department with guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, each officer is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner. (Government Code § 7286)

300.2 DEFINITIONS

Deadly force - Any use of force that creates a substantial risk of causing death or serious bodily injury, including but not limited to the discharge of a firearm (PC § 835a(e)(1)).

Extenuating Circumstances— A situation in which an officer has a reasonable belief that a person(s) will cause death or serious bodily injury to another unless immediately apprehended. Any action taken under extenuating circumstances will require specific articulable facts and circumstances.

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the officer or another person. (GC § 7286(a)(2))

Force - The application of physical techniques, chemical agents, or weapons to another person. It is not a use of force when a person allows themselves to be searched, escorted, handcuffed, or restrained.

Imminent - An "imminent" threat of death or serious bodily injury exists when, based on the totality of the circumstances, a reasonable officer in the same situation would believe that a person has the present ability, opportunity, and apparent intent to immediately cause death or serious bodily injury to the officer or another person. An imminent harm is not merely a fear of future harm, but is one that, from appearances, must be instantly confronted and addressed. (PC §835a).

Positional Asphyxia - "Positional asphyxia" means situating a person in a manner that compresses their airway and reduces the ability to sustain adequate breathing. This includes, without limitation, the use of any physical restraint that causes a person's airway to be compressed or impairs the person's breathing or respiratory capacity, including any action in which pressure or body weight is unreasonably

applied against a restrained person's neck, torso, or back, or positioning a restrained person without reasonable monitoring for signs of asphyxia." California Government Code §7286.5(b)(4)

Reasonable Belief - The facts or circumstances the officer knows, or should have known, are such as to cause an ordinary and prudent person to act or think in a similar way under similar circumstance.

Serious Bodily Injury - Means a bodily injury that involves a substantial risk of death, unconsciousness, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member or organ. (GC § 12525.2)

Totality of the circumstances - All facts known to the officer at the time, including the conduct of the officer and the subject leading up to the use of force (PC § 835a(e)(3)).

300.3 FAIR AND UNBIASED USE OF FORCE

Officers are expected to carry out their duties, including the use of force, in a manner that is fair and unbiased (GC § 7286(b)). See the Racial or Bias-Based Policy for additional guidance (Policy § 402).

300.3.1 DUTY TO INTERCEDE

Any officer present and observing another law enforcement officer or an employee using force that is clearly beyond that which is necessary, as determined by an objectively reasonable officer under the circumstances, shall, when in a position to do so, intercede to prevent the use of unreasonable force. When observing force used by a law enforcement officer, each officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject (Government Code § 7286(b)).

300.3.2 DUTY TO REPORT EXCESSIVE FORCE

Any officer who observes a law enforcement officer or an employee use excessive force shall promptly report these observations to a supervisor as soon as feasible (GC § 7286(b)).

300.4 USE OF FORCE

Officers shall use only that amount of force that reasonably appears necessary given the facts and totality of the circumstances known to or perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose. (PC § 835(a))

The "reasonableness" of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain, and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident. Officers may only use a level of force that they reasonably believe is proportional to the seriousness of the suspected offense or the reasonably perceived level of actual or threatened resistance (GC § 7286(b)).

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the approved tools, weapons, or methods provided by the Fresno Police Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be objectively reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to protect and serve the community and to intervene safely without injury, to the public and the officer(s), nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.5 ALTERNATIVE TACTICS - DE-ESCALATION

As time and the totality of the circumstances reasonably permit, and when community and officer safety would not be compromised, officers should use other available resources and techniques if reasonably safe and feasible to an objectively reasonable officer including:

- (a) Summoning additional resources that are able to respond in a reasonable and timely manner. Formulating a plan with responding officers before entering an unstable situation that does not reasonably appear to require immediate intervention.
- (b) Employing other tactics that may persuade an individual to voluntarily comply or may mitigate the need to use a higher level of force.
- (c) Attempts to de-escalate a situation.
- (d) If reasonably available, the use of crisis intervention techniques by properly trained personnel.

300.6 GUIDELINES FOR REASONABLE FORCE

Both federal and state law authorize peace officers to use objectively reasonable force to accomplish a legitimate law enforcement purpose. There are five recognized purposes that serve as the basis for the reasonableness of any police use of force. The five lawfully recognized purposes are:

- (a) Effect an arrest or detention;
- (b) Overcome resistance;
- (c) Prevent an escape;
- (d) Self-defense; or
- (e) Defense of others.

Due to the immediacy with which a member must apply force, together with the absence of time and/or physical ability of the member to select alternative methods, it may be objectively reasonable for the member to apply that method of force most readily available that will affect the desired results.

The application of any force option shall be discontinued once the officer determines that compliance has been achieved.

300.6.1 FACTORS USED TO DETERMINE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether an officer has used reasonable force, several factors should be taken into consideration, as time and circumstances permit (GC § 7286(b)). These factors include but are not limited to:

- (a) The apparent immediacy and severity of the threat to officers or others or whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or other;
- (b) Potential for injury to officers, suspects and others;
- (c) Whether the individual is actively resisting, or attempting to evade arrest or escape;
- (d) Whether the individual is compliant or is passively resistant, actively resistant, assaultive/combatative, or the resistance poses a risk of serious bodily injury or is life threatening;
- (e) Risk and reasonably foreseeable consequences of escape;
- (f) The time available and the apparent need for immediate control of the suspect or a prompt resolution of the situation;
- (g) Seriousness of the suspected offense or reason for contact with the individual prior to and at the time force is used;
- (h) Prior contacts with the suspect or awareness of any propensity for violence;
- (i) Officer/suspect factors (i.e. age, relative size, strength, skill level, injuries sustained, level of exhaustion or fatigue, clothing thickness, number of officers available vs. suspects, etc.);
- (j) The individual's apparent mental state or capacity;
- (k) The effects of drugs/alcohol;
- (l) The individual's apparent ability to understand and comply with officer commands;
- (m) Environmental factors (i.e., footing, lighting, cover and concealment, sound and communications issues, bystanders and crowds etc.);
- (n) Proximity of weapons or dangerous improvised devices available to suspect;
- (o) Available resources and techniques that are reasonably safe;

- (p) The degree to which a suspect has been effectively restrained and their ability to resist despite restraints;
- (q) Training and experience of officer(s);
- (r) The conduct of the involved officer leading up to the use of force; and
- (s) Any other exigent circumstances.

300.6.2 USE OF FORCE TO EFFECT AN ARREST

Any peace officer may use objectively reasonable force to effect an arrest, to prevent escape or to overcome resistance. A peace officer who makes or attempts to make an arrest need not retreat or desist from their efforts by reason of resistance or threatened resistance on the part of the person being arrested; nor shall an officer be deemed the aggressor or lose their right to self-defense by the use of objectively reasonable force to effect the arrest, prevent escape or to overcome resistance. Retreat does not mean tactical repositioning or other de-escalation techniques (PC §835a(d)).

300.6.3 USE OF FORCE TO SEIZE EVIDENCE

In general, officers may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, officers are discouraged from using force solely to prevent a person from swallowing evidence or contraband. In the instance when force is used, officers should not intentionally use any technique that restricts blood flow to the head, restricts respiration or which creates a reasonable likelihood that blood flow to the head or respiration would be restricted.

300.7 NON-DEADLY FORCE APPLICATIONS

Any application of force that is not reasonably anticipated and intended to create a substantial likelihood of death or serious bodily injury shall be considered non-deadly force. Each officer is provided with equipment, training, and skills to assist in the apprehension and control of suspects as well as protection of officers and the public. Non-deadly force applications may include but are not limited to force options in Policy §§308, and 309 respectively.

300.8 DEADLY FORCE APPLICATIONS

The intentional discharge of a firearm at an individual, with the exception of those firearms dedicated to less lethal munitions, constitutes deadly force.

It is the intent of the Department that peace officers use deadly force only, when necessary, in defense of human life. In determining whether deadly force is necessary, officers shall evaluate each situation in light of the particular circumstances of each case and shall use other available resources and techniques if reasonably safe and feasible to an objectively reasonable officer. (Penal Code § 835a(a)(2)). If an objectively reasonable officer would consider it safe and feasible to do so under the totality of the circumstances, officers shall evaluate the use of other reasonably available resources and techniques when determining whether to use deadly force. To the extent that it is reasonably practical, officers should consider their surroundings and any potential risks to bystanders prior to discharging a firearm (GC § 7286(b)(5)).

The use of deadly force is only justified when the officer reasonably believes it is necessary in the following circumstances (Penal Code § 835a):

- (a) An officer may use deadly force to protect themselves or others from what they reasonably believe is an imminent threat of death or serious bodily injury to the officer or another person.
- (b) An officer may use deadly force to apprehend a fleeing person for any felony that threatened or resulted in death or serious bodily injury, if the officer reasonably believes that the person will cause death or serious bodily injury to another unless immediately apprehended.

Officers shall not use deadly force against a person based on the danger that person poses to themselves, if an objectively reasonable officer would believe the person does not pose an imminent threat of death or serious bodily injury to the officer or to another person (PC §835a).

Where feasible, the officer shall, prior to the use of force, make reasonable efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless the officer has objectively reasonable grounds to believe the person is aware of those facts (PC §835a(c)(1)(B)(2)).

300.8.1 SHOOTING AT OR FROM MOVING VEHICLES

Shots fired at or from moving vehicles are rarely effective and may involve additional considerations and risks. When feasible, officers should take reasonable steps to move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the imminent threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others (GC § 7286(b)).

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle. Reaching into a moving vehicle could place an officer, subject, or the public in danger. Officers are prohibited from reaching into any moving vehicle unless there are extenuating circumstances.

300.8.2 VEHICLES AS WEAPON

The intentional striking of any person on foot or a bicycle with a motorized vehicle, regardless of the speed involved, shall be considered as the use of deadly force.

300.8.3 DISPLAYING OF FIREARMS

Officers should evaluate each tactical situation and use discretion when drawing a firearm in public by considering the following guidelines (GC § 7286(b)):

- (a) If the officer does not perceive an imminent threat but reasonably believes that the potential for such threat exists (e.g., building search), firearms should generally be kept in the low-ready or another position not directly toward an individual.
- (b) If the officer reasonably believes that an imminent threat exists based on the totality of circumstances presented at the time (e.g., high-risk stop, tactical entry, armed encounter), firearms may be directed toward such imminent threat until the officer no longer perceives such threat.

Once it is reasonably safe to do so, officers should carefully secure all firearms.

300.8.4 WARNING SHOTS

Warning shots are generally prohibited and should only be used in exigent circumstances where an objectively reasonable officer would believe warning shots provide the potential ability to de-escalate a potentially life-threatening incident. Department members shall only fire warning shots if the situation presented would otherwise justify the use of deadly force. Members are never required to fire any warning shots prior to the use of deadly force.

300.9 REPORTABLE FORCE DEFINED

Reportable force has occurred when:

- (a) Members (including canines) use force and a person is injured, has expressed a complaint of pain, or has been rendered unconscious;
- (b) Members strike a person with a body part (e.g., fist, foot, elbow, etc.) or any object (e.g., flashlight, clipboard, etc.) including misses;
- (c) Members use (not merely display) a Department issued weapon (e.g., baton, chemical agents, Electronic Control Device (ECD), less-lethal, shotgun, firearm, etc.) against another, including misses; or
- (d) Members use any technique or transport method where direct and continuous pressure is applied to the neck, torso, or back of a person as specified within Policy 308.2.5.

If an officer is in doubt as to whether a use of force is reportable, the officer shall notify the on-duty supervisor, who will then be responsible for making the determination.

300.9.1 NOTIFICATION TO SUPERVISORS

When any member subjects someone to the use of reportable force, they shall immediately notify a supervisor. Supervisors should also be notified when an individual indicates the intent to pursue litigation, whether or not any force was used.

Except during training, any member who discharges a Department issued or authorized firearm accidentally or intentionally, on or off-duty, shall make a verbal report to an on-duty supervisor as soon as circumstances permit. Supervisors will comply with Policy §310 in regard to an accidental discharge.

300.9.2 DOCUMENTATION OF REPORTABLE USE OF FORCE

Any reportable use of force by a member of this department shall be documented promptly, completely, and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why they believed the use of force was reasonable under the circumstances. Officers shall review BWC recordings consistent with Policy § 450.10.1 prior to the completion of their report.

Members shall document all of the following information when reportable force occurs:

- (a) Reason for the initial contact;
- (b) Subject's behavior that required the use of force;
- (c) Type of force used;
- (d) Warnings given;
- (e) If the initial force used was adequate or if repeated applications were required and level of resistance;
- (f) If equipment functioned properly;
- (g) If the subject attempted to take control or took control of the officers' weapons;
- (h) If the officer/subject was injured;
- (i) Witness statements;
- (j) If a supervisor was on scene when the reportable force was used;
- (k) Subject's reactions or response to the use of force; and
- (l) What was the desired outcome of the use of force and was the outcome achieved.

Following an incident of reportable force, officers shall ensure the subject is photographed. Photographs should include any visible injuries or lack thereof. Members utilizing AXON Records shall click on the "Incident Overview" card. Under the "Case Factors > SPECIAL FACTORS" section, members will check the box that says "Force Used."

300.9.3 MEDICAL TREATMENT

Prior to booking or release, members shall provide/seek appropriate medical assistance from EMS or CRMC for any person(s) who has:

- (a) Sustained visible injury;
- (b) Expressed a complaint of pain;
- (c) Been rendered unconscious (requires medical clearance from CRMC);
- (d) Received an ECD application (medical treatment for ECD requires clearance from CRMC as outlined in Policy §309);
- (e) Been struck with less lethal impact projectiles (requires medical clearance from CRMC).

Suspects in-custody are not allowed to AMA from treatment in the field. A suspect may choose to AMA upon being cited and released.

When possible, members should render CPR/First Aid consistent with training until EMS arrives. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, when practical, should be witnessed by another officer and/or medical personnel. If an audio recording is made of contact or an interview with the individual, any refusal should be included, if possible.

A person who exhibits extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond physical characteristics and unusually high tolerance to pain or who

require a protracted physical encounter with multiple officers to bring under control may be at an increased risk of sudden death. Calls involving these people should be considered medical emergencies and these individuals should be examined by qualified medical personnel as soon as practicable. Any individual exhibiting signs of distress after such an encounter shall be medically cleared prior to booking. Officers shall not use the term “excited delirium” to describe a person in an incident report. Officers may describe the observed characteristics exhibited by the person, but shall not describe the person’s demeanor, conduct, or physical and mental condition as excited delirium.

300.9.4 SUPERVISOR’S DOCUMENTATION OF REPORTABLE FORCE

When a supervisor is notified, that reportable force occurred, they shall:

- (a) Prepare a Use of Force Form using the BlueTeam web interface (Refer to Policy §349); and
- (b) Forward via BlueTeam through the supervisor’s chain of command.

300.9.5 USE OF FORCE COMPLAINTS

The receipt, processing, and investigation of civilian complaints involving use of force incidents should be handled in accordance with the Personnel Complaints Policy (Government Code § 7286(b)).

300.10 USE OF FORCE ANALYSIS

Use of force data obtained from the IAPro Database will be used for comparative analysis and composite reporting. This information will be used to determine effectiveness of force, reliability of equipment, training needs, policy modifications, etc. Access to the database is limited to the Chief of Police or designee and is not available for public dissemination.

Requests from outside the Department for information related to a use of force incident, or civil liability recordings, shall be approved by the Department’s Legal Advisor (including D.A. requests) prior to release.

300.11 ADMINISTRATIVE LEAVE

Any member who is directly involved in an incident resulting in a serious injury or the death of any person through any act occurring on-duty shall be placed on administrative leave until the member can meet with a competent mental health professional.

300.12 REPORTING TO THE CALIFORNIA DEPARTMENT OF JUSTICE

Statistical data regarding all officer-involved shootings and incidents involving use of force resulting in serious bodily injury or death are to be reported to the California Department of Justice as required by GC§12525.2.

300.13 TRAINING

Officers, investigators, and supervisors will receive periodic training on this policy and demonstrate their knowledge and understanding (GC § 7286(b)). Subject to available resources, the Training Unit Commander should ensure that officers receive periodic training on de-escalation tactics, including alternatives to force.

Training should also include (GC § 7286(b)):

- (a) Guidelines regarding vulnerable populations, including but not limited to children, elderly persons, pregnant individuals, and individuals with physical, mental, and developmental disabilities.
- (b) Training courses required by and consistent with POST guidelines set forth in Penal Code § 13519.10.

300.14 POLICY REVIEW

The Chief of Police or the authorized designee should regularly review and update this policy to reflect developing practices and procedures (GC § 7286(b)).

300.15 POLICY AVAILABILITY

The Chief of Police or the authorized designee should ensure this policy is accessible to the public (GC § 7286(c)).

300.16 PUBLIC RECORDS REQUESTS

Requests for public records involving an officer's personnel records shall be processed in accordance with PC § 832.7 and the Personnel Records, Personnel Complaints, and Records Maintenance and Release policies (GC § 7286(b)).

Fresno Police Department Policy Manual Pepper Projectile Systems

301 Pepper Projectile System

301.1 POLICY

In order to control subject(s) who are violent or who pose an immediate threat, the Fresno Police Department authorizes officers to use Pepper Projectile Systems (PPS) in accordance with the guidelines in this policy and the Use of Force Policy.

301.1.1 PURPOSE AND SCOPE

When properly applied in accordance with this policy and training received, the PPS is considered a less-than-lethal control device that is intended to control a subject who poses an immediate threat, while minimizing the risk of injury to officers and suspects.

Officers issued a PPS should carry them in the field, ensuring immediate access when necessary. The PPS is issued for use during a member's current assignment.

301.2 USE OF THE PEPPER PROJECTILE SYSTEM (PPS)

As with any law enforcement equipment, the PPS has limitations and restrictions requiring consideration before its use. The PPS should only be used when its operator can safely approach the subject within the operational range of the PPS. Although the PPS is generally effective in controlling most individuals, members should be alert to the potential for failure and be prepared with other options.

301.2.1 CARRYING THE PPS

Only PPS & pepper munitions issued by the Department shall be used by officers and only after they have successfully completed a Department approved PPS training course on its proper use and deployment. Officers shall, at minimum, be re-certified with the PPS once every two years, or more frequently if required by the manufacturer of the PPS. Officers shall store and transport the PPS in the original manufacturers hard transport case, as issued by the Fresno Police Department Regional Training Center. Any other method of transportation or carry case (to include soft cases specifically designed for rifles or shotguns) do not provide the required protection or support for the HPA tank which could compromise the system's integrity. Damage to the HPA tank could potentially injure the end user, and as such, any carry case not approved by the Training Center is prohibited for use for the PPS.

While on duty the PPS shall be secured in the designated, locked container of the vehicle (e.g., inside of patrol vehicle). When not on-duty, officers shall secure the PPS inside the gun safe at their designated dressing station.

301.2.2 VERBAL WARNINGS

A verbal warning of the intended use of the PPS should precede its application, unless it would otherwise endanger the safety of members or when it is not practical due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply; and
- (b) Provide other members and individuals with a warning that a PPS may be deployed.

The fact that a verbal and/or other warning was given, or the reasons it was not given, shall be documented by the member deploying the PPS.

301.2.3 TARGETING CONSIDERATIONS

While manufacturers generally recommend that reasonable efforts should be made to target lower center mass and to avoid intentionally targeting the head, neck, chest, spine, and groin, it is recognized that the dynamics of each situation and officer safety may not permit the member to limit the application of the PPS to a precise target area. Members using a PPS should not intentionally target those areas, except

when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

301.3 APPLICATION OF THE PPS

Authorized members may use the PPS when circumstances known to the member at the time indicate that such application is reasonable to control a person in any of the following circumstances:

- (a) A violent or physically resisting subject; or
- (b) A subject who, by words or action has demonstrated an intention to be violent or who poses an immediate threat to officers, themselves or others.
 - 1) When practical, the member should give a verbal warning of the intended use of the PPS followed by a reasonable opportunity to voluntarily comply.

301.3.1 DEPLOYMENT CONSIDERATIONS

When using the PPS, officers should carefully consider potential impact areas in order to minimize injuries and unintentional targets. Before discharging projectiles, the officer should consider such factors as:

- (a) Distance and angle to target;
- (b) Type of munitions employed;
- (c) Type and thickness of subject's clothing;
- (d) The subject's proximity to others;
- (e) The location of the subject; and
- (f) Whether the subject's actions dictate the need for an immediate response and the use of control devices appears appropriate.

A verbal warning of the intended use of the PPS should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. Repeated verbal warnings should be used and attempted in various languages when reasonable and feasible.

301.3.2 SPECIAL DEPLOYMENT CONSIDERATIONS

The use of the PPS should generally be avoided in the following situations unless the totality of the circumstances indicate that other available options reasonably appear ineffective, impractical, or would present a greater danger to the member, the subject or others, and the member reasonably believes that the need to control the individual outweighs the risk of using the PPS. This includes:

- (a) Pregnant females;
- (b) Elderly individuals or obvious juveniles;
- (c) Individuals who are handcuffed or otherwise restrained; or
- (d) Individuals whose position or activity may result in collateral injury (e.g., falls from height, operating vehicles).

301.3.3 DANGEROUS ANIMALS

The PPS may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

301.3.4 MEDICAL TREATMENT

Persons who have been sprayed with or otherwise affected by the use of OC spray or pepper munitions should be promptly provided with clean water to cleanse the affected areas. The subject(s) may be treated on scene or by EMS and then taken to FCJ. Subject(s) who have been struck with a PPS projectile, shall be transported to the hospital for clearance prior to booking at FCJ. Subject(s) who are saturated (meaning exposed to the chemical agent) with the PPS may be cleared on scene by EMS. In both cases, EMS shall be requested for subject(s) exposed to or impacted with the PPS.

Members should take prompt and ongoing care to monitor the condition of the subject if one or more pepper munitions strike the head, neck, chest, or groin until they are released to the care of paramedics or other medical personnel.

301.4 REPORT OF USE

All PPS discharges shall be reported to a supervisor as soon as practical and documented in the related police report.

301.4.1 MEMBERS RESPONSIBILITIES

The police report shall include:

- (a) The complete circumstances surrounding the use of a PPS;
- (b) Name of the Department member using the PPS;
- (c) Verbal warnings if given or reason for not doing so;
- (d) Number of applications; and
- (e) Location and description of application sites.

When possible, Department members shall request the Crime Scene Investigation Bureau (CSIB) respond to the scene or to the medical facility for photos of injuries or impact sites. All accidental discharges shall be documented as above in a Synoptical Report.

Spent pepper munitions still have the irritating effect of OC so any remnants or spent pepper munitions will not be collected. Members shall request CSIB respond to photograph the scene including any spent pepper munitions.

301.4.2 SUPERVISOR RESPONSIBILITIES

Supervisors shall prepare a Use of Force Form and forward through the supervisor's chain of command via IA Pro BlueTeam.

301.5 CROWD CONTROL

Use of PPS may be considered for use to bring under control an individual or groups of individuals who are engaging in or are about to engage in violent or criminal behavior.

In crowd control situations, the Chief of Police (or their designee) shall have the overall authority on the use and deployment of pepper projectiles. Requests for a pepper projectile control device (in response to crowd control situations) shall be made through the Special Events Unit Supervisor. Only members with POST certified PPS training shall use PPS in crowd control situations.

301.6 POST APPLICATION NOTICE

Whenever pepper projectiles or OC have been introduced into a residence, building interior, vehicle or other enclosed area, officers should provide the owners or available occupants with notice of the possible presence of residue that could result in irritation or injury if the area is not properly cleaned. Such notice should include advisement that cleanup will be at the owner's expense. Information regarding the method of notice and the individuals notified should be included in related reports.

301.7 TRAINING FOR PPS

The Training Manager shall ensure that all members who are authorized to carry a PPS have been properly trained and certified to carry the specific control device and are retrained or recertified as necessary.

- (a) Proficiency training shall be monitored and documented by a certified, control-device weapons or tactics instructor.
- (b) All training and proficiency for control devices will be documented in the officer's training file.
- (c) Officers who fail to demonstrate proficiency with the control device or knowledge of the Use of Force Policy will be provided remedial training. If an officer cannot demonstrate proficiency with a control device or knowledge of the Use of Force Policy after remedial training, the officer will be restricted from carrying the control device.

(d) Officers shall demonstrate proficiency in use of the PPS on an annual basis.

301.7.1 EQUIPMENT AND CONTROL RESPONSIBILITIES

The Rangemaster or designated unit shall control the inventory and issuance of all PPS and shall ensure that all damaged, inoperative, outdated or expended control devices or munitions are properly disposed of, repaired or replaced.

Every PPS will be periodically inspected by the Rangemaster or the designated instructor for a particular control device. The inspection shall be documented.

301.8 USER RESPONSIBILITIES

All normal maintenance and cleaning shall remain the responsibility of members using the various devices. Any damaged, inoperative, outdated or expended PPS or munitions, along with documentation explaining the cause of the damage, shall be returned to the Rangemaster for disposition. The member's supervisor shall investigate the circumstances surrounding the damage/loss and complete a BlueTeam entry including:

- (a) A completed Inquiry/Complaint Form (ICF), or Receipt of Complaint (ROC) memo;
- (b) Loss Notice Report; and
- (c) All other related documentation.

Fresno Police Department Policy Manual

Burglaries, Thefts & Alarms

303.1 POLICY

Unless advised otherwise by a reporting party, members will respond to all burglary, theft and alarm calls for service, as though they were "in progress", exercising caution and making safety a priority.

303.1.1 PURPOSE AND SCOPE

Property crimes although given a sometimes lower priority, should always be respected as being unpredictable and potentially dangerous. There are few extenuating circumstances that would exempt or preclude one from exercising these cautions.

303.2 BURGLAR ALARMS AND BURGLARIES IN PROGRESS

303.2.1 INITIAL RESPONSE

A minimum of two officers should be dispatched to a call of a silent burglar alarm or burglary in-progress. As soon as possible after arrival, officers shall determine the security of the premises and request, or cancel, additional assistance as necessary.

303.2.2 CHECKING PREMISES

Upon arrival at calls of burglary in-progress or burglar alarms, officers shall make every reasonable effort to determine that no burglary has taken place by checking all points of possible entry, including the roof of the building.

When a portion of the building is inaccessible and cannot be checked, officers should attempt to make arrangements to have such areas checked by the alarm company, the building owner, or other party responsible for the premises.

Officers are not required to stand by for the arrival of the alarm company or owner when the premises check secure.

Officers shall not ask the ComCen to contact the alarm company to determine if they should stand by but shall immediately return to service upon verifying the security of the building and complying with the false alarm notification.

303.2.3 SEARCH OF PREMISES

When entry is suspected or when there is reason to believe that a suspect is still inside:

- (a) At least two officers shall be posted at opposite corners on the exterior of the premises to secure against exit attempts by suspects;
- (b) At least two officers or an officer and K-9 shall search the interior of the premises until the suspect(s) is apprehended or is determined to be gone;
- (c) Officers shall exercise every precaution to prevent the destruction of evidence during the search; and
- (d) Uniformed officers should conduct searches of burglarized premises. When it is necessary to use plainclothes officers, they shall wear their badge or other Department issued identification on their outermost garments.

303.2.4 NOTIFICATION OF OWNER AND ALARM COMPANY

As soon as possible after arrival at an audible alarm, the officer shall notify the ComCen of the name of the responsible alarm company, and whether or not it appears entry was made.

When damage or entry is detected, the alarm company shall be requested to respond and the owner should be notified. If the alarm company cannot reach a responsible party, the officer shall enter notes into the event describing the damage or point of entry and secure the premises as described in Section

303.3 below. A business card with the event number on it shall be left in a conspicuous and secure place near the main door or gate.

When an alarm has been sounding for more than 30 minutes, the location checks secure, and the officer is unable to contact the owner or alarm agent, the officer shall include notations in the event documenting this fact and return to service.

303.2.5 FALSE ALARM NOTIFICATION

When a false alarm has occurred, a False Alarm Notification card shall be completed.

- (a) The card shall be left in a conspicuous and secure place near the main door or gate.
- (b) Officers shall make a note in the event report that a card was left;
- (c) The disposition code "E" for a false alarm call shall be used to clear the event.

303.3 SECURING OPEN PREMISES

Members encountering an unsecured building shall attempt to contact a responsible party to have them respond to secure the premises.

- (a) Upon successful contact, the officer shall stand by the premises until the responsible party arrives, when a reasonable ETA is given by the party.
- (b) When the ETA is an unreasonable amount of time, the responsible party shall be advised that the officer will not stand by and that they must make their own arrangements for a private guard or other security.

303.3.1 OWNER'S RESPONSIBILITY

When an owner of a burglarized premise refuses to respond after notification by either the Department or the alarm company, members should return to service upon completion of their investigation.

303.3.2 OWNER UNAVAILABLE

The ComCen shall notify the City contracted vendor to board up any private residence currently being lived in or any operating business which requires temporary securing. A security guard may be used to stand by these structures when the City contracted vendor is unable to secure the structure. When a requested security guard arrives at an unsecured premise the member shall be released from the location. The name of the guard shall be included in the member's report.

303.3.3 SECURING VACANT STRUCTURES

The FFD is responsible for arranging for permanent securing of vacant commercial structures.

- (a) The ComCen shall notify the Fire Prevention Bureau of the need to secure such a structure.
- (b) A security guard will not be required to secure the structure unless there is property of value contained within.

The securing of vacant apartment buildings and vacant residential structures is the responsibility of the City Attorney's Office – Community Compliance Unit (Code Enforcement).

- (a) Security guards shall not be used to secure these structures.
- (b) When a member finds a vacant apartment or residential structure unsecured they shall notify ComCen of the circumstances.
- (c) The ComCen shall notify the Housing Standards Office of the Community Compliance Unit of the unsecured structure.

303.3.4 SECURITY GUARD PROTOCOLS

When a guard is requested by a Department member, they shall remain at the scene until one of the following occurs:

- (a) A person responsible for the business is contacted by the ComCen and responds or declines to take control of the premises;
- (b) At 0800 hours, the guard is to call the ComCen when no responsible party has responded. The ComCen will contact Facilities Maintenance to respond to secure the premises; and
- (c) The guard will notify the ComCen once the building is secured.

303.4 BURGLARY AND THEFT VICTIM FORM LETTERS

Members conducting an initial investigation of a burglary shall furnish a Burglary/Theft Form Letter to the victim.

- (a) The form letter shall also be distributed to victims of all petit and grand thefts;
- (b) The issuing member shall complete the blanks on the front of the form and instruct the victim on the use of the letter; and
- (c) Members shall include the fact that a letter was left with the victim in their report of the incident.

When a theft call is handled telephonically, a form letter shall be mailed to the victim when there is any possibility that the victim may discover, at a later time, additional property taken during the theft.

The form letter shall never be given to a victim for the purpose of documenting property known to be missing at the time of the original investigation. All such property shall be listed in the member's original investigative report.

The letter is used solely to provide additional information about already reported stolen items (e.g., serial numbers) or to report property not known to be stolen at the time of the original investigation.

The Burglary/Theft Form Letter may be submitted by the victim by mail or the victim can add the property information by completing a supplemental report through the online reporting system. Except under unusual circumstances, a Supplemental Report should not be taken to document missing property which was not described at the time of the original report if the form letter was submitted by the victim. The form letter should be used instead.

303.5 TELETYPE ENTRY OF STOLEN, FOUND, RECOVERED, AND LOST PROPERTY

Whenever a report is received of any stolen, lost, found, or recovered property, or property under observation, which has a known serial or owner applied number, the reporting member shall complete the property section of the report in Axon Records and include an adequate description of the item(s) including serial number (Penal Code §11108). The property information shall be forwarded to Teletype through Axon Records.

Reports of nonserialized stolen property, which has unique characteristics or inscriptions permitting accurate identification, shall also be sent to the Department of Justice by teletype. The property tab in Axon Records shall be completed with sufficient detail to permit identification of the item. The property information shall be forwarded to Teletype through Axon Records.

304.1 POLICY

De-escalation is the process of using strategies and techniques intended to decrease the intensity of a situation. De-escalation is employed in an effort to increase the likelihood of voluntary compliance and achieve cooperation. The process of de-escalation can improve the safety of officers, subjects and others, and reduce the potential likelihood of injuries, improve community relations, and reduce citizen complaints.

304.2 PURPOSE SCOPE

It is the policy of this Department that when all the reasonably known circumstances indicate it is safe, prudent, and feasible to do so, an officer(s) shall by means of de-escalation strategies and techniques, attempt to slow down, or stabilize an incident. The use of de-escalation strategies and techniques in such circumstances may result in more time, options, and/or resources to become available for incident resolution. It must also be recognized that when de-escalation strategies and techniques are applied, force may still be required to resolve an incident. However, de-escalation may result in the use of lower levels of force than if no de-escalation tactics/techniques are utilized.

304.3 DE-ESCALATION OPTIONS

De-escalation may take many forms and can vary greatly from incident to incident. Officers are encouraged to creatively problem-solve to find and employ de-escalation strategies and techniques which are focused on protecting life, limiting force, respecting the dignity of others, enhancing safety to all involved, and completing the law enforcement mission. A selection of any de-escalation option, included in this policy or not, should be guided by the totality of the circumstances with the goal of attaining voluntary compliance. Options to de-escalate a situation include, but are not limited to those listed below:

304.3.1 EXAMPLES OF DE-ESCALATION OPTIONS

- a) Staging, planning, and/or coordinating prior to engaging a subject or incident.
- b) Calling for more resources: (Time)
 - 1. Additional officers
 - 2. Requesting specialized unit; (Negotiators, CIT, Tactical Unit, MH Units, etc.)
 - 3. Bi-lingual officers
 - 4. Staging EMS
- c) Utilizing available barriers between the subject and officers. (Shielding)
- d) Containing and/or limiting the movements of the subject.
- e) Communicating with the subject from a safe position by: (Communication)
 - 1. Using verbal persuasion and explanation to promote rational decision making.
 - 2. Giving clear direction and allowing the subject time to comply.
- f) Reducing the officer's threat of danger or exposure by moving to a safer position, considering:
 - 1. Distance
 - 2. Cover
 - 3. Concealment
- g) Short term disengagement to create more time to observe the subject and plan for re-deployment/re-engagement.
- h) Any other tactics that attempts to achieve the law enforcement objective by gaining voluntary compliance of the subject.

304.3.1.2 ADDITIONAL FACTORS FOR CONSIDERATION

Officers may need to consider additional options/factors in their attempts to de-escalate the situation. These factors include for example:

- a) Factors that may tend to decrease or increase the intensity of a situation for the subject(s) and/or officer(s).
- b) Limitations to the officer's ability to communicate with the subject(s).
- c) Environmental considerations ; and
- d) Potential complete disengagement when it is in the best interest of all involved.

304.4 DE-ESCALATION PRINCIPLES

An officer's awareness of these options, when time and circumstances reasonably permit, shall then be balanced against the facts of the incident and which options are viable and appropriate to potentially bring the situation to a safe resolution. An officer is not expected to engage in de-escalation measures that jeopardize the safety of the community or of any employee. De-escalation options are continuously evolving, and the Department encourages creative, thoughtful de-escalation strategies to resolve situations. Some of the de-escalation strategies and techniques utilized by the Department include those listed below:

304.4.1 COMMUNICATION

Communication is often the most effective de-escalation technique. It involves the following not all-inclusive, ideologies:

- (a) Calm and respectful tone and body language.
- (b) Avoidance of taunting or insults that could escalate the incident.
- (c) Clear instructions and commands.
- (d) Active listening, repetition, and indication of understanding.
- (e) Assessing and overcoming language barriers.
- (f) Clearly communicate the consequences of resistance.
- (g) Considering whether lack of compliance is a deliberate attempt to resist and/or inability to comply based on the following, but not limited to:
 - 1. Medical conditions
 - 2. Mental impairment
 - 3. Developmental disability
 - 4. Physical limitation
 - 5. Language barrier
 - 6. Drug interaction
 - 7. Behavioral crisis
 - 8. Fear or anxiety
- (h) Non-verbal communication when a verbal warning is inadequate (unable to speak English, unable to hear or speak)
- (i) Giving the subject a reasonable amount of time to comply with commands.

304.4.2 ISOLATION/CONTAINMENT

Isolating the engaged person and containing the engaged person are both important aspects of de-escalation. These techniques limit the exposure of the public to the engaged person and allow officers to lower the number of variables that they are attempting to control during the encounter. Isolation/Containment include actions such as:

- (a) Separating parties in disputes.
- (b) Handcuffing or restraining an agitated person to prevent their agitation from turning to active resistance, if appropriate.
- (c) Placing barriers between officers and uncooperative persons.
- (d) Police perimeters and limiting access to the scene.
- (e) Using additional personnel to cover possible escape routes.
- (f) Transitioning situation from dynamic to static by limiting access to unsecured areas, limiting mobility, and preventing the introduction of non-involved community members.

304.4.3 TIME, DISTANCE AND COVER

Time, distance, and cover may allow officers additional time to assess the totality of the incident, including resistance, and to formulate a response. The main goal of using time, distance and cover to de-escalate the situations is to slow the momentum of an incident to allow for more time, options, and resources to become available. Time, distance, and cover may be enhanced by utilizing additional resources. (CIT, NST, Negotiators, MH Units, etc.)

- b) Avoidance or minimization of physical confrontation, unless necessary.
- c) Using cover and concealment as a tactical advantage.
- d) Placing barriers.
- e) Identifying and using natural barriers.
- f) Long distance force options.
- g) Less lethal force options.
- h) Armored vehicles.

When deciding on which option/principle to use in any given situation, officers should ensure they are still complying within the law and under the guidelines of Policy § 300.

304.5 DISENGAGEMENT

Disengagement is the decision to leave, delay contact, delay arrest, or plan to make contact at a different time and under different circumstances. This tactic should be considered when an officer reasonably believes continued contact may result in unreasonable risk to the subject, the public, and/or department members. Members may choose to tactically disengage to avoid using force when the danger to the subject by self-harm is no longer imminent or the risk to members of the community, including officers, has been mitigated. This is especially true during events where no criminal violation has taken place.

Officers should continually assess the situation as circumstances change and new information is received, to determine if disengagement would be an appropriate and viable de-escalation technique. The analysis of whether to disengage from a situation should consider the seriousness of the offense or situation and the risk to the public if police response is abandoned or delayed.

Members can use tactical disengagement to afford themselves additional time so a plan can be created allowing for the contact or arrest at a time or location which is more likely to end in a positive outcome for all parties. Tactical disengagement can be initiated by an officer with supervisory approval, a sergeant or field commander.

304.5.1 STEPS FOR DISENGAGEMENT

- Prior to clearing the event, members should consult with the legal advisor regarding their intent to disengage from the call.
- Officers should not make any promises to family, loved ones or community members.
- The following is the departments disengagement advisement to be given to those individuals who have been contacted during the incident:

“THE FRESNO POLICE DEPARTMENT IS GIVING NOTICE TO YOU (SUSPECT) NEIGHBORS, AND ALL PERSONS DIRECTLY AFFECTED BY THIS EVENT THAT AFTER CONSIDERING THE FACTORS AFFECTING THE SAFETY OF ALL CONCERNED THE BEST COURSE OF ACTION IS FOR THE DEPARTMENT PERSONNEL TO DISENGAGE AND WITHDRAW FROM THE VICINITY. YOU NEED TO USE YOUR OWN JUDGEMENT AND TAKE NECESSARY MEASURES TO PROTECT YOURSELVES IN OUR ABSENCE. IF A NEW EMERGENCY DEVELOPS CALL 911”

- Document the steps/actions you have taken by BWC and in report.

- Document contact with RPs, subjects, etc. whether in person, by phone or via electronic device by BWC.
- Upon clearing the call, members shall notify the Crisis Intervention Team (CIT@fresno.gov) of the decision to disengage so additional follow up and resources can be provided to the subject at a time when he/she is not in an immediate crisis.
- If the decision to tactically disengage involves a subject involved in a crime, additional notifications should be made to the affected detective unit so criminal follow up, or arrest, could be conducted at a time more advantageous for department members.
- Leave the Department of Behavioral Health "Mental Health Crisis Call Checklist" with those contacted in relation to the call (attached)

For more information regarding disengagement, officers are encouraged to refer to Policy § 300 and Roll Call Training Bulletin 20-03.

304.6 REVIEW DOCUMENTATION

All de-escalation strategies and techniques should be documented in the appropriate report relating to the incident. When de-escalation techniques are related to a use of force Blue Team entry, the supervisor shall explain the manner and efforts of de-escalation strategies and techniques employed, in incidents where de-escalation strategies and techniques were deemed to not be feasible or safe, the report should provide a detailed account of the totality of the circumstances that precluded attempts to de-escalate the situation. Notably an officer's attempts to achieve subject cooperation may not always be successful. Thus, a lack of the use of de-escalation strategies or techniques, or the failure of same to achieve the subject cooperation, shall not be used to determine whether a use of force was justified or not.

304.7 TRAINING

Officers, investigators, and supervisors will receive periodic training on this policy and demonstrate their knowledge and understanding (GC § 7286(b)). Subject to available resources, the Training Unit Commander should ensure that officers receive periodic training on de-escalation tactics, including alternatives to force.

Training should also include (GC § 7286(b)):

- (a) Guidelines regarding vulnerable populations, including but not limited to children, elderly persons, pregnant individuals, and individuals with physical, mental, and developmental disabilities.
- (b) Training courses required by and consistent with POST guidelines set forth in (Penal Code § 13519.10.; PC § 1106.4; PC § 13515.25; PC § 13515.27; PC § 13515.30)

305.1 POLICY

All reports of vehicle thefts shall be investigated to the fullest potential allowed by available resources as outlined within this policy.

305.1.1 PURPOSE AND SCOPE

Members shall reasonably attempt to contact the party reporting a vehicle theft and the registered owner of the vehicle being investigated. Members shall attempt to determine the disposition of the vehicle and report the appropriate related crime and disposition (e.g., possible stolen, stolen, possible embezzled, impounded, repossessed, recovered, etc.)

305.2 PRELIMINARY INVESTIGATION

Members shall determine if the payments are current and there is no possibility of repossession.

- (a) Where repossession is possible, members shall contact the Records Section to determine if the vehicle has been reported as repossessed (VC §28).
- (b) No report is written when a vehicle has been repossessed.

Members shall determine the location from which the vehicle is missing.

- (a) When the location is on private property or another area where the vehicle might have been illegally parked, members shall attempt to determine if the vehicle was impounded for a parking violation.
- (b) Members shall contact the Records Section to check for any pending entries not yet entered into teletype of vehicles removed from private property. Members shall also check with the ComCen to determine if a tow truck had been dispatched to the location of the missing vehicle on an illegal parker call.

305.3 STOLEN VEHICLES

For the purposes of this policy, a vehicle is defined as a device by which any person or property may be propelled, moved, or drawn upon a highway excepting a device moved exclusively by human power or used exclusively upon stationary rails or tracks. (VC §670). Vehicles taken without the permission of the owner, whether the suspect is known to the victim or not, will be documented as a stolen vehicle. Teletype shall be notified of all stolen vehicles so they may be immediately entered into the Stolen Vehicle System (SVS) pursuant to VC §10500(a) and PC §11108.

Possible stolen vehicles shall be documented as a General Incident (GICAT – CCATT). Possible stolen vehicles are NOT entered into the Stolen Vehicle System (SVS). These reports shall be routed to the Career Criminal Auto Theft Team (CCATT) for further investigation and possible upgrading. If the case is upgraded to a vehicle theft, CCATT detectives will have the vehicle immediately entered into SVS.

305.4 STOLEN VEHICLE PARTS

A Vehicle Part is defined as any serially-numbered component from a vehicle. Stolen vehicle parts with a unique serial (SER) or owner applied numbers (OAN) shall be entered into the Automated Property System (APS). Stolen license plates shall be entered into the Stolen Vehicle System (SVS).

305.5 EMBEZZLED VEHICLES

When the owner (including car dealers) of a vehicle gave permission for a person, whose identity is known to them, to use the vehicle and the person has not returned or will not return the vehicle, the member shall write a General Incident (GIEMB – Embezzled Vehicle) report. The victim must be willing to:

- (a) Pursue a criminal complaint against the suspect(s); and

- (b) Contact the assigned Career Criminal Auto Theft Team (CCATT) detective to request the criminal complaint; and
- (c) Pay for towing and storage of their vehicle when located by a law enforcement agency.

CCATT detectives will review the case to determine if it should be upgraded from a General Incident to an Embezzled Vehicle (PC §503) crime report. If upgraded, CCATT detectives will forward the case with an arrest warrant to the Fresno County District Attorney's Office for review. If a criminal complaint is filed and the arrest warrant is issued, CCATT detectives will have the vehicle entered into the Stolen Vehicle System (SVS) with a notation in the miscellaneous field of "Embezzled Vehicle." Alternatively, CCATT detectives may choose to submit a Ramey warrant for the embezzlement suspect. Once the Ramey warrant is issued, the vehicle will be entered into SVS. When the RP/victim does not know the identity of the person to whom they gave permission to use their vehicle, and there are no investigative leads allowing for the identification of the person, no report shall be taken.

305.5.1 EMBEZZLED LEASED OR RENTAL VEHICLES

When a person who has leased or rented a vehicle willfully and intentionally fails to return the vehicle to its owner within 72 hours after the lease or rental agreement has expired, the member shall write an Embezzled Vehicle (VC §10855) report with the classification of "Leased Vehicle" or "Rented Vehicle."

Prior to a crime report being taken, the owner of the embezzled leased or rented vehicle shall:

- (a) Make attempts to contact the other party to the lease or rental agreement who has failed to return the vehicle using the contact method designated in the rental agreement for this purpose. If the owner is able to contact the party, the owner shall inform the party that if arrangements for the return of the vehicle that are satisfactory for the owner are not made, the owner may report the vehicle stolen to law enforcement. If the owner is not able to contact the other party after a reasonable number of attempts, or, if upon contacting the other party, the owner is not able to arrange for the satisfactory return of the vehicle, the owner may report the vehicle stolen;
- (b) The lease or rental agreement shall disclose that failure to return the vehicle within 72 hours of the expiration of the lease or rental agreement may result in the owner reporting the vehicle as stolen and shall require the lessee to provide a method to contact the lessee if the vehicle is not returned; and
- (c) Provide a copy of the lease or rental agreement and written documentation of the contact attempts to the reporting member.
- (d) If the owner of a vehicle that has been leased or rented discovers that it was procured by fraud, the owner is not required to wait until the expiration of the lease or rental agreement to inform law enforcement.
 - 1) A vehicle procured by fraud shall be entered into the Stolen Vehicle System (SVS) as a stolen vehicle pursuant to VC §10851(a).

The reporting member shall:

- (a) Provide the leased or rented vehicle information to Teletype so the vehicle can immediately be entered into the Stolen Vehicle System (SVS) with a notation in the miscellaneous field of "Embezzled Leased/Rental Vehicle."
- (b) Attach copies of the rental agreement, copies of any identification and payment information used by the renter and written documentation of the contact attempts to the crime report.
- (c) Obtain and upload surveillance video into Axon or provide an Axon Capture link to the vehicle owner so they may upload the video evidence.

305.6 REPORT TITLES/NIBRS UCR CODE

Reports of Vehicle Theft shall be titled VC §10851 with a NIBRS Code of 240. Reports involving a vehicle stolen in a burglary (from a garage, warehouse, etc.) shall be titled PC §459 with a NIBRS Code of 220. Reports involving a vehicle stolen in a carjacking shall be titled PC §215(a) with a NIBRS Code of 120. Reports involving an embezzled vehicle shall be titled GIEMB – EMBEZZLED VEHICLE (Exception: CCATT may title PC §503) or VC 10855(a) for embezzled leased or rented vehicles with a NIBRS Code of 270.

305.7 MULTIPLE VEHICLE THEFTS

When more than one vehicle is stolen at the same time by the same person(s), a single report (case number) and narrative shall be written. Each vehicle shall be submitted to Teletype.

305.8 REPORTING DEALER LICENSE PLATES

When taking reports involving dealer license plates, members shall obtain not only the number on the center of the plate, but also the two-digit number in the lower right-hand corner of the plate.

305.9 BOATS AND TRAILERS

When a boat and trailer are stolen, the incident shall be reported as a vehicle theft. Each shall be entered separately as stolen – the trailer is entered into the Stolen Vehicle System (SVS) and the boat is entered into the Automated Boat System (ABS). A boat stolen without a trailer is not a vehicle theft and shall be reported as a theft only.

305.10 NOTIFICATION OF TELETYPE

Members shall notify Teletype via Axon Records of all stolen vehicles, stolen license plates and stolen vehicle parts prior to clearing their event. This is accomplished by selecting the 'Submit to Teletype' button on the vehicle tab once all pertinent information is entered. When Axon Records is unavailable, the member shall phone Teletype with this information for a worksheet. Teletype shall immediately enter all stolen vehicles, stolen license plates and stolen vehicle parts into the Stolen Vehicle System (SVS) and Automated Property System (APS) upon receipt of the theft information pursuant to VC §10500(a) and PC §11108.

Fresno Police Department Policy Manual

Handcuffing and Restraints

306.1 POLICY

The Fresno Police Department authorizes the use of handcuffs and auxiliary restraint devices. All restraint devices shall be used in accordance with this policy, Use of Force related policies and Department training. Restraint devices shall not be used to punish, to display authority or as a show of force. The Fresno Police Department and its members will comply with § AB 490 and § Govt. Code 7286.5.

306.1.1 PURPOSE AND SCOPE

This policy provides guidelines for the use of handcuffs and other restraints during detentions, arrests, and transports.

306.2 DEFINITIONS

Auxiliary Restraint Devices – Transport belts, waist or belly chains, transportation chains or leg irons and other similar devices used during transport as an additional security and safety measure.

Hog-tie – Refers to the binding of the ankles to the wrists, in close proximity with less than 12” of length between them, behind the back while leaving a subject in the prone or “belly down” position. Officers shall not use the hog-tie method to restrain a suspect.

306.3 USE OF RESTRAINTS

Only members who have successfully completed Fresno Police Department-approved training on the use of restraint devices described in this policy are authorized to use these devices. Only Department-approved restraint devices and Department-authorized methods shall be utilized to restrain individuals that meet the criteria.

When deciding whether to use any restraint device, officers should carefully balance officer safety concerns with factors that include, but are not limited to:

- (a) The circumstances or crime leading to the arrest;
- (b) The demeanor and behavior of the arrested person;
- (c) The age and health of the person;
- (d) Whether the person is known to be pregnant;
- (e) Whether the person has a hearing or speaking disability. In such cases, consideration should be given, safety permitting, to handcuffing in front to allow the person to sign or write notes; and
- (f) Whether the person has any other apparent disability.

306.4 APPLICATION OF HANDCUFFS

Handcuffs (including temporary nylon or plastic cuffs, e.g. Flex Cuffs), may be used only to restrain a person's hands to ensure officer safety.

The following applies when a person is initially arrested and during the transportation of an arrestee:

- (a) Suspects arrested for felonies shall be handcuffed. Disabled or injured suspects shall be controlled as safely as possible with proper consideration for their condition;
 - 1) Persons who are known to be pregnant should be restrained in the least restrictive manner that is effective for officer safety. No person who is in labor, delivery, or recovery after delivery shall be handcuffed or restrained except in extraordinary circumstances and only when a supervisor makes an individualized determination that such restraints are necessary for the safety of the arrestee, officers, or others (Penal Code §3407; PC §6030);
 - 2) Juveniles under 14 should not be restrained unless suspected of a dangerous felony, or the officer reasonably suspects the juvenile may resist, attempt to escape, injure themselves or others, or damage property;

- (b) Suspects arrested for misdemeanors may be handcuffed at the discretion of the arresting officer. The arresting officer shall take appropriate measures to prevent escape or harm to other persons;
- (c) When applying handcuffs, the subject's hands should be secured behind their back with the palms facing outward;
- (d) The handcuffs shall be double-locked whenever possible;
- (e) Officers shall periodically inspect all handcuffed subjects to minimize the potential for injury from movement of the handcuffs; and
- (f) When one pair of handcuffs does not appear sufficient to restrain the individual, or may cause unreasonable discomfort due to the subject's size, officers should consider using an additional set of handcuffs.

Handcuffs should be removed as soon as it is reasonable or after the subject has been searched and is safely confined within the jail or within any holding cell designed to safely house that individual.

306.4.1 RESTRAINT OF DETAINEES

Situations may arise where it is reasonable to restrain a subject, and then subsequently release them without arrest after a brief investigation. In these situations, the following applies:

- (a) Such situations are generally considered detentions, rather than actual arrests;
- (b) Unless arrested, the use of restraints on detainees should continue only for as long as is reasonably necessary to assure the safety of officers and others;
- (c) When deciding whether to remove restraints from a detainee, officers should continuously weigh the safety interests at hand against the continuing intrusion upon the detainee; and
- (d) If a person is detained, then subsequently released after completion of that investigatory detention, officers are not required to complete a Certificate of Release Form, or a report for documentation. When a person is arrested and transported, but later released from criminal charges prior to booking or formal criminal filing, then that person will be released pursuant to PC §849(b) and Certificate of Release Form shall be completed. (refer to Policy §355).

306.4.2 ORANGE HANDCUFFS

The Department utilizes orange painted handcuffs that are limited to use by personnel assigned to transportation wagons/vans and the booking area of Crime Scene Investigation Bureau (CSIB). They are to be stored within the assigned transportation wagon/van or CSIB when not in use.

306.5 APPLICATION OF SPIT HOODS OR MASKS

Spit hoods or masks are temporary protective devices designed to prevent the wearer from biting and/or transferring or transmitting fluids (saliva and mucous) to others.

Officers utilizing spit hoods should ensure that the spit hood is fastened properly to allow for adequate ventilation and so that the restrained person can breathe normally. Officers should provide assistance during the movement of restrained individuals due to the potential for impaired or distorted vision on the part of the individual. Officers should avoid comingling individuals wearing spit hoods with other detainees.

Spit hoods may be placed upon persons in custody when the officer reasonably believes the person will bite or spit, either on a person or in an inappropriate place. They are generally used during application of a physical restraint, while the person is restrained, during or after transport.

Spit hoods should not be used in situations where the restrained person is bleeding profusely from the area around the mouth or nose, or if there are indications that the person has a medical condition, such as difficulty breathing or vomiting. In such cases, prompt medical care should be obtained. If the person vomits while wearing a spit hood, the spit hood should be promptly removed and discarded. Persons who have been sprayed with oleoresin capsicum (OC) spray should be thoroughly decontaminated including hair, head and clothing prior to application of a spit hood.

Those who have been placed in a spit hood should be continually monitored and shall not be left unattended until the spit hood is removed. Spit hoods shall be discarded after each use.

306.6 APPLICATION OF AUXILIARY RESTRAINT DEVICES

Auxiliary restraint devices include transport belts, waist or belly chains, transportation chains, leg irons and other similar devices. Auxiliary restraint devices are intended for use during long-term restraint or transportation. They provide additional security and safety without impeding breathing, while permitting adequate movement, comfort and mobility.

Auxiliary restraint devices should be used on all felony suspects transported in the transportation wagon/van as an additional security and safety measure. They are only authorized for use by personnel assigned to the transportation wagons/vans. Only Department-approved devices may be used. Any person in auxiliary restraints should be monitored during transport as reasonably appears necessary.

306.8 NOTIFICATIONS

Whenever an officer transports a person with the use of restraints other than handcuffs, the officer shall inform the jail staff upon arrival at the jail that restraints were used. This notification should include information regarding any other circumstances the officer reasonably believes would be potential safety concerns or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration) that may have occurred prior to, or during transportation to the jail.

306.9 DOCUMENTATION

If an individual is arrested, the use of handcuffs or other restraints shall be documented in the related report.

Officers should document the following information in reports, as appropriate, when restraints other than handcuffs are used on a person:

- (a) The factors that led to the decision to use restraints;
- (b) The types of restraint used;
- (c) The amount of time the suspect was restrained;
- (d) How the suspect was transported and the position of the suspect;
- (e) Observations of the suspect's behavior and any signs of physiological problems; and
- (f) Any known or suspected drug use or other medical problems.

306.10 TRAINING

Subject to available resources, the Training Manager should ensure that officers receive periodic training on the proper use of handcuffs and other restraints.

307.1 POLICY

Members shall prepare a crime report on petty thefts of gasoline, beverages, food, cigarettes, etc. from businesses only when:

- (a) A suspect is in custody; or
- (b) There is any information that may result in identification of the suspect (i.e. a vehicle license plate); or
- (c) There is evidence of another crime present which requires reporting.

307.1.1 PURPOSE AND SCOPE

This policy provides guidelines members will follow to investigate petty thefts / shoplifts effectively utilizing available resources.

307.2 COMCEN RESPONSIBILITIES

The Emergency Services Dispatcher (ESD) receiving a call of a petty theft from a commercial establishment shall screen the call using the criteria listed in the Policy §307.1.

- (a) When the call does not meet the crime report criteria, the ESD will direct the reporting party (RP) to the eReporting website located at <http://www.fresno.gov/reportcrime> to complete an eReport with the available information.
- (b) When the RP is aware of the eReporting procedure, they shall be advised to submit the eReport. A broadcast of suspect and suspect vehicle information should be made by the ComCen.

307.2.1 REPORTING PROCEDURES

Members shall prepare a crime report on petty thefts of gasoline, beverages, food, cigarettes, etc. from businesses only when:

- (a) A suspect is in custody; or
- (b) There is any information that may result in identification of the suspect (i.e. a vehicle license plate); or
- (c) There is evidence of another crime present which requires reporting.

307.2.2 STORE SECURITY ARRESTS OF ADULTS

When an adult is arrested by a member of a store security that participates in the Shoplifter Release Program, refer to Policy §354.

307.2.3 STORE SECURITY DETENTIONS / ARRESTS OF JUVENILES

When a juvenile is detained / arrested by a member of a store security that participates in the Shoplifter Release Program, refer to Policy §354.

307.3 EREPORTING

Gas stations, restaurants, and convenience stores will no longer be offered "Petty Theft Cards" to report the theft of gasoline, food, beverages or cigarettes. They will be directed instead to eReport the theft at <http://www.fresno.gov/reportcrime>.

This program shall only be used when the criteria in the Reporting Procedures section are not met.

Policy 308

Fresno Police Department Policy Manual Force Options

308 Force Options

308.1 POLICY

Department members shall only utilize force options authorized by the Department and in a manner consistent with training, to control violent or threatening suspects.

308.1.1 PURPOSE AND SCOPE

To reduce and minimize injuries to officers and suspects, the Department authorizes the use of selected force options.

308.2 AUTHORIZED FORCE OPTIONS

Only members who have successfully completed Department approved training and demonstrated proficiency in the use of any force option are authorized to carry and/or use the force option. All officers assigned to patrol functions or any officer taking any pre-planned enforcement action (e.g. warrant service, arrest, parole/probation search) shall have a less than lethal option on their person.

Exception: Weapons of Necessity

The Department authorized force options, in addition to the weapons of necessity as defined below, include the following:

308.2.1 BATON

Uniformed officers should take their baton to any call that has the potential for the use of force. The need to immediately control a suspect must be weighed against the risk of causing serious injury.

- (a) The head, neck, throat, spine, heart, kidneys, and groin should not be intentionally targeted except when the member reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the member or others.

308.2.2 OLEORESIN CAPSICUM (OC) SPRAY

Uniformed officers should take their issued OC spray to any call that has the potential for the use of force.

308.2.3 CHEMICAL AGENTS

Use of chemical agents for crowd control/dispersal or against barricaded suspects shall be based on the circumstances. The use of chemical agents against barricaded suspects shall be approved by the SWAT commander who will consider its appropriate use. The use of chemical agents for crowd control or crowd dispersal shall be approved by the Chief of Police unless necessary for the immediate preservation of human life.

308.2.4 PEPPERBALL PROJECTILE SYSTEM (PPS)

The use of Pepperball projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in or are about to engage in violent or criminal behavior.

[REDACTED] In crowd control situations, the Chief of Police (or their designee) shall have the overall authority on the use and deployment of pepper projectiles.

308.2.5 CAROTID RESTRAINT HOLD & POSITIONAL ASPHYXIA

Per GC § 7286.5(a) and Assembly Bill 1196 the Fresno Police Department does not authorize the use of a carotid restraint or choke hold by any peace officer. Per Government Code § 7286.5(a) and Assembly Bill 490, the Fresno Police Department does not authorize techniques or transport methods that involve substantial risk of positional asphyxia. GC § 7286.5(b)(4) defines positional asphyxia as "situating a person in a manner that compresses their airway and reduces the ability to sustain adequate breathing. This includes, without limitation, the use of any physical restraint that causes a person's airway to be compressed or impairs the person's breathing or respiratory capacity, including any action in which pressure or body weight is unreasonably applied against a restrained person's neck, torso, or back, or

positioning a restrained person without reasonable monitoring for signs of asphyxia.” Members should monitor subjects for signs of positional asphyxia, attempt to keep the person in a position that allows for adequate breathing and monitoring, provide medical aid, and request EMS.

308.2.6 PAIN COMPLIANCE / CONTROL HOLD TECHNIQUES

Pain compliance / control hold techniques may be effective in controlling a physically or actively resisting individual. Members utilizing any pain compliance/control hold technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance;
- (b) Whether the person can comply with the direction or orders of the officer; and
- (c) Whether the person has been given sufficient opportunity to comply.

308.2.7 BODY STRIKES

Utilizing a body part (i.e. Forearm, elbow, knee, etc.) as a striking device may be appropriate when circumstances necessitate the immediate use of this force option to effectively bring an incident under control.

308.2.8 LESS LETHAL IMPACT PROJECTILES

Less lethal impact projectiles are those munitions that are fired, launched or otherwise propelled that may reduce the likelihood of serious injury or death to the suspect. Less lethal impact projectiles include beanbag projectiles, launchable wooden, foam, or rubber batons, and rubber pellets.

- (a) Only Department authorized less lethal munitions shall be utilized in less lethal weapons. Less lethal munitions shall only be discharged from designated less lethal shotguns.
- (b) Members carrying less lethal shotguns will inspect the shotgun at the beginning of each shift to ensure that it is in proper working order and loaded only with approved less lethal munitions.
- (c) Storage of less lethal impact projectiles shall, when practical, be in accordance with manufacturer's recommendations.
- (d) Munitions that have been removed from their original container shall be clearly and conspicuously identified as less lethal to prevent confusion with lethal munitions.
- (e) The head and neck should not be intentionally targeted, except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.
- (f) Non-SWAT trained members shall not deploy less lethal shotgun ammunition as a distraction device or to increase visibility (i.e. Shooting out a window). Members considering the use of distraction devices in dangerous situations should contact a SWAT supervisor or commander.

Before discharging less lethal impact projectiles, the officer should consider such factors as:

- 1) Distance and angle to target;
- 2) Type and thickness of suspect's clothing;
- 3) The suspect's proximity to others;
- 4) The location of the suspect; and
- 5) Whether the suspect's actions dictate the need for an immediate response and the use of control devices appears appropriate.

308.2.9 CANINE (K-9) APPLICATION

The use of a Department K-9 with a trained handler may assist in providing specialized assistance in handling high risk calls, and locating criminal offenders, illegal narcotics, and dangerous explosives.

308.2.10 ELECTRONIC CONTROL DEVICE (ECD)

When properly applied in accordance with Policy §309, the (ECD) device is considered a non-deadly control device which is intended to temporarily incapacitate a violent or potentially violent individual without causing serious injury.

308.2.11 FIREARMS

The use of firearms is considered deadly force and shall be applied in accordance with Policy §300.

The above list is not meant to be all inclusive, as there may be other appropriate force options available to members during any given situation.

308.3 WHEN FORCE OPTIONS MAY BE USED

When a decision has been made to restrain or arrest a suspect, approved force options may only be used when their use appears reasonable under the circumstances. The safety of hostages, innocent persons, and officers takes priority over the safety of subjects engaged in criminal or suicidal behavior.

Members should take into consideration factors which would impair the subject's ability to comply with orders or place the subject at risk for sustaining significant injuries. These factors include age (children and elderly), pregnancy, physical or mental disabilities, and limited English proficiency.

A verbal warning, when feasible, should precede the application of the chosen force option, unless it would otherwise endanger the safety of members or when it is not practical due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply; and
- (b) To provide other members and individuals with a warning that the chosen force option may be deployed.

The fact that a verbal and/or other warning was given or the reasons it was not given shall be documented by the member deploying the force option.

Although force may be used to prevent a subject from swallowing evidence/narcotics, officers are discouraged from doing so except when necessary for the suspect's safety.

The application of any force option shall be discontinued once the officer determines that compliance has been achieved.

308.4 WEAPONS OF NECESSITY

Due to the immediacy with which a member must apply force, together with the absence of time and/or physical ability of the member to select alternative methods, it may be objectively reasonable for the member to apply that method of force most readily available to accomplish a legitimate law enforcement purpose.

308.5 MEDICAL TREATMENT

Prior to booking or release, members shall provide/seek appropriate medical assistance from EMS or CRMC for any person(s) who has:

- (a) Sustained visible injury;
- (b) Expressed a complaint of pain;
- (c) Been rendered unconscious (requires medical clearance from CRMC);
- (d) Received a ECD application (Medical treatment for ECD requires clearance from CRMC as outlined in Policy §309);
- (e) Been struck with less lethal impact projectiles (requires medical clearance from CRMC).

Exception: When O.C. spray or PPS is used, the subject may be treated on scene or by EMS, and then taken to FCJ. Subject(s) who have been struck with a PPS projectile, shall be transported to CRMC for clearance prior to booking at FCJ as outlined in Policy §301.

When possible, members should render CPR/First Aid consistent with training until EMS arrives. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, when practical, should be witnessed by another officer and/or medical personnel. If an audio recording is made of contact or an interview with the individual, any refusal should be included, if possible.

A Person who exhibits extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond physical characteristics and unusually high tolerance to pain or who require a protracted physical encounter with multiple officers to bring under control may be at an increased risk of sudden death. Calls involving these people should be considered medical emergencies and these individuals should be examined by qualified medical personnel as soon as practicable. Any

individual exhibiting signs of distress after such an encounter shall be medically cleared prior to booking. Officers shall not use the term “excited delirium” to describe a person in an incident report. Officers may describe the characteristics of an individual’s conduct, but shall not generally describe the individual’s demeanor, conduct, or physical and mental condition at issue as “excited delirium”.

308.6 USE OF FORCE TRAINING / CERTIFICATION

At least annually, members authorized to carry weapons shall receive in-service training on the Department’s use-of-deadly force policies, shoot/don’t shoot scenarios, and demonstrate proficiency with all approved deadly weapons that the member is authorized to use. In-service training for less lethal weapons and incident de-escalation shall occur at least every two years. Proficiency training shall be conducted by a certified weapons instructor.

308.6.1 WEAPON SAFETY

Officers shall never draw or display weapons unnecessarily or draw them in any public place except for official use.

The drawing, displaying, and firing of weapons are limited to range training and actual field situations. Actual weapons capable of firing shall not be used in simulated training exercises. When weapons are necessary to simulate police tactics, the Department will utilize trainer weapons that are incapable of being fired.

Exceptions to these weapons’ safety requirements are:

- (a) SWAT training simulations, due to the specialized weaponry utilized by SWAT personnel, combined with their increased level of training (This exception shall not relieve SWAT personnel from exercising sound weapons safety);
- (b) Department sanctioned and properly supervised simunitions training; or
- (c) Department sanctioned and properly supervised training utilizing other Department approved training munitions.

308.6.2 FAILURE TO DEMONSTRATE PROFICIENCY

When a member fails to demonstrate proficiency in the use of an authorized force option, they shall be provided with remedial training. If the member is unable to demonstrate proficiency after remedial training has been provided, an individualized remedial training plan shall be implemented. The member’s Division Commander shall be notified by the Training Section Supervisor via e-mail of the remedial training plan. Members who fail to complete the remedial training plan, or who fail to demonstrate a minimum level of proficiency, shall be referred to their Division Commander through the Training Section Commander. They will be assigned to modified duty until they are able to complete the remedial training plan and demonstrate proficiency in the use of the authorized force option. The Training Section Supervisor shall provide the member’s Division Commander with a memorandum containing the details of the circumstances regarding the failure to complete the remedial training plan or show a minimal level of proficiency.

Members returning from a leave of absence who have not met their training/qualification requirement will be assigned to modified duty until they train/qualify.

A member who is unable to demonstrate proficiency for any reason, (e.g. injury, illness, duty status, or scheduling conflict, etc), will submit a memorandum to their supervisor that details the circumstances surrounding the failure to train/qualify. The supervisor shall immediately forward the information to the Training Section Commander.

309.1 POLICY

Only electronic control devices (ECDs) & dart cartridges issued by the Department shall be used by officers and only after the officers have successfully completed a Department approved ECD training course on its proper use and deployment.

309.1.1 PURPOSE AND SCOPE

When properly applied in accordance with this policy and training received, the ECD is considered a non-deadly control device that is intended to control a subject who poses an immediate threat, while minimizing the risk of injury to officers and suspects.

309.2 USE OF THE ECD

As with any law enforcement equipment, the ECD has limitations and restrictions requiring consideration before its use. The ECD should only be used when its operator can safely approach the subject within the operational range of the ECD. Although the ECD is generally effective in controlling most individuals, members should be alert to the potential for failure and be prepared with other options. When practical the ECD should be utilized with the dart cartridge in order to get and maintain a positive and continuous contact with the recipient.

309.2.1 CARRYING THE ECD

Only ECDs & cartridges issued by the Department shall be used by officers and only after they have successfully completed a Department approved ECD training course on its proper use and deployment. Officers shall, at minimum, be re-certified with the ECD once every two years, or more frequently if required by the manufacturer of the ECD. Officers shall demonstrate proficiency in use of the ECD on an annual basis.

Officers issued an ECD should carry them in the field, ensuring immediate access when necessary. ECDs are issued for use during a member's current assignment. Those leaving a particular assignment may be required to return the device to the Department's inventory.

An ECD shall be carried in only Department approved tactical thigh or belt holsters on the opposite side of the Department member's handgun, or in a Department approved holster designed for a tactical load bearing vest. The ECD shall be carried with the flap secured over the weapon (M26) or securely holstered (X26) for retention.

Additionally:

- (a) All ECDs shall be clearly and distinctly marked to differentiate them from the duty weapon and any other device;
- (b) When practical, members should carry a total of two or more ECD cartridges on their person when carrying an ECD;
- (c) Members shall be responsible for ensuring that their issued ECD is functioning properly by conducting a pre-shift spark test;
- (d) The ECD should not be drawn with the member's gun hand or dominant hand; and
- (e) Members should never hold both a firearm and the ECD at the same time.

309.2.2 VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the ECD should precede its application, unless it would otherwise endanger the safety of members or when it is not practical due to the circumstances. The purpose of the warning is to:

- (a) Provide the individual with a reasonable opportunity to voluntarily comply; and
- (b) Provide other members and individuals with a warning that an ECD may be deployed.

If, after a verbal warning, an individual is unwilling to voluntarily comply with an officer's lawful orders and it appears both reasonable and practical under the circumstances, the member may, but is not required to, display the electrical arc (provided there is not a cartridge loaded into the ECD) or the laser in a further attempt to gain compliance prior to the application of the ECD. The aiming laser should never be intentionally directed into the eyes of another as it may permanently impair vision.

The fact that a verbal and/or other warning was given or the reasons it was not given shall be documented by the member deploying the ECD.

309.3 APPLICATION OF THE ECD

Authorized personnel may use the ECD when circumstances known to the member at the time indicate that such application is reasonable to control a person in any of the following circumstances:

- (a) A violent or physically resisting subject; or
- (b) A subject who, by words or action has demonstrated an intention to be violent or who poses an immediate threat to officers, themselves or others.
 - 1) When practical, the member should give a verbal warning of the intended use of the ECD followed by a reasonable opportunity to voluntarily comply.
 - 2) The member must be able to articulate a reasonable belief that other available options appeared ineffective, impractical or would have presented a greater danger to the member, the subject or others.

Non-compliance with directives, non-violent physical resistance, or mere flight from a pursuing officer, without other known circumstances or factors, is not good cause for the use of the ECD to apprehend an individual.

309.3.1 MULTIPLE APPLICATIONS OF THE ECD

When the first application of the ECD appears to be ineffective in gaining control of an individual and if circumstances allow, the member should consider the following before additional applications of the ECD:

- (a) Whether the probes or darts are making proper contact;
- (b) Whether the application of the ECD is interfering with the ability of the individual to comply; and
- (c) Whether verbal commands, other options or tactics may be more effective.

Members should generally not intentionally apply more than one ECD at a time against a single subject. This, however, shall not preclude any member from deploying more than one reasonable application of the ECD on an individual. Each application will be evaluated individually for reasonableness.

309.4 SPECIAL DEPLOYMENT CONSIDERATIONS

The use of the ECD should generally be avoided in the following situations unless the totality of the circumstances indicate that other available options reasonably appear ineffective, impractical, or would present a greater danger to the member, the subject or others, and the member reasonably believes that the need to control the individual outweighs the risk of using the ECD. This includes:

- (a) Pregnant females;
- (b) Elderly individuals or obvious juveniles;
- (c) Individuals with obviously low body mass (e.g. extremely thin or emaciated);
- (d) Individuals who are handcuffed or otherwise restrained;
- (e) Individuals who have been recently sprayed with a flammable chemical or who are otherwise in close proximity to any flammable material; or
- (f) Individuals whose position or activity may result in collateral injury (e.g., falls from height, operating vehicles).

Because the application of the ECD in the drive-stun mode (i.e. direct contact without darts) relies primarily on pain compliance and requires close proximity to the subject, additional caution should be exercised. The application in drive-stun mode should be limited to brief applications in which pain compliance would reasonably appear necessary to achieve control.

309.4.1 DANGEROUS ANIMALS

The ECD may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

309.5 TARGETING CONSIDERATIONS

While manufacturers generally recommend that reasonable efforts should be made to target lower center mass and to avoid intentionally targeting the head, neck, chest and groin, it is recognized that the dynamics of each situation and officer safety may not permit the member to limit the application of the ECD darts to a precise target area. Members should take prompt and ongoing care to monitor the condition of the subject if one or more darts strikes the head, neck, chest or groin until they are released to the care of paramedics or other medical personnel.

309.6 DOCUMENTATION OF USE

All ECD discharges shall be reported to a supervisor as soon as practical, and documented in the related arrest/crime report.

309.6.1 MEMBERS RESPONSIBILITIES

The police report shall include:

- (a) The complete circumstances surrounding the use of an ECD;
- (b) Name of the Department member using the ECD;
- (c) Serial number of the ECD used;
- (d) Serial number of the ECD cartridge(s) used;
- (e) Model of the ECD used;
- (f) Verbal warnings if given or reason for not doing so;
- (g) Number of applications and duration of applications (e.g. 3 sec., 5 sec., etc); and
- (h) Location and description of application sites.

All accidental discharges shall be documented as above in a Synoptical Report.

309.6.2 SUPERVISOR RESPONSIBILITIES

Supervisors shall prepare a Use of Force Form and forward through the supervisor's chain of command via IA Pro BlueTeam.

309.7 MEDICAL TREATMENT

Whenever an ECD is applied, the suspect will be transported to Community Regional Medical Center (CRMC) for medical clearance. Department members shall not remove ECD darts.

Subjects exposed to the probes without penetration or by a "drive stun" may be transported to CRMC in a patrol/transportation vehicle. All others shall be transported by ambulance.

309.8 EVIDENCE COLLECTION

When members utilize the ECD:

- (a) Expended ECD cartridges, probes and wires shall be booked into evidence under the case number;
- (b) Probes shall be packaged in a manner that protects against accidental exposure; and
- (c) When possible, Department members shall request the Crime Scene Investigation Bureau (CSIB) respond to the scene or to medical facility for photos of injuries or probe impact sites.

309.9 CARE & USE OF ECDS

ECD cartridges will be issued by the Duty Office. Members requesting replacement cartridges will be required to provide the case number in which their expended cartridge(s) was/were used, or turn in the defective cartridge when seeking a replacement.

The Duty Office will maintain an ECD Cartridge Log listing the date, officer's name, case number under which the previous cartridge was deployed and the serial number of the new cartridge. All requests for repairs or replacement of inoperative or damaged units shall be forwarded to the Training Section.

310 Officer Involved Shooting

310.1 POLICY

The Department is committed to investigating officer involved shootings (OIS) to ensure member compliance with state and federal mandates, and with Department policy. An OIS investigation shall be initiated whenever a member intentionally uses deadly force against another person and will not apply for situations involving warning shots only, dog OIS's, or unintentional weapon discharges that do not result in the injury or death of any person.

310.1.1 PURPOSE AND SCOPE

To establish policy for the investigation of an incident in which a member intentionally discharges a firearm. The intent of this policy is to ensure that such incidents be investigated in a thorough and impartial manner.

The OIS investigation process will apply to the following situations, unless otherwise directed by the Chief of Police, when an officer, either on or off duty:

- (a) Intentionally discharges a firearm at a person;
- (b) Accidentally discharges a firearm resulting in the injury or death of any person;
- (c) Intentionally utilizes a vehicle to strike or attempt to strike a pedestrian suspect; or
- (d) Is involved in a situation which results in an in-custody death.

Nothing in this policy is intended to increase, modify, or in any way affect the current legal standards regarding deadly force, nor shall any deviation from these guidelines be considered a breach of any legal standard.

310.2 DUTIES OF INITIAL ON SCENE SUPERVISOR

Upon arrival at the scene of an officer involved shooting (OIS), the first uninvolved supervisor shall:

- (a) Take all reasonable steps to obtain emergency medical attention for all apparently injured individuals unless already requested, and secure the scene(s);
 - 1) Of any weapons that need to be secured or protected.
- (b) When necessary, take command of and secure the incident scene with additional personnel until relieved by a detective supervisor or other assigned personnel;
- (c) Obtain a public safety statement from the involved officer, limited to the following:
 - 1) Identification of officer(s) who discharged their firearm(s);
 - 2) Approximate number of rounds fired and direction fired;
 - 3) Whether or not suspect(s) fired any rounds;
 - 4) Location of any possibly injured persons;
 - 5) Location of any witnesses;
 - 6) Approximate location of officer when their weapon was discharged; and
 - I. Description of suspect;
 - II. Mode and direction of travel;
 - III. Time elapsed since departure;
 - IV. Crimes they are wanted for;
 - V. Location of any weapons that need to be secured or protected.

When necessary, compel the involved officer to provide public safety information;

The following template may be used:

- 1. "Officer, I am ordering you to give me a public safety statement. Due to the immediate need to take action, you do not have the right to wait for representation before answering these limited questions"
- 2. "In what direction did you fire rounds"

Note: Public safety statements should not be audio or video recorded.

- (d) Attempt to obtain any additional necessary information from witness officers on-scene, when available;
- (e) Provide involved and witness officers with an admonition not to discuss the incident pending further direction;
- (f) Provide all necessary information to the Field Commander and the ComCen. When feasible, sensitive information should be communicated over secure networks;
- (g) Brief arriving investigators and staff members regarding the information they obtained from the involved or witness officers;
- (h) Ensure the involved officers are provided a secure location (e.g., Wellness Center) to wait for the arrival of OIS investigators; and
- (i) Coordinate with the Street Violence Bureau (SVB) Commander, homicide detectives and/or lead investigator to arrange for the involved officers to be transported from the scene separately, when possible. Generally, involved officers will not be transported from the scene to the interview location until after the walk-through with investigators has occurred (absent an extended wait or exceptional circumstances).

The Incident Commander or Homicide Sergeant should admonish each officer that the incident shall not be discussed except with authorized personnel or representatives.

310.2.1 INVOLVED MEMBER(S)

As soon as possible, when the scene is secure and there are sufficient personnel present to continue with the investigation, the involved member(s) should be removed from the immediate scene and not further participate in investigative activities (e.g., searching, interviewing, contacting witnesses, etc.).

NOTE: The involved officer should not be required to provide more than one public safety statement or be compelled to provide information outside of the public safety statement. Involved officers may participate in a voluntary walk-through with Homicide investigators to facilitate the investigation.

310.2.2 INCIDENT COMMANDER DUTIES

The Incident Commander shall be responsible for coordinating all aspects of the incident unless relieved by the Chief of Police or designee, or a Division Commander. All media contacts shall be handled by the Incident Commander, PIO, or Office of the Chief.

310.2.3 NOTIFICATIONS

The Duty Office shall be notified as soon as practical by the on-scene supervisor and will initiate the OIS call out protocol. Notifications shall include a Fresno Police Officers Association Legal Defense Trustee. All outside inquiries about the incident shall be directed to the Incident Commander, PIO, or Office of the Chief.

310.2.4 DEPARTMENT OF JUSTICE QUALIFYING OIS

Pursuant to AB 1506, the Department of Justice (DOJ) is required to investigate "incidents of an officer-involved shooting resulting in the death of an unarmed civilian." (Gov. Code, § 12525.3 (b)(1).) The Street Violence Bureau determines which events qualify for notification under this statute. The SVB Commander, or their designee, shall make the appropriate notifications to the California Department of Justice when an officer involved shooting falls under this requirement.

When questions arise on what is considered a qualifying event, the SVB Commander or their designee shall confer with the Department's Legal Advisor. Contacting the California Department of Justice in situations where an event is qualified or not will be at the discretion of the SVB Commander or their designee.

310.3 ACTIVATION OF OFFICER INVOLVED SHOOTING (OIS) TEAMS

An OIS investigation shall be initiated whenever a member intentionally uses deadly force against another person and will not apply for situations involving warning shots only, dog OIS's, or unintentional weapon

discharges that do not result in injury. Other types of officer involved firearm discharges (except during Department training), shall be documented in an Administrative Review Memo.

The SVB Commander shall be advised of the nature of injuries (if any) and will determine the extent of the OIS Team response.

The OIS investigative and review process described below will apply to the following situations, unless otherwise directed by the Chief of Police, when an officer, either on or off duty:

- (a) Intentionally discharges a firearm at a person;
- (b) Accidentally discharges a firearm resulting in the injury or death of any person;
- (c) Intentionally utilizes a vehicle to strike or attempt to strike a pedestrian suspect; or
- (d) Is involved in a situation which results in an in-custody death.

An OIS incident involves the response of the following personnel, each of whom conducts their own review and/or investigation:

310.3.1 TYPES OF INVESTIGATIONS

An OIS involves several independent investigations utilizing resources within the Department. The investigations include:

- (a) A criminal investigation of the OIS;
- (b) A civil liability investigation to determine potential liability conducted by the involved officer's agency; and
- (c) An administrative investigation conducted by the involved officer's agency, to determine if there were any violations of Department policy.

The Chief of Police or their designee may relinquish the criminal investigation to an outside agency.

310.3.2 CRIMINAL INVESTIGATION

The Fresno Police Department Homicide Unit is responsible for the criminal investigation of any OIS involving a Fresno Police Officer that occurs within the City of Fresno (as assigned by the Homicide Unit supervisor). A representative from the Fresno County District Attorney's (D.A.'s) Office will be present to monitor the criminal investigation. Upon completion of the criminal investigation by Homicide investigators, the case will be submitted to the DA's Office for review.

310.3.3 JURISDICTION

Jurisdiction for the criminal investigation will be determined by the location of the shooting and the agency employing the involved officer(s):

310.3.4 ALLIED AGENCY OFFICER WITHIN THIS JURISDICTION

The Fresno Police Department is responsible for conducting the criminal investigation whenever an officer from an allied agency is involved in an OIS within the City of Fresno.

310.3.5 FRESNO POLICE OFFICER IN ANOTHER JURISDICTION

The agency where the OIS occurred has criminal jurisdiction and is responsible for conducting the criminal investigation of the incident. That agency may relinquish its authority to conduct a criminal investigation to another agency upon mutual agreement.

310.3.6 ADMINISTRATIVE INVESTIGATION

The Department will conduct an internal administrative investigation into any OIS involving a Fresno Police Officer to determine conformance with Department policy. This investigation will be conducted under the supervision of the Internal Affairs Bureau and will be considered a confidential peace officer personnel file.

The administrative investigation team is responsible for reviewing the shooting incident and determining whether Department policies and procedures were followed during the course of the shooting incident. The administrative shooting team is comprised of one or two Internal Affairs supervisors, who will respond

to the scene of the OIS and participate in the walk-through, as determined by the SVB Commander. The Internal Affairs Commander may be called by members of the administrative shooting team when staff support is deemed necessary

When an OIS involves an officer from an allied agency, the officer's employing agency will be responsible for any administrative investigation.

310.3.7 CIVIL LIABILITY INVESTIGATION

A civil liability investigation will be conducted regarding any OIS involving a Fresno Police Officer to determine facts which would establish or refute the civil culpability of the member involved in a shooting. All materials generated in this capacity shall be considered attorney work product and may not be used for any other purpose. The civil liability response is not intended to interfere with any other investigation but shall be given reasonable access to all other investigations.

The civil liability team investigates the OIS to determine facts which would establish or refute the civil culpability of the member involved in the shooting. The civil liability team members are appointed by the Chief of Police and work under the direction of the City Attorney's Office representative present at the scene of the incident. These investigations shall be maintained in strict confidence. All information concerning the case will be divulged only to designated representatives of the City Attorney's Office. All documentation prepared by team members shall be forwarded to and retained by the City Attorney's Office.

A member of the Regional Training Center shall respond to the scene of the OIS to review the incident.

When an OIS involves an officer from an allied agency, the officer's employing agency will be responsible for any civil liability investigation.

310.4 OIS INVESTIGATION PROCESS

Upon completion of the criminal and administrative investigations as described above, the reports shall be forwarded simultaneously for review to the involved officer's chain of command (Division Commander, Captain, and Lieutenant), via an electronic distribution process.

The entire investigative review process should be completed and forwarded to the Internal Affairs Bureau for closure within six (6) months of the OIS.

Upon closure of an administrative investigation where the OIS was determined to be within policy, the involved officer(s) will meet with their Division Commander. The meeting is intended to discuss Department policies and procedures related to officer involved shootings and use of deadly force, and to provide feedback relevant to the investigation. The meeting will also serve as an opportunity for the involved officer(s) to provide feedback to the Division Commander regarding Department policies, procedures, and practices, as well as to discuss potential future training related to the use of deadly force.

OIS investigations that result in proposed corrective measures or discipline will be handled consistent with Policy §340

310.4.1 INVESTIGATION STATUS UPDATE

In the event of a fatal OIS, the Chief of Police or their designee will contact the involved officer and the family of the decedent at the conclusion of the investigation. The Internal Affairs Unit will generate a letter and disseminate it accordingly.

310.5 OFFICER INVOLVED SHOOTING REVIEW COMMITTEE (OISRC)

The OISRC is separate from the OIS investigation process. The OIS review is not intended to determine violations of policy, procedure, or whether or not an OIS is legally justified.

The purpose of the OISRC is to:

- (a) Provide timely feedback to the involved officers;
- (b) Provide timely feedback to staff and Department members;

- (c) Evaluate the need for policy review;
- (d) Evaluate training needs; and
- (e) Evaluate equipment needs.

The OISRC shall consist of the following members:

- (a) The involved officer's Bureau Captain (committee chairperson) and Section/District Commander (or Captain as designated by the Division Commander);
- (b) Legal Advisor or designated representative;
- (c) SWAT Commander or designated SWAT supervisor;
- (d) Regional Training Center Commander or designated Regional Training Center supervisor;
 - 1) When possible, this should be the same representative that responded to the OIS scene.
- (e) Policy and Procedures Unit representative; and
- (f) FPOA representative.

The Office of Independent Review will be invited to the OISRC meeting and may attend at their discretion.

The involved member's Bureau Commander shall serve as the committee chairperson. When more than one chain of command is involved, the affected Division Commanders will determine the chairperson. The chairperson must hold the rank of Captain. If no Captain is in the involved officer's chain of command, the Division Commander will assign a Captain.

Within 30 days of the OIS, the chairperson of the OISRC will provide a verbal briefing to the Chief of Police on the review committee's recommendations.

The briefing should include the following information:

- (a) A synopsis of the OIS incident;
- (b) The need for policy review (if applicable);
- (c) Department training needs identified (if applicable); and
- (d) Equipment needs identified (if applicable).

The Chief of Police shall also be briefed by the chairperson before any actions are taken by the Department as a result of the review (such as policy revision or training modifications).

The chairperson will also meet with the involved officer to discuss the OISRC process as it relates to Department policy, training, and equipment, as well as an opportunity for the involved officer to provide feedback on the OIS process.

310.5.1 RCTB

When deemed appropriate by the OISRC, training issues or other pertinent issues identified as a result of the meeting will be addressed in an RCTB. The RCTB will be drafted by the Policy and Procedures Unit and will not contain names of involved personnel or other specific identifying information.

The proposed RCTB will be reviewed by the OISRC chairperson before being submitted to the Chief of Police for approval.

Once the RCTB is approved by the Chief of Police and the involved officer(s) have had the opportunity to review it, the RCTB shall be distributed to all personnel via PowerDMS and as a briefing item to be discussed by officers and supervisors.

310.5.2 REVIEW WITH INVOLVED OFFICER(S)

The chairperson will meet with the involved officer(s) within 60 days of the OIS incident. The involved officer(s) shall be allowed to bring an FPOA representative of their choosing to the meeting. The purpose of the meeting is to discuss the OISRC process as it relates to Department policy, training, and equipment, provide relevant feedback to the involved officer(s), as well as an opportunity for the officer(s) to provide feedback on the OIS process.

310.6 INVOLVED OFFICERS

Any officer who discharges their weapon shall be placed on paid administrative leave following an OIS. The officer shall meet with a licensed mental health clinician prior to returning to full duty. Prior to returning to full duty, the officer shall attend mandatory post-OIS training at the FPDRTC.

The following shall be considered for the involved officer(s):

- (a) Requests for legal representation will be accommodated;
- (b) Discussions with licensed attorneys will be considered privileged as attorney client communications;
- (c) Members who were either involved in or witnessed an OIS may consult individually with legal counsel or FPOA representatives, but shall not consult with legal counsel and/or FPOA representatives collectively or in groups, prior to being interviewed;
- (d) Discussions with FPOA Legal Defense representatives will be privileged only as to the discussion of non-criminal information [Government Code §3303(i)].

310.6.1 ADMINISTRATIVE LEAVE

During the investigation, detectives shall make reasonable accommodations for the officer's physical and emotional needs [GC §3303(d)]. Officers should only be placed on Administrative Leave (AL) and scheduled for a mental health review after the primary OIS investigator has released them. Administrative Leave may be authorized by the involved officer's Section/District Commander or the on-scene Field Commander, with Division Commander concurrence. The Employee Services Coordinator (ESC) will be notified of all AL approvals.

310.6.2 MENTAL HEALTH REVIEW

After the OIS, any officer using deadly force will be placed on AL pending a meeting with a contracted licensed mental health clinician from the Department's referral list. The meeting with a contracted licensed mental health clinician shall be scheduled by the Employee Services Coordinator (ESC). The involved officer must meet with the contracted licensed mental health clinician prior to returning to duty. Officers who have been involved in two or more OIS incidents shall meet with two separate contracted psychologists from the Department's referral list.

The contracted licensed mental health clinician will conduct the mental health review. If additional mental health services are recommended, the officer will be referred to another licensed mental health clinician. If no additional services are needed, the officer will have a follow-up visit with the contracted licensed mental health clinician approximately one month later. Verification of the completion of the mental health review will be sent to the Personnel Bureau and the officer's Division Commander.

Between the initial visit and potential follow-up visits with the contracted licensed mental health clinician, the officer may return to their regular duty, or another assignment as needed.

Officers who seek consultation or receive counseling through the Department's contracted licensed mental health clinician are assured confidentiality exists both within the mental health review and in therapy except where required or allowed by law. These exceptions will be clearly articulated to the officer prior to the completion of the mental health review. Some of the circumstances where disclosure is required or allowed by law are:

- (a) where there is a reasonable suspicion of child, dependent, or elder abuse or neglect;
- (b) where an officer presents a danger to self, to other(s), to property, or is gravely disabled;
- (c) when an officer's family member(s) communicate(s) to a therapist that the officer presents a danger to other(s);
- (d) pursuant to a legal proceeding by or against you (e.g., a proceeding where your mental competence is at issue; a proceeding where you raise the issue of a mental or emotional condition; and/or
- (e) when an officer enlists the services of a mental health professional to aid in the commission of a crime or to avoid detection or apprehension of oneself.

In the event of such an occurrence, the Chief of Police or their designee shall be notified or action taken to ensure protection of those concerned.

Although the Department will honor the sensitivity of communications with Companion Officers, there is no legal privilege to such, and peer counselors are cautioned not to discuss the facts of any incident with an involved or witness officer [GC §8669.4].

310.6.3 MANDATORY POST-OIS TRAINING

After the involved officer meets with the licensed mental health clinician, the ESC shall coordinate post-OIS training for the officer at FPDRTC. The officer shall attend the mandatory post-OIS training within 30 days of the OIS incident.

310.6.4 OTHER INVOLVED PERSONNEL

The Field Commander shall identify officers indirectly involved in the event and consult with the involved officer's Bureau Commander to determine whether or not administrative leave, post-OIS training, and/or a mental health review are warranted. When administrative leave, a mental health review, or post-OIS training is granted, the ESC shall be notified to coordinate the appropriate services.

310.7 INVESTIGATION PROCEDURES

The following procedures are guidelines used in the investigation of an officer-involved shooting:

- (a) Interviews with involved officers should be scheduled between 24 and 48 hours after the OIS incident. Officers also have the option of being interviewed outside the 24-to-48-hour period, if they so choose;
- (b) Care should be taken to preserve the integrity of any physical evidence present on the officer, equipment or clothing (e.g., blood, fingerprints, etc.) until investigators or lab personnel can properly retrieve it;
- (c) When a suspect is in custody and could be under the influence of alcohol and/or drugs, a blood draw for lab analysis shall be obtained;
- (d) An IA investigator, Civil Liability team member, and Regional Training Center representative, shall be afforded the opportunity for a brief crime scene examination as soon as the crime scene is secured by the assigned scene investigator from the Homicide Unit;
- (e) All investigative interviews of members and witnesses in OIS cases shall be recorded and the recording shall be preserved as evidence;
- (f) IA, Civil Liability, and Regional Training Center personnel shall be allowed to remotely monitor, but not record, the interviews. (IA investigators are allowed to attend for observational purposes only)
- (g) Before concluding each interview, the Homicide Investigator shall temporarily suspend the interview in order to determine whether Civil Liability investigators have additional questions related to the criminal investigation they would like asked;
- (h) The Homicide Investigator may confer with their supervisor and the Legal Advisor before determining whether the suggested questions should be asked.
- (i) All recorded interviews shall be transcribed to hard copy as soon as possible after the interviews are completed;
- (j) AVL Data related to the OIS shall be retrieved and retained by Internal Affairs investigators;
- (k) A high priority shall be placed on isolating involved members and witnesses to avoid discussion of the shooting incident prior to interviews. Investigations Division members should coordinate transportation of these parties to HQ and their supervision until interviews are completed;
- (l) All OIS investigations are confidential and should be treated as such. Members are to refrain from discussing the circumstances of a case with anyone not authorized by law or policy to receive the information, and then only with those who need the information to perform their official duties; and
- (m) Involved officers shall not be required to submit to a blood test, unless there is reasonable cause to believe the employee is under the influence of drugs or alcohol, as set forth in City of Fresno Administrative Order 2-25.
- (n) Involved officers who discharged their weapons will not be video recorded.

The criminal and civil investigations must be kept separate and independent to the greatest extent feasible. IA investigators performing an administrative investigation are prohibited from sharing information related to the administrative investigation with any of the criminal investigators.

Should an officer-involved-shooting be deemed a qualifying event per California Department of Justice, the Fresno Police Department will assist in the investigation. The California Department of Justice will be the primary investigative agency.

310.7.1 WEAPONS

An officer's discharged firearm should not be manipulated (i.e., unloaded, reloaded, magazine removal, etc.) or handled by others prior to inspection by the assigned criminal investigator. When the shooting does not require a shooting team response, the firearm shall not be manipulated or handled until it has been inspected by the supervisor conducting the administrative review.

The assigned Homicide Investigator may inspect the shooting member's weapon and ammunition at the scene, however, the member should be allowed to retain their gun until it can be exchanged at HQ, unless circumstances necessitate its immediate removal. When an officer's weapon is taken or left at the scene (e.g. evidence) the officer will be provided with a comparable replacement weapon as soon as practical.

When a shooting involves a Department issued handgun, a supervisor shall obtain a replacement from the Duty Office and issue it to the involved officer. In so far as it is reasonable to do so, the replacement firearm shall be provided before the discharged firearm is taken from the involved officer.

When a member is involved in an incident with their optional on-duty handgun, backup on-duty handgun, or other authorized off-duty firearm, during the course and scope of their employment and their weapon is booked as evidence, they will be provided with a replacement weapon by the Department. An approved replacement will be provided by the Regional Training Center to be used during the time their weapon is unavailable. The replacement weapon shall be returned to the Department when the member receives their original weapon back.

310.7.2 REPORTS

The appropriate patrol unit will write the original crime report. The primary investigator shall determine the appropriate title for the crime report. All other investigative reports shall be documented in a supplemental report form.

In the event suspects remain outstanding or are subject to prosecution for related offenses, the Department may require involved officers to complete a police report in order to facilitate the apprehension and prosecution of those individuals [GC §3304(a)]. Involved officers shall not be deprived of the right to consult with legal counsel prior to completing any such police report.

The Homicide Investigator's final report shall include a synopsis of the shooting incident as developed from statements and evidence.

Copies of investigative reports documenting an OIS shall not be released to anyone without the approval of the Investigations Division Commander, until unrestricted.

Reports related to the prosecution of criminal suspects will be processed according to normal procedures but should also be included for reference in the investigation of the OIS.

310.7.3 OIS Package Review

The following personnel should review the case in its entirety once the primary investigator completes the OIS package:

- (a) Homicide Sergeant;
- (b) SVB Commander;
- (c) ISD Commander; and

(d) Chief of Police

The exception to this process is when a suspect has not been fatally injured and the case must be filed with the District Attorney's Office as a last-day filing.

310.7.4 BOOKING FIREARMS OR OTHER ITEMS

All firearms discharged by officers under circumstances requiring investigation and/or administrative review shall be booked into evidence using standard evidence booking procedures. For each discharged firearm, all associated magazines and ammunition in possession of the officer at the time of the shooting shall be booked. In addition, the booking officer shall direct an e-mail to the Armorer describing the type of shooting, the date of occurrence, and the case number of the incident. When an officer utilizes an item or weapon other than a firearm, it shall be kept as evidence using evidence booking protocols.

Requests for an Armorer's Report shall be made through the Regional Training Center Commander within five business days of the discharge of the weapon. In the case of an OIS, the criminal investigator assigned to the incident shall make the request. In cases not criminally investigated, such as a discharge at an attacking animal, the sergeant completing the administrative review will request the Armorer's Report.

310.8 MEDIA RELATIONS

All media contacts shall be handled by the Incident Commander, PIO, or Office of the Chief. In the event of a California DOJ investigation, the SVB Commander shall coordinate with the California DOJ PIO's Office. The identities of involved officers shall not be released, absent their consent or as required by law. No involved officer shall be subjected to contact from the media [GC §3303(e)] and no involved officer shall make any comments to the media unless authorized by the Chief of Police or designee. Members receiving inquiries regarding OIS incidents in other agency jurisdictions shall refrain from public comment and will direct those inquiries to the agency having jurisdiction and primary responsibility for the investigation.

The identities of involved officers shall not be released, absent their consent or as required by law. In the event the name of an involved officer is required to be released, the Department will notify the involved officer as soon as practical, prior to the release. No involved officer shall be subjected to contact from the media [GC §3303(e)] and no involved officer shall make any comments to the media, unless authorized by the Chief of Police or designee.

No information is to be released to news media without approval of the primary investigator assigned to the case, their supervisor, or Investigations Division Commander.

Members receiving inquiries regarding OIS incidents in other agency jurisdictions shall refrain from public comment and will direct those inquiries to the agency having jurisdiction and primary responsibility for the investigation.

Members shall not permit department-issued firearms to be handled by anyone not authorized by the Department to do so. Members should be aware that negligent storage of a firearm could result in civil and criminal liability (PC §25100).
- (b) When leaving a handgun in an unattended vehicle, members shall ensure that it is locked in the trunk, or in a locked container which is placed out of view, or in a locked container that is

permanently affixed to the vehicle's interior and not in plain view (PC §16850; PC §25140; PC §25452). Members are exempt from this requirement during circumstances requiring immediate aid or action in the course of official duties (PC §25140).

312.6 CARRYING FIREARMS OUT OF STATE

Pursuant to 18 United States Code 926B and 926C, a full time sworn officer or qualified retired officer (See: Policy §220) of this Department is authorized to carry a concealed firearm in all other states subject to the following:

- (a) The officer will carry their Department identification whenever carrying such weapon.
- (b) The officer will remain subject to this and all other Department policies (including qualifying and training) and may not be the subject of any current disciplinary action.
- (c) The officer may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.
- (d) Officers are cautioned that individual states may restrict or prohibit carrying firearms in certain areas such as government buildings, property and parks.

312.7 FIREARMS QUALIFICATIONS

Sworn members and reserve officers are required to train tri-annually (every four months) with their Department issued handgun and any additional firearms as determined by the Rangemaster. The training shall occur at a Department approved range. One of the triannual trainings shall serve as the annual firearms qualification requirement as determined by the Rangemaster and will include qualification on all firearms for which they are qualified to carry. Under extraordinary circumstances an officer may be required to utilize a different firearm in an official capacity if the weapon they are qualified to use is not readily available during that emergency.

When possible, members shall train/qualify on-duty during scheduled range hours. Qualifying scores shall be determined by the Rangemaster. Sworn members may not carry weapons on-duty/off-duty, or in any official capacity, for which they do not hold a current Department qualification. If a sworn member fails to attend any required firearms training or qualification, they will be placed on modified duty status until the training/qualification is completed. A member will not be allowed to work a duty shift, overtime shift or contract services assignment until they have completed the required firearms training or qualification. Sworn members who are on long term absence whose firearm qualification expires are not authorized to carry a Department firearm.

Probationary officers in training shall qualify as specified above and will receive additional firearms training as determined by the Rangemaster. Probationary officers shall not carry any off-duty weapon, either Department issued or privately owned, until after they have completed the basic academy and have been certified in firearms proficiency by the Rangemaster. (This does not prohibit the officers and recruits from transporting the unloaded Department issued weapon to and from official training activities.)

312.7.1 FAILURE TO DEMONSTRATE PROFICIENCY

When a member fails to demonstrate proficiency with an issued or optional firearm, they shall be provided with remedial training. If the member is unable to demonstrate proficiency after remedial training has been provided, an individualized remedial training plan shall be implemented. The members Division Commander shall be notified by the Rangemaster via e-mail of the remedial training plan. Members who fail to complete the remedial training plan, or who fail to meet the annual qualification mandate, shall be referred to their Division Commander through the Regional Training Center commander. They will be assigned to modified duty until they are able to complete the remedial training plan and demonstrate proficiency with assigned firearms. The Rangemaster shall provide the member's Division Commander with a memorandum containing the details of the circumstances regarding the failure to complete the remedial training plan or show a minimal level of proficiency. Under no circumstances will a member be allowed to work a duty shift when they have failed to demonstrate proficiency with an issued firearm.

Members returning from a leave of absence who have not met their qualification requirement will be assigned to modified duty until they qualify.

A member who is unable to demonstrate proficiency for any reason, (e.g. injury, illness, duty status, or scheduling conflict, etc), will submit a memorandum to their supervisor (prior to the end of the trimester, when possible), that details the circumstances surrounding the failure to qualify. The supervisor shall immediately forward the information to the Regional Training Center Commander.

312.8 OUT OF STATE PEACE OFFICERS IN CALIFORNIA

Pursuant to 18 USC 926B and 926C, any full-time or qualified retired out-of-state peace officer is authorized to carry a concealed firearm in California subject to the following:

- (a) The full-time sworn officer will have in their possession a photographic identification issued by the governmental agency for which the individual is employed as a law enforcement officer.
- (b) The qualified retired peace officer will have in their possession a photographic identification from the issuing law enforcement agency which indicates that the officer has met the state's training and qualification standards within one year of the date of issuance.
- (c) The officer may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.
- (d) Out-of-state peace officers are not authorized to carry a concealed firearm into government buildings or areas expressly restricted by state or local law.

The need to have the weapon accessible must be determined by the employing agency, department, or service and be based on one of the following:

- (a) The provision of protective duty, for instance, assigned to a principal or advance team, or on travel required to be prepared to engage in a protective function;

The officer must present the message to airport personnel as authorization to travel while armed on the day of travel;
- (d) Prior to travel, obtain an official letter signed by the Chief of Police authorizing armed travel.

- (e) The letter must be in the officer's possession during travel and outline the officer's necessity to fly armed, must detail the itinerary, and shall include that the officer(s) has completed the mandatory TSA training for Law Enforcement Officers Flying Armed;
- (f) Carry their Department identification card and California driver's license. Additionally, officer(s), when requested, must present their Identification to airline officials;
- (g) Notify the air carrier in advance of the intended armed travel. This notification can be accomplished by early check-in at the carrier's check-in counter;
- (h) Not consume alcoholic beverages while aboard an aircraft, or within eight hours prior to boarding an aircraft;
- (i) At all times keep their weapon concealed and out of view; and
- (j) Keep the weapon on their person or in immediate reach, when the armed LEO is not in uniform, or on their person, if the armed LEO is in uniform.

The weapon shall not be placed in an overhead storage bin.

312.10 REPAIR OR MODIFICATIONS OF DUTY WEAPONS

The Department Armorer, authorized department member(s), and factory representatives are the only person(s) authorized to repair or modify any Department-owned weapon. The Department Armorer and authorized department member(s) are only allowed to repair or modify any Department-owned weapon within their scope of training. In addition, adjustments to Department-owned weapons can be made to maintain operational readiness in accordance with command staff's directions to test new equipment.

Exception: Officers are allowed to place black colored grip tape on the frame of their duty gun provided it does not interfere with any of the controls or cover any pins. Officers are allowed to purchase and install aftermarket magazine floor plates that are black in color and have been approved by the Armorer/Rangemaster. Officers are allowed to purchase a Glock factory "Extended Ambidextrous Slide Stop Lever" model SP47249. The lever must be black in color. The installation is considered an internal modification and must be performed by the Department Armorer or authorized Department member(s).

Any repairs to the officer's personally owned weapon will be done at their own expense, must meet Department specifications, must be re-inspected by the Department Armorer or authorized department member(s), and the officer must re-qualify prior to being authorized to carry.

Department issued handguns in need of repair or service shall be unloaded and submitted with issued magazines and ammunition. Handguns may be given directly to the Armorer or The Duty Office for exchange with a memo specifically describing the problems or needed work. Any officer issued a replacement or loaner handgun shall respond to the RTC as soon as practical and demonstrate proficiency to the Training Manager or their designee. The proficiency demonstration, along with the handgun serial number, shall be documented and placed into the officer's training record. This process shall occur each time an officer receives a loaner handgun, replacement handgun, or their original department-issued handgun is returned to them after being repaired.

Department shotguns in need of service or repairs shall be unloaded and submitted with a memo taped to the stock describing the problems and the area/unit/officer the shotgun came from. Shotguns shall be given directly to the Armorer during normal range hours of operation.

A firearm that is jammed with a live round shall be given to the Armorer or Rangemaster. When the Armorer or Rangemaster is not available, it shall be given to the PECS Supervisor to store until it can be turned over to the Armorer. When no one is available from the PECS, it may be placed in an evidence locker with a note affixed to the outside of the locker stating that it contains a defective firearm with a live round inside.

312.10.1 LASER SIGHTS

Authorized laser sights may be purchased by officers subject to the following conditions:

- (a) Laser sights are authorized on optional on-duty handguns and back-up handguns after they have been examined by the Department Armorer/Rangemaster and approved by the Chief of Police.

312.10.1 MINIATURIZED RED DOT SIGHT (MRDS)-HANDGUN

Officers may purchase an approved miniaturized red-dot sighting system (MRDS) to be used on their department issued handgun. Prior to using the MRDS on duty the department member must have passed the department's MRDS class and the annual qualification.

Officers are required to purchase the following equipment along with the authorized MRDS:

Note: A list of authorized items shall be maintained in the rangemasters office. Because manufacturer model numbers frequently change, officers are encouraged to contact the department rangemasters for a list of approved equipment prior to purchase.

- (a) Department authorized Suppressor Night Sights
- (b) Compatible Safariland RDS holster with ALS retention system.
- (c) Compatible CH Precision Weapon Systems mounting plate

All maintenance and repair of MRDS shall be conducted by the department rangemaster/armorer. Only an authorized Fresno Police Department Armorer may mount and un-mount the MRDS from the department member's handgun to perform maintenance (I.E. Battery Change). Individually purchased red-dot sighting systems will not be replaced by the Department if they are taken as evidence during an investigation.

312.10.2 MRDS- Optional/Back-up Handguns

Members are authorized to use a MRDS on an optional and / or back-up weapon if it meets the following specifications:

- (a) Must have an appropriate back up iron sighting system in case of optic failure
- (b) Compatible CH Precision Weapon Systems mounting plate if plate is necessary for mounting
- (c) Range staff will maintain a list of approved MRDS. Prior to purchase, members shall go to the RTC for the approved list.

If a department member buys the necessary equipment for mounting a MRDS on an optional / back-up weapon all equipment must be installed by a department armorer. The department member will be required to attend the department's MRDS class and qualify with the weapon prior to use. Members are required to qualify annually with their MRDS weapon.

312.10.3 SWAT WEAPON EQUIPMENT

Based on the mission of the SWAT team and the specialized tools and equipment that are utilized to carry out that mission, certain equipment installed on these weapons can increase operational performance of both the weapon as well as the end user, thereby increasing safety and mission success. Any equipment added to SWAT weapons shall not include swapping of internal or critical components, or modifications that would place the weapon outside of factory specifications (i.e., decreasing the weight in trigger.) Any modifications or equipment added to SWAT weapons shall be first approved by the SWAT chain of Command, and the SWAT Commander will maintain a list of approved weapon equipment.

312.11 DUTY WEAPON REMOVAL / SUSPENSION OF PEACE OFFICER POWERS

When the Department intends to suspend the peace officer powers of an individual, that officer's duty weapon, badge, and Department identification card will be removed by a supervisor or commander. The reinstatement of the peace officers' powers will be at the discretion of the Chief of Police. The officer will be told that their peace officer powers have been suspended. The Department may have other legitimate reasons beyond that of suspension of peace officer powers to remove duty weapon, badge, and Department identification card from an officer.

A member's peace Officer's powers may be suspended by the Chief of Police, Division Commander, or designee:

- (a) Those involving medical, which includes mental and physical considerations (including member reported stress) ;

- (b) Internal investigation of a major allegation as defined in Policy §1020;
- (c) Service of a Letter of Intent to Terminate; or
- (d) Other circumstances that necessitate such removal as determined by a supervisor or commander.

Exception: When the officer is the owner of their optional “on-duty” weapon it will not be removed unless legal justification is present (e.g., domestic violence firearm seizure, Welfare & Institutions Code §5150).

When a member’s duty weapon, badge, and Department identification have been removed they will be booked into the PECS. The member booking the weapon, badge, etc. shall notify the PECS and Training Unit supervisors by voicemail/email of the involved member’s name and case number.

The officer will be told that their peace officer powers have been suspended and whether they may carry a concealed weapon. The Department may have other legitimate reasons beyond that of suspension of peace officer powers to remove duty weapon, badge, and Department identification card from an officer.

312.12 OFF-DUTY RANGE USE

312.13 TESTING AND EVALUATION OF GUN PARTS

The department recognizes the ongoing need to test and evaluate gun parts to provide the best possible options for our department members. To regulate and standardize the gun parts deployed in the field, any unauthorized gun part shall undergo a three-step process prior to approval. Equipment testing shall be approved by the RTC Training Sergeant and occur within the RTC. This policy section is specific to RTC Training Staff only and the process is as follows:

Step 1: Initial Test and Evaluation

If a gun part or accessory is identified by the RTC Training Staff that could benefit the agency, the information shall be sent to the RTC Training Sergeant for consideration. If approved the part will be ordered and sent to the RTC for in-house evaluation only within a closed training environment. Any personally purchased or individual officer purchases shall not be considered for testing and evaluation or installed on any department owned firearms. Under no circumstances shall a gun with testing and evaluation parts or accessories be deployed in the field or carried off-duty before final approval. All testing and evaluation equipment shall remain onsite at the RTC during the evaluation period.

Step 2: Field Test

After the evaluation period, if the part meets or exceeds expectations, RTC Training Staff will prepare a memorandum documenting the justification of the part and its benefits. The RTC Training Sergeant will decide whether to field test the equipment. The RTC Training Sergeant will forward the request and documentation to the Training Commander for field testing approval. Once approved, deployment of the equipment will be temporarily assigned to a department member with specific parameters and expectations. When the field test is completed, the part or accessory shall be removed from the gun and returned to factory shipping standards. This shall be done regardless of whether the part is approved or not.

Step 3: Equipment Adoption and Approval

A memorandum documenting the testing and evaluation process will be completed following the field test. The memorandum is to include the recommendations and to seek approval for consideration of implementation. The memorandum will be forwarded through the chain of command for final approval by the Chief of Police or designee.

313.1 POLICY

Department members will investigate allegations of counterfeit currency in accordance with established policies and procedures, with noted exceptions.

313.1.1 PURPOSE AND SCOPE

Counterfeiting of U.S. Currency and Coin is the primary jurisdiction of the U.S. Secret Service; however members will assist in the investigation when necessary. All other counterfeiting activities are the responsibility of this Department.

313.2 COUNTERFEIT NOTE – PASSER NOT PRESENT

When a business discovers a counterfeit note (U.S. currency) and the person who passed the note is not present, the RP should be instructed to contact the Secret Service for dispositional instructions.

When the passer is known and no longer present, that information should be forwarded to the Secret Service.

313.3 COUNTERFEIT NOTE – PASSER PRESENT

When a business discovers a counterfeit note and the passer is present, the Department should be notified and an officer dispatched to the business to contact the passer.

When the officer determines that the possession/pass did not meet the elements of a crime (Penal Code §648), information on the passer should be obtained, along with a statement on how the passer received the counterfeit note. This information shall be documented in a general incident report (GI report), the counterfeit note shall be confiscated, and the passer released.

When the responding officer determines that the passer had knowledge of the counterfeit note, appropriate enforcement action shall be taken and a crime report prepared. This action may include arrest and/or contact with the Secret Service for their response and/or input. The counterfeit note(s) shall be seized as evidence.

313.4 QUESTIONABLE NOTES

When there is a question as to whether or not a note is counterfeit it may be forwarded by the business to the Secret Service.

When the note is in possession of an individual, an officer shall be dispatched and shall attempt to verify the authenticity of the note.

When the authenticity cannot be established, the note should be seized and a receipt given to the person in possession.

The note shall be booked as evidence and a GI report prepared. Follow-up investigators will determine the authenticity of the note and will either forward it to the Secret Service or return it to the person from whom it was seized.

313.5 OTHER COUNTERFEIT DOCUMENTS

Investigation of counterfeit or false documents enumerated in PC §476, other than U.S. currency, is the responsibility of the Department. Such cases shall be investigated under the same guidelines as other criminal offenses.

314.1 POLICY

It is the policy of this Department to balance the importance of apprehending suspects who unlawfully flee from law enforcement against the risks associated with vehicle pursuits.

314.1.1 PURPOSE AND SCOPE

This policy provides guidelines for vehicle pursuits in order to protect the safety of the public, the involved officers and fleeing suspects.

314.2 DEFINITIONS

Vehicle Pursuit - An event involving one or more law enforcement officers attempting to apprehend a suspect, who is attempting to avoid arrest while operating a motor vehicle by using high-speed driving or

other evasive tactics, such as driving off a highway, turning suddenly, or driving in a legal manner but willfully failing to yield to an officer's signal to stop.

314.3 OFFICER RESPONSIBILITIES

It shall be the policy of this Department that a motor vehicle pursuit shall be conducted using authorized department emergency vehicles that are equipped with and displaying a steady forward red light and siren as required by Vehicle Code §21055 for exemption from compliance with the rules of the road. This policy is established to provide officers with guidelines for driving with due regard and caution for the safety of all persons using the highway as required by VC §21056.

314.3.1 WHEN TO INITIATE A PURSUIT

Officers are authorized to initiate a pursuit when it is reasonable to believe that a suspect, who has been given an appropriate signal to stop by a law enforcement officer, is attempting to evade arrest or detention by fleeing in a vehicle.

The following factors individually and collectively shall be considered in deciding whether to initiate a pursuit:

- (a) Seriousness of the known or reasonably suspected crime and its relationship to community safety;
- (b) The importance of protecting the public and balancing the known or reasonably suspected offense and the apparent need for immediate capture against the risks to officers, innocent motorists and others;
- (c) Apparent nature of the fleeing suspect(s) (e.g., whether the suspect(s) represent a serious threat to public safety);
- (d) The identity of the suspect(s) has been verified and there is comparatively minimal risk in allowing the suspect(s) to be apprehended at a later time;
- (e) Safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic and the speed of the pursuit relative to these factors;
- (f) Pursuing officer(s) familiarity with the area of the pursuit, the quality of radio communications between the pursuing units and the dispatcher/supervisor and the driving capabilities of the pursuing officers under the conditions of the pursuit;
- (g) Weather, traffic and road conditions that substantially increase the danger of the pursuit beyond the worth of apprehending the suspect;
- (h) Performance capabilities of the vehicles used in the pursuit in relation to the speeds and other conditions of the pursuit;
- (i) Vehicle speeds;
- (j) Other persons in or on the pursued vehicle (e.g., passengers, co-offenders and hostages);
- (k) Availability of other resources such as air support;
- (l) The police unit is carrying any passengers other than law enforcement personnel. If the police unit is carrying any passengers and engages/participates in a pursuit, then it must be under extreme circumstances; and
- (m) Emergency lighting and siren limitations on unmarked police department vehicles that may reduce visibility of the vehicle, such as visor or dash-mounted lights, concealable or temporary emergency lighting equipment, and concealed or obstructed siren positioning.

314.3.2 WHEN TO TERMINATE A PURSUIT

Pursuits should be discontinued whenever the totality of objective circumstances known or which reasonably ought to be known to the officer or supervisor during the pursuit indicates that the present risks of continuing the pursuit reasonably appear to outweigh the risks resulting from the suspect(s)' escape. Any officer involved in the pursuit may terminate the pursuit with due cause.

The factors listed in Policy §314.3.1 are expressly included herein and will apply equally to the decision to discontinue as well as the decision to initiate a pursuit. Officers and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists and themselves when electing to continue a pursuit.

When instructed to terminate, all units shall comply by immediately turning off their lights and siren and

driving in compliance with all VC provisions.

In addition to the factors listed in Policy §314.3.1 the following factors should also be considered in deciding whether to terminate a pursuit:

- (a) Distance between the pursuing officers and the fleeing vehicle(s) is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time and/or distance;
- (b) Pursued vehicle's location is no longer definitely known;
- (c) Officer's pursuit vehicle sustains any type of damage that renders it unsafe to drive;
- (d) Hazards to uninvolved bystanders or motorists;
- (e) If the identity of the offender is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit, officers should strongly consider discontinuing the pursuit and apprehending the offender at a later time;
- (f) Directed by a supervisor.
- (g) The pursuing vehicle's emergency lighting equipment or siren becomes partially or completely inoperable.
- (h) Extended pursuits of violators for misdemeanors not involving violence, risk of serious harm, or weapons (independent of the pursuit) are generally discouraged; and
- (i) The danger that the continued pursuit poses to the public, officers, or the suspect, balanced against the risk of allowing the suspect to remain at large.

314.3.3 SPEED LIMITS

The speed of a pursuit is a factor that should be evaluated on a continuing basis by the officer and supervisor. Evaluation of vehicle speeds shall take into consideration public safety, officer safety and the safety of the occupants of the fleeing vehicle.

Should high vehicle speeds be reached during a pursuit, officers and supervisors should also consider these factors when determining the reasonableness of the speed of the pursuit:

- (a) Pursuit speeds have become unreasonably unsafe for the surrounding conditions;
- (b) Pursuit speeds have exceeded the driving ability of the officer; and
- (c) Pursuit speeds are beyond the capabilities of the pursuit vehicle thus making its operation unsafe.

314.4 PURSUIT UNITS

Pursuit units should be limited to three vehicles (two units and a supervisor) however, the number of units involved will vary with the circumstances. Only a supervisor or Field Commander may authorize additional units to join a pursuit if, after assessing the factors outlined above, it appears that the number of officers involved would be insufficient to safely arrest the suspect(s). All other officers should stay out of the pursuit but should remain alert to its progress and location. Any officer who drops out of a pursuit may then, if necessary, proceed to the termination point at legal speeds, following the appropriate rules of the road.

Unmarked police department emergency vehicles, even those equipped with emergency equipment, are prohibited from initiating or joining in any pursuit, unless there is an extreme circumstance. They shall discontinue their pursuit upon the arrival of a distinctively marked patrol vehicle equipped with emergency overhead lighting.

314.4.1 MOTORCYCLE/TRANSPORT WAGON OFFICERS

Police motorcycles and transport wagons are prohibited from initiating or joining in any pursuit unless there is an extreme circumstance. A distinctively marked patrol vehicle equipped with emergency overhead lighting should replace a police motorcycle or transport wagon as soon as practical.

EXCEPTION: Police motorcycles may engage in a pursuit when the suspect operating a motor vehicle is driving in a legal manner but willfully failing to yield to an officer's signal to stop until relieved by a distinctively marked patrol vehicle equipped with emergency overhead lighting.

314.4.2 VEHICLES WITHOUT EMERGENCY EQUIPMENT

Officers operating vehicles not equipped with red lights and siren are prohibited from initiating or joining in any pursuit.

314.4.3 PRIMARY UNIT RESPONSIBILITIES

The initial pursuing unit will be designated as the primary pursuit unit and will be responsible for the conduct of the pursuit unless it is unable to remain reasonably close enough to the suspect's vehicle. The primary responsibility of the officer initiating the pursuit is the apprehension of the suspect(s) without unreasonable danger to themselves or other persons.

The primary unit should notify the Communications Center (ComCen) that a vehicle pursuit has been initiated and as soon as practical provide information including, but not limited to:

- (a) Reason for the pursuit;
- (b) Location and direction of travel;
- (c) Speed of the fleeing vehicle;
- (d) Description of the fleeing vehicle and license number, if known;
- (e) Number of known occupants;
- (f) The identity or description of the known occupants;
- (g) Known or suspected weapons, threat of force, violence, injuries, hostages, or other unusual hazards;
- (h) The weather, road, and traffic conditions;
- (i) The need for any additional resources or equipment; and
- (j) The identity of other law enforcement agencies involved in the pursuit.

Unless relieved by a supervisor or secondary unit, the officer in the primary unit shall be responsible for the broadcasting of the progress of the pursuit. Unless practical circumstances indicate otherwise, and in order to concentrate on safe pursuit tactics, the primary officer should relinquish the responsibility of broadcasting the progress of the pursuit to a secondary unit or aircraft joining the pursuit.

314.4.4 SECONDARY UNIT(S) RESPONSIBILITIES

The second officer in the pursuit is responsible for the following:

- (a) The officer in the secondary unit should immediately notify the dispatcher of entry into the pursuit;
- (b) Remain a safe distance behind the primary unit unless directed to assume the role of primary officer, or if the primary unit is unable to continue the pursuit;
- (c) The secondary officer should be responsible for broadcasting the progress of the pursuit unless the situation indicates otherwise;
- (d) Identifying the need for additional resources or equipment as appropriate; and
- (e) Serving as backup to the primary pursuing officer once the suspect has been stopped.

314.4.5 PURSUIT DRIVING

The decision to use or not use specific driving tactics requires the same assessment of considerations outlined in the factors to be considered concerning pursuit initiation and termination. The following are tactics for units involved in the pursuit:

- (a) Officers, considering their driving skills and vehicle performance capabilities, will space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle;
- (b) Because intersections can present increased risks, the following tactics should be considered:
 - 1) Available units not directly involved in the pursuit may proceed safely to controlled intersections ahead of the pursuit in an effort to warn cross traffic.
 - 2) Pursuing units should exercise due regard and caution when proceeding through controlled intersections.
- (c) As a general rule, officers should not pursue a vehicle driving left of center (wrong way) on a freeway. In the event the pursued vehicle does so, the following tactics should be considered:
 - 1) Requesting assistance from an air unit;
 - 2) Maintaining visual contact with the pursued vehicle by paralleling it on the correct side of the roadway; and

3) Requesting other units to observe exits available to the suspect(s).

- (d) Notifying the California Highway Patrol and/or other jurisdictional agency if it appears that the pursuit may enter their jurisdiction; and
- (e) Officers involved in a pursuit should not attempt to pass other units unless the situation indicates otherwise or requested to do so by the primary unit and with a clear understanding of the maneuver process between the involved units.

314.4.6 UNITS NOT INVOLVED IN THE PURSUIT

There should be no paralleling of the pursuit route. Officers are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public. Officers should remain in their assigned area and should not become involved with the pursuit unless directed otherwise by a supervisor.

The primary and secondary units should be the only units operating under emergency conditions (red light and siren) unless other units are assigned to the pursuit.

314.4.7 PURSUIT TRAILING

In the event the initiating unit from this agency either relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of supervisor, trail the pursuit to the termination point in order to provide necessary information and assistance for the arrest of the suspect(s) and reporting the incident.

314.5 SUPERVISORY CONTROL AND RESPONSIBILITIES

It is the policy of this Department that available supervisory and management control will be exercised over all motor vehicle pursuits involving officers from this Department.

The field supervisor of the officer initiating the pursuit, or if unavailable, the nearest field supervisor will be responsible for the following:

- (a) Upon becoming aware of a pursuit, immediately ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit in order to ensure that the pursuit is conducted within established Department guidelines;
- (b) Engaging in the pursuit, when appropriate, to provide on-scene supervision;
- (c) Exercising management and control of the pursuit even if not engaged in it;
- (d) Ensuring that no more than the number of required police units needed are involved in the pursuit under the guidelines set forth in this policy;
- (e) Directing that the pursuit be terminated if, in their judgment, it is unjustified to continue the pursuit under the guidelines of this policy;
- (f) Ensuring that aircraft are requested if available;
- (g) Ensuring that the proper radio channel is being used;
- (h) Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this agency;
- (i) Control and manage FPD units when a pursuit enters another jurisdiction;
- (j) Respond to the termination point of all pursuits; and
- (k) Preparing post-pursuit critique and analysis of the pursuit to be forwarded via BlueTeam to the Pursuit Review Officer.

314.5.1 FIELD COMMANDER RESPONSIBILITIES

Upon becoming aware that a pursuit has been initiated, the Field Commander should monitor and continually assess the situation and ensure the pursuit is conducted within the guidelines and requirements of this policy. The Field Commander has the final responsibility for the coordination, control and termination of a motor vehicle pursuit and shall be in overall command.

314.6 COMMUNICATIONS

If the pursuit is confined within the City limits, radio communications will be conducted on the primary channel unless instructed otherwise by a supervisor or communications dispatcher. If the pursuit leaves the jurisdiction of this Department or such is imminent, involved units should, whenever available, will switch radio communications to an emergency channel most accessible by participating agencies and units.

314.6.1 COMMUNICATION CENTER RESPONSIBILITIES

Upon notification that a pursuit has been initiated, the Communications Center will:

- (a) Coordinate pursuit communications of the involved units and personnel;
- (b) Notify and coordinate with other involved or affected agencies and provide continual updates to the Fresno County Sheriff's Department as practical;
- (c) Ensure that a field supervisor is notified of the pursuit;
- (d) Assign an incident number and log all pursuit activities;
- (e) Broadcast pursuit updates as well as other pertinent information as necessary;
- (f) Broadcast when a pursuit is terminated and ensure that all channels re-broadcast the termination.
- (g) Determine availability of air support and notify the supervisor/pursuing units of the availability;
- (h) If the initiating agency's communications center does not possess the ability to make the appropriate safety broadcasts to all affected allied agencies, then that agency should consider aborting the pursuit;
- (i) In the event pursuing units are actively engaged in a multi-agency pursuit and are unable to effectively communicate with the agency with primary pursuit responsibilities, then the allied agency should consider discontinuing its involvement in the pursuit. The primary pursuing agency

- should be notified of the assisting agency's discontinuance in the pursuit; and
(j) Notify the Shift Sergeant and Field Commander as soon as practical.

314.7 LOSS OF PURSUED VEHICLE

When the pursued vehicle is lost, the primary unit should broadcast pertinent information to assist other units in locating suspects. The primary unit or supervisor will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

314.8 INTER-JURISDICTIONAL CONSIDERATIONS

When a pursuit enters another agency's jurisdiction, the primary officer or supervisor, taking into consideration distance traveled, unfamiliarity with the area, and other pertinent facts, should determine whether or not to request the other agency to assume the pursuit. Unless entry into another jurisdiction is expected to be brief, it is generally recommended that the primary officer or supervisor ensure that notification is provided to each outside jurisdiction into which the pursuit is reasonably expected to enter, regardless of whether or not such jurisdiction is expected to assist.

Because vehicle pursuits frequently have the potential to rapidly cross jurisdictional boundaries of multiple law enforcement agencies, it is both the intent and desire of the Fresno County Police Chiefs and Sheriffs Association to adopt an interagency pursuit guideline. These guidelines will facilitate coordination and communication among affected agencies within the parameters of existing resources. The following procedures were developed and endorsed by the Fresno County Police Chiefs and Sheriffs Association. Members shall adhere to this agreement when a pursuit extends outside of the City, or when another agency's pursuit enters the City.

314.8.1 NOTIFICATIONS

Recognizing that vehicle pursuits are often spontaneous and rapidly changing events which present involved personnel with multiple issues and demands, each initiating agency will make every reasonable effort to promptly notify the next agency into whose jurisdiction the pursuit may foreseeably proceed should it leave the jurisdiction of the initiating agency.

Once the next foreseeable agency has been notified of the pursuit, the initiating agency will then make every reasonable effort to promptly notify the Fresno County Sheriff's Department (FCSD) of the existence of the pursuit.

Once FCSD has been notified of the pursuit, the initiating agency will then make every reasonable effort to promptly notify the California Highway Patrol (CHP) of the existence of the pursuit.

314.8.2 RADIO COMMUNICATIONS

Radio communications will be conducted on the initiating agency's primary radio channel unless instructed otherwise by a supervisor or communications dispatcher.

All pursuit radio traffic should be transferred to the FCSD communications center for dispatching purposes when all of the following conditions are present:

- (a) The pursuing police department has communication capabilities with the FCSD. Agencies capable of communicating with FCSD include, but are not limited to, the following police departments: Coalinga, Firebaugh, Fowler, Huron, Kerman, Kingsburg, Mendota, Parlier, Reedley, Sanger, and Selma; and
- (b) The pursuit leaves the pursuing agency's city limits and enters an unincorporated area of Fresno County.

Exception: Some agencies have a 24-hour dispatch center with sufficient staffing and resources to safely meet all radio communications responsibilities during vehicle pursuit, (i.e., Clovis PD, Fresno PD, and the CHP). These agencies may elect to handle their own radio traffic during pursuits that enter unincorporated areas of Fresno County. However, the pursuing agency's communications center should continually provide updates of pertinent information to the FCSD communications center.

314.8.3 COMMUNICATIONS CENTER (COMCEN) RESPONSIBILITIES

Each initiating agency's ComCen should be responsible for the following:

- (a) Informing the on-duty field supervisor;
- (b) Notifying allied agencies if a potential involvement can be expected, and specifying whether assistance is requested or if the notification is for information only;
- (c) Relaying pertinent information to or from allied agencies, and providing continual updates to the FCSD communications center;
- (d) Determining the availability of law enforcement aircraft and notifying the supervisor and/or the primary unit of the availability;
- (e) If the initiating agency's communications center does not possess the ability to make the appropriate safety broadcasts to all affected allied agencies, then that agency should consider aborting the pursuit; and
- (f) In the event pursuing units are actively engaged in a multi-agency pursuit and are unable to effectively communicate with the agency with primary pursuit responsibilities, then the allied agency should consider discontinuing its involvement in the pursuit. The primary pursuing agency should be notified of the assisting agency's discontinuance in the pursuit.

314.8.4 CONTROL OF THE PURSUIT

If the initiating agency has the ability and elects to have its involved unit(s) conduct all radio communications on the FCSD frequency, the initiating agency shall maintain control of the pursuit and its units.

FCSD shall have no control or responsibility over the involved unit(s) from the initiating agency unless and until the initiating agency expressly relinquishes control of the pursuit to the FCSD.

Should any agency expressly request that FCSD take over or assume the pursuit and FCSD agrees, it is thereafter understood that FCSD shall immediately have complete control and responsibility over the pursuit once FCSD units are on scene and established as the primary pursuing unit. All other agencies should discontinue their involvement in the pursuit unless the FCSD requests continued assistance.

Should any agency expressly request that the California Highway Patrol (CHP), Fresno Police Department (FPD) or the Clovis Police Department (CPD) take over or assume the pursuit and the agency agrees, it is understood that CHP, FPD, or CPD unit(s) shall thereafter have immediate and complete control and responsibility of the pursuit. All other agencies should discontinue their involvement in the pursuit unless the controlling agency requests additional assistance.

314.8.5 ASSUMPTION OF PURSUIT BY ANOTHER AGENCY

In the event that units from multiple agencies continue to participate in a pursuit which has not been expressly turned over or relinquished to FCSD, control and responsibility for each involved unit shall remain with the unit's own agency or the agency that assumed the pursuit.

Upon discontinuing the pursuit, the primary unit may proceed upon request, with or at the direction of a supervisor, to the termination point to assist in the investigation. When the distance involved makes this impractical, the officer should meet the arresting officers at the FCJ or other place of confinement.

The role and responsibilities of officers at the termination of a pursuit initiated by this Department shall be coordinated with appropriate consideration of the units from the agency assuming the pursuit. The agency initiating the pursuit should assume responsibility for handling the prosecution of the violation for which the pursuit was initiated. When non-traffic violations have occurred subsequent to the pursuit being relinquished to another agency, the agency that has assumed the pursuit and witnessed these violations will be responsible for their prosecution.

Notification of a pursuit in progress should not be construed as a request to join the pursuit. Requests to or from another agency to assume a pursuit should be specific. Because of communication limitations between local agencies, FCSD, and CHP units, a request for CHP assistance will mean that they will assume responsibilities for the pursuit. For the same reasons, when a pursuit leaves the freeway and a

request for assistance is made to this Department, the CHP should relinquish control.

314.8.6 PURSUITS EXTENDING INTO THIS JURISDICTION

The agency that initiates a pursuit shall be responsible for conducting the pursuit. Units from this Department should not join a pursuit unless specifically requested to do so by the pursuing agency and with approval from a supervisor. The exception to this is when a single unit from the initiating agency is in pursuit. Under this circumstance, a supervisor may authorize units from this Department to join the pursuit until sufficient units from the initiating agency joins the pursuit.

When a request is made for this Department to assist or take over a pursuit from another agency that has entered this jurisdiction, the supervisor should consider:

- (k) Ability to maintain the pursuit;
- (l) Circumstances serious enough to continue the pursuit;
- (m) Adequate staffing to continue the pursuit;
- (n) The public's safety within this jurisdiction; and
- (o) Safety of the pursuing officers.

As soon as practical, a supervisor or Field Commander should review a request for assistance from another agency. The Field Commander or supervisor, after consideration of the above factors, may decline to assist in, or assume the other agency's pursuit.

Assistance to a pursuing allied agency by officers of this Department will terminate at the City limits provided that the pursuing officers have sufficient assistance from other sources. Ongoing participation from this Department may continue only until sufficient assistance is present.

In the event that a pursuit from another agency terminates within this jurisdiction, officers shall provide appropriate assistance to officers from the allied agency including, but not limited to, scene control, coordination and completion of supplemental reports and any other assistance requested or needed.

314.9 WHEN PURSUIT INTERVENTION IS AUTHORIZED

Whenever practicable, an officer shall seek approval from a supervisor before employing any pursuit intervention to stop the pursued vehicle. In deciding whether to use intervention tactics, officers/supervisors should balance the risks of allowing the pursuit to continue with the potential hazards to the public arising from the use of each tactic, the officers, and persons in or on the pursued vehicle to determine which, if any, intervention tactic may be reasonable.

314.9.1 USE OF FIREARMS

The use of firearms to disable a pursued vehicle is not generally an effective tactic and involves all the dangers associated with discharging firearms. Officers should not utilize firearms during an ongoing pursuit unless the conditions and circumstances dictate that such use reasonably appears necessary to protect life. Nothing in this section shall be construed to prohibit any officer from using a firearm to stop a suspect from using a vehicle as a deadly weapon.

314.9.2 INTERVENTION STANDARDS

Any pursuit intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to the officers, the public, or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of deadly force and subject to the requirements for such use. Officers should consider these facts and requirements prior to deciding how, when, where, and if an intervention tactic should be employed.

(c) [REDACTED]

1) [REDACTED]

- (g) Canine handlers involved in a pursuit are discouraged from using any intervention technique that creates a likelihood of injury or damage to specialized canine equipment (dog/vehicle). When possible, an effort shall be made to designate another officer as the officer initiating an intervention technique.
- (h) Transport wagons are discouraged from engaging in vehicle pursuits and from using pursuit

intervention techniques, due to their size and limited capabilities.

314.9.3 CAPTURE OF SUSPECTS

Proper self-discipline and sound professional judgment are the keys to a successful conclusion of a pursuit and apprehension of evading suspects. Officers shall use only that amount of force, which reasonably appears necessary under the circumstances, to properly perform their lawful duties.

Unless relieved by a supervisor, the primary pursuing officer should coordinate efforts to apprehend the suspects following the pursuit. Officers should consider the safety of the public and the involved officers when formulating plans for setting up perimeters or for containing and capturing the suspects.

314.10 REPORTING REQUIREMENTS

Whenever a pursuit occurs, prior to completion of their shift, supervisors shall:

- (a) Create a pursuit review package using the BlueTeam web interface to include answering related questions and selecting appropriate entries via drop down boxes;
- (b) Click "save" (can be accessed by the IA secretary);

The supervisor shall ensure a written report and critique is prepared in an approved format (pursuit review form), to determine whether the pursuit was within Department guidelines. Once it has been completed, the supervisor shall submit the critique via BlueTeam along with the police report (and all associated reports, i.e. collision report), audio recording of the pursuit AVL data, and Body Worn Camera footage shall be submitted to the Pursuit Review Officer for review and a determination of the findings.

The following reports should be completed to comply with appropriate local and state regulations:

- (a) The primary officer shall complete appropriate crime/arrest reports;
- (b) Pursuant to VC §14602.1(b), the Pursuit Review Officer shall complete form CHP 187A, Allied Agency Vehicle Pursuit Report, to be filed with the CHP either electronically or on paper not later than 30 days after the pursuit. This pursuit report shall minimally contain the following information:
 - 1) Whether any person involved in the pursuit or subsequent arrest was injured, specifying the nature of that injury and differentiating between the suspect driver, a suspect passenger and the officers involved;
 - 2) The violation(s) that caused the pursuit to be initiated;
 - 3) The identity of the officers involved in the pursuit;
 - 4) The means or methods used to stop the suspect being pursued;
 - 5) The charges filed with the court by the district attorney;
 - 6) The conditions of the pursuit, including, but not limited to, all of the following:
 - I. Duration;
 - II. Mileage;
 - III. Number of officers involved
 - IV. Maximum number of units involved;
 - V. Time of day;
 - VI. Weather conditions; and
 - VII. Maximum speeds.
 - 7) Whether the pursuit resulted in a collision and a resulting injury or fatality to an uninvolved third party, and the corresponding number of persons involved;
 - 8) Whether the pursuit involved multiple agencies; and
 - 9) How the pursuit was terminated.
- (c) After first obtaining available information, a field supervisor shall promptly complete a pursuit critique forwarding the critique to the Pursuit Review Officer via BlueTeam. This memo should minimally contain the following information:
 - 1) Date and time of pursuit;
 - 2) Length of pursuit;
 - 3) Involved units and officers;
 - 4) Initial reason for pursuit;

- 5) Starting and termination points;
- 6) Disposition: arrest, citation, etc. Arrestee information should be provided if applicable;
- 7) Injuries and/or property damage;
- 8) Medical treatment;
- 9) Name of supervisor at scene;
- 10) A preliminary determination, simply stating whether the pursuit appears to be in compliance with this policy; and
- 11) Determine the need for any additional review and/or follow up.

The Pursuit Review Officer shall forward the critique and their findings to the Bureau Commander through the involved officer's chain of command via BlueTeam. The Pursuit Review Officer, or any staff officer in the chain of command, may return the critique to the supervisor and direct an internal investigation be conducted. The Pursuit Review Officer will conduct a documented annual analysis of pursuit reports.

Automated Vehicle Locator (AVL) data, including an analysis of the data, shall be included in pursuits resulting in administrative investigations or pursuits involving a collision resulting in serious injury or death. AVL data should be reviewed by members of the Field Automation System Unit for an accurate interpretation.

314.11 REGULAR AND PERIODIC PURSUIT TRAINING

In addition to initial and supplementary POST training on pursuits required by PC §13519.8, all sworn members of this Department will participate no less than annually in regular and periodic Department training addressing this policy and the importance of vehicle safety and protecting the public at all times, including a recognition of the need to balance the known offense and the need for immediate capture against the risks to officers and others. [VC §17004.7(d)].

314.12 POLICY REVIEW

Each sworn member of this Department shall certify in writing that they have received, read and understand this policy initially and upon any amendments. The Policy and Procedures Unit will conduct a documented annual review of pursuit policies and reporting procedures.

314.13 APPLICATION OF MOTOR VEHICLE PURSUIT POLICY

This policy is expressly written and adopted pursuant to the provisions of VC §17004.7, with additional input from the POST Vehicle Pursuit Guidelines.

315.1 POLICY

When members are dispatched to a Call For Service (CFS), they should place themselves enroute and respond without delay.

315.1.1 PURPOSE AND SCOPE

The Department recognizes the importance of timely response of police services to its citizens. The purpose of this policy is to provide a guideline to accomplish this task.

315.4 TELEPHONIC REPORTING

When the priority of the call (i.e. 7, 8, "T") or the type of call indicates it may be handled telephonically, a member's physical presence is not required.

The following types of calls may be handled telephonically:

- (a) Petty theft (including bicycles);
- (b) Grand theft;
- (c) Vehicle theft;
- (d) Vandalism;
- (e) Lost property;
- (f) Out of jurisdiction missing person;
- (g) Walk away from board and care facility;
- (h) Runaway juvenile from a group/foster home (12 years of age and over);
- (i) Threatening phone call;
- (j) Courtesy report for out-of-town agency;
- (k) Prior disturbance;
- (l) Violation of restraining order;
- (m) Follow-up information on prior cases;
- (n) Prior hit and run accident; and
- (o) Calls approved by a supervisor.

315.4.1 EXCEPTIONS

The calls listed above shall not be handled telephonically when:

- (a) There is a suspect in custody;
- (b) There is a probability of immediate apprehension of a suspect;
- (c) An involved party is in immediate physical danger;
- (d) There are exigent circumstances which require the physical presence of a member (e.g., excessively high value of loss, potential witnesses in the area, etc.);
- (e) A prior disturbance or restraining order violation involves domestic violence;
- (f) There is a probability of recovering usable evidence; or
- (g) The property being reported could be either lost or stolen, and the serial number is not known at the time of the report. This includes serialized City of Fresno trash cans. The victim is to be advised to complete their own report via the Internet, or by responding to Police HQ, or any District Station open to the public.

315.5 RESPONDING TO CALLS FOR SERVICE

When members are dispatched to a call, they should place themselves enroute and respond without delay. Members handling calls for service (CFS) should direct their attention toward the long term solution of the problem.

Personnel assigned to modified duty with telephonic report responsibilities may be assigned to re-contact reporting parties for additional information on calls that have been holding for an extended period. If officers are no longer needed, the call may be cleared out, when appropriate.

315.5.1 CONFLICTING REQUESTS FOR SERVICE

When a member is dispatched to a call and encounters another situation requiring police service while enroute, they should advise the Emergency Services Dispatcher (ESD) of the situation and proceed according to the instructions of the ESD. When the member is instructed to continue on the original call, they should advise the person(s) involved in the second incident that another member will respond as soon as possible. Members encountering such a situation should not instruct the contacting citizen to call the Department. Instead, sufficient information shall be provided to the ESD to prepare an event for later dispatching.

Members responding to a high priority call (priority "0" and "1") should not stop or delay their response for any activity other than another emergency. The ESD shall be immediately notified of a new incident to permit a decision to be made as to whether the unit will be preempted for the new emergency or required to respond to the original call.

315.5.2 SELF-INITIATION DURING CALL RESPONSES

Members responding to a high priority call shall not self-initiate any activity that will delay their response to the call except as necessary to protect lives or property.

- (a) When such a delay occurs, the responding member shall immediately advise the ESD and request that they be released from the call and reassigned to the new incident.
- (b) The ESD may permit preemption consistent with the priority of pending CFS.

Field supervisors are responsible for monitoring personnel under their supervision to ensure that self-initiated preemptions from CFS are warranted.

315.5.3 NON-DISPATCHED UNITS

Field units should not go by the location of a call assigned to another unit unless requested, or it reasonably appears necessary for officer safety purposes.

315.5.4 "ANY UNIT" RESPONSES FOR "0" PRIORITY EMERGENCY CFS

- (a) When an ESD asks for a response from "any unit" or "any unit available," the request shall be construed as applying to all uniformed field officers, supervisors, and staff; regardless of location, or area of assignment. When an ESD requests a response from officers in a certain

policing District, it shall apply to all uniformed officers, supervisors, and staff who are logged on to the MDS, including traffic and bike units who are assigned to, temporarily within, or immediately adjacent to the affected District;

- (b) When an ESD broadcasts an "any unit" request, officers, supervisors and staff that are available or can make themselves available shall acknowledge by radio, give their location, and await instructions from the ESD;
- (c) The ESD shall utilize the AVL map or the AVL unit recommender in determining the closest appropriate unit to send or break from a lower priority CFS in order to respond to the higher priority CFS for which the request was made. The ESD will follow communications Policy in determining which unit(s) should be dispatched to a CFS;
- (d) When there is no immediate response, utilizing the AVL unit recommender, ESD's will break the required number of units from lower priority CFS and dispatch them to handle the higher priority CFS;
- (e) ESD's shall not request "any unit" responses for "0" priority CFS when there are patrol units assigned to that District "in service" and available to respond. Units assigned to that District shall be dispatched to CFS within their District unless there is a unit from a different District which is closer to the CFS, and the District unit would have an extended arrival time;
- (f) ESD's shall advise a field supervisor, Operations Commander, or Field Commander when no units are available to respond to a "0" priority CFS; and
- (g) When an ESD determines that a patrol vehicle's AVL is malfunctioning or not registering, the District supervisor of that unit will be notified. The supervisor will ensure that the vehicle is pulled from service at the earliest opportunity and tagged for repair.

315.5.5 CROSS-DISTRICT DISPATCHING

ESD's shall strive to ensure that the officers assigned to a particular beat or District respond to the CFS within their District of responsibility.

- (a) It may become necessary to direct resources to Districts where emergency CFS are backlogged when there is little likelihood of CFS being answered within a reasonable time.
- (b) Under these circumstances, all uniformed officers, supervisors, and staff who are logged on to the MDS, including traffic and bike units who are temporarily within, or immediately adjacent to the affected District may also be cross-District dispatched for "0" priority CFS.
- (c) Plainclothes units should not be sent by themselves to CFS requiring the presence of uniformed officers.
- (d) Only uniformed patrol officers assigned to a beat or District shall be subject to cross-District dispatch of "1" priority CFS. CFS in the priority "2", "3", "4" and T categories may be cross-District dispatched to Cadets.
- (e) Officers and Cadets may be dispatched to any call at the discretion of a District, Operations or Field Commander.

315.5.6 LATE CFS

Field members on duty are considered available for assignment to CFS until they go off duty.

- (a) Members shall not "log off" or turn their radios off more than five minutes before their shift is over.
- (b) ESD's should try not to assign low priority CFS that will extend a field unit beyond the end of their shift.

- (d) Members receiving such CFS will handle them without questions or complaints to ComCen personnel.
- (e) When an officer feels an ESD acted improperly, it may be brought to the attention of the member's immediate supervisor who will discuss it with the ComCen supervisor after the call is completed.

315.5.7 CALL ARRIVAL/MULTIPLE UNIT RESPONSES

A member's first consideration on arriving at a call should be the protection of life balanced by the need for officer safety.

- (a) When assistance appears to be needed, it should be requested immediately.

- (b) Pending the arrival of assistance, the member should take the safest measures possible to provide necessary assistance to those at risk of injury without unnecessarily jeopardizing their own safety.
- (c) When more than one unit is sent on a call, the primary unit (i.e. the member designated by the ComCen to handle the call) is responsible for coordinating the response and arrival of assisting units.
- (d) The first unit arriving on a multi-unit call shall advise of their arrival on the radio to alert assisting unit(s).

315.6 GENERAL CALL HANDLING

Members handling CFS should direct their attention toward the long term solution of the problem. When appropriate, district problems which require strategic approaches shall be referred to the district commander for consideration of assignment to the POP Team.

315.6.1 PRELIMINARY CONTACTS & EVALUATION

RP's who are identified in the call should be contacted as soon as possible after arrival, unless the RP has requested that they not be contacted. When the RP is unknown, any potential witnesses should be contacted to determine the exact nature of the call. The first arriving officer shall evaluate the need for additional assistance and/or immediate actions that need to be taken. The primary officer assigned to a call is ultimately responsible for handling the call.

Members shall take all reasonable and appropriate actions to resolve complaints after a complete determination of the facts has been made. When a report is taken, the field member shall provide the victim/RP with a Department business card containing the member's name, badge and phone numbers, and case number. The member should also complete the back of the card to reflect the applicable follow-up actions available. When no report is written, the member may also leave a card to facilitate re-contact to further discuss the problem. When a call is handled telephonically, the required information shall be provided verbally to the caller.

315.6.2 INTERVIEWING INVOLVED PARTIES (IPS)

The primary officer shall make every effort to interview all parties involved in an incident before deciding on a course of action or disposition of the call. The RP or witness identity should not be disclosed to other IPs without the express permission of the parties in question.

315.6.3 PUBLIC SATISFACTION

When possible, members shall strive to resolve calls to the satisfaction of all parties involved and to provide services as appropriate.

315.6.4 INFORMING RP OF ACTION TO BE TAKEN / DISPOSITION

Members shall attempt to inform the RP of the course of action that will be taken by the police unless no contact has been requested. When members are successful in resolving a complaint they should attempt to notify the RP of the incident disposition in a timely manner.

315.6.5 INABILITY TO ACT

Should members be unable to take action in response to a CFS, they shall attempt to inform the RP as to why they cannot act. This may involve giving information regarding the law, explaining the rights of the involved parties, the limited authority vested in the police, or the lack of a criminal violation.

315.6.6 REFERRALS

Members may make referrals to appropriate public or private agencies/organizations when they may enhance the resolution of the complaint. When explaining the availability of services available through

private providers, members shall not make specific recommendations of businesses but should attempt to provide a range of options.

315.6.7 CIVIL LAW

Members should not attempt to explain civil law in civil cases beyond their expertise and training. Members may relate general legal principles and procedures whereby a person may obtain assistance such as retaining or consulting with an attorney.

315.6.8 CHRONIC/SPITE COMPLAINTS

When a chronic problem is identified, the RP should be re-contacted periodically to determine if the conditions complained of have improved and to assure the party of a continued police effort on their behalf. Sector officers are responsible for developing courses of action designed to abate the cause(s) of complaints.

315.6.9 911 HANG-UPS WITH UNKNOWN CIRCUMSTANCES

Members responding to 911 hang-ups with unknown circumstances shall take the following steps:

- (a) Check for signs of a struggle (e.g. broken/damaged property);
- (b) Ensure a call-back was attempted by ComCen;
- (c) Knock on the door and announce police presence;
- (d) Request ComCen call-back while officers are present to listen for a phone ringing inside the residence/structure;
- (e) Contact neighbors for any potential information;
- (f) Check prior calls at the location for information on the occupants;
- (g) Add notes to the event documenting efforts to contact the caller; and
- (h) Prior to clearing 911 hang-up calls from cell phones, wait until ComCen has made every attempt to narrow down the originating calls location.

When the primary officer is unable to make contact with the caller, they shall contact a supervisor to advise them of the situation. The supervisor will then determine whether officers should clear the call or make a forced entry.

315.6.10 CELL PHONE EMERGENCY PINGS

When an officer believes in good faith that an emergency involves the danger of death or serious physical injury to any person and requires access to the electronic information, the officer may request an emergency ping to obtain electronic information pursuant to the emergency exception of the California Electronic Communications Privacy Act (CalECPA) with supervisor approval.

When electronic information is obtained from the emergency ping request, the supervisor shall notify the corresponding investigation unit supervisor of the emergency ping and request for the filing of a warrant, order or motion seeking approval of the emergency disclosure within three days. - (a) Deaths,
- (b) Officer involved shootings (of people),
- (c) Injuries where death is likely to result, and
- (d) Fatal accidents.

When an officer subsequently determines that the Chaplain cannot be utilized on a call within these categories, the ComCen should be notified as soon as such a determination is made so that the Chaplain may be canceled.

When there is any other type of call where an officer believes a Chaplain may be of assistance, the ComCen shall be requested to dispatch one or more, as needed.

315.11 CITIZENS ON PATROL

Citizens on Patrol (COP's) should be utilized to assist with traffic and crime scene control, vehicle towing/impounds and parking violations. COP's may also be assigned to assist on other non-emergency CFS, based on the needs of the Department.

315.12 GRAFFITI ABATEMENT

Graffiti Abatement employees are responsible for checking the Graffiti Hotline and responding to calls for graffiti abatement. Whenever possible, graffiti abatement should occur within 24 hours of being reported to the Hotline. Prior to eradicating graffiti, digital photographs of the graffiti will be taken by a member of the Graffiti Abatement Team. The photographs should be emailed to a member of MAGEC and the appropriate District Investigations/Problem Oriented Policing supervisor.

315.13 SUPERVISORY RESPONSIBILITY

Field supervisors shall monitor CFS to ensure that only the necessary units remain on a call and that the call is handled in the shortest possible time.

Supervisors receiving photographs of graffiti reported to the Graffiti Abatement Team should forward the photos to the appropriate investigator for informational purposes.

316.1 POLICY

Officers responding "Code-3" (with lights and siren) shall continuously operate emergency lighting equipment, including at minimum a steady forward-facing red light, and shall sound the siren as reasonably necessary pursuant to Vehicle Code §21055.

Officers responding Code-3 are not relieved of the duty to continue to drive with due regard for the safety of all persons. When responding Code-3, officers shall activate their body-worn camera as set forth within Policy §450.4.

316.1.1 PURPOSE AND SCOPE

This policy provides for the safe and appropriate response to emergency and non-emergency situations whether dispatched or self-initiated.

316.2 VEHICLES AUTHORIZED FOR CODE-3 OPERATION

No vehicle transporting prisoners shall operate Code-3 at any time for any reason. Patrol wagons or plain cars with interior-mounted or spotlight type red lights and sirens shall not be operated Code-3 except in cases of an emergency, and then only when a patrol vehicle is unavailable to respond.

316.3 AUTHORIZED CODE-3 RESPONSES

Operation of a vehicle Code-3 is authorized and should be utilized under these conditions:

- (a) While in immediate pursuit (mandatory);
- (b) When directed by, or approval is received from, a supervisor or staff officer;
- (c) In response to an officer/firefighter/paramedic call for help (emergency situations only);
- (d) In response to ALL priority "0" calls for service (CFS);
- (e) In response to a life-threatening incident (non-crime related) where serious injury or death is potentially imminent or has been reported; or
- (f) In response to priority "1" CFS which are in-progress AND the suspect(s) are in the immediate vicinity and apprehension is likely.

316.4 NOTIFICATION OF CODE-3 RESPONSE

Except in response to a call of an officer needs help, any officers responding Code-3 shall state over the radio that they are responding Code-3 and give their location.

316.5 SUPERVISORY RESPONSIBILITY

It is the responsibility of all supervisors to review Code-3 responses by their subordinates to ensure compliance with this order. Supervisors shall monitor their subordinates' emergency driving to ensure that they drive with due regard for the safety of all persons using the highway. Improper driving behavior that is identified shall be corrected through counseling, training, or disciplinary measures.

316.6 CODE-3 VEHICLE OPERATION

Members utilizing Code-3 shall drive with due regard for the safety of all persons using the highway. The vehicle's emergency warning lights shall be activated, and the siren shall be sounded as may be reasonably necessary to warn other drivers and pedestrians (VC §§21055, 21056, 21057, and 22350.)

The use of any other warning equipment without a red light and siren does not provide an exemption from the Vehicle Code.

316.7 CODE-3 REQUESTS FOR ASSISTANCE

Members may request Code-3 assistance when confronted with an emergency situation which:

- (a) Presents a clear and present danger to the member's or other persons' safety; or
- (b) Threatens to rapidly evolve into a clear and present danger to the member's or other persons' safety.

When possible, requests for assistance Code-3 shall include the number of officers needed to respond. Unless otherwise specified by the requesting officer, the ComCen will dispatch a minimum of two units to respond to the Code-3 request.

Upon resolution of the situation, the immediate supervisor of the member requesting assistance Code-3 shall review the circumstances relating to the request and the necessity of a Code-3 response.

316.8 FAILURE OF EMERGENCY EQUIPMENT

If the emergency equipment on the vehicle should fail to operate, the officer must terminate the Code-3 response and respond accordingly. In all cases, the officer shall notify the Shift Sergeant, field supervisor, or the ComCen of the equipment failure so that another unit may be assigned to the emergency response.

316.9 EMERGENCY VEHICLE PREEMPTION

[REDACTED]

[REDACTED] Members utilizing EVP technology shall drive with due regard for the safety of all persons using the highway and keep in mind the following;

- (a) Intersections being entered against the signal should be cleared one lane at a time;
- (b) Passing on the right should be avoided except under circumstances ensuring it is a safe maneuver;
- (c) Alertness for distracted drivers and pedestrians who are unaware of your approach, despite your lights and sirens;
- (d) Awareness that drivers ahead of you may not hear your siren on the approach and may make abrupt and panicked driving maneuvers at the last second, so drive accordingly.

Fresno Police Department Policy Manual
Mail Offenses

317.1 POLICY

Members who are assigned to any U.S. mail offense are responsible for conducting the initial investigation and reporting the incident in the absence of a Postal Inspector. Members shall request special routing to the Postal Inspector of pertinent reports they have written.

317.1.1 PURPOSE AND SCOPE

Title 18, United States Code §1708, makes it a felony to possess stolen mail. Officers who come into contact with persons suspected of possessing stolen mail shall consider enforcement action as with any other criminal offense. Fresno Police Department Policy Manual

Canine Program

318.1 POLICY

It is the policy of the Fresno Police Department that teams of handlers and canines meet and maintain the appropriate proficiency to effectively and reasonably carry out legitimate law enforcement objectives.

318.1.1 PURPOSE AND SCOPE

The Fresno Police Department maintains a high regard for human life and a high respect for the rule of law. This policy establishes guidelines for the use of canines to augment police services to the community including, but not limited to locating individuals and contraband and apprehending criminal offenders.

318.2 TRAINING

Before assignment in the field, each canine team shall be trained and certified to meet current California P.O.S.T. standards or the Department's chosen certifying agency. Cross trained dog teams or those dog teams trained exclusively for the detection of narcotics and/or explosives shall be trained and certified to meet the standards established for such detection dogs by the California Narcotic Canine Association or the Department's chosen certifying agency.

318.3 CANINE SUPERVISOR

The canine supervisor shall be appointed by and directly responsible to the Canine Unit Commander or the authorized designee.

The responsibilities of the supervisor include, but are not limited to:

- (a) Reviewing all canine use reports to ensure compliance with policy and to identify training issues and other needs of the program.
- (b) Maintaining a liaison with the vendor kennel.
- (c) Maintaining a liaison with command staff and field supervisors.
- (d) Maintaining a liaison with other agency canine coordinators.
- (e) Maintaining accurate records to document canine activities.
- (f) Recommending and overseeing the procurement of canines, equipment and services for the teams of handlers and canines.
- (g) Scheduling canine-related activities.
- (h) Ensuring the canine teams are scheduled for regular training to maximize their capabilities.

318.4 HANDLER RESPONSIBILITIES

The canine handler is responsible for the health and welfare of the canine and shall ensure that the canine receives proper nutrition, grooming, training, medical care, affection and living conditions.

The canine handler is responsible for the following:

- (a) Except as required during appropriate deployment, the handler shall not expose the canine to any foreseeable and unreasonable risk of harm.
- (b) The handler shall maintain all department equipment under their control in a clean and serviceable condition.
- (c) When not in service and not secured inside a lockable, enclosed garage, all Department equipment will be removed and secured away from the vehicle.
- (d) Handlers shall permit the canine supervisor to conduct spontaneous on-site inspections of affected areas of their homes as well as their canine vehicles to verify that conditions and equipment conform to this policy.
- (e) Any changes in the living status of the handler that may affect the lodging or environment of the canine shall be reported to the canine supervisor as soon as possible.

- (f) If the handler has a change in residence, they will be responsible for the transfer and installation of the canine kennel to the new place of residence.
- (g) When off-duty, the canine shall be in a kennel provided by the City at the home of the handler. When a canine is kenneled at the handler's home, the gate shall be secured with a lock. When off-duty, the canine may be let out of the kennel while under the direct control of the handler.
- (h) The canine should be permitted to socialize in the home with the handler's family for short periods of time and under the direct supervision of the handler.
- (i) Under no circumstances will the canine be lodged at another location unless approved by the canine supervisor or Unit Commander.
- (j) When off-duty, the handler shall not involve the canine in any law enforcement activity or official conduct unless approved in advance by the canine supervisor or Unit Commander.
- (k) When a canine handler is off-duty for an extended number of days, it may be necessary to temporarily relocate the canine. In those situations, the handler shall give reasonable notice to the canine supervisor so that appropriate arrangements can be made.

318.5 PREPARATION FOR DEPLOYMENT

Prior to the use of a canine to search for or apprehend any suspect, the canine handler and/or the supervisor on-scene should carefully consider all pertinent information reasonably available at the time. The information should include, but is not limited to:

- (a) The nature and seriousness of the suspected offense.
- (b) Whether violence or weapons were used or are anticipated.
- (c) The degree of resistance or threatened resistance, if any, the suspect has shown.
- (d) The suspect's known or perceived age.
- (e) The potential for injury to officers or the public caused by the suspect if the canine is not utilized.
- (f) Any potential danger to the public and/or other officers at the scene if the canine is released.
- (g) The potential for the suspect to escape or flee if the canine is not utilized.
- (h) Whether the individual is reasonably believed to be under the influence or otherwise mentally impaired.

As circumstances permit, the canine handler should make every reasonable effort to communicate and coordinate with other involved members to minimize the risk of unintended injury.

It is the canine handler's responsibility to evaluate each situation and determine whether the use of a canine is appropriate and reasonable. The canine handler shall have the authority to decline the use of the canine whenever they deem deployment is unsuitable.

A supervisor who is sufficiently apprised of the situation may prohibit deploying the canine.

Unless otherwise directed by a supervisor, assisting members should take direction from the handler in order to minimize interference with the canine.

318.6 WARNINGS AND ANNOUNCEMENTS

Unless it would increase the risk of injury or escape, a clearly audible warning announcing that a canine will be used if the suspect does not surrender should be made prior to utilizing a canine. The handler should allow a reasonable time for a suspect to surrender and should quiet the canine momentarily to listen for any verbal response to the warning. If feasible, other members should be in a location opposite the warning to verify that the announcement could be heard. If available, warnings given in other languages should be used as necessary.

- (a) Providing adequate time for anyone within the search area to make themselves known and give up/come out;
- (b) Having announcements made by a different officer at a different location so as to not compromise the canine's position;
- (c) Utilization of public address systems (car or helicopter); and
- (d) Giving several announcements, speaking slowly and clearly enough to be understood.

- (e) During a search for a suspect, the canine may alert to the presence of a concealed suspect. When this occurs, and when reasonable and tactically feasible, an additional “announcement” should be given to afford the suspect another opportunity to peacefully surrender.

If a warning is not to be given, the canine handler, when practicable, should first advise the supervisor of their decision before releasing the canine. In the event of an apprehension, the handler shall document in any related report how the warning was given and, if none was given, the reasons why.

318.7 APPREHENSION GUIDELINES

A canine may be used to locate and apprehend a suspect if the canine handler reasonably believes that the individual has either committed, is committing or threatening to commit any serious offense and if any of the following conditions exist:

- (a) There is a reasonable belief the suspect poses an imminent threat of violence or serious harm to the public, any officer or the handler.
- (b) The suspect is physically resisting or threatening to resist arrest and the use of a canine appears to be objectively reasonable to overcome such resistance.
- (c) The suspect is believed to be concealed in an area where entry by other than the canine would pose a threat to the safety of officers or the public.

It is recognized that situations may arise that do not fall within the provisions set forth in this policy. Such events require consideration of the totality of the circumstances and the use of an objective reasonableness standard applied to the decision to use a canine.

Absent a reasonable belief that a suspect has committed, is committing or is threatening to commit a serious offense, mere flight from a pursuing officer, without any of the above conditions, shall not serve as the basis for the use of a canine to apprehend a suspect.

Once the suspect has been located and no longer reasonably appears to present a threat or risk of escape, the handler should secure the canine as soon as it becomes reasonably practicable.

If the canine has apprehended the suspect, and the handler believes that the suspect no longer poses a threat, the handler should command the canine to release the suspect.

318.8 REPORTING DEPLOYMENTS, BITES AND INJURIES

Whenever a canine deployment results in a bite or causes injury to an intended suspect, a supervisor should be promptly notified and the injuries documented in a canine use report. The responding supervisor shall complete the Use of Force documentation in IA Pro/Blue Team and forward to the Canine Supervisor for review.

The injured person shall be treated by emergency medical services personnel as soon as practical and, if appropriate, transported to an appropriate medical facility for further treatment. The deployment and injuries should also be included in any related incident or arrest report.

Any unintended bite or injury caused by a canine, whether on- or off-duty, shall be promptly reported to the canine supervisor. Unintended bites or injuries caused by a canine should be documented in an administrative report, not in a canine use report.

If an individual has or alleges an injury, either visible or not visible, a supervisor shall be notified and both the individual's injured and uninjured areas shall be photographed as soon as practicable after first tending to the immediate needs of the injured party. Photographs shall be retained as evidence in accordance with current department evidence policy. The photographs shall be retained until the criminal proceeding is completed and the time for any related civil proceeding has expired.

318.9 NON-APPREHENSION GUIDELINES

Properly trained canines may be used to track or search for non-criminals (e.g., lost children, individuals who may be disoriented or in need of medical attention). The canine handler is responsible

for determining the canine's suitability for such assignments based on the conditions and the particular abilities of the canine. When the canine is deployed in a search or other non-apprehension operation, the following guidelines apply.

- (a) Absent a change in circumstances that present an imminent threat to officers, the canine or the public, such operations should be conducted on-leash or under conditions that minimize the likelihood the canine will bite or otherwise injure the individual, if located.
- (b) Unless otherwise directed by a supervisor, assisting members should take direction from the handler in order to minimize interference with the canine.
- (c) Throughout the deployment the handler should periodically give verbal assurances that the canine will not bite or hurt the individual and encourage the individual to make themselves known.
- (d) Once the individual has been located, the handler should place the canine in a down-stay or otherwise secure it as soon as reasonably practicable.

318.10 NARCOTICS DETECTION

A canine trained in narcotics detection may be used in accordance with current law and under certain circumstances, including:

- (a) The search of vehicles, buildings, bags and other articles.
- (b) Assisting in the search for narcotics during a search warrant service.
- (c) Obtaining a search warrant by using the narcotics-detection trained canine in support of probable cause.

A narcotics-detection trained canine will not be used to search a person for narcotics. A canine will not be used to conduct random searches of school locker(s) or vehicle searches on school sites.

318.11 BOMB / EXPLOSIVE DETECTION

Because of the high risk of danger to the public and officers when a bomb or other explosive device is suspected, the use of a canine team trained in explosive detection may be considered. When available, an explosive-detection canine team may be used in accordance with current law and under certain circumstances, including:

- (a) Assisting in the search of a building, structure, area, vehicle or article where an actual or suspected explosive device has been reported or located.
- (b) Assisting with searches at transportation facilities and vehicles (e.g., buses, airplanes, trains).
- (c) Preventive searches at special events, VIP visits, official buildings and other restricted areas. Searches of individuals should remain minimally intrusive and shall be strictly limited to the purpose of detecting explosives.
- (d) Assisting in the search of scenes where an explosion has occurred and an explosive device or secondary explosive device is suspected.

At no time will an explosive-detection trained canine be used to render a suspected device safe or clear.

318.12 ARTICLE DETECTION

A canine trained to find objects or property related to a person or crime may be used to locate or identify articles. A canine search should be conducted in a manner that minimizes the likelihood of unintended bites or injuries.

318.13 OUTSIDE AGENCY REQUEST

All requests for canine assistance from outside agencies must be approved by the on duty Commander and are subject to the following:

- (a) Canine teams shall not be used for any assignment that is not consistent with this policy.
- (b) The canine handler has the authority to decline a request for any specific assignment that they deem unsuitable.
- (c) It is the responsibility of the canine handler to coordinate operations with agency personnel in order to minimize the risk of unintended injury.
- (d) It shall be the responsibility of the canine handler to complete all necessary reports.

318.14 PUBLIC DEMONSTRATIONS

All public requests for a canine team shall be reviewed and, if appropriate, approved by the canine supervisor prior to making any resource commitment. The canine supervisor is responsible for obtaining resources and coordinating involvement in the demonstration to include proper safety protocols. Canine handlers shall not demonstrate any apprehension work unless authorized to do so by the canine supervisor.

318.15 CANINE IN PUBLIC AREAS

The canine shall be kept on a leash when in areas that allow access to the public. Exceptions to this rule would include specific law enforcement operations for which the canine is trained.

- (a) A canine shall not be left unattended in any area to which the public may have access.
- (b) When the canine vehicle is left unattended, all windows and doors shall be secured in such a manner as to prevent unauthorized access to the dog. The handler shall also ensure that the unattended vehicle remains inhabitable for the canine.

318.16 CANINE INJURY AND MEDICAL CARE

In the event that a canine is injured, or there is an indication that the canine is not in good physical condition, the injury or condition shall be reported to the canine supervisor or on-duty Commander as soon as practicable and appropriately documented. Arrangements for treatment shall be made by the handler for the canine's injury or condition to receive prompt attention as necessary.

The unit commander has the final authority in regards to medical treatment and procedures for the canines.

All medical attention shall be rendered by the designated canine veterinarian, except during an emergency where treatment should be obtained from the nearest available veterinarian. All records of medical treatment outside of the veterinary file shall be maintained by the canine unit supervisor.

318.17 HANDLER SELECTION

The minimum qualifications for the assignment of canine handler include:

- (a) An officer who is currently off probation;
- (b) Residing in an adequately fenced, single-family residence with a yard (minimum 6-foot high fence with locking gates). Officers living in an apartment are not qualified;
- (c) Willingness (and authority) to allow a City owned kennel to be installed by a contractor;
- (d) Take-home vehicles require the handler to live inside the City of Fresno or no more than fifteen (15) miles from the city limits;
 - 1) Canine Officers who reside farther than fifteen (15) miles from the City limits must leave their assigned vehicles at an approved City facility, and provide approved secure transportation for the canine from that point to their residences; and
- (e) Agreeing to be assigned to the position for the service life of the canine absent promotion opportunities.

318.18 HANDLER COMPENSATION

Canine handlers shall be available for call-out under conditions specified by the canine supervisor.

Canine handler shall be compensated for time spent in the care, feeding, grooming and other needs of the canine in accordance with the Fair Labor Standards Act (FLSA), and according to the terms of the collective bargaining agreement (29 United States Code §207).

318.19 TRAINING

Before assignment in the field, each canine team shall be trained and certified to meet current POST guidelines or other recognized and approved certification standards. Each canine team shall thereafter be recertified to a current POST, California Narcotic Canine Association (CNCA) or other recognized and approved certification standards on an annual basis.

Cross-trained canine teams or those canine teams trained exclusively for the detection of narcotics and/or explosives also shall be trained and certified by the CNCA or other recognized and approved certification standards established for their particular skills.

All canine training should be conducted while on-duty unless otherwise approved by the canine supervisor or Unit Commander.

Additional training considerations are as follows:

- (a) Canine handlers are encouraged to engage in additional training with approval of the canine supervisor.
- (b) To ensure that all training is consistent, no handler, trainer or outside vendor is authorized to train to a standard that is not reviewed and approved by this department.
- (c) Because canines may be exposed to dangerous substances such as opioids, the canine coordinator should also provide training for the canine handlers about the risks of exposure and treatment for it.

318.20 FAILURE TO COMPLETE TRAINING

Any canine team failing to graduate or obtain certification shall not be deployed in the field for tasks the team is not certified to perform until graduation or certification is achieved. Other restriction to canine deployment may be imposed on the handler by the canine supervisor (e.g., leash, muzzle) as deemed necessary and/or appropriate until standards are met.

318.21 TRAINING RECORDS

All canine training records shall be maintained by the Canine Supervisor.

318.22 TRAINING AIDS

Training aids are required to effectively train and maintain the skills of canines. Officers possessing, using or transporting controlled substances or explosives for canine training purposes must comply with federal and state requirements. Alternatively, officers may work with outside trainers with the applicable licenses or permits, with the approval of the canine unit supervisor.

318.23 CONTROLLED SUBSTANCE TRAINING AIDS

Officers acting in the performance of their official duties may possess or transfer controlled substances for the purpose of narcotics-detection canine training in compliance with state and federal laws (HS § 11367.5; 21 USC §823(f)).

The Chief of Police or the authorized designee may authorize a member to seek a court order to allow controlled substances seized by the Department to be possessed by the member or a narcotics-detection canine trainer who is working under the direction of this department for training purposes, provided the controlled substances are no longer needed as criminal evidence.

As an alternative, the Chief of Police or the authorized designee may request narcotics training aids from the Drug Enforcement Administration (DEA).

These procedures are not required if the canine handler uses commercially available synthetic substances that are not controlled narcotics.

318.24 CONTROLLED SUBSTANCE PROCEDURES

Due to the responsibilities and liabilities involved with possessing readily usable amounts of controlled substances and the ever-present danger of the canine's accidental ingestion of these controlled substances, the following procedures shall be strictly followed:

- (a) All controlled substance training samples shall be weighed and tested prior to dispensing to the individual canine handler or trainer.
- (b) The weight and test results shall be recorded and maintained by this department.

- (c) Any person possessing controlled substance training samples pursuant to court order or DEA registration shall maintain custody and control of the controlled substances and shall keep records regarding any loss of, or damage to, those controlled substances.
- (d) All controlled substance training samples will be stored in locked, airtight and watertight cases at all times, except during training. The locked cases shall be secured in an approved manner inside the canine handler's assigned patrol vehicle during transport and stored in an appropriate locked container. There are no exceptions to this procedure.
- (e) The canine supervisor shall periodically inspect every controlled substance training sample for damage or tampering and take any appropriate action.
- (f) Any unusable controlled substance training samples shall be returned to the Property/Evidence Section or to the dispensing agency.
- (g) All controlled substance samples shall be returned to the dispensing agency upon the conclusion of the training or upon demand by the dispensing agency.
- (h) Officers will maintain copies of the authorizing court orders with the training aids.

318.25 EXPLOSIVE TRAINING AIDS

Officers may possess, transport, store or use explosives or destructive devices in compliance with state and federal laws (Penal Code §18800; 18 USC §842; 27 Code of Federal Regulations §555.41).

Explosive training aids designed specifically for canine teams should be used whenever feasible. Due to the safety concerns in the handling and transportation of explosives, inert or non-hazardous training aids should be employed whenever feasible.

The use of explosives or destructive devices for training aids by canine teams is subject to the following:

- (a) All explosive training aids, when not in use, shall be properly stored in a secure facility appropriate for the type of materials.
- (b) An inventory ledger shall be maintained to document the type and quantity of explosive training aids that are stored.
- (c) The canine supervisor shall be responsible to verify the explosive training aids on hand against the inventory ledger once each quarter.
- (d) Only members of the canine team shall have access to the explosive training aids storage facility.
- (e) A primary and secondary custodian will be designated to minimize the possibility of loss of explosive training aids during and after the training. Generally, the handler will be designated as the primary custodian while the trainer or authorized second person on-scene will be designated as the secondary custodian.
- (f) Any lost or damaged explosive training aids shall be promptly reported to the canine supervisor, who will determine if any further action will be necessary. Any loss of explosives will be reported to the Bureau of Alcohol, Tobacco, Firearms and Explosives.

319.1 POLICY

Unless advised otherwise by a reporting party, members will respond to all person and business robberies, robbery alarms, and silent hold-up alarm calls for service, as though they were "in progress", exercising caution and making safety a priority.

319.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide a guideline for responding to robberies or alarm calls.

319.2 ROBBERY IN PROGRESS

A dispatcher receiving a call of a robbery in progress (including Sonitrol alarms), or one that has just occurred, shall attempt to keep the caller on the line and obtain the following information, which shall be broadcast as it is received:

- (a) Exact location of occurrence and name of the bank or business;
- (b) Whether the suspect(s) are present or have fled;
- (c) Complete description of suspect(s) and vehicle, direction of flight, and elapsed time since departure;
- (d) Weapon(s) used; and
- (e) Property taken.

319.3 ROBBERY ALARMS

A dispatcher, upon being notified of a silent hold-up alarm, shall broadcast the location and the name of the bank or business.

- (a) Dispatchers shall not attempt to re-contact the bank or business until asked to do so by responding units.
- (b) When a dispatcher is directed to re-contact the bank or business they shall follow the procedures listed in Section 319.2.

When the alarm is false, bank or business management personnel should be requested to exit and make contact with the responding officer and follow their directions. Additionally:

- (a) The description of the person initiating such contact shall be given to the officer;
- (b) The arriving officer shall direct the person who exits to an area of safety to ensure that a suspect did not send the employee out as a decoy;
- (c) The officer shall then check the premises to ensure that no further assistance is required; and
- (d) A False Alarm Notification card shall be completed and provided to an employee;
- (e) The officer shall make a note in the event report that a card was left with an employee;
- (f) The disposition code "E" for false alarm shall be used to clear the event.

319.4 OFFICER'S RESPONSE / ARRIVAL AT SCENE

A minimum of two officers will be dispatched to "robbery in progress", "robbery just occurred", and "silent hold-up alarm" calls.

- (a) The responding officer shall direct the dispatcher to re-contact the bank or business when appropriate.
- (b) When the suspect(s) have left the location, the primary unit or designee shall make contact with the victim(s) and witness(es), and shall broadcast a complete description of the suspect(s) and vehicle(s) as soon as possible.
- (c) All other responding units should check the area for suspect(s), witnesses and evidence.

When responding officers have reason to believe the suspect(s) are still present, officers shall assume a position to observe the location without being visible to the suspect(s).

- (a) Marked units should be out of immediate sight of the location.

(b) All exits to the bank or business shall be covered.

319.5 INVESTIGATIVE REQUIREMENTS

While the initial suspect(s) description (check boxes) on the report may appropriately describe a composite of victim/witness descriptions, the report narrative shall list each victim/witness description and actions of the suspect(s) separately in their respective statements.

- (a) The crime report shall reflect whether each witness/victim can identify the suspect(s) and whether they can do so by photo, in person, or both.

Every attempt shall be made to locate and preserve physical evidence (fingerprints, blood, masks, hats, etc.) at each robbery scene. Arrangements to photograph injuries sustained by the victim should be made as soon as possible after the incident is reported.

In any business robbery, both the business and the clerk(s) who were robbed (regardless of any personal loss), shall be listed as victims. Any customer who may also have been robbed shall also be listed as a victim.

319.6 DETECTIVE NOTIFICATION

The Robbery Unit supervisor shall be promptly notified by the ComCen when a confirmed bank robbery has occurred.

Video tape evidence from robberies shall be booked into the appropriate locker in the Property Evidence Control Section.

- (a) Tapes shall not be booked at any district station.

320 Domestic Violence

320.1 POLICY

The official Department response to cases of domestic violence shall be to stress the enforcement of the laws, to protect the victim, and to communicate the attitude that violent conduct in the home is criminal behavior and will not be tolerated.

320.1.1 PURPOSE AND SCOPE

Domestic violence is alleged criminal conduct and it is the policy of the Fresno Police Department to stress enforcement of criminal laws related to domestic violence, the protection of the victim, and the availability of civil remedies and community resources. This includes the arrest of domestic violence offenders if there is probable cause to believe an offense has occurred.

320.2 DEFINITIONS

Abuse - Intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury.

Domestic Violence - Abuse committed against an adult or minor who is a spouse, former spouse, cohabitant, former cohabitant, or a person with whom the suspect has had a child or is having or has had a dating or engagement relationship.

Cohabitant - Two unrelated adult persons living together for a substantial period of time, resulting in some permanence of relationship. Factors that may determine whether persons are cohabiting include, but are not limited to:

- (a) Sexual relations between the parties while sharing the same living quarters;
- (b) Sharing of income or expenses;
- (c) Joint use or ownership of property;
- (d) Whether the parties hold themselves out as husband and wife;
- (e) The continuity of the relationship; and
- (f) The length of the relationship.

The above definition of cohabitant is used for the application of enforcing Penal Code §273.5. Family Code §6209 expands the definition of cohabitant to include a person who regularly resides in the household or formerly regularly resided in the household for the application of enforcing Penal Code §836(d).

320.3 ENFORCEMENT OF DOMESTIC VIOLENCE

It is the intent of the Legislature that the official response to domestic violence stresses the enforcement of the laws to protect the victim and shall communicate the attitude that violent behavior is criminal behavior and will not be tolerated. The following factors should not be used to avoid making an arrest:

- (a) Marital status of suspect and victim;
- (b) Whether or not the suspect lives on the premises with the victim;
- (c) Existence or lack of temporary restraining order;
- (d) Potential financial consequences of arrest;
- (e) Complainant's history or prior complaints;
- (f) Verbal assurances that violence will cease;
- (g) Complainant's emotional state;
- (h) Nonvisible injuries;
- (i) Location of the incident (public/private);
- (j) Victim does not want to prosecute or make private person's arrest;
- (k) Speculation that complainant may not follow through with the prosecution; and
- (l) The case may not result in a conviction.

- (m) Actual or perceived characteristics such as race, sex, sexual orientation, gender, gender identity or expression, age, ethnicity, religion, creed, color, national origin, disability, marital status of the victim or suspect, military and veteran status, or any other classification or status protected by law.
- (n) The social status, community status, or professional position of the victim or suspect.

320.4 DOMINANT AGGRESSOR

In responding to domestic violence incidents, officers shall make reasonable efforts to identify the dominant aggressor in any incident. The dominant aggressor is the person determined to be the most significant, rather than the first, aggressor. In identifying the dominant aggressor, an officer shall consider:

- (a) The intent of the law to protect victims of domestic violence from continuing abuse;
- (b) The threats creating fear of physical injury;
- (c) The history of domestic violence between the persons involved; and
- (d) Whether either person acted in self-defense.

320.5 FELONY ARRESTS

In accordance with state law, an arrest should be made when there is probable cause to believe a felony has occurred.

320.6 MISDEMEANOR ARRESTS

In accordance with state law, an arrest should generally be made when there is probable cause to believe a misdemeanor, including violations of court orders, has occurred.

- (a) Police officers may make an arrest without a warrant for a misdemeanor assault or battery not committed in their presence when it is committed upon:
 - 1) A current or former spouse;
 - 2) A current or former cohabitant (FC §6209 definition);
 - 3) A fiancé or fiancée;
 - 4) A person with whom the suspect currently is having or has previously had an engagement or dating relationship;
 - 5) A person with whom the suspect has parented a child;
 - 6) A child of the suspect or a child of one of the above listed categories; or
 - 7) Any person who is 65 years of age or older and who is related to the suspect by blood or legal guardianship.
 - 8) Any other person related to the suspect by consanguinity or affinity within the second degree. Consanguinity or affinity within the first and second degree include children, step-children, spouse, son or daughter-in-law, grandchildren, parents, parent-in-law, step-parent, brother or sister, grandparents, and step-grandparents.
- (b) Both of the following conditions must be present in order to make an arrest in this situation pursuant to PC §836(d):
 - 1) The peace officer has probable cause to believe that the person to be arrested has committed the assault or battery, whether or not it has in fact been committed; and
 - 2) The peace officer makes the arrest as soon as probable cause arises to believe that the person to be arrested has committed the assault or battery, whether or not it has in fact been committed.

There is no specific time frame in which an arrest for the above violations may be made. However, it has been determined that the authority to arrest continues during the time the officer is still actively investigating the case and/or attempting to locate the violator throughout the course of that officer's work shift. Since this arrest authority does not carry on indefinitely, officers shall not place suspects who are wanted only on misdemeanor domestic violence charges on broadcast sheets, nor on the DCB.

320.7 FIELD RELEASE (CITE & RELEASE)

A field release may not be used, and a physical arrest shall be made when:

- (a) The subject is arrested for a violation of PC §243(e)(1), PC §273.5, PC §646.9 or a protective order involving domestic violence when:
 - 1) The detained person made threats to kill or harm;
 - 2) Has engaged in violence against; or

- 3) Has gone to the residence or workplace of the protected party.
- (b) There is a reasonable likelihood that the offense may continue or resume, or that the safety of persons or property would be imminently endangered by releasing the arrested person in the field (PC §853.6).

Cite & releases will be done in accordance with Policy §420.

Any one of the following may support the likelihood of a continuing offense:

- (a) Whether the suspect has a prior history of arrests or citations involving domestic violence
- (b) Whether the suspect is violating a criminal court issued Stay Away Order
- (c) Whether the suspect has previously violated, or is currently violating, a valid temporary restraining order
- (d) Whether the suspect has a prior history of other assaultive behavior (e.g., arrests or convictions for assault and battery or aggravated assaults)
- (e) Statements taken from the victim that the suspect has a history of physical abuse towards the victim
- (f) Statements taken from the victim expressing fear of retaliation or further violence should the suspect be released.

Note: If the subject is arrested in violation of PC §273.5 or PC §646.9 and cannot be booked into FCJ for an extended period (i.e., hospital standby, rejection by jail, etc.), the officer shall notify their immediate supervisor. The supervisor shall assess the factors surrounding the arrestee and, if necessary, contact the Field Commander to determine the final disposition of the arrestee.

320.8 PRIVATE PERSON'S ARREST

The Department will assist with all private person arrests that are made lawfully pursuant to PC §837. Any officer presented with a private person wishing to make an arrest must determine whether or not there is reasonable cause to believe that such an arrest would be lawful (PC §847).

Officers will advise the victim of their right to make a private person's arrest when a crime has been committed outside the officer's presence which does not meet the requirements for an officer-initiated arrest either because it is not a felony or a qualifying misdemeanor offense under PC §836(d). Advisements regarding private person's arrests should be held out of the presence of the suspect. Officers shall not dissuade victims from making a lawful private person's arrest. Officers should refer to the provisions of Policy §364 for further options regarding the disposition of private person's arrests.

320.9 SUSPECT NOT PRESENT

In domestic violence cases where the suspect has left the scene, an investigation should be conducted to determine if a crime has been committed. In such circumstances a report shall be completed, and the victim shall be informed of the case number and the follow-up criminal procedure [PC §§13730(c) and 13701(c)].

320.10 MANDATORY NOTIFICATIONS

Members shall contact the Domestic Violence Unit supervisor to determine the need for response or involvement by a follow-up investigator for incidents involving any of the following circumstances:

- (a) Domestic violence involving serious injury and the victim will be treated at the hospital;
- (b) Domestic violence involving a Department employee as the victim or suspect; or
- (c) Domestic violence offenses that will become high profile which may cause media inquiries early in the investigation.
- (d) Notify the Domestic Violence Unit Supervisor by email any time an emergency phone ping is initiated on a domestic violence related call for service.

320.11 EVIDENCE

320.11.1 WEAPONS

Suspects often use objects (e.g., beer bottles) and/or weapons to commit assaults. All objects and weapons used in the commission of crimes should be photographed and booked into evidence. If an object/weapon is not booked, the officer must provide sufficient reason in the police report.

320.11.2 VICTIM PHOTOGRAPHS

All victim injuries shall be photographed regardless of severity by the officer or the Crime Scene Investigations Section (CSIS), unless the victim refuses. Officers shall not utilize Axon body worn cameras as the sole method of capturing victim injuries when the above listed options are available. Refer to Policy §805.

Officers shall make an attempt in all felony cases resulting in serious injury requiring medical attention, or from strangulation, to have the victim's injuries photographed by CSIS personnel. If CSIS is unavailable to respond or it is determined that it will be a prolonged response, officers should consider seeking the victim's consent to be transported to the CSIS to be photographed. If the officer has a department issued device, they may use the department device to take injury photos. The officer shall ensure that the injury is visible in the photographs prior to leaving the scene.

Photographs in intimate areas shall be photographed by a same sex CSIS Technician or officer. Refer to Policy §347.4.4.

320.11.3 SUSPECT IDENTIFICATION

Officers investigating any domestic violence related call for service that results in an incident or crime report, shall make every effort to identify any party of the intimate relationship who is no longer present during the law enforcement contact by the following ways:

Personal Photograph

- (a) The officer shall request the victim to point out the suspect in the photograph.
- (b) The photograph shall be labeled with the case number and officer's badge number.
- (c) A copy of the photograph shall be turned in with the original report and the photograph shall be booked into evidence.
- (d) If the personal photograph is digital and not a hard copy, the officer shall capture the image and upload it into Axon via Axon Capture or request the victim provide the photograph via Axon Citizen Link.

EMUG booking photograph or CalPhoto

The victim may view an EMUG booking photo or CalPhoto. The officer shall have the victim identify the person in the photo by name and as the person responsible for the crime. If EMUG, CalPhoto, or personal photograph are unavailable, and officers utilize iQuery/Offendertrack/FSO CAD the booking photograph shown to the victim shall be captured and uploaded by the officer into Axon.

In-Person Identification

If both parties of the intimate relationship are present during the law enforcement contact, officers shall document the in-person identification of the dominant aggressor or all involved parties, including at the scene of an incident where probable cause is not developed (i.e. GI).

If no photos are available, unique tattoo or scar information shall be documented in the narrative of the report as being provided by the victim to identify the suspect.

320.12 CONFISCATION OF FIREARMS

Officers should consider the use of a gun violence restraining order during a domestic disturbance response to any residence which is associated with a firearm registration or record, during a response in which a firearm is present, or during a response in which one of the involved parties owns or possesses a firearm (PC §18108(b)). An officer handling an incident of domestic violence which involves a threat to human life or physical assault shall seize all firearms present at the scene of the incident found to be in plain sight or found as a result of a consensual or lawful search when it appears necessary to do so for the protection of officers or other persons present. Any firearm confiscated as a result of a domestic violence incident shall first be checked in the Automated Firearms System (AFS) on either the MDS or through the ComCen to determine if the firearm is stolen. When the firearm is found not to be stolen, it shall be booked

for evidence or safekeeping as necessary. Any ammunition confiscated with the firearm shall also be booked [PC §12028.5(b)].

A member who seizes a firearm during an incident of domestic violence shall provide the owner or another adult household member with a "Fresno Police Department Receipt and Notice of Rights for Confiscated Firearms/Other Deadly Weapons" Form. The receipt shall describe the make, identification or serial numbers on the firearm, and also the case number. The receipt shall also include the name and residential mailing address of the owner or person who possessed the weapon and notice of where the weapon may be recovered, along with the applicable time limit for recovery (PC §18250; PC § 18255; PC §33800; FC §6389(c)(2)). A case number shall be obtained from the ComCen at the time the property is confiscated. The owner or household member shall then sign the receipt. The top (green) copy of the receipt shall be given to the owner or household member, the hard and pink copies shall be attached to the appropriate report form, and the yellow copy shall be attached to the PER accompanying the weapon being booked.

320.13 RETURN OF FIREARMS

When a firearm is seized and the involved person/suspect inquires how to get their firearm/weapon back, officers shall refer the involved person/suspect to the listed directions on the form.

320.14 COURT PROTECTIVE ORDERS

Various types of restraining orders may be issued by various courts in domestic violence cases. The court orders under PC §13701(b) includes:

- (a) Emergency Protective Order (EPO) - PC §273.6
- (b) Domestic Violence Protective Order - PC §166(c)(1)
- (c) Criminal Court Protective Order - PC §166(c)(1)
- (d) Order to Show Cause and Temporary Restraining Order (TRO) - PC §273.6
- (e) Order After Hearing - PC §273.6
- (f) Restraining Order – Juvenile
- (g) Judgment of Dissolution and Order
- (h) Child Custody Order

All valid out of state and tribal court restraining and protective orders should be enforced. PC § 13710 requires all law enforcement agencies to maintain complete and systematic records of all protection orders relating to domestic violence incidents, restraining orders, and proofs of service which are in effect. This section also requires that these records be used to inform law enforcement officers responding to domestic violence calls of the existence, terms, and effective dates of protection orders on file. It shall be the responsibility of the Records Bureau to maintain these records.

320.15 STAY-AWAY ORDERS

Stay-away orders are issued in criminal cases when the probability of victim intimidation exists. Violation of a stay-away order is a misdemeanor under PC §166(c)(1).

Witness intimidation is also a violation of PC §136.1 and potentially a violation of PC §422. Examples of witness intimidation include attempting to prevent or dissuade a victim from attending or giving testimony at any proceeding or using force or expressing or implying a threat of force or violence related to the court proceeding. Officers will use the same guidelines for verification and enforcement of stay-away orders as listed in Policy §§330.16 and 330.32.

320.16 EMERGENCY PROTECTIVE ORDERS

Members should request an EPO when the investigating officer has grounds to believe that a person is in immediate harm and present danger of domestic violence based on an allegation of recent abuse or threat of abuse [FC §6203 & §6211].

Note: There may be other nondomestic violence related incidents in which officers could request an EPO. EPO's can be issued 24 hours per day, seven days per week.

A judicial officer may issue an EPO whenever a law enforcement officer asserts reasonable grounds that one or more of the criteria listed on the EPO Form is met or there is a potential for continued or escalated violence. The fact that the endangered person has left the household to avoid abuse or whether the suspect is in custody does not affect the availability of an emergency protective order.

Under PC §646.91, a peace officer may also obtain an EPO when the officer has reasonable grounds to believe that a person or the person's immediate family is in immediate and present danger of being stalked.

- (a) Any such EPO shall be reduced to writing, signed by the officer and include all of the information required by PC §646.91(c).
- (b) Any officer seeking such an order shall serve the order on the restrained person if such person can be reasonably located and shall provide the person protected with a copy of the order. A copy of the order shall also be filed with the court as soon as practicable after issuance.
- (c) Any officer requesting such an order shall carry copies of the order while on duty and shall use every reasonable means to enforce the order.

EPO'S may be obtained to prohibit a suspect who resides with a complainant, regardless of their marital status or relationship from continuing a specified behavior or act as described on the EPO form.

320.16.1 PROCEDURES FOR ISSUANCE OF EPO'S

When officers have identified both qualifying abuse and a qualifying relationship between the person to be restrained and the person to be protected, the officer shall contact their immediate supervisor and provide the supervisor with the facts of the case.

The supervisor shall ensure the facts of the case support a reasonable belief of immediate harm and present danger of domestic violence within a qualifying relationship. The fact that the endangered person has left the household to avoid abuse or whether the suspect is in custody does not affect the availability of an emergency protective order. If there is insufficient information to determine if domestic violence or a qualifying relationship exists with immediate and present danger, the supervisor shall guide the officer in their investigation to obtain the required information. If the information presented to the supervisor is sufficient, the supervisor shall grant the officer permission to contact a judicial officer through the established procedure.

A judicial officer shall be contacted through the Court Dispatch Center at 457-4999, regardless of the time of day. Between the hours of 1800-0600, weekends, and court holidays, calls will be forwarded and processed by the Sheriff's Department Communications Center. The determination of the designated judicial officer to issue or not to issue an EPO will be final.

Note: The temporary inability of FSD dispatch to locate a judicial officer does not relieve officers of their obligations under this section.

In all domestic violence situations, the investigating officer shall ensure that the victim understands the circumstances under which an EPO can be issued, and our policy of seeking an EPO on the victim's behalf anytime there is reason to believe the victim is in immediate and present danger of domestic violence.

The expiration date for EPO's shall be no later than the close of the fifth judicial business day or the seventh calendar day following the day of issuance, whichever comes earliest.

The issuing officer shall inform the person to be protected of:

- (a) The expiration date and time of the EPO; and
- (b) The need to apply to the court for a temporary restraining order beyond that date.

The officer who completes an EPO shall turn the EPO in to the Records Section by the completion of their shift.

An EPO shall be personally served upon the restrained party by the issuing officer when the restrained party can be reasonably located. When the restrained party cannot be located, the issuing officer shall

contact the ComCen to have a premise history placed on the affected addresses listing the name of the restrained party and the fact that an unserved EPO is on file in the Records Section. The premise history shall include the EPO's date of expiration. When a valid EPO is in effect and proof of service has been verified, the officer shall use every reasonable means to enforce the order.

When an EPO is issued for a child, the officer shall give the child's copy of the EPO to the parent, guardian, or social worker who is retaining custody of the child. EPO processes are the same for a child as for an adult.

320.16.2 REQUIRED REPORTS FOR EPO WITH NO CRIME

When an EPO is issued under circumstances where no crime has occurred, the issuing officer shall:

- (a) Prepare a GIDV-Domestic Violence report titled "EPO" and the "Domestic Violence" box shall be checked;
- (b) The person to be restrained shall be listed as an "Involved Party"; and
- (c) The person to be protected shall be listed as a "Victim".

Note: The race, sex, and DOB of the person to be protected shall be indicated next to their name listed in item #1 of the EPO.

320.16.3 DISTRIBUTION OF EPO FORMS

- (a) The white copy shall be turned in to the Records Section by the end of the work shift;
- (b) One copy shall be provided to the protected party, when present;
- (c) One copy shall be provided to the restrained party, when present; and
- (d) The fourth and any undelivered protected party copies shall also be forwarded to Records.

Records shall maintain a seven-day file of all served and unserved EPO's

320.16.4 VERIFICATION OF EPO'S

Prior to enforcement of an EPO, officers shall determine if the order is valid, by contacting the issuing agency or examining a copy of the order to establish:

- (a) The order has not expired;
- (b) Whether proof of service or prior notice exists or can be established; and
- (c) The terms of the restraining order.

320.16.5 UNSERVED EPO'S

When an officer is in possession of an unserved copy of an EPO and encounters the restrained party within the effective period, they shall provide the copy to the restrained party and shall complete the "Restraining/Emergency Protective Order Proof of Service Form".

All other officers encountering unserved restrained parties listed in active EPO's (and other court orders) shall follow the procedures listed above.

320.17 RESTRAINING ORDERS

320.17.1 VERIFICATION OF RESTRAINING ORDERS

Whenever a complainant advises of the existence of a restraining order, the officer shall immediately attempt to determine the following [Code of Civil Procedure (CCP) §527.8(i)(3)]

- (a) Whether a restraining order is on file with the Department or whether the complainant has a copy of the restraining order in their possession;
- (b) Whether there is valid restraining order on file with the Department of Justice Domestic Violence Restraining Order System [FC §6383(d)];
- (c) Whether the proof of service or prior notice exists or that the suspect was in court when the order was made; and
- (d) The terms of the restraining order.

In the event the suspect is no longer at the scene, officers shall document the incident for follow up investigation.

320.17.2 ENFORCEMENT PROCEDURES FOR RESTRAINING ORDERS

Violation of a restraining order is a misdemeanor under PC §273.6, PC §166(c)(1) or PC §166(4). An arrest shall be made when probable cause exists to believe the subject of a restraining order has violated the order whether or not in the presence of an officer and evidence of proof of service of the order exists.

Proof of service may be established by any one of the following:

- (a) The existence of the order and proof of service to the suspect has been verified by the officer;
- (b) The complainant produces a valid copy of the order bearing a file stamp of a court and proof of service on the suspect;
- (c) The officer has verified the existence of the order and the order reflects that the suspect was personally present in court when the order was made which removes the proof of service requirements; or
- (d) The existence of the order has been verified and there is proof that an officer has previously informed the suspect of its terms.

All valid out-of-state and tribal court restraining, and protective orders should be enforced.

320.18 SERVICE OF RESTRAINING ORDERS AND EPO'S

When an officer verifies that a restraining order/EPO exists but cannot verify proof of service or prior knowledge of the order by the restrained party, the officer shall, when the restrained party is present:

- (a) Inform the restrained party of the terms of the order;
- (b) Admonish the restrained party that they are now on notice and that violation of the order will result in arrest; and
- (c) Prepare a "Restraining/Emergency Protective Order Proof of Service Form".

When the proof of service is being served on an order in possession of the Sheriff's Department and there is no related FPD case number:

- (a) The Proof of Service - Fresno Police Department Form shall be used;
- (b) All blanks on the form shall be filled in;
- (c) The box labeled "Case Number" shall be used only for the court case number as listed on the restraining order;
- (d) The space provided for the "Department Case Number" shall list the event number assigned to the call;
- (e) The event synopsis shall include the Court Case Number;
- (f) No report other than the Restraining/Emergency Protective Order Proof of Service Form is required when the only action being taken is service of a court order/EPO; and
- (g) Details of the service must be included in the event narrative.

A temporary restraining order, emergency protective order, or an order issued after a hearing shall, at the request of the petitioner, be served on the restrained person by an officer who is present at the scene of a reported domestic violence incident or when the officer receives a request from the petitioner to provide service of the order (Family Code § 6383; Penal Code § 13710).

320.18.1 PROOF OF SERVICE NOT VERIFIED

When the officer verifies that a restraining order exists but cannot verify proof of service or prior knowledge of the order by the suspect, the officer shall perform the following:

- (a) At the request of the complainant and upon presentation of an endorsed copy of the restraining order and a proof of service form, serve a copy of the order on the suspect. Submit the completed proof of service form to the court, regardless of whether or not the suspect is taken into custody [CCP §527.8(i)(2)];
- (b) Immediately inform the suspect of the terms of the order and place the suspect on notice that violation of the order will result in arrest;
- (c) Obtain the suspect's address; and
- (d) Enforce the order but do not make an arrest for any violation of the order occurring prior to verifying the proof of service or before an officer's admonition of the terms of the order. If the suspect

continues to violate the order after being advised of the terms, an arrest should be made [CCP §527.8(i)(4)].

If the suspect complies with the order the officer shall complete a report detailing the specific terms of the order and advisement, the name of the advising officer, and the date and time of the advisement [PC §13730(c)]. The Department copy of the restraining order shall be updated to reflect the information listed above.

320.18.2 WHEN ORDERS ARE NOT VERIFIABLE

If the victim is not in possession of the restraining order and/or for any reason the officer cannot verify the validity of the order the following action shall be taken:

- (a) Write a report; give the case number to the victim; and
- (b) Inform the victim of how they can contact the appropriate detective or investigative unit for further action [PC §13730(c)].

320.19 OFFICER INVOLVED RESTRAINING ORDERS

- (a) All sworn members of this Department who are the subject of an EPO, TRO, or Stay Away Order regarding family violence shall immediately provide an on-duty supervisor with a copy of the order.
- (b) The supervisor shall then advise the involved officer's immediate supervisor, complete a confidential Memo and forward it with a copy of the EPO or TRO, via the chain of command, to the involved officer's Division Commander.
- (c) Notifications should be made as deemed appropriate by the on-duty supervisor depending on the severity of the situation.

320.19.1 SUPERVISOR RESPONSIBILITIES IN OFFICER INVOLVED RESTRAINING ORDERS

A supervisor shall respond to any incident of alleged domestic violence involving a law enforcement officer from the Department or any other law enforcement agency. When an employee is involved as victim or a suspect, the Domestic Violence Unit supervisor shall be notified.

The following tasks shall be completed by the on-scene supervisor:

- (a) The involved officer's chain of command shall be notified;
- (b) If the accused is a sworn member, a supervisor above the rank of the accused shall be requested to the scene to supervise the investigation and make appropriate notifications;
- (c) In a case where the Chief of Police is the accused, the City Manager shall be notified;
- (d) The Domestic Violence Unit supervisor shall be notified and will determine if an investigator should respond to the scene;
- (e) The officer's duty weapon will be removed when appropriate;
- (f) The Department's legal advisor shall be notified;
- (g) A confidential Administrative Review Memo will be completed; and
- (h) When a peace officer from another agency is involved, the on-scene supervisor shall notify the district, assistant district, or field commander, who shall make phone notification to the involved officer's agency as soon as practical.

320.20 DOMESTIC VIOLENCE FORM

In all cases of domestic violence, whether an arrest is made or not, investigating officers shall furnish the victim with a copy of the Domestic Violence Form and shall orally instruct the victim on its contents (PC §§13700-13701). This form shall include the report number of the investigation to serve as a reference for the victim to contact the Domestic Violence Unit.

320.21 PROSECUTION FOLLOW-UP

Officers investigating a felony domestic violence case shall advise the victim that it is no longer necessary to contact the DA's office for charges to be filed. The Domestic Violence Unit will review all felony domestic violence cases and if probable cause exists, they will submit the case(s) to the District Attorney's Office.

In misdemeanor domestic violence cases where the suspect has NOT been arrested or cited, and the victim wishes to file a criminal complaint, the officer shall advise the victim they may leave a voicemail for

the Domestic Violence Unit (DVU) at 621-2225, 24/7. However, the voicemail is checked periodically during normal business hours and is not monitored 24/7. The victim should be reminded that if they feel they are currently in a situation threatening their safety or experiencing domestic violence, they should call 9-1-1. Officers shall record this advisement to the victim with their body worn cameras.

320.22 TENANCY ISSUES

- (a) Officers may request a person who is not in lawful possession of the premises to leave when:
 - 1) The complainant is in lawful possession of the premise (as exhibited by rent receipts, lease, deed, verification by apartment manager, etc.)
 - 2) The complainant has requested that the person leave the premises.
- (b) The officer will stand by until the suspect removes essential belongings.
- (c) If the suspect does not leave upon request, an arrest should be made under PC §602.5.
- (d) If the complainant requesting removal of the suspect cannot show proof of lawful possession, the officer should refer the complainant for a Temporary Restraining Order or other appropriate civil remedy.
- (e) If appropriate, a domestic violence situation involving a tenancy issue may be resolved through the proper application for an Emergency Protective Order.

320.23 VICTIM ASSISTANCE

During the course of investigating and reporting domestic violence cases, an officer may assist a victim in many ways. Some required methods of assistance are:

- (a) Assist in obtaining appropriate medical attention if a complainant claims injury, whether visible or not;
- (b) Advise the victim that strangulation may cause internal injuries and encourage the victim to seek medical attention;
- (c) Assist in arranging to transport the victim to an alternate shelter if the victim expresses a concern for their safety, or the officer determines a need exists;
- (d) Stand by for a reasonable amount of time when a victim/suspect requests police assistance while removing essential items of personal property;
- (e) Explain legal options available to the victim including the private person's arrest process, temporary restraining and stay-away orders, and in cases of arrest, the follow-up procedures and ensuing criminal proceedings; and
- (f) Advise the victim of available community resources and the State Victim Assistance Program.

For additional victim assistance, officers may request a Domestic Violence Advocate from FPD or a crisis Navigator from the Marjaree Mason Center. Statistics indicate that victims are more likely to assist with prosecution and to seek services the sooner they meet with an advocate.

320.24 REPORTING PROCEDURES

A police report shall be written to cover all incidents of domestic violence. Officers shall ensure they make the victim(s) and/or involved parties confidential by checking the appropriate check boxes in Axon Records. The "Domestic Violence" checkbox in Axon Records shall be checked as well as indicating the report is a domestic violence incident in the Case Factors. This applies to all domestic violence related crimes (e.g., assault, robbery, sexual assault etc.) and general incident reports.

Children in common, or who are present in the home, should be listed in the report as confidential.

The system will generate a Controlled Document using the listed confidential information.

Department members shall also accept and provide written documentation for all calls or reports, including those made anonymously, of domestic violence involving peace officers. These reports shall be turned into records as a "restricted" report and shall maintain that status until the investigation has been completed. This Department's Domestic Violence Investigation Unit shall also deliver a written copy of reports involving peace officers from different agencies to the involved officer's agency.

In addition, domestic violence reports must also specifically include:

- (a) A notation as to whether the officer(s) who responded to the domestic violence call observed any signs that the alleged abuser was under the influence of alcohol or a controlled substance;
- (b) A notation as to whether any law enforcement agency had previously responded to a domestic violence call, including incidents involving violations of domestic violence restraining orders, at the same address involving the same alleged abuser or victim (PC §13730). This mandate may be accomplished by checking MDS databases and/or through information received from involved parties.
- (c) A notation as to whether or not children were present;
- (d) A specific description of any weapon(s) used;
- (e) A notation if the officer found it necessary, for the protection of the officer or other persons present, to inquire from the parties whether a firearm or other deadly weapon was present and the results of the inquiry; and
- (f) A notation of whether there were indicators that the incident involved strangulation or suffocation. This includes whether any witness or victim reported any incident of strangulation or suffocation, whether any victim reported symptoms of strangulation or suffocation, or whether the officer observed any signs of strangulation or suffocation.

320.26 RECORDKEEPING RESPONSIBILITIES

PC §13730 also requires that all law enforcement agencies maintain records on the number of domestic violence related calls reported to their agency and to include whether or not weapons were used in the incident. This information is to be reported to the Attorney General monthly. It shall be the responsibility of the Records Manager to maintain and report this information as required.

320.27 PUBLIC ACCESS TO POLICY

A copy of this domestic violence policy will be provided to members of the public upon request. (PC §13701(c)).

320.28 LETHALITY ASSESSMENT

The Department will conduct a Lethality Assessment Screening process for all domestic violence victims. Officers shall complete the Lethality Assessment with their Body Worn camera activated. After completing the assessment, the officer shall score the assessment. The scoring rubric for the assessment is as follows:

- Any single positive answer in questions 1-3 is an automatic referral to a FPD Domestic Violence Advocate or to a Hot Line Navigator from the Marjaree Mason Center, prior to the officer clearing the scene as this is a “High Danger” score.
- Negative answers to questions 1-3 but a positive answer to at least 4 questions between questions 4-11 activates a referral to an FPD Domestic Violence advocate or a Hot Line Navigator from the Marjaree Mason Center, prior to the officer leaving the scene.
- If not already activated, regardless of how the questions were answered in the above sections an advocate can be requested to the scene upon victim or officer request.

If after scoring the assessment, a “High Danger” score is the result, the officer shall tell the victim: “Based on your answers, you have screened in as a high potential for death; meaning other victims with the same answers/situation have been killed.”

The officer shall then ask the victim if they are willing to speak to an Advocate/Hot Line Navigator. If the victim refuses to speak to the Advocate/Hot Line Navigator, the officer should provide the victim with the safety planning tips located on the Domestic Violence Victim Information Form. The officer shall document in their report if the victim spoke with the Advocate/Hot Line Navigator or refused.

The Lethality Assessment Screening is intended to be a tool designed to help a victim realize their risk within their intimate relationship and that they have options and resources readily available to help them get out. The Lethality Assessment is an evidence-based tool that has been shown to be effective in increasing a survivors’ use of formal and informal safety strategies that also had a correlating effect in

decreasing frequency of severe intimate partner violence. The Lethality Assessment is found in AXON under the Victim Name tab, "Add Forms".

Fresno Police Department Policy Manual

Field Contacts

321 Field Contacts

321.1 POLICY

The Department will treat the members of the community in strict obedience to the rights against unreasonable search and seizure as guaranteed under the Constitution of the United States of America and of the laws of the State of California.

321.1.1 PURPOSE AND SCOPE

Case law regarding search and seizure is ever changing and frequently subject to interpretation under the varying facts of each situation. This policy is intended to provide a few of the basic guidelines that may assist an officer in field contact situations.

321.2 DEFINITIONS

Arrest – Taking a person into custody, in a case and in the manner authorized by law.

Detention - Occurs when an officer intentionally, through words, actions or physical force causes an individual to reasonably believe they are being required to restrict their movement. Detentions also occur when an officer actually restrains a person's freedom of movement.

Consensual Contact - Occurs when an officer contacts an individual but does not create a detention through words, actions or other means. In other words, a reasonable individual would believe that their contact with the officer is voluntary.

Consent Search – A search conducted with the voluntary consent of the person to be searched.

Field Contact - A contact with any member of the public, which may be classified as a consensual contact, detention, or an arrest.

Probable Cause – A set of facts based on the totality of the circumstances that would lead a person of ordinary care and prudence to entertain an honest and strong suspicion that the person to be arrested is guilty of a crime.

Reasonable Suspicion - Occurs when, under the totality of the circumstances, an officer has articulable facts that criminal activity may be afoot and a particular person is connected with that possible criminal activity. Actual or perceived characteristics such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability or any other classification or status protected by law should not be considered as factors that create suspicion (although these factors may be used as specific suspect descriptions).

Voluntary Consent – Consent given as a product of the individual's free will and uncontaminated by any duress, coercion, intimidating conduct, or other "pressure tactic," whether direct or indirect.

A contact with any member of the public may be classified as a consensual contact, detention, or an arrest. Upon request, a member shall provide their Department issued business cards during any of the below listed Field Contacts.

321.3 CONSENSUAL CONTACTS

A consensual contact is a contact between an officer and an individual which is strictly voluntary. The key element is that the person remains totally free to leave or not cooperate. The officer's uncommunicated state of mind, and the individual citizen's subjective belief, are irrelevant in determining whether a "detention" has occurred. As long as a reasonable person would feel free to

disregard the police and go about their business, the encounter is consensual and no reasonable suspicion is required on the part of the officer.

Examples of consensual contacts include members inquiring about identity, requesting identification or running a warrant check on the subject contacted.

321.3.1 CONSENT SEARCHES

A member shall not conduct a search during a consensual contact unless:

- (a) The member receives voluntary consent from the person to be searched.
- (b) Evidence of a crime or contraband is in plain view in the possession of the subject contacted, allowing for immediate seizure of the item; or
- (c) A search is justified by articulable officer safety reasons.

Voluntary consent means:

- (a) The person agreed to the search voluntarily (i.e., not "coerced" by force, threats, tricks, promises, or the exertion of authority); and
- (b) The person has the capacity and the authority, or the apparent authority, to give consent.

Consent may be expressed or implied. It can be withdrawn at any time.

321.4 DETENTIONS

The purpose of a detention is to determine whether or not suspicious behavior is innocent or relates to crime. A detention occurs whenever a member, through some form of physical force or show of authority, compels a person to stay during a field investigation of some potentially criminal act. Before a detention exists in the law, it is necessary that the person actually submits to your assertion of authority.

Prior to detaining a person, the member must have a reasonable suspicion, based on articulable facts, that:

- (a) Criminal activity has occurred, is occurring, or is about to occur;
- (b) The person detained is connected with that possible criminal activity;
- (c) Evidence of a crime or contraband is in plain view in the possession of the subject contacted, allowing for immediate seizure of the item; or
- (d) A search is justified by articulable officer safety reasons.

321.4.1 DETENTION FACTORS

Members shall consider the following factors in determining whether there exists a reasonable suspicion to detain an individual:

- (a) A person or vehicle matches the general description of a wanted person or vehicle. This is generally sufficient, by itself, to base a detention on.
- (b) Nighttime/High Crime Area alone will not be sufficient to detain an individual but when coupled with other factors, such as furtive behavior or flight, may be sufficient.
- (c) Flight alone will not be sufficient to detain an individual but when coupled with other factors, such a high crime area, may be sufficient.
- (d) A members training and experience.
- (e) Officer Safety issues; or
- (f) Information you receive from an eyewitness, victim, fellow police officer, dispatcher, or--if accurate--other official channels. This information is generally considered reliable and as such can be the sole basis for a detention as long as the detention is reasonably related to the information obtained.

Members shall include these articulable facts in the appropriate report when a report is required under any provision of the Policy Manual.

Under current law, members do not have to provide Miranda warnings during an interview of someone who is lawfully detained based on:

- (a) Reasonable suspicion;
- (b) A "cite and release" offense;
- (c) Inquiries, concerning identity, made during a detention; or
- (d) Officer Safety issues.

321.4.2 REASONABLE FORCE TO EFFECT A DETENTION

A detainee has no right to resist a lawful detention. Members may use reasonable force to affect the detention. Refer to Policy §300.

321.4.3 LIMITATION ON DETENTIONS

Members shall not detain a person longer than is reasonably necessary to conduct the investigation. A detention must be temporary and last no longer than is necessary to resolve the reason for the stop. A detention legal at its beginning can become an illegal arrest if extended beyond what is reasonably necessary under the circumstances. If the person answers all questions about the suspicious circumstances satisfactorily, so that suspicion decreases or disappears, the person must be released.

Members shall not transport a detainee to another location absent:

- (a) The person(s) voluntarily consents; or
- (b) There are articulable factors that make it unsafe for the member or detainee to stay at that location; or
- (c) There are specific circumstances, such as the medical condition of a victim, which make it impractical to bring that person to the location where the detention occurred.

321.5 ARRESTS

An arrest occurs when a member takes a person into custody. This requires either that a member physically restrain or at least touch the person or the person submits to your authority. The arrest must be based on probable cause.

~~Members~~ shall ensure that a prisoner's property is secured and not damaged while in the member's care. ~~Members~~ should refrain from placing a prisoner's property on their patrol vehicle whenever possible to minimize the risk of inadvertently leaving it there prior to transport.

321.6 FIELD INTERVIEW (FI) CARDS

FI Cards shall be completed with all pertinent information and submitted in Axon Records prior to the end of the member's shift. Actually detaining someone (as opposed to obtaining their voluntary cooperation) for the purpose of obtaining information about them, or photographing them, is illegal unless you have a specific basis for believing the person is involved in criminal activity. Furthermore, extending a detention in order to fill out a field interrogation card may or may not be reasonable, depending on all the circumstances. Generally speaking, if there is something specific which might connect the person to a crime, filling out a field interrogation card will be proper.

Members shall ensure that the FI Card, where appropriate, is routed to the appropriate unit (e.g. route to MAGEC where gang activity/involvement is suspected.)

322.1 POLICY

It is the policy of the Fresno Police Department to respect the fundamental privacy rights of individuals. Members of this Department will conduct searches in strict observance of the constitutional rights of persons being searched. All seizures by this Department will comply with relevant federal and state law governing the seizure of persons and property.

Consistent with CA POST requirements, the Department will provide relevant and current training to officers as guidance for the application of current law, local community standards and prosecutorial considerations regarding specific search and seizure situations, as appropriate.

322.1.1 PURPOSE AND SCOPE

Both the federal and state Constitutions provide every individual with the right to be free from unreasonable searches and seizures. This policy provides general guidelines for the Fresno Police Department personnel to consider when dealing with warrantless search and seizure issues of persons, property, and vehicles, and to strictly limit strip and body cavity searches per Penal Code §4030.

322.2 DEFINITIONS

Consent Search - This is a search of a person, a person's belongings, residence, vehicle, etc., and it is used by officers in the field after obtaining valid consent. For a consent search to be valid, the consent must be voluntary (i.e., not "coerced" by force, threats, tricks, promises, or the exertion of authority); and obtained from a person with authority, or "apparent" authority, to give that consent.

Pat Down Search - This is the normal type of search used by officers in the field to check an individual for weapons. It involves a thorough patting down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the subject, or other subjects.

Custody Search (Searches Incident to a Lawful Arrest) - This search involves a thorough patting down of an individual's clothing, shoes, property and possessions of an arrestee. All pockets, cuffs, etc., on the clothing are checked to locate all personal property, contraband, or weapons. The prisoner's personal property is taken and inventoried.

Strip Search - This is a search that requires a person to remove or rearrange some or all of their clothing to permit a visual inspection of the underclothing, breasts, buttocks or genitalia of such person [PC §4030(c)].

Physical Body Cavity Search - This is a search that includes physical intrusion into a body cavity. Body cavity means the stomach or rectal cavity of a person, and the vagina of a female person [PC §4030(d)(1)].

Visual Body Cavity Search - Visual body cavity search means visual inspection of a body cavity [PC §4030(d)(3)].

322.3 SEARCHES

The U.S. Constitution generally provides that a valid warrant is required in order for a search to be valid. There are, however, several exceptions that permit a warrantless search.

Examples of law enforcement activities that are exceptions to the general warrant requirement include, but are not limited to, searches pursuant to the following:

- (a) Valid consent;
- (b) Probation/Parole authorization;

- (c) Incident to a lawful arrest;
- (d) Legitimate community caretaking interests;
- (e) Vehicle searches under certain circumstances; and
- (f) Exigent circumstances

Certain other activities are recognized by federal and state courts and by certain statutes as legitimate law enforcement activities that also do not require a warrant. Such activities may include seizure and examination of abandoned property, and observations of activities and property located on open public areas.

Because case law regarding search and seizure is constantly changing and subject to interpretation by the courts, each member of this Department is expected to act in each situation according to current training and their familiarity with clearly established rights as determined by case law.

Whenever practicable, officers are encouraged to contact a supervisor to resolve questions regarding search and seizure issues prior to electing a course of action.

322.4 SEARCH PROTOCOL

Although conditions will vary and officer safety and other exigencies must be considered in every search situation, the following guidelines should be followed whenever circumstances permit:

- (a) Officers will strive to conduct searches with dignity and courtesy;
- (b) Officers should explain to the person being searched the reason for the search and how the search will be conducted;
- (c) Searches should be carried out with due regard and respect for private property interests and in a manner that minimizes damage. Property should be left in a condition as close as reasonably possible to its pre-search condition;
- (d) In order to minimize the need for forcible entry, an attempt should be made to obtain keys, combinations or access codes when a search of locked property is anticipated; and
- (e) When the person to be searched is of the opposite sex as the searching officer, a reasonable effort should be made to summon an officer of the same sex as the subject to conduct the search. When it is not practicable to summon an officer of the same sex as the subject, the following guidelines should be followed:
 - 1) Another officer or a supervisor should witness the search;
 - 2) The officer should not search areas of the body covered by tight-fitting clothing, sheer clothing or clothing that could not reasonably conceal a weapon; and
 - 3) Officers will use the back side of their hands and fingers to search sensitive areas of the opposite sex to include the breast, crotch and buttocks areas.
- (f) Metal detecting wands and walk through metal detectors should be utilized whenever available and appropriate (e.g., wand may not be appropriate for an initial pat down search).

322.5 PERSON SEARCHES

322.5.1 WARRANTLESS SEARCHES

Members shall not conduct a warrantless search of an individual unless:

- (a) The individual to be searched gives consent to search, the search does not exceed the scope of the consent, and the consent is documented on a Consent to Search Form or captured on video;
- (b) The individual to be searched is on active parole or probation with a condition that they are open to search and seizure;
- (c) There is an officer safety reason for a pat down for weapons; and/or
- (d) The individual is under arrest.

322.5.2 PAT DOWN FOR WEAPONS

Members may conduct a pat down or limited weapons search of a detainee's outer clothing if specific facts exist that indicate the person may be armed.

Members may immediately seize any weapon or other object usable as a weapon which is lawfully discovered during a pat down for weapons. The seizure of any evidence or contraband not immediately identifiable as a weapon is prohibited during a pat down search for weapons unless the member has probable cause, based on the member's training and experience, that the item discovered is contraband.

Containers, which can reasonably be used to hold a weapon can be seized immediately during a pat down search for weapons, and searched to determine if they contain weapons.

322.6 STRIP SEARCHES / VISUAL BODY CAVITY SEARCHES

No person arrested and held in custody on a misdemeanor or infraction offense, except those involving weapons, controlled substances or violence, nor any minor detained prior to a detention hearing on the grounds that he or she is a person described in Section 300, 601 or 602 of the Welfare and Institutions Code, except for those minors alleged to have committed felonies or offenses involving weapons, controlled substances or violence, shall be subjected to a strip search or visual body cavity search unless an officer has determined that there is reasonable suspicion, based upon specific and articulable facts, to believe such person is concealing a weapon or contraband which would be discovered by such a search [PC §4030(f)].

Persons conducting a strip search or a visual body cavity search shall not touch the breasts, buttocks, or genitalia of the person being searched [PC §4030(j)].

All persons conducting or otherwise present during a strip search or visual or physical body cavity search shall be of the same sex as the person being searched, except for physicians or licensed medical personnel. [PC §4030(l)].

All strip, visual and physical body cavity searches shall be conducted in an area of privacy so that the search cannot be observed by persons not participating in the search. Persons are considered to be participating in the search if their official duties relative to search procedure require them to be present at the time the search is conducted [PC §4030(m)].

When a strip search is conducted, the reporting member shall thoroughly document the circumstances surrounding the search and the results of the search.

322.7 PHYSICAL BODY CAVITY SEARCH

No person arrested on a misdemeanor or infraction shall be subjected to a physical body cavity search except under the authority of a search warrant issued by a magistrate specifically authorizing the physical body cavity search [PC §4030(h)].

Only a physician, nurse practitioner, registered nurse, licensed vocational nurse, or Level II Emergency Medical Technician (EMT) may conduct a physical body cavity search [PC §4030(k)].

Privacy requirements, including restricted touching of body parts, are the same as the strip search standard.

A copy of the search warrant and the results of any body cavity search shall be included with the related reports and made available, upon request, to the arrestee or authorized representative [PC §4030(i)].

322.8 PROPERTY SEARCHES

As a general rule, officers may enter a crime scene to conduct an investigation. Members of this Department should not physically enter any area where an individual has a reasonable expectation of privacy in order to conduct a search or seizure without:

- (a) Valid consent;
- (b) Probation/Parole authorization;
- (c) A valid search warrant; and/or
- (d) Exigent circumstances.

322.8.1 PLAIN VIEW

Because an individual does not have an expectation of privacy as to items that are in plain view, no “search” has taken place in a Constitutional sense when an object is viewed from a location where the officer has a right to be.

322.8.2 CONSENT

Entry into a location for the purpose of conducting a search for any item reasonably believed relevant to any investigation is permitted once valid consent has been obtained, however consent is only valid if the following criteria are met:

- (a) Voluntary (i.e., clear, specific, and unequivocal);
- (b) Obtained from a person with authority to give the consent; and
- (c) A Consent to Search Form has been completed or captured on video.

NOTE: A person with authority to consent to search should be present or otherwise in a position to communicate a withdrawal of consent should they so desire.

While there is no requirement that an individual be told of their right to refuse consent, such a warning may provide strong support for the validity of any consent. At any point that an individual withdraws consent, any related search should be discontinued unless and until otherwise legally permitted. If this occurs, and the officer has probable cause to believe that there is evidence or suspects remaining in areas of the premises not searched under consent, officers should consider obtaining a valid search warrant to continue this search. Officers may secure the premises until such time as the warrant is authorized, then continue the search.

Officers should describe how a voluntary and authorized consent was obtained in any related report(s).

322.8.3 EXIGENT CIRCUMSTANCES

Exigent circumstances that may permit entry into premises without a warrant or valid consent generally include any of the following:

- (a) Imminent danger of injury or death;
- (b) Serious damage to property;
- (c) Imminent escape of a suspect; and/or
- (d) The destruction of evidence.

322.9 VEHICLES

Absent consent or a valid warrant, members shall not search the vehicle of a detainee unless:

- (a) There exists specific facts that indicate the vehicle in the detainee’s immediate possession may have weapons in it. In such cases, vehicle weapons searches are limited to the interior areas where the detainee might have access to a weapon; or
- (b) Members may conduct a warrantless search of any part of a vehicle which is being used on a public thoroughfare, or which is readily capable of such use, as long as they have probable cause to believe the object they are looking for may be located in that portion of the vehicle. The standard of proof is the same as obtaining a warrant but is an exception to the warrant process based on the moveable nature of the vehicle. Members shall document the facts supporting the probable cause to search the vehicle, and the results of the search in the appropriate report when such is required under any provision of the Policy Manual;
- (c) Authorized by Probation/Parole;
- (d) Exigent circumstances exist to conduct the search for articulable public safety reasons; and/or
- (e) A Vehicle Inventory Report is required (e.g., impounds).

322.10 DOCUMENTATION OF SEARCHES

When a report is generated related to an incident involving a search (i.e. vehicle impounds, PC 849(b) releases, arrests, etc.), officers are responsible to document the search and to ensure that any required reports are sufficient including, at minimum, documentation of the following:

- (a) Reason for the search;
- (b) Any efforts used to minimize the intrusiveness of any search (e.g., asking for consent or keys);

- (c) What, if any, injuries or damage occurred;
- (d) All steps taken to secure property;
- (e) The results of the search, including a description of any property or contraband seized; and
- (f) If the person searched is the opposite sex, any efforts to summon an officer of the same sex as the person being searched and the identification of any witness officer.

322.11 VOLUNTARY TRANSPORTATION

During the course of an investigation, an officer may need to transport a victim, witness, or involved party to another location. Prior to transporting a person to a destination, officers shall complete a Consent to be Transported Form or capture consent on video.

The form shall contain the following information:

- (a) A case number;
- (b) Signature of the person being transported;
- (c) Signature of a witnessing officer; and
- (d) An advisement that the person may withdraw their consent at any time.

Supervisors shall review reports to ensure the reports are accurate, that actions are properly documented and that current legal requirements and Department policy have been met.

323.1 POLICY

Officers shall take the necessary steps to plan all warrant services carefully to prevent injury to suspects and members. Search warrants are only to be executed by sworn personnel.

323.1.1 PURPOSE AND SCOPE

A pre-planned tactical operation is any operation where officers plan on taking some sort of enforcement action. Examples of pre-planned tactical operations are search warrants, knock and talks, probation/parole searches, arrest warrants, etc.

323.2 COORDINATION WITH SIB

Any drug enforcement effort shall be coordinated with the Special Investigation Bureau (SIB). Members shall contact a SIB supervisor before proceeding with any drug related investigation likely to lead to a search warrant or “knock and talk” where members have reason to believe a significant quantity of drugs may be located.

323.3 SEARCH WARRANT PLAN

All units shall check with a Law Enforcement event deconfliction system, such as WSIN, before proceeding with any search warrant or drug enforcement related investigation at a specific location. Refer to Policy 610.

The case agent and a member of the unit who will serve the warrant shall develop a plan for serving the warrant.

During the planning stage the case agent, a member of the unit serving the warrant and a unit supervisor shall, in person, observe the location to be searched to determine how the search warrant is served, what resources are needed, and to ensure identification of the right location.

There are some situations where it may not be possible to observe the location in person due to its isolation, counter-surveillance, etc. In such cases the case agent and a unit supervisor will evaluate the location by other means. This could include, but is not limited to:

- (a) Review of any surveillance of the location already conducted;
- (b) Information from confidential informants;
- (c) Video of the location;
- (d) Photographs from ground level; and/or
- (e) Photographs from the air.

“No-Knock” warrants are inherently dangerous and can present a high risk to the safety of both officers and the public. “No-Knock” warrants should only be utilized under the most extreme circumstances for the preservation of life. “No-Knock” warrants can only be obtained through the authorization of a judge, approving “No-Knock” service. Prior to the service of any “No-Knock” warrant, permission shall be obtained from the Chief of Police or their designee. After approval from the Chief of Police or their designee, the “No-Knock” search warrant shall be reviewed by the Unit Commander and SWAT Commander or designee prior to service.

323.4 SUPERVISOR RESPONSIBILITIES

A supervisor shall review and sign the case agent’s plan for the service of every search warrant.

The supervisor shall determine when assistance from the Patrol Division is needed and shall determine the role of the patrol personnel at the search warrant location.

The supervisor should consider notifying EMS to have an ambulance on stand-by in the area when serving the search warrant.

Plainclothes members participating in the service of a search warrant or are part of a pre-planned tactical operation shall wear Department authorized raid vests. The raid vests shall have visible markings/patches that readily identify the wearer of the vest as a police officer.

Members assisting in serving the warrant shall be armed with their Department issued firearms. Their Department issued firearm(s) shall be the primary weapon when serving any search warrant. A Department issued rifle or shotgun may be used in lieu of the officer's primary duty weapon. [REDACTED]

323.6 LOCATIONS SECURED PRIOR TO OBTAINING A WARRANT

Members at the scene of a crime where they are holding the scene pending a search warrant are not required to complete a Risk Assessment Matrix.

A member of the unit serving the search warrant shall prepare a tactical operation plan for the service of every search warrant. A pre-planned operation intended to apprehend a suspect in a homicide with a firearm will also require preparation of a tactical operation plan, based on time permitting and the exigency of the specific situation. The member will use the Department approved tactical operations plan format located at L:\LIBRARY\FORMS\Search Warrants - Tac Plans. All sections of the tactical operations plans will be completed. The tactical plan may be modified or updated through the Policy & Procedure Unit.

- (a) A diagram of the specific location where the warrant is to be served;
- (b) A map of the immediate area showing the location where the warrant is to be served, the streets and alleys around the warrant location, proposed location of perimeter units, proposed approach route and parking area of the entry team(s), and any other features that the case agent deems important;
- (c) Intelligence information gathered on the location and suspects. This should include photos of known suspects, photos of the location, RMS on known suspects, weapons histories, and if any children are at the location;
- (d) Listing of personnel and equipment required to serve the warrant. This would include any special weapons that are needed and any assistance needed from Patrol Division members, air support, K-9's, etc.;

- (e) Communication plan listing the primary channel, if the primary channel will be monitored by dispatch, secondary channel, cell phone numbers, etc.;
- (f) Rally point in case of emergencies;
- (g) Location and route to nearest hospital; and
- (h) Any other information the case agent deems relevant.

The case agent will maintain a copy of the original tactical operations plan in the case file. All copies will be destroyed at the completion of the operation.

A separate form should be used to provide member's cell phone numbers, description of undercover officer or vehicles, confidential informants, or other sensitive information. These forms will not be part of the tactical operations plan and will be destroyed after the conclusion of the operation.

323.8 BRIEFING

A briefing shall be conducted before serving a search warrant or executing a pre-planned tactical operation to apprehend a violent felony suspect. Attendance at the briefing is mandatory for all members serving the search warrant, participating in the service of the warrant or pre-planned tactical operation. The briefing should include, but not be limited to, the following:

- (a) A description of the search warrant location;
- (b) A description of suspect(s), crime(s) involved, weapons, and contraband;
- (c) Identification of point of entry, secondary entry points, rally point(s) and zones of fire;
- (d) Designation of entry team members, equipment they require and how they will deploy;
- (e) Designation of perimeter team members, equipment they require and how they will deploy;
- (f) Role of assisting units such as Patrol Division, air support, etc.; and
- (g) Review of the information contained in the tactical operations plan.

Members at the briefing shall be given a copy of the search warrant tactical operations plan.

323.9 NOTIFICATIONS

Units preparing to serve a search warrant shall notify the Duty Office and the ComCen supervisor prior to serving the search warrant.

- (a) The notification shall include the location where the search warrant will be served and the expected time of service.
- (b) The supervisor shall notify the ComCen supervisor of any special requirements such as a channel dedicated to the unit while they serve the warrant, whether a dispatcher is needed to monitor the channel, etc.
- (c) When a location is secured prior to obtaining a search warrant, the Duty Office and the ComCen supervisor shall be notified of the operation as soon possible.
- (d) The Unit Commander, District Commander, or their designee, shall consult with the SWAT Commander or designee to determine if SWAT will assist in serving the warrant.

The case agent shall notify any law enforcement agency of a pending search warrant in their jurisdiction prior to serving the warrant.

323.10 POST SERVICE DUTIES

A receipt listing seized items shall be left in an in a prominent location. The goldenrod copy of the Property and Evidence Report (PER) may serve as the receipt.

A "Notice of Service" shall be left in a prominent location. After the search warrant location is secure, the case agent may consider having the layout of the location recorded for future reference. This may be done by drawing a diagram, taking photographs, video, etc.

Photographs should be taken at the conclusion of a search warrant to document any damage or lack of damage at the location. The photographs may be taken by the unit serving the warrant or by a Crime Scene Bureau technician.

323.11 RISK ASSESSMENT MATRIX

The Risk Assessment Matrix is used during the search warrant planning stage to determine when consultation with SWAT is required. The Risk Assessment Matrix is a YES/NO criteria based questionnaire and includes information such as the type of crime and criminal histories of suspects involved, that are related to the service of warrants. The case agent, member completing the tactical operations plan or a unit supervisor shall complete the Risk Assessment Matrix and will record any affirmative responses (YES) that apply to their warrant. All boxes shall be marked. The member completing the Risk Assessment Matrix will include all available information including, but not limited to criminal histories/rap sheets, RMS, Automated Firearm System (AFS), prior police reports, social media, and confidential/citizen informants. Risk Matrix numerical values are for FPD operations only. The values are for consistency of preplanned operation service and notification guidelines to include SWAT consultation.

- (a) If any boxes in items 1-5 are marked YES, SWAT should be contacted.
- (b) If two or more boxes in items 6-11 are marked YES, SWAT should be contacted.
- (c) The unit supervisor shall notify the Bureau or District Commander before the service of any warrant or consultation with the SWAT commander or designee.
- (d) The unit member, or unit supervisor, completing the Risk Assessment Matrix shall consult with the SWAT Commander, or designee, if the above criterion is reached to determine if SWAT will assist in serving the warrant.
- (e) SWAT notification shall be reflected in the tactical operations plan and any police report associated with the service of the search warrant. If SWAT was not used, this shall be reflected under "SWAT Contacted" and "SWAT Utilized" on the Risk Assessment and the police report as well. The name of the SWAT commander or designee consulted shall be included in the tactical operations plan and police report.

The Risk Assessment Matrix cannot cover all the possibilities relating to the serving of warrants. Although the score on the Risk Assessment Matrix may not require consultation with the SWAT Commander or designee, there may be cases where such consultation might be appropriate.

A copy of the Risk Assessment Matrix shall be included in the plan for serving all search warrants. A copy of the Risk Assessment Matrix is attached at the end of this order.

Fresno Police Department Policy Manual

Temporary Custody of Juveniles

324 Temporary Custody of Juveniles

324.1 POLICY

The Fresno Police Department is committed to releasing juveniles from temporary custody as soon as reasonably practicable and keeping juveniles safe while they are in temporary custody at Department facilities. Juveniles should be held in temporary custody only for as long as reasonably necessary for investigative purposes, processing, transfer, or release. When a juvenile is placed in temporary custody of the Fresno Police Department, officers shall identify the purpose for taking temporary custody of the juvenile and determine the appropriate manner in which the juvenile is to be detained.

Officers and Cadets shall exercise sufficient control over the juvenile in their custody to minimize the potential for escape, injury, property damage, and/or evidence destruction.

324.1.1 PURPOSE AND SCOPE

This policy provides guidelines consistent with the Juvenile Justice and Delinquency Prevention Act for juveniles taken into temporary custody by members of the Fresno Police Department (42 United States Code §5633).

324.2 DEFINITIONS

Juvenile non-offender - An abused, neglected, dependent or alien juvenile who may be legally held for their own safety or welfare. This also includes any juvenile who may have initially been contacted for an offense that would not subject an adult to arrest (e.g., fine-only offense) but was taken into custody for their protection or for purposes of reuniting the juvenile with a parent, guardian, or other responsible person. Juveniles 11 years of age or younger are considered juvenile non-offenders even if they have committed an offense that would subject an adult to arrest.

Juvenile offender - A juvenile 12 to 17 years of age who is alleged to have committed an offense that would subject an adult to arrest (a non-status offense) (Welfare & Institutions Code §602). It also includes an offense under Penal Code §29610 for underage possession of a handgun or concealable firearm (28 Code of Federal Regulations §31.303).

Non-secure detention - When a juvenile is held in the presence of an officer or other custody employee at all times and is not placed in a locked room, cell or behind any locked doors. Juveniles in non-secure detention may be handcuffed but not to a stationary or secure object. Personal supervision, through direct visual monitoring and audio two-way communication is maintained. Monitoring through electronic devices, such as video, does not replace direct visual observation (WIC §207.1(d); 15 California Code of Regulations §1150).

Safety checks - Direct, visual observation personally by member of this department performed at random intervals within time frames prescribed in this policy to provide for the health and welfare of juveniles in temporary custody.

Secure detention - When a juvenile offender is held in a locked room, a set of rooms or a cell. Secure detention also includes being physically secured to a stationary object (15 CCR §1146).

Examples of secure detention include:

- (a) A juvenile left alone in an unlocked room within the secure perimeter of the adult temporary holding area, i.e. prisoner processing center within CSIB.
- (b) A juvenile handcuffed to a rail.
- (c) A juvenile placed in a room that contains doors with delayed egress devices that have a delay of more than 30 seconds.
- (d) A juvenile being processed in a secure booking area when an unsecure booking area is available.

- (e) A juvenile left alone in a secure booking area after being photographed and fingerprinted.
- (f) A juvenile placed in a cell within the adult temporary holding area, whether or not the cell door is locked.
- (g) A juvenile placed in a room that is capable of being locked or contains a fixed object designed for cuffing or restricting movement.

Sight and sound separation - Located or arranged to prevent physical, visual or auditory contact with adult prisoners.

Status offender - A juvenile suspected of committing a criminal violation of the law that would not be a criminal violation but for the age of the offender. Examples may include running away, underage possession of tobacco, curfew violation or truancy. A juvenile in custody on a court order or warrant based upon a status offense is also a status offender. This includes the habitually disobedient or truant juvenile under WIC §601 and any juvenile suspected of an offense that would not subject an adult to arrest (e.g., fine-only offense).

When any question exists as to whether a suspect is a juvenile or adult, members shall attempt to resolve the issue before any enforcement action (i.e., arrest or citation) is taken. When members are unable to positively confirm the age of a suspect, and the suspect's appearance does not suggest age under 18, the suspect shall be handled as an adult.

324.3 AUTHORITY TO DETAIN

Legal authority for taking custody of juvenile offenders is found in WIC §625.

324.3.1 ADVISEMENT

In any case where a juvenile is taken into temporary custody, the juvenile shall be promptly advised of their Miranda rights to ensure the admissibility of any spontaneous statements, whether or not questioning is intended (WIC §625).

Officers shall take immediate steps to notify the juvenile's parent, guardian or a responsible relative that the juvenile is in custody, the location where the juvenile is being held and the intended disposition (WIC §627).

Whenever a juvenile is taken into temporary custody, they shall be given the Miranda Rights advisement regardless of whether questioning is intended (WIC §625).

Anytime a juvenile offender is placed in secure detention, they shall be informed of the purpose of the secure detention, the length of time the secure detention is expected to last and of the maximum six-hour limitation (WIC §207.1(d)).

Juveniles taken into custody for an offense shall immediately be advised (within one hour from being taken into custody) that they may make three telephone calls: one call completed to their parent or guardian; one to a responsible relative or employer; and another call completed to an attorney. The calls shall be at no expense to the juvenile when completed to telephone numbers within the local calling area. Juveniles should be asked whether they are a caregiver and provided two more phone calls in the same manner as provided to adults in the Temporary Custody of Adults Policy (WIC §627; PC §851.5).

324.4 TYPE OF DETENTION

324.4.1 NON-SECURE DETENTION

Non-secure detention means juveniles shall be placed in an unlocked room or open area. Juveniles may be handcuffed, but not to a stationary or secure object.

Juveniles not meeting the criteria to be placed in a locked detention room, or any juvenile under the age of 14-years taken into custody for a criminal violation, regardless of the seriousness of the offense, may be temporarily detained in the police facility however the custody must be non-secure.

Juveniles shall receive constant personal visual supervision by law enforcement personnel. Monitoring a juvenile using audio, video or other electronic device does not replace constant personal visual supervision.

324.4.2 SECURE DETENTION

A juvenile may be held in secure detention in a holding cell, if the juvenile is 14-years of age or older and, if in the reasonable belief of the peace officer, the juvenile presents a serious security risk of harm to self or others, as long as all other conditions of secure detention set forth below are met.

Any juvenile in temporary custody who is less than 14-years of age, or who does not, in the reasonable belief of the peace officer, present a serious security risk of harm to self or others, shall not be placed in secure detention, but may be kept in non-secure custody in the facility as long as all other conditions of non-secure detention are met (WIC §602, Title 15 CCR §1545).

- (a) In making the determination whether the juvenile presents a serious security risk of harm to self or others, the officer may take into account the following factors:
 - 1) Age, maturity, and delinquent history of the juvenile;
 - 2) Severity of the offense(s) for which the juvenile was taken into custody;
 - 3) Juvenile's behavior, including the degree to which the minor appears to be cooperative or non-cooperative;
 - 4) The availability of staff to provide adequate supervision or protection of the juvenile; and
 - 5) The age, type, and number of other individuals who are detained in the facility.
- (b) A juvenile may be locked in a room or secured in a detention room subject to the following conditions:
 - 1) Juvenile is 14-years of age or older;
 - 2) Juvenile is taken into custody on the basis of having committed a criminal law violation as defined in WIC §602;
 - 3) Detention at this facility does not exceed six hours from the time of arrival at the police station, when both secure and non-secure time is combined;
 - 4) Detention is for the purpose of giving the officer time to investigate the case, facilitate the release of the juvenile to parents, or arrange transfer to JJC; and
 - 5) The officer apprehending the juvenile has reasonable belief that the juvenile presents a "serious security risk of harm to self or others."

324.4.3 SECURE DETENTION REQUIREMENTS

While in secure detention, juveniles may be locked in a room or other secure enclosure, or otherwise reasonably restrained as necessary to prevent escape and protect the juvenile or others from harm.

- (a) Juveniles held in secure detention outside of a locked enclosure shall not be secured to a stationary object for more than 60 minutes unless no other locked enclosure is available. If a juvenile is secured, the following conditions must be met:
 - 1) A Department member must be present at all times to ensure the juvenile's safety while secured to a stationary object;
 - 2) Juveniles who are secured to a stationary object are moved to a detention room as soon as one becomes available; and
 - 3) Juveniles secured to a stationary object for longer than 60 minutes, and every 30 minutes thereafter, shall be approved by the Sergeant or the designated supervisor and the reason for continued secure detention shall be documented.
- (b) In the event a juvenile is held inside a locked enclosure, the juvenile shall receive adequate supervision which, at a minimum, includes:
 - 1) Constant auditory access to an officer by the juvenile; and
 - 2) Unscheduled personal visual supervision of the juvenile by an officer, no less than every 15 minutes. These checks shall be documented.
- (c) Males and females shall not be placed in the same locked room unless accompanied by an officer.

324.4.4 MONITORING OF JUVENILES

During the entire detention an in-person visual inspection shall be done to ensure the welfare of the juvenile and shall be conducted at least once every 30 minutes, until the juvenile is released. This inspection shall not be replaced by video monitoring.

This inspection shall be conducted by the arresting officer, detective, or sworn designee, and the visual inspection shall be logged on the Inspection Log in the SVB office.

More frequent visual inspections should be made as circumstances dictate as in the case of an injured or ill juvenile being detained, or if specific circumstances exist such as a disciplinary problem or suicide risk.

324.4.5 PANIC / DURESS ALARMS

There are panic/duress buttons that are mounted in both the Prisoner Processing Section and SVB Temporary Holding Cell areas should a member need assistance. These are audible voice alarms and when activated, notification will be made on Channel One.

324.4.6 SUICIDE PREVENTION OF JUVENILES IN CUSTODY

Department members should be alert to potential symptoms based upon exhibited behavior that may indicate the juvenile is a suicide risk. These symptoms may include depression, refusal to communicate, verbally threatening to kill themselves or any unusual behavior which may indicate the juvenile may harm themselves while in either secure or non-secure custody (15 CCR §1142).

The detaining or transporting officer shall notify a supervisor if they believe the juvenile may be a suicide risk. The officer will arrange for transportation to a mental health facility for evaluation or to JJC and arrange for the booking of the juvenile, providing the juvenile meets the intake criteria. The juvenile shall be under constant personal supervision until the transfer is completed.

324.4.7 EMERGENCY MEDICAL CARE OF JUVENILES IN CUSTODY

When emergency medical attention is required for a juvenile who is in custody, EMS will be called. A supervisor shall be notified of the need for medical attention for the juvenile. Department members should administer first aid as applicable (15 CCR §1142). The juvenile will then be transported by EMS to a medical facility.

In the event of a serious illness, suicide attempt, injury or death of a juvenile, the following persons shall be notified as soon as possible:

- (a) The Juvenile Court; and
- (b) The parent, guardian, or person standing in loco parentis, of the juvenile.

324.5 CUSTODY OF JUVENILES

Officers should take custody of a juvenile and temporarily hold the juvenile at a Fresno Police Department facility when there is no other lawful and practicable alternative to temporary custody. Refer to Policy §330-Child Abuse Reporting for additional information regarding detaining a juvenile that is suspected of being a victim.

No juvenile should be held in temporary custody at a Fresno Police Department facility without authorization of a supervisor. Juveniles taken into custody shall be held in non-secure custody unless otherwise authorized by this policy.

Any juvenile taken into custody shall be released to the care of the juvenile's parent or other responsible adult or transferred to a juvenile custody facility or to other authority as soon as practicable and in no event shall a juvenile be held beyond six hours from the time of their entry into the Fresno Police Department (42 USC §5633; WIC §207.1(d)).

- (a) **Juvenile Non-Offenders** - Non-offenders taken into protective custody in compliance with the Child Abuse Policy should generally not be held at a Fresno Police Department facility. Juveniles detained pursuant to WIC §300 are not required to be documented on detention logs

or subject to the six hours detention restriction. Custodial arrangements should be made for non-offenders as soon as reasonably possible. Juvenile non-offenders shall not be held in secure detention. (34 USC §11133; WIC §206).

Juveniles 11 years of age or younger who have committed an offense that would subject an adult to arrest may be held in non-secure custody for the offenses listed in WIC §602(b) (murder and the sexual assault offenses) and should be referred to a probation officer for a placement determination.

- (b) **Juvenile Status Offenders** - Status offenders should generally be released by citation or with a warning rather than taken into temporary custody. However, officers may take custody of a status offender if requested to do so by a parent or legal guardian in order to facilitate reunification (e.g., transported home or to the station to await a parent). Status offenders shall not be held in secure detention. (34 USC §11133).
- (c) **Juvenile Offenders** - Juvenile offenders should be held in non-secure detention while at a Fresno Police Department facility unless another form of custody is authorized by this policy or is necessary due to exigent circumstances.

Generally, a juvenile offender may be taken into custody when authorized by a court order or when there is probable cause to believe the juvenile has committed an offense that would subject an adult to arrest (WIC §625).

A juvenile offender who is 14 years of age or older and suspected of using a firearm in violation of WIC §625.3 shall be transported to a juvenile facility.

A juvenile offender suspected of committing murder or a sex offense that may subject a juvenile to criminal jurisdiction under WIC §602(b), or a serious or violent felony should be referred to a probation officer for a decision on further detention.

In all other cases the juvenile offender may be:

- 1) Released upon warning or citation;
- 2) Released to a parent or other responsible adult after processing at the Department;
- 3) Referred to a probation officer for a decision regarding whether to transport the juvenile offender to a juvenile facility; or
- 4) Transported to their home or to the place where the juvenile offender was taken into custody (WIC §207.2).

In determining which disposition is appropriate, the investigating officer or supervisor shall prefer the alternative that least restricts the juvenile's freedom of movement, provided that alternative is compatible with the best interests of the juvenile and the community (WIC §626).

Whenever a juvenile offender under the age of 14 is taken into custody, the officer should take reasonable steps to verify and document the child's ability to differentiate between right and wrong, particularly in relation to the alleged offense (PC §26).

When an officer is presented with a citizen arrest of a juvenile, the officer may arrest and bypass the citizen arrest procedure per WIC §625.

324.6 TEMPORARY CUSTODY

No juvenile may be held in temporary custody at a Fresno Police Department facility without authorization of a supervisor. An individual taken into custody for WIC §§300 or 601 shall be processed as soon as practical. Juveniles detained pursuant to WIC §300 are not required to be documented on detention logs or subject to the six hours detention restriction.

Juveniles detained may not be held at a Fresno Police Department facility for more than six hours from the time of arrival at the facility. If the six-hour time limit has expired, the juvenile should be transported to JJC or released.

When a juvenile is taken into custody for any offense pursuant to WIC §602 and the juvenile is to be detained in a facility of the Fresno Police Department, the following steps shall be taken by the arresting officer, or the detective assigned to the case:

- (a) Once the detained juvenile has been placed in secure or non-secure detention, complete the Juvenile Detention Log located in the facility in which the juvenile is to be detained;
- (b) Take immediate steps to notify the juvenile's parent, guardian, or a responsible relative that such juvenile is in custody and provide the location where the juvenile is being held and the intended disposition (WIC §627); and
- (c) Submit a completed report for approval.

Status offenders and abused or neglected children (juveniles falling within provisions of WIC §300 and §601) may not be detained in police jails or lockups. They may be taken to welfare workers but may not be held in a secured environment or come into contact with adults in custody in the station.

324.6.1 TEMPORARY CUSTODY REQUIREMENTS

Juveniles held in temporary custody shall have the following made available to them (15 CCR §1143);

- (a) Access to toilets and washing facilities;
- (b) One snack upon request during term of temporary custody if the juvenile has not eaten within the past four hours or is otherwise in need of nourishment. The snack shall be provided by the arresting officer or as directed by a supervisor;
- (c) Access to drinking water;
- (d) Privacy during visits with family, guardian, or lawyer;
- (e) Immediately after being taken to a place of temporary confinement, and except where physically impossible, no later than one hour after being taken into custody, advise and provide the juvenile an opportunity to make at least three telephone calls within one hour of being taken into temporary custody. The telephone calls must be made to a parent, guardian, responsible relative, employer, or an attorney (WIC §627 and PC §851.5); and
- (f) Blankets and clothing necessary to ensure the comfort of the juvenile (clothing shall be provided by the Department if the juvenile's clothing is taken as evidence or is otherwise unsuitable or inadequate for the continued wear while in custody).

324.6.2 JUVENILE'S PERSONAL PROPERTY

The officer placing a juvenile into a detention room must make a thorough search of the juvenile's property. The property shall be inventoried in the juvenile's presence and sealed into the property bag. The property will be maintained by the responsible member until the juvenile is released from the custody of the Department.

324.6.3 USE OF ALTERNATIVE RESTRAINT DEVICES

Juveniles in temporary custody shall not be subjected to alternative restraints. Handcuffs are not alternative restraints.

WIC §5150: Restraints shall only be used so long as it reasonably appears necessary for the juvenile's protection or the protection of others.

Restraints shall not be used as a punishment, or as a substitute for treatment.

324.7 JUVENILE DETENTION LOGS

Any time a juvenile is held in custody at Headquarters, any District Stations or other Department facility, the custody shall be promptly and properly documented in the juvenile detention log, including:

- (a) Identifying information about the juvenile;
- (b) Date and time of arrival and release from the Fresno Police Department (15 CCR §1150);
- (c) Supervisor notification and approval to temporarily hold the juvenile;
- (d) Any charges for which the juvenile is being held and classification of the juvenile as a juvenile offender, status offender or non-offender;
- (e) Any changes in status;

- (f) Time of all safety checks;
- (g) Any medical and other screening requested and completed (15 CCR §1142);
- (h) Circumstances that justify any secure custody (WIC §207.1(d); 15 CCR §1145); and
- (i) WIC §207.1 Advisement Information for any secure detention.

324.8 NO-CONTACT REQUIREMENTS

Sight and sound separation shall be maintained between all juveniles and adults while in custody at the Department. There should also be sight and sound separation between non-offenders and juvenile and status offenders. There shall be no contact between juveniles held in temporary custody and adult prisoners who are detained except as provided below 34 USC §11133; WIC §207.1(d); WIC §208; 15 §1144).

Contact between juveniles in temporary custody, both secure and non-secure, and adult prisoners shall be restricted as follows:

- (a) There will be no communication between the juvenile and adult prisoners allowed.

324.9 CUSTODIAL INTERROGATION

No interview or interrogation of a juvenile should occur unless the juvenile has the apparent capacity to consent and does consent to an interview or interrogation. Threats, physical harm, deception, or psychologically manipulative interrogation tactics shall not be used by an officer during a custodial interrogation of a juvenile (WIC § 625.7).

Prior to conducting a custodial interrogation, including the waiver of Miranda rights, an officer shall permit a juvenile 17 years of age or younger to consult with legal counsel in person, by telephone, or by video conference. The consultation may not be waived by the juvenile. The requirement to consult with legal counsel does not apply when (WIC § 625.6):

- (a) Information is necessary to protect life or property from an imminent threat.
- (b) The questions are limited to what is reasonably necessary to obtain the information relating to the threat.

The member conducting the interrogation should explain to the juvenile and parent/guardian what they may expect during the processing and interrogation, including:

- (a) The procedures of the juvenile justice system (e.g., juveniles release pending hearing, mail notification of hearing date/time/location, etc.); and
- (b) The procedures of the Fresno Police Department. (e.g., juvenile processing at HQ, booking vs. cite & release, etc.)

No more than two members should participate in the interrogation of a juvenile.

Exception: Questioning reasonably deemed necessary to protect life or property from imminent threat.

During detention/custody, juveniles may be held only long enough for members to investigate the crime, facilitate release of the juvenile to a parent, guardian, responsible relative or adult designated by the parent, or arrange for them to be transported to JJC.

324.9.1 MANDATORY RECORDINGS

Any interrogation of an individual under 18 years of age who is in custody and suspected of committing murder shall be audio and video recorded when the interview takes place at a department facility, jail, detention facility or other fixed place of detention. The recording shall include the entire interview and a Miranda advisement preceding the interrogation (PC §859.5).

This recording is not mandatory when (PC §859.5):

- (a) Recording is not feasible because of exigent circumstances that are later documented in a report.

- (b) The individual refuses to have the interrogation recorded, including a refusal any time during the interrogation, and the refusal is documented in a report. If feasible, the refusal shall be electronically recorded.
- (c) The custodial interrogation occurred in another state by law enforcement officers of that state unless the interrogation was conducted with the intent to avoid the requirements of PC §859.5.
- (d) The interrogation occurs when no member conducting the interrogation has a reason to believe that the individual may have committed murder. Continued custodial interrogation concerning that offense shall be electronically recorded if the interrogating member develops a reason to believe the individual committed murder.
- (e) The interrogation would disclose the identity of a confidential informant or would jeopardize the safety of an officer, the individual being interrogated or another individual. Such circumstances shall be documented in a report.
- (f) A recording device fails despite reasonable maintenance and the timely repair or replacement is not feasible.
- (g) The questions are part of a routine processing or booking and are not an interrogation.
- (h) The suspect is in custody for murder and the interrogation is unrelated to a murder. However, if any information concerning a murder is mentioned during the interrogation, the remainder of the interrogation shall be recorded.

These recordings shall be retained until a conviction is final and all direct and habeas corpus appeals are exhausted, a court no longer has any jurisdiction over the individual or the prosecution for that offense is barred (PC §859.5; WIC §626.8).

324.10 PROCESSING

Juveniles under the age of 10 or those in custody for WIC §601 shall not be processed under any circumstances.

The processing of juveniles booked at JJC will be handled by JJC personnel.

CSIB will only process a juvenile if:

- (a) The arresting officer is unable to verify the juvenile's identity; or
- (b) The juvenile is going to be cited and released and the arresting officer wishes to create a record with our Department.

Any juvenile taken to CSIS for processing shall be taken through the public entrance and held in the lobby area until processed. The juvenile shall not be left unattended at any time. All adult prisoners shall be secured in the holding cells and the door closed between the cells and the prisoner processing area. There shall not be any sight or sound contact between the prisoners and the juvenile.

324.11 DISPOSITIONS – REPRIMAND & RELEASE / CITATIONS, BOOKINGS

After an officer has taken a juvenile into temporary custody for a violation of law, the following dispositions are authorized:

- (a) The arresting officer may counsel or admonish the juvenile and recommend no further action be taken (reprimand and release);
- (b) The arresting officer may cite and release; or
- (c) The juvenile may be transferred to JJC when the violation falls within the provisions of WIC §602.

324.11.1 REPRIMAND & RELEASE

Any juvenile not transferred to JJC shall be released to one of the following:

- (a) Parent or legal guardian;
- (b) An adult member of their immediate family;
- (c) An adult person specified by the parent/guardian;
- (d) An adult person willing to accept responsibility, when the juvenile's parents are unavailable as approved by the member's supervisor; or
- (e) Child Protective Services.

A Juvenile Arrest Report (JAR) shall be completed with applicable charges listed and the involvement code for the juvenile listed as Reprimanded & Released. The narrative of the JAR shall refer to the narrative of the report in Axon Records.

324.11.2 CITE & RELEASE

When a juvenile is to be cited for any traffic offense (infraction or misdemeanor) or any infraction non-traffic offense, members shall utilize the standard Traffic/Misdemeanor Citation Form.

When a juvenile is to be cited for any misdemeanor non-traffic offense, the Juvenile Arrest Report (JAR) will serve as the citation.

Exception: When a juvenile is cited for any Health and Safety infraction and/or misdemeanor, members shall utilize the standard Traffic/Misdemeanor Citation Form. JARS are not accepted by the Traffic Court.

In deciding whether or not to cite a juvenile (as opposed to arresting and booking), investigating officers shall consider the following criteria.

Misdemeanants shall be cited unless the juvenile:

- (a) Has violated a court order;
- (b) Presents an immediate, serious threat to self or others;
- (c) Has no parent/guardian reasonably available to take custody and assume responsibility for the juvenile's appearance;
- (d) Has committed one of the violations listed in VC §40302; or
- (e) Has a warrant for their arrest.

Prior to issuing a citation to a juvenile, the arresting officer shall confirm the juvenile's identity and determine whether the juvenile has any outstanding wants and/or warrants. Additionally, JJC shall be requested to conduct a warrant hand search of arrested juveniles.

Juveniles who live outside of Fresno County may be cited if they meet the established citation criteria.

324.11.3 BOOKING

The juvenile shall be arrested and booked when the officer has reason to believe that the juvenile has committed a felony.

When booking juveniles under 12 years of age, members shall:

- (a) Take reasonable measures to verify the age of the juvenile;
- (b) Establish "clear proof" the juvenile suspect was aware of the wrongfulness of their actions at the time of the offense (PC §26) and committed a qualifying crime set forth within WIC §602(b). Qualifying crimes set forth within WIC §602(b) include:
 - 1) Murder
 - 2) Rape by force, violence, duress, menace, or fear of immediate and unlawful bodily injury.
 - 3) Sodomy by force, violence, duress, menace, or fear of immediate and unlawful bodily injury.
 - 4) Oral copulation by force, violence, duress, menace, or fear of immediate and unlawful bodily injury.
 - 5) Sexual penetration by force, violence, duress, menace, or fear of immediate and unlawful bodily injury.
- (c) Notify a field sergeant, who shall respond to meet with the arresting officer prior to booking.

When a juvenile is to be transported to JJC, the following shall accompany the juvenile:

- (a) An ePCD shall be completed in Fresno County ePCD system for any open misdemeanor or felony charges.
- (b) A Juvenile Detention Disposition Report (JUS 8716). The top section of the Juvenile Detention Disposition Report (Part A for Law Enforcement) shall be completed by the arresting officer.

With the exception of the Arresting Agency copy (blue in color), the completed DOJ form shall be left at JJC. The blue copy shall be submitted to Records.

- (c) Any personal property taken from the juvenile at the time of detention.

A JAR shall be completed in Axon Records for each juvenile. The narrative of the JAR shall refer to the narrative of the report in Axon Records.

324.11.4 SUPERVISOR'S RESPONSIBILITIES

Prior to juveniles under 12 years of age being booked into JJC, supervisors shall:

- (a) Meet with the arresting officer to determine if booking is appropriate;
- (b) Obtain the circumstances surrounding the arrest and confirm the decision to book;
- (c) Notify the district or bureau commander of the circumstances surrounding the booking; and
- (d) Ensure the complete and accurate documentation of the incident.

Note: When unusual circumstances exist, the Supervisor shall contact the Department legal advisor to verify the propriety of the booking.

324.12 DISCIPLINE OF JUVENILES

Police personnel are prohibited from administering discipline to any juvenile.

Exception: Juvenile Offender Work Program

324.13 INTOXICATED AND SUBSTANCE ABUSING MINORS

Juveniles who are arrested while intoxicated may be at risk for serious medical consequences, including death. Examples include acute alcohol poisoning, seizures and cardiac complications of cocaine, markedly disordered behavior related to amphetamines or hallucinogenic drugs, and others.

A medical clearance shall be obtained prior to detention of a juvenile at the Department when the juvenile displays outward signs of intoxication or is known or suspected to have ingested any substance that could result in a medical emergency (Title 15, CCR §1151).

In addition to displaying outward signs of intoxication, the following circumstances require a medical evaluation:

- (a) Known history of ingestion or sequestration of a balloon containing drugs in a body cavity;
- (b) Juvenile is known or suspected to have ingested any substance that could result in a medical emergency;
- (c) A juvenile who is intoxicated to the level of being unable to care for themselves; and
- (d) An intoxicated juvenile whose symptoms of intoxication are not showing signs of improvement.

Juveniles with lower levels of alcohol in their system may not need to be evaluated. An example is a juvenile who has ingested one or two beers would not normally meet this criterion.

A juvenile detained and brought to the Fresno Police Department who displays symptoms of intoxication as a result of alcohol or drugs shall be handled as follows:

- (a) Observation of juvenile's breathing to determine that breathing is regular. Breathing should not be erratic or indicate that the juvenile is having difficulty breathing.
- (b) Observation of the juvenile to ensure that there has not been any vomiting while sleeping and ensuring that intoxicated juveniles remain on their sides rather than their backs to prevent the aspiration of stomach contents.
- (c) An arousal attempt to ensure that the juvenile will respond to verbal or pressure stimulation (shaking to awaken). This is the most important monitoring procedure.
- (d) Personal observation shall be conducted on a frequent basis while the juvenile is in the custody of the Fresno Police Department, and no less than once every 15 minutes until such time as the symptoms are no longer present. For juveniles held in secure detention inside a locked enclosure, officers will ensure constant audio monitoring is maintained in addition to conducting the in-person visual checks. All other forms of detention require the officer to maintain constant visual supervision of the juvenile.

- 1) The 15-minute checks of the juvenile shall be documented on the Juvenile Detention Log of the facility in which the juvenile is being detained.
- (e) Any juvenile who displays symptoms suggestive of a comatose state (increasing difficulty or inability to rouse, irregular breathing patterns, or convulsions), shall be considered an emergency. EMS shall be called, and the juvenile taken to a medical treatment facility.
- (f) Juveniles undergoing acute withdrawal reactions shall immediately be transported by EMS to a medical facility for examination by a physician.
- (g) A medical clearance is required before the juvenile is transported to the Juvenile Justice Campus (JJC) if it is known that the juvenile ingested any intoxicating substances or appears to be under the severe influence of alcohol.

Once the juvenile no longer displays symptoms of intoxication, the juvenile will still be monitored on a 30-minute basis as outlined in this policy. The juvenile will continue to be monitored as required for secure or non-secure detentions.

324.14 USE OF ALTERNATIVE RESTRAINT DEVICES

Juveniles in temporary custody shall not be subjected to alternative restraints. Handcuffs are not alternative restraints. WIC §5150: Restraints shall only be used so long as it reasonably appears necessary for the juvenile's protection or the protection of others.

Restraints shall not be used as a punishment, or as a substitute for treatment.

324.15 DEATH OF A JUVENILE WHILE DETAINED

In the event of a juvenile's death while being detained at this Department, the District Attorney's Office and the Sheriff-Coroner's Office will conduct the investigation of the circumstances surrounding the death. The Investigations Division Commander or designee will conduct an administrative review of the incident.

In any case in which a juvenile dies while detained at FPD facilities, the following shall apply:

- (a) The Chief of Police or designee shall provide to the California Department of Corrections and Rehabilitation a copy of the report submitted to the Attorney General under GC §12525. A copy of the report shall be submitted to the Department of Corrections and Rehabilitation within ten calendar days after the death.
- (b) Upon receipt of a report of death of a juvenile from the Chief of Police or designee, the Department of Corrections and Rehabilitation may within 30 calendar days inspect and evaluate the juvenile facility, jail, lockup or court holding facility pursuant to the provisions of Article 4, Title 15 CCR §1341. Any inquiry made by the Department of Corrections and Rehabilitation shall be limited to the standards and requirements set forth in these regulations.
- (c) A medical and operational review of the in-custody death of a juvenile shall be conducted. The review team shall include the following:
 - 1) Chief of Police or designee;
 - 2) The health administrator;
 - 3) The responsible physician and other health care and supervision staff who are relevant to the incident.

324.16 JUVENILE CONTACTS AT SCHOOL FACILITIES

Officers should make every reasonable effort to notify school officials prior to contacting a student on campus while school is in session.

- (a) Reasonable efforts should be taken to coordinate with school officials to minimize disruption of school functions and maintain a low-profile police presence when contacting a student.
- (b) When circumstances warrant the temporary detention or formal interview of a juvenile student on campus, the officer should:
 - 1) When practical and when it would not unreasonably interfere with the investigation, take reasonable steps to notify a parent, guardian, or responsible adult, including those phone numbers listed on any contact card on file with the school or provided by the

- student. All efforts to contact parents and/or reasons contact was not attempted should be documented.
- 2) Upon the request of the juvenile, a school official may be present during the interview in lieu of a parent.

Any juvenile student who is a suspected victim of child abuse shall be afforded the option of being interviewed in private or selecting any qualified available adult member of school staff to be present. The purpose of the staff member's presence is to provide comfort and support and such staff member shall not participate in the interview. The selection of a staff member should be such that it does not burden the school with costs or hardship (PC §11174.3).

324.17 RELEASE OF INFORMATION CONCERNING JUVENILES

Court decisions and legislation have combined to carefully specify situations in which information may be given out or exchanged when a case involves a juvenile. Officers of this department shall not divulge any information regarding juveniles in situations where they are uncertain of the legal authority to do so.

324.17.1 RELEASE OF INFORMATION BY SUPERIOR COURT ORDER

Court decisions and legislation have combined to carefully specify situations in which information may be given out or exchanged when a case involves a juvenile. Members of this department shall not divulge any information regarding juveniles unless they are certain of the legal authority to do so.

The release of information, including police reports, shall be handled by the Records Section pursuant to the guidelines outlined in WIC §827 and consistent with other policies and procedures.

WIC §828 authorizes the release of certain information to other agencies. It shall be the responsibility of the Records Manager and the appropriate Investigations Division Supervisors to ensure that personnel of those divisions act within legal guidelines.

324.18 BOARD OF STATE AND COMMUNITY CORRECTIONS CERTIFICATION

The Investigations Division Commander shall coordinate the procedures related to the custody of juveniles held at the Fresno Police Department and ensure any required certification is maintained (WIC §210.2).

325.1 POLICY

When exigent circumstances indicate an immediate threat to the life of a person other than a wanted or suicidal subject, officers are expected to take necessary action to preserve life, including forced entry. When no immediate threat to life exists, officers should request supervisor response and establish containment and control over the scene.

325.1.1 PURPOSE AND SCOPE

Due to increased risk, options other than forced entry should be explored whenever practical. Unless there is a need for immediate action to preserve life, officers should attempt to slow the pace of the call, request additional resources, and ensure scene containment. This policy provides general guidelines for Fresno Police Department personnel to consider when deciding whether or not into force entry to a location.

325.2 CONSIDERATIONS

Factors to consider when determining whether or not to force entry include, but are not limited to:

- (a) Seriousness of the suspected offense;
- (b) Need or exigency to force entry immediately versus waiting for additional resources;
- (c) Warning signs present (History at location, firearms present, etc.);
- (d) Control of on-scene involved parties;
- (e) Available force options;
- (f) Availability of other resources such as Crisis Negotiators, mental health advocates, etc.;
- (g) Whether to breach and hold vs. breach and enter immediately;
- (h) Contingency plans if forced entry doesn't go as planned;
- (i) Attempts to communicate with subject(s) inside location; and/or
- (j) Any information indicating the subject is armed and barricaded.

325.3 FORCED ENTRY

When exigent circumstances indicate an immediate threat to the life of a person other than a wanted or suicidal subject, officers are expected to take necessary action to preserve life, including forced entry. When no immediate threat to life exists, officers should request supervisor response and establish containment and control over the scene.

325.3.1 FORCED ENTRY TO ARREST WITHOUT A WARRANT

Officers shall not attempt a forced entry into a private building to arrest a violator without a warrant unless:

- (a) Exigent circumstances exist as an exception to statutes or case law (i.e., Ramey);
- (b) Failure to enter and make an arrest would cause undue hazard to the officer; or
- (c) The status quo cannot be maintained and the scene cannot be secured and held until a warrant is obtained.

325.3.2 FORCED ENTRY TO ARREST WITH AN ARREST WARRANT

Officers attempting the arrest of a person with a warrant who is inside a residence or other building will not force entry into the building to affect the arrest unless:

- (a) All reasonable measures to achieve voluntary submission to arrest have been exhausted;
- (b) Failure to pursue the arrest at that moment would create an immediate danger to life or immediate danger of great bodily injury. Absent an immediate threat to life or immediate threat of great bodily injury, officers should consider temporary postponement while the situation is improved (e.g., calling in special units, negotiators, evacuating neighbors, etc.); and

- (c) There are sufficient officers present to control the arrest situation and surrounding areas.

Any related search warrants and pre-planned tactical operations will be conducted in accordance with Policy §323.

325.3.3 FORCED ENTRY TO PROVIDE EMERGENCY ASSISTANCE

When information is received regarding sick, injured, or deceased persons inside a residence, the decision to proceed with forced entry should be made only after other alternatives have been exhausted. Entry should be immediate when it appears reasonably necessary to protect life. Extreme caution should be exercised to minimize the potential for a violent reaction by an unaware inhabitant.

325.4 CONSIDERATIONS

Factors to consider when determining whether or not to force entry include, but are not limited to:

- (a) **Seriousness of the suspected offense** – What criminal act has actually been established?
- (b) **Need or exigency to force entry immediately versus waiting for additional resources** – Has the information establishing an exigency been verified? Are the actions, or planned actions, of officers creating the exigency? Are there sufficient officers on-scene to address the situation and any contingencies that may arise?
- (c) **Warning signs** – Is there any prior history involving the location or involved subject(s), which would give rise to specific officer safety concerns (e.g. firearms history)?
- (d) **Control of on-scene involved parties** – Are involved parties (RP's, witnesses, etc.) sufficiently contained to prevent interference with police actions?
- (e) **Available force options** – What is the most appropriate force option (lethal/less lethal/K-9) for the situation? When a less lethal force option is deployed, is a lethal cover officer in place and ready to react immediately if necessary?
- (f) **Additional resources** – Is there a K-9, Crisis Negotiator, or mental health professional (MH-1) available? Has dispatch been directed to check all channels?
- (g) **Breach and hold vs. breach and enter immediately** – If breaching the door has been deemed necessary, what is the need to immediately enter the location? Can the suspect(s) be verbally directed to officers versus officers going into the location? Is cover available and could officers safely retreat in the event of an emergency once they enter a location? Do the benefits of taking the chosen action outweigh the risks involved to officers or citizens?
- (h) **Contingency plans** – What alternatives are available if forced entry does not go as planned? Should EMS be called for standby? Could there be a hostage situation, gas/fire risks, etc.?
- (i) **Available communications** – What attempts have been made to call into the location via ComCen, use of a patrol car PA system, or via voice contact through a closed (or even breached) door?
- (j) **Armed Barricaded Subject** – Has information been established indicating the subject is armed and barricaded? If so, refer to Policy §408 for situations that may indicate the need for SWAT.

When a plan is made to force entry, it is imperative the plan is clearly communicated to involved officers, and that each officer brief back their specific role during the forced entry (i.e. less lethal operator, lethal cover, arrest team, etc.).

325.5 RELATED POLICY

Related topics are covered under the following sections of the Policy Manual:

- (a) Use of Force – Policy §300
- (b) Force Options – Policy §308
- (c) Search and Seizure – Policy §322
- (d) Search Warrants/Pre-Planned Tactical Operations – Policy §323

Dependent Adult -Any person residing in this state, regardless of whether the individual lives independently, between the ages of 18 and 64 years, who has physical or mental limitations that restrict their ability to carry out normal activities or to protect their rights including, but not limited to, persons who have physical or developmental disabilities or whose physical or mental abilities have diminished because of age. Members of the Fresno Police Department shall notify the local office of the California Department of Social Services (CDSS) Adult Protective Services (APS) agency when they reasonably suspect, have observed or have knowledge of an incident that reasonably appears to be abuse of an elder or dependent adult, or are told by an elder or dependent adult that they have experienced abuse [WIC §15630(b)]. Notification shall be made by telephone as soon as practicable and a written report shall be provided within two working days as provided in [WIC §15630(b)(c)].

326.3.1 NOTIFICATION PROCEDURE

Notification should include the following information, if known [WIC §15630(e)]:

- (a) The name of the person making the report.
- (b) The name and age of the elder or dependent adult.
- (c) The present location of the elder or dependent adult.
- (d) The names and addresses of family members or any other adult responsible for the care of the elder or dependent adult.
- (e) The nature and extent of the condition of the elder or dependent adult.
- (f) The date of incident; and
- (g) Any other information, including information that led the person to suspect elder or dependent adult abuse.

326.4 ELDER / DEPENDENT ADULT ABUSE REPORTING

Every allegation of elder or dependent adult abuse shall be documented. When documenting elder/dependent adult abuse cases the following information should be included in the report:

- (a) Current location of the victim;
- (b) Victim's condition/nature and extent of injuries, neglect or loss; and
- (c) Names of agencies and personnel requested and on scene.
- (d) The overall basis for the contact. This should be done by the investigating officer in all circumstances where a suspected elder / dependent adult abuse victim is contacted.
- (e) Any relevant statements the victim may have made and to whom they made the statements.
- (f) If a person is taken into protective custody, the reasons, the name and title of the person making the decision and why other alternatives were not appropriate.
- (g) Whether the victim was transported for medical treatment or a medical examination.
- (h) Whether the victim identified a household member as the alleged perpetrator, and a list of the names of any other potential victims or witnesses who may reside in the residence.
- (i) Identification of any prior related reports or allegations of abuse, including other jurisdictions, as reasonably known.

- (m) Whether a death involved the End of Life Option Act:

- 1) Whether or not assistance was provided to the person beyond that allowed by law (HS §443.14)
- 2) Whether an individual knowingly altered or forged a request for an aid-in-dying drug or concealed or destroyed a withdrawal or recession of a request for an aid-in-dying drug (HS §443.17)
- 3) Whether coercion or undue influence was exerted on the person to request or ingest an aid-in-dying drug (HS §443.17)

Any unexplained death of an adult who was in the care of a guardian or caretaker should be considered as potential adult abuse and investigated similarly.

Reporting of cases of elder/dependent adult abuse is confidential and will only be released as per Policy §810.

326.5 ELDER / DEPENDENT ADULT ABUSE CONSIDERATIONS

Officers responding to incidents of actual or suspected elder/dependent adult abuse shall consider the following sections when handling these calls:

- (a) Officers may be called upon to affect a forced entry as the first responder to the scene of a suspected elder / dependent adult abuse. (Policy §§360 & 325);
- (b) Attempt to identify the victim, suspect and witnesses as well as the roles and relationships of all parties. Parties should be interviewed separately when possible. Frequently it is wrongfully assumed that elderly / dependent adult persons are incapable of accurately reporting the incident. Do not automatically discount the statement of an elderly / dependent adult person;
- (c) Any evidence, such as injuries that may change in appearance, should be photographed immediately;
- (d) Officers should assess the available information to determine the type(s) of abuse that may have taken place or the potential for abuse in the future that may be eliminated by our intervention; and
- (e) Make on-scene arrests when appropriate. Immediate arrest of an abuser (especially when the abuser is a family member or caretaker) may leave the elderly / dependent adult victim without necessary support and could result in institutionalization. The effect of an arrest on the victim should be considered and weighed against the assessed risk and the competent victim's desires. The present and future safety of the victim is of utmost importance.

326.6 DRUG-ENDANGERED VICTIMS

A coordinated response by law enforcement and social services agencies is appropriate to meet the immediate and long-term medical and safety needs of an elder / dependent adult abuse victim who has been exposed to the manufacturing, trafficking or use of narcotics.

326.6.1 OFFICER RESPONSIBILITIES

Officers responding to a drug lab or other narcotics crime scene where an elder / dependent adult abuse victim is present or where there is evidence that an elder / dependent adult abuse victim lives should:

- (a) Document the environmental, medical, social and other conditions of the adult, using photography as appropriate and the checklist or form developed for this purpose.
- (b) Notify the supervisor so an interagency response can begin.

326.7 INTERVIEWS

326.7.1 PRELIMINARY INTERVIEWS

Absent extenuating circumstances or impracticality, officers should record the preliminary interview with a suspected adult abuse victim. Officers should avoid multiple interviews with the victim.

326.7.2 DETAINING VICTIMS FOR INTERVIEWS

An officer should not detain an adult involuntarily who is suspected of being a victim of abuse solely for the purpose of an interview or physical exam without their consent or the consent of a guardian unless one of the following applies:

- (a) Exigent circumstances exist, such as:
 - 1) A reasonable belief that medical issues of the adult need to be addressed immediately.
 - 2) A reasonable belief that the adult is or will be in danger of harm if the interview or physical exam is not immediately completed.
 - 3) The alleged offender is a family member or guardian and there is reason to believe the adult may be in continued danger.
- (b) A court order or warrant has been issued.

Interviews with a person with deafness or hearing loss An officer who is interviewing a victim or witness who reports or demonstrates deafness or hearing loss should secure the services of a qualified interpreter (as defined by Evidence Code § 754) prior to the start of the interview (Penal Code § 368.6).

326.8 MEDICAL EXAMINATIONS

When an adult abuse investigation requires a medical examination, the investigating officer should obtain consent for such examination from the victim, guardian, agency or entity having legal custody of the adult. The officer should also arrange for the adult's transportation to the appropriate medical facility.

In cases where the alleged offender is a family member, guardian, agency or entity having legal custody and is refusing to give consent for the medical examination, officers should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for officers to take the adult for a medical examination, the supervisor should consider other government agencies or services that may obtain a court order for such an examination.

326.9 SUPPORT PERSONNEL

The following person(s) should be considered if it appears an in-depth investigation is appropriate:

- (a) Supervisor;
- (b) Detectives;
- (c) Personnel for evidence collection;
- (d) Adult Protective Services Agency personnel (APS); and
- (e) Ombudsman shall be called if the abuse is in a long-term care facility.

326.10 EMERGENCY PROTECTIVE ORDERS

In any situation which an officer reasonably believes that an elder or dependent adult is in immediate and present danger of abuse based on an allegation of a recent incident of abuse or threat of abuse (other than financial abuse alone), the officer may seek an emergency protective order against the person alleged to have committed or threatened such abuse [FC § 6250(d)].

326.11 RECORDS BUREAU RESPONSIBILITY

The Records Bureau is responsible for the following:

- (a) Providing a copy of the elder/dependent adult abuse report to APS, ombudsman or other agency as applicable within two working days or as required by law [WIC §§15630 & 15640(c)]. This requirement is applicable even if the initial call was received from APS; and
- (b) Retaining the original elder/dependent adult abuse report with the initial case file.

Fresno Police Department Policy Manual

Discrimination, Harassment, and Retaliation

328.1 POLICY

The Fresno Police Department is committed to creating and maintaining a work environment that is free of all forms of discrimination, harassment, and retaliation. All complaints will be fairly, timely, and thoroughly investigated. The Department will take appropriate, corrective, and disciplinary action, up to and including termination, for any behavior that violates this policy or the rights and privileges it is designed to protect.

328.1.1 PURPOSE AND SCOPE

The purpose of this policy is to prevent members from being subjected to discrimination, harassment, and/or retaliation, and to ensure a full and equal employment opportunity and maintain and foster a work environment free from discrimination and harassment based on protected classifications for all members, in conformance with Title VII of the Civil Rights Act of 1964, the guidelines issued by the Equal Employment Opportunity Commission, the California Fair Employment and Housing Act, and the guidelines issued by the administrative agencies for those will be adhered to. A process of filing a complaint against any members of this department is found in Policy § 1020.

328.2 DEFINITIONS

Discrimination - Any verbal, physical or visual conduct, acts, or omissions which subject a member to disparate treatment including, but not limited to; terminating a member, subjecting a member to different performance standards or reviews, disciplining a member, depriving a member of job benefits or compensation, or excluding any person from employment or promotional opportunities, because of race, color, ancestry, religious creed, national origin, sex, sexual orientation, gender, gender identity, gender expression, physical disability (including HIV and AIDS), mental disability, medical condition, genetic information, age, marital status, military and veteran status, or any other classification protected by law.

Harassment – Harassment may be verbal, physical, or visual conduct which is unwelcomed and directed or related to a member's protected classification. Harassment that unreasonably alters a member's working conditions to make it more difficult for that member to do their job could constitute a hostile work environment based on the totality of circumstances, even if based on a single incident.

Members who engage in harassment of anyone protected under this policy may be personally liable for the harassment, regardless of whether the Department knew or should have known of the conduct and/or failed to take appropriate corrective action. See City of Fresno Administrative Order 2-16.

Examples of conduct that may constitute harassment, include but are not limited to verbal harassment such as harassing phone calls, derogatory comments, slurs or jokes directed to a member or group of members on account of protected classification, visual harassment, through writings, e-mails, pictures, cartoons or posters which ridicule or demean a member or group of members' protected classifications, and physical harassment, such as unwelcomed or offensive touching, stalking, or impeding or blocking movement on the basis of protected classifications, defined below:

Sexual Harassment - Sexual harassment includes the verbal, visual, or physical conduct described above under **Harassment**, but is further defined to include, but is not limited to; unwelcomed sexual advances, requests for sexual favors and other acts of a sexual nature where:

- (a) Submission to such conduct is made either explicitly or implicitly a term or condition of a member's employment;
- (b) Submission to or rejection of such conduct by a member is used as the basis for employment decisions affecting the member; and/or

- (c) Conduct that has the purpose or effect of interfering with a member's work conditions such that the conduct makes it more difficult for the member to do their job, or creating an intimidating, hostile, or offensive work environment.
- (d) In addition, gender-based discrimination, which may include acts of verbal, nonverbal, or physical aggression, intimidation or hostility based on a person's gender, gender identity, or gender expression, but not involving conduct of a sexual nature, may be a form of sexual harassment of the member.

The conduct does not need to occur between persons of differing rank or power. Sexual harassment may occur between co-workers or equally ranked members. In addition, sexual harassment may involve a female harassing a male, a male harassing a female, or a person harassing another person of the same, or any other, gender. The conduct need not be motivated by sexual desire to constitute sexual harassment.

In determining a hostile work environment, the type of workplace or particular job does not matter even if it had more frequent sexually related commentary or conduct in the past, unless it is integral to the performance of the member's job duties.

Examples of verbal, physical, or visual conduct that may constitute sexual harassment include, but are not limited to direct propositions of a sexual nature, sexual innuendoes, subtle pressure for sexual activity such as repeated, unwelcome requests for dates, inappropriate comments, staring, or touching, direct or implied threats that submission to sexual advances will be a condition of employment, promotions, advancement, or continued employment, conduct that is discomforting, humiliating or both, and includes sexual comments, jokes, questions, anecdotes, unnecessary or unwanted touching, patting, massaging, hugging, or brushing against another person's body, remarks of a sexual nature, insulting sounds or gestures, unwelcome and inappropriate writings, calls or other communications including social media posts or messages, stalking, impeding or blocking movement, and sexual assault.

Discrimination/harassment does not include the following:

- (a) Bona fide acts or omission of acts based solely upon bona fide occupational qualifications under Equal Employment Opportunity Commission and California Fair Employment and Housing Commission Guidelines; and/or
- (b) Bona fide requests or demands by a supervisor that the member improve their work quality or output, that the member report to the job site on time, that the member comply with City or departmental rules or regulations, or any other appropriate work-related communication between supervisor and member.

Retaliation – An adverse action taken against a member for making a complaint of discrimination or harassment, or for cooperating in the investigation of such allegations. Members who engage in retaliation of anyone protected under this policy may be personally liable for the retaliation, regardless of whether the Department knew or should have known of the conduct and/or failed to take appropriate corrective action.

328.2.1 PROTECTED CLASSES DEFINED

Age - Any individual who is forty (40) years of age or older.

Disability - Includes, but is not limited to, deafness, blindness, partially or completely missing limbs, mobility impairments requiring the use of a wheelchair, cerebral palsy, and chronic or episodic conditions such as HIV/AIDS, hepatitis, epilepsy, seizure disorder, diabetes, multiple sclerosis, and heart and circulatory disease.

328.3 ROLES AND RESPONSIBILITIES

This policy applies to all Department personnel. All members shall adhere to these guidelines in a manner that reflects Department policy, AO 2-16, professional law enforcement standards (POST), and the best interest of the Department and its mission.

328.3.1 MEMBER'S RESPONSIBILITIES

All members shall promptly report any observed or known violations of this policy to a supervisor. Members may seek supervisory assistance as described below (Step 2). Members not comfortable with reporting violations of this policy to their immediate supervisor may bypass the chain of command and report it to the next higher level of supervision. Members may also go directly to the Internal Affairs Bureau or the Personnel Services Department as per AO 2-16 with a complaint.

Members have the additional option of requesting an investigation of alleged discrimination, harassment, or retaliation (Collectively referred to as "discrimination") either from the City's Equal Employment Opportunity Officer (The Director of Personnel), or the appropriate state or federal agency. However, members are encouraged to exhaust Department and City provided remedies in order to give the Department and City the opportunity to rectify a situation, when a problem does in fact exist, before seeking redress from other sources. The provisions in this order apply when a victim or witness chooses to file a complaint with the Department and/or City through the Personnel Services Department. Both victim and witness to an alleged complaint of this policy have equal rights and options to formalize their complaint. Below are some options they may choose.

328.3.2 QUESTIONS OR CLARIFICATIONS

Members with questions regarding what constitutes discrimination, sexual harassment, or retaliation are encouraged to contact a supervisor, a manager, the Chief of Police, Director of Personnel Services, or the California Department of Fair Employment and Housing (DFEH) for further information, direction, or clarification (Government Code §12950).

328.3.3 SUPERVISOR'S RESPONSIBILITIES

Each supervisor, commander, and manager (collectively referred to as "supervisors") shall take reasonable steps to:

- (a) Ensure that the work environment is free from all types of unlawful discrimination;
- (b) Take prompt, appropriate action within their work units to avoid and minimize the incidence of any form of discrimination;
- (c) Notify the district commander or the unit commander, in writing, of the circumstances surrounding any reported allegations of discrimination no later than the next business day;
- (d) Take immediate and appropriate corrective action when they observe or learn of an incident of discrimination;
- (e) Adhere to a standard of conduct that is respectful, courteous, and nondiscriminatory. Any supervisor, commander, and manager who knew about a discrimination or harassment allegation and condoned or ratified it by failing to take action, can be held personally liable for damages and be subject to disciplinary action; and
- (f) Assess or address the potential for any continuing hostile work environment when an internal discrimination allegation is made.

328.3.4 SUPERVISOR'S ROLE

Because of differences in individual values, supervisors may find it difficult to recognize that their behavior or the behavior of others is in violation of this policy.

Supervisors and managers shall be aware of the following considerations:

- (a) Behavior of supervisors should represent the values of our Department and professional law enforcement standards;
- (b) False or mistaken accusations of discrimination have negative effects on the careers of innocent members;
- (c) Supervisors must act responsibly in the handling of such situations; and
- (d) Supervisors must make a determination on any allegations based upon all available facts.

328.4 HANDLING INTERNAL ALLEGATIONS OF DISCRIMINATION, HARASSMENT OR RETALIATION

328.4.1 STEP 1 - MEMBER TO MEMBER RESOLUTION (OPTIONAL)

In an attempt to encourage communication and resolve the matter, members who believe they are experiencing discrimination, harassment or retaliation should inform the individual that their behavior is unwelcome, offensive, or inappropriate. The problem may simply be a misunderstanding or lack of communication, which may not be a violation of this policy. If a member feels uncomfortable, supervisory or management assistance or mediation should be considered as outlined below in Step 2.

When the complaining party does not wish an attempt at supervisory assistance or the member feels the problem is not a misunderstanding or lack of communication, the member must proceed to Step 3

328.4.2 STEP 2 - SUPERVISORY ASSISTANCE (OPTIONAL)

Supervisors, who receive or become aware of complaints, should attempt to resolve any misunderstanding or lack of communication between the involved parties. The assistance should be provided by a supervisor one rank higher than the alleged offender.

If it appears the complaint is the result of a misunderstanding, the supervisor shall prepare a memorandum documenting the nature of the complaint and the outcome of their efforts.

- (a) All parties shall review and sign the memorandum with an acknowledgment they reviewed the memorandum, and the memorandum is an accurate reflection of the incident and resolution of the misunderstanding or lack of communication.
- (b) This memorandum shall be forwarded via Blue Team through the chain of command to the Chief of Police or designee. An Inquiry or Complaint Form shall also be completed, and the disposition should be listed as a resolved inquiry.
- (c) This memorandum shall be filed in the Internal Affairs Bureau after review and concurrence by the Chief of Police or designee.

When discrimination, harassment or retaliation is not a misunderstanding or lack of communication, mediation will not be an option for a resolution between the involved parties. The complaint must proceed to Step 3 for investigation and disposition.

328.4.3 STEP 3 - FORMAL DISCRIMINATION OR HARASSMENT COMPLAINT (MANDATORY)

When the complaining party chooses not to utilize Step 1 or 2 above, the complaining member shall report it as provided in [AQ 2-16](#) or to a supervisor in the Police Department. When a supervisor learns of a complaint of discrimination under this policy that is not a misunderstanding or lack of communication, the supervisor shall:

- (a) Prepare a memorandum documenting the facts surrounding the complaint;
- (b) Have the complainant review and sign the memorandum with an acknowledgment they;
 - 1) Have reviewed the memorandum; and
 - 2) The memorandum is an accurate reflection of their complaint.
- (c) Forward the memorandum via Blue Team through the chain of command to the Chief of Police or designee. The Blue Team entry shall be handled as a Receipt of Complaint.

While a report of discrimination is being investigated, the division commander shall make reasonable efforts to temporarily separate the complainant and the accused if the complainant requests it. Depending on the nature of the complaint and if the involved parties cannot be separated then administrative leave may be appropriate.

Note: The complaining member may report directly to the Personnel Services Department as another means to investigate the complaint.

328.4.4 INVESTIGATION OF UNRESOLVED COMPLAINTS

The Personnel Services Department normally investigates complaints of discrimination under AO 2-16, but the Internal Affairs Bureau, or an outside investigator if appropriate, may also conduct complaints of discrimination under this policy. Investigations of complaints of discrimination conducted by the Personnel Services Department or others outside of the Internal Affairs Bureau are done with the authority of the Chief of Police or designee.

The individual assigned to investigate the complaint will have full authority to investigate all aspects of the complaint. The investigative authority includes accessibility to records and cooperation of any members involved. No influence will be used to suppress any complaint and no member will be subject to retaliation or reprisal for filing a complaint, encouraging others to file a complaint or for offering testimony or evidence in an investigation.

Formal investigation of the complaint will be confidential and will include, but not be limited to, details of the specific incident, frequency and dates of occurrences, and names of any witnesses.

Upon completion, the report of the investigation shall be transmitted to the Director of the Personnel Bureau, who shall transmit the report and their recommendations to the Chief or Police or designee. If after the review, it appears any procedural or policy violations exist, the matter shall be referred to the Internal Affairs Bureau for assignment to determine any such violations.

When the Chief of Police is the subject of the complaint, the investigation will be conducted by the Personnel Services Director, or an outside consultant hired by the City Attorney's Office.

In all cases, every effort will be made to resolve a complaint as rapidly as possible while recognizing the privacy rights and interests of all persons involved.

Any retaliation against a member for making a discrimination complaint, reporting discrimination that they witnessed, or assisting in a discrimination investigation is strictly prohibited. Any member who engages in retaliation against another member will be subject to disciplinary action, up to and including termination.

Should it be determined that the reporting party maliciously filed the complaint knowing that it was false or frivolous at the time of the complaint, that member shall be subject to the disciplinary process up to and including termination.

328.5 NOTIFICATION OF DISPOSITION

Complainant and accused will be notified in writing of the disposition.

328.6 DOCUMENTATION OF COMPLAINTS

All complaints or allegations shall be documented and tracked on forms and in a manner designated by the Chief of Police. All reports shall be approved by the Chief of Police and maintained for a minimum of five years.

328.7 AUTHORITY FOR RESOLVING COMPLAINTS

The Chief of Police or designee reserves the right to determine the appropriate corrective/disciplinary action necessary in any case, up to and including termination in accordance with City and Department policies.

328.8 RIGHT TO APPEAL

Members receiving any corrective action as a result of the findings of an investigation shall have the right to appeal any resolution of a discrimination or harassment complaint to the Chief of Police or designee.

328.9 TRAINING

All new members shall be provided with a copy of this policy and AO 2-16 as part of their orientation. The policy shall be reviewed with each new member. The member shall certify by signing the prescribed form that they have been advised of this policy, is aware of and understands its contents and agrees to abide by its provisions during their term with the Department.

All members shall receive triennial training on the requirements of this policy and shall certify by signing the prescribed form that they have reviewed the policy, understood its contents, and agree that they will continue to abide by its provisions.

328.9.1 STATE REQUIRED TRAINING

Members will receive the required state training and education regarding sexual harassment, prevention of abusive conduct, and harassment based on gender identity, gender expression, and sexual orientation as follows (GC §12950.1; 2 California Code of Regulations §11024):

- (a) Supervisory members shall receive two hours of classroom or other effective interactive training and education within six months of assuming a supervisory position.
- (b) All other members shall receive one hour of classroom or other effective interactive training and education within six months of their employment or sooner for seasonal or temporary members as described in GC §12950.1.

All members shall receive refresher training every two years thereafter including one hour of training to non-supervisory members and two hours of training to supervisors.

329.1 POLICY

Any allegation of a criminal assault being committed will be investigated to the fullest extent by members of this Department with appropriate, timely, and accurate evidence collection if possible.

329.1.1 PURPOSE AND SCOPE

To ensure that no assault is unreported and ensure that efforts are made to collect and archive all evidence to aid in the prosecution of the perpetrator.

329.2 REQUESTING PHOTOGRAPHS

The investigating member should request a Crime Scene Bureau (CSB) technician to photograph a victim's injury when the injuries are of a serious nature or the circumstances indicate that the assault is an ongoing domestic violence problem.

- (a) When the CSB is unable to respond, officers may transport the victim to HQ for photographs of injuries (Officers should confirm that a CSB tech of the same sex as the victim is available when the photograph involves an intimate body area).
- (b) Photographs of a victim's injuries should be taken at the time of the initial investigation when possible.
- (c) When circumstances do not allow for photographs during the initial investigation, the victim may be directed to respond to the Crime Scene Bureau between the hours of 8:00 AM and 4:00 PM on normal business days.
- (d) The original report of the assault shall contain an explanation as to why needed photographs were not taken.

Members referring victims to the CSB for photographs shall provide victims with the following information in writing and advise them to take the information with them when they respond to HQ:

- (a) Case Number;
- (b) Type of Crime;
- (c) Location of occurrence;
- (d) Date of occurrence; and
- (e) Name of reporting member.

When the victim's injuries are not serious (e.g., small bruises, redness and/or swelling, etc.) a detailed description of injuries and/or complaints of pain in the report are sufficient absent special circumstances.

329.3 PHOTOGRAPHS OF INTIMATE BODY AREAS

CSB members shall only photograph those injuries that are readily visible without the victim having to disrobe in the CSB.

When it is necessary to take photographs of injury to an intimate body area the victim shall not be referred to the CSB. Instead, the primary investigating member shall:

- (a) Make arrangements to have photographs taken at the Community Regional Medical Center (CRMC) Assault Investigation Room, a private office, or the victim's home;
- (b) Utilize a female CSB tech to take photographs of female victims or a male CSB tech to take photographs of male victims; and
- (c) Make arrangements for a female member to stand by while a female victim is being photographed.

329.4 WEAPON ATTACKS AGAINST BUILDINGS AND VEHICLES

Violations of Penal Code §§246 and 247 shall be investigated as assaults with the appropriate care taken by the primary investigating member to collect and preserve necessary evidence. The Crime Scene Bureau shall be requested to take photographs and collect evidence at PC §§246 and 247 scenes.

329.5 AID TO VICTIMS OF VIOLENT CRIMES

Members who investigate assaults or any other violent crimes shall provide victims or their dependents with the Department Victim/Witness Form which outlines the availability of a broad range of services available from the Victim/Witness Service Center.

Investigating members will note in the body of their report of a violent crime the fact that the form was provided and to whom it was given.

Fresno Police Department Policy Manual
Child Abuse Reporting

330 Child Abuse Reporting

330.1 POLICY

The Fresno Police Department treats reports of crime against children involving suspected abuse as high priority criminal activity that is to be fully investigated regardless of the relationship between the victim and the suspect(s).

330.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for reports of suspected child abuse and the taking of minors into protective custody.

330.2 DEFINITIONS

Child - Unless otherwise specified by a cited statute, a child is any person under the age of 18 years.

Child Abuse – A physical injury which is inflicted by other than accidental means on a child by another person. Child abuse also means the sexual abuse, or any act or omission proscribed by Penal Code § 273a (willful cruelty or unjustifiable punishment of a child) or PC §273d (unlawful corporal punishment or injury). Child abuse also means the neglect of a child or abuse in out-of-home care. Child abuse does not include a mutual affray between children. Child abuse does not include an injury caused by reasonable and necessary force used by a peace officer acting within the course and scope of their employment as a peace officer. (PC §11165.6)

Neglect - The negligent treatment or the maltreatment of a child by a person responsible for the child's welfare under circumstances indicating harm or threatened harm to the child's health or welfare. The term includes both acts and omissions on the part of the responsible person.

Child Protective Agency - A police or sheriff's department, a county probation department or a county welfare department. This section does not include school district police or security department.

330.3 CHILD ABUSE REPORTING

Pursuant to PC §11165.9, this Department is defined as a "child protective agency". All members of this Department are responsible for the proper reporting of child abuse. Any member who encounters any child whom they reasonably suspect has been the victim of child abuse shall immediately take appropriate action and prepare a crime report pursuant to PC §11166.

330.3.1 DEPARTMENT MEMBER RESPONSIBILITIES

The member's primary responsibility shall be to ensure a child is in, or placed in, a safe environment. Subsequent criminal investigations and/or arrest are secondary issues.

Members dispatched to incidents of suspected abuse, neglect, or endangerment shall:

- (a) Investigate to determine if the child has suffered, or there is a substantial risk that the child will suffer [e.g., Welfare & Institutions Code §300 (a)-(d) and (j)], physical abuse, neglect or endangerment and/or whether a crime has been committed;
- (b) Attempt to obtain the name, telephone number, and information that gave rise to the reasonable suspicion of child abuse or neglect from the nonmandated reporter(s) and the source of the information that gave rise to the reasonable suspicion of child abuse or neglect. If the reporter refuses to provide the information, officers shall make efforts to determine the basis for that refusal and advise the reporter the identifying information will remain confidential. Officers should notate any such refusals in the narrative of the report;
- (c) Take reasonable steps to determine if there are any other children in the home who may be at risk of abuse;

- (d) Determine who the perpetrator(s) is/are, and whether the child will be removed and placed with CPS per WIC §300 and WIC §305; and
- (e) Shall notify their supervisor when investigating any child abuse cases.

Incidents involving serious injuries, or sensitive in nature, supervisors shall notify the Child Abuse Unit Supervisor to determine if investigators should respond. If unable to contact the Child Abuse Unit Supervisor, the Night Detective Unit Supervisor may be contacted to determine if investigators should respond.

330.3.2 NEWBORNS TESTING POSITIVE FOR DRUGS

Members shall not respond to medical facilities to place WIC §300 holds on drug-exposed infants. Members will continue to respond to other requests for WIC §300 hold evaluations on suspected child abuse, neglect, and/or endangerment incidents.

330.4 TEMPORARY PROTECTIVE CUSTODY

330.4.1 AUTHORITY TO TAKE INTO CUSTODY

Both our agency and CPS shall work collaboratively, sharing information and participating in a shared decision-making process.

- (a) Through this process, the officers may take into temporary protective custody any juvenile falling under the provisions of WIC §305.
- (b) In all cases where a juvenile is placed under WIC §305, the incident shall be investigated sufficiently to determine whether siblings of the victim juvenile are also at risk and subject to protective custody.

Members taking juveniles into protective custody under authority of WIC §305 shall immediately notify CPS directly by telephone or through ComCen to initiate placement and follow-up measures.

330.4.2 PLACING MINOR WITH RELATIVES / FRIENDS

When a juvenile is left without supervision as the result of the arrest of one or both parents, a placement is not required when:

- (a) The charges against the parents do not include any violation against the juvenile including sexual assault, physical abuse, neglect, or endangerment. Charges related to drug usage or drug possession (where the juvenile may have had access to the drugs) may constitute endangerment and should be evaluated accordingly; and
- (b) A parent with legal custody requests that the juvenile be placed with a friend or relative who agrees to assume responsibility; and
- (c) The officer evaluates the friend or relative and their home environment and determines it is reasonably fit and does not constitute an obvious risk to the juvenile; and
- (d) The juvenile is not in need of immediate medical attention.

When custody is assumed by a relative or friend under these circumstances, full identifying information on the person taking custody shall be included in the officer's report of the incident. CPS shall not be notified in these circumstances.

330.4.3 PLACEMENT PROCEDURES

When the decision to place a juvenile has been made by an officer, the determination of where the juvenile is to be placed rests solely with CPS.

When it is determined that a juvenile will be removed from the home, the officer should assist the CPS worker in locating clothing, identification papers, Medi-Cal cards, and other necessary items.

330.4.4 NOTIFICATION OF PARENTS

Officers placing a juvenile in protective custody shall ensure that a parent, guardian, or responsible relative is contacted and advised to contact CPS for information on the juvenile.

330.4.5 CPS ASSISTANCE

CPS provides assistance to law enforcement in situations where juveniles need protection. Social workers are available on a 24-hour basis to provide:

- (a) Assistance in evaluating the juvenile's home situation and the need for the juvenile's removal. In the absence of a court order, the final decision to remove the juvenile shall be made by the officer. When there is disagreement between the officer and the CPS worker concerning the need for the juvenile's removal, the officer's supervisor shall be called to determine if removal is warranted under WIC §300. When the supervisor determines that removal is warranted, the officer shall remove the juvenile. If CPS is not satisfied with the supervisor's decision, the supervisor should call a field commander who will make the final decision. When CPS is not satisfied with the Field Commander's decision, CPS shall make their concerns known through their chain of command;
- (b) Placement of the juvenile and investigation of placement alternatives. This may involve the location of relatives or the provision of homemaker services; and
- (c) Transportation to medical or foster care facilities as needed when a juvenile is placed into their custody.

When an officer suspects physical or sexual abuse of a juvenile, a CPS worker shall be notified so that a medical evaluation of the juvenile may be initiated. Whenever possible, the officer shall contact CPS directly either in person or by telephone (FPD Dedicated Line, 453-6474, or the main line, 255-8320). The officer shall provide:

- (a) The name(s) and birth date(s) of the parent(s) and of the juvenile(s) who is/are to be placed,
- (b) The reason for the placement (e.g., abuse, neglect, endangerment, etc.),
- (c) Whether any relative(s) are standing by for placement purposes, and
- (d) The relative's name(s) and birth date(s) so that this information can be relayed to CPS at the time of the request.

330.5 REPORTING REQUIREMENTS

330.5.1 REPORT TITLE

Reports on placements of juveniles under WIC §§300/305 shall be titled according to the incident which justified the placement, not simply "WIC §300."

When a juvenile is placed as the victim of a crime, the report shall be titled with the appropriate criminal statute.

When a juvenile is placed under circumstances of "substantial risk of serious harm" etc., [WIC §300 (a)-(d), and (j)] which fall short of a criminal violation, the report shall be titled, "Possible Child Endangerment."

When a juvenile is placed as a result of the arrest of a parent for charges unrelated to conduct against the juvenile and the placement is being made because there is no one to assume custody of the juvenile, the report shall be titled according to the charges on which the parent is arrested (e.g., warrants, petit theft, etc.).

In all placement cases special routing to CPS shall be indicated on the original report.

330.5.2 ADVISE / REPORT / ROUTE

Members shall:

- (a) **Advise** CPS of any incidents regarding suspected or actual abuse;
- (b) Submit a GI Incident or crime **report**, listing all names of any children residing in the home; and
- (c) **Route** that report to CPS through the manage distribution request section located in Axon.
- (d) Ensure child abuse cases are appropriately classified.

Examples are:

- (a) Officers respond to a report of possible abuse. Upon arrival, officers are unable to make contact – no one is home. The call is cleared, "UTL." Officers are to advise CPS, submit a synoptical report, and route the report to CPS.

- (b) Officers respond to a report of possible abuse. Upon arrival, officers contact the children and parents. After further investigation (additional statements, reporting party contacted, etc.), the findings are inconclusive and there is insufficient evidence to determine whether child abuse or neglect has occurred. Officers are to advise CPS, submit a possible crime report, and route the report to CPS.
- (c) Officers respond to a report of possible abuse. Upon arrival, officers contact the children and the parents. Based upon the evidence, it appears more likely than not that child abuse or neglect occurred. Officers are to advise CPS, submit a crime report, and route the report to CPS.

330.5.3 UNFOUNDED INCIDENTS

Officers shall use caution when clearing a call as "unfounded." "Unfounded" is a call determined by the officer(s) who conducted the investigation to be false, to be inherently improbable, to involve an accidental injury, or not to constitute child abuse or neglect. Prior to clearing a call as "unfounded," officers shall 1) review call history, 2) review previous suspect contacts (Axon or MARS name search), and 3) contact CPS to review previous abuse reports received from other agencies. If the officer is satisfied the call is false, only a synoptical report is required. No CPS notification or routing is necessary.

330.6 MANDATORY NOTIFICATION GUIDELINES

Pursuant to PC §11165.9, this Department is defined as a "child protective agency". All Department members are responsible for the proper reporting of child abuse. Any member who encounters any child whom he or she reasonably suspects has been the victim of child abuse shall immediately take appropriate action and prepare a crime report pursuant to PC §11166.

330.6.1 MANDATORY NOTIFICATION

Pursuant to PC §11166.1, when this Department receives a report of abuse occurring at the below listed facilities, notification shall be made within 24 hours to the licensing office with jurisdiction over the facility.

- (a) A facility licensed to care for children by the State Department of Social Services; and/or
- (b) A report of the death of a child who was, at the time of death, living at, enrolled in or regularly attending a facility licensed to care for children by the State Department of Social Services, unless the circumstances of the child's death are clearly unrelated to the child's care at the facility

Additionally, an immediate notification is required to the appropriate licensing agency if the suspected child abuse occurs while the child is being cared for in a child day care facility, involves a child day care licensed staff person, or occurs while the child is under the supervision of a community care facility licensee or staff person.

330.7 EMERGENCY PROTECTIVE ORDERS

Members shall request an EPO if any of the following conditions exist:

- (a) The victim requests an EPO;
- (b) The investigating officer has grounds to believe that there is an immediate danger of continuing violence against the victim;
- (c) The investigating officer or victim believes the potential for further violence or threats exists;
- (d) When a child is in immediate and present danger of abuse by a family or household member; or
- (e) When a child is in immediate and present danger of being abducted and taken from the jurisdiction by a parent or relative.

330.7.1 PROCEDURES FOR ISSUANCE OF EPO'S

A judicial officer shall be contacted regardless of the time of day. The determination of the designated judicial officer to issue or not to issue an EPO will be final.

330.8 TEMPORARY CUSTODY OF JUVENILES

Pursuant to WIC § 300 et seq., a child may be taken into protective custody if they are the victim of suspected child abuse.

330.8.1 TRANSPORTATION OF JUVENILES UNDER EIGHT YEARS

When members need to transport juveniles in their patrol car who are under eight years, and there is no child passenger restraint system available, members shall secure the juvenile by seat belt prior to transport [CVC §27363 (b)].

330.9 RELEASE OF REPORTS

Reports of child abuse or suspected child abuse shall be confidential and may only be disclosed pursuant to PC § 11167.5 and Policy § 810.

Fresno Police Department Policy Manual
Threatening / Annoying Phone Calls

331.1 POLICY

Members assigned to investigate or who receive a report of a possible phone offense shall determine the seriousness of the threat as defined in Penal Code §653 (m), and contact the reporting party either in person or via telephone as appropriate.

331.1.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure all reports of telephone threats are taken seriously and investigated effectively utilizing available resources.

331.2 RESPONSE TO CALLS

When a phone call involves a serious threat (i.e., death, bodily harm, rape, or assault) to the immediate safety of the victim, a member shall be assigned to handle the call in person.

When the victim knows the perpetrator, and the phone call is not a serious threat, a member may be assigned to handle the call in person or a report may be taken telephonically.

When the call is not a serious threat and the perpetrator is not known, the victim shall be provided with a Synoptical case number.

331.2.1 MEMBER RESPONSIBILITY IN SERIOUS THREAT CASES

The member assigned to investigate an unlawful phone call case shall determine if the calls are of such a serious or life-threatening nature that immediate establishment of a phone trap (to try to identify the source of the call) is warranted. If so, the responding member shall contact their supervisor.

331.2.2 SUPERVISOR RESPONSIBILITY

The supervisor will contact the security office of AT&T to request a trap. When an emergency trap is set up, the supervisor making the arrangements shall notify the Misdemeanor Crimes Detective of the district, by memo, voicemail, or email, detailing the circumstances. The victim shall be advised that the results of a phone trap may take weeks to obtain. As a result, the victim will be contacted by the follow-up investigator when trap results are received.

When the victim has called AT&T prior to calling the Department, AT&T will ask for a case number. A report shall be prepared consistent with the guidelines in this policy and Policy §344.

Fresno Police Department Policy Manual

Missing Person Reporting

Reports shall be taken on missing persons regardless of jurisdiction.

332.1.1 PURPOSE AND SCOPE

This policy establishes the criteria for acceptance, reporting, documenting and investigating missing persons. PC §§14200 through 14215 and §§14250 and 14251, Welfare & Institutions Code §1300, as well as 42 United States Code §5779(a), specify certain requirements relating to missing persons.

Reports shall be taken on missing persons regardless of jurisdiction.

Prior to taking a missing person report, members shall ensure that the RP has checked the FCJ, JJC, local hospitals, etc., or shall assist the RP in so doing. When it has been determined that a person is missing, and the pre-reporting checks were unsuccessful in locating the person, a report shall be taken without delay. Entries for any at-risk or missing persons under the age of 21 years shall be made into CLETS within two hours from the time the call is received from the RP.

Patrol members should handle the initial missing person report. Department members shall promptly assist any person who is attempting to make a report of a missing person or runaway. The Missing Persons Unit will begin an investigation after an initial search by patrol personnel.

When taking a report of a missing person, members shall inquire about the person's mental health status, and shall consider implementing the procedure located in Policy §332.6 when the person seems to be in danger due to their mental health disability.

332.3.1 COMPLETION OF INVESTIGATION/VOIDING CASE NUMBERS (CN)

Members shall complete their investigation at the time of the initial call and obtain a CN before clearing. Members shall not "void" CN's once issued.

When investigating a missing person case and a CN is obtained by the member, and the subject is located prior to clearing the call, the member shall telephone teletype to have the missing person entered into MUPS and then immediately canceled from MUPS.

332.3.2 OUT OF JURISDICTION MISSING PERSONS

When a call is received of a person who is missing from a location outside of the Department's jurisdiction, members shall take the report without delay. Within 24 hours, Records Section shall notify and forward a copy of the report to the police or sheriff's department or departments having jurisdiction of the residence address of the missing person or runaway and of the place where the person was last seen.

The Fresno Police Department Missing Person Report Form shall be used on out of jurisdiction missing person's cases. Members shall add the agency's name to the narrative and shall submit the report to Teletype via the 'Teletype' button in Axon.

332.3.3 RETURNED MISSING / RUNAWAY PERSON FORM

The RP shall be given a "Returned Missing/Runaway Person Form" in all missing person cases except runaways from group homes. The member shall advise the RP that they must either complete the form and mail it to the Department or call the listed phone number when the missing/runaway person has returned or is no longer missing. The member shall also advise the RP to complete and follow the directions on the form when the missing person is missing for 15 days or longer.

332.4 SUSPICIOUS/DANGEROUS CIRCUMSTANCES

When the person reported missing is under 21 years of age, is mentally disabled where they are a danger to themselves or others, or is missing under suspicious circumstances or under circumstances indicating the possibility of foul play or suicide, the reporting member shall immediately notify their supervisor for consideration of extended searches or assistance from other bureaus and/or agencies. Members should review Policy §334, AMBER Alerts, for additional information regarding investigative response and alerting the media.

Members shall also contact teletype without delay and arrange for the missing person information to be entered into MUPS. The teletype operator shall be advised if the person is "at risk" (As listed in Section 332.2), has been abducted, or is possibly being sexually exploited. This MUPS entry shall be canceled as soon as the missing person is located.

- (j) Call the ComCen and have a broadcast sheet made up, including both juvenile and suspect information; and
- (k) Notify all appropriate law enforcement agencies of the broadcast information, by sending a BOL message through Teletype, in any case where available information suggests the suspect and/or juvenile(s) may be enroute to another jurisdiction.

332.4.2 SUPERVISOR RESPONSIBILITIES

Field supervisors will respond to all incidents involving reported abductions. They should notify the Missing Person Unit supervisor of any missing person, regardless of age, when the circumstances surrounding the missing person disappearance are unusual and, if based on available information, it is determined that the missing person is in a life threatening situation. The on-duty field commander shall also be notified.

Prior to notifying the Missing Person Unit supervisor, all possible leads should be exhausted including but not limited to, checking prior runaway reports, searching the immediate area, conducting a door-to-door search, checking with all known friends, relatives and classmates.

The Missing Person Unit supervisor shall contact the Family Justice Bureau Commander should circumstances require immediate action and the mobilization of all available investigative resources.

332.4.3 STAFF NOTIFICATIONS

The on-duty ComCen supervisor shall notify the Investigations Division Commander and the affected Patrol Division Commander of any confirmed abduction incidents. The Investigations Commander will notify the appropriate commander or supervisor in the Family Justice Bureau to coordinate the scene response and/or investigative follow-up.

332.4.4 PHOTOGRAPHS

Members taking the report shall make every effort to obtain a recent photograph of all "at risk" missing persons, print the case number and the missing person's name clearly on the back of the photograph, and it will be submitted to the Records Section for forwarding to the Missing Persons Unit. The appropriate box on the Missing Person Report in Axon shall be checked to indicate whether a photo was available, attached, unknown/undetermined, or was not available.

When the report is handled telephonically, the RP shall be instructed to bring or mail in a photograph as soon as possible to the Missing Persons Unit.

Photos will only be returned at the request of the RP by calling the Missing Persons Unit.

332.4.5 DENTAL RECORDS

The follow up investigator may mail the authorization form to obtain dental records on missing persons after 45 days with exception of "at risk" which is 24 hours.

332.4.6 BROADCASTS AND TELETYPE ENTRIES

When information indicates that the missing person may be in or enroute to another jurisdiction, the reporting member shall also contact teletype without delay and request that informational BOL teletypes

be sent to all agencies likely to encounter the missing person. Teletypes must be addressed to specific agencies, and will be sent to only those agencies. Members taking the report shall submit the report to Teletype via the 'Teletype' button in Axon to obtain a file control number (FCN) from the teletype operator who will note it in the report.

When the missing person is 21 years of age or younger, or is a person believed to be at risk, and this Department is the reporting agency, teletype shall immediately broadcast a BOL to all local law enforcement agencies.

332.4.7 PUBLICITY

When the missing person is considered 'At-Risk', the Field Commander shall decide if the circumstances surrounding the missing person's disappearance require direct notification of the local media by the Department. In all other incidents, RP's requesting publicity to help locate a missing person shall be advised to contact the local media themselves.

RP's requesting no publicity for privacy reasons shall be told that reports of missing adults are public records, and no guarantee can be made that the media will not report on their contents.

In either case, the RP's request should be noted at the beginning of the report narrative under a heading of "ATTENTION NEWS MEDIA."

Members investigating incidents of abducted/missing children should utilize the investigative checklists found at the end of this policy.

332.5 SCHOOL NOTIFICATION

Education Code §49068.6 requires law enforcement to notify the school in which the missing child is enrolled, within ten (10) days. The school shall "flag" a missing child's record and immediately notify law enforcement of an inquiry or request for the missing child's records.

When the Department is responsible for follow-up investigation on a missing juvenile case (including child concealment and child abduction), the Missing Persons Unit (MPU) investigator shall notify the school which the missing juvenile attends, in writing, of the disappearance (EC §49068.6). This notification shall be completed within ten (10) days of the disappearance, and shall include a photograph of the child when available.

332.6 WALKAWAYS FROM MENTAL HEALTH FACILITIES

Certain members of the Fresno County Mental Health Department and certain private mental health practitioners on contract to the County, may pre-designate a patient as being subject to detention under WIC §5150 based on the patient's history, regardless of the patient's outward behavior when located.

Members taking a report of a person missing from a mental health facility shall ask the RP if they are empowered to make this pre-designation for WIC §5150 commitment for the missing person. When this designation is to be applied, it shall be noted in the "If Located" box of the Missing Person Report with an explanation in the narrative. The requested disposition shall also be noted in all broadcast sheets, teletypes and computer entries. When a missing person is not subject to a pre-designated WIC §5150 commitment, but was placed at the mental health facility under conservatorship, members shall determine where the RP would like the person taken when located. This information shall be included in the report, broadcast sheets, teletypes and computer entries.

332.7 LOCATED MISSING ADULTS

Members shall evaluate medical and mental health status (i.e., WIC §5150) of the found person, ask the found person if they object to the RP on the original report being informed about their whereabouts and status, and shall then release the found person absent extenuating circumstances (Policy §332.6). Members shall attempt to contact the RP and advise them that the missing person was located and

was advised that they had been reported missing. The RP shall be given no further information about the missing person's whereabouts and status unless the found person consented to the release of the information.

332.7.1 FOUND ADULTS WHO ARE LOST OR UNABLE TO CARE FOR THEMSELVES

When no report is on file, members shall attempt to locate the found person's residence or other place of care, and return the found person to that place.

When the found person's place of residence or care cannot be located, members shall contact Adult Protective Services (APS) through the ComCen. APS will take responsibility for the found person and arrange housing and care pending location of the found person's residence or place of care.

332.7.2 FOUND PERSON WITH MENTAL HEALTH DISABILITY

Members locating a missing person shall first evaluate the found person for WIC §5150 commitment based upon behavior exhibited at the time of contact. When the found person is subject to pre-designated WIC §5150 commitment, members shall proceed with the commitment using the mental health practitioner's authority.

When the person does not qualify for either of these commitment procedures, members shall check the report for other dispositional options. When the person is under conservatorship, members shall return the found person to the location originally requested by the RP.

When the found person does not qualify for WIC §5150 commitment and is not under conservatorship, the located missing person shall be handled the same as any other located missing person.

332.8 LOCATED MISSING AND RUNAWAY JUVENILES

332.8.1 DISPOSITION OF JUVENILE

Juveniles who have been reported missing or runaway, regardless of the location of occurrence, shall be taken to either the Sanctuary or any other reasonable and appropriate location which may be requested in the disposition of the report (when an FPD missing/runaway).

When a juvenile reported as missing or runaway from outside the City wishes to return home, members may explore using Greyhound Bus Lines "Home Free Program" where free bus transportation is provided to the juvenile's home town if it is on one of their routes. This program is operated by the National Runaway Switchboard. The 24 hours phone to NRS is (800) RUNAWAY / (800) 786-2929. The use of the program is to be initiated by the Missing / Runaway Juvenile, and requires the Missing / Runaway Juvenile to agree to the use of the program. The program accepts children between twelve (12) and twenty-one (21) years of age. Children under age fifteen (15) are required to have an accompanying adult. NSR will provide round trip transportation for the parent, guardian, or legal custodian from their hometown to meet, and accompany the child back home. Before using this option, the member shall first make contact with the juvenile's parent/guardian to ensure that they want the juvenile returned home and to arrange for the pickup of the juvenile at the destination. When these conditions are acceptable to the parent/guardian, the juvenile shall be transported to the Greyhound Terminal and the member shall complete Greyhound's required form. Members using this option shall document the incident on a GIR entitled "Located Missing Person/Outside Agency". The report shall include the bus number, route number, time of departure from the bus station and the estimated time of arrival at the intended destination as well as the circumstances leading to the parent/guardian's approval of this option. The report shall be directed by Special Routing to the agency of origin of the missing person report.

Members shall contact teletype and cancel the juvenile's entry from the MUPS. When the juvenile is reported missing or runaway from an agency other than the FPD, the member shall either ensure that

either a teletype message is sent or phone call made to the originating agency advising them of the current status of the juvenile.

332.8.2 DOCUMENTATION

A Missing Person Close-Out Report shall be completed to document the discovery and disposition of juveniles originally reported as missing from within the City.

332.8.4 ADDITIONAL INFORMATION / CANCELLATIONS

Investigating members shall advise the RP to immediately report any information received about the missing person including when the missing person is located. Any member of the Department receiving additional information about a reported missing person shall either prepare a FR documenting the information received, or shall ensure that the person giving the information is immediately referred to another member of the Department for reporting purposes. Modification or cancellation of broadcast sheets will not suffice as a disposition.

Members shall contact the teletype operator and cancel the MUPS entry when the missing person is located. This shall be noted on the Close-Out report.

332.8.5 EXCEPTIONAL CLOSE OUT OF RUNAWAY JUVENILE REPORT

When a missing person report exists relating to a runaway juvenile who has reached the age of 18 and there is credible evidence indicating that the runaway has been seen/is alive and well after reaching the age of 18, the report shall be closed out and appropriate teletype/broadcast cancellations shall be made by the Missing Persons Unit. Evidence that the missing person has been seen/is alive and well can include arrests, FI's, traffic citations, pawn activity, and other contacts or activities wherein the missing person's identity was reliably established.

Exception: When the subject of the report was described as "at risk" the report and teletype/broadcast entries shall not be canceled.

332.9 LOCATION OF OUTSIDE AGENCY MISSING PERSONS

Persons reported missing by another agency who are located by a Department member shall be reported on a GI entitled "Located Missing Person/Outside Agency." The report should include appropriate information, including the other agency's name and case number, and Special Routing should reflect the originating agency name. The disposition of the found person will be consistent with the requirements of this order. The reporting agency should be notified by phone or by teletype, and teletype cancellations shall be made as soon as possible after locating the person. A copy of the report shall be forwarded to the originating agency by Records.

332.9.1 LOCATED OUT-OF-STATE RUNAWAY JUVENILES

Members who locate an out-of-state runaway juvenile, other than an absconder, escapee or parolee at large under the age of 18 years, shall detain the juvenile and contact CPS for placement. CPS will take care/custody of the juvenile and facilitate the juvenile's return to their home state after completion of the appropriate court process pursuant to the Interstate Compact on Juveniles, WIC §1300. Absconders, escapees and parolees at large under the age of 18 years may be released to Fresno County Juvenile Probation rather than CPS, at the discretion of Juvenile Probation. No out-of-state runaway juvenile shall be taken to the Sanctuary or released in any manner inconsistent with this policy.

332.8 TRANSPORTATION

Transportation of found persons in Department vehicles shall be limited to juveniles and others who are at risk if left unattended. Prior to transporting a found person, supervisor approval must be obtained. When the found person is to be handled as a WIC §5150 commitment, only an ambulance shall be used for transportation.

Fresno Police Department Policy Manual

Drug Influence

333.1 POLICY

Officers who encounter a person who appears to be under the influence of drugs should detain the person and investigate.

333.1.1 PURPOSE AND SCOPE

The purpose of this policy is to protect the public and individuals from the dangers associated with being under the influence of drugs.

333.2 EVIDENCE COLLECTION

A Department phlebotomist will be available for blood draws on all in-custody arrests between 1800-0400 hours seven days a week.

- (a) The phlebotomist will be logged on to the traffic channel and will also be available by pager through ComCen.
- (b) Officers shall utilize the department phlebotomist unless injury to the suspect requires the suspect to be transported to a hospital for medical treatment. The officer shall then utilize hospital staff to draw a blood sample and will follow the protocol established by that hospital.

Urine samples should be taken at a Crime Scene Bureau holding cell. An officer of the same sex as the suspect shall witness the provision of the urine sample.

The procedure for handling and booking samples shall be consistent with Policy §373.

Evidence samples in Health & Safety Code §11550 cases are not sent to DOJ so DOJ supplies shall not be used.

- (a) The sample(s) shall be placed in the Blood and Urine Drop Box in the Property Room of HQ not in the narcotics evidence locker.
- (b) When a blood or urine sample is deposited at HQ, the sample shall be accompanied by a PER deposited in the drop box with the sample but not in the sample envelope.
- (c) PECS shall match the reports with the samples and secure all samples for pick up by lab courier.

When possible, the investigating officer should contact the parole officer of parolees arrested for HS §11550 to request authorization for placement of a parole hold on the suspect at the time of booking.

333.3 REFUSAL TO TAKE CHEMICAL TEST

When the suspect refuses to be tested, and no search warrant is obtained, the suspect shall still be charged with being under the influence if sufficient independent evidence exists to support the charge.

The suspect's actions and refusal to be tested shall then be noted in the crime report. In the absence of a blood or urine sample, special care shall be taken to document all visual and other evidence.

333.3.1 BLOOD SAMPLE WITHOUT CONSENT

A blood sample may be obtained from a person when any of the following conditions exist:

- (a) A search warrant has been obtained (Penal Code §1524); or
- (b) The officer can articulate that exigent circumstances exist that justify a warrantless search.

333.3.2 FORCED BLOOD SAMPLE

If a person indicates by word or action that they will physically resist a blood draw, the officer should request a supervisor to respond. The responding supervisor should:

- (a) Evaluate whether using force to obtain a blood sample is appropriate under the circumstances;
- (b) Ensure that all attempts to obtain a blood sample through force cease if the person agrees to, and completes a viable form of testing in a timely manner;
- (c) Ensure that the withdrawal is taken in a medically approved manner.
- (d) Ensure the forced withdrawal is recorded on audio and/or video when practicable.
- (e) Monitor and ensure that the type and level of force applied is reasonable under the circumstances:
 - 1) Unless otherwise provided in a warrant, force should generally be limited to handcuffing or similar restraint methods.
 - 2) [REDACTED]
 - 3) In felony cases, force which reasonably appears necessary to overcome the resistance to the blood being withdrawn may be permitted.
- (f) Ensure the use of force and methods used to accomplish the blood sample draw are documented in the related report.

When a supervisor is unavailable, officers are expected to use sound judgment and perform as a responding supervisor, as set forth above.

333.4 REPORTING REQUIREMENTS

The officer detaining or arresting the suspect shall complete a crime report.

The examining officer, when different from the detaining officer, shall complete a crime report, or supplemental report when appropriate, which shall include all details of the examination and interview.

334 Public Alerts

334.1 POLICY

Public alerts may be employed using the Emergency Alert System (EAS), local radio, television and press organizations and other groups to notify the public of incidents, or enlist the aid of the public, when the exchange of information may enhance the safety of the community. Various types of alerts may be available based upon each situation and the alert system's individual criteria.

334.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for alerting the public to important information and soliciting public aid when appropriate.

334.2 AMBER ALERT

The AMBER Alert™ Program is a voluntary partnership between law enforcement agencies, broadcasters, transportation agencies and the wireless industry, to activate urgent bulletins in child abduction cases. An AMBER Alert should only be implemented when all four of the following criteria have been met:

- (b) The victim is under the age of 18, or has a proven mental or physical disability;
- (c) There is reason to believe the victim is in imminent danger of serious bodily injury or death; and
- (d) There is information that, if disseminated to the general public, could assist in the safe recovery of the victim.

As an investigative tool, members should utilize the 'Abducted/Missing Children Checklist for First Responders' located in Policy §332.

334.3 BLUE ALERTS

Blue Alerts may be issued when an officer is killed, injured or assaulted and the suspect may pose a threat to the public or other law enforcement personnel.

334.3.1 BLUE ALERTS SYSTEM NOTIFICATIONS

The purpose of a Blue Alert is to quickly coordinate and provide information to the public and solicit help in the safe and swift apprehension of suspects meeting specific criteria. A Blue Alert should only be implemented when all four of the below criteria have been met (Government Code §8594.5):

- (a) A law enforcement officer has been killed, suffers serious bodily injury, or is assaulted with a deadly weapon, and the suspect has fled the scene of the offense;
- (b) A law enforcement agency investigating the offense has determined that the suspect poses an imminent threat to the public or other law enforcement personnel;
- (c) A detailed description of the suspect's vehicle or license plate is available for broadcast; and

335.2.1 MARIJUANA SEIZURE

Members investigating and seizing a large amount of marijuana (in excess of 10 lbs.) shall notify a field supervisor. The supervisor, in turn, will notify the Property and Evidence Control Section (PECS) Supervisor for direction regarding packaging, any necessary personal protective equipment (e.g. gloves), and transport to either the American Avenue Landfill or a temporary storage facility (after hours) as appropriate.

If a suspect claims the right to possess the plants in accordance with the California Medical Marijuana Program, and they possess a Medical Marijuana Card, the supervisor will contact the SIB Commander for additional direction.

335.2.2 VERIFYING OWNERSHIP

In all cases, attempts shall be made to ascertain the ownership of cultivated marijuana plants as well as the identity of others who actively cared for the plants.

335.2.3 APPROVAL FOR IMMEDIATE DISPOSAL

Pursuant to Health & Safety Code §11479, any law enforcement agency that seizes more than 10 lbs. of marijuana (gross weight) may destroy the amount in excess of the 10 lbs. without a court order when the Chief of Police or designated subordinate has determined it is not reasonably possible to store the controlled substance at the Department. The destruction may occur when all of the following requirements have been met:

- (a) All marijuana shall be weighed and photographed;
 - 1) At a minimum, photographs shall show the marijuana at the suspect's residence/grow site AND being disposed of.
 - 2) If members need to weigh the 10 lbs. of evidentiary marijuana to be booked into evidence, the Major Narcotics Unit has a Rubbermaid trash container and scale available.
- (b) In addition to the 10 lbs. of marijuana to be booked into evidence, at least five random and representative samples shall be collected and booked; and
- (c) The Chief of Police or designated subordinate (i.e. Field Commander) has authorized immediate destruction.

Following destruction, an affidavit shall be filed within 30 days with the court presiding over the criminal case.

The transporting members shall proceed directly to the disposal site, avoiding all unnecessary stops. All necessary equipment (i.e. shovels, rakes, etc.) will be brought to the disposal site to facilitate the unloading. Upon arrival, American personnel will weigh the vehicle containing the marijuana and escort the load to the drop-off location. The transporting members may be required to unload the marijuana into the disposal trench. Following the disposal, the transport vehicle will be weighed when empty for comparison.

Note: When marijuana meeting the requirements for immediate destruction is seized after hours, the investigating member's supervisor will contact the PECS Supervisor to coordinate transportation of the marijuana to a designated temporary storage facility.

Also, recognizing the particular fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on the community, this department should take all reasonable steps to attend to the security and related concerns of the immediate victims and their families as feasible.

All officers are required to be familiar with the policy and use reasonable diligence to carry out the policy unless directed by the Chief of Police or other command-level officer to whom the Chief of Police formally delegates this responsibility.

This policy is designed to assist in identifying and handling crimes motivated by hate or other bias toward individuals and groups with legally defined protected characteristics, to define appropriate steps for assisting victims, and to provide a guide to conducting related investigations. It outlines the general policy framework for prevention, response, accessing assistance, victim assistance and follow-up, and reporting as related to law enforcement's role in handling hate crimes. It also serves as a declaration that hate crimes are taken seriously and demonstrates how the Fresno Police Department may best use its resources to investigate and solve an offense, in addition to building community trust and increasing police legitimacy (Penal Code §13519.6).

338.2 DEFINITIONS

In accordance with PC §422.55; PC §422.56; PC §422.6; and PC §422.87, for purposes of all other state law, unless an explicit provision of law or the context clearly requires a different meaning, the following shall apply:

Bias Motivation - Bias Motivation is a pre-existing negative attitude toward actual or perceived characteristics referenced in PC §422.55. Depending on the circumstances of each case, bias motivation may include but is not limited to hatred, animosity, resentment, revulsion, contempt, unreasonable fear, paranoia, callousness, thrill-seeking, desire for social dominance, desire for social bonding with those of one's "own kind," or a perception of the vulnerability of the victim due to the victim being perceived as being weak, worthless, or fair game because of a protected characteristic, including but not limited to disability or gender.

Disability - Disability includes mental disability and physical disability as defined in Government Code §12926, regardless of whether those disabilities are temporary, permanent, congenital, or acquired by heredity, accident, injury, advanced age, or illness.

Disability Bias - In recognizing suspected disability-bias hate crimes, officers should consider whether there is any indication that the perpetrator was motivated by hostility or other bias, occasioned by

factors such as but not limited to dislike of persons who arouse fear or guilt, a perception that persons with disabilities are inferior and therefore “deserving victims,” a fear of persons whose visible traits are perceived as being disturbing to others, or resentment of those who need, demand, or receive alternative educational, physical, or social accommodations.

In recognizing suspected disability-bias hate crimes, officers should consider whether there is any indication that the perpetrator perceived the victim to be vulnerable and, if so, if this perception is grounded, in whole or in part, in anti-disability bias. This includes but is not limited to situations where a perpetrator targets a person with a particular perceived disability while avoiding other vulnerable-appearing persons, such as inebriated persons or persons with perceived disabilities different from those of the victim. Such circumstances could be evidence that the perpetrator’s motivations included bias against persons with the perceived disability of the victim and that the crime must be reported as a suspected hate crime and not a mere crime of opportunity.

Gender - Gender means sex and includes a person's gender identity and gender expression.

Gender Expression - Gender expression means a person's gender-related appearance and behavior, whether or not stereotypically associated with the person's assigned sex at birth.

Gender Identity- Gender identity means each person's internal understanding of their gender, or the perception of a person's gender identity, which may include male, female, a combination of male and female, neither male nor female, a gender different from the person's sex assigned at birth, or transgender (2 California Code of Regulations §11030).

Hate Crime - “Hate crime” includes but is not limited to a violation of PC §422.6, and means a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim:

- (a) Disability
- (b) Gender
- (c) Nationality
- (d) Race or ethnicity
- (e) Religion
- (f) Sexual orientation
- (g) Association with a person or group with one or more of these actual or perceived characteristics:
 - 1) “Association with a person or group with these actual or perceived characteristics” includes advocacy for, identification with, or being on the ground owned or rented by, or adjacent to, any of the following: a community center, educational facility, family, individual, office, meeting hall, place of worship, private institution, public agency, library, or other entity, group, or person that has, or is identified with people who have, one or more of those characteristics listed in the definition of “hate crime” under paragraphs 1 to 6, inclusive, of PC §422.55(a).

Note: A “hate crime” need not be motivated by hate but may be motivated by any bias against a protected characteristic.

Hate Incident - A hate incident is an action or behavior motivated by hate or bias but legally protected by the First Amendment right to freedom of expression. Examples of hate incidents include:

- (a) Name-calling
- (b) Insults and epithets
- (c) Distributing hate material in public places
- (d) Displaying hate material on your own property

Hate Speech - The First Amendment to the U.S. Constitution protects most speech, even when it is disagreeable, offensive, or hurtful. The following types of speech are generally not protected:

- (a) Fighting words
- (b) True threats
- (c) Perjury
- (d) Blackmail
- (e) Incitement to lawless action
- (f) Conspiracy
- (g) Solicitation to commit any crime

In Whole or In Part - "In whole or in part because of" means that the bias motivation must be a cause in fact of the offense whether or not other causes also exist. When multiple concurrent motives exist, the prohibited bias must be a substantial factor in bringing about the particular result. There is no requirement that the bias be a main factor, or that a crime would not have been committed but for the actual or perceived characteristic.

Nationality - Nationality includes citizenship, country of origin, and national origin.

Race or Ethnicity - Race or ethnicity includes ancestry, color, and ethnic background.

Religion - Religion includes all aspects of religious belief, observance, and practice and includes agnosticism and atheism.

Religious Bias - *Targeted attacks on, or biased references to, symbols of importance to a particular religion or articles considered of spiritual significance in a particular religion (e.g., crosses, hijabs, Stars of David, turbans, head coverings, statues of the Buddha).*

Victim - Victim includes but is not limited to:

- (a) Community center
- (b) Educational facility
- (c) Entity
- (d) Family
- (e) Group
- (f) Individual
- (g) Office
- (h) Meeting hall
- (i) Person
- (j) Place of worship
- (k) Private institution

In order to facilitate the guidelines contained within this policy, Fresno Police Department members will continuously work to build and strengthen relationships with the community, engage in dialogue, and provide education to the community about this policy. Department personnel are also encouraged to learn about the inherent issues concerning their communities in relation to hate crimes.

Although hate incidents are not criminal events, they can be indicators of, or precursors to, hate crimes. Hate incidents should be investigated and documented as part of an overall strategy to prevent hate crimes.

338.8 DISTRICT COMMANDER RESPONSIBILITIES - PLANNING AND PREVENTION

Due to the size, complexity, and diversity of the City of Fresno, it will be the responsibility of each District Commander to ensure their policing district familiarizes themselves with the various groups in their districts. The District Commander shall designate a member to serve as the Hate Crimes Coordinator for the district.

HATE CRIMES

What You Need to Know to Protect Yourself and Others

C A L I F O R N I A
DEPARTMENT of JUSTICE
V I C T I M S ' S E R V I C E S U N I T

The California Department of Justice has tools and resources available to aid and assist local, state, and federal law enforcement authorities in the investigation of possible hate crimes, including the identification, arrest, prosecution, and conviction of the perpetrators of those crimes.

The California Attorney General offers the following information on how to identify and report hate crimes and the services available to victims of hate crimes.

Hate crime or hate incident?

It is important to know the difference between a hate crime and a hate incident.

A hate crime is a crime against a person, group, or property motivated by the victim's real or perceived protected social group. Hate crimes can be prosecuted either as misdemeanors or felonies depending on the acts committed.

In California, you can be a victim of a hate crime if you have been targeted because of your actual or perceived:

- Race or ethnicity
- Nationality
- Religion
- Gender
- Sexual orientation
- Physical or mental disability, or
- Association with a person or group with one or more of these "actual" or "perceived" characteristics.

Please note, the above listed characteristics are examples, and other bases for actual or perceived protected social group characteristics exist.

If you witness a hate crime, you should report the crime to your local law enforcement agency.

A hate incident is an action or behavior motivated by hate but legally protected by the First Amendment right to freedom of expression. If a hate incident starts to threaten a person or property, it may become a hate crime.

Examples of hate incidents include:

- Name-calling
- Insults
- Displaying hate materials on your own property.
- Posting hate material that does not result in property damage.
- Distribution of materials with hate messages in public places.

How to spot a hate crime:

Signs that a crime was motivated by hate may include:

- The offender chose the victim or property because they belonged to a protected group, like a certain religion or gender.
- The offender made written or verbal comments showing a prejudice.
- The crime happened on a date that is important for the victim's or offender's protected group.
- There is organized hate activity in the area.

If you are a hate crime victim, you should:

The Department will only administer the minimal amount of punitive discipline to any employee to ensure compliance for violations of any policy established by this Department. Discipline shall be based on the employee's disciplinary history, severity of the violation, and any other factors, in accordance with this policy, the employees respective MOU, and established laws.

340.1.1 PURPOSE AND SCOPE

To provide employees with guidelines for their conduct in order that they may participate in meeting the goals of this Department in serving the community. This policy shall apply to all employees of this Department (including part-time and reserve employees).

A violation of any portion of this policy may only serve as the basis for internal disciplinary and/or administrative action. This policy is intended for internal use only and shall not be construed to increase or establish an employee's civil or criminal liability. Nor shall it be construed to create or establish a higher standard of safety or care.

340.2 DEFINITIONS

Sworn Personnel – Refers to recruits, officers, and sergeants represented by the FPOA.

Non-Sworn Personnel - Refers to all personnel other than recruits, officers, and sergeants represented by the FPOA.

340.3 INVESTIGATION OF DISCIPLINARY ALLEGATIONS

Regardless of the source of an allegation of misconduct, all such matters will be investigated in accordance with Personnel Complaint Procedure Policy §1020. Pursuant to Government Code §§3304(d) and 3508.1, the investigation should be completed within one year of the discovery of the allegation unless such investigation falls within one of the exceptions delineated within those provisions. The target goal for IA investigations assigned to non-Internal Affairs Bureau personnel is completion within 30 days of assignment, not to exceed 60 days without an extension. Requests for extensions shall be made in writing to the investigating supervisor's bureau/district commander. The IA secretary shall be notified of the extension and its length. (Policy § 1020.11.1). Extensions may be granted for investigations of a complex or difficult nature. Generally, those IA Investigations assigned to the Internal Affairs Bureau are complex and of a difficult nature. The target goal for IA investigations assigned to the Internal Affairs Bureau is completion within 90 days of assignment, however completion times will be subject to the discretion of the Internal Affairs Bureau Commander.

340.4 CORRECTIVE AND DISCIPLINARY ACTIONS

The primary purpose of the corrective or disciplinary action is to invoke positive behavioral change.

340.4.1 CORRECTIVE ACTION

Corrective action is designed to inform an employee of unacceptable performance or behavior, and afford the employee a choice to modify the performance or behavior in the future or face progressive disciplinary action. Any supervisor may take the following corrective measures with subordinates to include:

- (a) Oral counseling;
- (b) Letter of counseling;
- (c) Oral reprimand; and
- (d) Documented oral reprimand.

340.4.2 COUNSELING

Oral Counseling and Letters of Counseling are appropriate when the problem is a lack of understanding of the policies, regulations, procedures, and requirements of the job rather than intentional or unintentional disregard thereof. Letters of Counseling are written documentation that the nature of the problem has been discussed with the employee.

The letter shall:

- (a) Include a date for review with the employee;
- (b) Be placed only in the employee's divisional file for a period of not less than 12 months;
- (c) Be removed from the file when the problem has not continued; and
- (d) Not refer to any future corrective or disciplinary action(s) anticipated or threatened.

340.4.3 ORAL REPRIMANDS

Oral reprimands and documented oral reprimands are for minor offenses arising from the intentional or unintentional disregard for policies, regulations, procedures or requirements of the job.

- (a) Oral Reprimand - When a supervisor or staff member makes the decision to issue an oral reprimand, they shall:

- 1) First address the employee as soon as practical; and
- 2) Cite the reasons for the oral reprimand.

An oral reprimand may also include a warning that if the problem continues, a request for disciplinary action may result.

- (b) Documented Oral Reprimand - When a supervisor or staff employee intends to issue a memorandum documenting an oral reprimand they must:

- 1) Have this level of corrective action approved by the employee's district or bureau commander prior to issuing the document; and
- 2) The request to document the oral reprimand shall be done in memo form and addressed to the employee's district or bureau commander.

Once the documented oral reprimand has been approved by the employee's district or bureau commander:

- (a) It shall be returned to the employee's immediate supervisor for service.
- (b) This memo shall be retained only in the employee's divisional file for a period of not less than 12 months; and
- (c) When the problem has not continued, the reprimand shall be removed from the file.

Except as otherwise provided in this order, corrective or disciplinary actions are subject to the provisions of the FMC and the rules of the Civil Service Board (CSB). Nothing herein constitutes a waiver of rights of employees otherwise granted by law.

340.5 REVIEW OF CORRECTIVE ACTIONS

For Letters of Counseling and Documented Oral Reprimands, an employee may request a review to the next level of supervision. After being allowed to sign the document, the employee has five calendar days to submit a request in writing to the next highest rank for a review of the action. The reviewing

manager or staff officer shall determine if the facts and evidence warrant the documented action, or a modification of the imposed action.

The reviewing manager or staff officer's decision is final, although the receiving employee may still file a written response within 30 days.

340.6 DOCUMENTING TRAINING AND COUNSELING

Written comments with regard to training or counseling given to an employee by a supervisor are not considered written reprimands, nor are they disciplinary actions. Such comments are merely written documentation that training or counseling has been given.

However, when such comments are in any way adverse to the employee, they shall be signed before they are entered into the employee's file. Written performance evaluations also fall under this provision, as do any other documents pertaining to training or counseling that may have an adverse impact.

340.7 ACKNOWLEDGEMENT OF ADVERSE ENTRIES

When any written adverse comment is to be placed in any personnel file, the employee who is the subject of the comment shall review the document and be requested to sign it along with the supervisor serving the document. The subject employee's signature shall only acknowledge review and awareness of the document and does not imply agreement.

Employees may refuse to sign a document containing adverse comments. In such cases, the serving supervisor shall make a notation on the signature line, documenting the refusal to sign, and shall sign or initial the notation. Sworn employees covered under GC §3305 shall also sign/initial the notation made by the supervisor.

Employees have 30 days to file a written response to any file entry, which shall be attached to and accompany the entry.

340.8 SUPERVISORS OBSERVATION LOG (aka 'Blue sheet')

In the Supervisors Observation Log supervisors shall enter all counseling, reprimands, and commendations that are not documented using a more formal protocol. The employee who is the subject of the observation shall initial the entry along with the supervisor.

340.9 ALLOWED DISCIPLINARY ACTIONS OF SWORN PERSONNEL

Discipline is designed to modify unacceptable performance or behavior, and is used when corrective action has failed, or would be inappropriate for the issue at hand. Discipline may include any of the following:

- (a) Letter of Reprimand;
- (b) Fine (up to \$100 in lieu of suspension);
- (c) Suspension (up to 30 calendar days without pay);
- (d) Demotion; and/or
- (e) Termination.

Corrective action is to be used in lieu of disciplinary action, whenever appropriate. When, during the course of the corrective action, the Department concludes that disciplinary action is warranted, the corrective action process will end and any further contact with the employee will conform to the disciplinary process.

The decision to document corrective actions in a letter of counseling or memorandum (documented oral reprimand), shall be based upon the fact that an issue has previously been addressed or is of a level of seriousness that should be recorded for future reference. Continued reoccurrence of the same/similar issue shall be further investigated by a supervisor.

340.9.1 AUTHORITY TO DISCIPLINE

Except for emergency suspensions, all Departmental discipline must be taken or approved as contained in this section.

- (a) Letters of Reprimand, fines, and suspensions shall be proposed by a Division Commander or the Chief of Police.
- (b) Dismissals or demotions shall be proposed by the Chief of Police.
- (c) The Skelly process for fines and suspensions shall be conducted by the Administrative Division Commander.
- (d) The Skelly process for dismissals and demotions shall be conducted by the Chief of Police.

340.10 NOTIFICATION OF PENDING DISCIPLINARY ACTION

When an employee is to receive disciplinary action, the employee shall be notified at least ten calendar days prior to service of the order of discipline. The notification is for the purpose of allowing the employee an opportunity to respond orally or in writing to the Chief of Police or designee. The notice of pending disciplinary action shall:

- (a) State the reason(s);
- (b) Be accompanied by a copy of the charges and materials upon which the action is based; and
- (c) State the employee's right to respond, either orally or in writing, to the Chief of Police or designee, as the authority imposing the discipline.

The appointing authority may impose disciplinary action without compliance with the noticing provisions of this section when the appointing authority determines immediate disciplinary action is necessary against an employee having permanent status as a result of accusations involving:

- (a) Misappropriation of public funds or property;
- (b) Drug addiction;
- (c) Mistreatment of persons in the custody of the employee;
- (d) Physical assault upon another employee or an employee of the public;
- (e) Action which would constitute a felony; or
- (f) A misdemeanor involving moral turpitude.

340.11 APPEALS OF DISCIPLINARY ACTIONS

Any employee receiving disciplinary action may appeal such action through established means per their respective MOU's.

Any employee wishing to formally appeal a written reprimand must submit a written request to their Division Commander within 10 days of receipt of the written reprimand. The Division Commander will then assign the appeal to an uninvolved supervisor of at least one rank above the rank of the supervisor issuing the original written reprimand.

Absent a written stipulation to the contrary, the employee will be provided with an evidentiary hearing before the assigned, uninvolved supervisor within 30 days. The decision of the assigned, uninvolved supervisor to sustain, modify or dismiss the written reprimand shall be considered final.

Additionally:

- (a) Discipline in the form of fines, suspensions, demotions and dismissals may be appealed to the Civil Service Board or to that Board through advisory arbitration. For fines and suspensions which have been imposed by the Administrative Services Division Commander, appeal to the Chief of Police is an option available in lieu of advisory arbitration or the Civil Service Board. When this option is elected there will be no further appeal to the Civil Service Board or advisory arbitrator. The employee electing this option shall execute a waiver, in accordance with the above, as drafted by the parties;
- (b) Both Civil Service and Advisory Arbitration hearings will be closed to the public unless otherwise requested by the employee; and
- (c) The filing of an appeal of discipline shall not delay the action imposed by the Chief of Police or designee.

340.12 ALLOWED DISCIPLINARY ACTIONS OF NON-SWORN PERSONNEL

Subject to the provisions of the FMC, the rules of the Civil Service Board and when necessary, with the approval of the City Manager, the following discipline may be assessed against employees by the Chief of Police or designee:

- (a) Oral Reprimand
- (b) Written Reprimand
- (c) Suspension (up to 30 calendar days without pay)
- (d) Fine (up to \$100 in lieu of suspension)
- (e) Demotion
- (f) Termination

340.12.1 AUTHORITY TO DISCIPLINE

Final Departmental authority and responsibility rests with the Chief of Police or designee and in some cases is subject to the approval of the City Manager. Except for emergency suspensions and reprimands, all Departmental discipline must be taken or approved by the Chief of Police or designee.

340.12.2 NOTIFICATION OF PENDING DISCIPLINARY ACTION

When an employee is to be terminated, demoted, or suspended, receives a fine, or a letter of reprimand, the employee should be notified at least ten calendar days prior to the service of the order of discipline. The notification is for the purpose of allowing such employee an opportunity to respond orally or in writing to the Chief of Police, or designee.

340.12.3 DOCUMENTING TRAINING AND COUNSELING

Written comments with regard to training or counseling given to an employee by a supervisor are not considered written reprimands, nor are they disciplinary actions. Such comments are merely written documentation that training or counseling has been given.

340.13 DISCIPLINARY ACTION AGAINST PROBATIONARY EMPLOYEES

In the event that a probationary employee is terminated solely for unsatisfactory performance or the failure to meet Department standards, the employee shall have no right to appeal and the following shall be considered:

- (a) Termination of a probationary employee for such failure to pass probation shall be so reflected in the employee's personnel file;
- (b) In the event that a probationary employee is disciplined or terminated for misconduct, the employee shall only be entitled to appeal the decision in the same manner as set forth in Section I as set forth above. This appeal process may be held prior to or within a reasonable time after the imposition of discipline;
- (c) At all times during any investigation of allegations of misconduct involving a probationary officer, such officer shall be afforded all procedural rights set forth in GC §3303 and applicable Department policies;
- (d) A probationary employee's appeal of disciplinary action shall be limited to an opportunity for the employee to attempt to establish that the underlying allegations should not be sustained. Nothing in this policy should be construed to establish any sort of property interest in or right to the employee's continuation of employment;
- (e) The burden of proof for any probationary employee's appeal of disciplinary action shall rest with the employee and will require proof by a preponderance of the evidence;
- (f) In the event that a probationary employee meets their burden of proof in such a disciplinary appeal, the Department shall remove all reference to the underlying allegations of misconduct from the employee's personnel file; and
- (g) In the event that a probationary employee fails to meet their burden of proof in such a disciplinary appeal, the employee shall have no further right to appeal beyond the Chief of Police.

Employees on non-disciplinary administrative leave will suffer no loss of pay. Non-disciplinary administrative leave may include the suspension of the employee's peace officer powers, and relieving them of their department-issued firearm(s), badge, keys and identification. The affected employee shall be provided all the City of Fresno Administrative Order 2-19 as soon as practical. The issuing manager/supervisor shall give the following admonishment to the affected employee:

If disciplinary or corrective action is found to be warranted, you will be notified as soon as possible. While on administrative leave, you will continue to receive your regular pay and benefits.”

Employees receiving non-disciplinary administrative leave shall be required to report to their District/Bureau commander at 0900 hours on the first business day following the non-disciplinary suspension. The District/Bureau commander shall provide the employee with instruction as to temporary assignment, whether the non-disciplinary administrative leave will continue, etc. Employees must be available by telephone during regular business hours (Monday-Friday, 8 a.m. to 5 p.m.) This may be modified if the employee works a different schedule.

The District/Bureau Commander shall also notify the Internal Affairs Staff Assistant with the details regarding the administrative leave.

The captain will then meet with the division commander to make a joint recommendation as to the findings of the investigation and any disciplinary recommendations. This meeting should occur within 10 days of receipt of the file. When there is no captain in the employee's chain of command, the lieutenant will meet with the division commander to make the joint recommendation. The IAB will also provide a hard copy of the file to the employee's captain or bureau commander. Final disciplinary recommendations will be made by the Chief of Police or division commander, who will make the final recommendation(s) and sign the Review Sheet. The Internal Affairs file, with the signed Review Sheet, will be returned to IAB.

No employee shall alter, cause to be altered, or withdraw any completed administrative investigation memorandum or attachments.

When an emergency suspension is enacted, a written report must be submitted immediately to the Chief of Police or designee, through the chain of command (with copies to each commander), and shall contain the following information:

The tender of a retirement or resignation by itself shall not serve as grounds for the termination of pending discipline.

No employee shall be subjected to disciplinary action, or denied promotion, or be threatened with any such treatment because of the exercise of any rights provided in this Manual, or provided in the GC §3301, et seq.

Fresno Police Department Policy Manual

Electronic Tracking Device

343.1 POLICY

All aspects of Electronic Tracking Device are to be considered confidential. Knowledge of the purpose and operations of Electronic Tracking Device is on a need-to-know basis only.

343.1.1 PURPOSE AND SCOPE

The Department currently utilizes two electronic tracking device systems comprised of the Electronic Tracking Systems (ETS) and the newer Electronic Satellite Pursuit (ESP) System. Both systems track money stolen from banks or other financial institutions utilizing different technologies. Additionally, ETS has an asset tracker to track stolen property. The purpose of this policy is to familiarize officers with the general operation and response to an ETS / ESP activation. Unless otherwise noted, response procedures shall pertain to both systems.

343.1.2 CONFIDENTIAL NATURE

Members SHALL NOT discuss or divulge any aspect of the ETS / ESP system operation with non-law enforcement personnel.

343.2 SYSTEMS OVERVIEW

The ESP system, a product of the 3SI company, is a satellite-supported global positioning system (GPS) used to track money stolen from banks or other financial institutions. The ESP system provides web-based GPS information about the location of the tracking pack generally included in money stolen from banks. The information is updated every six seconds by up to eight satellites and also utilizes cell tower data and radio pulses when GPS is unavailable. Information displayed on the 3SI website includes direction of travel, speed, accuracy, time lag, contact information, and type of activation (teller or vault). There is no equipment installed in Department vehicles and all activations/updates are dispatched through the Communications Center.(ComCen).

The ETS system is similar in operation but utilizes a radio-frequency transponder unit and it is tracked using strategically placed radio towers, vehicle mounted tracking units, and handheld tracking devices.

343.3 EQUIPMENT ISSUANCE AND MAINTENANCE

Only properly trained members are responsible for removing, replacing, or aligning tracking units in designated ETS vehicles. The supervisor shall ensure that ETS equipped units are designated on the policing area vehicle status board and that when tracking equipment is removed from one vehicle to another the vehicle status board reflects the change.

District commanders are responsible for maintaining an accurate and current inventory of ETS equipment assigned to their district.

343.3.1 DEPLOYMENT OF ETS UNITS

Patrol supervisors are responsible for ensuring that ETS units are deployed daily to designated sectors and that ETS equipped vehicles are properly designated in unit log on information.

Officers operating ETS equipped vehicles shall log on using a "T" designator along with their detail number to designate the unit as an ETS equipped vehicle.

343.3.2 ETS COMPONENT MAINTENANCE

Any ETS equipment (including vehicle) which appears to have malfunctioned should be reported to the City radio shop. Members shall not attempt to adjust the THRESHOLD or PHASE BALANCE screws on the receiver unit.

343.3.3 VEHICLE OUT OF SERVICE

When an ETS vehicle is out of service for any reason, the ETS display and receiver will be removed and installed in a secondary ETS vehicle by the officer issued the vehicle.

343.3.4 ESP HANDHELD TRACKING BEACON

One (1) ESP handheld tracking beacon will be kept in the Duty Office for field use in the event of an ESP tracking event. It can be used to isolate/pinpoint the final track point. It receives the radio signal pulsating every one second from the track pack.

343.4 OFFICER RESPONSIBILITY

Officers assigned to an ETS equipped vehicle shall inspect the tracking equipment at the beginning of their shift by:

- (a) Monitoring the self-test sequence on the mobile display;
- (b) Checking the phase alignment by aiming the front of the vehicle at the station signal monitor;
- (c) Checking the pocket tracker by observing the self-test in station signal monitor; and
- (d) Notifying the supervisor of any equipment needing repair.

343.5 RESPONSE TO ETS / ESP ACTIVATION

343.5.1 ETS / ESP MONITOR ALERT

When an Emergency Services Dispatcher (ESD) receives an ETS / ESP alert display on the monitor, they will wait 10 seconds, and then attempt to reset it. When the alert discontinues and does not re-alert, a possible false alarm has occurred and no further action is necessary.

When the alert continues after being reset, a probable robbery exists and an ETS alert (211T) or ESP alert (211E) shall be declared. An ESD shall then:

- (a) Be assigned to coordinate the radio traffic and monitor the ETS / ESP console on a designated radio channel;
- (b) Notify ETS equipped patrol units and the area supervisor by radio that a 211T is in progress including which area is hot and what radio channel will be used for the operation;
- (c) Deploy ETS equipped units to priority locations as needed;
- (d) Notify the air support of the 211T;
- (e) Work with the controlling supervisor and the primary unit in directing assisting units to appropriate locations to intercept a hot tag; and
- (f) Notify neighboring law enforcement jurisdictions, which may be affected by the track.

343.5.2 CONTROLLING SUPERVISOR RESPONSE

The controlling supervisor of an ETS / ESP event is determined through normal supervisory assignment criteria (i.e., location of track, availability, etc.). After assuming the role of a controlling supervisor, the supervisor will remain in that capacity until the completion of the track.

The controlling supervisor is responsible for:

- (a) Ensuring that only necessary units are utilized during the track. Only ETS equipped units should normally respond to an ETS alert but any unit may respond to an ESP alert. Non-ETS equipped units should remain in their sectors and respond only at the direction of the controlling supervisor;
- (b) Coordinating the response of all units including coverage of escape routes, keeping the ComCen notified of developments, etc.;
- (c) Directing the tactical plan when suspect(s) reach a destination; and
- (d) Preparing an E-mail on the incident dispatched to obtain descriptions and other pertinent details which shall be broadcast as soon as practical;

343.5.3 FIELD UNIT RESPONSE

Accidental alerts do occur. However, when 15-30 seconds have elapsed and a signal is still being received by an ETS equipped unit, it should be treated as a valid robbery in progress signal.

When an ETS alert is monitored first by an ETS equipped unit, that unit will be primary and shall advise the ComCen of the:

- (a) Alert;
- (b) Approximate location and direction of travel of the tag; and
- (c) Necessary coordination of responses by additional ETS equipped units.

The activation of a mobile unit will be treated as a priority "0", Officer Needs Assistance call by the ComCen.

Involved ETS equipped units shall comply with the following tracking protocols when possible:

- (a) When an ETS equipped unit is on a call at a time when a 211T is broadcast, the unit may break from their current call only upon approval of the ESD;
- (b) Generally when a business is equipped with ETS Tags and a signal from a "hot tag" is apparently coming from inside the business, it shall be handled in the same fashion as a silent hold up alarm;
- (c) Attempt to triangulate the location of the tag;
- (d) When the suspect reaches a destination, the responding units shall attempt to initiate contact in a coordinated manner. Whenever possible, the supervisor/officer in charge should develop a tactical plan to effect the entry and arrest;
- (e) Inform the ESD on all aspects of an in progress track;
- (f) When a suspect(s) and/or tag is located and taken into custody, the bill pack containing the tag should be deactivated as soon as possible. This shall be done out of sight of the suspect(s) and the public;
- (g) The business where the tag originated should be contacted as soon as possible after it has been identified;
- (h) The bill pack and transmitter are collected as evidence; and
- (i) Have the suspect(s) be transported in a non-ETS equipped vehicle in order to maintain system security. The apprehension process is not to be discussed with the suspect(s).

343.6 ETS PRIORITY LOCATIONS

The following five locations have been designated as priority ETS locations. When there is a 211T activation, the ComCen should dispatch ETS equipped units to appropriate locations to ensure the highest probability of intercepting a hot tag. These include:

- (a) Hyde Park, at top of hill (Thorne & Florence);
- (b) Freeway 41 at Highway 180 Interchange;
- (c) Chestnut/Kings Canyon;
- (d) Herndon/Freeway 41; and
- (e) Ashlan/Freeway 99 (overpass).

There are seven secondary locations to which the ComCen may direct other available ETS equipped units as they become available and as necessary. These include:

- (a) Jensen/Freeway 99 (overpass);
- (b) Freeway 41/Between O Street and Van Ness off ramps;
- (c) McKinley/Maple;
- (d) Cedar/Shaw;
- (e) Freeway 41/Shields (overpass);
- (f) Shaw/West; and
- (g) Clinton/Freeway 99 (overpass).

343.7 FALSE ALARMS

Users who accidentally activate the ESP / ETS for more than 30 seconds are required to contact the Department to advise of the false activation. ComCen shall dispatch a patrol officer to the location of a reported accidental activation to verify the report.

ComCen shall notify Clovis PD of any ETS signal originating in their city.

When necessary, an ETS trained officer will respond to a user location to determine the origin of the false trip. It may be necessary to use a pocket tracker to determine which bill pack is activated when a user reports they have not had a robbery, but the system is still activated. Once the procedure is accomplished by the officer, they shall have ComCen enter the details into the CAD event and a printout of the event shall be forwarded to the Robbery/Felony Assault Supervisor.

343.7.1 FALSE ALARMS BILLING

ESP / ETS users are exempt from requirements of the City false alarm ordinance on ESP / ETS incidents only. Users must still comply with ordinance requirements as they apply to any other alarm system they might have.

343.8 DOCUMENTATION OF ETS / ESP USE

When the ETS / ESP tracking equipment provided the only probable cause leading to the arrest of suspect(s), that information will be documented in the CR.

All other information regarding the ETS / ESP equipment and specific details of how the system was used shall not be included in the CR.

343.9 MULTI-JURISDICTIONAL INCIDENTS

When it appears that a track will enter Clovis, the ComCen will notify Clovis PD dispatch and provide current information regarding:

- (a) Approximate location of the track and direction of travel;
- (b) Suspect and vehicle description, type of offense, and weapons used;
- (c) Number of trackers involved in operation;
- (d) The terminus of the track and disposition of suspect(s); and
- (e) The need for assistance from their units.

When Clovis initiates a track that may move into Fresno, units will be notified city-wide.

The initiating agency in multi-jurisdictional incidents has primary responsibility for and operational control of a track. It is also responsible for the handling of all arrestees resulting from the tracked event.

343.10 TRAINING EXERCISES

Before commencing any training exercise, the ComCen shall be notified. The ComCen shall then announce on all applicable frequencies that the signal about to be transmitted is a training exercise.

343.11 LIAISON OFFICER

A member will be designated by the Department who is responsible for:

- (a) Acting as liaison between participating businesses, the Clovis Police Department, the City Communications Services Division, the Department, 3SI Security Systems, and ETS Systems;
- (b) Providing the ComCen with a current list of participating businesses;
- (c) Maintaining training kits;
- (d) Coordinating training of new members through the PTO program;
- (e) Conducting Departmental training exercises; and
- (f) Providing ComCen with a current list of ETS equipped vehicles.

Fresno Police Department Policy Manual

Report Preparation

344 Report Preparation

344.1 POLICY

A Crime Report shall be prepared whenever any reported crime has been committed or is logically suspected of having been committed in the City. All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken. Members shall not repress, conceal, or distort the facts of any reported incident, nor shall any member make a false report orally or in writing.

344.1.1 PURPOSE AND SCOPE

The purpose of reports is to document sufficient information to refresh the member's memory and to provide sufficient information for follow-up investigation and successful prosecution. Report writing is the subject of substantial formalized training and on-the-job training.

344.1.2 EVENT ID/CASE NUMBERING

The Department employs a single, unique, event and case numbering system. Each event that is created receives an Axon Computer Aided Dispatch (CAD) event ID number beginning with the two-digit year, four-digit (month/date), and four sequential digits. Example: 2301011234. The event ID will also serve as the case number if a crime report is documented. Both event IDs and case numbers reset on January 1 at 00:00:01.

344.2 REPORT COMPLETION

A Crime Report shall be prepared whenever any reported crime has been committed or is logically suspected of having been committed in the City. The reporting member shall list their full name and badge number as well as provide the full name and badge number of all assisting members on all reports.

When practical members shall complete the offense section in Axon Records for all reports at the time the case number is pulled, but no later than the end of the member's shift. This shall be done regardless of whether the full report is completed at that time.

All police reports should be completed and submitted for approval at the end of the duty shift on which the initial incident was handled by the reporting member. When reports cannot be completed prior to the end of a member's duty shift, the report(s) shall be completed during the member's next duty shift.

Before leaving at the end of the shift, members shall complete and submit for supervisory approval all reports which involve:

(a) Part One and possible Part One offenses

- 1) Homicide;

(c) Solvability factors which would require immediate action by a follow-up investigator;

(d) A missing person;

(e) A Welfare & Institutions Code §300 placement; or

(f) Crimes of violence or hate incidents.

* The definition of "Aggravated Assault" for the National Incident-Based Reporting System (NIBRS) purposes is, "An unlawful attack by one person upon another wherein the offender uses a dangerous weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury, or where there was a risk for serious injury/intent to seriously injure."

344.3 ON DUTY REPORT WRITING

Field members are to come in service from a call as soon as they have completed their preliminary investigation.

- (a) Reports are not to be written while still out on the call.
- (b) When there are no 0 or 1 priority calls holding in their district, field members may put themselves out "report writing" without having to consult with the ComCen.
- (c) Consistent with other dispatching protocols, ESD's should allow field members to report write when no 0 or 1 priority calls are holding in their district.

When permission has been granted by a supervisor, members may remain out of service to write reports on major investigations (e.g., homicides, fatal vehicle collisions, etc.). In such cases, a member who is report writing shall not be dispatched on calls without the approval of a field supervisor or, district commander or field commander.

344.4 DICTATING

Report narratives may be dictated when the narrative, if handwritten, would exceed one single-spaced page and:

- (a) The incident is a felony; or
- (b) The incident is a misdemeanor with suspect(s) in-custody; or
- (c) The report is of a sensitive or unusual nature (permission to dictate must be given by the member's supervisor).

When submitting a dictated report, the narrative should state "Narrative Dictated" and be submitted in Axon Records for supervisor approval. The supervisor shall leave the report, unapproved, in 'Supervisor Review' status. The Transcriptionist will paste the dictated narrative into the member's report and reject the report back to the authoring member for review.

When dictated reports are returned for review/correction, they shall be reviewed and if necessary corrected prior to the end of the member's next duty shift. The name of the supervisor approving dictation shall be listed following the "Narrative Dictated" notation described below. The only material authorized for dictation is that which can be documented on narrative pages. No forms other than narrative pages may be dictated.

344.5 SYNOPTICAL REPORT

A crime report is required in any criminal investigation where there is an identifiable suspect or where there is physical evidence which could lead to the identification of a suspect.

344.5.3 FOLLOW UP

When an event, in which a Synoptical Report was completed, generates a Supplemental Report, the member who completes the Follow-up shall upgrade the case to an original Crime Report.

344.6 MANDATORY REPORTING OF JUVENILE GUNSHOT INJURIES

A report shall be taken when any incident in which a child 18 years or younger suffered an unintentional or self-inflicted gunshot wound. The Records Bureau shall notify the California Department of Public Health (CDPH) of the incident as required by CDPH (PC §23685).

344.7 ELECTRONIC PROBABLE CAUSE DECLARATION (ePCD)

The ePCD is also known as the Fresno County Law Enforcement Warrantless Arrest Declaration. The ePCD is used to document the probable cause for an arrest of a named suspect and shall be completed when:

- (a) A juvenile is booked into JJC without a warrant on felony or misdemeanor charges; or
- (b) An adult is booked into FCJ without a warrant on felony or misdemeanor charges, excluding PC §647(f).

Officers shall utilize the Fresno County ePCD system (<https://epcd.fresno.courts.ca.gov>) to:

- (a) Create a new ePCD and/or edit a previously started ePCD;
- (b) Submit a 'Not In Custody' (NIC) ePCD for at-large suspects for supervisor review/approval;
- (c) Submit an 'In-Custody' ePCD for judicial review/approval at the time of booking;
- (d) Complete a previously submitted NIC ePCD when an arrest is made;
 - 1) Requires ePCD to be reviewed/approved by a supervisor prior to judicial review/approval.
- (e) Edit/correct ePCD's returned for additional information by a supervisor or reviewing judge; and
- (f) Monitor the status of ePCD's previously submitted for supervisor or judicial review/approval.

344.7.1 NARRATIVE

The narrative of the ePCD shall be a synopsis of the report details and articulate:

- (a) The facts that support probable cause for detention or other contact that subsequently lead to the discovery of a crime;
- (b) The basic elements of the crime for which the arrest is made; and
- (c) How the suspect was identified and connected to the crime(s).

344.7.2 AT-LARGE SUSPECTS

A NIC ePCD shall be completed and submitted for supervisor review/approval for named, at-large felony suspects. When a wanted suspect is arrested, the NIC ePCD will be retrieved by the arresting officer, completed, and submitted for judicial review/approval at the time of booking.

344.7.3 IN-CUSTODY SUSPECTS

After probable cause is established, the arresting officer shall complete an ePCD in the Fresno County ePCD system. Upon completion, the arresting officer shall save the ePCD for supervisor review. The arresting officer shall advise the on-duty supervisor that the ePCD is completed and awaiting review. The supervisor should promptly review the in-custody ePCD for approval. If the arresting officer's supervisor is unavailable (e.g., OIS or barricaded suspect), the officer can seek approval from another on-duty supervisor. Verbal advisements are strongly discouraged unless there is an extenuating circumstance (e.g., no available supervisor that can review or the ePCD system is down). Upon approval, the supervisor will advise the arresting officer to submit the ePCD to the Superior Court for judicial review. The ePCD shall be approved by a supervisor prior to booking any suspect into FCJ and the ePCD shall be submitted for judicial review immediately after booking.

*When feasible, sergeants should respond to the arrest location and obtain the circumstances surrounding the arrest from the primary officer prior to booking.

Exceptions: Corporals are authorized to approve ePCD submissions for their assigned trainees and when acting in the capacity of a supervisor.

344.7.4 HOSPITALIZED SUSPECTS

In the event a suspect in custody on a felony charge is subsequently placed on a hold under WIC §5150, the arresting officer will complete a NIC ePCD. (See Policy §418)

In the event a felony suspect is going to be admitted to the hospital and the on-duty PIO Field Commander has approved the prisoner standby, the arresting officer shall complete and submit an in-custody ePCD following the arrest but no later than the end of the shift. (See Policy §355)

344.7.5 REJECTED EPCDS

The Duty Office will assume responsibility for tracking rejected in-custody ePCD's. When a judge rejects an in-custody ePCD, the Duty Office and the officer will receive an email notification. When the officer is still on-duty, the Duty Officer will contact them immediately to make necessary corrections and resubmit the ePCD.

When an ePCD is rejected and the officer is off duty, the Duty Officer will determine whether the officer will be returning to work before the 48-hour ePCD deadline expires:

- (a) When the officer is scheduled to return to work before the 48-hour deadline, the Duty Office will contact the officer upon their return to work and ensure he or she is aware of the need to correct and resubmit the ePCD;
- (b) When the officer is not scheduled to return to work before the 48-hour ePCD deadline expires, and it appears the ePCD expiration will result in the premature release of a suspect, the Duty Officer will contact the officer while the officer is off-duty. The officer has two options:
 - 1) Access Fresno County ePCD system remotely to correct and resubmit the ePCD (without responding in person); or
 - 2) Respond in person to make the corrections and resubmit the ePCD.

344.8 PROPERTY

Members shall list any property that is lost, stolen, found, or booked for safekeeping in the property section of the report in Axon Records. Any property booked as evidence with a serial number or owner applied number shall be listed in the property section in Axon Records. When the property has a serial or owner applied number, the member shall forward the property information to Teletype through Axon Records for entry into CLETS.

The Burglary/Theft Form may be used to document additional information about already reported stolen items (e.g., serial numbers) or to report property not known to be stolen at the time of the original investigation and the victim's identifying information. The Burglary/Theft Form will be provided to the victim (either in person or by mail). The Burglary/Theft Form Letter may be submitted by the victim by mail, or the victim may add the property information by completing a supplemental report through the online reporting system.

344.9 MULTIPLE OFFENSES

When there is a separation of time and place between the commission of several crimes, each of the crimes should be handled and reported as separate incidents and each will be reported as a separate case.

When a review of the facts indicates conclusively that several crimes have been committed during the course of one distinct combined operation, only one report shall be prepared to report all of the crimes.

- (a) A single report shall be used to report several counts of the highest offense occurring at the same time and at the same place, and it shall also document all lesser Part I and Part II offenses.
- (b) The one report may include several businesses and/or persons as victims.

Exception: These rules do not apply to a series of vandalisms or vehicle burglaries involving separate victims. These crimes will be reported as separate offenses on separate reports.

344.10 PERSONNEL CHANGES

Prior to promotion, separation or change of assignments, personnel are required to review the report writing system to assure that all reports that are pending approval or incomplete have been completed approved and submitted to records.

344.11 SUPERVISOR RESPONSIBILITIES

Supervisors shall check all reports holding in their assigned shift team box immediately after briefing and before logging off.

When a supervisor is assigned to work in a district/unit other than their primary assignment (being loaned) the supervisor shall check all reports holding in the shift team box of the district/unit they were loaned to immediately after briefing and before logging off.

There may be circumstances where a supervisor may not be able to check all reports holding and those situations may include but are not limited to a supervisor's response to a critical incident or a Department member requesting a supervisor's presence in the field.

344.11.1 EPCD REVIEW / APPROVAL

Supervisors shall check and review all NIC ePCD's in Fresno County ePCD system completed by officers in their District/Unit. Supervisors shall notify the submitting officer when an ePCD is in need of correction.

Supervisors shall review all in-custody ePCDs prior to booking and submission to the Superior Court. When an ePCD needs correction, the supervisor will notify the submitting officer to have the ePCD corrected and re-submitted to the Superior Court for judicial review.

344.12 REPORT CORRECTIONS / MODIFICATIONS

When the originating officer is no longer employed by the Department and has open reports, the reports may be modified to allow for report access and closure. A note will be added to the report to document what changes were made, the reason for the changes, and who made the changes.

345.1 POLICY

Department members will assist the Fresno Fire Department (FFD) and members of the public as necessary on any fire related calls to ensure public safety and maintain order.

345.1.1 PURPOSE AND SCOPE

Although the primary function of the Department is not one of fire control it is often called upon as a "first responder" and will often arrive before the FFD personnel or discover fires before they are reported. As such, members must act to provide for the safety of the public, limit property damage when able, and assist the FFD as needed.

345.2 MEMBER'S DUTIES BEFORE FIRE DEPARTMENT ARRIVAL

Members who arrive at a fire before the FFD should, if it can be done with reasonable safety, attempt the rescue of injured or trapped persons. Any occupied building on fire should be evacuated until FFD officials permit re-entry. If the fire appears to be the result of any criminal event or police action, members shall advise ComCen. If it is apparent that the scene is not safe for FFD and/or EMS personnel, ComCen shall notify them of the circumstances.

345.3 MEMBER'S DUTY AFTER FIRE DEPARTMENT ARRIVAL

The member's primary duty after arrival of the FFD is to prevent interference with (PC §§148.2, 402, HS §13006 a-d) or injury to (PC §§240 and 245.1) fire personnel, and equipment (VC §21708). The officer in charge of the police response to a fire scene shall immediately contact the FFD Incident Commander and determine what assistance members can provide and coordinate the Department's response to the incident.

345.4 CLOSING AREA

The authority for closing an area during a fire is found in PC §409.5. Upon request of the fire official in charge, members shall close the fire area and/or divert traffic in such a manner as to allow a minimum of congestion and maximum freedom of movement by FFD personnel and equipment (VC §§2812, 21707).

345.5 USE OF BARRICADES

In more serious fires, barricades and warning flashers may be used in order to more effectively close an area and best utilize available members. Members who need barricades and flashers shall advise the ComCen of the number and type needed and the location where they should be delivered. The ComCen shall contact the appropriate City department for delivery of the barricades to the specified location.

345.6 SPECTATORS

Officers shall keep spectators who may become a source of interference from approaching a fire. The distance at which spectators should be kept will depend on the seriousness of the fire, the probability of an explosion, and/or exposure to hazardous materials. Media access to the scene is governed by Policy §346.

345.7 AUTHORITY OF THE INCIDENT COMMANDER

The ranking member of the FFD at the scene of a fire is the Incident Commander. Members shall comply with their orders or instructions at all times. When an order of the Incident Commander is contrary to the provisions of this Manual or other Department policies or procedures, the member shall obey the order and notify their supervisor immediately.

345.8 SUPERVISOR AT SCENE OF FIRE

A supervisor and a district or field commander shall be dispatched to the scene of any major fire or disaster.

345.9 POST-FIRE SECURITY

The FFD has primary responsibility for locating an owner or person responsible for burned premises.

When the ComCen cannot locate an owner or responsible party, FFD personnel shall be responsible for notifying the ComCen when security is required at the scene. Upon receiving such notification, the ComCen shall contact a private security firm to secure the scene.

345.10 REPORTING OBSERVED FIRES AND ALARMS

On-duty members who discover a fire or locate an activated fire alarm shall immediately notify the ComCen and give the location and a description of the size and type of fire/alarm observed. The ESD receiving the notification shall ensure that the appropriate fire dispatching entity is notified.

Members who locate a recent fire that has been extinguished where the FFD has not been notified, shall notify the ComCen of the circumstances so that appropriate fire personnel may be dispatched to investigate and to ensure that the fire has been properly extinguished.

345.11 REPORTING OF FIRE HAZARDS

Members detecting a fire hazard or potential fire hazard shall notify the ComCen of the location and nature of the hazard. The ESD receiving such notification shall contact the appropriate fire dispatching entity for action.

345.12 ARSON INVESTIGATIONS

345.12.1 INITIAL INVESTIGATION

The FFD may dispatch a fire investigator to the scene of fires of suspicious origin in the City, only upon recommendation of the Incident Commander. Members should consult with the Incident Commander regarding the need for arson investigator response. The primary responsibility for investigating the incident and preparing the initial crime report on all arson fires rests with the FFD arson investigator.

Exception: When it is determined that another crime is involved (e.g., burglary, homicide, vehicle theft, etc.) the primary member shall investigate and have primary reporting responsibility. When dispatched upon recommendation of the Incident Commander, the fire investigator will prepare any supplemental report deemed necessary after consultation with the primary investigating member at the scene. Any supplemental report prepared by the FFD fire investigator will be limited to the specific details of the arson investigation.

345.12.2 SCENE PRESERVATION

When a fire has been extinguished and it has been determined that arson may have been involved, the FFD may turn crime scene security over to the Department which shall assume responsibility for preservation of the scene.

When it appears that long term security will be required, a private security firm may be contacted to relieve the member(s) preserving the crime scene.

345.12.3 FIRE BOMBS AND INCENDIARY DEVICES

Members shall request notification of fire investigators when any incendiary devices have been discovered, and shall assist the fire investigator as requested.

Fire investigators shall complete a crime report and handle all evidence and materials when they respond to a call. When a fire investigator is not available, members are responsible for completing a crime report and handling all evidence and materials.

When the device is still active and presents a possibility of igniting or exploding, the EOD Team shall be notified.

Fresno Police Department Policy Manual

Sexual Assault Offenses

347 Sexual Assault Offenses

347.1 POLICY

Members shall thoroughly investigate all reported sexual assault cases. All sexual assault investigations shall be properly documented in a police report.

347.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance to members investigating sexual assaults. Due to the sensitive nature of investigations dealing with sexual assaults, members shall demonstrate the utmost tact and consideration for the feelings of victims and their families during the investigation.

347.2 SEXUAL ASSAULT INVESTIGATIONS

Members shall attempt to obtain as much information as possible from victim/witness statements, even if a victim refuses to cooperate and expresses no desire for police involvement, and list information which would enhance evidence collection. Members shall:

- (a) Complete a report regardless of the intent of the victim;
- (b) Provide all sexual assault victims with the Sexual Assault Victim Information Form [Penal Code §264.2(a) and §13701] containing their name, badge number, and case number;
- (c) Check for any video/or electronic evidence;
- (d) Determine the location of occurrence (i.e., crime scene) and make appropriate arrangements to process it.

Victims who choose not to assist with an investigation, do not desire that the matter be investigated, or wish to remain anonymous may still consent to the collection of evidence under their control. In these circumstances, the evidence should be collected and stored appropriately (Penal Code § 680).

347.3 SEXUAL ASSAULT FORENSIC EXAMINATIONS (SAFE)

A sexual assault forensic examination kit should be used in all rape and sodomy cases within five days (120 hours) of the crime and oral copulation cases when the elapsed time since the crime is less than three days (72 hours). This applies even when the victim has washed, douched or is on a menstrual period. If the type of sexual assault requires a forensic examination or the victim requests one be performed, officers shall authorize the examination.

In instances where an officer feels the incident does not warrant a sexual assault examination, the officer will advise their supervisor who will contact the Sexual Assault Unit (SAU) supervisor for direction. The SAU supervisor will make the final determination if a sexual assault kit will be completed.

If the above listed requirements for a sexual assault kit are not met, but there is a possibility of the presence of DNA evidence on the victim's body (e.g., face, neck, breast, etc.), officers should consider utilizing the Crime Scene Investigations Bureau to collect DNA from the victim's body utilizing buccal swabs. If the possible DNA evidence is located on the genitalia or buttocks of the victim, officers should contact their supervisor who will contact the Sexual Assault Unit supervisor for direction.

347.3.1 LOCATION OF EXAMINATION

Victims/Suspects who need or request medical treatment shall be transported to an appropriate medical facility such as Community Regional Medical Center (CRMC) or Valley Children's Hospital (VCH) if under 18 for medical treatment and a sexual assault forensic examination. This shall be facilitated via a private vehicle, taxi, police vehicle, or ambulance when appropriate.

Victims/Suspects who do not need/request medical treatment shall be transported to Central Valley Forensic Nursing Specialists (CVFNS) at 7025 N. Chestnut Ave. Suite 103 for the sexual assault forensic examination. The officer requesting the examination shall notify CVFNS at (559) 324-9100,

advising of their pending response. Members shall assist victims in arranging transportation to CVFNS via private vehicle, taxi, or police vehicle. EMS will not transport to CVFNS.

Prior to transport, the transporting member should notify ComCen of the transport to the medical facility or CVFNS. Once the member arrives, they shall advise ComCen to notify Resource Center for Survivors (RCS) [PC §264.2(b)(1)].

347.4 EVIDENCE COLLECTION

347.4.1 CLOTHING

Clothing worn at the time of the examination will be collected by the forensic nurse. All other clothing evidence should be collected and booked by the investigating officer.

347.4.2 VICTIM KITS

When it is determined a sexual assault kit needs to be completed on a victim, the officer investigating the sexual assault will respond to the location conducting the examination. The officer shall:

- (a) Remain at the location with the victim until briefing the forensic nurse on the details of the assault (providing specific details) to enhance the collection of evidence;
- (b) Authorize the examination with their signature, and FPD case number;
- (c) Request the forensic nurse to take a blood and/or urine sample that can be sent to CVT for a toxicology analysis. This should be done on adult cases whether or not the victim talks about alcohol or drug use; and
- (d) Make arrangements for the victim to be safely transported back home and conduct any required additional investigation.

In cases where the victim requests a sexual assault kit be completed but not tested pursuant to PC §680(h)(2), the officer shall complete the additional steps:

- (a) Explain the Victim's Request to Not Test SA Kit form letter to the victim and attempt to have the victim sign the form;
- (b) If the form is signed, attach and upload the form into Axon Evidence under the assigned case number;
- (c) Notate the request to not test the kit in the report; and
- (d) Attempt to capture the request on body worn camera.

Officers are not required to inform the victim of their right to not test the sexual assault kit and the age of the victim does not affect this right. The Sexual Assault Unit will review all cases where there is a request to not test and will make the final determination. Refer to RCTB 24-10 for further details.

347.4.3 SUSPECT KITS

When it is determined that a sexual assault kit needs to be completed on a suspect and a search warrant is required the investigating member shall contact the SAU supervisor. The SAU supervisor will determine if a detective callout will be initiated. The investigating member will transport the suspect to CRMC, VCH, or CVFNS and request a forensic nurse for a sexual assault examination.

- (a) The investigating member will brief the forensic nurse on the details of the assault (providing specific details) to enhance the collection of evidence and authorize the examination with their signature.
- (b) Two members (gender appropriate) will stand by the suspect while the forensic nurse completes the sexual assault examination and maintain custody of suspect.
- (c) Officers will confirm that the forensic nurse collects a third vial of blood for blood/alcohol testing on adult suspects. This vial will not be placed in the suspect sex kit. The third vial will be booked at HQ in the evidence box for CVT testing.

347.4.4 PHOTOGRAPHIC EVIDENCE

Intimate Photos - Any injuries occurring in intimate areas will be photographed by the forensic nurse during the sexual assault examination. When the victim of a sexual assault (e.g., sexual battery, attempted rape) did not undergo a sexual assault examination, but photographs are still needed of intimate areas, they shall be taken by a same sex Crime Scene Investigation Section technician.

Intimate victim photos will not be taken in the Crime Scene Investigation Section (CSIS) but will be taken in a private setting such as the victim's home, CRMC, VCH, or CVFNS. When a same sex CSIS technician is not available, the follow-up detective will make arrangements for a same sex CSIS technician to take injury photographs.

Non-Intimate Photos - can be taken by a male or female technician if they were not taken during the sexual assault examination. Officers should consider the value of taking photos that show the victim/suspect does not have visible injuries. Victims have the right to have an advocate present while being photographed.

When a victim refuses to be photographed, investigating members should attempt to gain their cooperation by stressing the importance of the evidence to the successful prosecution of the case and by fully explaining all photographic procedures and measures taken to ensure privacy.

Officers should encourage victims to take updated photographs of injuries (i.e., bruising) that appear or worsen after the initial report is made.

347.5 INVESTIGATIVE ASSISTANCE / DETECTIVE CALL-OUT

347.5.1 MANDATORY NOTIFICATIONS

Members shall contact their supervisor while investigating sexual assaults which involve any of the following circumstances:

- (a) Sexual assault involving serious injury in which immediate follow-up investigation is needed;
- (b) Sexual assault with substantial sexual conduct where the suspect is a stranger, and there are investigative leads, which require immediate follow-up;
- (c) Child molestation involving serious injury;
- (d) Offenses which are part of a recognized pattern of criminal sexual activity;
- (e) Offenses which may generate media interest or department liability; or
- (f) Prior to questioning out of custody suspects (detectives may want to utilize a pretext call or other investigative technique in furtherance of the investigation).

Supervisors will then contact the SAU Supervisor who will determine the need for response or involvement by a detective.

When the primary officer places the suspect on the DCB as an arrestable suspect, the officer shall send an email to the SAU Supervisor advising of such action.

The Property and Evidence Technician will verify with lab personnel if there are any kits which are to be transferred back to Department custody. If kits are collected from the lab, the Property and Evidence Technician shall transport the kits directly to the PECS warehouse for storage.

Exception: When the kit is related to a homicide investigation, the Homicide Unit supervisor shall direct its pickup, testing, and booking.

347.7 BOOKING OF SEXUAL ASSAULT EVIDENCE

The designated Property and Evidence Technician is tasked with the collection of sexual assault kits from medical facilities. Below is the procedure for the collection and booking of evidence:

- (a) The large white box (main Sexual Assault kit) should be listed as your first item in this box shall be clearly identified in FileOnQ as a Victim or Suspect Sexual Assault Kit. Victim and Suspect Sexual Assault Kits (medical box from facility) shall be booked separately from other related items and shall not be placed in any other box.

- (g) If given a photo CD by the hospital, the photo CD shall be booked separately in FileOnQ and sent to HQ for storage. DO NOT book CD's in the refrigerator, as this can damage them.
- (h) The sexual assault examination report is NOT to be booked or left with the evidence. All medical reports are to be scanned and attached via FPD AXON to the follow-up chain of custody report prepared by the transporting Property and Evidence Technician.

Refer to Policy §804.19.8 Sexual Assault Evidence for booking procedure. Any questions can be directed to a Property Tech at 621-2675. Messages can be left after hours.

347.8 SEXUAL ASSAULT KITS - DNA PROCESSING

Once the SA kit is booked, it will be the responsibility of PECS to notify the SAU supervisor of the number of SA kits held in evidence. The designated Property and Evidence Technician will complete

the DOJ form and attach the required reports, so the SA kit can be sent to DOJ within the 20-day requirement (PC §680).

In order to maximize the effectiveness of such testing and identify the perpetrator of any sexual assault, the designated Property and Evidence Technician shall ensure that an information profile for the Victim SA kit evidence has been created in the California Department of Justice SAFE-T database within 120 days of collection. The assigned SAU detective shall ensure that the results of any such test have been timely entered into and checked against both the DOJ Cal-DNA database and the Combined DNA Index System (CODIS) (PC §680.3).

If the victim requests their SA kit not to be tested, the SA kit should not be submitted to DOJ for processing (PC §680(h)(2)). Additionally, the SA kit should not be tested for DNA, should not be entered into DOJ SAFE-T database, and should not be reported in the statewide audit of untested sexual assault evidence kits. The SA kit should be stored with instructions not to test.

347.9 CPS NOTIFICATION

When the initial investigating officer of a suspected child sexual assault case concludes that an offense is believed to have occurred and the officer has decided to place the minor in protective custody pursuant to Welfare & Institutions Code §300, the officer shall contact CPS to request a social worker respond to handle placement. Members shall confer with CPS to properly assess the circumstances of their investigation.

In those cases where the investigating officer determines the minor does not require protective custody placement, or otherwise would not normally be in contact with a social worker, a telephone report shall be made to CPS by the investigating officer before clearing the call. This telephone report shall include the following information:

PC §293 and Government Code §6254(f)(2) address the confidentiality of information regarding sexual assault victims. When utilizing Axon Records for report completion, officers shall mark the "Confidential" box under 'Case Factors' and the 'Name' tab for the victim(s), when requested.

347.11 MAINTENANCE AND DESTRUCTION OF SEXUAL ASSAULT KITS

Sexual Assault (SA) kits shall be stored and may be destroyed in accordance with the following:

- (a) Pursuant to PC §680(e)(2), SA kits for unsolved crimes must be kept at least 20 years (adult victim) or until a minor victim's 40th birthday.
- (b) SA kits involving convicted suspects should be maintained in evidence storage until such time as the suspect has completed their penal sentence and are no longer in custody;
 - 1) **Exception:** While in custody, when authorization to dispose of the SA kit is obtained by Department personnel through the process outlined in PC §§1405 and 1417.9, the SA kit may be disposed according to law.
- (c) In cases where there has not been a conviction, SA kits may be destroyed at the expiration of the Statute of Limitations (SOL) as set forth in PC §§801.1(a), 801.1(b), 803, and 804.

Prior to the destruction of any SA kit the SAU supervisor shall be notified. The SAU supervisor will make the final determination as to whether the kit will remain stored or destroyed.

348.1 POLICY

Compliance with court appearances and subpoenas is mandatory on all cases for which members have been properly subpoenaed, or properly notified.

348.1.1 PURPOSE AND SCOPE

This policy has been established to provide for the acceptance of subpoenas and to ensure that members appear when subpoenaed or are available to appear in court when requested and present a professional appearance.

348.2 COURT CASE STATUS / DISPOSITIONS

Court Standby – The status of being on-call for court and available by phone to respond as needed. The member must be able to appear at the proceeding within a maximum of one hour of being notified, and must be completely prepared to participate, including proper attire, reports, and evidence. [Any deviation from these conditions must be approved in advance by the Court Liaison Office (CLO).]

Members will be advised of their Court Standby status (on-call status) by checking the Court Standby Log in Power DMS, the day prior at 1700 hours. If a member does not appear on the Court Standby Log, they are considered released from being on Court Standby status (on-call status.) When a case “trails” to a different court day, the options shall remain the same with the exception of the appearance time or location, which may be adjusted by the requesting authority.

Trailing Cases - Cases often “trail” to the following day or for several days after the scheduled proceeding. Members are not released from their appearance notice simply because they did not appear on the date indicated. Members are under obligation to appear as explained in “Court Standby”. It shall be the member's responsibility to continue checking on the case until released.

Trailed Cases with Specific Dates - When a case has been “trailed” to a specific date, the member will be temporarily released from the case until the date in question, at which time the court appearance obligation will resume. No subpoena will be re-issued, and the member should change the date on their subpoena accordingly.

Mandatory Appearance – Unless otherwise noted, members shall appear on all traffic citation cases, parole revocation hearings, DMV hearings, ABC hearings, school expulsion hearings, and scheduled depositions as directed in their notices.

When a Department member is specifically ordered to appear in court at a particular date and time by a court official outside of the subpoena process, they shall do so in accordance with this Policy.

Cases with Dispositions - When a case has been disposed of (i.e., pled, dismissed, or continued), the member will be released from the case. New subpoenas will generally be issued for continued cases; if uncertain, CLO should be contacted for verification.

Members Going Off-duty - Members going off-duty with an unresolved appearance notice will be subject to being on-call for court until released from “Court Standby” status by CLO.

348.3 COORDINATION OF APPEARANCE AT LEGAL PROCEEDINGS

It shall be the responsibility of the CLO to coordinate the mandatory appearances of members at legal proceedings resulting from their employment with the City, regardless of whether or not members are to appear on or off-duty. These proceedings shall include criminal court appearances, traffic court

appearances, juvenile court hearings, parole revocation hearings, DMV hearings, Alcohol Beverage Control hearings, civil service hearings, depositions, and any legal proceeding (criminal, civil, or administrative) conducted as part of any judicial process.

Members contacted directly by legal counsel regarding a legal proceeding (to include deposition statements) shall contact CLO as soon as practical. Before answering questions or appearing at any legal proceeding, members shall ensure CLO has been notified of the contact. CLO personnel are responsible for ensuring the City Attorney's Office is aware of any such requested appearance by a member, when appropriate.

When a member receives a subpoena from a source other than CLO, they should contact CLO as soon as practical and before any court appearance. Members should provide CLO with details of the subpoena, to include any requests for the member to produce documents such as police reports, photographs, or body camera video. Members should also provide CLO a copy of the subpoena before any appearance dates.

Where lateral officers receive a subpoena requiring a court appearance on behalf of the member's prior agency for work related duties, the Department will adjust the member's work hours and/or days off, or at the Department's discretion, pay overtime so the member can attend to the court process on duty. The member will be responsible for their travel expenses.

348.4 COURT SUBPOENAS

Members are expected to cooperate with the prosecution to ensure the successful conclusion of a case. This applies to civil and criminal subpoenas.

348.5 COURT APPEARANCES

Members who respond to a proceeding without CLO approval will not be compensated. The CLO reserves the right to cancel or to continue the appearance dates and times as directed by the requesting authority, provided such cancellation or continuance is made before the member appears at the requested appearance location.

It shall be the member's responsibility to continue to check on their case for their appearance date and time until released. Members will not be released from an appearance obligation simply because they were not needed on the date indicated. The "Court Case Standby Log" will be updated by 1700 hours on the day prior to the court appearance. The "Court Case Disposition Log" will be posted to Power DMS by 1700 hours at the end of each court day.

348.6 DISTRIBUTION AND SERVICE OF SUBPOENAS AND OTHER NOTICES

Service of a subpoena requiring the appearance of any Department member in connection with a matter arising out of the member's course and scope of official duties shall be coordinated by the delivery of two copies of the subpoena to CLO [Government Code §68097.1 and Penal Code §1328(c)]. CLO is responsible for the initial receipt and proper distribution of all criminal subpoenas and other appearance notices, regardless of the type of proceeding.

348.6.1 HARDCOPY SUBPOENA DISTRIBUTION

The original notice and a copy will be forwarded to the member's immediate supervisor or briefing officer, who shall be responsible for serving the notice in a timely manner.

Upon being served, the member shall:

- (a) Sign and date the original notice immediately upon receipt;
 - (b) Indicate any date conflict(s) in the space provided, or on an attached memo;
 - (c) Provide an explanation if it is believed that the member's testimony is not needed;
 - (d) Return the notice to the supervisor or designee, who shall forward it to the CLO by the conclusion of the shift;
 - (e) Retain the member's copy in a suitable location to serve as a timely reminder of the obligation;
- and

- (f) Utilize one of the copies provided as a downtown-parking permit for the designated appearance. This permit will be valid only in the Underground Garage at Van Ness and Tulare Avenues. The permit must not be visible within the parked vehicle, but simply shown to the parking attendant if requested upon exit.

When the supervisor or briefing officer is unable to serve an appearance notice because the member is on vacation, extended days off, or other extended leave, the supervisor shall return the notice to the CLO as soon as possible with a brief explanation as to why the notice could not be served. The supervisor or briefing officer shall not file or otherwise retain an appearance notice while awaiting the return of a member who is absent for any reason other than regular days off.

348.6.2 ELECTRONIC SUBPOENA DISTRIBUTION

The original notice will be automatically forwarded to the member's department issued email address.

Upon being served, the member shall:

- (a) Click the link acknowledging receipt;
- (b) For any conflicts or if it is believed the member's testimony is not needed the member shall email CLO by clicking the link CLO.Conflicts@Fresno.Gov found within the original email. The member will need to indicate the date of the conflict(s) along with an explanation for the conflict(s) or as to why the member's testimony is not needed;
- (c) Retain a copy in a suitable location to serve as a timely reminder of the obligation; and
- (d) Print one copy to use as a downtown parking permit for the designated appearance. This permit will be valid only in the Underground Garage at Van Ness and Tulare Avenues. The permit must not be visible within the parked vehicle, but simply shown to the parking attendant if requested upon exit.

348.7 VALID SUBPOENAS

No subpoena shall be accepted for a member unless it has been properly served and verified to have originated from a recognized legal authority.

348.8 SUBPOENA'S AND APPEARANCE NOTICES BY MEANS OTHER THAN CLO

The CLO may refuse to accept a subpoena received less than five working days prior to the appearance date [[PC](#) §1328(e)]. When this occurs, the member may be served directly by a process server or by phone.

When a member is directed to appear by a subpoena or other document received through the mail, by process server, or by carrier other than the CLO, the member shall notify the CLO of the document by the end of the next business day. The member shall provide the CLO with all pertinent information, including the type of proceeding, the defendant's name, the date of the appearance, the location of the appearance, the charge, the attorneys involved, etc. Members are required to appear as requested when notified through these methods, the same as if they were served by the CLO.

Members may be requested to appear for judicial proceedings via telephone or in person by representatives of the DA's Office, the City Attorney's Office, or other authority. When this occurs, the person making the request shall be advised to contact the CLO immediately, who will in turn notify the member of their need to appear. Members who appear on such direct requests shall notify CLO if not advised.

When a member is directed by a judge, superior member, or any member of the CLO to appear for a proceeding, even though no appearance document was issued, the member shall respond as directed. When the directive is received from a source other than the CLO, the member shall notify the CLO of the directive and all pertinent information immediately upon receipt.

Members receiving notices of appearance may voluntarily place themselves on "Court Standby" status, subject to the conditions outlined above.

348.9 DAYS OFF AND PLANNED ABSENCES

Prior to the beginning of each work week or detail month, it shall be the responsibility of each commander to submit to the CLO a list of the regular days off of all members under their command, with the exception of Patrol, whose work schedules are available on the network.

It shall be the responsibility of members to forward copies of scheduled vacations, or planned absences of more than two consecutive work shifts, to the CLO at the earliest possible time to facilitate the proper distribution of notices received during the scheduled leave. Furthermore, each supervisor shall notify the CLO when any member under their supervision is terminated, retired, suspended, off injured, on temporary duty, or out-of-town training.

348.10 CONFLICTS

When a member believes that testimony is not needed, or that a date conflict exists with a requested appearance, the CLO will attempt to negotiate a change on the member's behalf. This information should be noted on the original notice, or an attached memo, when it is returned to the CLO as an acknowledgment of receipt.

Regardless of efforts made by the CLO, there may be times when the member will be required to appear in court, even when on vacation, in training, or during other scheduled absences. Regular days off or inconveniences (i.e., childcare, or in-town training obligations) do not constitute a conflict for the purpose of negotiating a change in appearance. Members are under obligation to appear for all proceedings, including those in which a conflict has been indicated, until they are released.

Members shall not contact any deputy DA, public defender, private attorney, clerk, staff member, bailiff, parole officer, judge, or any person associated with the judicial system in any way whatsoever to negotiate a change in their court appearance, to determine if or when the member is needed, or to be released from appearing. Nothing in this paragraph is intended to prevent contact with the requesting authority for the purpose of discussing the member's pending testimony so long as appearance times and conflicts are not discussed.

348.11 OFF-DUTY RELATED SUBPOENAS

Members receiving valid subpoenas for actions taken off-duty not related to their employment with the Department shall comply with the requirements of the subpoena. Members receiving these subpoenas are not compensated for their appearance and arrangements for time off shall be coordinated through their immediate supervisor.

348.12 FAILURE TO APPEAR

Any member who fails to appear (or who fails to appear at the designated time) for any legal proceeding conducted as part of any judicial process, after being served with a notice to appear (or after being ordered to appear by a superior member, deputy DA, city attorney, or member of the CLO) is subject to disciplinary action.

348.13 RELEASE BY MEANS OTHER THAN CLO

When a member is directly released from a hearing or judicial proceeding by a deputy DA, public defender, city attorney, or any attorney, clerk or staff member associated with a case, the member shall immediately notify the CLO of the release, advising (by name) who authorized the release and why.

348.14 ILLNESS, INJURIES OR EMERGENCIES

When a member is ill, injured, or encounters an emergency that prevents a requested appearance, the member shall notify the CLO at the earliest possible moment so that all involved parties can be notified of the member's inability to appear as requested. Mere absence from regularly scheduled work shall not constitute notification as required by this provision.

348.15 TRIAL BY DECLARATION

When a traffic court defendant requests a trial by declaration, the CLO shall forward a Declaration of Officer for Trial by Declaration Form to the reporting member. Upon receipt of the form, the member shall provide all pertinent information, including speedometer calibration, and return the form to the CLO during

the same shift in which it was received.

348.16 JURY SUMMONS FOR CIVILIAN MEMBERS

348.16.1 ON-DUTY MEMBERS

- (a) Upon receipt of a summons for jury duty, the summoned member shall expeditiously notify their immediate supervisor.
- (b) When possible, civilian members shall place themselves on-call for jury duty so that they may be assigned work which will benefit Departmental operations while still satisfying court mandated on-call response times.
- (c) The supervisor of a member assigned to the Patrol Division shall contact the Duty Office to arrange for a work assignment while the summoned member is on-call. Supervisors of members assigned to other divisions of the Department shall make arrangements within their respective divisions for summoned members to perform work during their on-call status.
- (d) When a member is required to appear by the Jury Commissioner but is subsequently released during the course of the workday, the member shall report back to their assigned duty station until needed again, until the end of the workday, or until they are completely released from the summons, whichever comes first.
- (e) Members shall receive their regular wages or salary during the time they are required to be absent from their assigned duties due to a jury summons but shall turn over to the Fiscal Affairs Bureau any fees, including mileage allowances, received for such attendance or service. An OTTO Request covering the missed work time shall be completed and submitted to the Fiscal Affairs Bureau with the Court Time Verification Card (issued by the Jury Commissioner's Office) attached.

348.16.2 SHIFT ADJUSTMENT

The Department will allow a summoned member assigned to a night shift to temporarily flex their work hours, at the request of the member, to a day shift workweek. The flexed hours shall cease when the member is released from the summons.

348.16.3 WORKDAY ADJUSTMENT

The Department will not approve a modification of a member's workdays during the time the member is obligated to respond to a jury summons.

348.17 COURTROOM PROTOCOL

Members must be punctual when appearing in court and shall be prepared to proceed immediately with the case for which they are subpoenaed.

348.18 COURTROOM ATTIRE

Uniformed members who are subpoenaed to testify in court during duty hours shall appear in court in uniform, except that caps and helmets shall not be worn or carried. On request of the prosecuting attorney, members may change into civilian clothes to testify, but shall return to uniform subsequent to the court appearance.

On duty, non-uniformed members shall wear conservative, professional clothing when testifying in court or during other related proceedings for which the appearance is coordinated by the CLO. Male members shall wear suits or sports coats and ties.

Off-duty members have the option of appearing in professional clothing as indicated above, or to appear in uniform. Should members testify they are to follow the uniform provisions of this order. Those appearing in uniform may be assigned duties as outlined above.

Undercover members are not required to change clothes for preliminary hearings, parole hearings and other non-trial proceedings.

348.19 PREPARATION FOR TESTIMONY

Before the date of testifying, the subpoenaed officer shall review all relevant reports and other evidence

(e.g., body worn camera video, reports, photos, etc.,) and become familiar with their content in order to be prepared for court.

Members testifying in any legal proceeding should only provide testimony on matters they have personal knowledge of or can prove. When members provide personal opinions, it can have unintended consequences that are often detrimental to the proceeding or future proceedings.

348.20 COURTROOM DECORUM

Members shall observe all rules of the court in which they are appearing and shall remain alert to changes in the assigned courtroom where their matter is to be heard.

348.21 COMPENSATION FOR COURT TIME

If the member appeared on their off-duty time, they will be compensated in accordance with the members Memorandum of Understanding (MOU).

348.22 COURT TIME DEFINED

Off-duty appearances resulting from the performance of duties as a member of this Department shall be compensated as court time under the following guidelines:

- (a) When the appearance is in response to a subpoena or other appearance notice, or at the direction of a court, superior member, prosecuting attorney, city attorney, defense attorney, or member of the CLO, to attend any court hearing, deposition, or other legal proceeding as a witness;
- (b) When the appearance is in response to a request by a prosecuting attorney, defense attorney, or court to confer on an investigation or a pending court proceeding. This shall include requests by a city attorney (or attorneys representing the City) in civil proceedings, and attorneys representing other governmental agencies in civil proceedings, but it shall not include requests by other attorneys involved in civil proceedings. (Attorneys involved in other civil proceedings should be instructed to meet with the desired member during that member's normal duty hours. No compensation will be paid for conferences of this type unless special arrangements have been made, and compensation has been authorized by the CLO supervisor.);
- (c) For off-duty telephone conversations between a member and any deputy DA, deputy public defender, private attorney, judge, court clerk, or any person associated with the judicial system, when the contact is initiated or requested by such person in the judicial system. Compensation for member-initiated off-duty contacts when not requested by any of the above parties will not be authorized without prior approval of the CLO supervisor; and
- (d) When the time spent is not the result of the member's former employment.

For the purpose of this order, time in attendance shall be defined as the difference in time, in 1/10th hours, from the time the member begins a proceeding or conference to the time the member's presence is no longer required.

348.23 LOCAL PROCEEDINGS

Notwithstanding the general provisions for overtime, as identified in FMC §2-1514, members shall be compensated for all judicial proceedings (criminal, civil, and administrative) consistent with their respective MOUs.

348.24 OUT OF TOWN PROCEEDINGS

The same provisions for local judicial appearances shall apply to out-of-town appearances with the exception of travel time. For the purpose of out-of-town proceedings, "actual time" shall mean the sum of travel time and time in attendance. When this sum exceeds the applicable minimum number of hours as established with the member's MOU, the greater time shall be compensated. Compensation shall be determined as follows:

- (a) When the appearance is scheduled on a regular workday, only the actual time spent in excess of the normal number of daily work hours shall be compensated;
- (b) When the appearance is scheduled during a regular day off, a vacation, or a day of compensatory time off, the amount of time allowed shall be the actual time spent in attendance plus travel, or the applicable minimum number of hours set forth by the MOU, whichever is greater; and
- (c) When the scheduled appearance requires an overnight stay, compensation time shall be

calculated on each day in accordance with the prior two guidelines.

When the appearance is made on a regular day off, a vacation, or a day of compensatory time off, a maximum of 8 hours compensation per day will be allowed for those days during which the member must remain out of town. However, if the "actual time" as defined in the first paragraph of this section exceeds 8 hours on any given day, the "actual time" shall be compensated for;

- (a) When a member is required to stay out of town through the weekend, the member's days off for the week shall be changed to Saturday and Sunday, if possible. The member will not be compensated for non-duty days while out of town. The Department is not responsible for returning members home for the weekend; and
- (b) Agencies requesting members to appear out of town for a court hearing or legal proceeding are generally responsible for travel arrangements, room, and meals for the member. Members shall not be compensated for using their private vehicle or other personal means of transportation unless prior arrangements have been made with the supervisor of the CLO. The CLO is responsible for coordinating all out-of-town court appearances.

348.25 REPORTING OF COURT TIME

All members required to make an appearance as defined in Section 348.22, Court Time Defined, shall submit an OTTO Request to their supervisor as soon as possible after the appearance. The OTTO Request shall contain the defendant's full name, the prosecuting DA's name, and the courtroom number in the "comments" section for verification purposes and must be accurately completed to avoid a delay in processing. Inaccurate OTTO Requests will be returned to the member for correction prior to being approved by the CLO.

348.26 REPORTING OF CIVIL APPEARANCE TIME

Appearances associated with civil proceedings generally do not qualify for reimbursement through the OTTO System. A separate "Civil Appearance" compensation form will be attached to the appearance notification at the time of service, and this form shall be completed and returned to the CLO for processing, regardless of whether the appearance was on-duty or off-duty. The City will be compensated if the appearance was on-duty; the member will be compensated if the appearance was off-duty.

348.27 REPORTING OF COURT STANDBY TIME

Members who qualify for "Court Standby" compensation pursuant to their MOU shall submit a completed OTTO Request to their supervisor immediately upon their return to work. The OTTO Request shall contain the defendant's full name, the prosecuting DA's name, and the courtroom number in the "comments" section, and must be reviewed by a supervisor responsible for verifying that the scheduled appearance was on a regular day off or scheduled workday for swing, lap and midnight shifts. Inaccurate OTTO Requests will be returned to the member for correction prior to being approved by the CLO for processing.

348.28 REIMBURSEMENTS FROM OTHER AGENCIES FOR TRAVEL EXPENSES

Any witness fee(s) paid to a member by any agency other than the City shall be turned over to the Fiscal Affairs Bureau. Any travel fees paid by any outside agency which were paid or advanced by the City shall also be turned over to the Fiscal Affairs Bureau. Witness and travel fees paid to members who are not compensated by the Department for their appearance are exempt from this requirement.

348.29 TESTIFYING AGAINST THE INTEREST OF THE PEOPLE OF THE STATE

Any member or employee who is subpoenaed to testify, who has agreed to testify, or who anticipates testifying or providing information on behalf of or at the request of any party other than the People of the State of California, any county, any city, or any of their officers and employees in which any of those entities are parties, will notify their immediate supervisor without delay. The supervisor will then notify the Chief of Police, District Attorney's Office in criminal cases, County Counsel or City Attorney, as may be indicated by the case.

This includes, but is not limited to the following situations:

- (a) Providing testimony or information for the defense in any criminal trial or proceeding;
- (b) Providing testimony or information for the plaintiff in a civil proceeding against any county, any city, or their officers and employees; or
- (c) Providing testimony or information on behalf of or at the request of any party other than any county, city, or any county or city official in any administrative proceeding, including but not limited to personnel and/or disciplinary matters.

351.2 PROGRAMS

Certain units within or associated with the Department are actively involved in the prevention and controlling of juvenile delinquency. Officers wishing to refer juveniles to the following programs shall contact the appropriate resource listed below:

- (a) **Police Activities League** – The primary function of the Police Activities League is to promote positive interaction between volunteers, law enforcement personnel, and youth through social, recreational, and educational activities to encourage good values, acceptable behavior, and responsible citizenship. Visit www.fresnopal.org for current programs endorsed by the Department.
- (b) **Student Resource Officer** – Student Resource Officers (SROs) are assigned to school campuses in the city, and they work toward improving the quality of life. SROs provide guidance on ethical issues; individual counseling and/or mentoring to students; and prevent criminal activity through high visibility patrol.
- (c) **Police Community Relations Officer** – The Police Community Relations Officer (PCRO) creates a healthy exchange of dialogue between the youth and law enforcement that will deepen trust, develop improved understanding, and foster a positive relationship. The PCRO also assists with referring at-risk youth between the ages of 10 to 18 to an appropriate service provider depending on their need.
- (d) **PIVOT (Providing Individuals Valuable Opportunities Today)** – PIVOT is a 10-week program for 5th and 6th grade students in Fresno Unified and Central Unified School Districts that is facilitated by SROs. Fresno Police Department Policy Manual

Outside Agency Assistance

352.1 POLICY

It is the policy of this Department to provide assistance whenever possible, consistent with the applicable laws of arrest and detention policies of this Department, when another law enforcement agency requests assistance with an arrest or detention of any person. This Department may also request an outside agency to provide assistance.

352.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance to officers in the request of or answering the request for assistance involving another law enforcement agency.

352.2 COOPERATION WITH OTHER AGENCIES

In order to serve the public, the criminal justice system relies upon the cooperation of the police with other law enforcement agencies, prosecutors, courts and correctional officers to ensure the development of a safer community. Where possible, members shall fully cooperate with outside criminal justice entities to allow for the greatest level of safety for the community and to strive towards successful prosecution of persons involved in criminal activity.

To facilitate this cooperation, the Department will establish a close working relationship with professional organizations directly involved with the planning of the judicial system's response to crime in the community. Programs such as the Prostitution Abatement Program, LifeSkills program, Crisis intervention Training, and involvement in CARE Fresno are examples of public and private collaborations with the Department that address social issues as they relate to law enforcement responses and needs within the community.

352.3 REGIONAL FIRST RESPONDER – INSTANT AID (FPD AND FCSD)

When the Fresno Police Department (FPD) receives a life threatening CFS, and there are no FPD personnel available, ComCen will request the aide of the Fresno County Sheriff's Department (FCSD). FCSD will be dispatched to the scene and will be responsible for stabilizing the call, and standing by for FPD personnel who will take over primary investigative responsibility, if needed. This same rule will apply for FPD, if FCSD has no units available to respond to a life threatening CFS and the call is within a county pocket, within the Fresno Metropolitan Sphere of influence. This is per an MOU dated 4/3/02 between the Chief of Police and Sheriff of Fresno County.

The overall aim for both the FPD and FCSD is to ensure a timely law enforcement response to life threatening calls, regardless of jurisdictional boundaries.

352.4 ASSISTING OUTSIDE AGENCIES

Field members will respond to requests for assistance from other law enforcement agencies consistent with the priority and volume of Department calls for service holding at the time. Requests requiring multiple unit responses, for other than temporary backup, require supervisory response and notification of the appropriate commander. All other members shall assist outside agencies consistent with their own workloads.

352.5 MULTIPLE CRIMINAL ACTS IN MULTIPLE JURISDICTIONS

Multiple criminal acts involving major crimes occurring in more than one jurisdiction shall be handled as follows:

- (a) The jurisdiction in which the most serious crime occurs (using the Part I crime classification) will be the primary investigative agency and will investigate all other related offenses;

- (b) In the absence of knowledge of the location of other offenses, the jurisdiction where the last known offense occurred will assume investigative responsibility;
- (c) When jurisdiction is not clearly defined, area or field commanders or supervisors from the affected agencies shall meet, evaluate the total circumstances, then determine the agency that would appear to have primary responsibility under the above guidelines; or
- (d) When an agency begins an investigation but later discovers the investigative responsibility is with another agency, an administrative decision shall be made by the bureau commander of the applicable follow-up unit whether to continue the initial investigation or to transfer the investigation to the agency with original jurisdiction. When responsibility is transferred, all information and evidence shall also be transferred. All reasonable assistance to accommodate the transfer of the investigation shall be provided.

Obtain the LPO's identifying information, name and location of the business;

- (a) Obtain the facts associated with the detention;
- (b) Obtain the detained suspect's identifying information; name, date of birth and address, tattoos, scars, marks, etc.; The LPO shall have all identifying information at the time of calling ComCen. If the LPO does not have all the suspects identifying information they are to be told to call back when they have everything ComCen requires.
- (c) Conduct a warrant check; if suspect does not have identification, attempt to identify the suspect the same as a patrol officer, i.e. RMS, tattoos, DMV CDL/ID information etc., with the information provided by LPO. If the information matches i.e. tattoos, etc., suspect would be eligible for release.
- (d) Advise the LPO if the suspect is eligible for release, if so, provide the LPO with Event Number and the 90 misdemeanor cite date to be placed on LPO release waiver form; clear the call with disposition code 4F10 (to designate this was a shoplift with no officer response, or

Fresno Police Department Policy Manual

Custody of Adults

355.1 POLICY

Officers and Cadets shall exercise sufficient control over arrestees in their custody so as to minimize the potential for escape, injury, property damage, and/or evidence destruction.

355.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide general guidelines for dealing with adults that have been placed in custody.

355.2 CRITERIA FOR PROCESSING

Adults arrested on criminal charges who are going to be booked into the Fresno County Jail (FCJ) shall be processed through the Crime Scene Investigation Bureau (CSIB) prior to booking, with the following exceptions:

- (a) Persons arrested only for public intoxication; and
- (b) Persons who are too belligerent, combative, drunk, or persons who, while at the CSIB, become so belligerent or combative they pose a danger to processing personnel (supervisor's approval is required); and
- (c) Persons arrested on warrants other than FPD original arrest warrants (i.e., pink or blue warrants);

Note: Routine medical screening shall be performed at FCJ during the intake process. Members who suspect an arrestee is developmentally disabled shall notify the FCJ intake nurse who will properly evaluate the arrestee.

355.3 ARRESTEE PHONE CALLS

Penal Code §851.5 requires arrestees be given the opportunity to make three phone calls within three hours of their arrest. While officers are not affirmatively required to advise adult arrestees of their right to these phone calls, the law requires a sign advising arrestees of these rights be displayed at any Department location where an arrestee is detained. If adult arrestees are being detained in a location where there is no sign advising of such rights (e.g. hospital or in the field), officers should advise arrestees of their right to the phone calls and document the time of their advisement. Officers should provide an opportunity for the individual to make the phone calls as required by law.

When an arrestee requests to use the phone, they should be allowed to do so immediately, or as soon as practical, in accordance with the provisions of PC §851.5. If there are exigent circumstances that prevent an arrestee from accessing a telephone in accordance with the statute, a supervisor should be notified and the circumstances documented in the officer's report.

There is no obligation for an officer to make a call on the arrestee's behalf (e.g. when the person is so intoxicated that he or she cannot make a call). An officer is not required to wake an intoxicated or sleeping person so that they may use the phone. Under no circumstances are officers required to allow the usage of their own personal cell phones.

There is no limitation on the amount of time an arrestee's phone call may last. An arrestee should be given sufficient time on the phone to contact whomever they desire and to make necessary arrangements related to their arrest. The phone calls are not intended to be lengthy conversations and the officer may use their judgment in determining the duration of the calls.

The Department will pay the cost of local calls. Long distance calls must be paid for by the arrestee using a calling card or by calling collect. Calls between the arrestee and their attorney shall be deemed confidential and shall not be monitored, eavesdropped upon or recorded. Instructions for operating the prisoner phone system are posted in CSIB.

355.3.1 CUSTODIAL PARENTS

Officers must ask arrested persons if they are a custodial parent with responsibility for a minor child as soon as practicable, but no later than three hours after the arrest, except where this may be physically impossible. If the person is a custodial parent with responsibility for a minor child, the person shall be entitled to make two additional telephone calls for the purpose of arranging care for the minor child. Officers shall document in their reports the time the inquiry was made.

The rights provided by PC §851.5 shall be provided regardless of the arrestee's immigration status. Any officer who willfully deprives an arrested person of the rights granted by PC §851.5 may be guilty of a misdemeanor. Refer to Policy §900 for specific requirements involving juvenile arrestees.

355.4 APPROVAL OF MISDEMEANOR BOOKINGS

All misdemeanor bookings into the FCJ shall be approved by a supervisor prior to removal of the arrestee from the scene of arrest.

355.5 FEE EXEMPT BOOKING

A booking is deemed "Fee Exempt" when an adult suspect is booked for any of the following:

- (a) Felony or misdemeanor bench warrants issued for failure to appear in court;
- (b) Any arrest warrant issued for a crime committed outside the Department's jurisdiction;
- (c) Violations of parole or probation except where there is a separate charge for a crime occurring in the jurisdiction of the Department;
- (d) Charges resulting from a mutual aid response to another agency;
- (e) Escape from a local, state, or federal custodial facility;
- (f) On charges resulting from riots, disturbances, or events for which the Governor has declared a state of emergency; or
- (g) By an officer who is assigned to a formal multi-agency task force in which the county is a participant and the charges result from activities of that task force.

When a fee exempt booking into the FCJ is made, one of the above categories must be specified in the AR of the incident and officers shall write the words "FEE EXEMPT" in the top margin of the AR.

355.6 SICK OR INJURED ARRESTEES

Officers arresting and/or transporting, or detaining in the temporary holding cell, arrestees who require medical attention shall arrange for transport via EMS to Community Regional Medical Center (CRMC) for treatment. The officer shall standby the arrestee until treatment is complete.

The Emergency Room staff should tag in custody patients for "priority treatment" which should be rendered by both medical and nursing personnel within one hour's time. When this procedure is not adhered to the officer should contact their supervisor.

When the treatment time will be extensive (i.e., several hours) or when it is determined that an injured misdemeanor arrestee is to be admitted to the hospital for treatment, the Adult Misdemeanor Citation process shall be used in lieu of booking. Refer to Policy §420.

When the arrestee is incapacitated to the extent they are unable to sign a citation, the officer will complete a "dummy" Adult Misdemeanor Citation with all information except the date/time of appearance. This applies to all misdemeanor violations. The officer will forward the "dummy" citation (all copies) to the Bureau having responsibility for follow-up on the case (based upon the Uniform Crime Reporting hierarchy). These "dummy" citations will not be submitted to Records. The member receiving the "dummy" citation shall prepare and submit a complaint package and warrant request to the PLO.

Officers following this procedure will note in their report that a "dummy" citation was issued and to which Bureau it was sent. When the original report has already been completed, the issuing officer shall complete a FR with the "dummy" citation information.

355.6.1 COMMUNICABLE DISEASE PREVENTION

Officers arresting and/or transporting, or detaining in the temporary holding cell, arrestees that are known or suspected of having a communicable disease, shall take appropriate preventative measures as outlined in Policy §1016 and annual Advance Officer Training. Janitorial services shall be notified to treat any holding cells that have been contaminated with bodily fluids from detained/arrested individuals.

355.6.2 ARRESTEE REFUSES TREATMENT

An arrestee who is being booked into FCJ is not allowed to AMA (Against Medical Advice) from treatment in the field. When an arrestee refuses medical treatment at the hospital, the officer/cadet shall obtain a completed AMA form from the attending physician. The form acknowledges that the arrestee has had the opportunity for medical care and elected not to receive it. The arrestee shall then be processed and booked consistent with existing procedures.

An arrestee who is being cited and released in the field, may choose to AMA from EMS, unless otherwise required by Department policy or procedure (refer to Policy §300 – Use of Force).

355.7 DETOXIFICATION SERVICES

Detoxification services are not provided by the Fresno Police Department. Suspects who are severely intoxicated and do not meet the minimum intake requirements for detoxification at FCJ shall be transported via EMS to CRMC.

355.8 VERMIN CONTROL

Vermin control is provided by the Fresno County Sheriff's Department (FSD) during the booking process/procedure at FCJ. Members who suspect vermin infestation of an arrestee should bypass the Prisoner Processing Section and transport the arrestee to FCJ. If processing is required, CSB should be notified to arrange for prisoner processing after the arrestee has been treated for the vermin infestation. Janitorial services shall be notified to treat any holding cells that have been used to detain individuals suspected to have vermin.

355.9 GUARDING HOSPITALIZED FELONS

As of January 1, 2008, the Fresno Sheriff's Department will no longer provide guard services for prisoners who are admitted to the hospital. The responsibility will now shift to the Fresno Police Department to guard its own hospitalized prisoners. The following steps shall be taken when handling hospitalized prisoners:

- (a) Officers with a felony prisoner requiring hospitalization will advise their supervisor. The supervisor will respond to assess the factors surrounding the prisoner.
- (b) If the stay is expected to be extensive or the prisoner is going to be admitted to the hospital, the supervisor will contact the PIO Field Commander.
- (c) The PIO Field Commander will notify the Duty Office who will initiate prisoner watch duty assignments.
- (d) The Duty Office will first attempt to fill this request with a Cadet II; either on regular duty or on overtime. If a Cadet II is not available, an officer will be ordered-back to guard the prisoner. The Duty Office will coordinate the guard watch relief and document this on the Daily Detail Sheet.
- (e) The PIO Field Commander will monitor the prisoner watch process and can cancel any officer or cadet as outlined in PC §§4011.7 and 4011.9 after consulting with the Legal Advisor and Patrol Division Commander.
- (f) After 24 hours, if the felony prisoner is still hospitalized, the PIO Field Commander will consult with the Patrol Division Commander and Legal Advisor to examine alternatives to guarding the prisoner, such as seeking a warrant/summons and releasing the suspect, petitioning the Court for an arraignment, or continuing with the guard duties.
- (g) The seriousness of the offense, prisoner's medical condition, risk of escape, criminal history, risk to the community, risk to the prisoner to include threats or retaliation, and anticipated length of stay at the hospital will be considered in determining the course of action.
- (h) The Duty Office will maintain an updated log for hospitalized prisoners.

- (i) If a prisoner medical status changes, the Duty Office will be notified and the Duty Office will make necessary changes to the prisoner hospital log which will be maintained in the Duty Office.
- (j) The arresting officer or investigator shall submit the completed ePCD and AR following the arrest but not later than the end of their shift so it may be retrieved when the prisoner is released from the hospital.
- (k) Upon release from the hospital, the Duty Office will contact the CLO Office that the prisoner has been booked on Fresno Police Department open charges.
- (l) The Bureau Commander overseeing the Prosecution Liaison Office will oversee the arraignment process, should the prisoner remain in the hospital past the time to file charges. The Bureau Commander may consult with the Legal Advisor and Patrol Division Commander.
- (m) Once the arraignment has concluded, the PLO Bureau Commander will notify the PIO Field Commander who will make arrangements for the Sheriff's Department to take over guard duties.

355.10 ARRESTEE PROPERTY

Personal property belonging to an arrestee that is not booked as evidence should be taken from the arrestee by an officer at the time of arrest and prior to transportation.

- (a) This property shall be put in a prisoner property envelope.
- (b) The information spaces on the envelopes shall be thoroughly completed, including the arrestee's signature.
- (c) When an arrestee refuses to sign the envelope, the officer shall write "Refused to Sign" on the inmate signature line.
- (d) An arrestee's money shall be deposited in the Intake Kiosk:
 - 1) During the booking process, the FCJ booking officer will provide the Arresting/Transporting Officer with the arrestee's Booking Number;
- (e) This number will be used to deposit the arrestee's money into the Intake Kiosk;
 - 1) The Intake Kiosk will dispense two (2) receipts when complete: One is to be initialed by the Arresting/Transporting Officer and then given to the FCJ booking officer along with the property. The second receipt shall be given to the arrestee.
 - 2) When the arrestee has no money then a money envelope shall be properly filled out indicating the zero balance. The money envelope along with the arrestee's property shall be given to the FCJ booking officer.

Any property belonging to an arrestee that is not accepted by the FCJ booking officer shall be booked into the PECS consistent with the guidelines of Policy §804.

- (a) Officers booking property from an arrestee into the PECS shall give a copy of the Property for Safe Keeping Receipt to the arrestee before they are booked.

When the arrestee's property is a living animal (i.e. dog) officers have the option of contacting animal control as outlined in Policy 337.11 to impound the animal OR, with the approval of the arrestee, they can release the animal at the scene to a friend or family member. When releasing an animal in the field, officers should record the arrestee's authorization via BWC to avoid any confusion as to the arrestee's wishes.

355.11 MIRANDA WARNINGS

While on duty, and when testifying in court, officers shall have in their possession the Department issued Miranda Warning card.

355.11.1 WARNING AND WAIVER REQUIRED

The "Warning" and "Waiver" are generally required prior to any questioning in which the arrested person in custody may incriminate themselves about the offense for which the person is in custody or before questioning about any offense in which prosecution may be pending against the person being questioned.

When advising arrested persons of their rights, officers should read the Miranda Warning verbatim and then should read, verbatim, the questions regarding the "Waiver of Rights."

- (a) When the Miranda Warning and Waiver are given, officers shall note such fact in their report of the incident.
- (b) Any waiver given by a suspect shall also be included in the report using the suspect's exact words and/or gestures.

355.11.2 WARNING NOT REQUIRED

The following list of examples where Miranda warnings are not required is not intended to be all inclusive:

- (a) The warnings are not required if the officer does not ask any question which is likely to produce an incriminating statement about the crime for which the person was arrested;
- (b) The warnings are not required in order to obtain information needed to complete arrest tags or the booking process; and
- (c) A person who, without any questioning by an officer, voluntarily makes an admission, statement, or confession shall not be interrupted to advise them of their rights. When an officer intends to ask any "clarifying" question following such an admission, statement or confession, they must then give the warnings and obtain a waiver before asking follow-up questions.

355.12 SERVING ADULT WARRANTS

355.12.1 Fresno County Warrants (FSD)

Officers making arrests on adult warrants held by the FSD shall transport the arrestee to the PPS for processing and should obtain the warrant abstract once they arrive at the FCJ.

355.12.2 OUT-OF-TOWN WARRANTS

Person's detained pending arrest for an out-of-town warrant must be taken to the PPS. The arresting officer will:

- (a) Contact the agency holding the warrant (usually by phone) to confirm the warrant and have them send a teletype abstract of the warrant to the Department;
- (b) The agency, if within California, will be given the mnemonics "FRF0" to be used in addressing the abstract;
- (c) Agencies outside of California will be given the ORI of CA0100500. Agencies outside of California may also need to be advised of the requirements of PC §850(b) to ensure that a legally complete abstract will be returned; and
- (d) Normally, an arrestee cannot be booked until the abstract is received. In those cases where contact has been made with the originating agency and it has been determined that an abstract will not be sent for several hours, officers will:
 - 1) Contact the FCJ booking section and advise them of the pending arrival of the abstract;
 - 2) Complete the AR with as much detail as can be obtained from the Wanted Persons Entry, phone conversations, etc.;
 - 3) Attach copies of the teletype "hit" to the AR;
 - 4) Book the subject at the FCJ;
 - 5) Be dispatched to retrieve the abstract when received by the Department;
 - 6) The officer shall take the abstract to the FCJ to be attached to the prisoner's paperwork; and
 - 7) When abstracts are received prior to booking, they shall be inspected for completeness [PC § 850(b)] and shall be signed, dated and attached to the AR.

The PCD shall contain facts sufficient to document probable cause for each and every felony charge and for each count where a suspect is booked on multiple counts of the same charge

355.13 RESPONSIBILITY FOR ARRESTEE

An officer's responsibility for an arrestee ends when the arrestee is booked.

355.14 NOTICE OF ADDITIONAL CHARGES

When additional charges are to be added after an arrestee is booked, officers shall complete the appropriate number of AR's consistent with the charges and case numbers involved.

- (a) The words "Add-On Charges" shall be written at the top of the AR.

When the additional charge is a felony, the AR shall be routed to the CSB supervisors. Mug and Print shall be written next to "Add-On Charges" to alert CSB personnel of the need for processing the prisoner on the new charge.

The officer shall also complete the FSD "Notice of Additional Charges" form.

- (a) Both the AR and Notice of Additional Charges shall be given to the FCJ intake officer.
- (b) Officers delivering the AR to the FCJ shall request that it be forwarded to the mug room for processing in felony cases.

355.15 P.C. 1203.2(a) ARRESTS

When booking a suspect on the charge of PC §1203.2(a), members shall enter the Superior Court Case number (e.g. F10123456) in the 'Warr #' box of the charge screen for the PC §1203.2(a) violation. This number can be found on the Probation Department's SHARENET website within the suspect's record.

355.16 PUBLIC INTOXICATION P.C. 647(f)

Members who detain individuals in violation of PC §647(f) (Public Intoxication) must meet the following criteria to be offered a voluntary alternative of transportation to the Rescue Mission / Poverello House as an alternative to booking at FCJ. Individuals qualify when:

- (a) They are non-combative;
- (b) They are ambulatory;
- (c) They have no known, existing medical conditions requiring immediate medical attention;
- (d) No controlled substance influence symptoms are present;
- (e) No known, violent mental disorders are present; and
- (f) They are not in possession of large amounts of personal property.

Individuals exercising this voluntary option can be dropped off at the Mission (males) or the Poverello House (females) on a 24-hour, 7-day a week basis.

- (a) Officers shall update their events, if no case is prepared, with the time of drop-off and an indication of the detainees desire to choose this voluntary option.
- (b) Similar information will be included in any case prepared in association with the detention.

355.17 DETENTION RELEASES PC 849 (B)

Officers may release from custody any person arrested without a warrant when:

- (a) They are satisfied that there are insufficient grounds for making a criminal complaint against the person arrested;
- (b) The person arrested was arrested for intoxication only, and no further proceedings are desirable;
- (c) The person was arrested only for being under the influence of a controlled substance or drug and the person is delivered to a facility or hospital for treatment and no further proceedings are desirable;
- (d) The person was arrested for driving under the influence of alcohol or drugs and the person is delivered to a hospital for medical treatment that prohibits immediate delivery before a magistrate.

If a person is detained, then subsequently released after completion of that investigatory detention, officers are not required to complete a Certificate of Release Form, or a report for documentation. When a person is arrested and transported, but later released from criminal charges prior to booking or formal criminal filing, then that person will be released pursuant to PC §849(b) and Certificate of Release Form shall be completed.

When the incident does not otherwise require a report or when a citizen's arrest is not accepted by the officer due to a lack of probable cause, the arresting officer shall complete a Synoptical report and make a notation "Synoptical" next to the report number on the Certificate of Release Form.

356.1 POLICY

Members authorized and responsible will facilitate public access to information allowed by legislation on serious and high-risk sex offenders commonly referred to as "Megan's Law".

356.1.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a procedure for the dissemination of information regarding certain registered sex offenders under California's Megan's Law. (Penal Code §§290 and 290.4).

Officers shall obtain approval from a supervisor prior to the public release of any information regarding a registered sex offender. Under exigent circumstances, an officer may release the information without prior supervisory approval, however, a supervisor shall be notified of the information release as soon thereafter as is practical.

Included with all public disclosures of information about any registered sex offender will be a statement that the purpose of the release is to allow members of the public to protect themselves and their children from sex offenders (PC §290.45(a)(2)).

356.2.1 LIMITATIONS ON EXTENDED RELEASE

Individuals and entities receiving information regarding registered sex offenders may only be authorized to disclose such information to additional persons if the Department determines the appropriate scope and that such disclosure will enhance the public safety.

The Department may not authorize any disclosure of such information by its placement on a non-departmental Internet Web site (PC §290.45(c)(1)).

356.3 RELEASE OF INFORMATION VIA THE INTERNET

356.3.3 RECORD OF DISCLOSURE

The release of such information shall be noted by entering the notification into the comment field on the offender's Supervised Release File record.

356.3.4 LIMITED RELEASE WITHIN COLLEGE CAMPUS COMMUNITY

356.4 PUBLIC INQUIRIES

As a general rule information may not be given over the telephone. Members of the public may access detailed sexual offender information by way of their personal computer through the Internet at the Megan's Law Web site maintained by the Department of Justice (www.meganslaw.ca.gov). They may also submit a list of at least six persons directly to the Department of Justice on a designated form to inquire whether any of those persons are required to register as a sex offender and are subject to public notification (Department of Justice fees may apply) (PC §290.4(a)).

357.1 POLICY

When responding to calls involving civil matters, an officer's duty extends only to preserving the peace and taking enforcement action, as appropriate, for any criminal violations observed by the officer.

357.1.1 PURPOSE AND SCOPE

Civil problems, although not usually criminal in nature, can involve varying emotional responses for the parties involved as they seek police assistance in trying to resolve their disagreements. The purpose of this policy is to provide general guidance for the officer's response to these incidents.

357.2 CIVIL PROBLEMS

Officers may be dispatched to assist citizens with civil problems including but not limited to:

- (a) Child custody / visitation exchanges;
- (b) Repossessions;
- (c) Court order enforcement;
- (d) Removal of tenants / trespassers; and
- (e) Civil standbys to preserve the peace.

357.3 CHILD CUSTODY EXCHANGES / OFFICER ASSISTANCE

Requests for police response to perform a civil standby during a child custody/visitation exchange will be limited to the following guidelines:

- (a) The officer's response is to preserve the peace;
- (b) When the involved parties have a custody order issued in California, only the most recent order may be enforced;
- (c) Each involved party will be provided with a referral list of Supervised Child Visitation and Supervised Exchange Agencies.

Any future custody or visitation exchanges should be conducted at a supervising exchange agency unless modified by court order or the parties mutually agree in writing to other provisions.

357.3.1 CHILD CUSTODY COMPLAINTS

Citizens requesting to report a child custody order violation should be directed to the City of Fresno's Police Online Reporting System to file an online report.

357.4 CHILD CUSTODY / VISITATION EXCHANGES

357.4.1 COMCEN RESPONSIBILITIES

Only the Court can change custody orders. This Department only enforces the Court Orders. Refer your RP to the Court of Jurisdiction if they wish to have any Court Orders Changed.

ComCen shall also keep a current default list of approved exchange agencies that are predetermined each month.

Officers will not be dispatched to standby for a child custody exchange; unless it is believed there may be a potential custody order violation, child concealment, or other criminal act or domestic disturbance. Parties requesting a civil standby will be referred to the nearest Policing District Exchange Zone to facilitate child exchange in a neutral monitored environment.

357.4.2 OFFICER RESPONSIBILITIES

When an officer is dispatched to perform a civil standby during a child custody/visitation exchange, the following guidelines will be followed:

- (a) Officer response is limited to preserving the peace;
- (b) When the involved parties have a custody order issued in California, only the most recent order may be enforced. When the involved parties do not have an existing custody order, each call for service shall be handled as a civil dispute;
- (c) Each party shall be provided with a referral list of Supervised Child Visitation and Supervised Exchange Agencies; and
- (d) When the child is 13 or older and refuses to go with the other parent even after speaking with law enforcement, do not use any force to enforce the custody order.
 - 1) Document the statements of the child and parents in a General Incident report; and
 - 2) Refer the parent requesting enforcement to return to family court to resolve the issue.

357.5 CHILD CUSTODY COMPLAINTS

357.5.1 COMCEN RESPONSIBILITY

Upon receipt of a complaint regarding a child custody violation, the ESD shall determine whether the event is in progress or a prior occurrence. When the event is in progress, a CFS shall be generated. When the event is a prior occurrence, the Reporting Party (R/P) shall be advised to complete an eReport for the Custody Order Violation via the Internet. No telephonic reports shall be taken involving child custody violations.

357.5.2 SELF-REPORTING PROCEDURES

Reports shall be filed via the Internet. The reports will automatically be issued a temporary case number. After the submitted report is reviewed and approved, a permanent number will be issued and automatically emailed to the reporting party.

357.5.3 DUTY OFFICE REVIEW OF SELF-REPORTED CUSTODY ORDER VIOLATIONS

The duty officer or other designee shall review the on-line Custody Order Violation reports completed by the public on a daily basis. If the reviewing officer discovers any indication that violence may be imminent, a CFS shall be generated, and officers shall respond.

357.6 REPOSSESSIONS

An officer's duty extends only to preserving the peace. Officers are not to attempt to resolve the issue of ownership or right of possession of the property in question.

Officers shall determine who is in possession of the questioned property at the time of their arrival. When the debtor is still in possession, they may voluntarily relinquish possession, but they are not required to do so. The creditor (or an agent) has no right to use force to take the property from the debtor.

When the creditor has taken possession, but has been unable to leave the premises, the debtor is still held to be in possession and does not have to relinquish the item(s).

When the repossession has been completed (the creditor has left with the property), the creditor is then held to be in legal possession and the debtor is considered to have lost possession.

Exception: When the subject of the repossession is a vehicle, a repossession occurs (the repossession is complete) when the reposessor gains entry to the vehicle or when the vehicle becomes connected (in any way) to a tow truck.

In any event, all involved parties shall be referred to contact their attorneys to resolve the issue through due process.

Under limited circumstances, an arrest may be made for disturbing the peace, trespassing, etc., however, voluntary compliance should be sought in order to minimize the need for arrest.

357.7 COURT ORDER ENFORCEMENT

The different types of orders described in this section are generally identified by titles contained in the bottom margin of the court order form or the title on the CLETS hit.

The Confidential box shall be checked in Axon Records when documenting violations/possible violations of court orders in all DV investigations and the RP or victim's address and/or telephone number are unknown to the suspect.

357.7.1 ORDERS TO SHOW CAUSE

Orders to Show Cause order a court appearance only and do not contain enforceable provisions. However, Orders to Show Cause may contain Temporary Restraining Orders (TRO).

357.7.2 TEMPORARY RESTRAINING ORDERS (TRO)

A TRO is a court order, issued prior to a formal hearing, which contains enforceable provisions which may include child custody and visitation directives, stay away and protection provisions, etc. TRO's are valid until the date of hearing or as otherwise listed in the order.

TROs are enforceable anywhere in California by any law enforcement agency that has received the order, is shown a copy of it, or has verified its existence through the Restraining Order System (ROS) of CLETS (Family Code §6224). Officers shall enforce these orders whenever they can establish:

- (a) The order is valid. Validity is established by the signature or stamp of the issuing judge on the order and ensuring that the alleged violation is within the effective dates of the order;
- (b) Reasonable cause to believe that the restrained party violated a provision of the order in the officer's presence, or a victim is willing to make a citizen's arrest for a violation not committed in the officer's presence; and (Penal Code §836(c)(1) allows a misdemeanor arrest for violation of a DV RO not committed in the officer's presence)
- (c) Proof of service upon the restrained party or other proof of knowledge (e.g., their presence at the hearing where the order was issued, admission of knowledge, etc.)

When the restrained party has not been served, service shall be completed.

Prior to enforcement, members shall review the order to confirm that the above conditions have been met. Care shall be exercised to ensure that the most recent version of an order is reviewed. This may be accomplished by contacting FPD and/or FSD Records for verification of dates on orders issued in Fresno County. For orders issued outside of Fresno County, the law enforcement agency of jurisdiction as indicated in the ROS entry should be contacted. It is not necessary that an order be in ROS or filed with a law enforcement agency before it can be enforced. It is only necessary to establish the above elements before enforcement shall be undertaken. If there are contradictory orders from two different courts, both of which appear to be valid, the Police Legal Advisor should be contacted.

TRO's may be reissued as a "Temporary Restraining Order Reissued" which is to be handled the same as an initial TRO.

Protected parties who do not have their court orders on file with the appropriate law enforcement agency should be directed to take copies to those agencies at their earliest convenience. When a copy of a valid order is received by the Records Bureau it shall be entered into ROS.

357.7.3 RESTRAINING ORDER AFTER HEARING

A Restraining Order after Hearing is issued after a judicial hearing and is valid for the period indicated on the face of the order. These orders establish specific conditions of restraint and may be used in conjunction with "Findings and Order after Hearing" orders.

Enforcement is handled in the same manner as TRO's.

357.7.4 FINDINGS AND ORDER AFTER HEARING

This order establishes terms and conditions of custody and visitation, child support, spousal or family support, property, and other similar issues and are valid as specified or until modified.

357.8 ENFORCEMENT OF RESTRAINING ORDERS AND EPO'S

When an officer is made aware that a restraining order/EPO exists, but cannot verify proof of service or prior knowledge of the order by the restrained party, the officer shall, when the restrained party is present:

- (a) Inform the restrained party of the terms of the order;
- (b) Admonish the restrained party that they are now on notice and that violation of the order will result in arrest;
- (c) Prepare a "Restraining/Emergency Protective Order Proof of Service Form". The FPD case number shall be inserted in the upper right-hand corner of the form when applicable. When the proof of service is being served on an order in possession of the Sheriff's Department and there is no related FPD case number, the words "FSD Only" shall be inserted in the upper right-hand corner. All blanks on the form shall be filled in with the exception of the "For Court Use Only" Box. The box labeled "Case Number" shall be used only for the court case number as listed on the restraining order. The space provided for the "Department Case Number" shall list the event number assigned to the call. The event synopsis shall include the Court Case Number. No report other than the Restraining/Emergency Protective Order Proof of Service Form is required when the only action being taken is service of a court order/EPO; and
- (d) Distribute copies of the service form as follows:
 - 1) The white original page shall be forwarded to Records;
 - 2) One copy shall be provided to the protected party, when present;
 - 3) One copy shall be provided to the restrained party; and
 - 4) The fourth and any undelivered protected party copies shall also be forwarded to Records.

When the restrained party continues to violate the order after being advised of the terms, an arrest shall be made.

357.8.1 SERVICE OF RESTRAINING ORDERS

Officers shall not be dispatched to serve restraining/protective/civil orders (with the exception of EPOs).

Additionally, officers should not be dispatched to perform a civil standby while the RP or their agent performs this task, unless the RP can articulate that a credible danger exists requiring officer response.

357.8.2 SERVICE OF GUN VIOLENCE RESTRAINING ORDERS

The designated Detective Unit will be responsible for serving any temporary or permanent GVROs issued after a hearing by the courts while adhering to Policy § 375.7.

357.9 ORDERS ISSUED OUTSIDE CALIFORNIA

Members who receive requests to enforce a TRO or court order issued in another state relative to child custody or child visitation MUST contact the Police Legal Advisor prior to taking or not taking any action based upon an out-of-state order.

357.10 REMOVAL OF TENANTS / TRESPASSERS

When a tenant refuses to vacate premises after being evicted the investigating member shall determine if an Eviction Restoration Notice has been properly executed. Completed forms should list the plaintiff, defendant, court, action taken, Sheriff's file number, county, signature of a sheriff's deputy, and the date. When the member verifies that the notice is complete and accurate, they are authorized to arrest the violator(s) under PC §419.

357.10.1 REMOVAL OF GUESTS FROM SHORT-TERM RENTALS / HOTELS

Officers should not be dispatched to calls for service that solely involve a short-term rental dispute unless there is an active disturbance or other criminal act in progress. To request the immediate removal of an unlawful guest(s), the property owner or their authorized agent should be advised to submit an online complaint form through the City of Fresno's website. By completing and signing the "Complaint to Remove Persons Unlawfully Occupying Real Property" form the area Problem Oriented Policing (POP) Detective will be notified via email. Upon receipt of the complaint the POP Detective will conduct follow-up to:

- (a) Verify the person submitting the complaint is the property owner or the authorized agent;*
- (b) Investigate the complaint to determine if the owner is entitled to relief pursuant to the above listed municipal code conditions; and*
- (c) If verified, contact the unauthorized guest(s) to vacate the property.*

Unauthorized guest(s) may be subject to arrest if they refuse to vacate the property under PC §602(s). Refer to RCTB 24-10 for further details.

357.11 CIVIL STANDBY TO PRESERVE THE PEACE

Civil Standby is defined as the presence of an officer to preserve the peace during an attempt to conduct a lawful civil process (other than vehicle repossession or service of restraining/protective/civil orders) which has the potential of inciting violence but has not yet resulted in criminal acts.

Officers will not be dispatched to facilitate a civil standby, except in incidents suspected or known to involve domestic violence.

When a request for Civil Standby involving suspected or known incidents of domestic violence is received by the ComCen, a call for service will be created and an officer(s) dispatched consistent with the priority assigned to the incident. The ESD receiving the call shall advise the RP that an officer will be dispatched when one becomes available. When the ESD is aware that a substantial delay in response is likely, the RP shall be so advised.

The assigned officer(s) shall remain at the scene to preserve the peace until the potential for violence is reasonably reduced or is eliminated. Except as otherwise provided in this Manual or in law, officers shall not become directly involved in conducting the civil process which generated the call.

When dealing with a civil dispute, the officer should maintain the peace and determine who is in possession of any property in question at the time of their arrival. All involved parties shall be referred to contact their attorneys to resolve the issue through due process and if necessary, return to court for clarification. Officers shall contact their supervisor any time they are unsure on how to interpret the property ownership documents. When additional assistance is needed, the supervisor can contact the legal advisor. When the ownership is in question, no property shall be removed without a valid court order that clearly defines which party shall possess the property.

360.1 POLICY

Members will ensure that all sick or injured persons encountered are given emergency medical care required and all deaths are thoroughly investigated.

360.1.1 PURPOSE AND SCOPE

The investigation of cases involving death includes those ranging from natural cause to homicide. Some causes of death may not be readily apparent and some cases differ substantially from what they appeared to be initially. The thoroughness of death investigations cannot be emphasized enough. One of an officer's primary responsibilities is to ensure the health and welfare of community members that need public safety services. Members shall also ensure adequate resources such as EMS and Fire respond as needed.

360.2 SICK AND INJURED PERSONS

When members encounter sick or injured persons, they shall render appropriate first aid, consistent with their training, to whatever extent is necessary.

Members shall also request EMS/Fire resources as needed to appropriately handle the event.

360.2.2 INDUSTRIAL ACCIDENTS

Members dispatched to such industrial accidents shall notify their supervisor and complete a casualty report containing all pertinent information on the incident.

360.3 TERMINALLY ILL PERSONS

The End of Life Option Act went into effect June 9, 2016, which authorizes an adult who meets certain qualifications and who has been determined by their attending physician to be suffering from a terminal disease, to make a request for a drug prescribed for the purpose of alleviating suffering and ending their life. The Act also provides certain immunity from civil or criminal liability for physicians, medical providers, and for persons present when the patient self-administers the drug, or if a person assists the patient by preparing the aid-in-dying drug, so long as the person did not assist with the ingestion of the drug. The intent of the law is to allow people to help a terminally ill person as long as the terminally ill patient takes an affirmative, conscious, and physical act to ingest the medication into their body. The Act does not authorize ending a patient's life by lethal injection, mercy killing, or active euthanasia. Action taken in accordance with the Act does not constitute suicide or homicide.

Members dispatched to an in-progress or just occurred ingestion of aid-in-dying medication call shall notify their supervisor and complete a casualty report containing pertinent information.

PC § 836(b) Any time a peace officer is called out on a domestic violence call, it shall be mandatory that the officer make a good faith effort to inform the victim of his or her right to make a citizen's arrest, unless the peace officer makes an arrest for a violation of paragraph (1) of subdivision (e) of Section 243 or 273.5. This information shall include advising the victim how to safely execute the arrest. In all other situations, officers should use sound discretion in determining whether or not to advise an individual of the arrest process.

- (a) When advising any individual regarding the right to make a private person's arrest, officers should refrain from encouraging or dissuading any individual from making such an arrest and should instead limit advice to the legal requirements for such an arrest as listed below.
- (b) Private individuals should be discouraged from using force to effect a private person's arrest, and absent immediate threat to their own safety or the safety of others, private individuals should be encouraged to refer matters to law enforcement officials for further investigation or arrest.

364.3 ARRESTS BY PRIVATE PERSONS

PC §837 provides that a private person may arrest another:

- (a) For a public offense committed or attempted in their presence;
- (b) When the person arrested has committed a felony, although not in their presence and when a felony has been in fact committed, and they have reasonable cause for believing the person arrested has committed it.

Unlike peace officers, private persons may not make an arrest on suspicion that a felony has been committed the felony must in fact have taken place.

364.4 REPORTING REQUIREMENTS

In all circumstances in which a private person is claiming to have made an arrest, the individual must complete and sign a Department Private Person's Arrest form under penalty of perjury. In addition to the Private Person's Arrest Form (and any other related documents such as citations, booking forms, etc.), officers shall complete a narrative report regarding the circumstances and disposition of the incident.

364.5 OFFICER RESPONSIBILITIES

Any officer presented with a private person wishing to make an arrest must determine whether or not there is reasonable cause to believe that such an arrest would be lawful (PC §847).

364.6 PRIVATE PERSON ARREST (UNLAWFUL)

Should any officer determine that there is no reasonable cause to believe that a private person's arrest is lawful, the officer should take no action to further detain or restrain the individual beyond that which reasonably appears necessary to investigate the matter, determine the lawfulness of the arrest and protect the public safety.

- (a) Any officer who determines that a private person's arrest appears to be unlawful should promptly release the arrested individual pursuant to PC §849(b). The officer must include the basis of such a determination in a related report.
- (b) Absent reasonable cause to support a private person's arrest or other lawful grounds to support an independent arrest by the officer, the officer should advise the parties that no arrest will be made and that the circumstances will be documented in a related report.

364.6.1 DOCUMENTATION OF PRIVATE PERSON ARREST (UNLAWFUL)

- (a) A report detailing the basis of determination to release; and
- (b) A completed PC §849(b) form, signed by the officer authorizing the release.

364.7 PRIVATE PERSON ARREST (LAWFUL)

When an officer determines that there is reasonable cause to believe that a private person's arrest is lawful, the officer may exercise any of the following options:

- (a) Take the individual into physical custody for booking; or
- (a) Release the individual pursuant to a notice to appear; or
- (b) Release the individual pursuant to PC §849(b); or
- (c) Where no physical arrest is desired, officers may inform the private person that a report will be made and they can later request case review should they desire prosecution in the future.
 - 1) When the victim later desires prosecution, they shall be advised to wait at least 7 days for the report to be entered into the system before responding to the Records Counter at HQ during normal business hours to complete a 'Request for Case Review' form. The victim shall not be referred to the DA's Office for prosecution. The victim shall also be advised that if they take no action, no charges will be filed.

364.7.1 DOCUMENTATION OF PRIVATE PERSON ARREST (LAWFUL)

A report detailing the circumstances of the arrest and statements of involved parties/witnesses;

- (a) Citation: Arresting Citizen/Party signs Notification to Appear and retains the pink copy; or
- (b) Arrest Report: When the citizen's arrest requires the suspect to be booked, an Arrest Report shall be completed in Axon Records.
 - 1) The circumstances of the private person's arrest shall be listed in the narrative portion of the 'Arrest Details' section.

Fresno Police Department Policy Manual

Limited English Proficiency Services

368.1 POLICY

The Department will take all reasonable steps to ensure timely and equal access to all individuals, regardless of national origin or primary language (Title VI of the Civil Rights Act of 1964, Section 601, 42 United States Code 2000d). Department members will inform members of the public that language assistance services are available free of charge to limited English proficiency (LEP) persons whom they encounter.

368.1.1 PURPOSE AND SCOPE

Language barriers can sometimes inhibit or even prohibit individuals with limited English proficiency from gaining meaningful access to, or an understanding of important rights, obligations and services. The purpose of this Policy is to establish effective guidelines consistent with Title VI of the Civil Rights Act of 1964 and the Omnibus Crime Control and Safe Streets Act of 1968, for Department personnel to follow when providing services to, or interacting with, LEP individuals.

368.2 DEFINITIONS

Bilingual - The ability to use two languages proficiently.

Interpretation - The act of listening to a communication in one language (source language) and orally converting it to another language (target language) while retaining the same meaning.

Limited English Proficient (LEP) - Those individuals whose primary language is not English. If these individuals have a limited ability to read, write, speak, or understand English, they are limited English proficient. LEP individuals may be competent in certain types of communication (e.g. speaking or understanding), but still be LEP for other purposes (e.g. reading or writing). Similarly, LEP designations are context-specific. An individual may possess sufficient English skills to function in one setting, but these skills may be insufficient in other situations.

Primary Language - An individual's native tongue or the language in which an individual most effectively communicates.

Translation - The replacement of written text from one language (source language) into an equivalent written text in another language (target language).

368.3 LEP PROGRAM RESPONSIBILITIES

The Department's LEP Program will be coordinated through the Commander of the Audit & Inspections Unit. The Commander will be responsible for the following:

- (a) Receiving and reviewing LEP services complaints; and
- (b) Conducting audits relative to Department LEP Programs, including an annual review of demographic data, Language Line usage data, and Department reports documenting encounters with LEP individuals to ensure that the Department is providing meaningful access to LEP persons in all Department-conducted programs or activities.

368.4 FOUR FACTOR ANALYSIS

Since there are potentially hundreds of languages officers could encounter, this Department will analyze four factors in determining those measures which will provide reasonable and meaningful access to various rights, obligations, services and programs to everyone. It is recognized that law enforcement contacts and circumstances will vary considerably therefore this analysis must remain flexible and requires an ongoing balance of the following four factors:

- (a) The number or proportion of LEP individuals eligible to be served or likely to be encountered by officers or who may benefit from programs or services within the Department's jurisdiction or a particular geographic area;

- (b) The frequency with which LEP individuals are likely to come in contact with officers, programs or services;
- (c) The nature and importance of the contact, program, information or service provided; and
- (d) The cost of providing LEP assistance and the resources available.

As indicated above, the intent of this analysis is to provide a balance that reasonably ensures meaningful access by LEP individuals to critical services while not imposing undue burdens on the Department or officers.

368.5 QUALIFYING INDIVIDUALS

While the Department will not discriminate against or deny any individual access to services, rights or programs based upon national origin or any other protected interest or right, the above analysis will be utilized to determine the availability and level of assistance provided to any LEP individual or group.

368.6 TYPES OF LEP ASSISTANCE AVAILABLE

The Department will make reasonable efforts to provide meaningful and timely assistance to LEP individuals through a variety of services.

368.6.1 AUDIO RECORDINGS

The Department may develop audio recordings of important information needed by LEP individuals.

Example: Officers may be provided with a canine warning or crowd dispersal order for broadcast in a language most likely to be understood by involved LEP individuals.

368.6.2 COMMUNITY VOLUNTEERS

Depending on the circumstances, location and availability, responsible members of the community may be available to provide qualified interpreter services. Sources for these individuals may include:

- (a) Local businesses;
- (b) Banks; and
- (c) Churches.

In addition, the Volunteer Unit will attempt to maintain and update a list of qualified community volunteers.

368.6.3 FAMILY AND FRIENDS OF LEP INDIVIDUALS

While family and friends of an LEP individual may frequently offer to assist with interpretation, officers should carefully consider the circumstances before relying on such individuals. Unless it is an emergency or critical situation, officers and other Department members should only use family, friends, or bystanders for interpreting in very informal, non-confrontational contexts, and only to obtain basic information. Children should never be relied upon except in emergency or critical situations. Further, the nature of the contact and relationship between the LEP individual and the individual offering services must be carefully considered (e.g., victim/suspect). Using family, friends and bystanders to provide interpretation could raise issues relating to confidentiality, privacy, and conflict of interest.

368.6.4 INTERPRETER SERVICES

LEP individuals may elect to accept interpreter services offered by the Department at no cost or choose to provide their own interpreter services at their own expense.

- (a) The Department may decide to provide its own independent interpreter when precise, complete, and accurate interpretations are critical for law enforcement or legal reasons, or when the competency of the LEP individual's interpreter is not established.
- (b) Officers should document in any related report whether the LEP individual elected to use interpreter services provided by the Department or some other source.
- (c) Where the Department provides the LEP services, members shall first utilize certified Department interpreters and translators from the City of Fresno Bilingual Certification List (BCL).

- 1) The BCL is accessible by all members via the Intranet utilizing the 'Employee Apps' button within PDWEB or at <http://bcl.police.fresno>.
- 2) Members may request assistance from any on-duty member listed on the BCL.

When a certified interpreter is not available and the LEP service does not involve a felony violation of law, Department provided interpreter services may include, but are not limited to:

- (a) **Other Bilingual Staff** - Members that are bilingual but are not certified as interpreters should be able to accurately listen to communication in one language and orally convert it to another language. When bilingual members of this Department are not available, employees from other departments within the area may be requested by a supervisor depending on the circumstances. A request for other bilingual staff may be made through the ComCen.

When bilingual members of the Department are not available, employees from other departments within the area may be requested by a supervisor depending on the circumstances.

- (b) **Telephone Interpreter Services**: Through Voiance, the Department provides 24-hour telephone access to interpreters who speak more than 140 languages. This service may be accessed by dialing 1-866-998-0338 and providing account number 24199. At the prompt, enter the 4-digit PIN: ComCen is 1947 or Patrol is 9773. Follow the instructions for entering your employee number and the number and the language needed.

368.7 TRANSLATED DOCUMENTS

Members shall have translated documents (including Sexual Assault and Domestic Violence Victim Information Form, DMV DUI Combination Form, Towed Vehicle Information Sheet) in the following languages (Spanish and Hmong) available to them in the field when they may have contact with LEP persons. Additional documents are located on the Intranet at: L:\LIBRARY\FORMS\Translated Public Documents – LEP. The public will have access to translated Complaint Brochures and Information Advisory for Personnel Complaints at all public counters.

When LEP documents have not been translated into an LEP individual's primary language or in the case of illiteracy, the document will be read to them using an interpreter. The Policy and Procedures Unit will be responsible for reviewing Department documents on an annual basis to assess whether additional documents should be translated into frequently-encountered foreign languages. Should a Department member identify the need for a document, letter, or note to be translated, the member shall contact the Audits and Inspection Unit to request a translation.

368.8 WRITTEN FORMS AND GUIDELINES

The Department will endeavor to provide frequently used and critical forms and guidelines in languages most commonly represented within the community or a particular area. When appropriate, these forms will be conspicuously posted at the public counters and otherwise available upon request. For example, the Department's Personnel Complaint form and information about various Department programs and services should be made readily available to LEP individuals.

368.9 LEP CONTACT SITUATIONS AND REPORTING

While all law enforcement contacts, services and individual rights are important, this Department will utilize the four-factor analysis to prioritize language services so that they may be targeted where most needed because of the nature and importance of the particular law enforcement activity involved.

When a criminal investigation involves a felony violation of law, every effort shall be made to utilize a certified interpreter or translator. Where a certified interpreter or translator is not available, LEP services may include, but are not limited to: Voiance, or non-certified Department members who can interpret. In the event of an unforeseen or life threatening emergency, family members, friends or bystanders may be used to interpret while waiting for a qualified interpreter to arrive.

When a member is required to complete a report or other documentation and interpretation and/or translation services are provided to any involved LEP individual(s), such services should be noted in

the related report. When LEP services are provided and no police report is written, the LEP contact shall be documented by adding supplemental notes to the event or the public counter LEP log. Notes shall be made on the language spoken by the LEP person and the type of language assistance service provided.

368.10 TELEPHONE CONTACT

Members who have telephone contact, whether incoming or outgoing with a LEP person, should utilize Language Line Services to assure clear communications. When Language Line Services is unavailable, members should utilize a certified Department interpreter. Non-certified interpreters should be used when other resources are not readily available.

368.11 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE

In order to provide LEP individuals with meaningful access to police services when they are victims of, or witnesses to, alleged criminal activity or other emergencies, this Department has designated its 911 lines as its top priority for language services. Department members will make every reasonable effort to promptly accommodate such LEP individuals utilizing 911 lines through any or all of the above resources.

While 911 calls shall receive top priority, it is also important that reasonable efforts be made to accommodate LEP individuals seeking more routine access to services and information from this Department.

368.12 CUSTODIAL INTERROGATIONS AND BOOKINGS

In an effort to ensure the rights of LEP individuals are protected during arrest and custodial interrogation, this Department places a high priority on providing competent language assistance services during such situations. It is further recognized that miscommunication during custodial interrogations may have a substantial impact on the evidence presented in any related criminal prosecution. As such, Department members providing language assistance services or forms in these situations will make every reasonable effort to accurately interpret all communications with LEP individuals.

Members shall use a certified interpreter or translator to clearly communicate with the LEP suspect or arrestee, whether in written or spoken form. Where no certified interpreter is available, Language Line Services shall be used. It should be recognized that interpretation services conducted over telephone lines are less effective than live interpretation and more prone to misunderstandings. Miranda warnings are available to officers in English and Spanish. When Miranda warnings have not been translated into a suspect's primary language or in the case of illiteracy, the admonishment will be read to them using an interpreter.

Members providing language assistance services shall also be aware of the inherent communication impediments to gathering information from the LEP individual throughout the booking process or any other situation in which an LEP individual is within the control of Department members.

Medical screening questions are commonly used to elicit information on an individual's:

- (a) Medical needs;
- (b) Suicidal inclinations;
- (c) Presence of contagious diseases;
- (d) Potential illness;
- (e) Resulting symptoms upon withdrawal from certain medications.
- (f) The need to segregate the arrestee from other prisoners.

Therefore it is important to make every reasonable effort to provide effective language services in these situations.

368.13 FIELD ENFORCEMENT AND INVESTIGATIONS

Field enforcement will generally include such contacts as:

- (a) Traffic stops;
- (b) Pedestrian stops;
- (c) Serving warrants and restraining orders; and
- (d) Crowd/traffic control; and
- (e) Other routine field contacts.

The scope and nature of these activities and contacts will inevitably vary. Each member must assess each such situation to determine the need and availability for interpretation and/or translation services to LEP individuals. Although not every situation can be addressed within this procedure, it is important that an officer is able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action taken with an LEP individual. It would also, for example, be meaningless to request consent to search if the officer is unable to effectively communicate with an LEP individual.

368.14 FIELD ENCOUNTERS

Members who have field contact with LEP persons shall assess the most appropriate LEP assistance available depending on the seriousness of the situation. When a criminal investigation involves a felony violation of law, every effort shall be made to utilize a certified interpreter or translator. When a certified interpreter or translator is not available, LEP services may include, but are not limited to: Language Line Services or non-certified Department members who can interpret. In the event of an unforeseen or life threatening emergency, family members, friends or bystanders may be used to interpret while waiting for a qualified interpreter to arrive (Refer to Family and Friends of LEP Individuals listed in 368.6(c) above).

368.15 WALK IN ENCOUNTERS

Members who have contact with LEP persons at a police facility should attempt to locate a certified or non-certified Department interpreter to assist. When an interpreter is not available, the language line service should be utilized.

368.16 REPORTING USE OF SERVICES

When a member of the Department is required to complete a report or other documentation and interpretation or translation services are provided to any involved LEP individual(s), such services should be noted in the related report or document. When LEP services are provided and no police report is written, the LEP contact shall be documented by adding supplemental notes to the event. Notes shall be made on the language spoken by the LEP person and the type of language assistance service provided.

368.17 POSTING OF AVAILABLE SERVICES

Forms printed in available languages should be maintained in a conspicuous location at public counters and other appropriate areas such as a booking area. The Department will post signage in frequently encountered languages in places of public contact stating that language assistance services are available.

368.18 COMPLAINT INVESTIGATIONS

Any LEP individual who wishes to file a complaint with the Department alleging police misconduct shall be provided with a translated Complaint Brochure and Information Advisory for Personnel Complaints, as available. Department members should utilize a certified interpreter to communicate with LEP complainants during a complaint investigation. When a certified interpreter is not available, members shall utilize the other language assistance resources as appropriate. The Department will provide written notice of the disposition of any complaint in the LEP complainant's primary language.

368.19 COMMUNITY OUTREACH

Community outreach programs and other such services offered by the Department have become increasingly recognized as important to the ultimate success of more traditional law enforcement duties. The Department will continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services to LEP individuals and groups. This may be

accomplished through the use of bilingual Department members and programs such as the Hispanic Residents Academy.

368.20 TRAINING

In an effort to ensure that all members in public contact positions (or having contact with those in custody) are properly trained, the Department will provide training in the following areas during new member orientation:

- (a) Member awareness of LEP policies, procedures, forms and available resources;
- (b) Members having contact with the public (or those in our custody) are trained to work effectively with in-person and telephone interpreters; and
- (c) Training for management staff, even if they may not interact regularly with LEP individuals, in order that they remain fully aware of, and understand this policy, so they can reinforce its importance and ensure its implementation by staff.

Any updates to this policy, related procedure, or the LEP program will be distributed to all members in the appropriate format.

Fresno Police Department Policy Manual

Communications with Persons with Disabilities

370.1 POLICY

It is the policy of this Department to ensure that people with disabilities, including victims, witnesses, suspects and arrestees have equal access to law enforcement services, programs and activities. Members must make efforts to communicate effectively with individuals with disabilities. The Department will not discriminate against or deny any individual access to services, rights or programs based upon disabilities.

Not every situation regarding the hearing impaired/disabled communications can be addressed within this policy. It is important that members are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action taken with an individual with a disability.

370.1.1 PURPOSE AND SCOPE

This policy provides guidance to members when communicating with individuals with disabilities, including those who are deaf or hard of hearing, have impaired speech or vision, or are blind.

370.2 DEFINITION:

Auxiliary Aids - These are used to communicate with people who are deaf, hard of hearing or have impaired speech. They include, but are not limited to, the use of gestures or visual aids to supplement oral communication; use of a notepad and pen or pencil to exchange written notes; use of a computer or typewriter; use of an assistive listening system or device to amplify sound; use of a teletypewriter (TTY), videophones (video relay service or VRS); or use of a qualified interpreter.

Deaf or Hard of Hearing - An individual who has or is regarded as having substantially limited hearing with or without assistance.

Qualified Interpreter - A person who is able to interpret effectively, accurately and impartially, both receptively and expressively, using any necessary specialized vocabulary. Qualified interpreters include oral interpreters, translators, sign language interpreters and intermediary interpreters.

TTY - A 'Text Telephone' device that allows deaf, hard of hearing or speech-impaired persons to use the telephone.

TDD - A 'Telecommunication Device for the Deaf' is an electronic device for text communication over a telephone line for the hearing impaired or persons with speech difficulties.

370.3 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE

Members will make every reasonable effort to promptly accommodate such individuals with disabilities utilizing 911 lines through any or all available resources.

While 911 calls shall receive top priority, it is also important that reasonable efforts be made to accommodate individuals with disabilities seeking more routine access to services and information.

370.4 FACTORS TO CONSIDER

Because the nature of any law enforcement contact may vary substantially from one situation to the next, members of this Department should consider all information reasonably available to them when determining how to communicate with an individual with a disability. These factors may include, but are not limited to:

- (a) Members should not assume that effective communication is being achieved. The fact that an individual appears to be nodding in agreement does not mean they completely understands the

message. When there is any doubt, members should ask the individual to communicate back or otherwise demonstrate their understanding.

- (b) The nature of the disability (e.g., deafness or blindness vs. hard of hearing or low vision);
- (c) The nature of the law enforcement contact (e.g., emergency vs. nonemergency, custodial vs. consensual contact, etc.); and
- (d) Availability of auxiliary aids. The fact that a particular aid is not available does not eliminate the obligation to reasonably ensure access. However, in an emergency, availability may factor into the type of aid used.

When considering these and other available information member(s) should carefully balance all factors to reasonably ensure meaningful access by individuals with disabilities to critical services while not imposing undue burdens on the Department or its members.

370.4.1 INITIAL AND IMMEDIATE CONSIDERATIONS

Recognizing that various law enforcement encounters may be potentially volatile and/or emotionally charged, members should remain alert to the possibility of communication problems and exercise special care in the use of all gestures, and verbal and written communication in an effort to minimize initial confusion and misunderstanding when dealing with any individual(s) with known or suspected communication disabilities.

In a non-emergency situation, when a member knows or suspects an individual requires assistance to effectively communicate, the member shall identify the individual's choice of auxiliary aid or service. The individual's preferred communication method must be honored unless another effective method of communication exists under the circumstances (28 CFR §35.160).

Factors to consider when determining whether an alternative method is effective include:

- (a) The methods of communication usually used by the individual;
- (b) The nature, length and complexity of the communication involved; and
- (c) The context of the communication.

In emergency situations involving an imminent threat to the safety or welfare of any person, members may use whatever auxiliary aids and services that reasonably appear effective under the circumstances. This may include, for example, exchanging written notes or using the services of a person who knows sign language but is not a qualified interpreter. Even if the person who is deaf or hard of hearing would prefer the use of a qualified sign language interpreter or another appropriate auxiliary aid or service. Once the emergency has ended, the continued method of communication should be reconsidered. The member should inquire as to the individual's preference and give primary consideration to that preference.

Safety permitting, when an individual who is deaf, hard of hearing or has impaired speech must be handcuffed while in the custody of this Department, consideration should be given to placing the handcuffs in the front of the body to facilitate communication using sign language or writing.

370.5 TYPES OF ASSISTANCE AVAILABLE

Members should document the type of communication utilized in any related report or document and whether an individual with a disability elected to use services provided by the Department or some other identified source.

Department provided services may include, but are not limited to the following:

- (a) Field Resources - Members are encouraged to utilize resources available to them in any contact with a person with a known or suspected disability.

Examples would include such simple methods as:

- 1) Hand gestures or written communications exchanged between the member and a deaf or hard of hearing individual;

- 2) Facing an individual utilizing lip reading and speaking normally and clearly; and
- 3) Clearly but normally speaking or reading simple terms to any visually or mentally disabled individual.

- (b) Audio Recordings and Enlarged Print - From time to time, the Department may develop audio recordings of important information needed by blind or visually impaired individuals. In the absence of such audio recordings, members may elect to read aloud a Department form or document such as a citizen complaint form or utilize a photocopier to enlarge printed forms for a visually impaired individual.
- (c) Qualified Interpreter Services - ComCen will maintain a list of qualified interpreter services to be contacted at Department expense to assist deaf or hard of hearing individuals. When utilized, notification to such interpreters shall be made at the earliest reasonable opportunity and the interpreter should be available to respond within a reasonable time (generally not to exceed one hour).
- (d) TTY and Relay Services - Individuals who are deaf or hard of hearing must be given the opportunity to use available text telephones (TTY or TDD). All calls placed by such individuals through such services shall be accepted by the Department.
- (e) Community Volunteers - Depending on the circumstances, location and availability, members of the community may be available to provide qualified interpreter services, (e.g. those who are proficient in American Sign Language (ASL)).

Sources for these individuals may include:

- 1) Local businesses;
- 2) Banks;
- 3) Churches;
- 4) Neighborhood leaders; and
- 5) School officials.

In addition to such sources, the Department will attempt to maintain and update a list of community volunteers who may be available to respond within a reasonable time (generally not to exceed one hour).

- (f) Family and Friends - While family and friends of an individual with a disability may often offer to assist with interpretation, members should consider the circumstances before relying on such individuals (e.g. children should not be relied upon except in emergency or critical situations, the nature of the relationship between the individual with a disability and the individual offering services (victim/suspect)).

Depending on the balance of the factors available for consideration at the time, this Department will make every reasonable effort to provide meaningful and timely assistance to disabled individuals through a variety of services, where available. The Department will not charge anyone for the expense of an accommodation. Disabled individuals may elect to accept department-provided auxiliary aids or services, choose to provide their own communication services at their own expense or any combination thereof. In any situation, the individual's expressed choice of communication method shall be given primary consideration and honored unless the member can adequately demonstrate that another effective method of communication exists under the circumstances.

370.5.1 FIELD RESOURCES

Members are encouraged to utilize resources immediately available to them in any contact with a known or suspected person with a disability. Examples of this would include such simple methods as:

- (a) Hand gestures or written communications exchanged between the member and a deaf or hard of hearing individual;
- (b) Facing an individual utilizing lip reading and speaking slowly and clearly;
- (c) Slowly and clearly speaking or reading simple terms to any visually or mentally disabled individual; and
- (d) Utilization of certified interpreters and translators from the City of Fresno bilingual certification program.

370.5.2 AUDIO RECORDINGS AND ENLARGED PRINT

From time to time, the Department may develop audio recordings of important information needed by blind or visually impaired individuals. In the absence of such audio recordings, members may elect to read aloud a Department form or document such as a citizen complaint form to a visually impaired individual or utilize a photocopier to enlarge printed forms for a visually impaired individual.

370.5.3 QUALIFIED INTERPRETER SERVICES

A qualified interpreter may be needed in lengthy or complex transactions (e.g., interviewing a victim, witness, suspect or arrestee), if the individual to be interviewed normally relies on sign language or speech reading (lip-reading) to understand what others are saying. The qualified interpreter should not be a person with an interest in the case or investigation involving the disabled individual. A person providing interpretation services may be required to establish the accuracy and trustworthiness of the interpretation in a court proceeding.

Qualified interpreters should be:

- (a) Available within a reasonable amount of time generally not to exceed one hour;
- (b) Experienced in providing interpretation services related to law enforcement matters;
- (c) Familiar with the use of VRS and/or video remote interpreting service;
- (d) Certified in either American Sign Language (ASL) or Signed English (SE);
- (e) Able to understand and adhere to the interpreter role without deviating into other roles, such as counselor or legal adviser; and
- (f) Knowledgeable of the ethical issues involved when providing interpreter services.

ComCen will maintain a list of qualified interpreter services to be contacted at Department expense to assist deaf or hard of hearing individuals upon approval of a supervisor. No individual who is disabled shall be required to provide their own interpreter (28 CFR §35.160).

370.5.4 TTY AND RELAY SERVICES

Individuals who are deaf or hearing impaired must be given the opportunity to use available text telephones (TTY or TDD). Members shall provide additional time, as needed, for effective communication due to the slower nature of TTY and TDD communications. The Department will accept all TTY or TDD calls placed by those who are deaf or hard of hearing and received via a telecommunications relay service (28 CFR §35.162).

370.5.5 COMMUNITY VOLUNTEERS

Depending on the circumstances, location and availability, responsible members of the community may be available to provide qualified interpreter services, such as those who are proficient in American Sign Language (ASL) or Signed English (SE). In addition to such sources developed by individual officers, the Department will attempt to maintain and update a list of qualified community volunteers who may be available to respond within a reasonable time.

Where qualified interpreters are unavailable to assist, approved community volunteers who have demonstrated competence may be called upon when appropriate. However, Department members must carefully consider the nature of the contact and the relationship between the individual with the disability and the volunteer to ensure that the volunteer can provide neutral and unbiased assistance.

370.5.6 FAMILY AND FRIENDS

While family and friends of an individual with a disability may frequently offer to assist with interpretation, members should carefully consider the circumstances before relying on such individuals. For example, children should not be relied upon except in emergency or critical situations. Further, the nature of the contact and relationship between the individual with a disability and the individual offering services must be carefully considered (e.g., victim/suspect).

Adults may be relied upon when (28 CFR §35.160):

- (a) There is an emergency or critical situation and there is no qualified interpreter reasonably available; and

- (b) The person with the disability requests that the adult interpret or facilitate communication and the adult agrees to provide such assistance, and reliance on that adult for such assistance is reasonable under the circumstances.

370.6 CONTACT SITUATIONS AND REPORTING

While all contacts, services, and individual rights are important, this Department will carefully consider reasonably available information in an effort to prioritize services to individuals with disabilities so that such services and resources may be targeted where most needed because of the nature and importance of the particular law enforcement activity involved.

When any member of the Department is required to complete a report or other documentation, and communication assistance is provided to any involved individual(s) with disabilities, such services should be noted in the related report or document (e.g., event comment). Members should document the type of communication services utilized and whether the individual elected to use services provided by the Department or some other identified source. If the individual's express preference is not honored, the member shall document why another method was used. All written communications in a criminal case should be attached to the report or placed into evidence.

370.7 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE

In order to provide individuals with disabilities with meaningful access to law enforcement services when they are victims of, or witnesses to, alleged criminal activity or other emergencies, this Department has designated its 911 lines as its top priority for assistance with such services. Members will make every reasonable effort to promptly accommodate such individuals with disabilities utilizing 911 lines through any or all of the above resources.

While 911 calls shall receive top priority, it is also important that reasonable efforts be made to accommodate individuals with disabilities seeking more routine access to services and information from this Department.

370.8 FIELD ENFORCEMENT AND INVESTIGATIONS

Field enforcement will generally include such contacts as traffic stops, pedestrian stops, serving warrants and restraining orders, crowd/traffic control and other routine field contacts which may involve individuals with disabilities. The scope and nature of these activities and contacts will inevitably vary, therefore the Department recognizes that it would be virtually impossible to provide immediate access to complete communication services to every officer in the field. Each officer and/or supervisor must, however, assess each such situation to determine the need and availability for communication assistance to any and all involved individuals with disabilities.

Although not every situation can be addressed within this policy, it is important that employees are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action taken with an individual with a disability. For example, it would be meaningless to verbally request consent to search if the officer is unable to effectively communicate with a deaf individual.

370.9 CUSTODIAL INTERROGATIONS

Members providing assistance shall also be aware of the inherent communication impediments to gathering information from individuals with disabilities throughout the booking process or any other situation in which an individual with a disability is within the control of Department member.

In an effort to ensure that the rights of individuals who are deaf, hard of hearing or have speech impairment are protected during a custodial interrogation, this Department will provide interpreter services before beginning an interrogation, unless exigent circumstances exist or the individual has made a clear indication that they understand the process and desires to proceed without an interpreter. The use of a video remote interpreting service should be considered, where appropriate, if a live interpreter is not available. Miranda warnings shall be provided to suspects who are deaf or hard of hearing by a qualified interpreter or by providing a written Miranda warning card.

In order to ensure that communications during custodial investigations are accurately documented and are admissible as evidence, interrogations should be recorded whenever reasonably possible.

Medical screening questions are commonly used to elicit information on individual's medical needs, suicidal inclinations, presence of contagious diseases, potential illness, resulting symptoms upon withdrawal from certain medications, or the need to segregate the arrestee from other prisoners, therefore it is important to make every reasonable effort to provide effective communication assistance in these situations.

- (a) Individuals who require communication aids (e.g., hearing aids) should be permitted to retain such devices while in custody.
- (a) While it may present officer safety or other logistical problems to allow a physically disabled individual to retain devices such as a wheelchair or crutches during a custodial situation, the removal of such items will require that other reasonable accommodations be made to assist such individuals with access to all necessary services.

370.10 ARREST AND BOOKINGS

In an effort to ensure the rights of all individuals with disabilities are protected during arrest and bookings, this Department places a high priority on providing reasonable communication assistance during such situations.

Members providing such assistance shall also be aware of the inherent communication impediments to gathering information from individuals with disabilities throughout the booking process or any other situation in which an individual with a disability is within the control of Department personnel. Medical screening questions are commonly used to elicit information on individual's medical needs, suicidal inclinations, presence of contagious diseases, potential illness, resulting symptoms upon withdrawal from certain medications, or the need to segregate the arrestee from other prisoners, therefore it is important for this Department to make every reasonable effort to provide effective communication assistance in these situations.

- (a) Individuals who require communication aids (e.g., hearing aids) should be permitted to retain such devices while in custody.
- (b) While it may present officer safety or other logistical problems to allow a physically disabled individual to retain devices such as a wheel chair or crutches during a custodial situation, the removal of such items will require that other reasonable accommodations be made to assist such individuals with access to all necessary services.

370.10.1 FIELD ENFORCEMENT AND INVESTIGATIONS

Members must assess each such situation to determine the need and availability of communication assistance for all involved individuals with disabilities. Individuals who are arrested and are assisted by service animals should be permitted to make arrangements for the care of such animals prior to transport. Policy § 355.10.

370.11 COMMUNITY OUTREACH

Community outreach programs and other such services offered by this Department have become increasingly recognized as important to the ultimate success of more traditional law enforcement duties. As such, this Department will continue to work with community groups, local businesses and neighborhoods to provide equal access to such programs and services to individuals with disabilities and groups.

370.12 TRAINING

In an effort to ensure that all members in public contact positions (or having contact with those in custody) are properly trained, this Department will provide training in the following areas during new member orientation:

- (a) Member awareness of related policies, procedures, forms and available resources; , and
- (b) How to work effectively with in-person and telephone interpreters and related equipment.

Management staff will receive training even if they may not interact regularly with individuals with disabilities. This is to ensure they remain fully aware of, and understand this policy, so they can reinforce its importance and ensure its implementation by staff.

Any updates to this policy or related procedure will be distributed to all members in the appropriate format. In addition, members will receive training related to the basics of ADA and appropriate ways of serving people with disabilities during the mandatory triennial anti-harassment/anti-discrimination training.

307.13 CALL-TAKER TRAINING

Emergency call-takers shall be trained in the use of TTY equipment protocols for communicating with individuals who are deaf, hard of hearing or who have speech impairments. Such training and information should include:

- (a) The requirements of the ADA and Section 504 of the Rehabilitation Act for telephone emergency service providers;
- (b) ASL syntax and accepted abbreviations;
- (c) Practical instruction on identifying and processing TTY or TDD calls, including the importance of recognizing silent TTY or TDD calls, using proper syntax, abbreviations and protocol when responding to TTY or TDD calls; and
- (d) Hands-on experience in TTY and TDD communications, including identification of TTY or TDD tones.

Training should be mandatory for all Dispatch members who may have contact with individuals from the public who are deaf, hard of hearing or have impaired speech. Refresher training should occur every six months.

374.1 POLICY

This policy is to provide guidelines for the collection of DNA evidence from those individuals required to provide such samples under the DNA Fingerprint, Unsolved Crime and Innocence Protection Act, and the State of California DNA Data Bank Program (Penal Code §295, et seq.).

374.1.1 PURPOSE AND SCOPE

Only those qualifying individuals whose DNA sample is not currently on file with the Department of Justice may be required to provide samples. Verification of DNA samples on file may be determined by a DNA collection "flag" on the individual's criminal history record or, during regular business hours, by calling the Department of Justice at (510)620-3300 and pressing "11" in the automated system [PC §298(b)(5)].

374.2 PERSONS SUBJECT TO DNA COLLECTION

While the courts may order DNA samples taken in a variety of circumstances under the Act, members of this Department are only authorized to obtain DNA samples from the following individuals absent other lawful means (e.g., consent or a search warrant).

It is a misdemeanor for any qualified individual to refuse to give any or all required DNA samples following written notice of the requirement to do so [PC §298.1(a)].

374.2.1 ARRESTEES

Immediately following arrest, or during the booking process, or as soon as administratively practicable after arrest (but in any case prior to release on bail or other physical release from custody), any adult arrested or charged with a felony offense is required to provide DNA samples [PC §296(a)(2)(C)]. It is a misdemeanor for any qualified individual to refuse to give any or all required DNA samples following written notice of the requirement to do so [PC §298.1(a)].

The January 1, 2009, provisions governing DNA sample collection from all adults arrested for any felony offense are not retroactive and so do not permit sample collection for arrests that took place prior to 2009.

374.2.2 SEX AND ARSON REGISTRANTS

Any adult or juvenile who is required to register as a sex offender under PC §290 or arsonist under PC §457.1, including those whose registration resulted from a qualifying misdemeanor crime is required to submit a DNA sample. [PC §296(a)(3)].

At the time that any such registrant registers, updates registration, or is notified by the Department of Justice or other law enforcement officer, an appointment shall be made designating the time and place for the collection of DNA samples if no such sample has already been provided [PC §296.2(c)].

374.3 OBTAINING DNA SAMPLES

Upon a determination that any individual is qualified and required to provide DNA samples under the Act, the arresting officer or other employee designated by a supervisor shall transport the arrestee to the Fresno County Jail to complete the booking process where DNA samples will be obtained in accordance with this policy. When an individual is qualified and required to provide DNA samples under the Act, and the individual is not in-custody, (e.g., sex registrants or arson registrants), a trained and authorized Crime Scene Bureau (CSB) member designated by a supervisor shall obtain DNA samples in accordance with this policy.

374.3.1 BLOOD SAMPLES

The withdrawal of blood may only be performed in a medically approved manner by health care providers trained and qualified to draw blood. Blood samples obtained for submission to the Department of Justice DNA lab shall be placed in Department of Justice blood vials [PC §§298(a) and (b)(2)]. A right thumbprint shall be placed on the sample vial along with other required identifying information.

374.3.2 BUCCAL SWABS

Buccal swab samples (taken from the inside of the mouth) may only be procured by employees who have successfully completed departmentally approved training in the collection of buccal swabs and with the use of Department of Justice buccal swab collectors. [PC §§298(a) and (b)(3)]. A right thumbprint shall be placed on the collector along with other required identifying information.

(Note: If an individual violently resists or presents other officer safety issues, employees may omit buccal swab samples upon approval of a supervisor.)

374.3.3 FULL PALM PRINTS

Full palm print impressions shall be obtained on Department of Justice prescribed forms along with all DNA samples. (PC §298(b)(4)).

374.4 SAMPLE COLLECTION REFUSALS

CSB Technicians should make every effort to obtain a DNA sample and palm print impressions from qualified adult arrestees and to avoid refusals. When an arrestee, who meets the criteria for DNA sample collection pursuant to PC §296, refuses to provide a DNA sample, the CSB Technician(s) shall advise the arresting officer. The arresting officer shall verbally inform the arrestee that if they fail to provide a DNA sample and thumb and palm impressions pursuant to PC §296 that they will be charged with PC §298.1(a), a misdemeanor.

When an arrestee refuses to provide the required DNA sample and thumb and palm prints, the arresting officer shall charge the arrestee with PC §298.1(a), a misdemeanor, and include the refusal information in the original report. When appropriate, a misdemeanor citation shall be completed consistent with Policy §420.

The CSB Technician(s) shall write "Refused DNA/palm collection" on the arrest report in the "Identification Bureau Use Only" field prior to the arrestee being transported to Jail to alert the Jail staff that collection was refused and a forced DNA sample collection (blood draw, etc.) is required.

374.4.1

[REDACTED]

For the purpose of this section, the "use of reasonable force" shall be defined as the force that an objective, trained and competent officer faced with similar facts and circumstances would consider necessary and reasonable to gain compliance. [PC §298.1(c)(1)(A)].

374.5 PROCESSING DNA SAMPLES

All DNA samples and related materials shall be promptly forwarded to the DNA Lab using DOJ mailing tubes, labels and instructions for prompt analysis. [PC §§298(a) and (b)(1)].

374.5.1 NOTICE OF A REJECTED SAMPLE

In the event the Department of Justice notifies the Department that a DNA sample or print impression is not usable, the individual whose original sample or impression was provided is required to submit to collection of additional samples. The Department shall thereafter take all reasonable steps to collect additional samples from any such individual and promptly transmit these to the Department of Justice [PC §296.2(a)].

374.5.2 FOLLOW-UP NOTICE TO DOJ

Within two years of submitting any DNA specimen, sample or impression to the Department of Justice, this department shall notify DOJ whether the individual remains a suspect in a criminal investigation [PC §297(b)(2)]. It shall be the responsibility of the Department of Justice to thereafter purge samples of any individual(s) who are no longer a suspect in any criminal investigation from the DNA database.

374.6 RELATED STATUTES

It is a felony for any qualifying individual to knowingly facilitate the collection of a wrongfully attributed DNA sample or identification information, or to knowingly tamper with any DNA sample or collection container with the intent to deceive the government as to their identity (PC §298.2).

It is unlawful for any person to knowingly misuse or disclose to an unauthorized entity a DNA sample collected or profile obtained for DNA database purposes [PC §299.5(i)(1)(A)].

374.7 LITIGATION

The Chief of Police or authorized designee shall immediately notify the Department of Justice DNA Legal Unit at (415) 703-5892 in the event this Department is named in a lawsuit involving the DNA Data Bank sample collection, sample use, or any aspect of the state's DNA Data Bank Program.

Fresno Police Department Policy Manual

Gun Violence Restraining Orders

375.1 POLICY

It is the policy of the Fresno Police Department to petition and serve gun violence restraining orders in compliance with state law and to properly account for firearms and ammunition obtained by the Department pursuant to such orders.

375.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for petitioning and serving gun violence restraining orders and accounting for the firearms obtained pursuant to those orders.

375.2 DEFINITION:

Gun Violence Restraining Order (GVRO) - Civil restraining order prohibiting a named person from controlling, owning, purchasing, possessing, receiving or otherwise having custody of any firearms or ammunition (Penal Code §18100).

Immediate Family Member- Any spouse, whether by marriage or not; domestic partner; parent; child; any person related by consanguinity or affinity within second degree, or any person related by consanguinity or affinity within the fourth degree who has had substantial and regular interactions with the subject for at least one year (Penal Code § 18150).

375.3 GUN VIOLENCE RESTRAINING ORDERS

An officer who reasonably believes a person is a present danger to themselves or another person by controlling, owning, purchasing, possessing, receiving or otherwise having custody of a firearm may request permission from their supervisor to petition the court for a gun violence restraining order.

The petition should describe the number, types and locations of any firearms and ammunition that the officer believes to be possessed or controlled by the person (PC §18107).

Based on circumstances, three types of GVRO may be issued by the courts:

- (a) Emergency GVRO;
- (b) Temporary GVRO; and
- (c) GVRO, issued after notice and a hearing.

The court may also issue a warrant to search and remove all firearms and ammunition from a prohibited person based on the sworn affidavit of a police officer that the prohibited person has failed to comply with the GVRO.

A person in possession of a firearm in violation of GVRO is guilty of a misdemeanor (PC §18205).

Any person who files a petition for a GVRO that contains statements the person knows are false, or with intent to harass the subject of the petition for a GVRO is guilty of a misdemeanor (PC §18200).

375.4 EMERGENCY GVRO

GVRO's can be issued 24 hours per day, seven days per week.

A judicial officer may issue a GVRO whenever a law enforcement officer asserts reasonable grounds to believe **both** of the following:

- (a) The subject of the petition poses an immediate and present danger of causing personal injury to themselves or another by having in their custody or control, owning, purchasing, possessing, or receiving a firearm; and

- (b) An emergency gun violence restraining order is necessary to prevent personal injury to the subject of the petition or another because less restrictive alternatives either, have been tried and found to be ineffective, or have been determined to be inadequate or inappropriate for the circumstances of the subject of the petition [PC §18125(a)].

375.4.1 PROCEDURES FOR ISSUANCE OF GVRO'S

A judicial officer shall be contacted, through the Court Dispatch Center at 457-4999, regardless of the time of day. Between the hours of 1800-0600, weekends, and court holidays, calls will be forwarded and processed by Sheriff's Department Communications Center. The determination of the designated judicial officer to issue or not to issue a GVRO will be final.

Note: The temporary inability of FSD dispatch to locate a judicial officer does not relieve officers of their obligations under this section.

The investigating officer shall ensure that the reporting party understands the circumstances under which a GVRO can be issued.

The expiration date for GVRO's shall be the 21st calendar day following the day of issuance.

The issuing officer shall inform the reporting party of:

- (a) The expiration date and time of the GVRO; and
- (b) The need to apply to the court for a temporary restraining order beyond that date.

The officer who completes a GVRO shall turn the GVRO in to the Records Bureau by the completion of their shift.

A GVRO shall be served upon the restrained party by the issuing officer when the restrained party can be reasonably located. When the restrained party cannot be located, the issuing officer shall contact the ComCen to have a premise history placed on the affected addresses listing the name of the restrained party and the fact that an unserved GVRO is on file in the Records Bureau. The premise history shall include the GVRO's date of expiration. When a valid GVRO is in effect and proof of service has been verified, the officer shall use every reasonable means to enforce the order.

375.4.2 REQUIRED REPORTS FOR GVRO

When a GVRO is issued, the issuing officer shall:

- (a) Prepare a GIR entitled "GVRO";
- (b) The person to be restrained shall be listed as an "Involved Party"; and
- (c) The person(s) contacted during the investigation shall be listed as the "Reporting Party" or "Witness", as applicable.

375.4.3 DISTRIBUTION OF GVRO FORMS

- (a) The white copy shall be turned in to the Records Bureau by the end of the work shift;
- (b) One copy shall be provided to the Court; and
- (c) One copy shall be provided to the restrained party, when present

Records shall maintain a 21-day file of all served and unserved GVRO's

375.4.4 VERIFICATION OF GVRO'S

Prior to enforcement of a GVRO, officers shall determine if the order is valid, by contacting the issuing agency or examining a copy of the order to establish:

- (a) The order has not expired;
- (b) Whether proof of service or prior notice exists or can be established; and
- (c) The terms of the restraining order.

375.4.5 UNSERVED GVRO'S

When an officer is in possession of an unserved copy of a GVRO and encounters the restrained party within the effective period, they shall provide the copy to the restrained party and shall complete the "Restraining/Emergency Protective Order Proof of Service Form".

All other officers encountering unserved restrained parties listed in active GVRO's (and other court orders) shall follow the procedures listed above.

Requests to serve a citizen's GVRO should be referred to the FSO Civil Unit for service.

375.5 TEMPORARY GVRO

A police officer or an immediate family member may request a temporary GVRO from the Fresno County Superior Court, 1130 O. Street, Fresno, CA during normal court business hours. (PC §18150) An affidavit which sets forth the facts establishing the grounds for the petition must be completed. CIT shall be notified of any Emergency GVRO issued by a member via email at CIT@Fresno.Gov along with the associated case number prior to the end of their shift. A CIT member will review the case and conduct follow up to determine if an affidavit needs to be submitted on behalf of the Department for any mental health-related GVRO. CIT will distribute all other GVROs to the appropriate unit for review.

A court may issue a temporary GVRO against a person if the petitioner shows good cause to believe there is a substantial likelihood that the subject of the petition will, in the near future, cause personal injury to self or others by owning or possessing a firearm, and that the temporary GVRO is necessary to prevent such injury because less restrictive alternatives have been deemed ineffective, inadequate, or inappropriate.

The order will remain effective for 21 calendar days after its issuance. The court must provide a hearing for the restrained person within this 21-day effective period to determine whether a more permanent GVRO is warranted or if the order is no longer necessary and the firearms should be returned to the subject of the order.

375.6 GVRO AFTER NOTICE HEARING

Subsequent to the temporary GVRO hearing, the court will schedule another hearing to determine whether there is a need to order a more "permanent" order or to terminate the temporary restraining order. The prohibited person will receive notice of this hearing. During this proceeding, the court may hear from the restrained party seeking to terminate the order.

The court may also hear from the petitioner seeking the order and from any witnesses produced by the petitioner. After hearing all of the evidence, the court may extend the GVRO up to one year. The evidentiary requirements and standard of review for this order are similar to any temporary restraining order.

375.7 SERVICE OF GVRO

An officer serving any gun violence restraining order shall:

- (a) Utilize California Courts GV-200 Proof of Service form;
- (b) Inform the restrained party of the scheduled hearing;
- (c) Verbally ask the restrained party if they have any firearms, ammunition, or magazines in their possession or under their control);
- (d) Request any firearms and ammunition be immediately surrendered if not already seized;
- (e) Complete the proof of service prior to end of shift and submit the form to teletype to be entered into CARPOS;
- (f) As soon reasonably possible deliver a copy of the proof of service to the City Attorneys' Office for filing with the Court; and
- (g) Complete a follow up report under the original Fresno Police Department case number documenting the service or attempt of service.

If no request to surrender the firearms is made to the restrained person they are required, within 24 hours, to surrender to a law enforcement agency any other firearms and ammunition they own or that are in their custody or control or sell them to a firearms dealer.

All firearms and ammunition collected shall be handled and booked in accordance with Policy §804 - Property and Evidence.

375.8 SEARCH WARRANTS

When a person who has been served with a gun violence restraining order refuses to surrender any firearm or ammunition, the officer should consider whether to seek a search warrant. If a search warrant is to be obtained, the preparation and service of the search warrant shall be done in accordance with Policy §323 - Search Warrant/Pre-Planned Tactical Operations. Additionally, (PC §1542.5):

- (a) The officer serving the warrant shall take custody of any firearm or ammunition that is controlled, possessed or owned by the person who is the subject of the gun violence restraining order, including any discovered pursuant to the warrant, a consensual search or other lawful search;
- (b) If the location being searched is jointly occupied and the firearm or ammunition is owned by a person other than the restrained person, the firearm or ammunition should not be seized if the following conditions are met:
 - 1) The firearm or ammunition can be stored in a manner that does not allow the restrained person to have control or access; and
 - 2) There is no evidence that the owner unlawfully possesses the firearm or ammunition; and
- (c) If a locked gun safe belonging to someone other than the subject of a gun violence restraining order is discovered, the officer shall not search the contents of the safe unless the owner consents or there is a valid search warrant for the safe. Any search of the safe must be done in the owner's presence.

375.9 RECORDS MANAGER RESPONSIBILITIES

The Records Manager is responsible for ensuring:

- (a) Proof of service of any GVRO served by an officer or received from the clerk of the court is entered in the computer database system for protective and restraining orders maintained by the Department of Justice within one business day of service if served by an officer, or within one business day of receipt of proof of service if served by a person other than a law enforcement officer (PC §18115);
- (b) Oral orders are entered into the California Restraining and Protective Order System (PC §18140); and
- (c) Copies of receipts of surrendered firearms or ammunition issued by other agencies for gun violence restraining orders issued by the Department are properly maintained (PC §18120).

375.10 COURT ORDERED FIREARMS AND AMMUNITION SURRENDERS

Authorized members shall accept firearms and ammunition from any individual who is the subject of a GVRO. The member receiving any firearm or ammunition shall:

- (a) Record the individual's name, address and telephone number;
- (b) Record the serial number of the firearm;
- (c) Prepare an incident report and property report;
- (d) Provide a property receipt to the individual who surrendered the firearms and ammunition; and
- (e) Package and submit the firearms and ammunition in accordance with Policy §804 - Property and Evidence.

375.11 RELEASE OF FIREARMS AND AMMUNITION

Firearms and ammunition that were taken into temporary custody or surrendered pursuant to a GVRO shall be returned to the restrained person upon the expiration of the order and in accordance with PC §18120 and Policy §804 - Property and Evidence.

376.1 POLICY

Senate Bill 2 (Kenneth Ross Jr. Police Decertification Act of 2021) – Commonly referred to as SB2.

On September 30, 2021, (SB) 2 was signed into law, which made significant changes to existing Civil, Government, and Penal Codes. These changes provide for additional peace officer hiring eligibility requirements and also grant the Commission on Peace Officer Standards and Training (POST) the authority to certify all peace officers in California, and subsequently take action against those certifications, should POST determine serious misconduct occurred. While the peace officer eligibility hiring requirements went into effect on January 1, 2022, the remaining changes became effective January 1, 2023.

376.1.1 DEFINITIONS

When the Department receives a complaint alleging “serious misconduct” by one of our sworn Department members, the Department will have ten calendar days to notify POST of the alleged misconduct. POST defines “serious misconduct” allegations as follows:

Abuse of Power - including, but not limited to, intimidating witnesses, knowingly obtaining a false confession, and knowingly making a false arrest. For purposes of this definition, in considering whether a suspension or revocation of certification is proper, POST will consider the extent to which the abuse of power was a knowing abuse of the power and authority of a public office.

Acts that Violate the Law - sufficiently egregious or repeated as to be inconsistent with a peace officer’s obligation to uphold the law or respect the rights of members of the public, as determined by POST.

Demonstrating Bias - on the basis of actual or perceived race, national origin, religion, gender identity or expression, housing status, sexual orientation, mental or physical disability, or other protected status in violation of law or department policy or inconsistent with a peace officer’s obligation to carry out their duties in a fair and unbiased manner. This does not limit an employee’s rights under the First Amendment to the United States Constitution.

Dishonesty - relating to the reporting, investigation, or prosecution of a crime, or relating to the reporting of, or investigation of misconduct by, a peace officer or custodial officer, including, but not limited to, false statements, intentionally filing false reports, tampering with, falsifying, destroying, or concealing evidence, perjury, and tampering with data recorded by a body-worn camera or other recording device for purposes of concealing misconduct. For purposes of this definition, in considering whether a suspension or revocation of certification is proper, POST will consider the extent to which the dishonesty relates to a material or significant fact in the context of the statement or omission alleged to be dishonest and will also consider whether the dishonesty appears to have been done willfully or intentionally, with the intent to deceive.

Failure to Cooperate with an Investigation - into potential police misconduct, including an investigation conducted pursuant to this Policy. For purposes of this definition, the lawful exercise of rights granted under the United States Constitution, the California Constitution, or any other law shall not be considered a failure to cooperate.

Failure to Intercede – when present and observing another officer using force that is clearly beyond that which is necessary, as determined by an objectively reasonable officer under the circumstances, taking into account the possibility that other officers may have additional information regarding the threat posed by a subject.

Participation in a Law Enforcement Gang - For the purpose of this definition, a “law enforcement gang” means a group of peace officers within a law enforcement agency who may identify themselves by a name and may be associated with an identifying symbol, including, but not limited to, matching tattoos, and who engage in a pattern of on-duty behavior that intentionally violates the law or fundamental principles of professional policing, including, but not limited to, harassing, or discriminating against any individual based on a protected category under federal or state antidiscrimination laws, engaging in or promoting conduct that violates the rights of other employees or members of the public, violating agency policy, the persistent practice of unlawful detention or use of excessive force in circumstances where it is known to be unjustified, falsifying police reports, fabricating or destroying evidence, targeting persons for enforcement based solely on protected characteristics of those persons, theft, unauthorized use of alcohol or drugs on duty, unlawful or unauthorized protection of other members from disciplinary actions, and retaliation against other officers who threaten or interfere with the activities of the group.

Physical Abuse - including, but not limited to, the excessive or unreasonable use of force.

Sexual Assault – as described in Penal Code Section 832.7(b) and shall extend to acts committed amongst members of any law enforcement agency. Penal Code 832.7 (b) defines sexual assault as the commission or attempted initiation of a sexual act of a member of the public by means of force, threat, coercion, extortion, offer of leniency or other official favor, or under the color of authority. For purposes of this definition, the propositioning for or commission of any sexual act while on duty is considered a sexual assault, and a “member of the public” means any person not employed by the officer’s agency and includes a cadet, explorer, or other youth program affiliated with the agency.

376.2 REPORTING TO THE COMMISSION

The Department will, within 10 calendar days report to POST the following events: The Administrative Division Commander, or designee, shall make the required notifications.

1. The employment, appointment, or termination or separation from employment or appointment, of any peace officer. Separation from employment or appointment includes any involuntary termination, resignation, or retirement.
2. Any complaint, charge, or allegation of conduct against a peace officer that could render a peace officer subject to suspension or revocation of certification by POST because of any serious misconduct defined in this Policy. Supervisors have responsibilities in Policy section 376.2.1 below to follow.
3. Any finding or recommendation by a civilian oversight entity, including a civilian review board, civilian police commission, police chief, or civilian inspector general, that a peace officer employed by that agency engaged in conduct that could render a peace officer subject to suspension or revocation of certification by POST because of any serious misconduct defined in this Policy. This will include any such finding or recommendation by the City of Fresno’s Officer of Independent Review (OIR).
4. The final disposition of any investigation that determines a peace officer engaged in conduct that could render a peace officer subject to suspension or revocation of certification by POST because of any serious misconduct defined in this Policy.
5. Any civil judgment or court finding against a peace officer based on conduct, or settlement of a civil claim against a peace officer or the Department/City based on allegations of officer conduct that could render a peace officer subject to suspension or revocation of certification by POST because of any serious misconduct defined in this Policy.

376.2.1 SUPERVISOR RESPONSIBILITIES

When a supervisor completes a formal interview of a complainant and the supervisor identifies the allegation as “serious misconduct,” as defined in this Policy, the supervisor shall by the end of the shift send an email to the Internal Affairs Staff Assistant informing them of the allegation. The supervisor shall provide the following information, if known:

- a) Date and time supervisor was made aware of the alleged serious misconduct (including the date and time of any complainant’s formal interview into the allegation);
- b) Date and time or time range of the alleged misconduct;
- c) Location(s) of the alleged misconduct;
- d) Name of the complainant(s);
- e) Name(s) of the accused officer(s);
- f) List of any outside agency involved in the serious misconduct allegation;
- g) Brief narrative of what allegedly occurred.

376.2.2 NOTICE OF COMPLAINTS

When the Department receives notice of a complainant wishing to file a complaint that qualifies as serious misconduct, as defined in this Policy, but the complainant refuses to cooperate, the supervisor will make every effort to take a formal statement from the complainant. The supervisor shall document the attempts made to formally interview and receive the complaint. Once all means to receive the formal complaint have been exhausted, the supervisor shall notify the Internal Affairs Staff Assistant of the serious misconduct allegation. The date and time the final effort was made to contact the complainant shall be the date used for the date the Department became aware of the alleged serious misconduct or the date of the formal statement. SB 2 does not exclude frivolous, clearly unfounded or exonerated complaints. All complaints of serious misconduct, as defined in this Policy, either informal (closed out by the Informal Complaint Form process) or formal (resulting in an Internal Affairs investigation), shall be reported to POST.

Questions regarding whether an allegation should be considered serious misconduct, as defined in this Policy, shall be directed to the Internal Affairs Commander.

376.3 RECORD RETENTION

Internal Affairs files shall be maintained under the exclusive control of the Internal Affairs Bureau in conjunction with the Office of the Chief. Access to these files may only be approved by the Chief of Police or the Internal Affairs Bureau commander. The Internal Affairs Bureau will maintain a separate secure file for retention of the following records, with the appropriate schedule; as defined in Policy § 1026.13 (PC § 832.7; Administrative Order 2-14).

Civil Search Warrants / Pre-Planned Safety Operations

377 Civil Search Warrants / Pre-Planned Safety Operations

377.1 POLICY

Officers shall take the necessary steps to plan all civil search warrant services and pre-planned safety operations carefully to prevent injury to the citizens and members. Civil search warrants are only to be executed by sworn personnel. Civil search warrants shall follow all protocols set forth within Policy §323 Search Warrants / Pre-Planned Tactical Operations (e.g., search warrant plan, tactical operations plan, risk assessment matrix, etc.).

377.1.1 PURPOSE AND SCOPE

A pre-planned safety operation is any operation where officers plan on taking some sort of enforcement action. An example of a pre-planned safety operation would consist of assisting code enforcement with a civil inspection warrant. The primary purpose is to serve as the safety element to secure and clear the requested location for the safety of the requesting agency.

377.2 CIVIL INSPECTION WARRANTS

California Code of Civil Procedure Sec. §1822.50 states an inspection warrant is an order, in writing, in the name of the people, signed by a judge of a court of record, directed to a state or local official, commanding them to conduct any inspection required or authorized by state or local law or regulation relating to building, fire, safety, plumbing, electrical, health, labor, or zoning.

In all instances when assistance is requested for a civil inspection warrant, (e.g., Code Enforcement Warrant) members shall follow the search warrant protocols set forth within Policy §323. A member of the department shall be designated to act as a liaison and case agent between the agencies. The primary function is to serve as the safety element to secure and clear the residence, commercial building, or other structure, RVs, and/or other curtilage associated with the property as specified in the warrant for the safety of the requesting agency. These structures may be occupied by property owners, tenants, or unauthorized persons.

377.3 ENTRY INTO THE LOCATION / PROPERTY

Once the decision to make entry is made the following announcement should be made inside the property and recorded on a body worn camera:

“This is the Fresno Police Department, no one inside or on the property is under arrest. This is a civil inspection warrant only and Code Enforcement needs to inspect the property. We need all occupants to make themselves known and exit the property.”

Several announcements should be made if practical into the property to allow all occupants to exit. Once the property is secure the scene will be turned over to the requesting agency. Scene security should be provided if requested.

If a crime is committed or observed during the execution of the civil inspection warrant, officers should establish containment and control over the scene. If necessary, a criminal search warrant shall be authored to make forced entry into the location or to seize evidence of a crime that was located in plain view.

377.4 FORCED ENTRY

The civil inspection warrant may allow for forced entry. However, any such forced entry for a civil warrant will be conducted by the requesting agency (e.g., a locksmith retained by Code Enforcement). The on-scene police supervisor will determine if the situation allows for forced entry to be made with a locksmith. If the situation is deemed unsafe entry will not be made. Forced entry based solely on the Civil Warrant

shall not be made by the police unless an exigent circumstance presents itself as outlined within Policy §325 Forced Entry.

377.5 DISENGAGEMENT FROM A CIVIL WARRANT

The on-scene supervisor can decide at any time to disengage from a civil warrant. The reading of the disengagement notice is not necessary solely for a civil warrant. The reading of the disengagement notice will be at the discretion of the on-scene supervisor if deemed necessary based on the circumstances (e.g., WIC 5150 making threats, armed subject, etc.). The on-scene supervisor should first consult with their chain of command and if necessary, the legal advisor prior to disengagement.

377.6 SECURING IMMINENTLY DANGEROUS BUILDINGS / FINAL ORDER POSTING

The protocols set forth within this specific policy do not apply to Code Enforcement patrol requests to clear buildings that are in such condition as to make it immediately dangerous to the life, limb, property, or safety of the public or the occupants. Such buildings may be ordered to be immediately vacated and secured, pursuant to FMC 11-332. Prior to making entry upon a Code Enforcement patrol request, officers should consult with a supervisor before clearing any location or property, absent any exigent circumstance to life. The supervisor will consider the circumstances, legal authority, and the immediate need to clear the location or property rather than Code Enforcement securing a civil inspection warrant.

If the location has previously been cleared and posted pursuant to FMC 11-333 (e.g., Boarded Up / Secured Against Entry) a person's failure to comply is guilty of a misdemeanor. Officers can use discretion when clearing such locations or property.

New Provisional Orders will be made available for patrol supervisors and will be discussed at briefings and shift meetings. A copy of the Provisional Order will be placed on the briefing room clipboard.

402.1 POLICY

The Fresno Police Department is committed to providing law enforcement services to the community with due regard for the racial, cultural or other differences of those served. It is the policy of this department to provide law enforcement services and to enforce the law equally, fairly and without discrimination toward any individual or group. All members shall interact with the public in a professional, impartial, fair, respectful and nondiscriminatory manner.

Race, ethnicity or nationality, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability or affiliation with any other similar identifiable group shall not be used as the basis for providing differing levels of law enforcement service or the enforcement of the law.

402.1.1 PURPOSE AND SCOPE

This policy provides guidance to department members and establishes appropriate controls to ensure that members of the Fresno Police Department do not engage in racial or bias-based profiling or violate any related laws while serving the community. All personnel should treat all members of the public with courtesy, professionalism, and respect. Department members should not use harassing, intimidating, derogatory, or prejudiced language, particularly when related to an individual's actual or perceived protected characteristics.

402.2 DEFINITION

Racial- or Bias-Based Profiling - An inappropriate reliance on actual or perceived characteristics such as race, ethnicity, color, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability, affiliation with any non-criminal group (protected characteristics), or other similar identifiable group as the basis for providing differing law enforcement service or enforcement (Penal Code §13519.4).

402.3 GUIDELINES

Racial or bias-based profiling is strictly prohibited.. However, nothing in this procedure is intended to prohibit an officer from considering factors such as race or ethnicity in combination with other legitimate factors to establish reasonable suspicion or probable cause (e.g., suspect description is limited to a specific race or group).

- (a) It is the responsibility of all members to prevent, report, and respond appropriately to identify discriminatory or biased practices.
- (b) Members engaging in a non-consensual contact shall be prepared to articulate sufficient reasonable suspicion to justify the contact, independent of the individual's protected class, including but not limited to, traffic stops, field contacts, detentions, as well as asset seizure and forfeiture proceedings.
 - 1) Nothing in this procedure requires any prepared documentation of a contact that would not otherwise require reporting.
 - 2) To the extent that written documentation is completed (e.g., arrest report, F.I. card, etc.), members should include those facts giving rise to reasonable suspicion or probable cause for the contact.
 - 3) While the practice of racial profiling is strictly prohibited, it is recognized that race or ethnicity may be legitimately considered by an officer in combination with other legitimate factors to establish reasonable suspicion or probable cause (e.g., suspect description is limited to a specific race or group).

402.4 STOP DATA COLLECTION SYSTEM

The Stop Data Collection System (SDCS) is a web based demographic data collection system for lawful detentions, administered by the State of California. Participation in the SDCS is required under Assembly Bill 953 for certain law enforcement agencies, including the Fresno Police Department. The data collected is similar to what the Department has been collecting for over 17 years, however there will be some changes as to when stop data will be collected and transmitted;

- (a) If multiple agencies are involved in a stop and the Department is the primary agency, a Department officer shall collect the data elements and prepare the stop data report.
- (b) When multiple officers conduct a stop, the officer with the highest level of engagement with the person detained shall collect the data elements and prepare the report.
- (c) A SDCS entry shall be completed when a passenger in a vehicle stopped becomes detained independent of the traffic stop.

Enforcement operations, including DUI checkpoints, which stop vehicles at regular intervals are exempt from this requirement, unless the officer develops individualized suspicion regarding an occupant in the vehicle, i.e., driver appears to be under the influence of alcohol/drugs, passenger is wanted.

An officer shall complete all stop reports for stops made during their shift by the end of that shift, unless exigent circumstances preclude doing so. In such circumstances, the data shall be completed as soon as practicable. In the event a stop report is to be completed during an encounter resulting in an Officer Involved Shooting or In-Custody death, the homicide unit supervisor, or their designee, shall complete the stop data report for the involved officer.

402.5 TRAINING

- (a) Sworn members will attend POST approved training on the subject of racial profiling.
- (b) Pending participation in such POST approved training and at all times, members are encouraged to familiarize themselves with and consider racial and cultural differences among members of our community.
- (c) Members will thereafter be required to complete an approved refresher course every five years or sooner if deemed necessary in order to keep current with changing racial and cultural trends [PC §13519.4(i)].

402.6 ANNUAL ADMINISTRATIVE REVIEW

The Policy and Procedures Unit will conduct a documented annual administrative review of agency practices including public concerns and complaints regarding bias-based profiling.

- (a) This will include an IA database search for any inquiries or complaints alleging bias-based police practices and review of monthly minutes regarding complaints received at Chief's Advisory Board (CAB) committee meetings.

- (a) The Corporal/FTO and the returning officer/CSO must sign the check-off sheet indicating the information was covered.
- (b) The re-introduction process is generally two weeks long but may be completed sooner or extended when necessary.
- (c) Should the re-introduction process uncover performance problems, the Corporal/FTO shall notify their immediate supervisor along with the FTO Coordinator to implement remedial instruction/training to correct the performance issue.

403.3.1 RELEASE PROCEDURES

The re-introduction process is an extension of the Field Training Program.

- (a) The returning officer/CSO will not be tested on the material.
- (b) The check off package, signed off by district command staff as having been completed, will be sent to the Training Bureau for inclusion in the returning officer's/CSO's training file.

403.4 SERGEANT REENTRY PROGRAM

The same purpose for reentry training for officers/CSOs applies to sergeants.

- (d) Reviewing recent incidents for training purposes; and
- (e) Providing training on a variety of subjects.

Members who wish to address members of a particular bureau, section, unit, or who wish a notice read to all members of a bureau, section, or unit must first obtain the permission of the affected bureau, section, or unit commander/supervisor.

404.3 SUPERVISOR RESPONSIBILITY

The supervisor conducting "briefing" is responsible for preparation of the materials necessary for a constructive briefing. Supervisors may delegate this responsibility to a subordinate employee in their absence or for training purposes.

Supervisors not assigned to patrol shall have at least one meeting each week where the weekly briefing training is shared with all members of their unit or bureau.

Any supervisor receiving a notice for reading at briefing or other general dissemination shall first ensure that it has been cleared through the proper commanding member. Certain documents such as missing person broadcasts, wanted subjects, etc. do not require prior approval.

406.1 POLICY

The protection and integrity of a scene is of the utmost importance for the successful apprehension and prosecution of criminals. The integrity of a disaster scene is equally as critical for the protection of life and property and investigation by proper authorities.

406.1.1 PURPOSE AND SCOPE

This policy provides an overview of the first responding officer's responsibilities at a crime scene or a major incident.

406.2 CRIME SCENE RESPONSIBILITY

The first responding officer at the scene of a crime is responsible for:

- (a) Preservation of the crime scene;
- (b) Officer and public safety; and
- (c) Rendering medical aid for any injured party.

406.2.1 MAJOR INCIDENT RESPONSIBILITIES

The first responding officer at the scene of a major incident is responsible for observation of all conditions, events and additional information relevant to the incident.

406.3 INITIAL RESPONSE

The following list describes the first responder's function at a crime or disaster scene. This list is not intended to be all-inclusive and is not necessarily in this order:

- (a) Ensure no subjects are still within the area;
- (b) Broadcast emergency information including all requests for additional assistance;
- (c) Provide first aid to injured parties if it can be done safely;
- (d) Secure the inner perimeter with crime scene tape;
- (e) Protect items of apparent evidently value; and

406.4 FIRST ARRIVING OFFICERS DUTIES

- (a) Record exact time of arrival.
- (b) If ambulance crew is not present, determine if possibility of life exists.
- (c) Enter immediate crime scene to view the victim (preferably one officer, use one path).
- (d) If any possibility of life exists, apply appropriate rescue and first aid techniques and summon ambulance to scene.
- (e) Record any alterations to crime scene that were necessary (lights, body moved) if entry into the crime scene is necessary to ascertain victim's condition.
- (f) Protect the crime scene.
- (g) If victim is removed from scene by ambulance crew, ensure that one officer accompanies victim to hospital. If death is imminent, attempt to elicit a dying declaration.
- (h) If victim's clothing is removed at the hospital, the accompanying officer shall maintain control of clothing and turn them over to the Crime Scene Investigations (CSI).
- (i) Attempt to record names, addresses, DOB's, and telephone numbers of all persons at crime scene. Remove them from immediate area and maintain control.
- (j) If ambulance crew is present, record names, work addresses and phone numbers.
- (k) Determine if ambulance crew or any other person moved the body or any items within crime scene. If any alterations were made, record:

- 1) What alterations were made and when;

 - (m) If RP is present, obtain valid identification, record identity and knowledge of crime.
 - (n) If suspect has just fled the crime scene prior to officer's arrival, initiate crime broadcast if information is available.
 - (o) Supplemental broadcasts as necessary.

406.5 REQUESTING & DIRECTING CRIME SCENE ASSISTANCE

406.5.1 ASSISTING FIELD PERSONNEL

Primary investigating officers may direct other field personnel to assist them at a crime scene with the collection of evidence, preservation of the scene, or other needed activities. The primary field officer is ultimately responsible for the proper handling and reporting of crime scene investigations. They should, therefore, ensure that the direction given to assisting personnel was complied with.

406.5.2 PROCESSING FOR EVIDENCE

Primary investigating members have responsibility for the processing of most crime scenes for latent prints and other evidence. The exceptions are those crime scenes which require special expertise and/or equipment. In the absence of a CSI technician or other evidence technician, the primary member is responsible for properly processing, collecting, and booking evidence. Members shall exercise good judgment when processing crime scenes, devoting sufficient time and effort to each scene as warranted by the circumstances.

406.5.3 LATENT PRINT EVIDENCE

- (a) All surfaces which a suspect may have reasonably touched should be processed unless they are absolutely unsuitable (e.g., wet, burned, cloth, etc.).
- (b) A low probability of success alone is not an acceptable reason not to process for prints.
- (c) When a crime scene is not dusted for prints, the member's narrative in the report will reflect the specific reasoning.
- (d) When available, a CSO, Cadet, or other member shall be dispatched to process latent prints.
- (e) Each finger print lifted will be marked with all required information, including:
 - 1) Location from which the print was lifted; and
 - 2) General description of the areas processed.
- (f) Latent print evidence will be placed in a latent print envelop, properly marked, and sealed by the member at the scene.
- (g) The evidence will be placed in a latent print locker.

406.5.4 CRIME SCENE INVESTIGATIONS (CSI) RESPONSE

Scenes that should be processed by a CSI Technician include but are not limited to:

- (a) Homicides and attempt homicides and suspicious deaths;
- (b) Officer involved shooting;
- (c) Rapes; ADW's; robberies; gun violence
- (d) Kidnapping (where a possibility of evidence exist);
- (e) Bombing;
- (f) Fatal or probable fatal vehicle accidents;
- (g) Aircraft accidents; and
- (h) Incidents where there is a probability of future litigation against the City.

CSI should also be used for processing crime scenes under the following circumstances:

- (a) When officers have used force against an individual (injuries or lack of injuries);
- (b) Crimes of violence involving weapons, including ADW, PC 246, etc. (e.g. for collection of shell casings, expended rounds, or edged weapons containing blood evidence);
- (c) Crimes resulting in significant injury or hospitalization;

- (d) Sexual assault with visible injury;
- (e) Child abuse with visible injury;
- (f) Injuries of a sensitive nature;
- (g) Commercial or home invasion robbery;
- (h) Situations in which a personnel complaint has been made or appears likely to be made;
- (i) City vehicle involved collisions; and
- (j) When requested by a sergeant.

Circumstances under which CSI shall respond for photographs include:

- (a) Incidents of domestic violence involving strangulation; and
- (b) Child neglect cases resulting from unsanitary conditions in the household.

Investigating members who request a CSI technician for the purpose of taking photographs in incidents not listed above shall retain the responsibility for the latent print processing as well as the collection and booking of any other evidence at the scene.

When a CSI technician is called upon to process a scene, an officer will remain at the scene under all circumstances which pose a threat to the safety of the Tech. When a Tech feels the need for an officer to respond to a scene to stand by, the ComCen will dispatch an officer to the scene without delay.

406.6 SEARCHES AT CRIME OR DISASTER SCENES

Officers arriving at crime or disaster scenes are often faced with the immediate need to search for and render aid to victims and determine if suspects are present and continue to pose a threat. Once officers are satisfied that no additional suspects are present and/or there are no injured persons to be treated, those exigent circumstances will likely no longer exist. Officers should thereafter secure the scene and conduct no further detailed search until proper authority for the search is obtained.

406.7 ENTRY INTO CRIME SCENES OR MAJOR INCIDENTS

406.7.1 MEMBERS ENTERING CRIME SCENES

The primary member is responsible for maintaining strict control over all other persons entering the crime scene. No member shall enter the scene of a crime without good reason and the knowledge and consent of the primary investigating member except when necessary to protect lives or property.

406.7.2 PUBLIC ENTRY

No member of the public shall be allowed entry to a crime scene without good reason and legal right. All such entries shall be approved by the primary investigating member and any affected private property owner before they are allowed.

Any person(s) may be excluded from a crime scene when their presence may cause destruction or disruption of evidence.

The access to crime scenes by the media is explained in Policy §346.

406.8 TEMPORARY FLIGHT RESTRICTIONS

Crime and disaster scenes can sometimes attract news helicopters and other sightseeing aircraft. Whenever such aircraft pose a threat to public safety due to congestion or when the noise levels caused by loitering aircraft hamper incident operations, the field supervisor should consider requesting Temporary Flight Restrictions (TFR) through the Federal Aviation Administration (Federal Aviation Regulations §91.137). All requests for TFR should be routed through the Field Commander.

406.9 EXECUTION OF HEALTH ORDERS

Any sworn member of this Department is authorized to enforce all orders of the local health officer that have been issued for the purpose of preventing the spread of any contagious, infectious or communicable disease (HS §120155).

Fresno Police Department Policy Manual

Mass Arrests

407.1 POLICY

The Fresno Police Department has developed the following policy in order to address pre-planned events/incidents where mass arrests may occur.

407.1.1 PURPOSE AND SCOPE

This policy provides guidance for the coordination, deployment, and handling of a mass arrest incident as defined within this policy.

407.2 DEFINITION

Mass Arrest – Is defined as the arrest of persons during an event in which the number exceeds our Department's ability to:

407.3 EVENT / INCIDENT RESPONSIBILITIES

407.3.1 PRE-PLANNED EVENT

The Chief of Police and/or a division commander will designate a staff officer or supervisor as the Incident Commander.

The Incident Commander will make an assessment of the number of potential arrests and whether they may be peaceful or violent. Based on that assessment, the Incident Commander will configure arrest teams to safely manage multiple arrests.

In addition to planning for the number of arrests, the Incident Commander will have identified a staging location for transport vehicles and the area to process mass arrests.

After the event has been declared an unlawful assembly and dispersal order procedures have been followed as set forth in Policy §409, pre-designated arrest teams will take the prisoners from the place of demonstrating to the designated processing / holding area.

407.3.2 SPONTANEOUS INCIDENTS

Incidents may arise in the field which requires mass arrests to be made. When this occurs, the on-scene Incident Commander, for purposes of this order, will be the highest ranking member present until they are properly relieved.

407.4 ARREST PROCEDURES

After the persons identified for arrest have been isolated and contained, the designated arresting officers will take those persons into custody and deliver them to the processing personnel.

- (a) If the arrested persons are not to be released from the scene, they will be detained at a pre-determined area until such time as they can be transported to the designated holding area.
- (b) The receiving officer shall ensure that sufficient information is listed on the Arrest Report/ Citation to identify the arresting officer and the charges for which the person was arrested.

407.5 PROCESSING PROCEDURES

The following provisions for carrying out mass arrests will be handled in the prescribed manner:

- (a) Arrest;
- (b) Processing;
- (c) Confinement/holding; and
- (d) Booking or Cite and Release as applicable.

Once the prisoner has been processed, they will be detained at a designated holding area until such time that they can be transported for booking.

When booking is required, the transporting member will deliver the prisoner along with their booking paperwork and personal property to FCJ/FCJH.

407.6 JUVENILE OFFENDERS

Juvenile prisoners will be segregated from adult prisoners.

Disposition of juvenile prisoners shall be consistent with Policy §324.

Juveniles who are accompanied by an adult or parent who is arrested, if possible, will be released to a non-custodial adult who may lawfully take custody of the juvenile. If they cannot be released to an adult and are not arrested, they will be processed as a Welfare & Institutions Code §300.

407.7 IDENTIFICATION OF PRISONERS

The identity of all prisoners shall be verified by means of a valid photo ID, such as a California Driver's License or California ID card issued by the Department of Motor Vehicles, prior to release in the field.

- (a) A picture of the prisoner, along with the arresting officer will be taken.
- (b) The prisoner will hold a placard containing their name, date of arrest and other pertinent information.

Those prisoners whose identity cannot be verified in the field shall be transported to the Crime Scene Investigation Bureau.

- (a) Members shall make every attempt to ensure the prisoner's proper identity consistent with Policy §§324 and 355 prior to cite and release or booking.

407.8 TRANSPORTATION

Prisoner transportation shall be accomplished by means of available city vehicles. Transportation vehicles should be located in close proximity to the designated holding area.

Unless called upon to assume another role, transportation officers/personnel should remain with their assigned vehicle, both for transport availability and security reasons.

407.9 EVIDENCE

Items taken as evidence at the scene will be processed in accordance with the guidelines set forth in Policy §804.

407.10 SECURITY

Security shall be maintained at the staging area of vehicles and equipment. Officers will be assigned at the processing and holding area to protect against escape attempts or the destruction of property.

407.11 INTERAGENCY AGREEMENTS

Interagency agreements are pre-planned and in place prior to the large scale event if assistance from specific outside agencies is anticipated. In cases where a request is made for mutual aid it shall be handled consistent with the National Emergency Management System (NEMS) plan.

407.12 DEFENSE COUNSEL VISITS

Visits from counsel generally are not allowed during the booking process.

407.13 COURT AND PROSECUTORIAL LIAISON

In the pre-planning stages where mass arrests are anticipated, the City Attorney's Office and/or District Attorney's office should be consulted to ensure the proper charging of prisoners.

407.14 MEDIA RELATIONS

Media relations will be handled consistent with Policy §346.

407.15 FOOD, WATER, AND SANITATION

Appropriate steps will be taken to ensure that the basic necessities of food, water, and sanitation facilities are provided when it is anticipated that prisoners will be detained in the field for prolonged periods of time.

407.16 MEDICAL TREATMENT

If available, arrangements should be made to have emergency medical services (EMS) personnel on scene throughout the event. As part of the booking process at FCJ/FCJH, the on-duty medical personnel will conduct a medical screening.

Prisoners requiring medical attention will be transported to the appropriate medical facility as soon as practical. Prisoners requiring immediate emergency medical treatment will be transported by EMS.

408.1 POLICY

The Department has established the Special Weapons and Tactics (SWAT) Team to provide specialized support in handling critical field operations where intense negotiations and special tactical deployment methods are required.

408.1.1 PURPOSE AND SCOPE

The SWAT Team is a support element of the Department and should be utilized when the situation requires the use of their specialized capabilities. The SWAT Team has as a supporting element, the Crisis Negotiation Team (CNT).

408.1.2 OPERATIONAL AND ADMINISTRATIVE POLICY

Since situations that necessitate the need for such a police response vary greatly from incident to incident and such events often demand on-the-scene evaluation, the operational policy outlined in this manual section serves as a guideline to Department members allowing for appropriate on-the-scene decision-making as required. The administrative procedures, however, are more restrictive and few exceptions should be taken.

408.2 MANAGEMENT / SUPERVISION OF SWAT

The Commander of the SWAT Team shall be selected by the Chief of Police or designee upon recommendation of staff.

408.2.1 PRIMARY UNIT COMMANDER

Under the direction of the Chief of Police or designee, the CNT and SWAT Team shall each be managed by a lieutenant.

408.2.2 TEAM SUPERVISORS

The CNT and each SWAT Team will be supervised by a sergeant.

The team supervisors shall be selected by the Chief of Police or designee, upon specific recommendation by staff and the SWAT Commander.

The following represent the supervisor responsibilities for each team:

- (a) The CNT supervisor's primary responsibility is to supervise the operations of the Crisis Negotiation Team which will include deployment, training, first line participation, and other duties as directed by the CNT Commander; and
- (b) The SWAT Team supervisor's primary responsibility is to supervise the operations of the SWAT Team, which will include deployment, training, first line participation, and other duties as directed by the SWAT Commander.

408.3 SWAT TEAM

The SWAT Team was established to provide a skilled and trained team to be deployed during events requiring specialized tactics; for example, in such situations as cases where suspects have taken hostages and/or barricaded themselves. Additionally included are situations in which persons armed or suspected of being armed pose a danger to public safety. The Fresno Police Department SWAT Team is available and prepared to respond to a SWAT activation 24 hours a day and 7 days a week.

408.3.1 TEAM EVALUATION

Continual evaluation of a team member's performance and efficiency as it relates to the positive operation of the unit shall be conducted by the SWAT Commander. The performance and efficiency level, as established by the team supervisor, will be met and maintained by all SWAT Team members.

Any member of the SWAT Team who performs or functions at a level less than satisfactory shall be dismissed from the team.

408.4 APPROPRIATE SITUATIONS FOR USE OF SWAT

The following are incidents that may indicate the need for activation of the SWAT:

- (a) A sniper or suspected sniper;
- (b) Barricaded suspects who refuse an order to surrender;
- (c) Hostage situations;
- (d) Aircraft hijacking when the aircraft is on the ground;
- (e) The need to apply chemical agents;
- (f) High risk search or arrest warrant service; or
- (g) Any situation where a SWAT activation could enhance the ability to preserve life, maintain social order, and ensure the protection of property.

408.5 FIELD UNIT RESPONSIBILITIES

While waiting for the SWAT Team, field personnel should, if safe and practical:

- (a) Establish an inner and outer perimeter;
- (b) Establish a command post outside of the inner perimeter;

Upon review, it will be the Incident Commander's decision, with input from the SWAT Commander, whether to deploy SWAT.

Once the Incident Commander authorizes deployment, the SWAT Commander will be responsible for the tactical portion of the operation.

The Incident Commander shall continue supervision of the command post operation, outer perimeter security, and support for SWAT.

408.7 ACTIVATION PROCEDURES FOR SWAT

When it is determined that SWAT activation is necessary, the Duty Office shall implement the established activation procedure.

[REDACTED]

Unless canceled by the SWAT Commander or designee, the following members will respond to SWAT activations:

- (a) All SWAT Team members;
- (b) SWAT bus personnel;
- (c) The Crisis Negotiation Team;
- (d) Legal Advisor;
- (e) Public Information Officer (PIO); and

All such communications shall be channeled through the Negotiation Team Sergeant or designee.

408.9 SWAT MEMBER AVAILABILITY

SWAT members accept the responsibility of being available twenty-four hours a day and seven days a week, to respond for immediate deployment during SWAT activations. It is understood that certain situations may delay or prevent members from deployment and each situation will be evaluated by SWAT supervisors to determine the reasonableness of the delay or absence.

SWAT members will adhere to Policy 703, with the following exemptions and restrictions:

- (a) SWAT members are allowed increased flexibility to utilize their assigned Department vehicle when they are off duty. To better protect and serve the citizens of Fresno, SWAT members must be available to immediately respond to life threatening incidents with all their equipment. SWAT members may use their assigned Department vehicles for personal use, in situations that would otherwise create an extensive delayed response to SWAT activation, by having to retrieve their Department vehicle and equipment. Family members and non-Department members shall not be transported in a Department vehicle.
- (b) SWAT members shall not use their Department vehicle should there be a detectable amount of alcohol or narcotics in their system. SWAT members shall not use their Department vehicle to frequent any bar, casino, or establishment that would reflect a negative image on the Department. SWAT members shall not use their Department vehicle for child custody exchanges, any civil action the member is personally involved in, any outside employment, self-employed business, or other use that would reasonably appear to be a conflict of interest. SWAT members shall use discretion when using their assigned vehicle outside the scope of their duties, with a priority placed on the benefit to the Department over that of the member.
- (c) SWAT members parking their Department vehicle at home shall remove all SWAT equipment, unless the vehicle is stored in an enclosed locked garage. The Crisis Negotiation Team shall be called to respond to incidents where reasonable resolution attempts by other members have been unsuccessful, as a result of incidents involving:

- (a) Suicidal persons; and

The decision to request the Crisis Negotiation Team will most often be at the discretion of the Commander on-duty.

In their absence, a field supervisor will determine whether a Crisis Negotiation Team response is required.

As soon as it is determined that a Crisis Negotiation Team call-up is necessary, the Duty Office shall implement the established call-up procedure.

The Incident Commander, SWAT Unit Commander, Assistant Unit Commander, or a Team Leader in the Commander's absence, shall be notified of all requests for the Crisis Negotiation Team, whether or not a SWAT call-up has been initiated.

Fresno Police Department Policy Manual Demonstrations/Special Events/ First Amendment Operations

409.1 POLICY

The primary duty of the Fresno Police Department during special events/operations, demonstrations, and First Amendment Operations is to preserve the peace. Officers should make arrests only in serious matters and should leave open several avenues of escape so that the crowd may disperse easily. The goal of our department's involvement is to preserve the peace, prevent criminal activity, control traffic, and facilitate the safe exercise of an individual or group's First Amendment rights. In furtherance of these rights, and to facilitate the safe and peaceful exercise of an individual or group's First Amendment rights, the Department will take action to protect human life, property, and maintain peace when confronted with violence, threats of violence, assaults, or other criminal acts.

409.1.1 PURPOSE AND SCOPE

Common First Amendment Activities include, but are not limited to, speeches, demonstrations, vigils, picketing, distribution of literature, displaying banners or signs, using puppets to convey a message, and other artistic forms of expression. marches, protests, student walk-outs, assemblies, and sit-ins. Such events and activities

usually attract a crowd of persons, including participants, onlookers, observers, media, and other persons who may agree or disagree with the activity's point of view.

Reasonable Time (Dispersal Orders) - The time given to disperse a declared Unlawful Assembly. This time is contingent on many factors that need to be considered including crowd size, physical geography of the area occupied by the crowd, and limited avenues of egress. It is not unusual to give 30 minutes for a large crowd with limited egress.

409.3 AUTHORITY ON STATE / FEDERAL PROPERTY

Members have the authority to take action and make arrests for State offenses committed on local, State (e.g., college campuses) and Federal Government property. Accordingly, procedures for dealing with demonstrations on those premises will be similar or identical to those used for similar problems occurring elsewhere within the Department's jurisdiction.

409.3.1 COORDINATION OF EVENTS

Anticipated events on premises which are state or federally owned/operated shall be communicated to the appropriate district or field commander as soon as possible. The commander is responsible for the coordination of efforts to develop a plan for the Department's participation in the event. During a spontaneous incident, the on-scene Incident Commander should coordinate with the authority responsible for the property.

409.4 DEMONSTRATIONS/SPECIAL EVENTS AND FIRST AMENDMENT EVENTS

In dealing with all First amendment events officers should familiarize themselves with Penal Code §§148, 302, 402, 403 through 410, 415 through 418, 647c, 726 and 727.

409.4.1 PRE-PLANNED EVENTS

When appropriate, and consistent with this Policy, the Incident Commander, or their designee, shall be responsible for developing a written operations plan, consistent with the Department's goals and objectives to minimize harm, honor constitutional rights, communicate with the event participants, and facilitate First Amendment Activity. When knowledge exists that a First Amendment Activity may occur, the Incident Commander or designee shall proactively make reasonable attempts to establish and maintain communication and cooperation with representatives or the First Amendment Activity leaders. In planning for First Amendment Activity, Incident Commanders, or their designees, should consider the following factors in determining the appropriate resources and level of preparation necessary:

- a. When will the First Amendment Activity occur? (Day of the week, holiday, time of day/traffic patterns, daytime/nighttime, conflict with other events at the same time.)
- b. What is the goal of the First Amendment Activity? (Raise awareness, disrupt a target location, counter another demonstration, engage in criminal activity, etc.)
- c. What type of First Amendment Activity is expected to occur? (Press conference, demonstration, protests, static event, labor strike, picket line, march, caravan, sit-in/dine-in, etc.)
- d. Where will the First Amendment Activity likely occur? Will the event affect critical infrastructure like police stations, jails, courthouses, freeways, government buildings, etc.? Will the effect be deliberate or collateral?
- e. If the group intends to be mobile, what will the predicted or planned route(s) be? (First Amendment Activity participants may not provide their own traffic control.)
- f. What will be the projected size of the First Amendment Activity event?
- g. What will the composition of the group be? (Juveniles, students, labor unions, known local groups, known groups from outside the area, unified as to a single cause, or diverse causes and points of view within the group, etc.)
- h. Will there be an organizing individual/group, or will this be a crowd without identified leadership?
- i. Has the Department previously worked with the organizers? Have prior First Amendment Activities been lawful?
- j. Will the hosting group provide its own marshals or monitors?
- k. Is there a likelihood of improvised or conventional weapons?
- l. Will an opposing group attend the First Amendment Activity event?

- m. Are arrests likely? Will prisoner processing be necessary?
- n. What is the probability of civil disobedience, unlawful assembly or a riot occurring?
- o. The primary duty of officers is to preserve the peace. Officers shall make de-escalation of the demonstration a priority and adopt a guardian mindset toward the demonstrators.

At a demonstration or unplanned event:

- (a) The first unit to arrive shall survey the situation and shall advise the responding supervisor of the approximate size of the crowd, its actions and any possible weapons and will then report to a staging area as directed by the supervisor in charge;
- (b) The supervisor shall determine the need for additional units and will advise the ComCen of the staging area where officers are to meet and immediately notify the Field Commander/District Commander. That commander will then confer with the Traffic commander.
- (c) The vehicles of responding officers shall be parked together, with officers assigned to guard the vehicles;
- (d) The primary duty of officers is to preserve the peace. Officers shall make de-escalation of the demonstration a priority and adopt a guardian mindset toward the demonstrators. Officers should make arrests only in serious matters and should leave open several avenues of escape so that the crowd may disperse easily;
- (e) Media reporters may access areas shut off by police for a command post or similar during demonstrations, marches, protest, or a rally. It does not apply to a crime scene, traffic accident with road closures, scenes of an officer involved shooting, or an ongoing critical incident such as a barricade, search warrant or SWAT callout. Note: When any of the activities become unruly or violent, media are not granted access [Penal Code §409.7]
- (f) The District, Field Commander or Traffic Safety/Support Services Section Commander is responsible for initiating requests for mutual aid from other agencies, when needed. When the district, field commander or Traffic Safety/Support Services Section Commander determines that all available on duty personnel from the Department and assisting agencies cannot handle the situation, they shall notify the CSU duty officer to initiate emergency call-up procedures.

409.4.2 ASSEMBLIES

UNLAWFUL ASSEMBLY- An unlawful assembly is defined by California Penal Code 407 as "Whenever two or more persons assemble together to do an unlawful act or do a lawful act in a violent, boisterous, or tumultuous manner, such assembly is an unlawful assembly." When First Amendment Activity results in unlawful acts of violence, the Incident Commander shall consider the following in determining whether to declare the assembly unlawful:

1. The threat to people or property.
2. The number and nature of unlawful acts within the crowd.
3. The number and nature of violent acts within the crowd.
4. Whether the unlawful or violent acts result from one or two individuals or the larger crowd in general.
5. Whether separate crowds have merged and now the group has internal conflict between participants.
6. Whether contact with the police liaisons/event leaders to negotiate a resolution of the situation is appropriate and effective.
7. Evaluation of whether arresting individuals will be more appropriate than dispersing the entire crowd.
8. Determination if sufficient police resources are available on-scene to manage the incident effectively.

It is important to remember that failure to obtain a permit, such as a parade permit or sound permit, is not a sufficient basis to declare an unlawful assembly. Also, the sole fact that some of the demonstrators or organizing groups have previously engaged in violent or unlawful acts is not grounds for declaring an assembly unlawful.

409.4.3 DECLARATION OF AN UNLAWFUL ASSEMBLY

The incident commander should initiate a layered response to mass demonstrations that prioritize de-escalation and a guardian mindset. All efforts to disperse a crowd or to make arrests should be conducted in appropriate formation. Officers shall remain in the squad formation unless ordered to do otherwise. When a demonstration becomes riotous and the police are unable to restrain attendees or disperse it or after sufficient time is provided to allow dispersal, the ranking officer present shall declare the assembly unlawful and command the rioters to disperse immediately (PC §726). Those who remain may be taken into custody under PC §409.

The order to disperse shall follow the below format and shall be read three times in English and when necessary, an appropriate secondary language, at approximately 30 second intervals:

Officers shall use the following dispersal order:

"I, (name), am a peace officer of the State of California, and a police officer for the City of Fresno. I declare this to be an unlawful assembly in violation of the law, and I command you in the name of the People of the State of California to immediately disperse and leave the area of this unlawful assembly. If you fail to do so, you will be arrested or subject to other police actions. Other police actions may include the use of less lethal impact munitions which could cause significant risk of injury to those who choose to remain. Penal Code 409 prohibits remaining at an unlawful assembly. The following routes of dispersal are available (give dispersal routes). You have (reasonable time) to disperse."

(Spanish)"Yo, (name), soy un oficial de paz del estado de California, y oficial de policia en el departamento de policia de la ciudad de Fresno. Yo les ordeno en el nombre de los habitantes del estado de California, que inmediatamente se dispersen y abandonen este lugar en que se lleva al cabo esta junta ilicita. Si ustedes no abandonan este lugar, ustedes seran arrestados o sujeto a otras acciones policiales. Otras acciones policiales pueden incluir el use de municiones de impacto menos legal que podrian causar un riesgo significativo de lesions a quienes decidan quesarse. Codigo penal 409 prohíbe permanecer en una reunion legal. Las siguientes rutas de dispersion estan disponible (give dispersal routes). Ustedes tiene (reasonable time) para dispersar.

409.4.4 ARREST PROCEDURES

When it is determined that arrests are to be made, officers shall:

- (a) Position a public address system facing the crowd with the volume adjusted so that it can be heard in all areas to which a dispersal order may be directed. Officers shall be stationed at the farthest reaches of the crowd to determine that the system and subsequent announcements can be heard;
- (b) Ensure that video and audio recordings of the activities of the participants of the civil disorder are made during and after the reading of the orders; and
- (c) Read the nuisance declaration and dispersal order and verify with perimeter officers that all readings were audible to all areas. When any part of the dispersal order was inaudible, the order shall be re-read so that all persons in the area are able to hear the order.

When the orders were audible, arrest procedures may be started.

The preferred arrest procedure is for uniformed officers to approach those who were ordered to disperse and make the arrest of individuals. Members should avoid rushing a group unless such a tactic is required for safety considerations.

The individuals arrested should be taken to a waiting bus or holding area. A picture of the arrested individual, along with the arresting officer, shall be taken. The arrestee will hold a placard containing their name, date of arrest and other pertinent information.

409.5 USE OF CHEMICAL AGENTS

Department members may use issued Oleoresin Capsicum (OC) in crowd control situations to overcome resistance, defend themselves or others from injury, or under direction of the incident commander.

409.5.1 INDIVIDUAL DEPLOYMENT OF O.C.

Department members may use issued O.C. in crowd control situations to overcome resistance, defend themselves or others from injury, or under direction of the incident commander. Members shall remember that the use of O.C. should be reasonable under the totality of the circumstances.

Before the use of issued O.C., members should consider the:

- (a) Seriousness of the offense/violations of law;
- (b) Officer/Public safety;
- (c) Potential exposure to children, elderly, pregnancy, physical and disabled members and limited English proficiency of the crowd; and
- (d) Effective range of O.C.

409.5.2 SPECIALIZED CROWD CONTROL CHEMICAL AGENTS

Kinetic energy projectiles and chemical agents shall only be deployed by a peace officer that has received training on their proper use by the Commission on Peace Officer Standards and Training for crowd control if the use is objectively reasonable to defend against a threat of life or serious bodily injury to any individual, including any peace officers, or to bring an objectively dangerous and unlawful situation safely and effectively under control. Except in life threatening situations, the Chief of Police, or designee, shall have the overall authority on the use and deployment of specialized crowd control chemical agents and Kinetic weapons. PC §13652.1.

Before the use of specialized projectile or handheld chemical agents, members should consider issues from the above stated section, as well as:

- (a) Weather conditions;
- (b) Wind direction;
- (c) Avenues of escape for the crowd;
- (d) Protective devices for the crowd; and
- (e) Decontamination of persons exposed.

409.5.3 SPECIALIZED CHEMICAL AGENTS

The use of specialized chemical agents (e.g. Pepperball projectiles or tear gas) may become necessary to control, disperse or maneuver a crowd. Except in life threatening situations, the Chief of Police, or designee, shall have the overall authority on the use and deployment of specialized chemical agents.

Only members with POST certified training shall use chemical agents in crowd control situations.

409.6 SPECIAL EVENT OR OPERATION

409.6.1 SPECIAL EVENTS UNIT

The Special Events Unit under the Traffic Safety/Support Services Section will coordinate large scale events that overwhelm the resources of a Policing District, or that transcend District boundaries.

It is staffed by the Traffic Safety/Support Services Commander and the Special Events Unit Sergeant. Primary resources for special events will come from the Traffic and Support Bureau.

409.6.2 REQUESTS FOR SERVICE

The Chief of Police and/or the Traffic Safety/Support Services Commander will determine whether or not a special event will be coordinated by the Special Events Section. The criteria will be determined by the type and size of event.

All Commanders requesting the Special Events Unit to coordinate the policing of an event will submit a request through their chain of command to their division chief. Once an event has been assigned to the Special Events Unit, the approval of all permits, planning and coordination of services will be directed through the Special Events Unit. District resources will be provided to the Traffic Safety/Support Services Commander to assist with the policing of the events, and those resources will remain under their control until the conclusion of the event.

Reoccurring events (Veterans Day Parade, Mardi Gras, etc.) will require a request to the Traffic Safety/Support Services Commander a minimum of thirty days in advance or will not be considered. Large scale events that develop rapidly (Protests, Presidential escorts, etc.) will not fall under the thirty-day restriction.

409.6.3 EVENT COORDINATION

Events that are not coordinated by the Special Events Unit will be staffed at the District level. The Chief of Police and/or a Division Commander will designate a staff officer or supervisor, depending upon the anticipated size of the event, as the Event Coordinator. The Event Coordinator shall have responsibility and authority for decisions related to the assignment and coordination of resources at the event.

409.6.4 AFTER ACTION REPORT

The Event Coordinator shall prepare an After-Action Report for submission through their chain of command. The report shall identify an overview of the operation, summarize any unusual incidents which occurred during the event, and provide any information that would assist in future operations of a similar nature.

409.7 LABOR DISPUTES

Prior to receipt of a court order, the Department will remain neutral and serve only to preserve the peace and investigate or arrest for crimes committed.

Upon receipt of a valid court order, it shall be read to those assembled in English and, when necessary, in a secondary language (e.g., Spanish, Hmong, Lao, etc.).

- (a) After reading the full order, the ranking officer will declare the assembly unlawful, again in English and appropriate secondary language.
- (b) Officers shall verify the clarity of the reading of the order as provided under pre-arrest procedures below.
- (c) Duplicate copies of the order should be acquired to provide to participants involved in the civil disorder.

A tactical squad should be assigned for the specific purpose of observing leaders, strike captains, and others who appear to be in charge of picketing or striking activity.

- (a) The members of the tactical squad should also attempt to actually serve copies of the court order on the leaders they are assigned to observe, provided they have not been served previously.

The members of the tactical squad will maintain notes and make a police report on their observations of the individuals under surveillance at the conclusion of each day or upon completion of their assignment.

413.1 POLICY

The Department will develop and implement standardized levels of readiness in conjunction with public school administrators to enable quick and effective communication between our Department and public schools during critical situations by using terms common to both agencies.

413.1.1 PURPOSE AND SCOPE

The purpose of this policy is to define three levels of readiness of public schools in Fresno, the role and responsibilities of the Student Resource Officer (SRO), and to prevent and react to violent situations on any campus.

The three levels of readiness are Safe School Environment, Shelter-in-Place, and School Lock-Down. These terms and readiness levels have been developed in conjunction with public school administrators. The definitions and criteria for activation as contained in this order are to enable quick and effective communication between our Department and public schools during critical situations by using terms common to both agencies.

These terms and readiness levels have been developed in conjunction with public school administrators.

413.2 SAFE SCHOOL ENVIRONMENT

This is the basic, everyday level of operation of the school with features designed to improve the climate of safety. It includes quickly addressing misconduct, encourage compliance with the dress code, controlling campus access, issuing visitor I.D. cards, providing many student activities, adequate student counseling, conflict resolution programs, and encouraging school pride and parent involvement. SROs assist in the development and monitoring of these safety features.

413.3 SHELTER-IN-PLACE

This is a heightened state of readiness that is activated when violence threatens to reach a school campus, or a dangerous situation nearby warrants increased safety precautions at a school.

413.3.1 PERSONS WHO MAY ACTIVATE SHELTER-IN-PLACE

- (a) An officer may notify, or request Communications to notify, a school to activate shelter-in-place; and/or
- (b) Any member of school staff may also initiate shelter-in-place.

413.3.2 CONDITIONS IN WHICH TO ACTIVATE SHELTER-IN-PLACE

Shelter-in-place is appropriate whenever an officer or school staff member determines that a heightened state of alert, not reaching the ultimate stage of a school lock-down as contained in this order, is appropriate to secure the safety of students and staff. Such situations could include, but are not limited to, the following when occurring in close proximity to a school:

- (a) A SWAT action;
- (b) The immediate pursuit of a dangerous suspect;
- (c) The execution of a high-risk search or arrest warrant;
- (d) A large-scale enforcement operation involving potentially dangerous suspects; and
- (e) A violent situation off-campus threatens to involve a school campus (i.e., SWAT action, in-progress violent crime nearby).

413.4 SCHOOL LOCK-DOWN

This is the highest state of readiness that is activated when gun violence is occurring or is imminent on campus, or any other situation deemed by police or school staff to warrant a total lock-down of the campus.

413.4.1 PERSONS WHO MAY ACTIVATE A SCHOOL LOCK-DOWN

A School Lock-Down may be activated by:

- (a) An officer, either directly or via a request through ComCen; and/or
- (b) Any member of school staff.

413.4.2 CONDITIONS IN WHICH TO ACTIVATE A SCHOOL LOCK-DOWN

Situations in which a School Lock-Down is appropriate include:

- (a) Someone has a gun on campus;
 - (b) Someone with a gun is enroute to a campus;
 - (c) Shots are heard on campus; and
 - (d) An officer or school staff member deems any situation sufficiently dangerous to cause this maximum level of readiness.
- 

413.5 STUDENT RESOURCE OFFICERS

SROs are officer positions that are contracted with local school districts. The contracts specifically limit the SRO-services to their assigned school campuses. The SRO should not, without approval from the

SRO supervisor, be dispatched to calls for service away from or not directly related to their assigned schools.

The Department will assign SROs to provide police services at the schools assigned to them. The SRO will work towards improving the quality of life at their assigned schools by utilizing the principles of community policing.

The SRO will primarily focus their efforts on the high schools and middle schools in their district and in maintaining the Police/Probation Team relationships with the Juvenile Probation Department.

413.6 INVESTIGATION OF AND RESPONSE TO SCHOOL THREATS

Schools may receive threats from a variety of sources including social media, overheard conversations, graffiti on buildings, etc. The investigation of threats to schools shall receive high priority. The Department's goals are to utilize necessary resources to prevent violence and restore a sense of safety to the campus or school event as quickly as possible. Department resources will work collaboratively to achieve these goals.

- (c) Personally meet with the school's principal, or designee, to explain the Department's response; and

They will determine if there is a need to call in the SRO responsible for the school where the threat is occurring. The District Investigations Supervisor will also make a determination as to whether or not a District Investigator will need to be called in as well. Should there be a call-in, the member(s) called in will assume investigative responsibility of the threat.

413.6.4 SRO SUPERVISOR RESPONSIBILITY

The SRO supervisor shall also:

- (a) Ensure that a Code Red alert is sent out to all staff as soon as practical;
- (b) Coordinate law enforcement efforts with the appropriate school officials; and

The Department will collaborate, where feasible, with mental health professionals to develop an overall intervention strategy to guide its members' interactions with those experiencing a mental health crisis. This is to ensure equitable and safe treatment of all involved.

417.1.1 PURPOSE AND SCOPE

This policy provides guidelines for interacting with those who may be experiencing a mental health or emotional crisis. Interaction with such individuals has the potential for miscommunication and violence. These incidents often require an officer to make difficult judgments about a person's mental state and intent to effectively and legally interact with the individual.

417.2 DEFINITIONS

Person in Crisis - A person whose level of distress or mental health symptoms have exceeded the person's ability to manage their behavior or emotions. A crisis can be precipitated by any number of things, including an increase in the symptoms of mental illness despite treatment compliance; non-compliance with treatment, including a failure to take prescribed medications appropriately; use of alcohol or street drugs; or any other circumstance or event that causes the person to engage in erratic, disruptive or dangerous behavior that may be accompanied by impaired judgment.

417.3 POSSIBLE INDICATORS OF A PERSON IN CRISIS

Members should be alert to any of the following possible signs of mental health issues or crises:

- (a) A known history of mental illness;
- (b) Threats of or attempted suicide;
- (c) Loss of memory;
- (d) Incoherence, disorientation or slow response;
- (e) Delusions, hallucinations, perceptions unrelated to reality or grandiose ideas;
- (f) Depression, pronounced feelings of hopelessness or uselessness, extreme sadness or guilt;
- (g) Social withdrawal;
- (h) Manic or impulsive behavior, extreme agitation, lack of control;
- (i) Lack of fear, and/or;
- (j) Anxiety, aggression, rigidity, inflexibility or paranoia.

Members should be aware that this list is not exhaustive. The presence or absence of any of these should not be treated as proof of the presence or absence of a mental health issue or crisis.

417.4 COORDINATION WITH MENTAL HEALTH PROFESSIONALS

The Chief of Police shall designate an appropriate Commander from the Support Division to collaborate with mental health professionals to develop an education and response protocol. It should include a list of community resources, to guide department interactions with those who may be suffering from mental illness or who appear to be in a mental health crisis.

417.5 OFFICER CONSIDERATIONS AND RESPONSIBILITIES

Safety is a priority for first responders. It is important to recognize that individuals under the influence of alcohol, drugs or both may exhibit symptoms that are similar to those of a person in a mental health crisis. Often a person in mental health crisis has also been using drugs/alcohol. These individuals may still present a serious threat to officers; such a threat should be addressed with reasonable tactics. Nothing in this policy shall be construed to limit an officer's authority to use reasonable force when interacting with a person in crisis.

Officers are reminded that mental health issues, mental health crises, and unusual behavior alone are not criminal offenses. Individuals may benefit from treatment as opposed to incarceration. However, if a crime is committed in conjunction with a mental health evaluation hold, officers should address the criminal violations of law while adhering to the guidelines outlined in Policy § 418.14.

Officers responding to a call involving a person in crisis should:

- (a) Employ tactics to preserve the safety of all participants;
- (b) Promptly assess the situation independent of reported information and make a preliminary determination regarding whether a mental health crisis may be a factor;
- (c) Consider any available information whether the person relies on drugs or medication, or may have failed to take their medication;
- (d) Attempt to obtain mental health history, if available, and any previous law enforcement contacts;
- (e) Request available backup officers and/or a CIT trained officer, DBH contracted clinician, or other available resources of a similar nature for assistance as deemed necessary and if it is reasonably believed the person is in a crisis situation. CIT officers and DBH contracted clinicians are a limited resource and may not be able to respond on every mental health call for service.
- (f) Use conflict resolution and de-escalation techniques to stabilize the incident as appropriate;
- (g) If feasible, and without compromising safety, turn off flashing lights, bright lights or sirens;
- (h) Attempt to determine if weapons are present or available, prior to making contact, and whenever possible and reasonable conduct a search of the Department of Justice Automated Firearms System to determine whether the person is the registered owner of a firearm (Penal Code § 11106.4).
- (i) Take into account the person's mental and emotional state and potential inability to understand commands or to appreciate the consequences of their action or inaction, as perceived by the officer;
- (j) Secure the scene and clear the immediate area as necessary;
- (k) Determine the nature and severity of any crime;
- (l) Request a supervisor, as warranted;
- (m) Evaluate any available information that might assist in determining cause or motivation for the person's actions or stated intentions;
- (n) [REDACTED]
- (o) [REDACTED]

417.6 DE-ESCALATION TECHNIQUES AND CONSIDERATIONS

Officers should consider that taking no action or passively monitoring the situation may be the most reasonable response to a mental health crisis.

Once it is determined that a situation is a mental health crisis and immediate safety concerns have been addressed, responding members should be aware of the following considerations and should generally:

- (a) Evaluate safety conditions;
- (b) Introduce themselves and attempt to obtain the person's name;
- (c) Be patient, polite, calm, courteous, and avoid overreacting;
- (d) Speak and move slowly and in a non-threatening manner;
- (e) Moderate the level of direct eye contact;
- (f) Remove distractions or disruptive people from the area;
- (g) Demonstrate active listening skills (e.g., summarize the person's verbal communication);
- (h) Provide for sufficient avenues of retreat or egress should the situation become volatile.

Responding officers generally should not:

- (a) Use stances or tactics that can be interpreted as aggressive.
- (b) Allow others to interrupt or engage the person.
- (c) Corner a person who is not believed to be armed, violent or suicidal.
- (d) Argue, speak with a raised voice or use threats to obtain compliance.

417.7 INCIDENT REPORTING

Members engaging in any oral or written communication associated with a mental health crisis should be mindful of the sensitive nature of such communications and should exercise appropriate discretion when referring to or describing persons and circumstances.

Members having contact with a person in crisis should keep related information confidential, except to the extent that revealing information is necessary to conform to department reporting procedures or other official mental health or medical proceedings.

417.7.1 DIVERSION

Individuals who are not arrested should be processed in accordance with the Mental Illness Commitments Policy §418.

417.8 NON-SWORN MEMBERS INTERACTION WITH PERSONS IN CRISIS

When a non-sworn Department member comes into contact with a person who may be experiencing a mental health or emotional crisis, they should:

- (a) Treat the person with dignity and respect;
- (b) Be aware and understand that the person may make unusual or bizarre claims or requests;
- (c) Proceed patiently and in a calm manner.

If the person's behavior makes the member feel unsafe, if the person is or becomes disruptive or violent, or if the person acts in such a manner as to cause the member to believe that the person may be harmful to themselves or others, the member shall notify ComCen for an officer response.

When the person in crisis is in the HQ Lobby requesting assistance, the member will notify the on-duty Lobby Guard to assist the person as necessary.

417.9 SUPERVISOR RESPONSIBILITY

A supervisor should respond to the scene of a violent, combative, and/or barricaded person in crisis. Responding supervisors should:

- (a) Attempt to secure appropriate and sufficient resources;
- (b) Closely monitor any use of force, including the use of restraints, and ensure that those subjected to the use of force are provided with timely access to medical care (Refer to Policy §306);
- (c) Consider strategic disengagement. Absent an imminent threat to the public and, as circumstances dictate, this may include removing or reducing law enforcement resources or engaging in passive monitoring;
- (d) Ensure that all reports are completed and that incident documentation uses appropriate terminology and language;
- (e) [REDACTED]

Evaluate whether a critical incident stress management debriefing for involved members is warranted.

417.10 TRAINING

The Fresno Police Department will provide officers training on interaction with persons with mental health disabilities, welfare checks, de-escalation, tactical communication and crisis intervention (PC §11106.4; PC §13515.25; PC §13515.27; PC §13515.30).

418.1 POLICY

It is the policy of the Fresno Police Department to protect the public and individuals through legal and appropriate use of the 72-hour treatment and evaluation commitment (Welfare & Institutions Code §5150) process.

418.1.1 PURPOSE AND SCOPE

This policy provides guidelines for when officers may take a person into custody for psychiatric evaluation and treatment (WIC §5150).

418.2 AUTHORITY

An officer having probable cause may take a person into custody and place the person in an approved mental health facility for 72-hour treatment and evaluation when the officer believes that, as a result of a mental disorder, the person is a danger to themselves or others or the person is gravely disabled (WIC §5150; WIC §5585.50).

When determining whether to take a person into custody, officers are not limited to determining the person is an imminent danger and shall consider reasonably available information about the historical course of the person's mental disorder, which may include evidence presented from any of the following (WIC §5150; WIC §5150.05):

- (a) An individual who is providing or has provided mental health treatment or related support services to the person;
- (b) A family member; or
- (c) The person subject to the determination or anyone designated by the person.

If the probable cause is based on the statement of a person other than the officer, or other individual authorized by statute, such person shall be informed that they may be liable in a civil action for intentionally giving a statement which they know to be false.

418.3 OFFICER CONSIDERATIONS AND RESPONSIBILITIES

Any officer responding to or handling a call involving a person who may have a mental disability or qualify for a "5150" commitment should carefully consider the following:

- (a) Any available information which might assist in determining the cause and nature of the mental health disability or intellectual/developmental disabilities;
- (b) Conflict resolution and de-escalation techniques specific to dangerous situations involving persons with a mental health disability;
- (c) Request a Crisis Intervention Team (CIT) trained officer, Department of Behavioral Health (DBH) contracted clinician, or other available resources of a similar nature for assistance, when safe and appropriate;
- (d) Appropriate language usage;
- (e) If circumstances permit, alternatives to lethal force;
- (f) Community resources that may be readily available to assist person(s) with a mental health disability or intellectual/developmental disability;
- (g) Officers shall attempt to obtain mental health history, if readily available, and any previous law enforcement contacts that influenced the placement of a WIC §5150 hold; (Refer to RCTB 23-12)
- (h) Officers shall not be limited to consideration of the danger of imminent harm; and
- (i) When possible, officers should collect and book for safekeeping, any item used in an attempted suicide call for service. (Firearms, rope, knife, etc.)

When responding to a “check the welfare” call where the subject is possibly a danger to themselves or others, officers should, whenever possible and reasonable, conduct a search in CLETS to determine whether the person is a registered owner of a firearm. [Penal Code §11106.4(a)]

Officers will not be dispatched to initiate a WIC §5150 hold, or to perform patient re-evaluations for a 72-hour WIC §5150 hold about to expire at medical facilities or locations where duly qualified persons are present to initiate the placement. In these situations, the local medical facility will be advised to follow procedures established by WIC §§5150 and 5250 respectively.

418.4 EVALUATION ASSISTANCE

When assistance is needed to determine whether a subject should be committed under WIC §5150, officers may contact a member of the department’s Crisis Intervention Team (CIT) DBH contracted clinician for evaluation assistance. DBH contracted clinician may either send a worker to the officer’s location or render assistance via telephone.

418.5 CRISIS INTERVENTION TEAM (CIT)

The mission of the FPD Crisis Intervention Team (CIT) is to assist / support patrol officers during mental health related crisis calls for service (CFS) and to reduce the potential for violence during these calls. CIT will simultaneously assess the mental health services available to assist persons in a mental health related crisis. The goal of the CIT is to;

- (a) Prevent a violent confrontation between emergency service personnel and individuals suffering from a mental health related crisis;
- (b) Prevent unnecessary incarceration and / or hospitalization of mentally ill persons;
- (c) Provide alternate care in the least restrictive and most appropriate environment through a coordinated / comprehensive system-wide approach;
- (d) Prevent the duplication of mental health services;
- (e) Facilitate the expeditious return of patrol officers to patrol activities; and
- (f) Reduce mental health related police calls for service.

CIT officers (8B units) and DBH contracted clinicians are available for crisis field response / patrol support, although high risk factor calls will take priority for response. CIT shall be requested or advised of all high-risk factor calls relating to mental health and suicide, or as patrol deems appropriate. CIT officers and DBH contracted clinicians are a limited resource. The intent of CIT is to be a resource and to support patrol during mental health related crisis calls for service. CIT will not respond to and take over every mental health related call for service.

DBH contracted clinicians (MH52, 54, 55, and 56) are available to assist patrol during low-risk mental health related calls for service and/or to conduct low risk follow-up / community outreach. DBH contracted clinicians can be dispatched to high risk calls for service if an FPD CIT officer is unavailable at the time of the call. DBH contracted clinicians can also assist patrol with evaluating in-custody suspects who have been rejected by FCJ medical intake staff for suicidal statements.

DBH contracted clinicians shall only be used for mental health assessments after the scene is secure. Additionally, clinicians shall not be used to negotiate any call for service. If a negotiator is needed, an officer on scene should request a crisis negotiator to respond.

418.5.1 HIGH RISK FACTOR MENTAL HEALTH CALLS

CIT’s primary focus is patrol support during mental health related crisis calls for service. CIT will give priority response to calls posing a high-risk factor to officers, clinicians, and the public. CIT may conduct follow-up on high risk factor mental health / suicide related cases. This follow-up will assist in officer / public safety, a reduction in patrol calls for service and linkage to appropriate services.

The high priority risk factor cases CIT will be focusing on are, but not limited to:

- (a) Suicide by cop;
- (b) School violence, including active violence;
- (c) Suicidal ideation with a weapon / firearm;
- (d) Walk away / disengagement from suicidal subject;
- (e) Veterans with PTSD;
- (f) Jumpers;
- (g) High utilizers / high CFS;
- (h) Increasing high risk behavior;
- (i) Expressed murder / suicide ideation; and / or
- (j) Follow-up deemed necessary by patrol / staff.

418.5.2 LOW RISK FACTOR MENTAL HEALTH CALLS

Low risk factor mental health calls are calls that do not meet the above criteria yet have a mental health component.

418.5.3 CIT NOTIFICATION PROCEDURE

- (a) Patrol shall request a CIT officer / DBH contracted clinician to respond to the high-risk factor calls.
- (b) If CIT is not available at the time of the high-risk call, patrol may request a DBH contracted clinician to assist.
- (c) If CIT / DBH contracted clinicians are not available at the time of a high-risk call, the primary patrol officer shall notify CIT of the call via email at Cit@fresno.gov. The officer shall include the event and/or case number and the name of the subject on the call.

Note: DBH contracted clinicians shall not be dispatched to calls for service unless they are accompanied by a patrol officer.

418.6 TRANSPORTATION

Persons who are detained pursuant to WIC §5150 shall be transported in an ambulance to the nearest hospital designated as an evaluation center. The location to which the subject is transported will be determined by EMS personnel and according to Fresno County EMS Protocol.

Individuals that do not have obvious signs of trauma or other medical complaints should be taken directly to the nearest evaluation center.

Individuals who are intoxicated or require medical treatment shall be taken to the nearest hospital designated as an evaluation center. Once care of the subject has been assumed by EMS, the officer's responsibility for the subject is terminated.

Violent patients or those who are mentally unstable shall be restrained during transport by ambulance personnel. Upon the paramedics' request, the officer will escort the ambulance to the facility and place that person in a designated treatment room as directed by a hospital staff member. Hospital security will take possession of the individual after arrival at the designated evaluation center, if the patient is not in custody.

418.7 RESTRAINTS

If the patient is violent or potentially violent, the officer will notify both EMS personnel and hospital staff of this concern. Once at the facility the staff member in charge will have discretion as to whether restraints will be used.

If restraints are used, the officer will wait while they are being applied to help provide physical control of the patient, if needed.

418.8 CONFISCATION OF FIREARMS AND OTHER WEAPONS

When a person has been detained or apprehended for examination pursuant to WIC §5150, a hold has been placed, and is found to own, have in their possession or under their control, any firearm or any other deadly weapon, the officer shall:

- (a) Check the patient in AFS for firearms. Firearms the patient is found to own, have in their possession, or under their control shall be taken into temporary custody and booked into property.
- (b) Request that any firearms or ammunition be immediately surrendered.
- (c) Take into temporary custody any firearm or other deadly weapon the patient is found to own, have in their possession, or under their control discovered in plain view or pursuant to consent, other lawful search, or search warrant.
- (d) Issue a Receipt and Notice of Rights for Confiscated Firearms / Other Deadly Weapons form and book the firearm / deadly weapon into evidence. Pursuant to WIC §5150, the person detained must sign the form acknowledging receipt of it. If the person refused to sign, the officer shall note "refused to sign" on the "Signature of Person Notified" line. When the detainee is unable to sign, the officer shall note that the detainee is unable to sign and the reason why (e.g., "Unable to sign-hospitalized"). The officer shall then mail the detainee's copy of the form to their last known address of record.
- (e) Parents / guardians of a juvenile placed on a WIC §5150 hold shall be checked in AFS. If firearms are stored in the household of a juvenile placed on a WIC §5150 hold, officers shall request the parent / guardian voluntarily turn over the firearms for safekeeping.
 - 1) If the parents / guardian do not voluntarily turn the firearms over to officers for safekeeping, officers shall complete a "Release of Firearm Advisement" form and request a signature from the parent / guardian. (attached)
- (f) If a person is found to meet the criteria of WIC §5150 and is found to be in possession / control of firearms which will be confiscated, the hold shall be written by an officer or a CIT officer. WIC §5150 holds involving the confiscation of firearms shall not be written by DBH contracted clinicians. The DBH contracted clinicians can support patrol with evaluation and assessment verbiage, but the actual WIC §5150 hold / application must be written by an officer or a CIT officer.

For purposes of this section, deadly weapon means any weapon that the possession of or carrying while concealed is prohibited by PC §§16590 and 25400.

418.9 PETITION FOR RETURN OF FIREARMS AND OTHER WEAPONS

Whenever the handling officer has cause to believe that the future return of any confiscated weapon might endanger the person or others, the officer shall detail those facts and circumstances in the narrative of their WIC §5150 report. The report shall be forwarded to the Gun Clerk, which shall be responsible for initiating a petition to the Superior Court for a hearing in accordance with WIC §8102(c), to determine whether the weapon will be returned.

The petition to the Superior Court shall be initiated within 30 days of the release of the individual from whom such weapon has been confiscated, unless the Department makes an ex parte application to the court to extend the time to file such a petition, up to a maximum of 60 days. At the time any such petition is initiated, the Department shall send written notice to the individual informing them of their right to a hearing on the issue, that they have 30 days to confirm with the court clerk their desire for a hearing and that the failure to do so will result in the forfeiture of any confiscated weapon.

418.10 SECURING WEAPONS

If a receiving and secured facility prohibits weapons or if an extraordinary event occurs in the treatment facility and officers determine a need to secure their firearms, the firearm shall be secured in the appropriate gun locker at the facility.

418.11 PATIENTS PERSONAL PROPERTY

When a person is taken into custody for evaluation, or within a reasonable time thereafter, and unless a responsible relative, guardian or conservator is in possession of the person's personal property, the officer shall take reasonable precautions to safeguard the individual's personal property in their possession or on the premises occupied by the person (WIC §5150).

418.12 MENTAL HEALTH DOCUMENTATION

The officer shall complete an Application for 72-Hour Detention for Evaluation and Treatment form (Application) stating the circumstances under which the person's condition was called to the attention of the officer, or other individual authorized by statute who has probable cause to believe that the person is, as a result of mental disorder, a danger to others, or themselves, or gravely disabled. The officer shall additionally complete a Synoptical Report, to include sufficient information in the narrative establishing the basis for the WIC §5150 detention.

When using the Application form to document a WIC §5150 detention members shall complete the form in its entirety, ensuring a case number is assigned. When additional space is needed to adequately document the incident, a supplemental report form shall be utilized.

Whenever a firearm or other dangerous weapon is involved, taken into temporary custody and booked, a full investigative report shall be completed by the officer. A full report is needed by the courts to permanently seize firearms owned by a person who has been detained for examination of their mental condition.

The officer shall also provide a verbal summary to EMS personnel or hospital staff members regarding the circumstances leading to the involuntary detention and provide them with the first page of the Application.

The officer shall retain the second page of the Application, submitting it to Records by the completion of their shift.

When utilizing a DBH contracted clinician (MH 52, 54, 55 or 56) and a person is placed on a WIC §5150 hold by the clinician, the primary patrol officer shall draw a case number and complete a synoptical report. This synoptical report shall include a description of the incident, the criteria that were met for the hold, name / call sign of the clinician placing the hold, and the receiving facility.

418.13 TARASOFF NOTIFICATIONS

Mental health professionals have a duty to warn in circumstances where the patient has communicated to the psychotherapist a serious threat of physical violence against a reasonably identifiable victim(s). In these situations, the psychotherapist's duty is to make a reasonable effort to communicate the threat to the victim(s) and to a law enforcement agency where the victim(s) reside [Tarasoff v. Regents of the University of California, 17 Cal. 3d 425, 551 P.2d 334, 131 Cal. Rptr. 14 (Cal. 1976)].

Upon receipt of a Tarasoff notification, the receiving member will document the threats and make reasonable efforts to notify the intended victim(s). The member will complete the required 'Law Enforcement Report of Firearms Prohibition' form (attached Pg. 9) within 24 hours and submit a copy to the address listed at the bottom of the form. The fact that the form was completed, and all efforts made to notify the intended victim(s) shall be documented in a police report along with a copy of the completed form.

418.14 CRIMINAL OFFENSES

Any person charged with a crime who may have a mental health disability but does not meet the criteria for a WIC §5150 commitment, should be taken to FCJ and booked without seeking a crisis

evaluation. If the person is rejected by FCJ, due to meeting the WIC §5150 criteria, an Application shall be completed in addition to the crime report of the incident, and the subject should be transported to an authorized facility for evaluation. In the event a person is rejected by FCJ due to meeting the WIC §5150 criteria, and the officer believes the person is using that as a ruse to delay booking, a DBH contracted clinician can be called to the sally port to evaluate the subject. If the DBH contracted clinician feels the subject is not suicidal, they will call the mental health service provider for FCJ. The DBH contracted clinician will advise the mental health service provider the subject is not suicidal. The mental health service provider will determine if the person will be accepted. If the arrestee is not cleared for booking, the subject must be transported to an authorized facility for evaluation and clearance.

If the person has obvious injuries or some other medical condition, they may be taken directly to the hospital.

418.14.1 EXODUS CRISIS STABILIZATION CENTER

In the event the arrestee is transported for evaluation to Exodus, located at 4411 E. Kings Canyon, an officer shall follow EMS to the facility. On arrival, the officer should contact their supervisor to determine if a stand-by is appropriate. When the arrestee is in custody for a non-violent felony that will likely result in an "own recognizance" (OR) release from FCJ, the officer will check the "Notifications To Be Provided To Law Enforcement Agency" box on the Application. The arrestee can be left at Exodus, a "secure" facility pending release. The arresting officer will complete and submit a NIC ePCD. Exodus staff will contact FPD when the evaluation of the arrestee is complete, and they are ready for transportation to jail. The responding officer will retrieve, complete, and submit the ePCD for judicial review/approval at the time of booking.

When the arrestee to be evaluated is in custody for a violent felony in which booking and retention in FCJ is likely, the officer will again check the "Notifications To Be Provided To Law Enforcement Agency" box on the Application. The officer will remain outside the Exodus facility, in a location that best allows monitoring, which could prevent escape, until Exodus staff notify the arrestee has been evaluated and can be booked at FCJ. If the arrestee cannot be booked into FCJ for an extended period (i.e., admitted into inpatient facility etc.), the officer shall notify their immediate supervisor. The supervisor shall assess the factors surrounding the arrestee and, if necessary, contact the Field Commander to determine the final disposition of the arrestee. Officers should not disarm or cover their uniform with an outer garment prior to entering Exodus or any other medical facility for stand-by or a call for service.

418.14.2 CRMC SPECIALTY CARE UNIT

In the event the arrestee is transported for evaluation to the Specialty Care Unit (SCU), located within the CRMC emergency department, an officer shall follow EMS to the hospital. On arrival, the officer should contact their supervisor to determine if a stand-by is appropriate. When the arrestee is in custody for a non-violent felony that will likely result in an "own recognizance" (OR) release from FCJ, the officer will check the "Notifications To Be Provided To Law Enforcement Agency" box on the Application. The arrestee can be left at the SCU, a "secure" facility pending release. The arresting officer will complete and submit a NIC ePCD. SCU staff will contact FPD when the evaluation of the arrestee is complete, and they are ready for transportation to jail. The responding officer will retrieve, complete, and submit the ePCD for judicial review/approval at the time of booking.

When the arrestee to be evaluated is in custody for a violent felony in which booking and retention in FCJ is likely, the officer will standby with the arrestee. The officer will stand by until SCU staff notify the arrestee has been evaluated and can be booked at FCJ. If the arrestee cannot be booked into FCJ for an extended period (i.e., admitted into hospital etc.), the officer shall notify their immediate supervisor. The supervisor shall assess the factors surrounding the arrestee and, if necessary, contact the Field Commander to determine the final disposition of the arrestee. Officers should not disarm or cover their uniform with an

outer garment prior to entering the SCU or any other medical facility for stand-by or a call for service.

418.15 SELF-COMMITMENTS OR PERSON NOT MEETING THE CRITERIA FOR A HOLD

A self-commitment is defined as a person who voluntarily seeks evaluation by a mental health professional without meeting the criteria for a WIC §5150 hold.

Calls from individuals for self-commitments will be turned over to American Ambulance when there are no known threats of violence, possession or display of weapons, assaultive behavior, or information leading the Department to believe the person presents a danger to themselves or others.

Officers should arrange for an ambulance to transport the person to a medical facility for examination. Officers are not required to fill out an WIC 5150 Application form for self-commitments. Officers shall add supplemental information to the narrative of the Synoptical Report to include the reason the person did not meet the criteria for WIC §5150 (e.g., person voluntarily went to the hospital, etc.) and the disposition of the event. Members shall complete a Synoptical report that includes a description of the incident and the circumstances surrounding the self-commitment.

418.16 ATTEMPTED SUICIDES

When any person has attempted suicide, the person shall be transported to the nearest hospital designated as an evaluation center for medical treatment and evaluation by a Crisis Worker for WIC §5150 admission unless medical personnel determine it is in the patient's best interest, due to medical necessity, to be transported to the closest medical facility.

418.17 WALKAWAYS FROM MENTAL HEALTH FACILITIES

Certain members of the Department of Behavioral Health and certain private mental health practitioners on contract to the County, may pre-designate a patient as being subject to detention under WIC §5150 based on the patient's history, regardless of the patient's outward behavior when located.

Members taking a report of a person missing from a mental health facility shall ask the RP if he or she is empowered to make this pre-designation for WIC §5150 commitment for the missing person. When this designation is to be applied, it shall be noted in the "requested disposition" blank on the face sheet with explanation in the narrative. The requested disposition shall also be noted in all broadcast sheets, teletypes and computer entries.

When a missing patient is not subject to a pre-designated WIC §5150 commitment but was placed at the mental health facility under conservatorship, members shall determine where the RP would like the person taken when located. This information shall be included in the report, broadcast sheets, teletypes, and computer entries.

When taking a report of a missing person, members shall inquire about the person's mental health status, and shall consider implementing the procedures identified under Policy §332 (Missing Person Reporting), when the person seems to be in danger due to their mental health disability.

418.18 NON-SWORN MEMBERS

When a non-sworn Department member comes into contact with a person who may be experiencing a mental health or emotional crisis, they should:

- (a) Treat the person with dignity and respect;
- (b) Be aware and understand that the person may make unusual or bizarre claims or requests; and
- (c) Proceed patiently and in a calm manner.

If the person's behavior makes the member feel unsafe, if the person is or becomes disruptive or violent, or if the person acts in such a manner as to cause the member to believe that the person may be harmful to themselves or others, the member shall notify ComCen for an officer response.

When the person in crisis is in the HQ Lobby requesting assistance, the member will notify the on-duty Lobby Guard to assist the person when necessary.

418.19 TRAINING

The Fresno Police Department will provide officers training on interaction with persons with mental health disabilities, welfare checks, 5150 commitments, de-escalation, tactical communication, and crisis intervention (PC §11106.4; PC §13515.25; PC §13515.27; PC §13515.30).

420.1 POLICY

The Department will comply with the State Legislature's intent to release all persons on misdemeanor citations, if qualified for such release.

420.1.1 PURPOSE AND SCOPE

Penal Code §853.6 requires law enforcement agencies to use citation release procedures in lieu of arrest for misdemeanor offenses with certain exceptions.

420.2 STATUTORY REQUIREMENTS

Citation releases are authorized by PC §853.6.

Release by citation for misdemeanor offenses can be accomplished in two separate ways:

- (a) A field release is when the violator is released in the field without being transported to a jail facility; or
- (b) A Crime Scene Bureau release is when a violator is released after being transported to the Prisoner Processing Section and processed.

420.3 DEPARTMENT PROCEDURE

The following procedure will be followed to comply with PC §853.6. Officers are prohibited from issuing citations in lieu of arrest for crimes classified as felonies or wobblers. In such cases, the arrestee shall be booked into the Fresno County Jail (FCJ) or, when applicable, booked by proxy (Policy §355.10 – Guarding Hospitalized Felons).

TERMINOLOGY: A "cite", "citation", "promise to appear", "ticket" and "notice to appear" are synonymous terms. Misdemeanor drug charges include charges such as Health & Safety Code 11350, HS 11377, HS 11364, and HS 11550.

420.4 MANDATORY ADULT CITATION

Citations will be issued for all:

- (a) Misdemeanor charges (note the below listed exceptions);
- (b) Warrants for failure to appear for vehicle code infractions (except for DUI related charges and jail warrants); or
- (c) Any out-of-county warrant when so directed by the issuing authority.

Exceptions: The following misdemeanor violators shall be booked into jail, unless a citation is approved by a supervisor (i.e. hospital standby, rejection by jail, etc.):

- (a) Any misdemeanor involving a gun, to include brandishing a firearm;
- (b) Any domestic violence related offense;
- (c) Petty theft with prior petty theft convictions;
- (d) Any bench warrant; or
- (e) Any misdemeanor arrest warrant.

420.5 DISQUALIFYING CIRCUMSTANCES

PC §853.6(i) specifies that a person arrested for a misdemeanor will be released on a "Notice to Appear" unless one of following is present:

- (a) The person arrested is so intoxicated that they could be a danger to themselves or others. (NOTE: This person can be "cited" and taken to the Fresno Rescue Mission, nearest hospital, or booked into FCJ);
- (b) The person arrested requires medical examination, medical care or is otherwise unable to care for their own safety;

- (c) The person is arrested for one or more of the offenses listed in Vehicle Code §§40302 and 40303;
 - 1) Officers may cite and release arrestees for Misdemeanor DUI violations pursuant to guidelines set forth in Policy 514.
- (d) There are one or more outstanding arrest warrants for the person;
- (e) The person could not provide satisfactory evidence of personal identification;
- (f) The prosecution of the offense or offenses for which the person was arrested or the prosecution of any other offense or offenses would be jeopardized by the immediate release of the person arrested;
- (g) There is a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by the release of the person arrested;
- (h) The person arrested demands to be taken before a magistrate or has refused to sign the "Notice to Appear" and the arresting officer has given them every opportunity to sign. Prior to booking an arrestee for refusal to sign, a field supervisor shall respond to attempt to resolve the matter to eliminate the need for booking;
- (i) There is reason to believe that they would not appear at the time and place specified in the "Notice to Appear" (The basis for this determination will be specifically stated);
- (j) The subject is arrested for a violation of PC §243(e)(1), §646.9 or a protective order involving domestic violence when:
 - 1) The detained person made threats to kill or harm;
 - 2) Has engaged in violence against; or
 - 3) Has gone to the residence or workplace of, the protected party; and
- (k) Any out of county warrant when so directed by the issuing authority

When a person is arrested on a misdemeanor offense and is not released by citation, the reason for non-release will be noted on the booking form.

420.6 JUVENILE CITATIONS

When a juvenile is to be cited for any traffic offense (infraction or misdemeanor), or any infraction non-traffic offense, members shall utilize the standard Traffic/Misdemeanor Citation Form. When a juvenile is to be cited for any misdemeanor non-traffic offense, the Juvenile Arrest Report (JAR) will serve as the citation (Policy §324).

420.6.1 JUVENILE TRAFFIC OFFENSES

These matters require a mandatory appearance and the "To Be Notified" box shall be checked on the citation. The Court will notify the parties of their court date. These violations will be cited to the "M" Street Courthouse located at 2317 Tuolumne Street, Fresno, CA 93721, (559) 457-1700.

420.7 SPECIFIC VIOLATORS

- (a) Elected Officials - All elected officials are subject to the same "rules of the road" as other citizens and have no legislative immunity.
- (b) Non-Residents - Traffic violators who are not residents of the State of California are handled in the same as any other traffic violator.

- (d) Public Carriers - Public carriers (e.g. buses, taxis, limos, etc.) are handled in the same manner as any other traffic violator.

420.8 PRISONER PROCESSING SECTION RELEASES

In certain cases, it may be impractical to issue a citation and release a person in the field. Instead they may be released after they have been processed at the Prisoner Processing Section (unless disqualified for reasons listed below).

420.9 DOCUMENTATION

- (a) Most incidents involving a citation release require a case number.
- (b) Traffic violations and some Fresno Municipal Code violations can be documented on the reverse side of the officer's (pink) copy of the citation (see below).
- (c) Penal Code sections will require a case number to document the incident.
- (d) This section does not preclude an officer from requesting a case number if they feel the situation could be documented more thoroughly in a report.

All of the applicable specific instructions for completion of Traffic Citations apply to Adult Misdemeanor Citations. Adult misdemeanants who are to be issued a misdemeanor citation shall have their right thumb print placed in the citation fingerprint box, including drivers cited for VC §12500. When a right thumb print is unobtainable, another acceptable finger print may be used. A notation shall be made next to the fingerprint box as to which print was obtained when the print was anything other than the right thumb print. The Department issued fingerprint pad shall be utilized to obtain the print.

A report will be written for all misdemeanor citations with the exception of warrant service and violations of VC §§12500(a), and Fresno Municipal Code §9-2503, FMC §14-1801(a), FMC §14-1805, FMC §9-2512, FMC §5-507. These will be processed as infractions unless the officer wishes misdemeanor charges filed and indicates so in a report.

420.10 PRISONER PROCESSING AT CSIB

- (a) The "Booking Required" box shall be marked on all applicable misdemeanor citations when the person is not processed at the Prisoner Processing Section.
- (b) The person being cited shall be advised that they must be fingerprinted and photographed prior to their court appearance.

On citations issued for these charges, the "Booking Required" box shall not be marked, and the person cited shall not be advised to report for processing.

 - 2) If the arrestee fails to complete the drug program, PLO will forward the report and citation to the Fresno County District Attorney's Office for review and prosecution.

When the person refuses to be taken to the drug treatment program, the officer will complete the citation per Section 420.16 below.

Fresno Police Department Policy Manual

Miscellaneous Enforcement

421.1 POLICY

The Department investigates and enforces violations of various local and state statutes.

421.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide general guidelines for the investigation and enforcement of these violations in an effort to improve the overall quality of life to the community.

421.2 SMOKING IN ENCLOSED PLACES OF EMPLOYMENT

Labor Code Section 6404.5 became effective January 1, 1998, prohibiting smoking in bars, bar areas, and gaming clubs. Consistent with existing law, the prohibition against smoking applies to areas defined as an "enclosed place of employment," but does not apply in areas such as outside patios.

Any employer who knowingly and intentionally permit(s) smoking in an enclosed space at a place of employment is in violation of LC §6404.5. Likewise, any person who smokes in an enclosed space at a place of employment is in violation of LC §6404.5. LC §6404.5 is an infraction.

Officers will not be dispatched to violations of this section unless another crime is involved. Complaints regarding violations of this section can be directed to the Fresno County Department of Health Tobacco Prevention Program at 559-600-6449.

421.3 MEMBER RESPONSIBILITIES

Officers shall not be dispatched to CFS regarding violations of LC §6404.5. However, officers in the field who observe a violation of this section may cite the violator(s). Officers should only issue a citation when the person is in the act of smoking or has lighted smoking material in their possession. When the owner of the business is present, they may also be cited. The bartender or server at the business shall not be cited. The presence of smoking material alone, in a business, does not constitute a violation; however, officers may document this information on a Synoptical Report and forward a copy to the ABC Coordinator. Documentation should include, but is not limited to: the presence of ashtrays, smoke in the air, the presence of cigarette butts in the enclosed area, documented observations of code enforcement personnel and/or health inspectors or other related personnel.

When an officer is contacted by a citizen who wants to file a complaint regarding a smoking violation the officer shall advise the citizen of the complaint process and refer them to the Fresno County Department of Health Tobacco Prevention Program at 559-600-6449.

421.4 CITATION PROCESS

The D.A.'s Office will prosecute violations of LC §6404.5. The Notice to Appear shall be used and no other report is required.

Fresno Police Department Policy Manual

Arrest or Detention of Foreign Nationals

422.1 POLICY

It is the policy of the Fresno Police Department to enforce applicable laws related to the arrest and/or detention of Foreign Nationals.

422.1.1 PURPOSE AND SCOPE

Article 30 of the Vienna Convention on Consular Relations, operative as to the United States on December 24, 1969, sets forth certain rights of foreign nationals from member countries when arrested, detained or imprisoned by law enforcement officials in this country. This section provides direction to officers when considering a physical arrest or detention of a foreign national. All Foreign Service personnel shall be treated with respect and courtesy, regardless of the level of established immunity. As noted herein, the United States is a party to several bilateral agreements that obligate our authorities to notify the consulate upon the person's detention, regardless of whether the detained person(s) request that their consulate be notified. The list of specific countries that the United States is obligated to notify is listed in Table 1 (appendix) or the U.S. Department of State website.

422.2 DEFINITIONS

Foreign National - Anyone who is not a citizen of the United States (U.S.). A person with dual citizenship, U.S. and foreign, is not a foreign national.

Immunity – Refers to various protections and privileges extended to the employees of foreign governments who are present in the U.S. as official representatives of their home governments. These privileges are embodied in international law and are intended to ensure the efficient and effective performance of their official “missions” (i.e., embassies, consulates, etc.) in foreign countries. Proper respect for the immunity to which an individual is entitled is necessary to ensure that U.S. diplomatic relations are not jeopardized and to maintain reciprocal treatment of U.S. personnel abroad. Although immunity may preclude U.S. courts from exercising jurisdiction, it is not intended to excuse unlawful activity. It is the policy of the U.S. Department of State's Office of Foreign Missions (OFM) that illegal acts by Foreign Service personnel should always be pursued through proper channels. Additionally, the host country's right to protect its citizens supersedes immunity privileges. Peace officers may intervene to the extent necessary to prevent the endangerment of public safety or the commission of a serious crime, regardless of immunity claims.

422.3 ARREST OR DETENTION OF FOREIGN NATIONALS

Officers should take appropriate enforcement action for all violations observed, regardless of claims of diplomatic or consular immunity received from violators. A person shall not, however, be subjected to in custody arrest when diplomatic or consular immunity is claimed by the individual or suspected by the officer, and the officer has verified or reasonably suspects that the claim of immunity is valid.

When a foreign national or unauthorized person is detained for a significant period of time, (i.e. any period that extends past the time needed to issue a subject a citation at the scene where the subject was contacted) or is arrested and that subject identifies themselves as a foreign national, whether they are in this country lawfully or unlawfully, the arresting officer shall:

- (a) Notify their supervisor of the situation;
- (b) Attempt to verify the claimant's identity (e.g. valid Matricula Consular or Resident Alien Card);
- (c) Determine what country the foreign national is from (from statements or passport);
- (d) Contact the Duty Office to determine if the foreign national is from a country requiring mandatory notification;
 - 1) When the foreign national is from a country requiring mandatory notification, the officer shall obtain a copy of the Translated Mandatory Consular Notification Statement from the Duty Office, and present the statement to the foreign national. The officer shall then

contact the nearest Consulate for the foreign national's country as soon as reasonable, advising them of the arrest, and where the foreign national will be detained (FCJ, IDS, etc).

- 2) When the foreign national is not from a country requiring mandatory notification, the officer shall obtain a copy of the Translated Optional Consular Notification Statement from the Duty Office and present the statement to the foreign national. When the foreign national requests notification, the officer shall follow the instructions above. When the foreign national does not want notification, the officer shall not make contact with the Consulate.
 - 3) When the officer is unable to make contact with the Consulate, the duty officer shall contact the California State Officer of Emergency Services (OES) to obtain the Consulate emergency contact number; and
- (e) Include in their report all notifications made.

422.4 ARREST OF PERSON CLAIMING IMMUNITY

A subject placed under arrest who claims diplomatic consular immunity shall not be physically restrained before verification of the claim unless necessary for the officer's protection. In addition to the requirements listed in Section 422.3, officers shall:

- (a) Initiate telephone verification with the Department of State; and
- (b) Include in their report all notifications made.

Diplomatic agents, consular officers and staff and family members with whom the United States has an agreement may NOT be arrested. If release of the violator will not create additional hazard, adequate information for identification will be obtained and they shall be released.

422.4.1 DUTY OFFICE RESPONSIBILITY

The Duty Office will retain a copy of the Consular Notification and Access booklet distributed by the U.S. Department of State. When requested, the duty officer shall provide requesting officers:

- (a) A copy of a Translated Notification Statement; and
- (b) The telephone number of the nearest Consulate office.

The duty officer will maintain a log of arrested foreign nationals and record consular notifications therein.

422.5 CITABLE OFFENSES

A citation shall be issued for ALL violations warranting such action, regardless of immunity status.

- (a) Request identification documents.
- (b) Record the title and country represented on the back of the officer's copy of the citation. DO NOT put on face copy.
- (c) Request the claimant to sign the citation. If refused, the identity and immunity status shall be conclusively established.
- (d) Verified Foreign Nationals are not required to sign the citation. The word "Refused" shall be entered in the signature box.

- (f) The Department of State will take appropriate action for the offense.

422.8 LEVELS OF IMMUNITY

The specific degree of immunity afforded to Foreign Service personnel within the U.S. is directly related to their function and position in this country.

- (a) **Diplomatic agents** (e.g., ambassadors and United Nations representatives) are afforded the highest levels of immunity. They are exempt from arrest or detention and are immune from all criminal (and most civil) prosecution by the host state. The family members of diplomatic agents enjoy these same immunities. Currently there are no diplomatic agents permanently assigned to California; but they do occasionally visit the state.

Diplomatic Agents:

- 1) Have the highest level of immunity;
- 2) Are exempt from arrest or detention and are immune from all criminal prosecution by the host state; and
- 3) Family members have the same level of immunity.

- (b) **Consular Officers** (e.g., consul general, consul, and vice consul) are the ranking members of consular posts who perform various formal functions on behalf of their own governments. Typical titles include consul general, consul, and vice consul. These officials are immune from arrest or detention, except pursuant to a felony warrant. They are only immune from criminal and civil prosecution arising from official acts. This official acts immunity must be raised as an affirmative defense in the court jurisdiction, and its validity is determined by the court. Under this defense, the prohibited act itself must have been performed as an official function. It is not sufficient that the consular agent was on-duty or in an official capacity at the time of the violation. The family members of consular officers generally enjoy no immunity; however, any family member who enjoys a higher level of immunity is issued an identification card by Department of State (DOS) enumerating any privileges or immunities on the back of the card. Examples are consular officers and family members from Russia or China. There are approximately 600 consular officers in California, with most located in Los Angeles, San Francisco and San Diego.

Consular Officers:

- 1) Are immune from arrest or detention, except pursuant to a felony warrant;
- 2) Are only immune from criminal and civil prosecution arising from official acts; and
- 3) Family members do not have immunity unless an identification card issued by the Department of State (DOS) states otherwise.

- (c) **Honorary Consuls** are part-time employees of the country they represent and are either permanent residents of the U.S. or U.S. nationals (unlike career consular officers, who are foreign nationals on temporary assignment to the U.S.). Honorary consuls may be arrested and detained; limited immunity for official acts may be available as a subsequent defense. Family members have no immunity. There are less than 100 honorary consuls in California.

Honorary Consuls:

- 1) May be arrested and detained;
- 2) Have limited immunity for official acts, but only as a defense; and
- 3) Family members have no immunity.

422.9 IDENTIFICATION

All diplomatic and consular personnel who are entitled to immunity are registered with the Department of State and are issued distinctive identification cards by the Department of State Protocol Office. These cards are the best means of identifying Foreign Service personnel. They include a photograph, identifying information, and, on the reverse side, a brief description of the bearer's immunity status.

Unfortunately, these identification cards are not always promptly issued by the Department of State. In addition to the Department of State identification card, Foreign Service personnel should also have a driver license issued by the Department of State Diplomatic Motor Vehicle Office (DMVO), which in most circumstances replaces the operator's license issued by the state. Additionally they may have California credentials issued by the Governor's Office of Emergency Services (OES), Law Enforcement Division.

- (a) Department of State identification card containing:
 - 1) Photo;
 - 2) Identifying information;
 - 3) Brief description of immunity status on back.
- (b) Driver's license issued by the Department of State Diplomatic Motor Vehicle Office (DMVO); or
- (c) California Credentials issued by the Governor's Office of Emergency Services, Law Enforcement Division

422.10 VEHICLE REGISTRATION

Vehicles that are owned by foreign missions or Foreign Service personnel and their dependents are registered with the Department of State OFM and display distinctive red, white, and blue license plates. Vehicles assigned to diplomatic or consular officers will generally have license plates labels with the words "diplomat" or "consul." Vehicles owned by honorary consuls are not issued OFM license plates; but may have California license plates with an "honorary consul" label. Driver's identity or immunity status should not be presumed from the type of license plates displayed on the vehicle. The status of an OFM license plate should be run via the National Law Enforcement Telecommunications System (NLETS), designating "US" as the state, if the officer has reason to question the legitimate possession of the license plate.

- (a) Registered with the U.S. Department of State's Office of Foreign Missions (OFM)
 - 1) Red, white, and blue license plate or
 - 2) The word "Diplomat", "Consul", or "Honorary Consul" on license plate
- (b) Should be run through the National Law Enforcement Telecommunications System (NLETS), designating "US" as the state.

422.11 REPORTS AND FORMS

A photocopy of each traffic collision report or citation shall be forwarded to the office of the Chief of Police within 48 hours.

The copy should be marked with "Immunity Claim" on the front sheet along with:

- (a) Claimant's title;
- (b) Country; and
- (c) Type of identification presented.

A follow-up memo should be submitted if:

- (a) The violation was flagrant;

The District Commander/Supervisor shall also send the Chief's office:

The Chief's office will insure that the Department of State is notified and all necessary follow-up occurs.

422.12 VEHICLES

 - 1) Searched;
 - 2) Impounded; and/or
 - 3) Stored.
- (b) The vehicle may be towed the necessary distance to remove it from obstructing traffic or creating any other hazard.

422.13 SUPERVISOR RESPONSIBILITY

The supervisor shall:

- (a) Respond to the scene of any incident where a person contacted claims some form of immunity;
- (b) Ensure all notifications are made to the U.S. State Department;
- (c) Ensure that the incident is documented in the GI or appropriate report; and
- (d) Complete an Administrative Review Memo.

423.2 TERRORISM LIAISON OFFICER (TLO)

The TLO will act as the central contact point between this Department and the Office of Homeland Security and the Department of Homeland Security. Information exchanged by the TLO should facilitate information sharing and multi-jurisdictional preemption of terrorist acts or events.

423.3 HOMELAND SECURITY TLO MESSAGE LINE

This Department maintains a public message line for information related to Homeland Security and/or local terrorist-related activity. Messages can be left by phoning (559) 621-5904 or by calling Crime Stoppers at (559)498 STOP (7467).

Fresno Police Department Policy Manual

426.1.1 PURPOSE AND SCOPE

This policy provides a general guideline for reporting police activity while on or off-duty and occurring outside the jurisdiction of the City of Fresno.

426.2 ASSISTANCE TO AGENCIES OUTSIDE THE CITY

When an officer is on-duty and is requested by an allied agency to participate in any law enforcement activity in another jurisdiction, they shall obtain prior approval from the immediate supervisor or the Field Commander. Fresno Police Department Policy Manual

Immigration Violations

428.1 POLICY

It is the policy of the Fresno Police Department that all members make personal and professional commitments to equal enforcement of the law and equal service to the public. Confidence in this commitment will increase the effectiveness of this department in protecting and serving the entire community and recognizing the dignity of all persons, regardless of their immigration status. It is the policy of the Department that officers shall not enforce violations of immigration law/status.

428.1.1 PURPOSE AND SCOPE

Immigration status alone is not a matter for police action. Awareness of this will increase the effectiveness of the Department in protecting and serving the entire community.

428.2 VICTIMS AND WITNESSES

To encourage crime reporting and cooperation in the investigation of criminal activity, all individuals, regardless of their immigration status, must feel secure that contacting or being addressed by members of law enforcement will not automatically lead to immigration inquiry and/or deportation. While it may be necessary to determine the identity of a victim or witness, members shall treat all individuals equally and without regard to actual or perceived characteristics such as race, sex, sexual orientation, gender, gender identity or expression, age, ethnicity, religion, creed, color, national origin, disability, marital status, military and veteran status, or any other classification or status protected by law in any way that would violate the United States or California Constitutions.

428.3 JURISDICTION AND ENFORCEMENT

The U.S. Immigration and Customs Enforcement (ICE) has primary jurisdiction for enforcement of the provisions of Title 8, United States Code dealing with illegal entry, etc. When assisting ICE at their specific request, this Department may assist in the enforcement of any suspected criminal violations discovered as a result of inquiries or investigations initiated by ICE.

428.4 SWEEPS

The Fresno Police Department does not independently conduct sweeps or other concentrated efforts to detain suspected undocumented aliens.

When enforcement efforts are increased in a particular area, equal consideration should be given to all suspected violations and not just those affecting a particular race, ethnicity, age, gender, socioeconomic status, or other group.

The disposition of each contact (e.g., warning, citation, arrest, etc.), while discretionary in each case, should not be affected by such factors as race, ethnicity, sexual orientation, etc.

428.4.1 BASIS FOR CONTACT

The fact that an individual is suspected of being an undocumented alien shall not be the basis for contact, detention, or arrest.

428.5 DETENTIONS

An officer shall not detain any individual, for any length of time, for a civil violation of federal immigration laws or a related civil warrant (Government Code §7284.6). Officers are authorized to take action in response to a Judicial Probable Cause Determination or Judicial Warrant.

428.6 ARRESTS

If the officer intends to take enforcement action and the individual is unable to reasonably establish their true identity, the officer may take the person into custody on the suspected criminal violation (see

Vehicle Code §40302a, and Penal Code §836, if pertinent to the circumstances). A field supervisor shall approve the arrest.

428.7 BOOKING

If the officer is unable to reasonably establish an arrestee's identity, the individual may, upon approval of a supervisor, be booked into FCJ for the suspected criminal violation and held for bail.

If a person is detained pursuant to the authority of VC §40302(a), for an infraction that person may be detained upon approval of a supervisor for a reasonable period not to exceed two hours for the purpose of establishing their true identity. Regardless of the status of that person's identity at the expiration of two hours, the person shall be released on their signature with a promise to appear in court for the vehicle code infraction involved.

428.8 TRANSFERS TO IMMIGRATION AUTHORITIES

Members shall not transfer an individual to immigration authorities unless one of the following circumstances exists:

- (a) Transfer is authorized by a judicial warrant or judicial probable cause determination;
- (b) The individual is identified by the U.S. Department of Homeland Security's Immigration and Customs Enforcement as the subject of an outstanding federal felony arrest warrant.

428.9 ICE REQUEST FOR ASSISTANCE

If a specific request is made by ICE or any other federal agency, this Department will provide available support services, such as traffic control or keep-the-peace efforts, or in response to officer safety concerns, during the federal operation. Requests for assistance beyond that described above should be directed to a supervisor. The supervisor is responsible for determining whether the requested assistance would be permitted under the California Values Act, GC §7284.2 et seq. Any detention by a member of this Department should be based upon the reasonable belief that an individual is involved in criminal activity.

428.10 INFORMATION SHARING

No member of this Department will prohibit, or in any way restrict, any other member from doing any of the following regarding the citizenship or immigration status, lawful or unlawful, of any individual (8 USC §1373; GC §7284.6):

- (a) Sending information to, or requesting or receiving such information from federal immigration officials;
- (b) Maintaining such information in department records; and
- (c) Exchanging such information with any other federal, state or local government entity.

Nothing in this Policy restricts sharing information that is permissible under the California Values Act.

428.11 CALIFORNIA LAW ENFORCEMENT TELECOMMUNICATIONS SYSTEM (CLETS)

Members shall not use information transmitted through CLETS for immigration enforcement purposes except for criminal history information and only when consistent with the California Values Act (GC §15160).

Members shall not use the system to investigate immigration violations of 8 USC §1325 (improper entry) if that violation is the only criminal history in an individual's record (GC §15160).

428.12 CONSIDERATIONS PRIOR TO REPORTING TO ICE

The Fresno Police Department is concerned for the safety of local citizens and thus detection of criminal behavior is of primary interest in dealing with any subject. Race, gender, religion, sex, sexual orientation, gender expression or identity, age, occupation, or other arbitrary aspects are of no bearing on the decision to arrest.

428.13 VALID IDENTIFICATION CARDS / “MATRICULA CONSULAR”

The identification card known as the “Matrícula Consular” is issued by the Mexican Consulate to Mexican citizens who have established residency in the United States. This valid form of identification includes the person’s photograph, name, address, date of birth, and a serial number. Department members shall familiarize themselves with the card’s security features to determine its authenticity. Department members shall recognize this card as a valid form of identification when attempting to establish a person’s identity during an investigation and/or while issuing a misdemeanor citation. This identification card is not to be considered as a valid driver’s license.

428.14 U VISA AND T VISA NONIMMIGRANT STATUS

Under certain circumstances, federal law allows temporary immigration benefits, known as a U Visa, to victims and witnesses of certain qualifying crimes (8 USC § 1101(a)(15)(U)). A law enforcement certification for a U Visa may be completed by an officer in order for a U Visa to be issued.

Instructions for completing Form I-918 Supplement B certification and declaration can be found on the DHS website at <http://www.uscis.gov>;
- (d) Forward the completed Form I-918 Supplement B certification or completed Form I-914 declaration B to the victim, family member, or authorized representative (as defined in Penal Code § 679.10 and Penal Code § 679.11) without requiring the victim to provide government-issued identification (Penal Code § 679.10; Penal Code § 679.11);
- (e) Ensure that any decision to complete or not complete the form is documented in the case file and forwarded to the appropriate prosecutor. A copy of any completed certification or declaration shall be included in the case file;
- (f) If Form I-918 Supplement B is not certified, a written explanation of denial shall be provided to the victim or authorized representative. The written denial shall include specific details of any reasonable requests for cooperation and a detailed description of how the victim refused to cooperate (Penal Code § 679.10); and

430.2 BROKEN WATER LINES

If a break occurs on the City side of a water meter, public works should be called as soon as practical by the ComCen.

430.3 ELECTRICAL LINES

When a power line poses a hazard, an officer should be dispatched to protect against personal injury or property damage that might be caused by power lines. Pacific Gas & Electric (PG&E) or Public Works (for a damaged pole) should be promptly notified.

430.4 PUMPS, WELLS, ETC.

430.6 EMERGENCY NUMBERS

A current list of emergency personnel who are to be called for municipal utility emergencies is maintained by ComCen or can be accessed by 621-CITY (2489).

430.7 OFFICER'S RESPONSIBILITY

When a malfunctioning water line, electrical line or pole, pump, well, or traffic signal creates an immediate hazard, members shall arrange for the direction of traffic and the protection of the public when possible, until the proper maintenance agency can respond.

432.1 POLICY

Only patrol rifles and ammunition that meet agency authorized specifications, approved by the Chief of Police, and issued by the Department may be used by officers in their law enforcement responsibilities.

432.1.1 PURPOSE AND SCOPE

In order to more effectively and accurately address the increasing level of fire power and body armor utilized by criminal suspects, the Fresno Police Department will make patrol rifles available to qualified patrol officers as an additional and more immediate tactical resource.

432.2 DEFINITION

Patrol Rifle – Is an authorized weapon that is owned by the Department and which is made available to properly trained and qualified officers as a supplemental resource to their duty handgun or shotgun. The patrol rifle is not an automatic weapon and will fire in a semi-automatic mode only. No personally owned rifles may be carried for patrol duty unless preapproved in writing by the Chief of Police and the Department Armorer.

432.3 DEPLOYMENT OF THE PATROL RIFLE

The patrol rifle should primarily be used in incidents where there is a need to engage a suspect at a greater distance than would generally be effective with issued Department handguns or shotguns. Members authorized to carry and use the patrol rifle should not use it as a primary entry weapon.

432.4 DISCHARGE OF THE PATROL RIFLE

The discharge of the patrol rifle shall be governed by the Department's Use of Force Policy, Policy §300.

432.5 PATROL READY

When the patrol rifle is taken out on duty with the assigned officer, the rifle shall:

- (e) In the event that the rifle is deployed and a round is chambered, upon completion of the call, the rifle shall be cleared and returned to a Patrol Ready state. This will be accomplished by ensuring the rifle is on safe, removing the magazine, clearing the chamber by locking the bolt to the rear. The Officer shall recover the extracted and ejected round that was in the chamber and place it into the provided ammo storage container. A new round will be retrieved from the provided 20 round box of surplus duty .223 ammunition and placed on top of the magazine that was used to ensure that the magazine contains 28 rounds.

432.6 RIFLE MAINTENANCE

Each patrol officer carrying a patrol rifle is required to maintain the rifle in a state of operational readiness and is subjected to inspection at any time. Additionally:

- (a) Officers may, at their own expense, purchase two spare 30-round factory magazines (Colt or Magpul brand, black in color) for use in addition to the two magazines provided with their Department issued patrol rifle. Ammunition loaded into all additional patrol rifle magazines shall be the same manufacturer and product code as the ammunition issued by the Department.

Prior to carrying any spare magazines and ammunition on-duty, the officer will have the equipment inspected by a Department Armorer;

- (b) Each officer carrying a patrol rifle is required to disassemble and clean an assigned patrol rifle every time it is fired;
- (c) Each officer is responsible for promptly reporting any damage to, or malfunction of, a patrol rifle; and
- (d) No modifications shall be made to any patrol rifle;
- (e) Each officer assigned a patrol rifle will also be issued a 20-round capacity storage container and a surplus box of 20 duty .223 ammunition by the Regional Training Center. When an officer chambers a duty round but is not fired, the chambered round shall be removed and placed into the issued ammo storage container. The officer then shall take one duty round from the surplus box and add it to the magazine that was used to ensure 28 rounds are loaded in their magazine. When the officer fills up the issued storage container with 20 rounds of rifle ammunition that have been chambered once, the officer shall report to the Regional Training Center or the Duty Office to swap the once-chambered rounds with a box of new surplus duty ammunition.

432.7 RIFLE STORAGE

At the end of the shift, the officer shall:

- (a) Return the rifle in an unloaded condition with the magazine detached;
 - 1) Any rounds chambered during the shift shall be removed prior to storage and/or redeployment. That chambered round shall be added to and contained within the storage container issued by the Regional Training Center. The officer then shall load the used magazine with duty .223 ammunition from the surplus box of ammunition provided to ensure the magazine is loaded to a capacity of 28 rounds. (When feasible a clearing barrel is encouraged to be used to extract the chambered round. Officers are reminded of safe weapons handling; high index on the receiver with the trigger finger, place the rifle on safe and point the barrel in a safe direction before extracting a round out of the chamber when a clearing barrel is not available).
- (b) Patrol rifles can be secured in department safes or lockers;

Individually purchased red-dot sighting systems will not be replaced by the Department if they are taken as evidence during an investigation.

Fresno Police Department Policy Manual

Photographing of Field Detainees

440.1 POLICY

The decision to photograph a detainee in the field shall be left to the discretion of the involved officer based on the totality of the circumstances available to them at the time of the detention.

440.1.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the taking and retention of photographs of persons detained in the field but not arrested.

440.2 FIELD PHOTOGRAPHS

Field photographs are defined as a photograph taken of a person during a contact, detention, or arrest in the field. Undercover surveillance photographs of an individual are not considered field photographs. Before photographing any field detainee, the officer shall carefully consider, among other things, the factors listed below.

440.2.1 PHOTOS TAKEN WITH CONSENT

Field photographs may be taken when the subject of the photograph knowingly and voluntarily gives consent. Prior to taking any photograph of a detained subject(s), officers shall attempt to gain consent.

440.2.2 PHOTOS TAKEN WITHOUT CONSENT

Field photographs may be taken without consent if the photograph is taken during a lawful detention based upon reasonable suspicion of criminal activity, and:

- (a) The photograph should serve some legitimate law enforcement purpose related to the detention. Knowledge or suspicion of gang membership or affiliation, without more, is not a sufficient justification for a photograph to be taken without consent. If the detention or contact was to investigate a person's gang membership or affiliation, the contact and photograph should take only as much time as required to document an FI card and photograph; and
- (b) The detention shall not be prolonged for the sole purpose of taking a photograph.

440.3 SUPERVISOR RESPONSIBILITY

While it is recognized that field photographs often become valuable investigative tools, supervisors should monitor such practices in view of the above listed considerations. This is not to imply that supervisor approval is required before each photograph.

440.4 DISPOSITION OF PHOTOGRAPHS

Individual members shall not maintain personal intelligence files containing photographs. If authorized by law, the unit or bureau, will maintain the files/photos according to their operations manual. Any access to field photographs should go through the appropriate unit or bureau and is strictly limited to law enforcement purposes.

All detainee photographs must be:

- (a) Adequately labeled and submitted to the appropriate unit or bureau;
- (b) Have an attached field interview card, report, or other memorandum explaining the nature of the contact; and
- (c) If an individual is photographed as a suspect in a particular crime, any associated report numbers should be noted on the photograph.

After reviewing the photograph and related material, the member shall:

- (a) Enter it into the applicable database; or
- (b) Store it in a secured file.

When a photograph is taken in association with a particular case, the investigator may use the photograph as part of their investigation. Thereafter, the individual photograph should be retained as a part of the case file. All other photographs should be kept in the investigators secured work file.

440.5 PURGING THE FIELD PHOTO FILE

This shall be done in accordance with the procedures outlined in the applicable operations manual.

"Fireman/Paramedic Needs Help" - Shall be used when immediate emergency police assistance is required because firemen are being attacked, attack is imminent, or another emergency exists. A specific unit(s) shall be dispatched Code Three and other available units in the vicinity shall respond Code Two, as needed.

"Fireman/Paramedic Needs Assistance" - Shall be used when non-emergency police assistance is required. The requested unit(s) shall be dispatched consistent with the relative priority of the request.

Fresno Police Department radio operations and MDS use shall be conducted in accordance with Federal Communications Commission (FCC) procedures and guidelines.

All members assigned/issued portable radios are responsible for their security and maintenance. Members shall maintain all portable radios in a state of operational readiness.

The MDS shall be used for official police communications only. Messages that are of a sexual, racist, or offensive nature, or critical of any member of the Department are strictly forbidden. Supervisors at any time without prior notification may review messages.

Whenever possible, an MDS will be used to conduct inquiries into CLETS, RMS, and other databases which are accessible from an MDS.

Members shall not attempt to enter data into an MDS, nor shall they direct their attention to the contents of the MDS screen until it is safe to do so.

Members who are on duty and in the field shall monitor their radios at all times and shall promptly answer when called.

Effective Date: 07/13/2022

448.7 LOGGING ON / OFF

Members who are on duty shall log on when they enter the field and shall remain logged on until they leave the field (e.g., follow-up investigators, Crime Scene Bureau Techs, etc.) or their tour of duty ends (e.g., Patrol Division officers and CSO's).

Members assigned to vehicles equipped with an MDS, or any department issued tablet that can be used to log on, shall log on no later than five minutes from the end of briefing and shall not log off sooner than five minutes before the end of their shift. Members assigned to vehicles with an MDS, or tablet, may log on via radio, only when deemed necessary to respond to emergency calls and after notifying their supervisor. Members who logged on by voice shall log on via MDS as soon as practical. Members not equipped with an MDS or tablet, may log on via radio or by calling the dispatch.

When a member scheduled to enter the field is delayed in reporting for field duty they shall log on and on-view to reflect their status. When they cannot log on, the ComCen shall be promptly notified of the member's status pending log on. AVL shall be activated at all times when the MDS is logged on

Members shall log off when they go off duty. Members in vehicles equipped with an MDS should log off via the MDS. All other members should log off by radio or telephone. This provision applies to all members who are required to log on.

When a member remains logged on after their shift was to end, and they cannot be raised by radio, the ESD shall notify a supervisor responsible for the district of assignment of the involved member. The supervisor shall take all necessary action to locate the member and to properly update their duty status and, when necessary, take appropriate corrective action.

448.8 NON-FUNCTIONING MDS

When possible, officers will not use units with malfunctioning MDS's. When officers must drive a unit in which the MDS is not working, they shall notify the ComCen. It shall be responsibility of the ComCen to record all information that will then be transmitted verbally over the police radio. Members shall not attempt to repair the MDS or radio equipment themselves.

448.9 PORTABLE RADIOS

448.9.1 SECURITY OF RADIOS

Members are responsible for the security and care of portable radios assigned to and/or used by them. Members shall not leave portable radios unattended under circumstances where they could be removed or damaged.

448.9.2 RADIO REPAIRS

When transmitting or receiving difficulties are encountered with portable radios, the following procedures should be followed:

- (a) The radio should be given a test count. When the reception or transmission is faulty, the radio should be taken to the Area dressing station or the Duty Office and tested with a new battery before being tagged for repair. Members shall not leave their portable radios at the radio shop for repairs. When the radio does not work properly or when a repair is needed which is unrelated to functionality, a repair slip (available at Area dressing stations or the Duty Office) should be attached to the radio and it should be taken to the Duty Office where a temporary radio may be signed out;
- (b) When transmitting or receiving problems are encountered with a vehicle radio, the vehicle should be tagged for radio repair.

448.9.3 UNAVAILABILITY BY RADIO

When a member is unable to monitor the radio as required, they shall immediately advise the ComCen of their location, the reason for being unable to monitor radio traffic, and alternative methods of contact (e.g., phone, pager, etc.). All such details shall be included in an event record of the member's activity at the time of such unavailability. The member shall immediately inform the ComCen when their ability to monitor the radio is restored.

Upon receipt of a voice transmission from an ESD, members will promptly acknowledge by repeating their unit number followed by "copy" or "check." All units who are logged on will promptly and accurately provide enroute, arrival, and clearance information during responses to CFS and other on-duty activities.

448.11.1 PERMISSIBLE RADIO BROADCASTS

- (a) Unless broadcasts are urgent, members should telephone the details to the ComCen to permit broadcast at a convenient time. When broadcasts are urgent, members shall request clearance from the ESD over the radio. The ESD will either give clearance, tell the member to stand by for clearance, or tell the member to telephone;
- (b) Broadcasts shall be preceded with the broadcasting unit's identification, the type of broadcast being made, and identify the area to which the broadcast applies when only certain areas are affected (e.g., "3A21 broadcasting wanted persons in a PC 211, attention Southeast...", or "3A21 to all units, broadcasting an attempt to locate...", etc.);
- (c) Broadcasts should be ended with the broadcasting unit's identification and the word "clear". The ESD shall acknowledge that the broadcast information has been "copied" or will tell the broadcasting member to telephone ComCen. It will be the broadcasting member's responsibility to call ComCen to complete the final written broadcast sheet;
- (d) The text of the broadcast should include all available information pertinent to the broadcast, such as case number, times, locations, weapons used, suspect descriptions, vehicles, license numbers, etc.; and
- (e) Broadcasts that are very lengthy should be broken into parts to allow other units to access the radio. These breaks are only a few seconds long and should be preceded by a phrase such as "3A21 break for traffic", and should be followed by a phrase such as "3A21 continuing attempt to locate broadcast".

When a crime has been committed and the suspect or suspect vehicle can be identified and sufficient grounds for arrest are present, a "wanted persons broadcast" may be made. These broadcasts shall include the authority for arrest and sufficient information to locate the case or warrant referenced.

An "attempt to locate" broadcast may be made whenever a member wishes a person or vehicle located and there is sufficient information to do so. The broadcast shall specifically state the course of action to be taken if the person or vehicle is located. These broadcasts shall not indicate that the person or vehicle is to be stopped and/or detained unless there is legal justification to do so. These broadcasts shall not indicate the person or vehicle is to be "held" specifically for another unit or member.

When a member obtains information that is of potential interest to field units, (e.g., armed persons, pending disturbances, pending 10851's, etc.), a broadcast may be made.

An unauthorized radio broadcast, more commonly known and referred to as a “Radio Bandit,” is defined as any person intentionally broadcasting on any radio frequency (channel) licensed by the FCC for use by the City of Fresno, without permission to broadcast on those frequencies.

A common example of this type of incident would be an unknown person broadcasting a distress call, followed by no further broadcasts. Occasionally, only the department field-units within proximity to this unknown person will hear this type of unauthorized radio traffic.

448.11.6 PROCEDURE FOR FIELD UNITS

When any department member witnesses what they believe to be an unauthorized radio transmission, they shall immediately notify the ESD on the channel that the unauthorized broadcast occurred. Whenever possible, this should be done via Administrative Message (AM) or phone call to ComCen. However, depending on the circumstances and information broadcasted, this may need to be confirmed and coordinated with ComCen and other units over the radio.

The on-duty field supervisor shall notify the on-duty field commander of the unauthorized radio broadcast. The field supervisor should work with the field units who witnessed the unauthorized radio broadcast, to determine which department member has the best information and recollection of the incident. A case number shall be pulled under that department member's badge number and written as a PC 636.5 misdemeanor case in AXON Records with the City of Fresno listed as the victim. If an audio recording of the unauthorized broadcast was captured in ComCen, the field supervisor shall request a copy of that recording from the ComCen supervisor. The field supervisor shall provide the recording to the department member writing the report so they can attach the recording as evidence under that case number in AXON Records.

If an audio recording of the unauthorized broadcast was captured on Body Cam video, that video should be tagged under that case number and categorized as "05 –Misd. Investigation or Evidence Collection" unless that body camera video is already associated with a different case number. In that case, the department member should refer to that video and separate case number in their report, documenting that the video also contains evidence related to this case number as well.

448.11.7 DOCUMENTATION

Department Members who author this type of case should also consider documenting the following information if it is known:

- What did you hear the suspect say during the broadcast?
- What was your location when you heard the unauthorized broadcast?
- Did you hear the unauthorized broadcast on your portable, hard mount, or both?
- Was the unauthorized broadcast clear or did it have static/interference?
- Was the unauthorized broadcast heard by other units? If so, who?
- Did the unknown suspect sound like a male or female voice?
- Did the unknown suspect sound like a child or adult voice?
- Did the unknown suspect have any accent or speech impediment?
- Did you check the surrounding area for any related to what the unknown suspect said? If so, what was the result?
- Do you have any other details that may assist in this investigation?

448.11.8 PROCEDURE FOR ESD

The ESD shall notify the on-duty field supervisor. The ESD should attempt to check the playback feature on their radio console to determine if the unauthorized radio transmission was captured and if the radio displayed a radio identifier (ANI) associated with the unauthorized broadcast. The ESD shall create a separate event labeled 4N3 – UNAUTHORIZED RADIO BROADCAST and notify the on-duty ComCen supervisor of the incident.

NOTE: Depending on the nature of comments made during the unauthorized radio broadcast, the ESD should consider conducting a roll call on the affected channel to determine if all field units are safe. The ESD can also consider contacting any allied agencies to notify them of the incident if that agency was mentioned in the comments made during the unauthorized radio broadcast.

448.12 DISPOSITION CODES

Members shall clear all calls with the most applicable and accurate disposition code from the most currently published Field Event Classification code sheet.

ESD's are prohibited from creating disposition codes for events assigned to or created by members outside of ComCen. Any member clearing or creating an event for a miscellaneous case shall provide a complete, accurate code sequence including disposition, unit, classification, and location codes. This applies whether the call is cleared by voice, MDS, or PC terminal. ComCen personnel shall not create clearance codes for units who do not have a clearance sheet. ESD personnel shall not accept any incomplete disposition codes.

448.13 CONFLICTS / COUNTERMANDING ESD

Supervisors countermanding the order of the ESD shall contact the ComCen supervisor of the affected shift and discuss the reasons for the countermanded order and reasons for doing so. They will attempt to resolve any issues at this level. If they are unable to do so, the ComCen supervisor shall submit a memo outlining the problem to the ComCen Bureau Commander for review and further staffing through the chain of command for resolution if appropriate.

448.14 STATUS CHANGES

All changes in status (e.g., arrival at scene, meal periods, in service) will be transmitted either verbally over the police radio or through the MDS.

Officers responding to in-progress calls shall advise changes in status verbally over the radio to assist other officers responding to the same incident.

Other changes in status may be entered by depressing the appropriate keys on the MDS. Members who leave their vehicle for an on-duty meal, or who leave their vehicle for an extended period of time, shall on-view with the applicable 5A Status Code to include accurate completion of the location field.

[REDACTED]

448.16 BOMB CALLS

When investigating reports of possible bombs, officers will turn off their MDS's. Operating the MDS may cause some devices to detonate.

448.17 IDENTIFICATION OF UNITS

Before making a transmission, members shall identify themselves by detail number and, when applicable, the type of transmission to follow (e.g., "1A21, stops on a plate").

Except in emergencies, members shall await the acknowledgment of the ESD before proceeding with the radio traffic. All transmissions shall be as brief as possible.

448.18 FAILURE TO ACKNOWLEDGE

A member's supervisor shall investigate the non-response and any reasons for it and shall take appropriate corrective action.

448.19 USE OF MULTI AGENCY CHANNEL (CLEMARS CHANNEL 8)

All unit transmissions must be prefaced by agency and unit identifier (e.g., Fresno 2A21 or Sheriff 2Q02.) Control centers will also use agency identifiers (e.g., Fresno 1 (FPD), Fresno 2 (FSO), and Fresno 3 (CHP), etc.)

Termination of any Multi Agency Channel will be the responsibility of the agency originating the request. The request to terminate may be made by radio or telephone.

448.20 TELEPHONING INTO COMCEN

Members shall not phone a radio channel ESD directly unless instructed to do so by the ESD.

Fresno Police Department Policy Manual

Body Worn Video Cameras

450 Body Worn Video Cameras

450.1 POLICY

Officers who have been issued the AXON body worn video camera system shall wear it at all times the officer may become involved in an enforcement situation.

450.1.1 PURPOSE AND SCOPE

This policy establishes guidelines for Department members using body worn cameras (BWC) and the preservation of related digital evidence.

450.2 DEFINITIONS

AXON Body 3 Camera - Enables control of the AXON camera through simple commands to place the camera in the various operational modes.

AXON View Application – A mobile application installed on Department issued pairing devices that allow officers to view, but not alter, video recordings captured by the AXON camera. The application also allows officers to attach meta-data such as a video title, incident case number and a video retention category to the video file.

Evidence.com - An on-line web-based media storage facility which stores digitally encrypted files. Accessible to authorized personnel, based upon their security clearance, also maintains an audit trail of user activity.

Evidence Transfer Manager (ETM) - A docking station which simultaneously recharges the AXON Controller and uploads all data captured on the AXON Camera to Evidence.com.

Event Mode - The mode of operation in which the AXON camera captures the buffered video and is actively recording both audio and video. When the AXON is switched to event mode, it will automatically record the previous 30 seconds of video (without audio).

Buffering Mode - The mode of operation in which the AXON camera continuously loops video without an audio component for 30 seconds (Default).

AXON System Administrator (IA Commander) – Oversees and manages administrative issues related to AXON camera systems.

AXON System Coordinator (appointed by Chief of Police) – Responsible for video camera equipment, video storage, and training related to Evidence.com accounts and AXON cameras.

Body Camera Officer – Responsible for day-to-day operations of the system, repairs of equipment, network hardware, troubleshooting, training related to Axon cameras and ensuring digital files are shared with partner agencies.

450.3 VIDEO RECORDING

The Fresno Police Department recognizes that video and audio recording of contacts between Department personnel and the public provides an objective record of these events and that the use of a recording system complements field personnel in the performance of their duties by providing a video record of enforcement and investigative field contacts which can enhance criminal prosecutions and limit civil liability. An audio/video recording of any event or contact also enables the delivery of timely, relevant and appropriate training to maximize safety for FPD personnel and improve the delivery of police services to the community.

While recordings obtained from video recorders provide an objective record of events, it is understood that video recordings do not necessarily reflect the experience or state of mind of the individual member(s) in a given incident. Moreover, the recordings, especially video, have limitations and may depict events differently than the events recalled by the involved member. Specifically, it is understood that the recording device will capture information that may not have been heard and/or observed by the involved member and that the involved member may see and hear information that may not be captured on video.

All video recordings made while working as an employee of the Fresno Police Department in any capacity are property of the Department and subject to review by the Department and its agents. Personally owned video recording devices are prohibited.

450.4 GUIDELINES FOR CAMERA ACTIVATION

Officers shall record interactions including, but not limited to, the following:

- (a) Arrests and detentions, or situations where an officer reasonably believes they will effect an arrest or detention (to include traffic stops and consensual encounters made with the intent to develop reasonable suspicion to detain);
- (b) Officers assisting in an arrest or detention situation;
- (c) Confrontational interactions with citizens;
- (d) Vehicle and foot pursuits;
- (e) When responding Code-3;
- (f) Forced entries, search warrants and warrantless searches (including vehicles);
 - 1) When entry is made with or without a warrant, all officers should activate their cameras prior to making entry and continue recording until the scene has been secured. The search of the premises and seizure of evidence should also be recorded when it does not compromise officer safety or the identity of undercover units.
- (g) Suspect interrogations (including Miranda advisement).
- (h) Eyewitness identification(s) to comply with Policy §607 and PC §859.7.
- (i) When loading, unloading, or transporting subjects in the transportation wagons/vans.
- (j) During the inventory of any individual's property regardless of the reason (e.g., arrest, medical transport, etc.). When safe and feasible efforts should be made to conduct the inventory in the presence of the individual;
- (k) When counting currency, regardless of whether the currency will be booked as evidence or not; and
- (l) Upon arrival at any traffic collision, Policy §502.7.

Officers shall activate their camera system as soon as practical upon encountering the above types of events. When an officer is dispatched to a zero or one priority call, they should activate their camera upon arrival before exiting their vehicle. When an officer is unable to activate their camera at the beginning of the event or contact and a case number is drawn, they shall document the reason in their police report. The documentation should also explain the reason the camera was activated at the time it was.

At no time should an officer jeopardize their safety, or the safety of any other officer, in order to activate a recording device. Officers may use discretion when deciding whether or not to advise a citizen they are being recorded. Generally, officers should not cease recording solely based on the request or demand of a citizen (refer to section 450.14 below).

450.5 INFORMAL COMMUNITY INTERACTIONS (Public Encounters)

Informal community interactions differ from "consensual encounters" officers may make in an effort to develop reasonable suspicion to detain or probable cause for arrest. To strengthen relationships between police and citizens, officers may use discretion regarding the recording of informal, non-enforcement related interactions with members of the community. In the event a public encounter becomes adversarial, officers should activate their recorders without compromising their safety or the safety of others.

450.6 VICTIMS AND WITNESSES

Officers should generally record interviews of crime victims and witnesses. Officers have no obligation to advise a victim or witness that they are being recorded but may do so at their discretion.

When a victim or witness requests, they not be recorded, officers may consider their request (See section 450.18 for provisions of PC §632). In cases where a victim or witness requests, they not be recorded and the officer agrees not to record, officers should record their request prior to turning the camera off. When an officer is already recording, they shall record their explanation for turning the camera off prior to doing so.

- (a) Witnesses - In the event a crime witness or a member of the community wishes to report or discuss criminal activity anonymously, officers have the discretion to not record.
- (b) Victims - Officers should record interviews of crime victims, unless otherwise requested by the victim. Upon request by the victim, officers have the discretion to not record the interview. Officers may offer to avert their camera to capture only audio during the interview, when doing so would facilitate obtaining the victim's recorded statement.
 - 1) Domestic Violence Victims – Officers should record interviews of domestic violence victims to facilitate future prosecution efforts and discourage later recanting of statements. Officers should also record interviews with children who witness domestic violence.
 - 2) Child Abuse and Sexual Assault Victims – Officers should make every effort to record interviews of all victims regardless of age.

Video recording of individuals who are picketing, engaged in peaceful protest or First Amendment protected speech will be avoided unless the officer believes a violation of criminal law is occurring, may occur, or if the officer interacts with a participant or third party to the event.

450.7 PROHIBITED RECORDINGS

AXON Cameras shall not be used to record non-work-related personal activity. AXON recorders will not be activated in places where a reasonable expectation of privacy exists, such as workplace locker rooms, dressing rooms, or restrooms. No type of recording device may be intentionally activated to record the conversations of fellow employees or superiors without their knowledge. In addition:

- (a) Officers should not record undercover officers or confidential informants, absent supervisor approval under limited circumstances;
- (b) When possible, officers should avoid recording exposed private areas of the body;
- (c) Officers shall not record patients during any medical or psychological evaluation or treatment by a health professional while inside a medical or psychological facility.
- (d) While inside a medical or psychological facility, officers should not record persons other than the intended subject.

Recordings shall not be used for the purpose of ridiculing or embarrassing any employee.

Employees shall not obtain or convert any Department digital file(s) obtained during the course and scope of their duties for personal use. The following are specifically prohibited:

- (a) Personal copies of Department digital file(s);
- (b) Re-recording of Department digital file(s) with other devices;
- (c) Posting any Department digital file(s) on any website; or
- (d) Posting of any Department digital file(s) on any Department sponsored site without express permission from the Chief of Police or designee (any file(s) posted on a Department sponsored social media or other web site will thereafter be considered public information).

Any file on evidence.com shall not be shared by any process except for official purposes and only by personnel who have been authorized by the system administrator.

AXON cameras can be used to obtain statements solely intended for civil liability (supervisors use of force review, K9 applications) purposes.

450.8 OPERATING PROCEDURES

Officers who have been issued the AXON camera shall wear it at all times the officer may become involved in an enforcement situation. Officers shall position the camera to facilitate optimum recording field of view. Cameras shall be positioned on the outermost garment of an officer's uniform, between the bottom of the sternum and above the waistline, facing forward.

Only officers who have completed approved training will be allowed to operate AXON cameras. Officers will inspect the AXON system for any physical damage and to ensure the device is in working order at the beginning of their shift. Any malfunctions, missing equipment or damage shall be immediately reported to their supervisor and via email to the body camera unit at axoncamera@fresno.gov.

Officers shall drop off their malfunctioning body camera equipment in the drop-off box, outside the Body Camera Unit, before the end of their shift. Officers shall place their camera, controller, and cable, or any other damaged or broken items, in a Department envelope, in the drop off box with a note or email describing the issue(s). Members shall not send any body camera items via Department mail under any circumstances.

Officers shall log into their Evidence.com accounts on a weekly basis and run a search of their own digital file(s) to check for any needed ID's and Categories. It is the responsibility of the officer to ensure their digital file(s) are properly identified so they can be located for submission to the District Attorney's Office or other authorized search.

If the AXON camera is in use during an enforcement situation and it becomes necessary to discuss issues or concerns with another officer or supervisor in private, the AXON camera may be turned off or entered into mute mode. The intention to stop the recording or enter into mute mode will be noted by the officer verbally before switching the device off or muting the audio. When the private conversation has ended, the AXON camera recording and/or audio recording may resume.

In general, once the AXON recorder is activated, officers should continue recording until the incident has concluded, recording is no longer relevant, or there is no apparent value in continuing to record.

Should an arrestee indicate they want to complain about an officer's actions, claim injury or become confrontational during transport, during processing or booking, officers shall reactivate their camera, if they are able to do so without compromising their safety or the safety of others. When an officer resumes recording under these circumstances, the recorder should remain on until the officer no longer has contact with the subject.

450.8.1 USE OF BIOMETRIC SURVEILLANCE SYSTEM

The installation, activation, or use of biometric surveillance systems, including facial recognition, in connection with AXON recorders is prohibited (Penal Code § 832.19).

450.9 DOCUMENTATION OF RECORDINGS

Before any file is uploaded to evidence.com they shall be individually identified by an **ID** (mandatory) and **Category** (mandatory), without exception. This identifying information may be entered utilizing a Department issued pairing device or desktop computer.

450.9.1 ID DESCRIPTION BOX

In the following order, a case number, citation number, or event ID, shall be used to identify the recording by placing this information in the **ID** description box. Officers shall no longer utilize a custom **ID** to identify any recordings.

The identifying information must be entered using the following format:

Case – 2209151163 (ten-digit case number, no dashes, e.g., 2302104567, 2303160358, etc.) or for cases before February 28, 2022, 15001234 (eight-digit case number, e.g., 15000732, 15000032, etc.).

Note: Within the system, ID refers to the incident related number, not the officers badge number.

450.9.2 CATEGORY

In addition to attaching an event or case number to digital file(s), members must assign a **Category** to facilitate proper retention of the digital file(s). Categories are selected based on the statutory retention requirements for the incident and range from one year to an indefinite period of time. The below Category list is a representative sample and may not reflect the current Categories or Retention. Current Categories are available at Evidence.com.

450.9.3 TITLE DESCRIPTION BOX

Officers may provide a **Title** to facilitate simplified searching of files [i.e. – by location (First and Tulare) or by subject (arrest of suspect John Doe), etc.].

Note: When no title is entered, the system automatically generates the title as the date and time of the recording.

450.9.4 DOCUMENTATION

Officers shall check the appropriate box on the Axon Records “case factor” page to indicate a recording related to the incident was uploaded to the system. Officers should also document in the disposition section of their written reports that a recording was made. AXON recordings will not be used in lieu of Crime Scene Investigation Bureau photographic or video-graphic documentation.

450.10 REVIEW AND USE OF RECORDINGS

Officers should review BWC recordings to assist with their investigation, prior to report completion. BWC recordings related to reportable use of force as outlined in Policy § 450.10.1 and incidents involving potential city liability (e.g., City-involved traffic collision) shall also be reviewed prior to report completion.

If an officer is unable to review their BWC recordings related to a reportable use of force or incident involving city liability, their immediate supervisor shall be notified. The supervisor will be responsible for making the final determination if viewing the BWC footage cannot reasonably be accomplished based on the circumstances. Recorded statements shall be summarized and documented within the narrative of the applicable report. Only official Department devices should be used to review AXON recordings.

Once uploaded to evidence.com, sworn personnel may view their own recordings by logging onto evidence.com and documenting the reason for access in the "NOTES" section (e.g., noting specific time markers, reviewing for court, reviewing for report, etc.). After 24 hours from upload time patrol officers shall not add clips, markers, or comments to their Axon recordings without the approval from their chain of command and/or from the assigned investigative supervisor.

Access to digital file(s) uploaded to evidence.com is controlled by the system administrator. An audit trail of individuals accessing, viewing, or downloading digital file(s) via evidence.com will be automatically generated by the system and is accessible by logging into evidence.com.

450.10.1 REVIEW OF USE OF FORCE RECORDINGS

Officers who are directly involved in a reportable use of force incident shall review their BWC recordings prior to the completion of their report. Officers should also consider reviewing the BWC recordings of other officers who were present on scene during the use of force incident. Officers and supervisors are authorized to share BWC recordings with other members, authoring reports related to the specific incident for official law enforcement purposes only. Refer to RCTB 24-05 for information on video sharing.

Officers shall include the following in their use of force reports;

- a) A statement that the recordings were reviewed prior to the submission of the report;
- b) If the recording was not reviewed, a statement to that effect and the reason the recording(s) were not reviewed;
- c) A statement that the BWC was functioning properly and activated at the time of the use of force. If not, then a description of the malfunction if known and/or why the BWC was not activated;
- d) If the recording begins during the use of force incident, officers will note that in their report and document the portion of the use of force that was not recorded.

450.11 CRITICAL INCIDENTS

The Fresno Police Department acknowledges that recordings taken during critical incidents obtained from video recorders do not necessarily reflect the full extent of the nature of the event or the experience, analysis, training, threat assessment or state of mind of the individual officers(s) in a given incident. Moreover, the recordings, especially video, have limitations and may depict events differently than the events recalled by the involved officer. Specifically, it is understood that the recording device will capture information that may not have been heard and/or observed by the involved officer and that officers may see and hear events that are not captured by the camera.

Officers involved in critical incidents shall notify the responding supervisor of any related recordings. In the event a critical incident is recorded, and immediate retrieval of a recording is required, a supervisor shall secure the recording device as soon as possible and maintain chain of custody. The detectives investigating the case shall coordinate the download or electronic transfer, minimizing those involved with the chain of custody.

Officers, either as a subject or witness, who are involved in any significant use of force incident or collision causing injuries will be permitted to review their recordings prior to providing a statement or written report.

In such cases where the involved officer(s) will view a video recording of the incident, they shall be provided the following admonishment:

"In this case, there is video evidence that you will have an opportunity to view before you have given your initial statement. Video evidence has limitations and may depict the events differently than you recall and may not depict all of the events as seen or heard by you. Video has a limited

field of view and may not capture events normally seen by the human eye. The "frame rate" of video may limit the camera's ability to capture movements normally seen by the human eye. Lighting as seen on the video may be different than what is seen by the human eye. Videos are a two dimensional medium and may not capture depth, distance or positional orientation as well as the human eye. Remember, the video evidence is intended to assist your memory and ensure that your initial statement explains your state of mind at the time of the incident."

450.12 CIRCUMSTANCES FOR ADMINISTRATIVE REVIEW

AXON recordings will be administratively reviewed and may be used during investigations related to use of force, officer involved shootings, complaints, and pursuits. When recordings are administratively reviewed, use of profanity by officers will be considered within the overall context of the incident, as well as accepted training and practices. However, officers remain prohibited from engaging in discourteous, disrespectful or discriminatory treatment of the public per Policy 341- Performance Standards.

While handling an inquiry or complaint in the field, a supervisor may review an officer's body worn camera video. In instances where the alleged misconduct did not occur and allowing the complainant to view the video may facilitate resolution of the inquiry or complaint, the supervisor may allow the involved party to view the video. Third parties who are complaining about the force used against another individual should not be shown body camera video.

When the inquiry or complaint involves use of force and the video shows any force being used by a(n) officer(s), a Receipt of Complaint will still be required, consistent with Policy 1020. If the complainant rescinds their initial complaint after viewing the video, it shall be noted in the Receipt of Complaint. If the video clearly demonstrates no force was used by officers, the complaint may be documented on an Inquiry or Complaint Form and entered into Blue Team, subject to review by the Internal Affairs (IA) commander. The IA commander will make a determination as to whether or not further investigation is warranted.

When a supervisor shows a portion of a video to the involved complainant, they must place "markers" on the video in evidence.com, showing the beginning and end of the portion viewed by the complainant. A notation in the "notes" section of the video shall be made, indicating the starting and ending times of the portion of the video viewed.

Re-recording of any video or audio by the complainant (e.g. via cell phone camera) is not allowed under any circumstance.

After the conclusion of an administrative investigation supervisors shall not add any clips, markers, or comments to any Axon recording and/or digital evidence once submitted through the chain of command, unless changes are requested. Any further changes will require approval through the chain of command after submission.

450.12.1 USE IN TRAINING

Any video used for official training purposes requires approval by the Chief or designee. In no event will video recordings be used for training, or be otherwise used or shown, if it would result in ridicule or embarrassment of an officer(s), except when required as part of a formal investigation or legal proceeding. In the event that videos are intended to be used for training purposes, the involved officer(s) will first be consulted. If they object to the use of the video, such objection shall be submitted to the Training Section Commander. The Training Section Commander shall weigh the value of the video for training against the officer(s) objections and basis for the objection. When the Training Section Commander refuses to grant the request of the involved officer(s), the matter shall be heard by the Chief of Police or designee, prior to utilizing the video.

450.12.2 FIELD DEBRIEFINGS

Supervisors intending to use a recording as part of an informal debriefing or critique session shall first consult with the recorded officer(s). When the officer(s) objects to use of the recording under these circumstances, it will not be used or shown.

Corporals and/or FTOs may use a recording as part of an informal debriefing, training opportunity, and/or critique session with their trainee.

450.13 REQUESTS FOR DELETION OF ACCIDENTAL AXON RECORDING

In the event of an accidental or sensitive personal recording using the AXON system, where the resulting recording is of no investigative or evidentiary value, the recording employee may request that the file be deleted by submitting an email request to the Department's body camera unit coordinator at axoncamera@fresno.gov. The system coordinator will send authorized deletion requests to the system administrator. The administrator will review the file and recommend approval or denial of the request. In cases where the administrator denies the request to delete, an appeal may be submitted to the Chief of Police, or designee, for deletion authorization. In all cases of deletion requests, a determination should be made within 7 calendar days.

450.14 UPLOADING TO EVIDENCE.COM

At the end of their shift, officers shall place the AXON Body 3 camera into the designated docking station for charging and uploading of recordings. Officers should not remove the camera from the docking station until the video files are completely uploaded and the internal battery is fully charged. Officers who have been assigned a take-home dock shall follow the same procedures, with the exception of docking their Body 3 camera into their assigned take-home docking station.

450.15 SYSTEM ADMINISTRATOR AND COORDINATOR

The system administrator will be the Internal Affairs Commander. A sergeant will be assigned to report to the system administrator as the system coordinator. The system administrator and coordinator have oversight responsibilities including, but not limited to, the following:

- (a) Ensure the system is operational and functioning properly;
- (b) Ensure files are maintained in accordance with the Department's retention schedule;
- (c) Operation and user administration of the AXON system and Evidence.com;
- (d) Ongoing System evaluation;
- (e) Ongoing review of related Department policies and procedures;
- (f) Assessment and recommendations for modification of policies, procedures and practices associated with video recording;
- (g) Training;
- (h) Coordination with IT regarding system related issues; and
- (i) Conduct periodic, random audits to ensure the AXON camera system is operating properly and the camera is being utilized in accordance with this procedure. An FPOA representative may be appointed to monitor such random audits.

On an annual basis, or as needed, the system administrator and coordinator will meet with FPOA leadership, and the Chief of Police or designee, to evaluate the effectiveness of Department recording procedures and equipment.

450.16 RELEASE OF OFFICIAL VIDEO TO THIRD PARTIES

Video captured by the AXON camera is evidence. The release of video captured by the AXON camera to any third party will be processed in a manner consistent applicable law, current discovery request practices and the provisions of Policy §810. In general, video captured by the AXON camera shall not be released to third parties unless expressly authorized by the Chief of Police, or designee. In rare circumstances, the Chief of Police may elect to release video when the public interest served by the disclosure of the video outweighs the public interest served by the non-disclosure of the video.

When considering whether disclosure is warranted, the Chief of Police should also consider the privacy rights and impacts of the disclosure on the involved individual member(s). Should the Chief of Police determine that disclosure is necessary, they should provide as much advance notice as practical to those involved member(s).

When criminal charges are being sought in a case, all related recordings will be provided to the District Attorney's (DA's) office. Members should be mindful that uploaded video and/or digital files are evidence and shall not be altered after being submitted to the District Attorney's Office as part of a criminal case, (e.g., any clips, markers, or comments). If changes are requested or needed the appropriate investigations supervisor shall be notified prior to making any changes.

450.18 KNOWLEDGE OF RECORDING

PC §632 prohibits any individual from surreptitiously recording any conversation in which any party to the conversation has a reasonable belief that the conversation was private or confidential, however PC §633 expressly exempts law enforcement from this prohibition during the course of a criminal investigation.

Any sworn member may surreptitiously record conversations during the normal course of duty for a criminal investigation in which the sworn member reasonably believes that such a recording will be beneficial to the investigation.

- (a) Any sworn member contacting an individual suspected of violating any law or during the course of any official law enforcement related activity shall be presumed to be engaged in a criminal investigation. This presumption shall not apply to contacts with other sworn members conducted solely for administrative purposes;
- (b) Any individual contacted by a sworn Department member wearing a conspicuously mounted recording device will be deemed to have knowledge that such a contact is being recorded.

450.19 RECORDING PREPARATION

When an interview is to be recorded and time and opportunity permit, the recording officer should include the following information:

- (a) The location of the interview or recording;
- (b) The identities of all parties involved in or present at the interview or recording;
- (c) Any other pertinent identifying information, such as phone numbers called during recorded phone conversations; informant numbers when name identities cannot be used, etc.;
- (d) Describe the time of and reason for any temporary stoppage of the recording and include the fact all parties had knowledge of the stoppage.

When circumstances do not permit compliance with the above guidelines (i.e., spontaneous recordings), as much of the information as possible should be included at the end of the recording to identify the conversation.

Whenever possible, members should ensure the device recorded properly before the interviewed person leaves.

450.20 DETECTIVE RESPONSIBILITIES

Detectives will be provided with an evidence.com account so that they may access recordings related to their specific investigations. Detectives can add clips, markers, or comments to Axon recordings and/or digital evidence for investigative purposes as needed. Unless a reasonable purpose exists, detectives shall not access recordings that are not related to their specific investigations. Detective responsibilities include, but are not limited to the following:

- (a) When criminal charges are being filed in a case and related digital file(s) exist, the follow-up detective should review the digital file(s) prior to providing them to the DA's office;
 - 1) All digital file(s) related to a case must be submitted to the DA's office for filing, regardless of apparent relevance.
 - 2) After filing, additional searches shall be performed for any other digital files(s) added to Evidence.com. Upon the discovery of additional file(s), they shall be submitted to the DA's office immediately.
- (b) When a detective determines the digital file(s) is likely to have evidentiary value to either the prosecution or defense in a specific case, they shall ensure the digital file(s) is properly classified for retention in compliance with Policy;

- (c) When a detective discovers a digital file(s) has been entered into the system with a missing, improper, wrong, etc., ID and or/category, they shall make the appropriate changes upon the discovery of the error.
 - 1) The detective should notify the officer and/or their supervisor of the mistake to prevent future errors.
- (d) The detective will ensure the recording(s) are submitted to the DA's office in a timely manner;
- (e) All Department digital file(s) in evidence.com shall be retained pursuant to the Department's retention schedule;
- (f) When the status of a case changes, detectives will review and extend retention categories as needed to match retention required by the court;
- (g) When reviewing digital file(s), the detective may make an entry in the evidence.com NOTES section documenting the reason for their review;
- (h) When an officer is directly involved in a critical incident, a detective or assigned officer will secure the officer's camera from the supervisor on scene, take it to a docking location, and upload the video from the camera. They will write a supplemental report documenting their actions. Once a camera has been uploaded, it retains no information and is then returned to the officer.

450.21 SWAT Operations

The purpose of the BWC on a SWAT call is to record and document the contact and general enforcement action(s) with the suspect(s). Tactical operations involving SWAT are unique and present circumstances that can endure over extended periods of time that preclude continuous recording. Therefore, SWAT personnel shall record interactions including, but not limited to, the following when responding to a tactical SWAT incident:

- (a) Arrests and detentions, or situations where an officer reasonably believes they will effect an arrest or detention;
- (b) Officers assisting in an arrest or detention situation;
- (c) Confrontational interactions with citizens;
- (d) Vehicle and foot pursuits;
- (e) Open area searches;
- (f) Forced entries, search warrants and warrantless searches (including vehicles);
 - 1) When entry is made with or without a warrant, all officers should activate their cameras prior to making entry and continue recording until the scene has been secured. Once the location is secure, and no other circumstances warrant recording, officers may deactivate their cameras.
- (g) Suspect interrogations (including Miranda advisement) and generally, interviews of victims and witnesses.

SWAT Team members who are participating in an active tactical event should be mindful of recording potentially sensitive situations. Members should consider not using BWC's to record the below limited situations:

- (a) The deployment of specialized tools or tactics that do not pertain to members coming into contact with the suspect(s) and taking enforcement action should not be recorded on BWC; or
- (b) Discussion by team members during an incident regarding planning, specific tactics, placement of resources, use of specialized tools and equipment and strategies to be used generally should not be recorded.

The SWAT commander in charge of the operation may direct recordings to occur in any instance where they deem it necessary for the benefit of the Department and for documentation purposes.

Department members assigned to SWAT are issued a BWC specifically for use during SWAT operations. SWAT members are responsible for maintaining their assigned BWC to include function, maintenance, and charging. SWAT members must maintain a level of readiness and the use of their assigned SWAT BWC does not require daily use; members are allowed to dock their BWC during bi-weekly trainings. At the conclusion of a SWAT deployment, members will ensure their assigned BWC is placed in a Department docking station at the end of the deployment.

452.1.1 PURPOSE AND SCOPE

To provide guidelines for handling incidents where the claim of medical marijuana is present.

Although federal law does not currently permit possession of marijuana for medical use, California has created a limited defense for certain qualified individuals possessing small quantities of marijuana for medical use under strict conditions.

- (a) California does not provide any exception for individuals driving under the influence of marijuana and all such cases should be handled with appropriate enforcement action (e.g., Vehicle Code §23152, et seq.).
- (b) Possession, cultivation and sales of marijuana in quantities beyond that which might reasonably be construed for personal use should be handled as criminal cases with appropriate enforcement action taken pursuant to HS §§11357, 11358 and 11359.
 - 1) Unless a doctor has expressly prescribed a greater amount, no qualified patient or primary caregiver may possess more than eight ounces of dried marijuana per individual HS §11362.77(a).
 - 2) A qualified patient or primary caregiver may also maintain no more than six mature or 12 immature marijuana plants per individual.

If a claim of medicinal use is made, the officer should proceed as outlined below.

452.3 MEDICINAL USE CLAIMS

In order to qualify for a medicinal marijuana defense, the individual(s) making such a claim must affirmatively establish the following information. If the individual(s) cannot or will not provide all of the required information, the officer should note such in any related report and proceed with appropriate enforcement action.

452.3.1 PATIENTS

- (a) An individual may establish their status as a qualified patient by presenting a current and valid identification card issued by the Department of Health (HS §11362.735). Such identification cards shall contain the following information:

- (b) If the individual does not possess a valid identification card, the individual claiming status as a "qualified patient" must minimally provide the following information:

- 1) Satisfactory identification establishing current residency in California;
- 2) A current and valid recommendation for marijuana from a California licensed physician; and
- 3) In the absence of a valid identification card, the handling officer should also obtain a written waiver from the involved individual(s) authorizing the release of all related medical records.

Additionally, a primary caregiver:

- (a) Must provide sufficient proof that they are responsible for the patient's housing, health and/or safety.

- (a) A sample of the involved marijuana should be seized and booked into evidence;
- (b) Any small amount of marijuana left in possession of a qualified individual for the limited purpose of medicinal use should be described and noted in the related report;
- (c) If the handling officer has already taken the individual(s) into custody (vs. detention only) prior to establishing qualification for a potential medicinal use defense and there are no other criminal charges pending or being investigated, the individual(s) should be released pursuant to Penal Code § 849(b);
- (d) If the individual remains in custody on any charge(s), the individual will not be permitted to use marijuana while being detained or held in jail or other law enforcement facility (HS § 11362.785(c)); and
- (e) The handling officer shall complete a report, which will be submitted to the District Attorney with all of the aforementioned documentation for a determination of whether or not the medicinal marijuana defense will apply.

452.5 RETURN OF MARIJUANA

Regardless of the prosecution status or disposition of any related criminal case, this Department will not be responsible for the return of any marijuana seized as evidence unless presented with a valid court order requiring same. (HS §11362.785(d))

Fresno Police Department Policy Manual

Automated License Plate Readers (ALPRs)

453.1 POLICY

The policy of the Fresno Police Department is to utilize ALPR technology to capture and store digital license plate data and images while recognizing the established privacy rights of the public.

All data and images gathered by the ALPR are for the official use of this department. Because such data may contain confidential information, it is not open to public review.

453.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance for the capture, storage and use of digital data obtained through the use of Automated License Plate Reader (ALPR) technology.

The ALPR technology, also known as License Plate Recognition (LPR), allows for the automated detection of license plates. It is used by the Fresno Police Department to convert data associated with vehicle license plates for official law enforcement purposes.

453.2 ALPR ADMINISTRATION

The Patrol Administration Commander shall be responsible for developing guidelines and procedures to comply with the requirements of Civil Code §1798.90.5 et seq. This includes, but is not limited to (Civil Code §1798.90.51; Civil Code §1798.90.53):

- (a) A description of the job title or other designation of the members and independent contractors who are authorized to use or access the ALPR system or to collect ALPR information;
- (b) Training requirements for authorized users;
- (c) A description of how the ALPR system will be monitored to ensure the security of the information and compliance with applicable privacy laws;
- (d) Procedures for system operators to maintain records of access in compliance with Civil Code § 1798.90.52;
- (e) The title and name of the current designee in overseeing the ALPR operation;
- (f) The retention and destruction of ALPR data; and
- (g) Ensuring this policy is conspicuously posted on the department's website.

The Patrol Administration Commander will assign members under their command to administer the day-to-day operation of the ALPR equipment and system administration.

453.3 AUTHORIZED USERS AND OPERATIONS

- (a) The ALPR system shall only be used for official law enforcement business;
- (b) An ALPR may be used in conjunction with any routine patrol operation or criminal investigation. Reasonable suspicion or probable cause is not required before using an ALPR;
- (c) While an ALPR may be used to canvass license plates around any crime scene, particular consideration should be given to using ALPR-equipped cars to canvass areas around homicides, shootings and other major incidents. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles; and
- (d) No ALPR operator may access department, state or federal data unless otherwise authorized to do so. If practicable, officers should verify an ALPR response through the California Law Enforcement Telecommunications System (CLETS) before taking enforcement action that is based solely on an ALPR alert.
- (e) Only personnel who have received department-approved training and have been provided user accounts shall use or access the ALPR system. (Civil Code § 1798.90.51; Civil Code § 1798.90.53).
- (f) Supervisor approval must be obtained prior to a user being granted ALPR system access. Accounts will be granted on a need to know and right to know basis;
- (g) Account usernames and passwords shall not be shared and only the assigned user may access their ALPR account;
- (h) User accounts will be immediately deactivated for any separated employees, inactive users (over 120 days), users who no longer need the account or others as deemed necessary; and
- (i) Users will be required to update their password every 90 days. Accounts will become disabled until password is changed.

453.4 DATA COLLECTION AND RETENTION

All ALPR data captured using department-owned ALPR cameras should be stored for a minimum of one year (Government Code §34090.6), in accordance with the established records retention schedule. Thereafter, department-owned ALPR data should be purged unless it has become, or it is reasonable to believe it will become, evidence in a criminal or civil action or is subject to a discovery request or other lawful action to produce records. Retention periods for ALPR data collected by commercial providers and/or other law enforcement agencies and made available to this department are set by those providers. ALPR data retention should be reviewed every two years.

User Hot List and Hot Plate retention will be set for no longer than 30 days unless approved by a supervisor and the Patrol Administration Commander or their designee. Users are responsible for managing and maintaining the Hot List(s) or Hot Plate(s) they create in the system. Data entered into the ALPR system is limited to active criminal investigations where reasonable suspicion exists that a crime is being committed or has been committed. No CLETS data may be entered.

All ALPR data security features will comply with Federal Bureau of Investigation-Criminal Justice Information Services (FBI-CJIS) standards.

453.5 MONITORING AND ACCOUNTABILITY

All data will be closely safeguarded and protected by both procedural and technological means. The Fresno Police Department will observe the following safeguards regarding access to and use of stored data (Civil Code §1798.90.51; Civil Code §1798.90.53):

- (a) All ALPR data downloaded to the mobile workstation and in storage shall be accessible only through a login/password-protected system capable of documenting all access of information by name, date and time (Civil Code §1798.90.52);
- (b) Members approved to access ALPR data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relate to a specific criminal investigation or department-related civil or administrative action; and
- (c) ALPR system audits shall be conducted on a quarterly basis.

453.5.1 AUDITS

Quarterly system and user audits will be conducted by the Patrol Division Commander or their designee to ensure the Fresno Police Department's ALPR system meets the high standards and privacy expectations of the citizens of Fresno. Audits will be utilized to ensure public confidence in the ALPR program, identify unauthorized use of the system, to ensure the program is within CJIS compliance and ensure system data confidentiality. This audit process will seek to ensure the ALPR system is in compliance with Senate Bill 34 (Statutes of 2015, Chapter 532).

- (a) Audits will be conducted according to the following schedule:

Quarter	Start	End	Due Date
1	January 1	March 31	April 14

 - 2) Review of Information Sharing MOUs;
 - 3) Review of CJIS compliance; and
 - 4) Review of system user rights;
- (c) User account audits will include the following:
 - 1) Three randomly selected users;

453.6 RELEASE OR SHARING OF ALPR DATA

The ALPR data may be shared only with other law enforcement or prosecutorial agencies for official law enforcement purposes or as otherwise permitted by law. The following procedure will be used:

 - 1) The name of the agency;
 - 2) The name of the person requesting; and
 - 3) The intended purpose of obtaining the information;
- (b) The request is reviewed by the Patrol Administration Commander or authorized designee and approved before the request is fulfilled;

The approved written request and MOU are retained on file under the control of the Patrol Administration Commander or authorized designee. MOU's shall be valid for one year from the date of execution, and will be reviewed and renewed each year to continue the data sharing relationship.

The City Attorney's Office will review all ALPR data requests. Requests for ALPR data by non-law enforcement or non-prosecutorial agencies will be processed as provided in the Release of Records and Information Policy 810 (Civil Code §1798.90.55).

453.7 ACCURACY AND DATA ERRORS

Officers will ensure the accuracy of the notification of a hit by comparing the scanned image to the system provided OCR results and if practicable, verify an ALPR response through the California Law Enforcement Telecommunications System (CLETS) before taking enforcement action that is based solely on an ALPR alert.

Officer shall provide a Case or Event Number along with a valid reason for each search done within the system. Validation of this information shall be included as part of the regular audits.

453.8 DISCLOSURE OF DATA BREACH

Any data breach will be handled in accordance with Policy 810 Release of Records and Information which ensures compliance with Civil Code §1798.29.

453.9 TRAINING

The Patrol Administration Commander should ensure that members receive department-approved training for those authorized to use or access the ALPR equipment and system (Civil Code §1798.90.51; Civil Code §1798.90.53). Refresher training regarding ALPR program updates and for reactivated users will be provided as needed.

Fresno Police Department Policy Manual

Interaction with Transgender and Gender Non-Conforming Individuals

455 Interaction with Individuals Identifying as Transgender

455.1 POLICY

It is the policy of the Fresno Police Department to treat all individuals with dignity, respect, and professionalism. Members shall at all times abide by the Fresno Police Department's policy on respectful treatment, as well as the City of Fresno's policies and/or guidelines that prevent gender identity discrimination when interacting with transgender and gender non-conforming individuals.

455.1.1 PURPOSE AND SCOPE

This policy establishes a procedure for handling interactions with transgender and gender non-conforming individuals.

455.2 DEFINITIONS

Adopted Name - Non-birth name that a transgender or gender non-conforming individual uses in self-reference (this may or may not be the individual's legal name).

Gender Expression - An individual's external and social characteristics and behaviors (such as appearance, dress, mannerisms, speech, and social interactions) that may be perceived as masculine, feminine, or androgynous.

Gender Fluid/Genderfluid - A person whose gender identification and presentation shifts, whether within or outside of societal, gender-based expectations. Being fluid in motion between two or more genders

Gender Identity - An individual's internal sense of being male or female, or something not defined by traditional definitions of male or female

Gender Non-Conforming - Individuals who display gender traits which are not generally associated with their birth-assigned sex. Gender non-conforming individuals may or may not identify as male, female, or transgender. Also known as gender-variant, gender atypical or androgynous. Keep in mind that these expectations can vary across cultures and have changed over time.

Transgender - Individuals with a gender identity that is different from the sex assigned to them at birth. Someone who was assigned the male sex at birth but who identifies as female is a transgender woman. Likewise, a person assigned the female sex at birth but who identifies as male is a transgender man. Some individuals who would fit this definition of transgender do not identify themselves as such, and identify simply as men and women, consistent with their gender identity. The guidance discussed in this policy applies whether or not a particular individual self-identifies as transgender.

455.3 INTERACTIONS WITH TRANSGENDER AND GENDER NON-CONFORMING PEOPLE

Members are to interact with transgender, gender non-conforming people and the LGBTQ+ community in a manner that is professional, respectful, and courteous.

Members shall:

- (a) *Respectfully treat individuals in a manner appropriate to the individual's gender, or gender identity/expression;*
- (b) *Use pronouns as requested by the individual (e.g. "she, her, hers, he, him, his, and they, them, theirs"); and*

NOTE: *If members are uncertain by which gender the individual wishes to be addressed, they will respectfully ask the individual for clarification [e.g. "Do you prefer to be referred to as 'she' or 'he'?" Or simply ask, "What are your pronouns?"]*

When requested, address the individual by the name based on their gender identity rather than that which is on their government-issued identification.

Members shall **NOT**:

- (a) Stop, detain, frisk, or search any person for the purpose of determining that person's gender or in order to call attention to that person's gender identity/expression:

NOTE: The above limitation does not prevent an officer from following the established department procedures relative to ensuring the proper processing of arrestees.

- (b) Except when legally necessary (e.g. processing an arrest), either require proof of an individual's gender or challenge an individual's gender identity/expression;
- (c) Use language that a reasonable person would consider demeaning or derogatory; in particular, language aimed at a person's actual or perceived gender, gender identity/expression, or sexual orientation;
- (d) Make assumptions about an individual's sexual orientation based upon an individual's gender or gender identity/expression; or
- (e) Use a person's gender or gender identity/expression alone as reasonable suspicion that the individual is or has engaged in a crime, including prostitution.

455.4 DETERMINATION OF LEGAL NAME

In the event a transgender or gender non-conforming person's legal name is required, the person's legal name should be obtained in the following manner:

Absent extenuating circumstances, an officer should ask the person for their legal name in a one-on-one situation. If the contact is in a group environment, the officer should ask the person to step outside the group to obtain the legal name. Transgender and gender non-conforming people have the right to discuss their gender identity or expression openly, or to keep that information private.

If an officer asks a transgender or gender non-conforming person for their legal name in the presence of others, that officer shall provide a compelling, professional, and articulable reason for having done so.

455.5 TRANSGENDER AND GENDER NON-CONFORMING ARESTEEES

An arrestee's gender will be classified as it appears on the individual's government-issued card.

- (a) For the purpose of listing gender on citations, arrests reports, and other official documentation, members shall use the designation listed in the most recent records in official government databases, starting with DMV.
- (b) For the purpose of listing the name, members shall always write an individual's name as it appears on the individual's government-issued identification card. If the arrestee identifies themselves using a different name, that name will be listed as the alias on the arrest paperwork.

The exceptions to the government-issued identification card policy are those arrestees who have had gender conforming/affirming surgery from:

- (a) Male to female will be processed as a female;
- (b) Female to male will be processed as a male.

In the event that a government-issued identification card is unavailable, the following criteria will be used in determining gender:

If the arrestee states they:

- (a) Have male genitalia, the arrestee will be classified as a male; or
- (b) Do not have male genitalia, the arrestee will be classified as a female.

In the event that there is uncertainty regarding the appropriate classification of an arrestee's gender, a supervisor will be consulted for further guidance on the appropriate classification (e.g. In situations in which the arrestee does not have identification, and will not speak to police, supervisors can attempt to establish communication necessary to make a determination of the arrestee's gender).

455.6 TRANSPORTATION OF TRANSGENDER AND GENDER NON-CONFORMING ARESTEEES

Whenever practical, transgender and gender non-conforming arrestees will be transported alone. In situations with multiple arrestees, mass arrests, or where individual transport is not practical, transgender and gender non-conforming arrestees will be transported by gender classification.

455.7 PROCESSING OF TRANSGENDER AND GENDER NON-CONFORMING ARESTEEES

Appearance-related items, including, but not limited to, prosthetics, clothes, wigs, or make-up should not be confiscated or removed from transgender people unless:

- (a) Such items pose a safety hazard;
- (b) Impede the administration of medical attention;
- (c) Are needed for evidentiary reasons;
- (d) Impedes the administration of a criminal investigation; or
- (e) Interferes with prisoner processing.

If an officer confiscates or removes a transgender or gender non-conforming person's appearance-related items, that officer shall provide a compelling, professional, and articulable reason for having done so.

455.8 JUVENILE TRANSGENDER AND GENDER NON-CONFORMING INDIVIDUALS

All interactions with juvenile transgender and gender non-conforming individuals shall conform to the mandates set out by this policy. This policy does not affect any other provisions outlined in applicable policies and laws covering the processing and handling of juveniles.

455.9 PROTECTION OF PRIVACY

An officer shall not disclose an individual's gender identity or sexual orientation to other arrestees, members of the public, or other governmental personnel, absent a proper law enforcement purpose. Members shall not disclose this information to the media without supervisor approval. If an officer does disclose such information as described, that officer shall provide a compelling, professional, and articulable reason for having done so.

**Fresno Police Department
Policy Manual**

Chapter 5: Traffic Operations

Fresno Police Department Policy Manual
Traffic Function and Responsibility

500 Traffic Function and Responsibility

500.1 POLICY

This Department will focus enforcement efforts toward violations, not only in proportion to the frequency of their occurrence in accident situations, but also in terms of traffic-related needs and public safety.

500.1.1 PURPOSE AND SCOPE

The ultimate goal of traffic enforcement is to reduce traffic collisions. This may be achieved through the application of such techniques as reactive assignment of personnel and equipment and the establishment of proactive patrols to deal with specific categories of unlawful driving behavior. Traffic enforcement techniques are based on accident data, enforcement activity records, traffic volume, traffic conditions and officer observations.

- (a) All officers assigned to patrol or traffic enforcement functions will emphasize enforcement of accident-causing violations during high accident hours and at locations of occurrence.
- (b) All officers will take directed enforcement action on request, and random enforcement action when appropriate.
- (c) All officers shall maintain high visibility while working routine enforcement, especially at high accident locations.
- (d) Other factors to be considered for deployment are citizen requests, construction zones, special events, etc.

500.2 ENFORCEMENT

Enforcement actions are commensurate with applicable laws and take into account the degree and severity of the violation committed. This Department does not establish ticket quotas and the number of arrests or citations issued by any officer shall not be used as the sole criterion for evaluating officer overall performance (Vehicle Code §41603). The visibility and quality of an officer's work effort will be commensurate with the philosophy of this policy. Traffic and vehicle stops should be performed in a uniformed manner as established in the Police Training Program and outlined within the Policy Manual.

Several methods are effective in the reduction of collisions:

500.2.1 WARNINGS

Warnings are non-punitive enforcement actions that may be considered and substituted for arrests or citations when circumstances warrant.

500.2.2 CITATIONS

Citations may be issued when an officer believes they are appropriate.

Officers should provide the following information to violators at a minimum:

- (a) Explanation of the violation or charge;
- (b) Court appearance procedure including the optional or mandatory appearance by the motorist; and;
- (c) Notice of whether the motorist can enter a plea and pay the fine by mail or at the court.

When no citation is issued to the violator, a Department business card shall be provided.

Exception: When an officer contacts a traffic violator driving on a suspended or revoked license, the officer shall issue a traffic citation pursuant to VC §14601.

500.2.3 PHYSICAL ARREST

Physical arrest can be made on a number of criminal traffic offenses outlined in the Vehicle Code or Penal Code. These physical arrest cases usually deal with, but are not limited to:

- (a) Vehicular manslaughter; *
- (b) Felony * and misdemeanor driving under the influence of alcohol/drugs;
- (c) Felony * or misdemeanor hit-and-run;
- (d) Refusal to sign notice to appear; * and
- (e) Any other misdemeanor at the discretion of the officer, such as reckless driving with extenuating circumstances.

* The officer shall notify a supervisor when a subject is taken into physical arrest.

500.3 USE OF TEMPORARY TRAFFIC CONTROL DEVICES

Traffic control can be provided by any member of the Department utilizing items such as flares, cones, portable warning signs, and other similar devices, as appropriate, when directing traffic.

The following is a list of situations, which may result in traffic control:

- (a) Traffic collision and/or traffic hazard scenes;
- (b) Special events (parades, races, sporting events, etc.);
- (c) Emergency conditions (fires, earthquakes, floods, other disasters, etc.);
- (d) Traffic signal light failure with approval from a supervisor;
- (e) Inclement weather conditions; or
- (f) Any unusual circumstances, which may require traffic control as deemed necessary by a field supervisor.

Requests for temporary barricades can be utilized for any of the above situations. All requests shall be made through ComCen and should include the type of barricades and/or control devices needed.

500.4 MANUAL OPERATION OF TRAFFIC CONTROL DEVICES

Department members who are trained in the manual operation of traffic control devices (that are designed for manual use) may, under certain circumstances, control traffic. These circumstances include, but are not limited to, the following:

- (a) Facilitating movement at traffic signals with field supervisor approval; or
- (b) Special events.

Reflective vests/belts shall be worn when Department members are manually controlling traffic control devices.

500.5 DIRECTING TRAFFIC

500.5.1 REFLECTIVE VESTS & FLASHLIGHTS

- (a) Anytime a member is on a roadway (day or night) directing traffic, investigating a collision, or at the scene of a disaster, they shall wear a Department authorized reflective vest;
- (b) An operable flashlight is required for directing traffic during inclement weather and during hours of darkness.

500.5.2 HAND SIGNALS

Hand signals shall consist of the following, but are not limited to:

- (a) **Stopping Traffic** - To stop traffic you should give one long blast of the whistle and raise your hand up so that your palm is facing the driver. Hold your hand up until the driver stops. This same technique can be used to stop traffic from both directions by holding both hands up simultaneously towards the directions of the traffic you want stopped;
- (b) **Starting Traffic** - Give two short whistle blasts and point your arm and forefinger toward the car you want to start. Hold it until you get their attention. Then, with your palm up, swing your hand up and over your chin, bending your arm at the elbow. Use this signal to give the go-ahead for slow and or timid drivers;

- (c) **Signaling for Turns** - Point towards the driver, giving them time to see the gesture. Then, point with your arm and forefinger in the direction that you want the driver to go. While one arm is pointing in the direction of the turn, use the other arm in the "starting traffic motion" to wave the driver into the turn.

500.6 VEHICLE STOPS

500.6.1 SELECTING THE LOCATION

Officers shall, when possible, plan their vehicle stops in advance. They shall attempt to choose a location which minimizes escape routes and interference from passing traffic and which affords the greatest overall level of protection. Lighting, crowd, traffic, weather, and other conditions shall be considered when planning a stop.

500.6.2 ADVISING COMCEN

When a unit is going to stop any vehicle, the ComCen shall be notified. The notification shall be made prior to the stop whenever possible.

500.6.3 RADIO VS. MDS

Units equipped with an MDS may initiate a traffic stop with the MDS.

500.6.4 RADIO NOTIFICATION

Members shall initiate the radio notification with their unit identification and the word traffic (e.g., "5A31, traffic").

The ESD will acknowledge, after which the initiating unit should advise the ESD of all of the following:

- (a) Anticipated location of stop;
- (b) License number of the vehicle;
- (c) Description of the vehicle;
- (d) Number of occupants; and
- (e) Whether or not an assisting unit is needed.

The initiating unit should wait for the ESD to acknowledge the above transmission before making the stop.

Once the stop is made, the initiating unit should update the final stop location when necessary.

500.6.5 METHODS OF STOPPING VEHICLES

Officers may use a combination of hands, horn, voice and/or emergency lights and siren to affect vehicle stops, as each situation dictates.

To reduce the possibility of a pursuit, officers shall not attempt vehicle stops until within a reasonable distance of the violator.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

500.6.8 CONTACTING THE DRIVER / OCCUPANTS

Prior to engaging in questioning related to a criminal investigation or traffic violation, officers shall state the reason for the stop, unless the officer reasonably believes that withholding the reason for the stop is necessary to protect life or property from imminent threat (Government Code § 12525.5). In most cases, it is preferable to have the occupants remain seated in the vehicle with the doors closed.

When an occupant is asked to exit by an officer, contact shall take place on the side of the involved vehicles away from the flow of traffic.

Occupants and/or officers should never stand between the stopped vehicles or near passing traffic.

500.6.9 ADVISING THE DRIVER / OCCUPANTS

Officers should explain to occupants the reasons for orders given and actions taken during the traffic stop.

500.6.10 BUSINESS CARDS

When no citation is issued to the violator, a Department business card shall be provided.

500.7 HIGH RISK VEHICLE STOPS

When an officer has reasonable cause to believe the occupants of a vehicle have been involved in a serious crime or are armed, the stop shall be handled as a "high risk vehicle stop."

500.7.2 ADVISING COMCEN

Officers shall advise ComCen of their intent to make a high risk stop and should supply all of the information required in Radio Notification.

Officers should also give the direction the vehicles are facing when stopped.

The ESD shall place the radio channel on emergency traffic.

500.7.4 REMOVAL OF OCCUPANTS

When necessary, the suspects may be ordered from the vehicle one at a time.

An officer shall, under cover of an assisting officer, handcuff the suspects (when appropriate), and conduct a search for weapons.

500.7.5 WRONG PERSONS

When the persons detained are not suspects in the crime for which the stop was made, a full explanation of the officers' actions shall be provided.

500.8 UNDERCOVER VEHICLE STOPS

An undercover vehicle stop or "UC Stop" is a vehicle stop accomplished with multiple undercover plain vehicles. The UC Stop is generally utilized in connection with a surveillance operation when the occupant of a vehicle is wanted for a serious crime and there is a likelihood of a pursuit if a routine vehicle stop is initiated. Only officers who have prior documented training on the UC Stop may elect to use this technique. Unmarked or unconventional vehicles should not be used for traffic enforcement purposes unless properly equipped with emergency equipment.

500.8.1 SELECTING A LOCATION

Officers should choose the location of the stop using the same guidelines in Selecting the Location stated above.

500.8.4 IDENTIFICATION

Officers exiting their undercover vehicles will clearly identify themselves as law enforcement. This can be accomplished with the use of an approved tactical vest. When possible, officers conducting UC Stops should request a marked unit to respond to assist. Marked units provide assurance to the public that unmarked vehicles and non-uniformed officers are members of the Department acting in an official capacity.

500.8.5 REMOVAL OF OCCUPANTS

Once the vehicle has been stopped, officers should revert to the tactics used in Section E, High Risk Vehicle Stops, as outlined in the above stated section Removal of Occupants.

502 Traffic Collision Reporting

502.1 POLICY

Members involved in the handling of traffic related collisions will follow the guidelines of this policy and utilize the California Highway Patrol Collision Investigation Manual (CIM) as the primary guide for documentation of their investigations.

502.1.1 PURPOSE AND SCOPE

Members will prepare traffic collision reports in compliance with the California Highway Patrol Collision Investigation Manual (CIM) and as a public service make traffic collision reports available to the community (with some exceptions).

502.2 RESPONSIBILITY

The Traffic Bureau Commander will be responsible for distribution of the CIM. The Traffic Bureau Commander will receive all changes in the CIM.

502.3 PROTECTION OF THE SCENE

Members shall see to the protection of involved vehicles, personal property, and other traffic at the collision scene. As soon as practical, members shall remove damaged vehicles and debris from the roadway and restore the flow of traffic.

Exceptions: Members shall take every precaution to preserve all evidence at the scene of a major injury or fatal collision until it is determined that it is no longer necessary to do so.

502.4 DUTIES ON ARRIVAL AT A COLLISION SCENE

The traffic collision policies outlined in the following subsections shall be followed by the first unit(s) to arrive at a collision scene, regardless of which unit will ultimately handle the investigation. The first arriving officer on scene shall be in charge of the scene and direct the response of assisting units. Once the Primary unit assigned to the traffic collision arrives on scene, they will assume responsibility for the scene and/or any related investigation.

502.4.1 CARE FOR INJURED

Members shall:

- (a) Check for injuries and shall request EMS, Fire, and any other assistance as needed;
- (b) Provide care and first aid for the injured pending the arrival of an EMS and/or Fire;
- (c) Encourage injured parties to remain in their vehicle(s) until the arrival of medical assistance; and
- (d) NOT attempt to remove an injured person from a vehicle absent a life-threatening situation.

502.4.2 PROTECTION OF THE SCENE

Members shall see to the protection of:

- (a) Involved vehicles;
- (b) Other traffic at the collision scene; and
- (c) Personal property.

As soon as practical, members shall:

- (a) Remove damaged vehicles and debris from the roadway; and
- (b) Restore the flow of traffic.

Exceptions: Members shall take every precaution to preserve all evidence at the scene of a major injury or fatal collision until it is determined that it is no longer necessary to do so.

502.4.3 POSITIONING OF POLICE VEHICLES

- (a) When possible, police vehicles should be parked legally at the collision scene.
- (b) When it is necessary to park in the street to protect persons or property, the emergency lights shall be activated to alert approaching traffic.
- (c) Flares or Lite Flares shall be used as needed.

502.4.4 MAJOR TRAFFIC CONGESTION

Members responding to a traffic collision, where there is significant traffic congestion, may utilize their Code-3 equipment to access the scene of the collision. Once they have arrived, members should assess the scene and determine what additional resources are needed. These resources may include, but are not limited to:

- (a) Personnel;
- (b) Barricades;
- (c) Signs; and
- (d) Other resources as identified by the officer in charge.

If it appears that the incident is going to be lengthy the officer in charge shall advise ComCen who will subsequently relay the information to other agencies (FAX, Fire Department, EMS, Cal Trans, etc.).

502.4.5 SUPERVISOR NOTIFICATION

Members shall notify a supervisor of a traffic collision that involves any of the following:

- (a) A fatality;
- (b) Any injury defined in the CIM as "severe injury";
- (c) The potential of civil litigation against the City, the Department, or any other public agency; or
- (d) A City owned or leased vehicle.

502.4.6 FATALITIES

When there is any question as to death, medical aid shall be requested and appropriate first aid rendered.

Deceased persons shall be covered from public view whenever possible.

502.4.7 RESPONSE TO DISTURBANCES AT TRAFFIC COLLISIONS

When Members are dispatched to traffic collisions and receive information of a disturbance or fight occurring at the collision scene, members shall follow the guidelines in Policy §316.3 regarding authorized Code-3 responses.

Exception: CSO's and Cadet II's are not authorized to respond Code-3. When a CSO or Cadet II is dispatched to a traffic collision involving a disturbance or fight, they shall confirm with the ESD that a disturbance/fight is occurring and request that a sworn member respond until the scene is stabilized.

502.5 PHOTOGRAPHS AND MEASUREMENTS

Photographs, measurements, and evidence collection will be requested of CSI personnel when:

- (a) A collision involves a fatality or potential fatality;
- (b) Necessary to assist with the prosecution of a felony charge resulting from the collision;
- (c) There is a probability of future litigation against the City; or
- (d) Other circumstances are present in which a supervisor deems necessary.

502.6 AREA OF IMPACT (AOI)

An AOI shall be included in all required collision reports. Collisions occurring:

- (a) In an intersection, the AOI shall be identified by measurements from the curb lines or roadway edges of the intersecting streets;
- (b) Outside of an intersection, the AOI shall be identified by measurements from the curb lines or roadway edges of the street involved and the nearest cross street;
- (c) Measurements shall be expressed in approximate feet unless an accurate measuring device is used;

- (d) When the distance to the nearest cross street is too great to measure in feet, the odometer of a vehicle may be used to measure the distance, which will be expressed in approximate tenths of a mile; and
- (e) When it is necessary to more precisely indicate the AOI, a second description of the AOI may be included in the narrative of the report. This measurement shall be made from any nearby permanent fixed object and the roadway curb or edge. The second measurement will supplement, not replace, the measurement to a cross street.

502.7 COLLISION DOCUMENTATION

The following subsections shall be used to determine which type of collision format is required and the contents of that documentation. Except for those situations described in this section, no collision report will be taken. Upon arrival at any traffic collision, officers shall activate their body worn camera Policy §450.4. When the collision involves any city owned vehicle, the member shall assign the category "City Involved Traffic Collision (Non-Fatal)" for retention purposes Policy §450.9.2.

502.7.1 COLLISION INVESTIGATION

A Collision Investigation shall consist of all elements and forms required by the Collision Investigation Manual (CIM) to document a collision that involves any of the following:

- (a) A fatality;
- (b) Any injury defined in the CIM as "severe injury", (broken or fractured bones; dislocated or distorted limbs; severe lacerations; skull, spinal, chest or abdominal injuries that go beyond visible; unconsciousness, severe burns) regardless of removal/transport from the scene by an ambulance.
- (c) The potential of civil litigation against the City, the Department, or any other public agency;
- (d) The arrest or citation (notice to appear or notice of violation) of a driver for a misdemeanor or felony traffic violation causing the collision (including DUI);
- (e) The potential for a felony prosecution absent an arrest (e.g., Hit and Run); or
- (f) Any City owned or leased vehicle.

502.7.2 COLLISION REPORT

Crossroads shall be the primary method for documenting collisions, unless express permission has been granted by the division commander to utilize another method of reporting (i.e. handwritten, alternate computer software, etc.).

A Collision Report shall be used to document a collision that involves any of the following:

- (a) Hit and run collisions when there is sufficient information available to identify the hit and run driver through follow-up investigation;
- (b) Injury collisions (other than "severe injury") that result in the removal/transport of any person(s) by ambulance, from the scene to a medical facility;
- (c) Damage to City property (Vehicles, light poles, traffic signs, buildings, etc.); or
- (d) The issuance of a notice of violation to a driver for a traffic infraction causing the collision.

The Collision Report shall consist of all of the elements and forms required by the CIM. This shall include documenting any insurance information presented by the driver, regardless of its expiration date.

502.7.3 NOTICES OF VIOLATION AT COLLISION SCENES

When issuing a Notice of Violation, per Vehicle Code §40600, the issuing officer shall check the box "Offense(s) not committed in my presence, completed on information and belief." The officer shall give the violator the yellow copy of the form and admonish them that failure to take care of the matter with the Traffic Court, within the prescribed time, may result in a complaint being issued by the DA's Office. The violator shall not sign the Notice of Violation form. Instead, officers shall insert the words: "Notice of Violation, VC §40600" on the signature line.

Officers issuing a Notice of Violation at a collision scene shall document the incident as a Collision Investigation (for misdemeanor violations) or as a Collision Report (for infraction violations). Either form

of documentation shall include the description and details of any violations which have been substantiated by witnesses and/or evidence.

A citation issued as a Notice of Violation shall be attached to the collision documentation and submitted to Records. The case number of the report shall be listed on the Notice of Violation.

502.7.4 NOTICES TO APPEAR AT COLLISION SCENES

When a driver has no valid license [VC §12500(a)] or has a suspension or revocation action, officers shall investigate the license violation including service of notice and taking enforcement action where permissible (e.g., citizen's arrest). Driver's license violations do not, in and of themselves, require the collision to be documented as an investigation.

When violations exist which would justify issuance of both a Notice of Violation and a Notice to Appear, the charges may not be combined. Instead, separate citations shall be issued for the respective violations. The Notice of Violation and the Notice to Appear shall be clipped together and processed as a single complaint.

502.8 SPECIAL COLLISION DOCUMENTATION

502.8.1 PRIVATE PROPERTY COLLISIONS

In compliance with the CIM, traffic collision reports shall not be taken for traffic collisions occurring on private property, unless there is a death or injury to any person involved, a hit and run violation, or Vehicle Code violation. An Incident Report may be taken at the discretion of any supervisor.

502.8.2 PROPERTY DAMAGE COLLISIONS

Members responding to the scene of a collision resulting in property damage only (including vehicle damage) shall ensure that involved parties comply with the notification requirements of VC §20002. No report is required for collisions producing property damage only unless it is a City owned vehicle or other violations are present requiring documentation. (e.g., DUI, VC §14601, etc.)

502.8.3 CRIMINAL VIOLATIONS

When a collision involves an arrest for a criminal violation, the arrest shall be documented in a CR in addition to any required collision report.

Exception: Hit and run arrests do not require a CR but may be addressed solely in a Collision Investigation. Hit and run collisions with no suspect information should be documented as a Synoptical Report.

Examples:

DUI with collision: A Collision Investigation and Sobriety Report are required. The collision investigation *should* only *contain* those narrative details dealing with the collision while the Sobriety Report need contain only those narrative details which address the DUI arrest, evidence, etc. Both reports will use the same case number, but each will be numbered separately.

DUI with collision, driver in possession of a loaded, concealed handgun: A Collision Investigation, Sobriety Report, and a LERF [to document the Penal Code §§25400(a) and 25850(a) charges] are required.

502.8.4 INTENTIONAL COLLISION / LEGAL INTERVENTION

Collisions that are caused intentionally or instances of "legal intervention" (as defined in the CIM) are not motor vehicle collisions and shall not be documented as such. Instead, the incident shall be documented in the applicable CR or GIR.

502.8.5 INDUSTRIAL TRAFFIC COLLISIONS

Collisions/Accidents involving work vehicles (or mobile machinery) on private or public property which are in use as industrial equipment (graders, back-hoes, water trucks, etc.) which result in injury or death will be classed as industrial accidents and will be reported as outlined in Policy §360.

Collisions involving such machinery, when it is not in use as industrial equipment (e.g., in transport from one job to the next), shall be reported as traffic collisions consistent with the requirements of this order.

502.8.6 TRAFFIC COLLISIONS INVOLVING CITY VEHICLES

Traffic collision investigation reports shall be taken when a City owned vehicle is involved in a traffic collision wherein any damage or injury results.

Supervisors shall consult the CRU Sergeant, or Traffic Safety Section Commander, for a possible CRU response for any City vehicle involved in a collision that results in the transport of any involved person to a medical facility, or any collision, regardless of injury, involving a City vehicle operating in a code-3 capacity. Final decision of a CRU response will rest with the CRU Sergeant and/or Traffic Safety Section Commander.

When a collision results in no injuries and no damage to any vehicles or property, a general information (GI) report may be taken in lieu of a traffic collision report (CHP 555 form) at the direction of a supervisor if the collision:

- (a) Occurs on private property; or
- (b) Occurs upon a roadway or highway and does not involve another vehicle.

502.9 DEPARTMENT VEHICLE COLLISIONS (DVC)

Collisions involving members operating City owned or leased vehicles, or other vehicles used during the course and scope of official Department business shall be investigated and reported by an officer of the Department other than an officer driving or riding in a vehicle involved in the collision. The investigation shall be completed under the on-scene direction of a supervisor. The report shall be reviewed for completeness and approved by the same on-scene supervisor.

502.9.1 INVESTIGATIONS OUTSIDE OF THE CITY

When a DVC occurs outside of the City, the investigation should be completed by the agency that has responsibility for the jurisdiction in which the collision occurred.

When a DVC occurs in close proximity to the City limits, a supervisor shall respond to survey the collision scene. When the investigating agency is unable to provide the necessary photographs, measurements, and/or evidence collection normally provided by Crime Scene Investigations (CSI), a CSI Technician should be requested.

When a DVC occurs in another jurisdiction, the investigating agency shall be requested to forward a copy of their report(s) to the Investigating Supervisor, who will upload the report(s) to the collision review package submitted using the BlueTeam web interface.

502.9.2 SPECIAL PROVISIONS FOR COLLISION DOCUMENTATION

When completing the Collision Investigation for the DVC:

- (a) Involved members may use the address of the Department as their residence address;
- (b) The City assigned vehicle number shall be written in the "miscellaneous" box;
- (c) The name(s) of the insurance carrier(s) for involved parties other than members shall be listed in the designated space on the face sheet;
- (d) The words "On Duty Emergency Vehicle" shall be written in the "Special Conditions" box and in the name box above the member's name when the collision involves an on duty sworn member (including reserves) operating an "authorized emergency vehicle" as defined in VC §165. When the vehicle involved is not registered to the Department or the City, an explanation establishing it as an authorized emergency vehicle shall be included in the report narrative;
- (e) The provisions of VC §21806 shall be considered during the investigation and subsequent documentation of the collision; and
- (f) The investigation shall be reviewed/approved by a supervisor.

502.9.3 ADMINISTRATIVE PROCESSING AND REVIEW

"Administrative Processing" refers to the gathering and distribution of the documents generated as a result of a DVC. "Administrative Review" refers to the actual review of the investigation to determine if the member acted in accordance with statutory requirements, established Department guidelines and procedures, and with the degree of care required.

Administrative processing and review commence with the supervisor present at the scene and culminates with a final decision by the division commander of the involved member. This review will result in a finding that the driving behavior either was or was not within Department vehicle operation guidelines defined in Policy §703 and other related orders.

When an officer is "at fault" in a collision and one of the following occurs, the incident shall be investigated through a formal Administrative Investigation:

- (a) 2nd collision in prior five years;
- (b) The collision is with an occupied vehicle, bicyclist, pedestrian or under circumstances where another party is potentially injured;
- (c) The collision results in major damage to property or the officer's vehicle; or
- (d) At the request of a staff member with concurrence of a Division Commander.

All other collisions may be handled through the Administrative Review process. In the Administrative Review process, a Division Commander is required to approve of the proposed discipline or corrective measure.

502.9.4 SUPERVISOR'S RESPONSIBILITIES

Prior to completion of their shift, the supervisor shall:

- (a) Create a collision review package using the BlueTeam web interface to include answering related questions and selecting appropriate entries via drop down boxes;
- (b) Attach a copy of the Automobile Accident Loss Notice to Blue Team;
- (c) Click "save" (can be accessed by the IA secretary); and
- (d) Send a copy of the Automobile Accident Loss Notice Loss to the Collision Review Officer and District/Bureau Commander.

Within 10 days of the collision, the supervisor will complete the collision review package and forward it to the Collision Review Officer via BlueTeam. The package will include:

- (a) Administrative Review Memo (when required);
- (b) Automobile Accident Loss Notice; and
- (c) Collision Investigation;

If a collision results in the transport of any involved person to a medical facility, the supervisor shall contact the CRU Sergeant, or Traffic Safety Section Commander, for a possible CRU response. Final decision of a CRU response will rest with the CRU Sergeant and/or Traffic Safety Section Commander.

The report will be reviewed by a CRU detective prior to its submission for approval.

When a supervisor determines that a DVC may result in disciplinary action, they shall conduct the investigation consistent with the requirements of the Public Safety Officers Procedural Bill of Rights (Government Code §3300, et seq.)

502.9.5 COLLISION REVIEW OFFICER

The Collision Review Officer is appointed by the Chief of Police and is responsible for:

- (a) Creating a log to track each collision package;
- (b) Reviewing the Automobile Accident Loss Notice for completeness and forwarding to Risk Management and the Fleet Maintenance Supervisor;
- (c) Reviewing the collision package and determine a finding; and
- (d) Forwarding the collision package via Blue Team to the commanding officer of the involved member.

502.9.6 COMMANDING OFFICER RESPONSIBILITY

The commanding officer of the member involved in the DVC shall review the Collision Review Officer's findings, making a determination if they concur or disagrees with the findings.

When the review by the commanding officer is in concurrence with the findings of the Collision Review Officer, the commanding officer shall forward the entire package via BlueTeam to the bureau commander of the involved member.

When the review by the commanding officer is in disagreement, the Collision Review Officer and the commanding officer shall meet to attempt to reconcile the differences. When the differences are reconciled in this meeting, the Collision Review Officer shall update the collision review package indicating the results of the meeting and the final findings. The entire package shall then be forwarded via BlueTeam to the division commander through the involved member's chain of command.

When the findings of the Collision Review Officer cannot be reconciled with those of the commanding officer, the commanding officer shall update the collision review package, detailing the differences. The commanding officer will forward the entire package via BlueTeam to the division commander through the involved member's chain of command.

502.9.7 REVIEW OF FINDINGS BY DIVISION COMMANDER

The division commander will review the entire package and make a preliminary decision as to a course of action. Notification of the involved member of the decision of the division commander will be handled by the Internal Affairs Bureau consistent with established procedures on internal investigations.

502.9.8 MAINTENANCE OF FILES

Upon completion of the entire review process, collision review packages shall be maintained by Internal Affairs for five years, after which they may be purged.

Records of DVC's may be considered as "disciplinary history" in connection with a subsequent collision for five years from the date of completion of the entire review process for prior collision(s).

502.10 COLLISION RECONSTRUCTION UNIT (CRU)

A CRU member will be available on a callout basis to provide collision analysis expertise as needed during major collision investigations.

502.10.1 REQUESTING CRU RESPONSE

The investigating member's supervisor shall make the initial determination that a CRU response is required. A district commander or field commander will review the supervisor's recommendation and make the final decision to have the Duty Office contact the on-call CRU Supervisor. In the absence of a district commander or field commander, the on-scene supervisor shall make the decision to notify the CRU Supervisor.

Upon arrival at the scene, the CRU member shall assume responsibility for direction and coordination of the collision investigation. CSI, the Coroner, and tows shall not be requested on calls involving a CRU response until approval has been given by the CRU member.

502.10.2 CRU RESPONSE CRITERIA

CRU members shall respond to:

- (a) Fatal or severe injury collisions involving on duty members, on duty City employees, and on duty members of allied law enforcement agencies;
- (b) Fatal collisions where the investigating member and scene supervisor believe a prima facie case exists to support a charge of murder, or vehicular manslaughter;
- (c) Collisions likely to result in a fatality, where criminal charges may result;
- (d) Fatal collisions where the cause cannot be determined by on scene personnel;

- (e) Collisions with a fatality in which there is a reasonable belief that the collision did not cause the fatality;
- (f) Collisions that result in the response of investigators of the National Transportation Safety Board;
- (g) Collisions that result in the spillage of a significant amount of hazardous material(s);
- (h) Collisions resulting in fatal or severe injury or major property damage where it is likely the City is potentially exposed to civil liability; and
- (i) Any other collisions where the on-scene supervisor believes technical assistance is required, and the response is approved by a district commander or field commander.

502.10.3 REMOVAL OF VEHICLES DURING CRU INVESTIGATIONS

In the event of a CRU call-out, only tow companies from the CRU rotation tow list shall be utilized to impound vehicles.

In any collision investigation meeting the above stated criteria, all vehicles shall be impounded for mechanical inspection. In cases other than those listed in the above stated criteria, impounds for mechanical inspection should be limited to felony investigations where a specific need exists.

When a member feels a vehicle inspection is necessary, they shall contact their immediate supervisor who shall evaluate the request.

Upon approval, the investigating member shall have ComCen contact the appropriate tow company from the CRU rotation tow list. A Police Hold shall be placed on the vehicle, and it shall be impounded as evidence pursuant to VC §22655.5. The member will ensure that the tow truck operator is aware that the impound is for CRU follow-up, to ensure proper disposition of the vehicle. When the collision investigator is not a CRU member, they shall notify the CRU office of the request for a mechanical inspection by voice mail.

502.11 HAZARDOUS SITUATIONS

When a collision results in damage to traffic signs or signals or other property creating an immediate hazard, the investigating member shall immediately notify the ComCen and arrange for the direction of traffic until the proper right-of-way controls are restored or temporary devices are installed.

502.11.1 VEHICLE FIRES

Members responding to collisions involving a vehicle on fire shall adhere to the guidelines in Policy §316.3 – Authorized Code-3 Responses and upon arrival the incident shall be handled in a manner consistent with the guidelines outlined in Policy §345.3 – Member's Duties Before Fire Department Arrival.

502.11.2 HAZARDOUS MATERIALS SPILLS

Members encountering collisions involving suspected hazardous materials spills shall proceed as outlined in Policy §412 – Hazardous Material Response.

502.12 FATALITIES

When there is any question as to death, medical aid shall be requested and appropriate first aid rendered. Deceased persons shall be covered from public view whenever possible.

502.13 RESPONSE TO DISTURBANCES AT TRAFFIC COLLISIONS

When members are dispatched to traffic collisions and receive information of a disturbance or fight occurring at the collision scene, members shall follow the Departmental guidelines regarding authorized code three responses.

Exception: CSO's are not authorized to respond code three. When a CSO is dispatched to a traffic collision involving a disturbance or fight, they shall request that a sworn member respond until the scene is stabilized.

502.14 OPINIONS ABOUT TRAFFIC ENGINEERING ISSUES

Opinions about possible contributing factors to a collision which involve City traffic signals, signs, roadway designs, etc. should not be entered into a collision report.

These concerns or opinions shall be submitted on a memo addressed to the Traffic Safety Section Commander who will follow up on the concerns with the City Traffic Engineer.

502.15 FOLLOW-UP INVESTIGATIONS

Special routing of a collision investigation for follow-up investigation may occur where the collection of off-scene data, collisions reconstruction, or expert technical assistance is required to support felony charges.

When the follow-up investigation is limited to obtaining additional witness or victim statements, the primary investigative officer should respond when possible.

When follow-up is needed, a copy of the original investigation should be routed to the CRU Investigators, through the member's immediate supervisor, with an explanation of what follow-up is needed.

Members requesting a collision reconstruction or expert technical assistance:

- (a) Are required to support felony charges; and
- (b) Shall have completed the required factual diagram and have CSI take appropriate photos of the scene.

Fresno Police Department Policy Manual

Vehicle Towing Policy

510.1 POLICY

Members will tow and store vehicles only within established procedures of this Department, consistent with state laws. The sole goal of impounding a vehicle is to improve public safety and shall not be done for any other reason. A vehicle shall never be impounded solely for the purpose of generating revenue, or as a means of retribution against the violator.

510.1.1 PURPOSE AND SCOPE

The purpose of this policy is to assure the safety of the public and the protection of private property in accordance with the Community Care Doctrine.

510.2 DEFINITIONS

Evidence Tow - A member has legal authority to cause the removal of a vehicle by one of the Department's contracted tow companies when any vehicle is found upon a highway, or public or private property and a member has probable cause to believe:

- (a) The vehicle was used as the means of committing a public offense; or
- (b) The vehicle is itself evidence which tends to show that a crime has been committed or that the vehicle contains evidence, which cannot readily be removed, which tends to show that a crime has been committed.

Impound – A member has the legal authority to cause the removal of a vehicle by one of the Department's contracted tow companies. Impounds are considered an enforcement action and will require the completion of a CHP 180 Form, the registered owner or legal owner to pay City Administrative Fees and pay all tow charges.

Owners No-Preference Tow – An owner's request to use one of the Department's contracted tow companies in non-enforcement impound situations. Owner's no-preference tow requests do not require a CHP 180 Form.

Owner's Preference Tow – A specific tow company requested by the driver/owner of a vehicle needing to be towed. If not available, an "Owner's no-preference" tow will be substituted. Owner's preference and owner's no-preference tows shall not be used for impounds and do not require a CHP 180 Form.

Storage – A non-enforcement tow, generally considered a courtesy to the public. Storage does not require a CHP 180 Form, the registered owner or legal owner to pay any City Administrative Fees but will require the payment of tow charges.

510.3 TOWING SERVICES

The City of Fresno contracts with established tow companies to tow vehicles for the Department. The Chief of Police or designee retains sole discretion in determining the selection of and total number of companies authorized to tow vehicles for the Department. The following circumstances may result in the non-renewal of a Tow Services Agreement (TSA) between the Department and Tow Operators:

- (a) Repeated citizen complaints;
- (b) Violations of the TSA;
- (c) Violations of the FMC or any other governing statutes; or
- (d) For any other reason not specified herein.

The contracted tow companies will be used in, but not limited to, the following situations:

- (a) When the driver is unlicensed, suspended, or revoked, or arrested/cited;

- (b) When vehicles are disabled due to mechanical failure or as a result of a collision and are blocking any portion of the roadway;
- (c) When a vehicle is being held as evidence in connection with an investigation;
- (d) When it is necessary to safeguard a vehicle due to the inability of the owner or operator to take the required action;
- (e) When a vehicle has expired registration over six months being operated on a highway; or
- (f) When it is otherwise necessary to store/impound a vehicle. This would include situations involving the recovery of stolen or abandoned vehicles, and the removal from the streets of vehicles obstructing traffic in violation of state or local regulation.

510.4 VEHICLE SEARCHES

Vehicles may be searched when one or more of the following conditions are met:

- (a) When probable cause to search the vehicle exists;
- (b) With consent of the operator;
- (c) Incident to an arrest of the occupants of the vehicle;
- (d) To search for weapons;
- (e) When necessary to examine the vehicle identification number or to determine the ownership of the vehicle;
- (f) Under emergency circumstances not otherwise enumerated above; and/or
- (g) Pursuant to a valid search warrant.

510.5 SECURITY OF VEHICLES AND PROPERTY

Unless it would cause an unreasonable delay in the completion of a vehicle impound/storage or create an issue of officer safety, officers should make reasonable accommodations to permit a driver/owner to retrieve small items of value or personal need (e.g. cash, jewelry, cell phone, prescriptions) which are not considered evidence or contraband.

If a search of a vehicle leaves the vehicle or any property contained therein vulnerable to unauthorized entry, theft or damage, search personnel shall take such steps as are reasonably necessary to secure and/or preserve the vehicle or property from such hazard.

510.6 VEHICLE IMPOUND REQUIREMENTS

Vehicles **MAY** be impounded:

- (a) For further investigation/evidence;
Exceptions: Recovered stolen vehicles shall be towed utilizing the normal tow rotation list in DTS. Misdemeanor Hit & Run vehicles shall not be towed as evidence. Officers should take photos or utilize the body worn camera to document damage. Vehicles should be released to the registered owner or towed under the Community Care Doctrine.
- (b) For registration expired in excess of six months, and/or evidence of false registration (False Tabs) [VC §22651(o)]. Prior to impounding a vehicle for expired registration in excess of six months the officer shall verify using available DMV records, that no current registration exists for the vehicle. The vehicle shall not be impounded if the registration is current, or the officer cannot access DMV records for verification purposes.
- (c) When the driver has been cited for VC §12500 and has no active license suspensions, the vehicle can only be impounded if, pursuant to the Community Care Doctrine (CCD), leaving the vehicle at the scene would:
 - 1) Jeopardize public safety;
 - 2) Jeopardize the efficient movement of traffic; or
 - 3) Subject the vehicle to vandalism or theft.

Note: Members will include a notation on the CHP 180 Form indicating which CCD applied. DO NOT impound when the driver is cited for VC §12500 simply because no other licensed driver is available when the Community Care Doctrine does not apply.

Members must get supervisor approval before releasing a vehicle on scene after having issued a citation for any of the above violations.

Vehicles **SHALL** be impounded:

- (a) When the driver has been cited for VC §12500, and DMV, citation data, or RMS records indicate the driver has been previously cited for the same offense. This indicates “prior knowledge” and proof the offense will continue; therefore the vehicle shall be impounded pursuant to VC §22651(p);
- (b) When the driver has been cited for VC §12500 but has an active suspension on their license. Regardless of knowledge of the suspension, the vehicle shall be impounded pursuant to VC §22651(p);
- (c) When the driver has been arrested/cited for any violation of sections VC §14601; Violations of VC §14601 require knowledge of the suspension or revocation. Knowledge is established by a valid service code indicated in the drivers DMV record. The service codes are listed below;
 - 1) A - First Class Mail, not returned unclaimed;
 - 2) B - Served, Signed Document on File;
 - 3) D - Personal Service Document On File;
 - 4) H - Acknowledgement, No Signature;
 - 5) I - Returned Unclaimed;
 - 6) J - Written Notice Service By Officer;
 - 7) K - Refused Service;
 - 8) L - Reported Deceased;
 - 9) M- Verbal Notice Document on File;
 - 10) P - Personal Service; or
 - 11) R - Personal Service Unsuccessful
- (d) Pursuant to Vehicle Code §23109.2 when the vehicle was involved in:
 - 1) Reckless driving on a highway, as described in VC §23103(a);
 - 2) Reckless driving in any off-street parking facility, as described in VC §23103(b);
 - 3) A motor vehicle speed contest, as described in VC §23109(a); or
 - 4) Exhibition of speed on a highway, as described in VC §23109(c).

All of the service codes constitute proof of knowledge of the suspension or revocation for enforcement purposes, with *the* exception of “I”, “K”, “R”.

When knowledge of the suspension or revocation cannot be established through service codes the driver shall be issued a DL310 verbal notice by Peace officer and cited VC §12500(a) and the vehicle shall be impounded.

***Note:** Pursuant to VC §14601 through VC §14601.5(a) service code “A” First class mail, not returned unclaimed, knowledge of suspension or revocation is “conclusively presumed” and therefore service is valid. VC §13106 refers to that presumption of knowledge as a “rebuttable presumption”. Any request of “personal service needed” with service code “A”, does not affect the valid service, it is merely a secondary notification that eliminates the “rebuttable presumption” provision of VC §13106. The District Attorney’s Office WILL NOT file on service code “A”, unless the driver admits to having knowledge and this information is included in the police report. Therefore, if the driver refuses to acknowledge the suspension on an “A” service code, the driver shall be cited for VC 12500(a) and the vehicle shall be impounded. The “Community Care Doctrine” does not apply in this situation since the driver’s privileges have been suspended. It is imperative that members complete a DL 310 so that the service code can be updated showing the driver has been advised of the suspension by law enforcement. ComCen shall be advised that the vehicle is being impounded for an unlicensed driver.

- (d) When the driver has been arrested/cited for VC §§23140, 23152, or 23153:
 - 1) DUI impounds for VC §§23140, 23152, 23153 will follow the guidelines set forth in VC §§22651(h)(1) & 22651(h)(2);
 - 2) Officers shall check the DMV record of all DUI offenders to determine prior convictions for DUI. Vehicles of repeat DUI offenders shall be impounded as follows:

- I. Impound for 5 Days when the driver has been determined to have been convicted one time of violating VC §23140, VC §23152 or VC §23153 within the prior 10 years, per VC §14602.8(a)(1) and at least one of the following criteria:
 - a. The driver has a BAC of .10% or more; or
 - b. The driver refuses to submit to or complete a chemical test requested by an investigating officer.
 - II. Impound for 15 days when the driver has been determined to have been convicted two or more times of violating any combination of VC §23140, VC §23152 or VC §23153 within the prior 10 years, per VC §14602.8(a)(1) and at least one of the following criteria:
 - a. The driver has a BAC of .10% or more; or
 - b. The driver refuses to submit to or complete a chemical test requested by an investigating officer.
 - III. Officers should indicate the length of the hold (5 or 15 days on the CHP 180 Form); and
- 3) Officers shall check the DMV record to determine any requirements for any ignition interlock devices. Any vehicle of a DUI offenders found in violation of this requirement shall be impounded pursuant to the provisions of VC §14602.6(a).

510.6.1 30 DAY IMPOUNDS

30 day impounds will follow the guidelines set forth in VC §14602.6(a) and/or VC §23109.2 when the driver has been arrested/cited for any violation of sections VC §14601, VC §23103 or VC §23109.

Vehicles impounded for VC §12500 will not be impounded for 30 days.

510.7 EVIDENCE TOW

A member shall obtain approval from the assigned/on-scene investigative unit or the member's supervisor to impound a vehicle for further investigation/evidence (i.e. the vehicle itself constitutes evidence in a crime, to secure the vehicle while obtaining a search warrant, VIN discrepancy, contains evidence, etc.).

The member shall request an "evidence tow". ComCen will then contact the appropriate tow company from the evidence rotation tow list in the Dispatch & Tracking Solutions Program (DTS). The requesting member shall contact the investigative unit the vehicle is being held for and advise them of the tow.

A member shall follow the vehicle from the scene to the tow yard. When the vehicle is placed into the holding bay, the member shall place a strip of Evidence Tape over all access points to the vehicle's interior or cargo areas (e.g. doors, trunk, hood, camper shell window/hatch, etc.). The tape shall be placed in such a manner that would break the seal if opened. After placing the evidence tape on the vehicle entry points, the member shall initial and date the tape to ensure the chain of custody. Prior to leaving the tow facility, the member shall complete tow sheet in Axon Records and forward the vehicle impound information to Teletype. The member shall document following the evidence vehicle and securing it in their report.

[REDACTED] Investigators should consider releasing the vehicle once processing is complete and evidentiary items have been collected. The release of a vehicle shall be considered on a case specific/case by case basis. It is the investigator's responsibility to determine if and when the release shall take place.

The releasing investigator shall contact the tow coordinator by email and advise the vehicle is available for release. The releasing investigator shall notify the registered or legal owner that the vehicle is available for release and direct them to the tow yard. Notification shall be either by phone or letter. The letter shall be sent to the Registered Owner's address and shall include the case number, release

information, and vehicle information. A copy of the letter shall be attached to the report. Unless otherwise noted, all City Administrative fees and tow charges are due to the tow company.

Investigative unit supervisors are responsible for ensuring that vehicles are released from evidence holds in a timely manner, and notification regarding the release is made to the Tow Coordinator, and the Registered Owner of the vehicle.

510.8 VEHICLE TOWING RULES

- (a) To enhance public safety, members should make reasonable attempts to secure transportation for occupants when their vehicle is impounded, and:
 - 1) Occupants are unable to arrange their own transportation, or;
 - 2) Occupants request assistance in arranging transportation. This may include calling a taxi for the occupants at their expense or phoning a friend/family member to pick them up. With supervisor approval, members may transport occupants to a safe location within a reasonable distance.
- (b) Responding tows are required to respond within 30 minutes after being contacted by ComCen through the DTS System. Tows being requested during commuting hours (0700-0900 and 1600-1800) are given a 45-minute response time. When a tow service fails to respond within the required 30 or 45 minutes, the ComCen should be notified to cancel the original tow and dispatch a different tow service. A canceled tow service is considered unauthorized and will not be allowed to remove the vehicle. Members will refrain from requesting ETAs from the ComCen within this 30 to 45-minute period.
- (c) All motor vehicles, including off highway vehicles stored or impounded by members, shall be inventoried (completion of a CHP 180 Form).
- (d) Vehicles such as dirt/minibikes, go-carts, etc., are illegal for street operation. Officers who encounter off highway vehicles should consider citing for VC §24002(b) – Vehicle not equipped as provided by the Vehicle Code, or VC §4000(a) – Unregistered vehicle on a highway. Operators who are unlicensed, suspended, or with revoked driving privileges should be charged with the appropriate violation and the vehicle impounded under VC §22651(p). Members shall advise ComCen of the reason for the tow and that they need a tow for a dirt/minibike, go-carts, etc.
- (e) When a vehicle is stored or impounded and the driver/owner is present, they will be provided with a completed “Towed Vehicle Information Sheet.”
- (f) When a vehicle needs to be impounded after being involved in a major crime or collision, a CRU (Collision Reconstruction Unit) tow will be requested.
- (g) Officers may impound a vehicle as evidence in a crime, with or without the owner’s permission, based on probable cause. When vehicles are towed as evidence, the member shall request an “evidence tow”. Members are required to advise ComCen of the investigative unit for which the vehicle is being held as evidence. ComCen will enter the investigative unit into the DTS program on evidence tows. Evidence tows include vehicles held for evidence for Hit & Run, evading, VIN verification, arson, recovered stolen vehicles involved in a crime or cases which require follow-up investigation by a detective.

Exception: Recovered stolen vehicles not requiring follow-up investigation shall be towed utilizing the normal rotation tow list.

- (h) Except under unusual or emergency situations, no other tow company than the one dispatched will be allowed to tow a vehicle.
- (i) Vehicles to be towed shall not be driven by members, unless necessary to move the vehicle a short distance to eliminate a hazard, prevent the obstruction of a fire hydrant, at a DUI Checkpoint, or to comply with posted signs.
- (j) The driver/owner will be advised the Department is not responsible for theft or damage to the vehicle.

510.9 COMPLETION OF A CHP 180 FORM

Members initiating the towing and storage of a vehicle will complete a CHP 180 Form and submit it to Records prior to the completion of their shift.

- (a) The Yellow copy is given to the tow operator. All other sheets are sent to the Records Bureau.
- (b) The CHP 180 Form will be completely filled out and will include a description of property within the vehicle (see below).
- (c) The member who completes the CHP 180 Form will notify Teletype as soon as reasonably possible from the time the vehicle was towed, except at Checkpoints where the CHP 180 Forms will be turned in to Records at the conclusion of the operation.
- (d) When a member removes a vehicle and uses the electronic inventory in Axon Records to document the removal, the report shall be sent to Teletype electronically as soon as it is completed.
- (e) The member must present the tow driver with a Fresno PD Tow Information Form and have the tow driver sign the form in the appropriate section. After obtaining the signature, the Tow Information Form shall be turned into Records, who will in turn fax a copy to the appropriate tow company

510.9.1 VEHICLE INVENTORY SEARCHES

Property in a stored or impounded vehicle will be inventoried and listed on the CHP 180 Form. All property of evidentiary value found in a vehicle in plain view and/or resulting from a legal search shall be seized from the vehicle prior to impound and shall be booked consistent with normal booking procedures. This includes the trunk and any compartments or containers, even if closed and/or locked. When a container is locked and the key is not present, members will contact a supervisor and advise them of the circumstances, prior to forcing open the locked container. Members shall inventory all items that can legally be opened without damaging the containers or the contents. When something is not opened due to the probability of damage or not legal to do so, it shall be noted on the CHP 180 Form. Members conducting inventory searches should be thorough and accurate (as practical) in preparing an itemized inventory. These inventory procedures are for the purpose of protecting an owner's property while in police custody, to provide for the safety of officers, and to protect the Department against fraudulent claims of lost, stolen, or damaged property.

510.10 TOWING SERVICES

The Department contracts with specific tow companies when towing department vehicles. Should a member need a tow for a City owned vehicle, a request will be made through ComCen for a "City" Tow.

510.10.1 COMPLAINTS AGAINST TOW COMPANIES

Complaints regarding the performance of tow services shall be sent to the Traffic Bureau for review by the Tow Coordinator. Members who observe, or who are subject to, unprofessional and/or rude behavior by the tow service, or who observe the tow service failing to comply with Department procedure or any requirement of law shall notify the Tow Coordinator, via Department email or voicemail.

Should a tow service fail to arrive to a call within the 30-to-45-minute time period, or cancel themselves from a call after 10 minutes, the Tow Coordinator shall be notified by ComCen.

510.11 REMOVAL OF DISABLED VEHICLE IN TRAFFIC COLLISION

When a vehicle has been involved in a traffic collision and must be removed from the scene:

- (a) If a vehicle is blocking any portion of the roadway and cannot be moved by the driver or responsible party, the member shall request a tow for a collision with road blockage. A CHP 180 Form will be required for this tow under the authority of VC §22651(b). An owner's preference will NOT be allowed in these circumstances.
- (b) If the owner is incapacitated, or for any reason it is necessary for the Department to assume responsibility for a vehicle involved in a collision, the member will request a tow for a collision with road blockage. A CHP 180 Form will be required for this tow under the authority of VC §22651(g). An owner's preference will not be allowed in these circumstances.

- (c) If a vehicle is out of the roadway or can be moved out of the roadway, the driver or responsible party will be allowed to take possession of the vehicle. If the driver requests a tow, the member will ask the driver if they prefer a specific tow service and, if possible, advise ComCen of the request for an "owner's preference" (no CHP 180 Form required).
- (d) If a "no preference" tow is requested, a company will be selected from the "owner's no preference" (rotational list of towing companies in DTS) by ComCen (no CHP 180 Form required).

Per the VC §27700, tow truck operators shall remove broken glass, spilled fluid, and other debris from the scene of traffic collisions. Members shall ensure that the tow operator complies with the removal requirements. If the tow driver leaves the scene prior to cleaning the area, the member shall contact ComCen to have the tow driver return to complete the cleanup. The member shall notify the Tow Coordinator, via Department email or voicemail.

510.12 NOTIFICATIONS

Records Bureau is responsible for the notification of vehicle owners as required by VC §22852.

Records will send the original CHP 180 Forms to the Tow Unit. The Tow Unit will review the CHP 180 forms for accuracy and return them to the Records Bureau. If it is determined that the charges do not meet the 30 day impound criteria, or a Post Storage Hearing has been conducted and it is decided that the vehicle can be released prior to 30 days, it will be the responsibility of the Tow Unit to notify the registered owner of the vehicle of the release by letter or telephone.

Any modifications to vehicle release dates or fees will be made by the Tow Coordinator in the DTS program.

510.13 DTS TOW REASON CODES

ComCen shall be advised by the member requesting a tow truck of the reason for the tow. The reason must be accurate as it sets the administrative fees the driver or the registered owner will pay to have their vehicle released. As an example, if a member requested a tow truck for a collision blocking a roadway, but later determines that this driver was suspended, the member shall advise ComCen to update the reason for the tow to "suspended driver."

Fresno Police Department Policy Manual

Vehicle Impound Hearings

512.1 POLICY

The Department will provide the vehicle's registered and legal owners of record, or their agents, with the opportunity for a post-storage hearing to determine if a stored or impounded vehicle meets the criteria for an early release pursuant to Vehicle Code §22852. All requests for a full or partial refund of vehicle impound and tow fees shall be processed by the City of Fresno Risk Management Division.

Under certain circumstances, the City Manager has granted the Fresno Police Department the authority to provide an immediate refund to the registered or legal owner of an improperly towed vehicle. These situations are limited to vehicles that have been clearly towed in error. This request for refund will be forwarded by the Traffic Bureau Commander to the Division Commander in memo form. Upon approval, the Fresno Police Department's Fiscal Affairs Bureau will be instructed to process a refund. When contacted by the Tow Coordinator, the registered or legal owner shall respond to the Traffic Bureau to receive the refund and complete a release of liability form. The Tow Coordinator will maintain a file of all refund requests along with the release of liability form.

512.1.1 PURPOSE AND SCOPE

The vehicle storage hearing is an informal process to evaluate if a stored or impounded vehicle meets the criteria for an early release.

512.2 STORED OR IMPOUND HEARING

When a vehicle is stored or impounded by any member of the Fresno Police Department, the registered owner or legal owner may request a hearing.

The "Tow Coordinator" will contact the requesting party within 48 hours, (excluding weekends and holidays), to arrange for an appointment for a hearing.

512.3 HEARING PROCEDURES

The Tow Coordinator will usually serve as the "Hearing Officer".

Any relevant evidence may be submitted for review by the Hearing Officer to determine if the vehicle in question meets the criteria for an early release.

The member who caused the storage or removal of the vehicle does not need to be present for this hearing. All requests for a hearing on a stored or impounded vehicle must be submitted in person, writing, or by telephone within ten days of the date appearing on the notice.

The person requesting the hearing may record the hearing at their own expense.

The Hearing Officer will consider all information provided, VC §§14602.6(a) and 23109.2, and then render a decision as to the number of days of storage.

512.4 HEARING RESULTS

512.4.1 WITHIN POLICY AND LAW

If a decision is made that the vehicle was stored or impounded within the law and Department policy, the Hearing Officer will:

- (a) Advise the requesting party of the hearing results; and
- (b) Advise they may file a claim with the City's Risk Management Division if they desire.

512.4.2 VEHICLES MEETING EARLY RELEASE CRITERIA

When the vehicle in question qualifies for early release, as set forth in the Vehicle Code, the Hearing Officer will require that the vehicle in storage be released immediately once applicable fees are paid.

512.5 ADMINISTRATIVE AND IMPOUND FEES

Administrative impound fees and tow fees are to be paid prior to the release of a stored or impounded vehicle.

512.6 VEHICLES IMPOUNDED AS EVIDENCE

Detectives may only waive administrative impound fees on vehicles impounded for evidence that belong to a victim.

For all evidence vehicles, the releasing detective shall contact the tow coordinator by email and advise the vehicle is available for release. The releasing detective shall notify the registered or legal owner that the vehicle is available for release and direct them to the tow yard. Unless otherwise noted, all City Administrative fees and tow charges are due to the tow company.

512.7 REQUESTS FOR FEE REIMBURSEMENT

All requests for the reimbursement of administrative impound and storage fees shall be forwarded by the person requesting the hearing to the City's Risk Management Division.

Fresno Police Department Policy Manual

Impaired Driving and Evidence Collection

514.1 POLICY

The Fresno Police Department is committed to traffic safety through strict enforcement of all laws related to driving under the influence (DUI). Investigations of all DUI incidents will be investigated in accordance with established procedures.

514.1.1 PURPOSE AND SCOPE

This policy explains the procedures to be followed while collecting evidence to establish the blood alcohol level of drivers arrested for driving while intoxicated, unconscious drivers, and unconscious pedestrians involved in traffic collisions because of their intoxicated state.

514.2 ARREST AND INVESTIGATION

514.2.1 INVESTIGATIONS

All officers are expected to enforce DUI laws with due diligence.

514.2.2 WARRANTLESS ARREST

In addition to the arrest authority granted to officers pursuant to Penal Code §836, an officer may make a warrantless arrest of a person when the officer has reasonable cause to believe the person has been driving under the influence of an alcoholic beverage, any drug, or the combined influence of the same when (Vehicle Code §40300.5):

- (a) The person is involved in a traffic accident;
- (b) The person is observed in or about a vehicle that is obstructing the roadway;
- (c) The person will not be apprehended unless immediately arrested;
- (d) The person may cause injury to themselves or damage property unless immediately arrested; or
- (e) The person may destroy or conceal evidence of a crime unless immediately arrested.

514.3 NON-COLLISION RELATED

An arrest for DUI shall be made on a roadway or on private property when:

- (a) An officer witnesses a person commit the elements of DUI;
- (b) The under-the-influence driver was lawfully detained by an officer of another law enforcement agency;
- (c) The under-the-influence driver was lawfully arrested or detained by a person who witnessed the driving element of the offense (citizens' arrest is required only when VC §40300.5 does not apply); or
- (d) When an officer observes someone they believe is under the influence of an alcoholic beverage or drugs, and the elements of VC §40300.5 are present.

514.4 COLLISION RELATED

An arrest shall be made for DUI when a traffic collision has occurred on a highway or on private property and the arresting officer has reasonable cause to believe that the suspect had been driving under the influence.

The arrest location shall include the scene of the collision or a location within a reasonable time and distance from the scene, to include locations to which the driver has been transported for medical treatment.

514.5 SOBRIETY REPORT

The use of the Sobriety Report form by itself for DUI cases is authorized when the suspect(s) arrested are charged with DUI and related traffic offenses.

514.6 CHEMICAL TESTS

A person is deemed to have consented to a chemical test or tests under any of the following (VC §23612):

- (a) The person is arrested for driving a vehicle while under the influence, pursuant to VC §23152;
- (b) The person is under 21 years of age and is arrested by an officer having reasonable cause to believe that the person's blood alcohol content is 0.05 or more (VC §23140);
- (c) The person is under 21 years of age and detained by an officer having reasonable cause to believe that the person was driving a vehicle while having a blood alcohol content of 0.01 or more (VC §23136); or
- (d) The person was operating a vehicle while under the influence and proximately caused bodily injury to another person (VC §23153).

If a person withdraws this implied consent, or is unable to withdraw consent (e.g., the person is unconscious), the officer should consider implied consent revoked and proceed as though the person has refused to provide a chemical sample.

514.6.1 CHOICE OF TEST

A person arrested for DUI has the choice of whether the test is of their blood or breath and the officer shall advise the person that they have that choice. If the person arrested is incapable or states they are incapable of completing the chosen test, the person shall submit to the remaining test.

If the person chooses to submit to a breath test and there is reasonable cause to believe that the person is under the influence of a drug or the combined influence of alcohol and any drug, the officer may also request that the person submit to a blood test. If the person is incapable of completing a blood test, the person shall submit to and complete a urine test [VC §23612(a)(2)(C)].

514.7 VEHICLE IMPOUND AUTHORITY AND PROCEDURES

The vehicle of a suspected DUI driver who is arrested shall be impounded under Vehicle Tow Authority VC §22651(h)(1).

When the driver has been arrested/cited for VC §§23152, 23153:

- (a) DUI impounds for VC §§23140, 23152, 23153 will follow the guidelines set forth in VC §§22651(h)(1) & 22651(h)(2);
- (b) Officers shall check the DMV record of all DUI offenders to determine prior convictions for DUI. Vehicles of repeat DUI offenders shall be impounded as follows:
 - 1) Impound for 5 Days when the driver has been determined to have been convicted one time of violating VC §23140, VC §23152 or VC §23153 within the prior 10 years, per VC §14602.8(a)(1) and at least one of the following criteria:
 - I. The driver has a BAC of .10% or more; or
 - II. The driver refuses to submit to or complete a chemical test requested by an investigating officer.
 - 2) Impound for 15 days when the driver has been determined to have been convicted two or more times of violating VC §23140, VC §23152 or VC §23153 within the prior 10 years, per VC §14602.8(a)(1) and at least one of the following criteria:
 - I. The driver has a BAC of .10% or more; or
 - II. The driver refuses to submit to or complete a chemical test requested by an investigating officer.
 - 3) Officers should indicate the length of the hold (5 or 15 days on the VIR); and
- (a) Officers shall check the DMV record to determine any requirements for any ignition interlock devices. Any vehicle of a DUI offenders found in violation of this requirement shall be impounded pursuant to the provisions of VC §14602.6(a).

514.8 REFUSAL TO TAKE CHEMICAL TEST

When a driver arrested for VC §23152 refuses to take a chemical test after being admonished of the requirement, they shall be cited or booked as appropriate.

514.9 FIELD SOBRIETY TESTS (FST'S)

When a person suspected of DUI is stopped, field (roadside) sobriety tests (FST's) should be administered safely and when the suspect is able and willing to perform them. FST's may assist the officer in determining if reasonable cause to arrest exists.

Officers should take care to determine that a suspected driver is not merely exhibiting the symptoms of intoxication due to diabetes, epilepsy, or other illnesses. Officers should attempt to use the FST's listed on the Sobriety Report.

514.10 OFFICER'S RESPONSIBILITY

During an arrest for DUI, the officer, acting on behalf of the DMV, shall do the following:

- (a) Confiscate any California Driver's License(s) (CDL) in the possession of the driver. If the subject has an Admin Per Se (APS) temporary license document, it will not be confiscated; another order pursuant to the current DUI arrest shall be issued; and
- (b) Complete and serve the Administrative Per Se Order of Suspension (DMV form DS367, DS367m or DS367s -Officer's Statement and Order of Suspension), 4th page (pink copy) on the driver, regardless of license status and submit this paperwork to Records along with the confiscated license for transmittal to the DMV. This will serve as the driver's temporary license. If the driver's privilege to drive is suspended or revoked, the order will not be a valid temporary license.

514.11 IMPLIED CONSENT

Drivers arrested for DUI shall be admonished per the DS 367 form.

If a person withdraws this implied consent, or is unable to withdraw consent (e.g., the person is unconscious), the officer should consider implied consent revoked and proceed as though the person has refused to provide a chemical sample.

514.11.1 ADMINISTRATIVE PER SE / OFFICER'S STATEMENT FORM (DS 367)

This form shall be completed for all DUI arrests except when the arrest is for a drug only DUI. All three pages, front and back, must be completed.

Note: When a DUI arrest is for drugs only, a DMV notice of priority re-examination form shall be completed. The pink copy shall be given to the driver.

514.11.2 DOCUMENTING "UNDER 21" BLOOD ALCOHOL VIOLATIONS (DS 367M)

When a violation of VC §§23136, 23140, 23152, and/or 23153 has occurred, the officer shall take possession of the driver's CDL and complete a DS 367M (Under Age 21 - Officer's Statement / Admin Per Se Form). A copy of the DS 367M shall be provided to the suspect.

When a police report is written documenting an incident relating to one of the above sections, the case number shall be inserted on all applicable DMV forms.

When the DS 367M form is the only form completed, the officer shall draw a case number and insert it on the DMV form. The DS 367M form becomes the original report, so the officer shall also write "ORIGINAL" in the top margin of the form and submit the document to Records.

514.12 EVIDENCE COLLECTION

514.12.1 COLLECTING BREATH SAMPLE AS EVIDENCE

If the arrestee chooses a breath test and it can be accomplished without undue delay, the officer shall request another unit to bring a Portable Evidential Breath Tester (PEBT) to the scene or the arrested person shall be transported to the PEBT location.

- (a) No one is to administer a PEBT test unless they have received the required training as provided by DOJ.
- (b) The member administering the test shall follow the instructions displayed on the handheld 7510 inside the PEBT, upon the start-up of the test.

- 1) Upon completion of the test, the mouthpiece shall be given to the suspect.
 - 2) The suspect may retain the mouthpiece or discard it.
 - 3) If the suspect is combative the member shall place the mouthpiece in the suspect's property bag.
 - 4) The disposition of the mouthpiece shall be noted in the member's report.
- (c) The printout of the results from the PEBT shall be attached to the Sobriety Report.
- 1) To prevent the loss of the PEBT print-out, it is recommended that the member tape the original printout to a property/narrative report form.
- (d) The top portion of the form will be filled out and the form will become the final page of the DUI investigation.
- 1) Members will note which PEBT device was used in the disposition portion of their narrative.
 - 2) The PEBT units are identified by the issued serial number which is labeled on the outside of the protective case.
 - 3) The serial number needs to match the serial number on the printout, (e.g., ARCB-0007).

514.12.2 PEBT ADMINISTRATION (UNDER AGE 21)

When an officer comes into contact with a driver under the age of 21 who is suspected of having consumed an alcoholic beverage, the driver shall be advised of the requirement to submit to a PEBT test.

514.12.3 COLLECTING BLOOD AS EVIDENCE

Blood evidence collection will be done in accordance with Policy §373.

514.12.4 DETECTION OF DRUG INFLUENCE

When a driver displays the objective symptoms of DUI and they register a BAC lower than .08, the officer shall determine whether or not the subject is under the influence of a controlled substance.

514.13 REFUSAL TO TAKE A CHEMICAL TEST

Officers are not required to offer alternative tests on refusal. They shall allow a person refusing any test an opportunity to change their mind and be tested, within a reasonable period of time after the initial refusal.

Before accepting a refusal, officers shall read the refusal section of DS 367 verbatim to the suspect, explaining the consequences of a refusal.

An officer should make every effort to obtain a complete evidence sample and avoid refusals.

514.13.1 REFUSAL FORM

When, after reading and clarifying the required admonishments, the suspect still refuses any test, officers shall complete Form DS 367 "Officer's Statement" - Section 13353 VC. A refusal form shall be completed when a forced blood draw is necessary.

514.13.2 BLOOD SAMPLE WITHOUT CONSENT

A blood sample may be obtained from a person who refuses a chemical test when any of the following conditions exist:

- (a) A search warrant has been obtained (PC §1524); or
- (b) The officer can articulate that exigent circumstances exist. Exigency does not exist solely because of the short time period associated with the natural dissipation of alcohol in the person's blood stream. Exigency can be established by the existence of special facts such as the driver is to undergo surgery, blood transfusion, or some other situation that would cause the warrant process to be impractical.

514.13.3 FORCED BLOOD SAMPLE

If a person indicates by word or action that they will physically resist a blood draw, the officer should request a supervisor to respond. The responding supervisor should:

- (a) Evaluate whether using force to obtain a blood sample is appropriate under the circumstances;
- (b) Ensure that all attempts to obtain a blood sample through force cease if the person agrees to, and completes a viable form of testing in a timely manner;
- (c) Advise the person of their duty to provide a sample (even if this advisement was previously done by another officer) and attempt to persuade the person to submit to such a sample without physical resistance. This dialogue should be recorded on audio and/or video when practical.
- (d) Ensure that the withdrawal is taken in a medically approved manner.
- (e) Ensure the forced withdrawal is recorded on audio and/or video when practicable.
- (f) Monitor and ensure that the type and level of force applied is reasonable under the circumstances:
 - 1) Unless otherwise provided in a warrant, force should generally be limited to handcuffing or similar restraint methods.
 - 2) In misdemeanor cases, if the suspect becomes violent or more resistant, no additional force will be used and a refusal should be noted in the report.
 - 3) In felony cases, force which reasonably appears necessary to overcome the resistance to the blood being withdrawn may be permitted.
- (g) Ensure the use of force and methods used to accomplish the blood sample draw are documented in the related report.

When a supervisor is unavailable, officers are expected to use sound judgment and perform as a responding supervisor, as set forth above.

514.14 CRIME REPORT (CR)

When a suspect arrested for DUI is charged with additional, non-traffic violations, a CR shall be prepared with the Sobriety Report used as a supplement.

514.15 CONFISCATION OF CALIFORNIA DRIVER'S LICENSES

The driver's license of a person arrested of driving under the influence of alcohol shall immediately be confiscated and returned to DMV as previously indicated in this order.

514.16 SUSPECT DISPOSITION

When determining the appropriate violation for persons arrested for DUI, officers shall check the suspect's criminal history for prior DUI convictions. Persons arrested for Misdemeanor DUI violations (VC §23152) may be cited and released on a Notice to Appear when the arrestee is able to be released to a sober adult who will assume responsibility for the intoxicated person. Officers will document the name of the responsible person the suspect was released to in the related police report. Any person arrested for DUI that is belligerent, combative, or otherwise uncooperative, shall be booked into the Fresno County Jail. Officers should use sound judgment when making this determination.

Fresno Police Department Policy Manual

Unused citation books are stored at each district station and are distributed as needed. Once distributed, unused citation books shall be kept in a secure area (e.g., locked cabinet) in the district/bureau supervisor's office. Citation books shall only be issued by a supervisor. Dressing station supervisors are responsible for maintaining a supply of citation books at the stations. The inventory card shall be submitted to Records upon a member's receipt of a new book. Citations will be distributed as follows:

- (a) The green original is the court's copy. It is submitted to Records;
- (b) The yellow copy is given to the violator;

- (b) Initial the correction; and
- (c) Mark the box in the lower right-hand corner, "Violators Copy Corrected".

When a traffic citation is issued and in need of correction, members shall not correct the error or omission on the remaining copies of the citation. Instead, the members shall:

Any request from a recipient to dismiss a citation shall be referred to the Traffic Bureau Commander. Upon a review of the circumstances involving the issuance of the traffic citation, the Traffic Bureau Commander may recommend dismissal of the traffic citation. 517.1 POLICY

Members assigned to patrol or traffic enforcement functions should take enforcement action when a violation is observed and enforcement is appropriate. Known and documented locations with high incidents of collisions should receive enforcement emphasis.

517.1.1 PURPOSE AND SCOPE

The purpose of this policy is to reduce the number of fatal, injury, and non-injury collisions in the City of Fresno through traffic enforcement.

517.2 GENERAL ENFORCEMENT PROVISIONS

Traffic violations of the Vehicle Code and Fresno Municipal Code may be handled by:

- (c) Arrest, when authorized by law.

517.2.1 TRAFFIC VIOLATIONS INVOLVING CITY EMPLOYEES

Citations may be issued to City employees committing violations while operating City vehicles. When one is issued, the issuing officer shall direct a memo to their commander who shall notify the City Manager by memo of the citation. 517.2.3 NEW TRAFFIC LAWS / REGULATIONS

Members should use discretion when enforcing newly enacted traffic legislation. RCTB's related to new traffic laws and regulations are distributed by the Planning & Research Bureau after the beginning of a calendar year and should be referred to when enforcing new legislation.

Members should contact their supervisor when they have questions relating to the enforcement of new laws. The supervisor may contact the Department's Legal Advisor if additional clarification is needed.

517.2.4 UNDERCOVER VEHICLES EQUIPPED WITH EMERGENCY EQUIPMENT

Unmarked or unconventional vehicles should not be used for traffic enforcement purposes unless properly equipped with emergency equipment. Incapacity is defined as serious physical injury or illness, mental impairment, or disorientation which leads the officer to "reasonably believe" that a clear or potential danger or risk of injury to that person or others exists if the person is allowed to resume driving.

The three part form is used only for Priority Reexaminations and is to be completed by the officer at the time enforcement action is taken against the driver. Issuance of the Notice of Priority Reexamination shall be noted on the citation or AR for the violation.

Upon completion of the form, the driver should be asked to sign it and should be instructed to read the printed information on the form, appear at a DMV Driver Safety Office for a reexamination, immediately telephone a Driver Safety Office listed on the back of the form for an appointment, and bring their copy of the form to a Driver Safety Office within five work days to complete a reexamination or they may be suspended from driving.

517.4 UNLAWFUL USE OF LICENSES

The license or identification card involved in the violation shall be confiscated and booked into evidence. The license or identification card shall not be retained by the officer or returned to the owner.

517.5 SUSPENDED OR REVOKED DRIVERS LICENSES

When a check of a traffic violator's license status reveals a suspended or revoked driver's license:

- (a) Seize the license if still in possession;
- (b) Verbally advise of the suspension or revocation;
- (c) Impound the vehicle if it meets the guidelines of Policy §510 – Vehicle Towing;

When proof of service of an active suspension or revocation action can be established by teletype or admission, officers shall take enforcement action.

517.6 MOVING & MECHANICAL VIOLATIONS COMMITTED BY BICYCLISTS

Officers who observe bicyclists commit VC violations may cite the bicyclist for the violation using the Notice to Appear. The same procedures utilized for the citing of motorists and pedestrians shall be used in completing a Notice to Appear for bicycle violations committed by either adult or juvenile violators.

520.1 POLICY

Assistance to members of the community whose vehicle has become disabled will be provided as needed for the interest of public safety.

520.1.1 PURPOSE AND SCOPE

Vehicle Code §20018 provides that all law enforcement agencies having responsibility for traffic enforcement may develop and adopt a written policy to provide assistance to motorists in disabled vehicles within their primary jurisdiction.

520.2 MEMBER RESPONSIBILITY

When the member is assigned to a call of higher priority (0 and 1 priority) the Emergency Services Dispatcher (ESD) shall be advised of the location of the disabled vehicle and the possible need for assistance. The ESD shall then assign another available member to respond as soon as practical.

520.3 EXTENT OF ASSISTANCE

In most cases, a disabled motorist will require assistance.

Members shall determine:

- (a) If the vehicle poses some type of hazard;
- (b) If the vehicle can be moved out of the roadway to a position of safety; and/or
- (c) If the vehicle is movable or what assistance is needed (e.g. tow, timely repair, etc.).

Members shall remain at the scene providing assistance, such as traffic control, until the problem is abated, including transporting the motorist to the nearest telephone or safe area.

Continued involvement by members will be contingent on the time of day, the location, the availability of Departmental resources, and the vulnerability of the disabled motorist.

520.4 MECHANICAL REPAIRS

Members shall not make mechanical repairs to a disabled vehicle.

The use of push bumpers to relocate vehicles to a position of safety is not considered a mechanical repair

Fresno Police Department Policy Manual

Abandoned & Unregistered Vehicles

524.1 POLICY

Members coming into contact with vehicle parking, registration and abandonment violations should take action as describe within this policy.

524.1.1 PURPOSE AND SCOPE

This policy provides guidance and procedures for the marking, recording, and storage of vehicles parked in violation of the Fresno City Ordinance regulating 72 hour parking violations, unregistered vehicles and abandoned vehicles under the authority of Vehicle Code §22651, §22652.6 and §22669.

524.2 CHECKING “STOPS”

Authorized members investigating abandoned vehicles will initiate a license plate and VIN check to be informed of “stops”.

524.3 MARKING VEHICLES (72 HOUR PARKING ORDINANCE)

Vehicles suspected of being in violation of the City of Fresno 72-Hour Parking Ordinance will be marked and noted on a Fresno Police Department “Abandoned Vehicle Warning Card”. No case number is required at this time.

A visible chalk mark shall be placed on the vehicle’s left rear tire sidewall unless missing tires or other vehicle conditions prevent marking. The member shall mark the date, time, their initials and an arrow pointing to a corresponding mark on the ground to designate the vehicle’s location. The member should also attempt to obtain and record the vehicle’s odometer reading.

The completed “Abandoned Vehicle Warning Card” should be placed under the wiper blade on the windshield or other visible portion of the vehicle.

If a “marked” vehicle has been moved or the “markings” have been removed during a 72-hour investigation period, the vehicle shall be marked again for the 72-hour parking.

Note: To satisfy the condition that a vehicle has been “moved” by the owner, it must have been relocated at least one-tenth of a mile (528 feet).

524.4 CITATION

When, after 72 hours, the marked vehicle has not been removed, a member shall cite the vehicle in violation of Fresno Municipal Code §10005a or VC §22523(b) as appropriate.

If the vehicle has been moved a short distance in an effort to circumvent the ordinance, the vehicle may still be considered abandoned.

524.5 OBVIOUSLY ABANDONED VEHICLES

Motor vehicles which are parked, resting, or otherwise immobilized on any highway or public right-of-way and which lack an engine, transmission, wheels, tires, doors, windshield or any other part or equipment necessary to operate safely are a hazard to public health, safety and welfare and may be removed immediately upon discovery by a member rather than waiting the normal 72 hours VC § 22669(d).

524.6 ABANDONED VEHICLE REMOVAL

Any vehicle deemed abandoned will be towed/stored or impounded by one of the Department approved rotational tow companies and a Vehicle Inventory Report (VIR) shall be completed authorizing the

storage of the vehicle. All notifications and submission of the VIR form should be done as soon as practical in accordance with Policy §510. No other report is required.

A VIR will be completed and should include, in the narrative section, a description of the violation and:

- (a) Evidence that convinced the member that the vehicle had not been moved (e.g., chalk mark on tire, cobwebs, debris under vehicle, warning card on vehicle, flat tires, etc.);
- (b) The citation number;
- (c) A description of the member's attempt to contact the registered owner; and
- (d) Any other pertinent information.

524.7 ABANDONED ON PRIVATE PROPERTY

When a vehicle is abandoned on private property, the complaining party will be referred to the City's Community Revitalization Department at 559-621-8400 to initiate removal proceedings under City zoning restrictions.

However, an officer may cite the vehicle for VC §22523 at the request of the property's owner/manager. The property's owner/manager or reporting party shall be documented on the citation in the description section. The member shall not remove the vehicle unless authorized by law.

524.8 EXPIRED REGISTRATION

When a parked, unattended vehicle with expired registration is encountered on a highway, public lands or off-street parking facility, it may be cited.

If the vehicle has expired registration in excess of six months the vehicle may be impounded under the authority of VC §22651(o)(1).

The member shall complete a VIR form and explain the reason for the tow in the narrative including the date the registration expired.

No other report is necessary.

Note: If the vehicle is impounded under this authority, it shall not be cited.

Policy Manual**

**Chapter 6: Investigation
Operations**

600 Investigation and Prosecution

600.1 POLICY

It is the policy of the Fresno Police Department to investigate crimes thoroughly and with due diligence, and to evaluate and prepare criminal cases for appropriate clearance or submission to a prosecutor.

600.1.1 PURPOSE AND SCOPE

The purpose of this policy is to set guidelines and requirements pertaining to the handling and disposition of criminal investigations.

600.2 SUPERVISOR RESPONSIBILITY

Supervisors assigned to the Investigations Division, patrol investigations, or their designee, shall review cases for assignment on a daily basis. Cases which warrant further follow-up shall be assigned. The supervisor can consider other factors affecting whether a case is assigned or not assigned for further follow-up such as mandated requirements or the seriousness of the crime. Cases meeting the assignment criteria shall be assigned to a member for follow-up investigation based upon the Case Screening criteria outlined in the operations manual for each Investigations Division or District Investigations unit. Cases which do not meet the assignment criteria may be immediately closed by the supervisor or forwarded to the appropriate member as an unassigned case for officer review.

600.3 INVESTIGATIVE CASE MANAGEMENT SYSTEM

The Department utilizes [REDACTED] s the agency's case status control system. The system contains the following information for investigative case management:

- (a) Case number;
- (b) Date case assigned;
- (c) Assigned member's badge number;
- (d) Crime;
- (e) Case status: Active, Closed, Deleted, Reopened, Suspended, & Unsuspended; and
- (f) Status Comments - such as, 'Case suspended pending additional developments/evidence'.

600.3.1 ADMINISTRATIVE DESIGNATORS FOR CASES

Member's assigned cases for follow-up shall indicate the current status of cases maintained within [REDACTED] A case shall remain active while the investigation is continuing. Cases are maintained using one of the following designators:

- (a) Active;
- (b) Closed;
- (c) Deleted;
- (d) Re-opened;
- (e) Suspended; or
- (f) Unsuspended.

600.3.2 TYPES OF RECORDS MAINTAINED

A uniform filing system shall be used by all members to allow ready access by supervisors and other members to all active cases. Each unit or member shall maintain files which shall be separated into active, inactive (suspended), and closed categories. The case files shall be filed in case number order.

Inactive (suspended) cases shall be kept in the file for a period of at least six months, and then purged on a revolving monthly basis as needed for file space. Exceptions can be made by the unit supervisor. For example, homicide cases should be reviewed every six months but may need to remain open for a

variety of investigative reasons. Also, some files should not be purged until the statute of limitations has been exhausted. Cases of this type may be kept open at the discretion of the supervisor. Cleared cases shall be kept in the file for a period of at least one year and may be purged with the final disposition of the case in court.

600.3.3 ACCESSIBILITY TO THE FILES

The assigned member shall maintain the case files in such a manner as to allow ready access by supervisors and other members within the investigative unit. All hard-copy files maintained by detectives are secured in each member's office or similar safe storage area. The supervisor and the commander from each unit can coordinate access to cases through the individual member. Electronic case files are secured through the [REDACTED] preventing unauthorized electronic file access.

600.3.4 PROCEDURES FOR PURGING THE FILES

An annual review of the files maintained by the individual member will be conducted in coordination with the supervisor of the investigative unit. The annual review of files should begin on January 1st of each year and shall be completed to coincide with the matrix rotation. Files will be reviewed and considered for purging using the following format:

- (a) Date case assigned;
- (b) Charge;
- (c) Case management data - solvability, status; or
- (d) Reason why file shall be purged or remain open (e.g., statute of limitations.)

600.3.5 MEMBERS LEAVING THE UNIT

When a member leaves the investigative unit, they will provide a signed and dated log of all open cases to the unit supervisor. The supervisor shall ensure this process is completed prior to the last working date of the member leaving the unit. The supervisor will reassign the cases as needed.

600.4 MODIFICATION OF CHARGES FILED

Members are not authorized to recommend to the District Attorney, City Attorney, or to any other official of the court that charges on a pending case be altered or the case dismissed. In all cases resulting in court prosecution, any request to modify the charges filed or to recommend dismissal of charges in a pending case shall be made to the District Attorney's Office or City Attorney's Office only as authorized by a division commander or the Chief of Police.

600.5 INVESTIGATIVE RECORDS

Investigative units within the Department are authorized to maintain investigative records unique to their mission. These records may include confidential informant files, active case files, collision investigation related documents, and gang intelligence files. It is not the intent of this policy to require dual record-keeping so long as the data is readily available to Department members during the course of a criminal investigation.

Records Section is the designated agency terminal coordinator for the CLETS system and the Department custodian of police records. Unless otherwise noted, all Department crime related documents shall be maintained by the Records Section.

Any investigative records maintained within a bureau, section, or unit, are subject to the file review and purge guidelines as set forth in the respective operations manual.

600.6 PRELIMINARY CRIMINAL INVESTIGATIONS

Members assigned to reports of crimes are responsible for the satisfactory disposition of the call including investigation, enforcement, and necessary reports.

600.6.1 DEPTH OF INITIAL INVESTIGATION

The primary member is responsible for conducting the initial investigation at least far enough to establish the basic facts and elements of the crime. When leads as to identity and location of a suspect,

witness, evidence, or property are immediately present, the field officer shall pursue the investigation as far as practical. However, when extensive follow-up investigation will be necessary to clear the crime it will normally be completed by follow-up investigators unless the field officer obtains prior approval of their supervisor to continue the investigation. Nothing in this section is intended to prevent an officer from pursuing leads during uncommitted time between calls so long as the activity does not interfere with an ongoing investigation by follow-up investigators.

Officers shall attempt to obtain statements/admissions from suspects in criminal matters in which prosecution is likely. In major felony cases (i.e., child molest, child abuse, rape, robbery, kidnap, assault with a deadly weapon, etc.) officers may utilize available detectives to conduct suspect interviews when possible. Officers are not relieved of the responsibility to question suspects due to the unavailability of detectives.

600.6.2 RESPONSIBILITY FOR ASSUMED INVESTIGATION

When follow-up investigators respond to a crime scene to assist with an investigation, they assume overall control of and responsibility for the investigation. Unless instructed otherwise, the primary member assigned to the call will retain responsibility for completing and reporting the preliminary investigation.

600.6.3 REPORTING QUESTIONABLE CIRCUMSTANCES

When the investigating member on a call cannot clearly establish the elements of a crime they should title the investigation a GI report. Any suspicions or hunches, etc., about the legitimacy of a victim's story should be documented in a memo addressed to the supervisor of the unit with follow-up responsibility for the incident rather than being included in the report.

600.7 BASIC FOLLOW-UP GUIDELINES

It is the responsibility of the supervisor of the investigative unit to ensure that appropriate follow-up investigations are completed. When cases are assigned for follow-up, investigators should:

- (a) Review and analyze all pertinent reports, records, and lab exams;
- (b) Conduct additional interviews of victims and witnesses as needed, and conduct interviews and interrogations of suspects when appropriate;
- (c) Seek additional information from other sources (i.e., uniformed officers, informants);
- (d) Plan, organize, conduct searches, and identify physical evidence to be collected;
- (e) Identify and take appropriate steps to effect the apprehension of suspects;
- (f) Determine possible involvement of suspect(s) in other crimes;
- (g) Investigate the background and criminal history of suspect(s) involved, and when appropriate, other parties involved; and
- (h) Organize and prepare the criminal case for submission to the District Attorney, City Attorney, or Court when a suspect has been identified.
- (i) Ensure any assigned misdemeanor cases are investigated thoroughly, prepared for submission to the District Attorney, and victim(s) are kept updated.

600.7.1 CASE SCREENING

Cases shall be screened by the assigned member and prioritized for investigation based on the following criteria:

Priority 1

- (a) In-Custody, arrested, or cited suspects;
- (b) Crimes of a serious nature or related to other cases involving serious crimes, such as homicide, robberies, kidnapping, sexual assault, domestic violence, at risk missing persons, crime series, etc.; or
- (c) Crimes against minors;
- (d) Assigned by a supervisor or staff member as a priority.

Priority 2

- (a) Suspect has been identified or is identifiable through latent fingerprints, useable physical evidence, or other investigative leads, and for property crimes, the loss amount is over \$10,000 to a business or over \$5,000 to an individual; and
 - 1) In conjunction with other units or agencies; or
 - 2) Involves crime patterns with leads.

Priority 3

- (a) Suspect has been identified or is identifiable through latent fingerprints, useable physical evidence, or other investigative leads and, for property crimes, the loss amount is \$10,000 or less to a business or \$5,000 or less to an individual.

Priority 4

- (a) A possible suspect has been identified but, the case has low solvability factors.

All other cases will be suspended until such time that additional information is developed raising the priority as outlined above.

600.8 VICTIM INFORMATION

600.8.1 JUVENILE VICTIMS

When a juvenile is the victim of a crime, the investigating officer shall notify their supervisor prior to submitting the report for approval/follow up. If the juvenile's school is involved in the investigation in anyway, the member shall also notify the SRO Supervisor, and make notifications through their chain of command when appropriate.

600.8.2 VICTIM FOLLOW-UP

Members SHALL NOT advise victims that an investigator will contact them at a later time. Instead, the phone number of the investigative bureau with follow-up responsibility for the case shall be provided.

In misdemeanor cases, when no arrest is made, officers shall provide the victim/IP with the Involved Party Request for Review Form.

600.8.3 VICTIMS OF JUVENILE CRIME

Any member who is contacted by a victim about restitution for a crime committed by a juvenile shall refer the victim to the County of Fresno Juvenile Probation Department for assistance.

Victims wishing to know the disposition of cases in which they were involved shall be referred to Juvenile Probation or the DA's Office.

600.9 AT LARGE SUSPECTS

600.9.1 AT LARGE FELONS

Victims with inquiries about cases with felony suspects should be directed to the bureau with normal follow-up responsibility for the type of crime involved.

600.9.2 AT LARGE ADULT MISDEMEANANTS – CASE REVIEW PROCESS

When a misdemeanor adult suspect is identified, is at large, and the victim requests prosecution they shall be given and advised to fill out the Misdemeanor Case Review Form. If the form is completed on scene, the officer shall turn it in to the Investigations/POP supervisor for review. If the victim/IP decides to later turn in the form, they should be instructed on which area station it could be sent to. (email/mail/person). In all incidents the officer shall document that the Misdemeanor Case Review Form was given, and process explained. The detective sergeant will review these misdemeanor cases, and when appropriate, they shall assign the case to a detective for review and follow-up. The victim shall not be referred to the DA's Office for prosecution. (This will not apply to misdemeanors involving Domestic Violence cases/Sexual Assault or Child Abuse cases)

The case review process shall also be explained to victims and involved parties in any incident which may not clearly constitute a misdemeanor (e.g., disturbances, possible crimes, etc.) but where some prospect of future prosecution exists.

For the purpose of this subsection, a suspect is considered "identified" when their first and last names are known along with either a DOB or address.

600.9.3 AT LARGE MISDEMEANANTS – JUVENILES

When a juvenile misdemeanor suspect is at large and cannot be located by the investigating member, a report shall be prepared as required. The assigned follow-up investigator shall attempt to locate and arrest or cite the suspect. Any other member with reasonable cause to believe the juvenile falls within the provisions of WIC 602 may also arrest or cite the suspect.

Victims of misdemeanor crimes with at large juvenile suspect(s) SHALL NOT be advised to contact the DA's Office to seek a complaint. Any inquiries by the victim should be referred to the appropriate investigative bureau of the Department. Follow-up investigation units are responsible for reviewing cases with at-large juvenile suspects and for completing applications for petitions when appropriate.

600.10 RESPONSES TO CRIMES BY FOLLOW UP INVESTIGATORS

600.10.1 MANDATORY RESPONSES

A follow-up investigator(s) shall be requested and will respond to all:

- (a) Homicides;
- (b) Attempted homicides and/or assaults that are likely to become homicides;
- (c) Officer involved shootings;
- (d) Bombings; and
- (e) In custody deaths.

- (a) Sexual assault involving serious injury;
- (b) Child molests involving serious injury;
- (c) Offenses which are part of a recognized pattern of criminal sexual activity; or
- (d) Child abuse involving serious injury.

600.10.3 OPTIONAL NOTIFICATIONS

When a crime scene in the following categories is determined likely to contain evidence, a field supervisor shall be contacted to evaluate the need for an immediate response by a follow-up investigator(s):

- (a) Kidnappings;
- (b) Citizen involved shootings, with injury, resulting from an in-progress crime;
- (c) Incidents where there is a probability of future litigation against the City;
- (d) Suicides involving unusual circumstances;
- (e) Serious felonies in which the suspect has just become known or for which information has been developed that creates a reasonable likelihood that the suspect can be quickly identified and/or arrested; or
- (f) Other unusual incidents where special expertise is required or would be beneficial to the investigation of the scene and/or incident.

600.10.4 REQUESTING IMMEDIATE FOLLOW-UP

Required and optional callouts of follow-up investigators are outlined above. In addition to those provisions, a follow-up investigator may be requested to respond to the scene or otherwise assist with a criminal investigation with the approval of a field supervisor.

600.10.5 NOTIFICATION PROCEDURE

During normal working hours, the unit supervisor of the affected follow-up unit shall be contacted to determine the level of response and notify the assigned investigators. In the supervisor's absence, the commander over the unit or a member of the unit may be contacted to initiate a response. After normal hours, the night detective unit shall be contacted. When night detectives are unavailable, the affected unit supervisor shall be called at home by the Duty Officer.

600.10.6 CASE INVESTIGATION COORDINATION RESPONSIBILITY

In all cases where a follow-up investigator responds to a location, the investigator shall be briefed by the members on the scene as to the status of the investigation. The investigator is responsible for the coordination of the investigative effort from that point in time until completion.

The responding follow-up investigator has the authority to direct and coordinate the crime scene investigation consistent with established investigative procedures. This order does not reassign authority or responsibility from field units or supervisors during "in-progress" situations. It does reassign that authority once the situation has stabilized, and a follow-up investigator arrives and assumes responsibility for the crime scene investigation. Authority over the entire incident shall remain with the supervisor/commander in charge.

600.11 CASE MANAGEMENT REVIEW

All open assigned cases shall be periodically reviewed by supervisors to ensure that investigative efforts continue as required and that appropriate clearance and closure is completed by the assigned member. Victims and witnesses should, when necessary, be contacted in a timely manner on priority cases. Statements, evidence, and other investigative material shall be documented in a timely manner. Quarterly reviews of case files shall be conducted by the supervisor to justify keeping the case open. Any custodial interrogation of an individual who is suspected of having committed any violent felony offense should be recorded (audio or video with audio as available) in its entirety. Regardless of where the interrogation occurs, every reasonable effort should be made to secure functional recording equipment to accomplish such recordings.

Consideration should also be given to recording a custodial interrogation, or any investigative interview, for any other offense when it is reasonable to believe it would be appropriate and beneficial to the investigation and is otherwise allowed by law.

No recording of a custodial interrogation should be destroyed or altered without written authorization from the prosecuting attorney and the Investigations Division supervisor. Copies of recorded interrogations or interviews may be made in the same or a different format as the original recording, provided the copies are true, accurate and complete and are made only for authorized and legitimate law enforcement purposes.

Recordings should not take the place of a thorough report and investigative interviews. Written statements from suspects should continue to be obtained when applicable.

600.13.2 MANDATORY RECORDING OF ADULTS

Any custodial interrogation of an adult who is suspected of having committed any murder shall be recorded in its entirety. The recording should be video with audio if reasonably feasible (PC §859.5).

This recording is not mandatory when (PC §859.5):

- (a) Recording is not feasible because of exigent circumstances that are later documented in a report.
- (b) The suspect refuses to have the interrogation recorded, including a refusal *at* any time during the interrogation, and the refusal is documented in a report. If feasible, the refusal shall be electronically recorded.
- (c) The custodial interrogation occurred in another state by law enforcement officers of that state, unless the interrogation was conducted with the intent to avoid the requirements of PC §859.5.
- (d) The interrogation occurs when no member conducting the interrogation has a reason to believe that the individual may have committed murder. Continued custodial interrogation concerning that offense shall be electronically recorded if the interrogating member develops a reason to believe the individual committed murder.
- (e) The interrogation would disclose the identity of a confidential informant or would jeopardize the safety of an officer, the individual being interrogated or another individual. Such circumstances shall be documented in a report.
- (f) A recording device fails despite reasonable maintenance and the timely repair or replacement is not feasible.
- (g) The questions are part of a routine processing or booking and are not an interrogation.
- (h) The suspect is in custody for murder and the interrogation is unrelated to a murder. However, if any information concerning a murder is mentioned during the interrogation, the remainder of the interrogation shall be recorded.

The Department shall maintain an original or an exact copy of the recording until a conviction relating to the interrogation is final and all appeals are exhausted, or prosecution is barred by law (PC §859.5).

When conducting a physical lineup, photographic lineup, or in-field show-up, members shall avoid any conduct prior to, during, or after the identification which might be suggestive in any way to the person making the identification.

607.1.1 PURPOSE AND SCOPE

This policy sets forth guidelines to be used when members of this department employ eyewitness identification techniques (Penal Code §859.7).

607.2 DEFINITIONS

Eyewitness Identification Process - Any field or in field show-up identification, live lineup or photographic identification.

Field / In Field Show-Up Identification - A live presentation of a single individual to a witness following the commission of a criminal offense for the purpose of identifying or eliminating the person as the suspect.

607.3 LINEUPS – PHYSICAL / PHOTOGRAPHIC

607.3.1 PHYSICAL LINEUPS

Physical lineups are normally conducted whenever a suspect is placed in a live group of individuals and the entire group is presented individually to witnesses and/or victims for viewing. Persons arrested on the basis of probable cause may be placed in a physical line-up for identification purposes. The suspect is entitled to have an attorney present.

607.3.2 PHOTOGRAPHIC LINEUPS

Photographic lineups are normally conducted when a suspect is not in custody and occur when an officer arranges for a victim and/or witness to view an array of photographs.

607.4 IN-FIELD SHOW-UP

Show-ups should be limited to situations where the eyewitness views a suspect in close proximity in time and place to the scene of the crime and where physical lineups or photographic identifications are impractical.

607.5 GENERAL PROCEDURES

Prior to conducting a line-up or in-field show-up, the investigating member will obtain a thorough description of the suspect and details surrounding the incident. This should include:

- (a) Physical description of suspect (Height, weight, hair/eye color, clothing worn, tattoos, etc.);
- (b) The witness' opportunity to view the perpetrator at the time of the crime (length of time, lighting, distance, etc.); and
- (c) The witness' degree of attention at the time of the crime (were they concentrating to remember the perpetrator's looks; was the witness sober; did the victim know the suspect?).

The Fresno Police Department will strive to use eyewitness identification techniques, when appropriate, to enhance the investigative process and will emphasize identifying persons responsible for crime and exonerating the innocent. This should include:

- (a) An instruction to the witness that it is as important to exclude innocent persons as it is to identify a perpetrator;
- (b) An instruction to the witness that the perpetrator may or may not be among those presented and that the witness is not obligated to make an identification; and
- (c) An instruction to the witness that the investigation will continue regardless of whether an identification is made by the witness.

607.5.1 COMPOSITION OF LINE-UPS

When composing a line-up, all participants must be similar in appearance, though "there is no requirement that a defendant in a line-up must be surrounded by people nearly identical in appearance." [Van Tran (9th Cir. 2000) 212 F.3d 1143, 1156; Blair (1979) 25 Cal.3d 640; Wimberly (1992) 5 Cal.App.4th 773, 790.]

607.5.2 MULTIPLE WITNESSES

When more than one witness is available to view a line-up/show-up, each witness must view the lineup/show-up separately. Witnesses must not be allowed to communicate or hear another's comments during a line-up/show-up or "compare notes" about the description of the suspect(s).

607.5.3 IDENTIFICATION DURING LINE-UP / SHOW-UP

If identification is made by the witness, the investigator should ask the witness to state in their own words their level of certainty related to identification or non-identification. Investigators should not ask for this as a percentage or on a 1-10 scale. Investigating members shall not provide feedback to the witness during the identification.

607.5.4 OTHER SAFEGUARDS

Witnesses should be asked for suspect descriptions as close in time to the incident as possible and before conducting an eyewitness identification. No information concerning a suspect should be given prior to obtaining a statement from the witness describing how certain they are of the identification or non-identification. Members should not say anything to a witness that may validate or invalidate an eyewitness' identification. In photographic lineups, writings or information concerning any previous arrest of a suspect shall not be visible to the witness (PC §859.7).

607.6 EYEWITNESS IDENTIFICATION

Members are cautioned not to, in any way, influence a witness as to whether any subject or photo presented in a lineup is in any way connected to the case. Members should avoid mentioning that:

- (a) The individual was apprehended near the crime scene.
- (b) The evidence points to the individual as the suspect.
- (c) Other witnesses have identified or failed to identify the individual as the suspect.

In order to avoid undue influence, witnesses should view suspects or a lineup individually and outside the presence of other witnesses. Witnesses should be instructed to avoid discussing details of the incident or of the identification process with other witnesses.

Whenever feasible, the eyewitness identification procedure should be audio and video recorded and the recording should be retained according to Policy §450 (PC §859.7).

607.7 PHYSICAL LINE-UPS

Physical line-ups are conducted at the Fresno County Jail and are coordinated through the Detention Bureau's Watch II Administrative Sergeant.

607.7.1 USE OF VIDEO AND / OR AUDIO RECORDING

If video and/or audio equipment is used to record the line-up proceedings, the original copy of the recording shall be booked into evidence under the associated case number for the incident being investigated.

607.7.2 WITNESS ADMONITION

Prior to viewing a physical line-up, witnesses will be admonished:

- (a) To keep an open mind;
- (b) That the person who committed the crime may or may not be among those present;
- (c) That just because a person is in custody does not mean that they committed the crime; and
- (d) Not to discuss their identification with other witnesses before, during, or after the line-up procedure.

607.7.3 DOCUMENTATION

The investigator's procedure for creating the line-up, showing the line-up, and the results, shall be documented in the related Follow-up Report. The exact words used by each witness in viewing the lineup, and whether a positive or negative identification occurred, shall also be documented.

607.8 PHOTOGRAPHIC LINE-UPS

When conducting photographic lineups, the following minimum guidelines shall be followed:

- (a) "BLIND" LINE UP ADMINISTRATION - When practicable, the member presenting the lineup should not be involved in the investigation of the case or know the identity of the suspect. In no case should the member presenting a lineup to a witness know which photograph or person in the lineup is being viewed by the witness (PC §859.7). Techniques to achieve this include randomly numbering photographs, shuffling folders, or using a computer program to order the persons or photographs in the lineup.
 - 1) If the member did not use the "blind" line up administration, they shall document the reason why.

607.8.1 STRUCTURE OF PHOTOGRAPHIC LINE-UPS

Use a Minimum of Six Photographs.

- (a) All of the photos should depict similar looking suspects -size, hair, race, age, etc. Photographs for photographic identification may be obtained from the FPD Prisoner Processing Section, Sheriff's Department, DMV, Department of Corrections, State Parole, etc.
- (b) Block Out or Cover all Visible Notations. In particular, names, dates, and other information should not be visible to witnesses. The Photo Display Folder will usually block out this information. If it is necessary to block-out or cover a notation on one photograph, then similar block-out or covering marks should be placed on all photos so that all will appear alike. It is considered impermissibly suggestive for one photograph to have marks that are not on the other photos.

607.8.2 'SIX-PACK' PHOTO DISPLAY FOLDER

- (a) Each witness should view the folder separately and individually (Separate folder and set of photos for each witness). Do not allow witnesses to talk to one another during the photo line-up procedure.
- (b) Witnesses must not be allowed to consult with one another about their identification either before, during or after the line-up procedure. Each witness making an identification should initial and date the back of the photograph they identify.
- (c) The Photo Display Folder containing all photographs used in the photographic line-up shall be photocopied, and the copy retained in the Investigator's Case folder. The original folder and photos shall be booked into evidence under the associated case number for presentation in any subsequent court proceeding.

607.8.3 WITNESS ADMONITION

Prior to showing the Photo Display Folder to a witness, the Photo Show-up Admonition which appears below must be read to the witness.

"In a moment, I am going to show you a group of photographs. This group of photographs may or may not contain a picture of the person who committed the crime now being investigated. It is as equally important to exclude innocent persons, as it is to identify a perpetrator. Keep in mind that hair styles, beards, and moustaches may be easily changed. Also, photographs may not always depict the true complexion of a person - it may be lighter or darker than shown in the photo. Pay no attention to any markings or numbers that may appear on the photos or any other differences in the type or style of the photographs. When you have looked at all the photos, tell me whether or not you see the person who committed the crime. This investigation will continue regardless if an identification is made. Do not tell other witnesses that you have or have not identified anyone."

607.8.4 ADDITIONAL FACTORS FOR CONSIDERATION

- (a) If the suspect or person of interest has multiple photographs available, the investigator should use the most recent photograph which best depicts the subject as described by the victim or witness. However, the investigator should not refrain from using an older photograph if it reflects the subject's current appearance (i.e. hair style, facial hair, weight etc.).
- (b) To minimize the probability for misidentification and/or compromising the investigation, the investigator should, prior to presenting the lineup:
 - 1) Research the suspect or person of interest to ensure he or she is not in custody.
 - 2) Ask the victim or witness if they have viewed any photographs of the suspect or person of interest (i.e. social media and news broadcasts).
 - 3) The investigator should record the photographic lineup interview. The photographic line up is only one piece of the investigation. The investigator should utilize other investigative methods to place the suspect or person of interest at the scene of the crime (i.e. video footage, cell phone records, Probation/Parole GPS monitor, independent witness, social media postings etc.) In the event an investigator obtains single person identification via photographic line up, further follow up and investigative efforts should be made to corroborate the validity of the identification.
- (c) Documentation - Comments by a witness who is shown photographs in a Photo Display Folder shall be documented in the related Follow-up Report. When an identification is made, the detective should ask each witness if there is anything significant that caused the witness to select a particular photograph, how the witness recognized the person, if the photo is different in any way from the witness' recollection of the suspect, etc. Witnesses should not be told they have picked the "right" or "wrong" photo.

Note: If a witness cannot make an identification, they may then be read the following: "Do any of the persons shown in the photographs resemble the person you saw?" If the witness then selects a photo, they should be questioned about the reasons that particular photo resembles the suspect.

607.9 IN-FIELD SHOW-UPS

When an in-field show-up is necessary to quickly determine whether a detainee was the perpetrator of a recently committed offense, the following minimum guidelines shall be followed.

607.9.1 TRANSPORTATION

As a general rule, witnesses should be transported individually to the location where the suspect is detained. The suspect may be transported to the victim's location when:

- (a) You have probable cause to arrest the suspect;
- (b) You obtain a valid, voluntary consent from the detainee to move them to the witness' location for a show-up; or
- (c) It is impossible or impractical to bring the witness to the suspect (e.g. the witness is injured or incapacitated, or the availability of officers is limited).

607.9.2 WITNESS ADMONITION

Prior to viewing a detainee during an in-field show-up, witnesses will be admonished:

- (a) To keep an open mind;
- (b) That the person who committed the crime may or may not be among those present;
- (c) That just because a person is in custody does not mean that they committed the crime; and
- (d) Not to discuss their identification with other witnesses before, during, or after the show-up procedure.

607.9.3 DOCUMENTATION

The in-field show-up procedure, comments during witness identification, and the results shall be documented in the appropriate Original/Follow-up Report. The exact words used by each witness in viewing the show-up should be included in the report.

Investigating members who are assigned a body camera shall ensure that their camera is recording both audio and video during the contact with the witness and identification process. If the members' body camera is not operating, then the member will be required to have another member present with a working camera to record the process.

Personal communication devices should not be used to conduct personal business while on duty, except when brief personal calls may be warranted by the circumstances (e.g., inform family of extended hours). While members may use individually owned personal communication devices for personal business during authorized breaks, such usage should be limited as much as practical to areas where the call will not be seen or heard by the public.

This will flag the item as needing special storage considerations. Property and Evidence Control Section (PECS) personnel will store the item(s) in the evidence vault at HQ.

804.5 PROPERTY / EVIDENCE TRANSPORTATION

Members shall transport property and evidence in their assigned vehicles when possible.

Property or evidence shall not be stored in a member's desk, locker, vehicle, or any other container beyond the end of the shift that the property or evidence was obtained.

804.6 FLAMMABLE MATERIALS

When flammable or volatile material evidence from an arson or related crime needs to be booked as evidence and stored for potential lab analysis, FFD personnel (or CSI personnel when FFD is unavailable) will transfer a small amount of the liquid (1 ounce) into a glass jar they have for this purpose. FFD (or CSI) personnel may then appropriately discard the remainder of the contents of the liquid container. The booking member will place the glass jar into a K-Pak pouch, heat seal it, then place it into a small paint can (available in the CSI or Evidence booking room) and seal it inside. The booking label will be affixed to the outside of the can. After entering the can into FileOnQ, the sealed can will be left with CSI personnel, who will turn the items over to PECS the next business day. PECS personnel will receive the item, and then store it in the flammable liquids locker in the PECS. The original and now empty storage container can then be booked by the booking member at FPD facilities as evidence when needed as such. Members shall note in their reports the approx. total amount of the contents inside the container before it was discarded (e.g., note that there was 6 oz. of liquid when only 1 oz. was kept for analysis).

Hazardous materials shall not be booked into PECS. A hazardous materials team (i.e., FFD) shall be called to handle the proper collection and/or disposal of all hazardous materials. Dynamite, military explosives, etc., will be handled by the Explosive Ordinance Disposal (E.O.D.) Team. Paint, glue, and ammunition (.50 caliber and smaller) shall be booked into property lockers.

Legal fireworks (Safe and Sane) that are booked into PECS and which do not have evidentiary value shall be transported to the Fire Marshall for destruction on the next business day by an EOD technician. Legal fireworks that are booked into PECS which do have evidentiary value shall be transported to the FPD explosives magazine on the next business day by an EOD technician.

Illegal or homemade fireworks shall not be booked into PECS. An EOD technician shall respond to the scene to take custody of all illegal fireworks. The EOD technician shall transport the illegal fireworks to the explosives magazine to be retained as evidence or held for destruction.

 - 5) Ensure that computers and other components that are not packaged in containers are secured in the vehicle during transportation to avoid shock and excessive vibrations;
- (d) Some electronic devices such as PDA's will lose all information stored in memory if the battery is discharged. If this type of item is seized, immediately notify a high-tech crimes investigator so the item may be examined in a timely manner; and
- (e) If a home or business network is encountered immediately notify a high-tech crimes investigator for assistance. Improper handling of these often-complex environments may result in loss of evidence and create potential civil liability.

804.20.3 COMPUTER EVIDENCE

For computer systems, observe the system and determine if it is on or off.

If the computer is on:

- (a) Do not turn it OFF;
- (b) Photograph the screen and record information displayed. If the screen is blank (sleep mode) or is displaying a screen saver, move the mouse slightly to display what is on the screen. If the mouse movement does not work, do not perform any keystrokes or additional mouse operations. Do not attempt to view information contained within the computer's hard disk drive;
- (c) Remove the power source cable from the back of the computer - not from the wall outlet. For laptops, also remove the battery pack. Do not perform a normal shutdown of the computer. This will modify operating system files and may alter potential digital evidence; and
- (d) Photograph, diagram, and label the connections of the computer and corresponding cables to allow for exact reassembly at a later time.

If the computer is off:

- (a) Do not turn it ON. Powering on the system will alter system files and potential digital evidence. Do not open closed laptops as they may power on simply by opening the lid;
- (b) OFFICER SAFETY: Sophisticated computer users have been known to booby-trap their systems. The power switch, the boot-up electronic signals or the hard drive controller card could be wired to an explosive; and
- (c) Remove the power source cable from the back of the computer, document and photograph the system as outlined above.

In most cases, not all computer components need to be collected and booked as evidence. Generally, only the computer tower, containing the central processing unit (CPU) and related components, needs to be collected. Only in the most serious cases should all of the components (monitor, keyboard, mouse, etc.) be collected.

Note: Any questions regarding the collection of computer systems or any other digital/electronic evidence should be directed to the high-tech crimes investigators of the Felony Theft Unit. These investigators are also available to respond to requests for assistance with the approval of the unit supervisor.

804.20.4 TYPES OF NON-DIGITAL / ELECTRONIC EVIDENCE

When investigating crimes involving the use of technology or computers, members may encounter items of non-digital/electronic evidence that are very important to the case. These items include but are not limited to diaries, handwritten notes containing usernames/passwords/IP numbers, hardware/software manuals, calendars, literature, text or graphical printouts, and printed photographs. A cooperative suspect will often give usernames, passwords and other useful information if requested. This information is very useful to the forensic examiner and will often expedite the examination process.

804.20.5 NON-DIGITAL / ELECTRONIC EVIDENCE

Recovery of non-digital/electronic evidence can be crucial in the investigation of crimes involving technology or computers. Proper care should be taken to ensure that such evidence is identified, recovered, and preserved. The items listed above are frequently found in close proximity to the computer or related hardware items. All evidence should be secured and collected in compliance with standard evidence collection policy.

804.20.6 DIGITAL / ELECTRONIC EVIDENCE EXAMINATION

The high-tech crimes investigators have the ability to forensically examine all items listed under section 804.20.1-Types of Digital / Electronic Evidence. Evidence that can be recovered through examination may include, but is not limited to:

- (a) Deleted/hidden files;
- (b) Photographs/image files;
- (c) Internet/network activity logs;
- (d) E-mails/notes/letters;
- (e) Instant messages;
- (f) Chat logs;
- (g) Address books;
- (h) Calendar/appointment information;
- (i) Financial/accounting information;
- (j) Movie files;
- (k) Diaries;
- (l) Legal documents;
- (m) Cellular telephone call history;
- (n) Router logs; and
- (o) Usernames/passwords.

Members wanting electronic items forensically examined for digital evidence shall complete a Request for Service package and submit it to the Felony Theft Unit supervisor for review and assignment. The package shall include:

- (a) Completed Computer Forensics Lab Request for Service form;
- (b) Copy of search warrant or signed Consent to Search form; and
- (c) Copies of applicable police reports including property/evidence forms.

Evidence submitted for forensic examination must be booked into the Property/Evidence Section prior to submitting the Request for Service package. The assigned high-tech crimes investigator will retrieve the evidence from the Property/Evidence Section and return it when the examination is completed. A detailed report of findings will be given to the requesting member upon completion.

804.21 FIREARMS

804.21.1 TELETYPE INQUIRY

Members booking a firearm shall check it through CLETS and NCIC for stops and registration information. When CLETS and/or NCIC are down, the member shall log into Axon Records on their next business day and ensure the property information is transmitted to Teletype electronically.

804.21.2 TELETYPE ENTRY

Members shall minimally include the mandatory information needed for Teletype entries: serial number, make/country of origin, model ("X" can be used when unknown), caliber, type, date of incident, and case number.

All items of property (serialized/uniquely marked) booked as Evidence, Found, and/or Safekeeping shall be submitted to Teletype for entry via electronic means (Axon Records). Questions related to Teletype entries can be directed to [REDACTED]. Any type of recovered/located outside agency property shall be called into Teletype.

804.21.3 RAP SHEET SUBMISSION

When a suspect is placed into custody for a firearms violation, a criminal history printout of the suspect shall be obtained and reviewed for appropriate prior convictions, so the charges on which the subject is booked are based upon any prior convictions discovered on the criminal history printout.

804.21.4 BOOKING

The firearm shall be unloaded prior to placing it in an evidence locker. The firearm shall not be concealed or packaged but shall be placed in the locker in plain view. Rifles and shotguns booked with a gun case shall be removed from the case and booked as separate items in FileOnQ. If the case is locked, an attempt to unlock the container shall be made. If unable to locate a key, the lock shall be cut, and the guns removed. Members shall attach a property tag with the item label affixed to the trigger guard using wire or string, so that it does not dangle loosely.

Members taking possession of a firearm with removed/obliterated serial numbers shall book the firearm into property following standard procedures. The member booking the firearm shall indicate in FileOnQ in the Item Description line that serial numbers have been removed or obliterated.

When the firearm has a magazine or clip, the magazine or clip shall be unloaded and placed back into the firearm prior to being booked.

Exceptions:

- (a) When a firearm must be booked in a loaded condition (e.g., jammed weapons), or if the booking member is unable to determine if it is loaded, on duty PECS members shall be notified that it is loaded and/or possibly loaded when it is booked.
 - 1) When PECS personnel are not on duty, a note shall be attached to the outside of the evidence locker in which the firearm is placed.
 - 2) The memo shall detail the condition of the loaded firearm including whether or not it is jammed.
 - 3) PECS personnel shall not attempt to unload the weapon.
 - 4) PECS personnel shall contact a Department Armorer and make arrangements for them to clear the weapon prior to it being processed for storage; or
- (b) When a firearm is collected as evidence and is contaminated with bio-hazard material (e.g., bodily fluids), the booking member shall enter the firearm into FileOnQ, print out the booking label and leave the firearm and the label at the CSI for drying. Once the bio-hazard material on the firearm has dried, the CSI Technician will package the firearm, mark it as a possible biohazard, book it into PECS, and write a follow-up report.

804.21.5 FIREARMS AND/OR OTHER DEADLY WEAPONS HELD FOR SAFEKEEPING

When members take or receive firearms and/or other deadly weapons for safekeeping (e.g., mental health incidents, domestic violence incidents, restraining order incidents, etc.), they shall give the

person a Fresno Police Department Receipt and Notice of Rights for Confiscated Firearms/Other Deadly Weapons Form. The current revision date of the form to be used is 01/2010 which is found at the bottom right of the form. All firearms and/or deadly weapons seized pursuant to this paragraph shall be booked as **'EVIDENCE'** and not safekeeping to avoid inadvertent destruction.

804.21.6 FIREARM TESTING

All firearms in the legal possession of the Department should be test fired for identification verification purposes by utilizing e-Trace and NIBIN. This is to include firearms being held for safe keeping. If the firearm is suspected to have been involved in a crime and the firearm was not seized pursuant to a warrant, then a search warrant should be obtained prior to any test firing.

804.21.7 DISPOSITION

All firearm dispositions will be coordinated by the SVB firearms clerk. Prior to release, an Authorization for Release Form shall be signed by the SVB Commander or a designee.

Ammunition that is booked with a weapon shall not be released the same day the weapon is released. The owner can return the next business day to claim the ammunition.

The Department shall not return any firearm, magazine, or ammunition taken as evidence or for safekeeping to any individual unless all requirements of Penal Code § 33855 are met.

804.22 EVIDENCE TO COURT

When members anticipate appearing in a court proceeding where booked evidence may be required members or CLO shall attempt to notify [REDACTED]

When receiving narcotics from the PECS, members checking out narcotics for court will be required to show their subpoena to the PECS Technician.

- (a) At the time evidence is removed from the PECS for court, members shall procure a Receipt of Evidence Form in addition to signing for the evidence.
- (b) When the evidence is left in court, the form must be completed by the member and signed by whomever takes custody of the evidence (i.e., the Deputy DA or the Court Clerk).
- (c) The completed form shall be returned to the PECS.
- (d) When evidence is listed on the Receipt of Evidence Form, the description should be the same as it appears in the FileOnQ entry.

All evidence not used in court shall be returned to the PECS immediately after the completion of the court hearing or at the time the member is advised the evidence will not be used.

When the PECS is closed, members shall place the returned evidence in an evidence locker with the Receipt of Evidence Form and a note stating that the property is being returned from court.

804.23 UNIDENTIFIED PROPERTY

Property in the custody of the PECS that cannot be identified or is unclaimed by the owner shall be disposed of as provided for in PC §12028, FMC §§4-202, 4-304 through 4-306.

804.24 SALE OF PROPERTY

Members may not obtain for personal use any item that has been in the possession or control of the PECS, or other City divisions, whether legally sold or auctioned, unless the member has not had control over or participated in the decision that the property was surplus and could be sold.

804.25 RELEASE OF PROPERTY

When authorizing the release of property, members shall advise the party to [REDACTED]

When a victim is notified that their stolen property has been recovered, they shall be provided with the case number.

They shall also be informed that due to investigative requirements the property may not be immediately available for release.

With the exception of firearms and other property specifically regulated by statute, found property and property held for safekeeping shall be held for a minimum of 60 days. During such a period, property personnel shall attempt to contact the rightful owner by telephone and/or mail when sufficient identifying information is available. Property not held for any other purpose and not claimed within 90 days after notification (or receipt if notification is not feasible) may be auctioned to the highest bidder at a properly published public auction. If such property is not sold at auction or otherwise lawfully claimed, it may thereafter be destroyed (Civil Code § 2080.6).

A property and evidence technician shall release the property upon proper identification being presented by the owner for which an authorized release has been received.

Under no circumstances shall any firearm, magazine, or ammunition be returned to any individual unless and until such person presents valid identification and written notification from the California Department of Justice that conforms to the provisions of PC § 33865.

The Department should also make reasonable efforts to determine whether the person is the subject of any court order preventing the person from possessing a firearm and, if so, the firearm should not be released to the person while the order is in effect.

The Fresno Police Department is not required to retain any firearm, magazine, or ammunition longer than 180 days after notice has been provided to the owner that such items are available for return. At the expiration of such period, the firearm, magazine, or ammunition may be processed for disposal in accordance with applicable law (PC § 33875).

804.26 REQUEST FOR DOJ ANALYSIS

Members wishing to have a DOJ laboratory examination of any item of evidence shall complete a DOJ Bureau of Forensic Services Form (BFS-4), and submit it to the CSI, along with a copy of the original case report.

- (a) A CSI member shall then check the item(s) out of the PECS and transport same to the DOJ Regional Laboratory for analysis.
- (b) When a case is assigned for follow-up investigation, only the assigned investigator or their designee shall request a DOJ examination.
- (c) The DOJ Laboratory will provide the results of the analysis to the requestor in writing.

804.27 EVIDENCE REQUIRING SPECIAL PROCESSING

Members who wish to have an item of evidence processed in a special manner (e.g., chemical processing for latent prints, number restoration, etc.) shall:

- (a) Enter the item(s) in FileOnQ, Deliver the item(s), any packaging container(s), and label(s) to the CSI;
- (b) Complete a Request for Identification Services Form specifying the type of processing requested; and
- (c) Specify in their police report any special processing requested (e.g., finger printing, document or DNA processing, etc.).

When CSI members are unavailable, or when there is insufficient temporary storage space for the evidence, members shall book the item into the PECS with a copy of the completed request form and forward the original request form to CSI.

The CSI member who conducts the processing shall prepare an FR describing the results of the processing and the disposition of the evidence.

804.28 RIGHT OF REFUSAL FOR BOOKED PROPERTY / EVIDENCE

PECS will refuse incorrectly booked property/evidence. When property/evidence is booked incorrectly, the PECS supervisor may be notified and, depending on the severity of the error(s), the following actions may occur:

- (a) The PECS Supervisor or Property Tech will review the problem and contact the person by phone or email who booked the item to make arrangements to have the item booked properly.
- (b) PECS personnel will store the item(s) needing correction in a separate location until the contacted member responds to make the corrections.
- (c) Contacted members shall respond no later than their next workday or when PECS is open next to make the correction(s). Members consistently working during PECS closed hours will need to flex their work schedule to make the correction(s) during PECS open hours.

804.29 INVESTIGATORS RESPONSIBILITIES

Investigators shall:

- (a) When contacted by person(s) wanting a release of property/evidence:
 - 1) Determine the status of the case, (i.e., Dismissed, on Appeal, FTA);
 - 2) Identify the rightful owner(s) of the property/evidence;
 - 3) Decide if property/evidence can be released; and
 - 4) Advise PECS if the property can be released by appropriate notations in FileOnQ.
- (b) If approved for release, the investigator shall complete the release information in FileOnQ for the individual items, or by Request Monitor for multiple items. The Return to Owner Listed box shall be checked and the owner's information completed in the Owner section. The Save button shall be clicked to save the entry;
- (c) Review their assigned cases that are sent to their unit weekly by FileOnQ and determine if property/evidence may be disposed of using the following guidelines:
 - 1) Cases with property/evidence that have been adjudicated, 90 days past sentencing has lapsed, and no appeals filed;
 - 2) Cases with property/evidence that have been NCF'd with no charges to be re-filed;
 - 3) Cases with property/evidence that have been unfounded; and
 - 4) Cases with property/evidence that have been suspended with no further investigation.
- (d) When a determination has been made to release or dispose of property or evidence, investigators shall make every attempt to identify all property and evidence associated with the case and clear all evidence for release.

804.30 REPORT DOCUMENTATION BY MEMBERS

When members book property, they shall note in their report the reason(s) why the item(s) was booked to facilitate later case review and evidence disposal.

When booking **cell phones**, members should describe in their report the reason(s) for booking the phone and the necessity for keeping it as '**EVIDENCE**' to facilitate later case review. When cell phones or their contents have no evidentiary value, they should not be booked as evidence. Members shall ensure that cell phones are turned off before booking them.

When booking **bicycles** as evidence, members should describe in their report the reason(s) for booking the bicycle and the necessity for keeping it as evidence to facilitate later case review. When bicycles are found at crime scenes and they are of no evidentiary value in the case (e.g., owner unknown, processed for prints/DNA with negative results, etc.) they should be booked as '**FOUND**' and not evidence.

804.31 DISCRETION WITH BOOKING ITEMS

When items are not anticipated to be needed for court procedures (i.e., suspect not cited or arrested and the case will not be submitted to the DA for consideration of prosecution), members should use

discretion when considering whether to book an item. The necessity for keeping an item and any evidentiary value in the item should also be considered when determining whether to book an item.

805.1 POLICY

The Department will collect and store photographic evidence in the best manner possible within the limitations of equipment available, conditions of collection, and the time frames of the investigation.

805.1.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines for the collection, storage and archiving of photographic evidence. In order to be qualified in the future as competent evidence, the protocols in this policy are intended to create a photographic evidence collection system that meets the highest standards possible. This policy is intended to ensure the integrity and security of digital photographic evidence, to include proper processing, storage, distribution, control and dissemination practices.

805.2 INTENDED PURPOSE OF DIGITAL IMAGES

Digital photography and the use of digital imaging technologies shall be the primary collection method used by Fresno Police Department personnel for the following purposes:

- a) The documentation of crime scenes in order to create a visual record of evidence found, and the overall conditions at the scene of crimes; and
- b) The capture and storage of images depicting latent fingerprints, trace evidence and other objects of an evidentiary nature, for comparison or analysis purposes.

All digital images captured as evidence shall be handled, stored, and processed with due regard to the chain of evidence. Any such evidence shall be subject to the guidelines set forth in Policy §810 – Release of Records and Information and the Code of Civil Procedure §129. Official Department photographs, as well as photographs taken by members in the course and scope of their duties, shall not be used, shared, or displayed in any manner other than for official Department business.

Traditional 35mm film photographic evidence may be utilized by CSIB personnel only, when digital imaging equipment becomes inoperative or is otherwise unavailable.

805.2.1 PHOTOGRAPHIC EVIDENCE HANDLING - GENERAL

Digital images for evidentiary purposes should only be taken with a Department issued camera or tablet. Images captured with a digital camera or tablet are considered original images and are equivalent to a negative in film based photography. Non-CSI digital cameras and tablets should be set at the highest resolution allowed.

Under no circumstances may digital images be deleted in the field. All photographs taken will be preserved regardless of quality, composition or relevance. The contents of any non-department issued device (personal cell phone, camera, etc.) used to take evidentiary photographs may be subject to disclosure and examination pursuant to a court order.

All photographs of evidence or of a crime scene taken in the field shall be part of the case file which is provided to the District Attorney's Office for prosecution purposes.

805.2.2 PHOTOGRAPHIC PROCEDURES

Prior to taking evidence photographs in a case, the member shall write the following in large print on a 3X5 size card:

- (a) Case number;
- (b) Crime type;
- (c) Date and time;
- (d) Camera number; and
- (e) Name and badge number of the member taking photographs.

A close up photograph of the above described “case ID card” shall be taken at the beginning of each series of photographs for every case. The card’s image should fill the camera’s view frame. Photographs of a close-up nature should include a ruler or other appropriate item to establish a reference scale.

805.2.3 RESPONSE FOR EVIDENTIARY PHOTOGRAPHS

Investigations requiring the response of a CSI technician include the following:

- (a) Homicides, attempt homicides and suspicious deaths;
- (b) Officer involved shootings;
- (c) Rapes; ADW’s; robberies; gun violence
- (d) Kidnappings (where a possibility of evidence exists);
- (e) Bombings;
- (f) Fatal or probable fatal vehicle accidents;
- (g) Aircraft accidents; and
- (h) Incidents where there is a probability of future litigation against the City.

CSI should also be used for taking evidentiary photos, and processing crime scenes, under the following circumstances:

- (a) When officers have used force against an individual (injuries or lack of injuries);
- (b) Crimes of violence involving weapons, including ADW, Penal Code §246, etc. (e.g. for collection of shell casings, expended rounds, or edged weapons containing blood evidence);
- (c) Crimes resulting in significant injury or hospitalization;
- (d) Sexual assault with visible injury;
- (e) Child abuse with visible injury;
- (f) Injuries of a sensitive nature;
- (g) Commercial or home invasion robbery;
- (h) Situations in which a personnel complaint has been made or appears likely to be made;
- (i) City vehicle involved collisions; and
- (j) When requested by a sergeant.

Circumstances under which CSI shall respond for photographs include:

- (a) Incidents of domestic violence involving strangulation; and
- (b) Child neglect cases resulting from unsanitary conditions in the household.

Non-CSI members assigned a Department camera or tablet are responsible for taking photographs of evidence related to:

- (a) Property crimes (vandalism, burglary, etc);
- (b) Injuries of a non-sensitive nature, such as obvious bruises, scrapes, cuts, etc., that are the result of domestic violence or other assault;
- (c) Contraband (narcotics, illegally possessed weapons, etc.);
- (d) Recovered property prior to release; and
- (e) Photographs intended to demonstrate lack of injury (not related to use of force by officers).

Investigating members, who request a CSI technician for the purpose of taking photographs in incidents not listed above, shall retain the responsibility for the latent print processing as well as the collection and booking of any other evidence at the scene.

When members are unsure whether or not CSI should respond for photographs, they should contact their immediate supervisor. The supervisor should contact the on-duty CSI supervisor to discuss the circumstances involved and determine the appropriate response.

When CSI responds to crime scenes that require processing for evidence (latent prints, blood samples, etc.), CSI should also take any required evidentiary photographs.

Any crime scenes that require video recording should be handled by CSI. Non-CSI personnel should not utilize their cameras or tablets for video recording of crime scenes. Refer to Policy §450 for guidelines on digital recordings.

805.2.3 CRIME SCENE DOCUMENTATION

The purpose of digital photography at a crime scene is to visually document evidence and the crime scene itself. Images captured with a digital camera are original images equivalent to a negative in film-based photography. Under no circumstances may digital images be deleted in the field.

The use of digital photography by field and investigations personnel is intended to document evidence in non-technical cases where the expertise of CSIB personnel is not required.

805.2.4 LATENT FINGERPRINTS AND OTHER TRACE EVIDENCE

Photographs of fingerprints and trace evidence for analysis shall be taken by CSIB personnel only. Fingerprints and other trace evidence should be photographed in an uncompressed file format of either TIFF or RAW. Photographs of the crime scene, showing where a fingerprint or other trace evidence was found are only supplemental to images taken for analytical purposes and do not call for more stringent capture requirements for analysis.

805.3 STORAGE / TRANSFER / PROCESSING OF DIGITAL EVIDENCE

When possible or practical, all digital evidence will be kept in its original native file format as to not lose any digital information during a conversion process. Forensically processed or clarified evidence may be saved in a different file format, but in all cases, the original source file shall be kept as original evidence.

Digital images captured in relation to an investigation shall be uploaded into the Digital Media Management System (DMMS) via Axon Records. No photographic images will be enhanced, altered or modified prior to entry into DMMS. All photographs taken in the field regardless of evidentiary value shall be downloaded into DMMS and documented in the member's police report.

Under no circumstances should original digital photographs be stored on an employee's Department assigned or personal computer. Digital images may be stored temporarily on a desktop computer to facilitate the process of uploading them into DMMS. Digital copies of evidentiary photographs should not be stored on any shared computers after they have been successfully uploaded into DMMS.

All evidentiary photographs shall be uploaded into DMMS before the end of the member's shift. Prior to deleting any digital images from the camera, members shall verify they were uploaded successfully into the DMMS system. Department personnel using digital photography for evidentiary purposes will document the collection and storage of the photographs in a police report.

Digital photographs may be stored on archival quality CD's and booked into Property and Evidence when a member is unable to successfully upload them into DMMS. When digital photographs are booked into evidence, it shall be documented in the member's police report. Refer to Appendix E for instructions on uploading tablet digital images into DMMS.

805.4 MEMBERS ASSIGNED DIGITAL CAMERAS AND/OR TABLETS

Members assigned digital cameras or tablets should take evidentiary photographs during their own investigations, as well as investigations they assist with, provided they meet the criteria for non-CSI response. Members assigned digital cameras or tablets may volunteer to assist other personnel by taking evidentiary photographs for them, but should not be required to respond solely for the purpose of photographs, unless directed by a supervisor. Members will be required to document the collection and storage of evidentiary photographs in a supplemental report when they are not the primary investigator.

Photographs which have been downloaded and/or emailed to a supervisor to be used for the Fresno Police Department Facebook page or End of Watch Report shall be identical to those photographs that were downloaded into DMMS.

These records are kept secure in the Personnel Bureau. See Policy §1026 for the specific process of the release of personnel records.

810.5.6 POLICY AND PROCEDURE RELEASES

Policy and procedures are confidential documents and not subject to general public release. All requests for release of policy and procedure shall be routed through the Department's Legal Advisor/CAO for approval. Upon approval from the Department's Legal Advisor/CAO, the request will be routed to the Policy & Procedures Unit for preparation of the approved documents.

810.6 RELEASE OF AUDIO OR VIDEO RECORDINGS RELATED TO CRITICAL INCIDENTS

Video and audio recordings related to critical incidents shall be released upon a proper public record request and subject to delayed release, redaction, and other release restrictions as provided by law (GC §6254(f)(4)).

For purposes of this section, a video or audio recording relates to a critical incident if it depicts an incident involving the discharge of a firearm at a person by an officer, or in which the use of force by an officer against a person resulted in death or in great bodily injury (as defined by PC §243(f)(4)) (GC §6254(f)(4)).

The Chief of Police should work as appropriate with the Internal Affairs Bureau (IAB) Commander, with input from the City Attorney's Office (CAO), in determining what recordings are subject to disclosure when a request for a recording is received and if the requested recording is subject to delay from disclosure, redaction, or other release restrictions.

810.6.1 DELAY OF RELEASE

Disclosure of critical incident recordings during active criminal or administrative investigations may be delayed as follows if disclosure would substantially interfere with the investigation, such as by endangering the safety of a witness or a confidential source:

- (a) Disclosure may be delayed up to 45 days from the date the Department knew or reasonably should have known about the incident.
- (b) Delay of disclosure may continue after the initial 45 days and up to one year if the Department demonstrates that disclosure would substantially interfere with the investigation.
- (c) Any delay of disclosure longer than one year must be supported by clear and convincing evidence that disclosure would substantially interfere with the investigation (GC §6254(f)(4)).

810.6.2 NOTICE OF DELAY OF RELEASE

When there is justification to delay disclosure of a recording, the IAB Commander shall provide written notice to the requester as follows (GC §6254(f)(4)):

- (a) During the initial 45 days, the IAB Commander shall provide the requester with written notice of the specific basis for the determination that disclosure would substantially interfere with the investigation. The notice shall also include the estimated date for the disclosure.
- (b) When delay is continued after the initial 45 days, the IAB Commander shall promptly provide the requester with written notice of the specific basis for the determination that the interest in preventing interference with an active investigation outweighs the public interest in the disclosure, and the estimated date for the disclosure. The IAB Commander should work with the Chief of Police in reassessing the decision to continue withholding a recording and notify the requester every 30 days.

Recordings withheld shall be disclosed promptly when the specific basis for withholding the recording is resolved.

810.6.3 REDACTION

If the IAB Commander, in consultation with the Chief of Police or authorized designee, and the CAO, determines that specific portions of the recording may violate the reasonable expectation of privacy of a person depicted in the recording, the Department should use redaction technology to redact portions of recordings made available for release. The redaction should not interfere with the viewer's ability to

fully, completely, and accurately comprehend the events captured in the recording, and the recording should not otherwise be edited or altered (GC §6254(f)(4)).

If any portions of a recording are withheld to protect the reasonable expectation of privacy of a person depicted in the recording, the IAB Commander shall provide in writing to the requester the specific basis for the expectation of privacy and the public interest served (GC §6254(f)(4)(B)(i)).

810.6.4 RECORDINGS WITHHELD FROM PUBLIC DISCLOSURE

If the reasonable expectation of privacy of a person depicted in the recording cannot adequately be protected through redaction, and that interest outweighs the public interest in disclosure, the Department may withhold the recording from the public, except that the recording, either redacted or un-redacted, shall be disclosed promptly, upon request, to any of the following (GC §6254(f)(4)(B)(ii)):

- (a) The person in the recording whose privacy is to be protected or their authorized representative.
- (b) If the person is a minor, the parent or legal guardian of the person whose privacy is to be protected.
- (c) If the person whose privacy is to be protected is deceased, an heir, beneficiary, designated immediate family member, or authorized legal representative of the deceased person whose privacy is to be protected.

If the Department determines that this disclosure would substantially interfere with an active criminal or administrative investigation, the IAB Commander shall provide the requester with written notice of the specific basis for the determination and the estimated date of disclosure (GC §6254(f)(4)(B)(iii)).

The Department may continue to delay release of the recording from the public for 45 days with extensions as provided in this policy (GC §6254(f)(4)(A)).

810.7 OTHER RECORDS

Any other record not addressed in this policy shall not be subject to release where such record is exempted or prohibited from disclosure pursuant to state or federal law, including, but not limited to provisions of the EC relating to privilege [GC §6254(k)].

The Department maintains the right to refuse to disclose or release any other record when it would appear that the public's interest in accessing such record is outweighed by the need for nondisclosure (GC §6255).

Any record which was created exclusively in anticipation of potential litigation involving this Department shall not be subject to public disclosure [GC §6254(b)].

When release of a record is questionable, members shall route the request to the Legal Advisor/[CAO](#).

810.8 SUBPOENA DUCES TECUM

Any Subpoena Duces Tecum should be promptly provided to a supervisor, or authorized designee, for review and processing. While a Subpoena Duces Tecum may ultimately be subject to compliance, it is not an order from the Court that will automatically require the release of the requested information or appearance.

All questions regarding compliance with any Subpoena Duces Tecum should be promptly referred to the Legal Advisor/CAO so that a timely response can be prepared.

810.9 RELEASE OF INFORMATION TO HOUSING AUTHORITY

The Patrol Division Commander shall designate a member to act as the Housing Authority Liaison Officer (HALO). Pursuant to PC §11105.03, the HALO may release criminal history information to the Housing Authority. Releasable information includes only those sections described in PC §11105.03 for which the subject was convicted within the last ten years during which time they were 18 years of age or older.

Information is confidential and may only be released to the Housing Authority Director or designee. The HALO shall maintain a secure file system containing a record, including any printouts, of each criminal history request and response. Files shall be maintained for a period of three years.

810.10 SECURITY BREACHES

The Information Services Manager shall ensure notice is given anytime there is a reasonable belief an unauthorized person has acquired either unencrypted personal identifying information or encrypted personal information along with the encryption key or security credential stored in any Department information system (Civil Code §1798.29).

Notice shall be given as soon as reasonably practicable to all individuals whose information may have been acquired. The notification may be delayed if the Department determines that notification will impede a criminal investigation or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system.

For the purposes of this requirement, personal identifying information includes an individual's first name or first initial and last name in combination with any one or more of the following:

- (a) Social Security number;
- (b) Driver license number or California identification card number;
- (c) Account number or credit or debit card number, in combination with any required security code, access code or password that would permit access to an individual's financial account;

- (e) Health insurance information;
- (f) A username or email address, in combination with a password or security question and answer that permits access to an online account; and
- (g) Information or data collected by Automated License Plate Reader (ALPR) technology.

812.1.2 AUTHORITY

This policy is established pursuant to the mandate of the Regulations Regarding Security of Criminal Offender Record Information in California, Title 11, California Administrative Code. Other authority includes Penal Code §11105, which delineates who has access to Criminal Offender Record Information (CORI), and PC §§11140 through 11144, which establishes penalties for the improper use of rap sheets.

No member shall be authorized to operate computer terminal equipment with access to CORI until the operator has completed the appropriate training.

With the introduction of AXON Respond to the agency, officers now have the ability to access Criminal Justice Information (CJI) (Criminal History) from their mobile terminals. Officers and detectives must take necessary precautions to protect CJI in any environment, just as the agency does. When CJI is transmitted outside the boundary of the physically secure location, the user must use Cisco Anyconnect to connect to the agency's network before transmitting any data. This will ensure that any data that is transmitted will be encrypted.

Appliances removed from prisoners shall be returned when the risk of bodily harm or security risk no longer exists, they are released, or transported to another facility.

900.4 SECURING A PRISONER TO A FIXED OBJECT

A prisoner may only be secured to a fixed object when there are no other suitable methods of detention available, and only to an object that is specifically designed and intended for that use (e.g., McLane H.S. SRO office fixed post).

California Code of Regulations, Title 15, Article 9, Section 1144, specifies situations in which a juvenile and an adult prisoner may be in the same room, area, or corridor. Female prisoners shall be transported in security vehicles to the extent it is practical.

Transportation wagons/vans may be used under the same circumstances as provided for males.

Male Department members transporting females (prisoners and non-prisoners alike) shall, prior to moving their vehicle from the location of the pick-up, give the ESD a mileage check and receive a time check as acknowledgment. On arrival at their destination, the transporting member shall give the ESD the arrival mileage and shall be acknowledged with an arrival time check.

901.3.3 JUVENILE PRISONERS

The same guidelines listed in this policy which govern the transportation of adult prisoners shall apply to the transportation of juvenile prisoners.

901.3.4 TRANSGENDER PRISONERS

Transgender prisoners will be transported alone in security vehicles to the extent it is practical. In situations with multiple prisoners, mass arrests, or where individual transport is not practical, transgender prisoners will be transported by gender classification. Refer to Policy §455.

901.3.5 SEPARATION OF MALES / FEMALES / JUVENILES

Male prisoners may only be transported with female prisoners in vehicles equipped with separate compartments that allow for no contact between separated prisoners.

Exception: Combinations of related prisoners such as father/daughter, mother/son, husband/wife, boyfriend/girlfriend, brother/sister, etc., may be transported together when they were together at the same incident leading to their arrests.

901.4 MEMBER / PRISONER SEPARATION

For safety reasons and to reduce escape attempts, prisoners shall not be transported in the front of a prisoner transport vehicle (e.g. patrol unit or transportation wagon / van).

All prisoners shall be seated behind the protective screen in the secured seated area where they may be observed by the transporting Department member(s). The Department member(s) shall be seated in front of the protective screen portion of the vehicle (e.g. driver in driver's seat, and if applicable, assisting officer in the front passenger seat).

Exception: With supervisor approval, a prisoner may be transported in other than secured areas within the vehicle where this is the most efficient and safe way to transport the prisoner (e.g., where the age of the prisoner or physical condition would limit their ability to safely enter the rear prisoner transport compartment of the vehicle and there is no other practical mode of transportation).

A prisoner may only be transported in the rear passenger seat of an uncaged vehicle (e.g. plain vehicle) when another sworn member is sitting next to the prisoner and there is no other practical mode of transportation.

901.5 RESPONSIBILITY DURING TRANSPORT / DELIVERY OF PRISONERS

Members are responsible for the safe delivery of prisoners and the prisoner's property under the member's control. Members shall exercise due care and caution in transporting and processing prisoners to prevent personal injury or property loss by any prisoner for whom they are responsible.

Note: When any arrest is made, it will be the responsibility of the arresting member to standby with their prisoner once delivered to FCJ/JJC, unless alternate arrangements are made / authorized by the On-Duty Supervisor responsible for the transportation wagons/vehicles.

Personal property belonging to a prisoner which is not booked as evidence shall be taken from them by the arresting officer or designee at the time of arrest and prior to transportation. Additionally:

- (a) This property shall be put in a prisoner property envelope.
- (b) A prisoner's money shall be placed in a prisoner money envelope.
- (c) The spaces on the envelopes shall be thoroughly completed, including the arrestee's signature.
- (d) When an arrestee refuses to sign the envelope, the member shall write Refused To Sign on the signature line.
- (e) The envelopes shall be delivered to the FCJ booking officer.

Any property belonging to an arrestee that is not accepted by the FCJ booking officer shall be booked into the PECS.

- (a) Members booking property from a prisoner into the PECS shall give a copy of the Property for Safe Keeping Receipt to the prisoner before they are booked.

A brief description of all property removed from the suspect shall be included in the Arrest Report.

901.6 SEARCH & ADMONISHMENT OF PRISONER(S) PRIOR TO TRANSPORT

Extreme care will be used in the search incident to arrest of a person before placing the person in a police vehicle. Absent exigent circumstances, members shall utilize a Department issued metal detecting wand to search all prisoners prior to placing them in a police vehicle. When practical, members shall provide an admonition to prisoners advising them that they will be charged with a felony if they take a weapon into a jail facility. The search and admonition should be recorded with a body camera when feasible.

Members receiving custody of a prisoner from another member/agency shall thoroughly search the prisoner before placing them in a transportation wagon/van or a patrol unit.

901.7 TRANSPORTING PRISONERS WITHOUT DELAY

Members transporting prisoners shall:

- (b) Proceed directly to their destination as soon as circumstances allow;
- (c) Not engage in traffic pursuits, make traffic stops, or respond to any calls except other transportation calls;
- (d) Not make unscheduled stops during the prisoner transport, except in those emergency situations which require immediate police action; and
- (e) Deliver them to their appropriate destination as soon as practicable.

When the transporting member identifies a situation necessitating police action, they shall notify ComCen of the problem.

901.8 ARRIVAL AT HQ WITH PRISONER(S)

Members and authorized persons who have access to temporary holding cells shall secure all firearms and edged weapons in the secured lock boxes in the fenced area of the Prisoner Processing Section or in the SVB prior to entering.

When members are transporting prisoners to HQ, the ramp entrance to the Prisoner Processing Section shall be used.

- (a) All prisoners shall be detained in the temporary holding cells until they are processed or delivered directly to the custody of a detective.
- (b) The back (West) stairway shall be used to move prisoners from Prisoner Processing to HQ detective's offices.

901.8.1 PARKING ON RAMP

Department vehicles SHALL NOT be parked along the ramp entrance or adjacent to the trash receptacles during 0500-0630 hours daily.

During all other times, members may park their vehicles on the ramp temporarily when engaged in the delivery/pick up of prisoners, when booking evidence, or obtaining equipment and/or supplies from the PECS.

901.9 SEARCH OF PRISONER(S) AT HQ / PRISONER PROCESSING

Primary responsibility for searching prisoner(s) rests with the transporting member who delivered the prisoner to HQ or the Prisoner Processing Section.

Members shall pat search and utilize a metal detector to wand every prisoner prior to entering the Prisoner Processing Section.

- (a) This will occur inside the fenced area of the Prisoner Processing Section and prior to members securing their firearms and edged weapons.
- (b) After the prisoner has been searched, wanded, walked through the stationary metal detector and has entered Prisoner Processing, they shall be placed into a temporary holding cell.

901.10 IDENTIFICATION OF TRANSPORTED PRISONER(S)

Prior to transferring prisoners from Prisoner Processing to FCJ/JJC, transporting members shall make every attempt to affirm the prisoner's proper identity, and ensure that the AR/JAR is completed. Proper identification will be verified by:

- (a) Prisoners verbally providing their identity;
- (b) The physical appearance of prisoners being the same as the physical description in RMS;
- (c) The photo ID from a prisoner's property matches the prisoner;
- (d) The mug photo matches the prisoner; or

(e) Identification by the arresting member or Crime Scene Investigation Section (CSIS) personnel (Including Cadets) who processed the prisoner.

Where practical, multiple steps to identify a prisoner should be utilized prior to releasing or transferring them to FCJ/JJC. Transporting members shall ensure the prisoner processing, where appropriate, has been completed.

If CSIS personnel discover the prisoner provided a false name, the arresting officer shall be notified immediately or as soon as practical. The CSIS supervisor shall be notified if the arresting officer is unavailable or no longer on duty. The CSIS supervisor or the designated member will be responsible for informing the affected area on-duty district supervisor. The district supervisor will coordinate any immediate follow-up (i.e., adding charges) if the prisoner is still in custody. If the prisoner is no longer in custody, the district supervisor should email the appropriate detective unit supervisor with the new developments.

When transporting a prisoner from another agency to a Fresno Police Department facility, the transporting member will attempt to confirm the identity of the prisoner with the agency personnel releasing the prisoner to their custody prior to transport.

901.11 PRISONER TRANSPORTS TO FCJ / JJC

When a member transports a prisoner(s) to FCJ / JJC, they are responsible for the safety and security of the prisoner(s) until they are turned over to the receiving agency.

Upon arrival at the receiving agency, Department members will:

- (a) Secure their firearm and other weapons where required in an authorized gun locker;

901.11.1 COMBATIVE PRISONERS TRANSPORTS

Should members need to transport a medically cleared combative prisoner to HQ or FCJ/JJC who they cannot safely transport in a patrol vehicle, they should consider using a transport wagon/van and utilize auxiliary restraint devices (See Policy §306). Only Department approved devices may be used and any person in auxiliary restraints should be monitored during transport as reasonably appears necessary. Members utilizing auxiliary restraint devices on a combative prisoner should also;

- (a) Contact a supervisor prior to applying the auxiliary restraints for approval;
- (b) Once applied, absent a medical or other emergency, restraints should remain in place until the member arrives at the jail or other facility or the person no longer reasonably appears to pose a threat; and
- (c) Once secured, the person should be placed in a seated or upright position, and shall not be placed on their stomach, as this could reduce the person's ability to breathe (e.g. "positional asphyxia");

Upon arrival at the FCJ/JJC, members shall inform the staff that auxiliary restraints were used. This notification should include information regarding any other circumstances the member reasonably believes would be potential safety concerns or medical risks to the prisoner (e.g., prolonged struggle, extreme agitation, impaired respiration) that may have occurred prior to, or during transportation to the jail. The member who utilized the restraints shall also document the use per Policy §306.

901.11.2 DISRUPTIVE/COMBATIVE PRISONERS INSIDE FCJ/JJC

When encountering a prisoner who becomes disruptive / combative towards officers or other prisoners during the booking process, members shall request immediate processing for the prisoner from Jail staff. For officer safety and civil liability reasons, absent an emergency circumstance, members shall not utilize

unmonitored rooms, such as the Intoxilyzer Room, to separate combative or disruptive prisoners.

901.12 RESTRAINT OF PRISONERS

901.12.3 TEMPORARY PLASTIC RESTRAINING STRAPS

When a large number of persons are arrested at one location, they may be handcuffed with plastic restraints (e.g. Flex Cuffs) available from the PECS. Suspects arrested in this manner should be restrained with their hands behind their back, with the wrists crossed and the palms facing outward. Caution should be taken to ensure that the straps are adjusted to restrict movement and prevent removal with allowance for adequate circulation. Refer to Policy §306

901.12.4 EXPECTORANT SHIELD (I.E. SPIT HOOD/MASK)

When a prisoner attempts to bite and/or spit on members the Department approved expectorant shield may be used to protect the safety of the member. Refer to Policy §306.

901.12.5 SEATBELTS

All prisoners shall wear available safety restraints while the vehicle is in motion unless physical conditions would prevent such from being applied.

901.13 PRISONER COMMUNICATIONS

Prisoners may, at the Department member's discretion, be allowed to talk briefly with family or significant others at the scene of their arrest to make necessary arrangements for the control of property, vehicles, etc.

Delays or special concessions for prisoners to communicate with attorneys, family members or others will not be made during transportation.

901.14 VEHICLE INSPECTION

Department members assigned to prisoner transportation duties shall inspect prisoner transportation vehicles for weapons, contraband, and evidence, prior to transporting any prisoners and after transporting any prisoner.

901.15 PRISONER ESCAPES

When a prisoner escapes custody during transportation the Department member will:

- (a) Immediately notify ComCen providing a description, location and direction of travel and any other information necessary for a search for the prisoner and any accomplices;
- (b) Notify a field supervisor; and
- (c) Take reasonable steps to locate the prisoner including, but not limited to:
 - 1) Assignment of appropriate perimeter positions;
 - 2) An organized search in the immediate area; and
 - 3) Request assistance from K-9 units and air support where available.

901.15.1 ESCAPE REPORTING REQUIREMENTS

When the escape is accomplished subsequent to an arrest for which a crime report will be completed, the details will be included in the original report.

When the escape is accomplished during transport after the original report has been completed, a Supplemental Report will be completed to include the details of the escape.

If, at any time, a member has knowledge that a particular prisoner is a security risk, in that the prisoner

may attempt to escape custody, a note such as "Security Risk" shall be written on the AR or JAR above the form heading.

- (a) Department members shall also verbally inform the receiving personnel of the escape or security risk.

901.16 SICK OR INJURED PRISONERS

Members transporting prisoners who require medical attention will transport the prisoner to Community Regional Medical Center (CRMC) for treatment.

Upon arrival at FCJ members shall provide a complete synopsis of the circumstances surrounding the arrest to the pre-book nurse.

- (a) In some cases, contrary to the prisoner's refusal to accept medical treatment, the nurse may require the Department member to transport the prisoner to CRMC prior to booking.

901.17 SPECIAL NEEDS TRANSPORTATIONS SITUATIONS

Prisoners with special needs such as non-ambulatory prisoners, limited ambulatory prisoners (e.g. those utilizing crutches), prisoners utilizing wheelchairs, special medical treatment needs, or other special circumstances shall be brought to the attention of a field supervisor. Where warranted, EMS may respond to assist in these special circumstances where transportation in a patrol wagon/van or patrol vehicle creates an unreasonable risk of harm to the person being transported.

Fresno Police Department Policy Manual

Evaluation of Employees

1002.1 POLICY

Employee performance evaluations will be written based on job related factors specific to the position occupied by the employee without regard to actual or perceived race, sex, sexual orientation, gender, gender identity or expression, age, ethnicity, pregnancy, religion, creed, color, national origin, ancestry, disability, medical condition, genetic information, marital status, military and veteran status, or any other classification or status protected by law.

1002.1.1 PURPOSE AND SCOPE

The purpose of the evaluation system is to record work performance for both the Department and the employee giving recognition for good work and providing a guide for improvement where needed. The employee performance evaluation report is a gauge in measuring performance and is used for making personnel decisions relating to merit increase, promotion, reassignment, discipline, demotion and termination. The report also provides a guide for mutual work planning and review and an opportunity to convert general impressions into a more objective history of work performance based on job standards.

1002.2 ANNUAL EVALUATION DUE DATES

Performance evaluations are required annually or quarterly for all Department members. Performance evaluations shall be completed by the member's supervisor and submitted to the District Commander/Bureau Manager within 30 days of the due date. The due dates for evaluations are as follow:

- (a) **Probationary** - All sworn and non-sworn members shall have quarterly evaluations; (Exception: Officers currently in the Field Training Program will not have quarterly evaluations, Daily Observation Reports only)
- (b) **Non-Sworn** – Non-sworn members shall have evaluations annually, based on their hire date/promotion;
- (c) **Recruit Police Officer** – An evaluation is required at the end of the recruit status so the recruit can be promoted to police officer (probationary). This is generally twelve months after date of hire. The evaluation should state if promotion is recommended;
- (d) **Sworn** – All sworn members, except staff, shall have annual evaluations due upon the ending date of the Matrix period;
- (e) **Management** – All sworn staff (except Deputy Chiefs) shall have annual evaluations due after April 30th. Deputy Chiefs are due after December 31st. Non-sworn management personnel are due after their hire/promotion date.

Similarly, when a supervisor changes assignment more than 90 days before the end of a rating period, the supervisor is required to complete exit evaluations on all personnel assigned to them at the time of their reassignment. Complete annual evaluations shall be completed by the assigned supervisor for all assigned personnel when a change of assignment occurs 90 days or less from the end of the rating period. All required exit evaluations shall be completed by the member's supervisor within 30 days of the member's or supervisor's change in assignment.

1002.3.1 RESERVE OFFICER EVALUATIONS

Reserve officer evaluations are required annually or quarterly for probationary reserve officers.

1002.4 PERSONNEL BUREAU RESPONSIBILITY

Once an evaluation has been completed and issued to the member, the original shall be sent to the Personnel Bureau within five days of signing by the last approving staff member. The Personnel Bureau will maintain a personnel database which includes the date the performance evaluation was issued.

The Personnel Bureau will provide District Commanders/Bureau Managers with a quarterly list of evaluation due dates for recruit officers, probationary members, and non-sworn members. The Personnel Bureau will conduct regular compliance checks to ensure evaluations are submitted by the deadlines established in this order. Should the Personnel Bureau fail to receive an evaluation by its due date the affected District Commander/Bureau Manager will be so notified.

1002.5 RATER RESPONSIBILITIES

All raters shall receive initial training in performance evaluations, as provided within Departmental supervisory orientations, formalized training courses, and/or in-service training, prior to completing their first performance evaluation. Once the training is received, the rater shall:

 - 3) Where appropriate or requested, career counseling to include individual career plans for advancement, specialization, and training;
- (c) Provide the member being rated an opportunity to sign the performance evaluation and to make comments as part of the official record of the evaluation;
- (d) Ensure all performance evaluations are reviewed and signed, at a minimum, by the rater's immediate supervisor;
- (e) Provide the evaluated member with a copy of the completed, signed, and reviewed evaluation; and
- (f) Not include any specific references to Letter(s) of Counseling (LOC) or Documented Oral Reprimand(s) (DOR) received by the employee during the evaluation period. The rater may describe the conduct that resulted in corrective action and indicate that corrective action was taken, but shall not reference the specific type of corrective action taken (e.g. LOC, DOR or Supervisory Observation Log entry).

1002.6 EVALUATION FORMAT

Evaluation formats are based upon the member's job classification. The criteria used for performance evaluations shall be specific to the assignment(s) of the member during the rating period. Copies of the proper evaluation forms may be accessed through the Department's electronic library.

1002.6.1 EXPLANATORY COMMENTS

The rater shall provide explanatory comments to substantiate performance ratings which are unsatisfactory or outstanding. The explanatory comments should include specific examples of observed or reported behavior of the member being rated during the period covered by the evaluation.

1002.7 PRE-EVALUATION REQUIRED NOTIFICATIONS

Less than satisfactory performances by a member should be brought to the attention of that member. Where a member's performance could result in a less than satisfactory rating on their performance evaluation, a written notice of the unsatisfactory or needs improvement performance shall be given to the member. This written notice shall describe the less than satisfactory performance and what actions should be taken to improve the member's performance. The written notice may be in the form of a memo, Supervisor's Observation Log, formal discipline, or other appropriate means.

1002.7.1 NON-PROBATIONARY EMPLOYEES

Less than satisfactory performance ratings may only be included in a performance evaluation when:

- (a) The member receiving the less than satisfactory performance rating was given written notice, as defined above, of the deficiency at least 90 days prior to the rated member's evaluation date, or
- (b) The less than satisfactory performance occurs less than 90 days from when an evaluation is due and would result in an unsatisfactory/needs improvement rating for the rating period. Under these circumstances, the required written notice shall be delivered to the member as soon as possible after the less than satisfactory performance is identified.

Supervisors shall be responsible for knowing the annual evaluation dates for all subordinates and for calculating the 90 day notice date for each member.

1002.7.2 PROBATIONARY EMPLOYEES

Probationary members shall receive a performance evaluation every quarter. The required written notice shall be delivered to the probationary member as soon as possible after the less than satisfactory performance is identified. The 90-day notice requirement shall not apply to probationary members.

1002.8 PERFORMANCE EVALUATION APPEAL PROCESS

When a member disagrees with the performance evaluation, that member may prepare and attach to the evaluation a written memorandum outlining the reason(s) for the disagreement. This attachment shall be submitted by the member to the rater within 30 calendar days of the member receiving the evaluation. This memorandum will be forwarded through the chain of command to the Division Commander for consideration.

1002.9 RATER EVALUATIONS

Supervisors and management staff shall be evaluated on the objectivity, accuracy, timeliness, and overall quality of ratings for performance evaluations they prepare. This information shall be included in their performance evaluation under supervisory performance.

1002.10 PERFORMANCE IMPROVEMENT PLANS

When it is determined a performance improvement plan (PIP) should be implemented for an employee, the employee's direct supervisor will be responsible for its completion, and for the monitoring of the employee during the PIP period. The Division Commander shall review the PIP prior to it being presented to the employee. When the PIP is presented to the employee, the employee should sign the document before it is placed into the employee's divisional file until the employee's next evaluation. The employee shall also be provided a copy of the PIP. Generally, any PIP should contain the following elements:

- (a) An overview of the circumstances leading to the PIP, including a description of any prior efforts to address the substandard performance;
- (b) A specific description of the substandard performance;
- (c) A specific description of the expected performance standard;
- (d) If applicable, a description of specific tasks, or benchmarks the employee is required to complete to successfully complete the PIP;
- (e) Guidance or direction to the employee to assist them in achieving the desired performance;
- (f) A timeframe for completion of the PIP.

The PIP shall have a specified timeline that is reflective of the behavior to be improved. The preset time frame may be altered, or extended, based on the individual needs of the situation, or if the employee is not performing at a competent level at the end of the PIP. The employee's direct supervisor shall submit monthly progress reports to the proper manager, after the employee has signed a copy of the progress report and has been provided a copy of it.

1006.1 POLICY

All grievances will be handled as quickly and fairly as possible without discrimination against members who file a grievance whether or not there is a basis for the grievance.

1006.1.1 PURPOSE AND SCOPE

Our Department's philosophy is to promote free communication between members and supervisors when a dispute arises while seeking a timely but equitable resolution.

1006.2 DEFINITION

Grievance - A grievance is any dispute concerning the interpretation or application of this article, or rules or regulations governing personnel practices or working conditions. A grievance involves the claimed misapplication or misinterpretation of a rule or regulation relating to an existing right or duty; it does not relate to the establishment or abolition of a right or duty ([Fresno Municipal Code §3-618](#))

1006.3 GRIEVANCE PROCEDURE

Grievances may be brought by an individual member or by a group representative.

If the affected member(s) is(are) under a Memorandum of Understanding (MOU) containing a section for grievances, then all applicable guidelines shall apply. If no applicable MOU is in place, the [FMC §3-618](#) shall apply.

If a member believes that they have a grievance as defined above, then that member shall observe the following procedure:

- a) Attempt to resolve the issue through informal discussion with their immediate supervisor;
- b) A grievance must be initiated within fifteen days after the member first knew or should have known of a grievable action or event. If the initiation of the grievance does not occur within fifteen days, the grievance is void;
- c) If the grievance cannot be settled by the immediate supervisor, the member may attempt to resolve the grievance with the next level of supervision, following the chain of command of the affected member;
- d) If a successful resolution is not found with the District, Bureau or Division Commander, the member may request a meeting with the Deputy Chief of Police;
- e) If the member and the Deputy Chief are unable to arrive at a mutual solution, then the member shall proceed as follows:
 - 1) Within ten (10) calendar days of the last day of the informal process, the member will submit in writing a written statement of the grievance and deliver one copy to the Chief of Police and another copy to the immediate supervisor and include the following information:
 - I. The basis for the grievance (i.e., the facts of the case) including the specific rule, regulation, policy, practice, or MOU provision violated ;

 - b. What the member would like to accomplish from the grievance.
- f) The member shall receive a copy of the acknowledgment signed by the supervisor including the date and time of receipt; and
- g) The Chief of Police will receive the grievance in writing. The Chief of Police and City Manager will review and analyze the facts or allegations and respond to the member within 14 calendar days.
 - 1) The response will be in writing, and will affirm or deny the allegations.
 - 2) The response shall include any remedies if appropriate. The decision of the City Manager is considered final.

1006.4 EMPLOYEE REPRESENTATION

Members are entitled to have representation during the grievance process. The representative may be selected by the member from the appropriate employee bargaining group.

1006.5 GRIEVANCE RECORDS

At the conclusion of the grievance process, all documents pertaining to the process shall be dispensed as outlined in the applicable MOU or as outlined in FMC §3-618.

1006.6 LABOR RELATIONS

Labor Relations is a division of the City's Personnel Services Department and is responsible for the coordination of grievance procedures and the control and maintenance of grievance records.

The forms necessary for filing a grievance are available at Labor Relations as well as the Personnel Bureau in the Administrative Services Division.

1008.1 POLICY

Any member who believes that they came into contact with bodily fluids of an individual shall contact a supervisor and complete the required forms.

1008.1.1 PURPOSE AND SCOPE

Members receiving treatment at the scene by EMS personnel, that do not require treatment at a hospital, may respond to the contracted Worker's Compensation Walk-in Clinic or the appropriate hospital after hours to obtain a blood test. The clinic/hospital will forward the results to the County Health Department who will contact the member with the results.

1008.4 AVAILABLE COUNSELING

In addition to any other available employee assistance programs, personal counseling maybe available through the Fresno County Health Services Agency to any law enforcement employee who has filed a Confidential Report.

1008.5 PROCEDURE TO DETERMINE TESTING

Within three calendar days of receipt of the Confidential Report, regardless of whether or not a request for testing was made, the Fresno County Health Services Agency shall determine whether or not the involved individual shall be required to submit to HIV testing.

Any individual ordered by the Fresno County Health Services Agency to submit to HIV testing has three calendar days to appeal such an order. If no appeal is filed in a timely manner, the order of the Fresno County Health Services Agency shall become final.

Any Fresno County Health Services Agency order may be appealed by the individual or the involved employee to the Superior Court which is required to review the matter as expeditiously as possible (PC §7516.5).

1008.6 TESTING PROCEDURE

The refusal of any probationer or parolee to submit to required HIV testing shall be considered a violation of probation or parole.

Fresno Police Department Policy Manual

Reporting of Employee Convictions

1010.1 POLICY

All members shall be required to notify the Department of any past and current criminal convictions.

1010.1.1 PURPOSE AND SCOPE

Convictions of certain offenses and/or restraining orders that may restrict or prohibit a member's ability to properly perform official duties must be reported to the employee's immediate supervisor or the Chief of Police or designee as soon as practicable.

1010.2 NOTIFICATION REQUIREMENTS

The Administrative Division Commander or their designee shall submit within 30 days a notice to the Commission on Peace Officer Standards and Training (POST) of any appointment, termination, reinstatement, name change or status change regarding any peace officer, reserve peace officer, public safety dispatcher and records supervisor employed by this department (11 California Code of Regulations §1003).

The Administrative Bureau Commander or their designee shall submit within 30 days of final disposition a notice to the Commission on Peace Officer Standards and Training (POST) of a felony conviction or Government Code §1029 reason that disqualifies any current peace officer employed by this department or any former peace officer if this department was responsible for the investigation (11 CCR §1003).

1010.3 DOMESTIC VIOLENCE CONVICTIONS, OUTSTANDING WARRANTS AND RESTRAINING ORDERS

California and federal law prohibit individuals convicted of, or having an outstanding warrant for, certain offenses and individuals subject to certain court orders from lawfully possessing a firearm. Such convictions and court orders often involve allegations of the use or attempted use of force or threatened use of a weapon on any individual in a domestic relationship (e.g., spouse, cohabitant, parent, child) (18 United States Code §922; Penal Code §29805).

All members are responsible for ensuring that they have not been disqualified from possessing a firearm by any such conviction or court order and shall promptly report any such conviction or court order to a supervisor, as provided in this policy.

1010.4 OTHER CRIMINAL CONVICTIONS

GC §1029 prohibits any person convicted of a felony from being a peace officer in the State of California. This prohibition applies regardless of whether the guilt was established by way of a verdict, guilty or nolo contendere plea.

Convictions of certain violations of the Vehicle Code and other provisions of law may also place restrictions on a member's ability to fully perform the duties of the job.

Outstanding warrants as provided in PC §29805 also place restrictions on a member's ability to possess a firearm.

Moreover, while legal restrictions may or may not be imposed by statute or by the courts upon conviction of any criminal offense, criminal conduct by members of this Department may be inherently in conflict with law enforcement duties and the public trust.

1010.5 REPORTING PROCEDURE

All members of this Department and all retired officers with a CCW endorsement shall promptly (within 24 hours) notify their immediate supervisor (or the Chief of Police in the case of retired officers) in writing of any past or current criminal arrest, outstanding warrant or conviction regardless of whether or not the matter is currently on appeal and regardless of the penalty or sentence, if any.

All sworn employees and all retired officers with a CCW endorsement shall further promptly (within 24 hours) notify their immediate supervisor (or the Chief of Police in the case of retired officers) in writing if the member or retiree becomes the subject of a domestic violence restraining order or similar court order or becomes the subject of an outstanding warrant.

Any member whose criminal conviction unduly restricts or prohibits that member from fully and properly performing their duties may be disciplined including, but not limited to being placed on administrative leave, reassignment and/or termination. Any effort to remove such disqualification or restriction shall remain entirely the responsibility of the member on their own time and expense.

Any member failing to provide prompt written notice pursuant to this procedure shall be subject to discipline.

1010.6 PROCEDURE FOR RELIEF

Pursuant to PC §29855, a peace officer may petition the court for permission to carry a firearm following a conviction under state law. Federal law, however, does not provide for any such similar judicial relief and the granting of a state court petition under PC §12021 will not relieve one of the restrictions imposed by federal law.

Therefore, relief for any employee falling under the restrictions imposed by federal law may only be obtained by expungement of the conviction. Each employee shall seek relief from firearm restrictions on their own time and through their own resources.

Pursuant to Family Code §6389(h), an individual may petition the court for an exemption to any restraining order, which would thereafter permit the individual to carry a firearm as a part of their employment. Relief from any domestic violence or other restriction shall also be pursued through the employee's own resources and on the employee's own time.

Pending satisfactory proof of relief from any legal restriction imposed on an employee's duties, the employee may be placed on administrative leave, reassigned or disciplined. The Department may, but is not required to return an employee to any assignment, reinstate any employee or reverse any pending or imposed discipline upon presentation of satisfactory proof of relief from any legal restriction set forth in this policy.

1012.1 POLICY

It is the policy of the Department to provide a drug- and alcohol-free workplace for all members.

1012.1.1 PURPOSE AND SCOPE

The purpose of this policy is to establish clear and uniform guidelines regarding drugs and alcohol in the workplace.

1012.2 GENERAL GUIDELINES

Alcohol and drug use in the workplace or on Department time can endanger the health and safety of Department members and the public. Such use shall not be tolerated (41 United States Code §8103). Members who are authorized to consume alcohol as part of a special assignment shall not do so to the extent of impairing on-duty performance.

Members who have consumed an amount of an alcoholic beverage or taken any medication, or combination thereof, that would tend to adversely affect their mental or physical abilities shall not report for duty. Affected members shall notify their supervisor as soon as the member is aware that they will not be able to report to work. If the member is unable to make the notification, every effort should be made to have a representative contact the supervisor in a timely manner. If the member is adversely affected while on-duty, they shall be immediately removed and released from work (see Work Restrictions in this policy).

1012.2.1 USE OF MEDICATIONS

Members should avoid taking any medications that will impair their ability to safely and completely perform their duties. Any member who is medically required or has a need to take any such medication shall report that need to their immediate supervisor prior to commencing any on-duty status.

No member shall be permitted to work or drive a vehicle owned or leased by the Department, including an employee's personal vehicle used for City business, while taking any medication that has the potential to impair their abilities, without a written release from their physician.

1012.2.2 USE OF MARIJUANA

Possession of marijuana, including medical marijuana, or being under the influence of marijuana on- or off-duty is prohibited and may lead to disciplinary action.

1012.3 MEMBER RESPONSIBILITIES

Members shall report for work in an appropriate mental and physical condition. Members are prohibited from purchasing, manufacturing, distributing, dispensing, possessing or using controlled substances or alcohol on department premises or on department time (41 USC §8103) except in the performance of a supervised special assignment. Members who consume alcohol as part of a special assignment shall not do so to the extent of impairing on-duty performance. The lawful possession or use of prescribed medications or over-the-counter remedies is excluded from this prohibition.

Members shall not ingest any substance that may impair the member's physical or mental capabilities while on duty or less than four hours prior to reporting for duty without express permission of a supervisor. Such substances shall include prescription or nonprescription drugs, alcohol, inhalants, etc.

Members are specifically prohibited from reporting for duty with the odor of any alcoholic beverage on their breath.

Members shall notify a supervisor immediately if they observe behavior or other evidence that they believe demonstrates that a fellow member poses a risk to the health and safety of the member or others due to drug or alcohol use.

Members are required to notify their immediate supervisors of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction (41 USC §8103). Insurance coverage that provides treatment for drug and alcohol abuse also may be available.

1012.4 EMPLOYEE ASSISTANCE PROGRAM

Members who experience drug or alcohol problems are encouraged to seek referral for rehabilitation through the Employee Assistance Programs or their insurance provider.

It is the responsibility of each member to seek assistance before alcohol or drug problems lead to performance problems.

1012.5 WORK RESTRICTIONS

If a member informs a supervisor that they have consumed any alcohol, drug or medication that could interfere with a safe and efficient job performance, the member may be required to obtain clearance from their physician before continuing to work.

If the supervisor reasonably believes, based on objective facts, that a member is impaired by the consumption of alcohol or other drugs, the supervisor shall prevent the member from continuing work and shall ensure that they are safely transported away from the Department.

1012.6 CONFIDENTIALITY

The Department recognizes the confidentiality and privacy due members, and disclosure of any information relating to chemical abuse treatment, except on a need to know basis, shall only be with the expressed written consent of the member involved or pursuant to lawful process.

The written results of any screening tests and all documents generated by the employee assistance program are considered confidential medical records and shall be maintained separately from the employee's other personnel files.

1012.7 COMPLIANCE WITH THE DRUG-FREE WORKPLACE ACT

No later than 30 days following notice of any drug statute conviction for a violation occurring in the workplace involving a member, the Department will take appropriate disciplinary action, up to and including dismissal, and/or requiring the member to satisfactorily participate in a drug abuse assistance or rehabilitation program (41 USC § 8104).

1012.8 TESTING REQUIREMENTS

Sworn members of the Department (excluding probationary employees) may be required to submit to drug testing under particular circumstances as outlined in the members applicable MOU.

In addition to any testing requirements as described in the applicable MOU, members may be subject to the "Identification and Consent Procedures" outlined in Administrative Order § 2-25.

Fresno Police Department Policy Manual

Leaves of Absence

1013.1 POLICY

Employees shall be allowed to take time off in accordance with their applicable MOU.

1013.1.1 PURPOSE AND SCOPE

To describe and outline to employees the circumstances and conditions under which leave will be afforded to an employee.

This policy is not intended to cover all types of sick or other leaves. For example, employees may be entitled to additional paid or unpaid leave for certain family and medical reasons as provided; such as leave for victims of crime or abuse, or for organ or bone marrow donor procedures (Labor Code § 230.1; Labor Code § 1510).

1013.2 TIME OFF

Employees shall be allowed to take time off in accordance with their applicable MOU.

1013.3 ANNUAL VACATION

Employees shall be allowed to take at least one annual vacation during the time period they have reserved on the vacation signup list.

Employees may sign up for as many consecutive weeks as each employee accrues in one year. All vacation time requested, other than the one annual vacation, shall be treated as any other request for time off.

When an employee transfers from one unit/bureau to a different assignment, they shall be allowed to take annual vacation leave during the time period reserved while in the previous unit/bureau regardless of the employee's previous assignment.

Requests for annual vacation, including a calendar, must be submitted to the employee's immediate supervisor, Court Liaison Office, and the Duty Office, if applicable, at least 30 days prior to the first day of absence.

If an employee on annual vacation volunteers to work order back created by their absence, but cancels their vacation day when not awarded the order back shift which results in the cancellation of the order back, the remainder of the employee's annual vacation shall be forfeited and the employee shall return to their regular duty schedule. This shall not apply to Contract Law Enforcement Services or Absent with Substitute assignments.

1013.4 OTHER TIME OFF REQUESTS

Requests for unscheduled time off may be made up to 14 days in advance of the requested date. If the unscheduled time off is granted, employees must submit an Over Time / Time Off (OTTO) request to their supervisor before the date of the time off.

The Duty Officer may authorize time off when the citywide staffing level for the specific shift is above the minimum level. Only the Patrol Division Commander or designee can approve requests for time off at/below the minimum staffing buffer.

1013.5 LEAVE WITHOUT PAY

1013.5.1 LESS THAN 10 CONSECUTIVE DAYS

Employee requests for leaves without pay (LWOP) for less than 10 consecutive days shall be forwarded to their division commander for consideration of approval. Upon approval, the request shall be forwarded to the Fiscal Affairs Bureau for processing.

1013.5.2 10 OR MORE CONSECUTIVE DAYS

Use of LWOP for periods longer than 10 or more consecutive days must be submitted through the member's chain of command with final approval consideration by the Chief of Police.

Leave without pay shall not be approved if the employee has a balance of vacation, compensatory time or holiday time unless prior authorization has been obtained from the City manager.

When an employee will be on LWOP for 10 or more consecutive days, the following is required:

- a) The employee shall submit an LWOP request memo (found on the L drive) through their chain of command to the Chief of Police for approval;
 - 1) The memo must be submitted prior to taking the requested leave, or as soon as the employee is aware their leave balances are or will become depleted;
- b) The memo shall be forwarded to the Long-Term Absence Coordinator (LTA), where it will be processed and forwarded to the Chief of Police for review;
- c) The Chief's Office will review the memo and return it to the LTA;
- d) The LTA will forward the LWOP determination to the Fiscal Affairs bureau and notify the employee of the approval or denial.

Leave without pay shall not be approved if the employee has a balance of vacation, compensatory time or holiday time unless prior authorization has been obtained from the City Manager.

Exception: Members covered under FCEA Unit 3 MOU working a 4/10 shift who are off on a holiday which falls on a regular workday shall receive eight hours base pay for the holiday, and may elect to take two hours vacation, holiday or CTO to provide for a full 10 hours pay, or may elect to receive two hours leave without pay.

1013.6 ABSENCE WITH SUBSTITUTE (AWS)

As provided in the Basic Unit 4 MOU and FCEA Unit 3 MOU, employees may provide a substitute employee to work for another when staffing levels do not permit the employee to take time off. The substitute must be satisfactory to the Department.

All AWS shifts must be documented using the OTTO system. This shall include when employees trade shifts with no time transfer. The substitute employee shall not give away, sell or redistribute the AWS shift in any fashion.

The employee who is assigned to the shift is responsible for ensuring the shift is covered until both employees sign the OTTO entry. This step is an acknowledgement by the substitute employee that they are responsible for the shift.

Should the substitute employee become unable to work the AWS shift:

- a) The involved personnel should first attempt to resolve the matter between themselves to ensure the shift is covered;
- b) If the matter cannot be resolved between the involved personnel, the substitute employee will notify their District Commander or the on-duty Field Commander, as well as the Duty Office; and
- c) When the AWS cancellation is within 72 hours of the agreed upon shift and results in order back to fill the shift, the substitute officer will be suspended from working AWS for the following 90 days.

Time transfers in OTTO for shifts or time not worked is strictly prohibited, other than approved time donations.

1013.7 MILITARY LEAVE

Military leave requests will be handled in accordance with Fresno Municipal Code §3-111.

Employees shall provide a copy of all military orders to their immediate supervisor, the LTA Coordinator, Business Office and the Duty Office, if applicable, within a week of receipt. Employees

who receive military activation order that exceed 90 days will be directed to contact the Employee Services Coordinator (ESC). The ESC will:

- a) Conduct exit and re-entry interviews with the employee to facilitate transition to and from active duty;
- b) Make arrangements for the storage of the employee's Department issued equipment;
- c) Be the point of contact for the employee and the employee's family while the member is deployed; and
- d) Facilitate any initial/refresher training needed by the employee.

The employee will continue to have access to Department email to facilitate communication.

Sworn members' range training/qualification status must be current prior to resuming their regularly assigned duties (Refer to Policy 312-Firearms, 403-Reintroduction to Patrol, and 432-Patrol Rifles).

1013.8 GUARANTEED LEAVE

Two times during each patrol matrix semester, employees assigned to patrol, may submit a request for guaranteed leave as outlined in the Basic Unit 4 MOU.

Two times during each fiscal year, employees covered under the FCEA Unit 3 MOU may take time off to attend a major family or social event, subject to the conditions listed under the "Family Events" section of this MOU.

The Duty Office will be responsible for tracking an employees' usage of guaranteed leave request.

1013.9 LEAVE OF ABSENCE DURING PROBATION

Time spent on any leave of absence shall not be considered as a part of any probationary period, and such time will be added to the probationary period.

1013.10 FAMILY MEDICAL LEAVE ACT / CALIFORNIA FAMILY RIGHTS ACT

Requests for protected leaves under the Family Medical Leave Act (FMLA) and the California Family Rights Act (CFRA) shall be made with LTA Coordinator 30 calendar days prior to the start of the leave time, when foreseeable. Employees shall also notify their District or Unit Commanders when requesting FMLA/CFRA. Exceptions to the minimum 30 day notice will be considered for unforeseeable medical emergencies, lack of knowledge, or for chronic medical conditions. Otherwise, the employer can delay the start of the leave to a date that would yield a 30 day notice. FMLA/CFRA shall be applied for and renewed each fiscal year.

A maximum of twelve (12) weeks of FMLA/CFRA protected leave will be available per fiscal year and shall be run concurrently; with the exception of pregnancy. Baby bonding time shall be taken within the first year following the birth, adoption or foster care placement of a child. The time off must be taken in two week increments or more, except on two occasions you may take less than 2 weeks. Only non-sick leave balances may be used for baby bonding.

Sick leave may be used during an FMLA protected leave absence. Employees may use sick, vacation, holiday, comp, or special holiday for wage continuance during an FMLA/CFRA qualified absence.

Employees that do not have sufficient leave time balances to cover the duration of the FMLA/CFRA leave need to request leave without pay pursuant to section D above.

1013.11 PREGNANCY DISABILITY LEAVE

Pregnancy Disability Leave (PDL) is available to all employees who are currently pregnant, regardless of length of employment. This protected leave can be taken before birth or at any time a pregnant employee is physically unable to work due to pregnancy or a pregnancy related condition. A maximum of 17.33 aggregate weeks will be available per pregnancy.

This leave may be taken as needed or consecutively and shall run concurrently with FMLA leave only. Any request for PDL absence must be submitted to the LTA Coordinator 30 calendar days prior to the start of the pregnancy disability. It shall include the start date of the leave and an estimated duration of the leave. When 30 days' notice is not possible due to lack of knowledge or medical emergency, notice must be made as soon as practical.

An employee may use sick leave, vacation, holiday, comp, or special holiday for wage continuance. Employees that do not have sufficient leave time balances to cover the duration of the PDL need to request leave without pay pursuant to section 1013.5 above.

1013.12 FAMILY AND SCHOOL PARTNERSHIP ACT

The Family-School Partnership Act allows parents, grandparents, and guardians to take time off from work to participate in their children's school or child care activities. To qualify, the employee must be a parent, guardian, or grandparent who has custody of a child enrolled in a California public or private school, kindergarten through grade twelve, or licensed child day care facility. Full time employees are allowed to take up to 40 hours per year with a maximum of 8 hours per calendar month. Part time employees are allowed a proportionate number of hours; e.g. half time employees are allowed 20 hours per year.

Any request for time off must be submitted one week in advance to their immediate supervisor or the Duty Office. Employees shall submit an OTTO request using the appropriate Family/School Act code. Members may use any of their available leave accounts excluding sick leave.

If both parents are employees of this Department, priority will be given to the parent that submitted the request first. The other employee may be approved if staffing allows. Employees are required to provide written proof of having participated at their child's school or child care facility upon the supervisor's request.

Fresno Police Department Policy Manual

Sick Leave Reporting

1014.1 POLICY

Sick Leave usage and absenteeism can adversely affect the Department's ability to provide service to the public. Excessive absenteeism is costly, time-consuming, and hinders Departmental operations. Sick-leave usage will be monitored, and subject to verification, if necessary. Sick Leave is not to be used for reasons other than illness, injury, or a medical/dental/ocular appointment for the member or their family members, as defined in this policy. Abuse of Sick Leave may result in discipline.

1014.1.1 PURPOSE AND SCOPE

Employees are provided with Sick Leave that provides continued compensation during times of personal or family illness, injury, or for medical/dental/ocular appointments. The specified numbers of hours are detailed in each member's Memorandum of Understanding (MOU). Sick Leave may only be used when a member is unable to work due to personal injury (off-duty), illness, medical/dental/ocular appointments or for the illness, injury, or medical/dental/ocular appointment of a member's immediate family (child, parent, spouse, registered domestic partner, parent-in-law, grandparent, grandchild, or sibling). Sick Leave shall be administered in accordance with the provisions of Fresno Municipal Code §3-107, Sick Leave and Special Leave, current MOU's, City Administrative Orders, and any applicable federal and state statutes.

1014.2 SICK LEAVE ACCRUAL AND USE

Sick Leave is a benefit to be used when a member is absent because they are unable to work due to illness or injury. Legitimate uses for Sick Leave include medical/dental/ocular appointments and any time when illness, injury, or the use of medication inhibits a member's ability to perform their job tasks. It is the responsibility of every member to maintain their physical and mental wellbeing so that they are capable of assuming an equal share of the workload. It is also the member's responsibility to come to work healthy and able to work safely. Members are expressly prohibited from utilizing Sick Leave for reasons other than illness, injury, or a medical/dental/ocular appointment for themselves or their family members, as defined in this policy.

Sick Leave shall accumulate during the probationary period but may not be used until the member has completed 90 days of employment. Members who are unable to come to work due to illness or off-duty injury during this period will have the time deducted from their Comp or Holiday Leave balances, if there is time available (Vacation Leave is not available for use during the first six months). When no Comp or Holiday Leave is available, such time off will be designated as leave without pay, subject to the approval of the Appointing Authority or designee. Following the first six months of employment, members must exhaust all accumulated paid leave balances before leave without pay will be granted.

1014.3 CARING FOR FAMILY MEMBERS

Members covered by this policy are allowed to use Sick Leave to care for the member's child, parent, spouse, registered domestic partner, parent-in-law, grandparent, grandchild or sibling. Sick Leave may be used to care for, or arrange for the care of family members who are ill, or to take family members, as defined by this policy, to medical/dental/ocular appointments.

Once a member uses one half of the total accumulated (non-exempt) Sick Leave per fiscal year, any Sick Leave taken will be deducted from the member's Vacation, Holiday or Comp accounts. Family Care Leave (Family Medical Leave Act / FMLA) is intended for long-term, serious medical care of the member or family member.

1014.4 PHYSICAL OR MENTAL IMPAIRMENT

A member suffering a physical or mental impairment that limits their ability to perform any aspects of their job assignment shall not report for duty without first advising a supervisor of their limitations.

Supervisors shall consider a temporary duty assignment, or allow the member Sick Leave, depending on the nature and duration of the impairment and the nature of the member's duties.

Members who report for duty and advise their supervisors that they are suffering a physical or mental impairment limiting their ability to perform any aspect of their job may be allowed Sick Leave or may be placed in a temporary duty assignment that shift.

Should a supervisor have objective facts to support the belief that a member is temporarily unfit for duty due to a physical or mental impairment, the supervisor shall consult their manager. If it is determined the member is physically or mentally impaired and cannot perform an essential function of their job, the member will be placed off work, using their own leave time, until the member is able to perform all essential functions of their job. The member will be required to submit medical documentation clearing them to resume all essential functions of their job upon their return to work.

If the supervisor and manager believes the member has contracted an ailment or disability which may substantially interfere with the performance of their duties, or endanger the safety of the member or the public, the Department shall notify the Personnel Services Department and consider whether a fitness for duty is warranted, pursuant to FMC §3-288.

1014.5 NOTIFICATION

1014.5.1 NON-PATROL PERSONNEL

When members assigned to units/bureaus other than patrol are unable to report for duty due to personal or family illness or injury, they shall report this fact to a person designated by their supervisor or commander not less than one hour prior to the member's required reporting time for duty. Non-patrol personnel having been on Sick Leave for any portion of their last scheduled work day shall notify the person designated as their supervisor of their return not less than one hour before the beginning of the member's returning shift.

1014.5.2 PATROL PERSONNEL

When members assigned to patrol are unable to report for duty due to personal or family illness, or injury, they shall contact the District Operations Commander of the affected District in advance of all absences no less than one and one-half hours prior to the start of their shift. If after hours, the member shall contact the on-duty Field Commander. The District Operations Commander or Field Commander will then contact the Duty Officer to report the member calling in sick. Should the District Operations Commander or Field Commander have concerns with any member calling in sick, this should be discussed with the affected supervisor. This supervisor or commander may contact the member calling in sick to ensure compliance with policy. Prior to returning to work, patrol members having been on Sick Leave for any portion of their last scheduled work day shall notify the duty office of their return to duty no later than one and one-half hours before the beginning of the member's returning shift.

All members, regardless of duty assignments, shall adhere to any additional requirements outlined in this policy or their applicable MOU.

1014.6 MEMBERS RESPONSIBILITY

When a member calls in sick, they shall advise the District Operations Commander or Field Commander (who will advise the Duty Office) whether they are ill or caring for a family member and if caring for a family member, stating both the relationship (e.g. "daughter") and the name of the ill family member. After calling in sick, members are prohibited from changing Sick Leave time to:

- a) Vacation;
- b) Holiday;
- c) CTO;
- d) Administrative leave; or
- e) Leave without pay.

Any adjustment required due to inadequate Sick Leave time to cover the absence(s) will be made by the Fiscal Affairs Bureau.

When a member assigned to patrol takes a partial shift off sick, they shall notify their supervisor or designee prior to leaving work. The supervisor or designee shall notify the Duty Office as soon as possible.

Upon return to work, members shall complete and submit an OTTO request describing whether the Sick Leave was for the member or a family member and, if for a family member, the relationship (e.g. "daughter") and the name of the family member, and the amount of time taken. .

1014.7 EXTENDED MEDICAL INCAPACITY

When an absence due to illness or injury exceeds 15 calendar days, the member must file with their supervisor, no later than the 18th calendar day, a statement from the member's medical care provider regarding the estimated length of medical incapacity.

If the length of absence exceeds the stated estimated period of medical incapacity, a new statement must be filed within three calendar days following the expiration of the original estimated date of return.

When an extended absence due to illness or injury is anticipated, the member shall provide a medical provider's statement in advance establishing the probable duration of the medical incapacity, when known. When an extended absence due to illness or injury is unanticipated, the member shall provide a medical provider's statement establishing the probable duration of the medical incapacity as soon as reasonably practical.

The Family Medical Leave Act (FMLA) and the California Family Rights Act (CFRA) leave provides up to twelve weeks of unpaid leave for the employee's own serious health condition or the serious health condition of a close family member, or for the birth, adoption, or placement of a child in foster care. Members should contact their supervisor, the Personnel Bureau, or the Personnel Services Department, to inquire about FMLA and/or CFRA leave.

If the member's medical incapacity is of long-standing duration, or becomes permanent, the member will be referred to the Personnel Services Department to initiate the interactive process, to determine whether the member is able to perform the essential functions of their job, with or without reasonable accommodation.

1014.8 USE OF SICK LEAVE FOR OUTSIDE EMPLOYMENT

Use of Sick Leave shall not be allowed where the cause of the injury or illness is directly traceable to any compensated employment or remunerative occupation of any kind unless the member has exhausted temporary disability insurance payments. If such temporary disability benefits and other disability insurance payments are exhausted, the member may use Sick Leave for such injury or illness.

1014.9 SUPERVISOR RESPONSIBILITY

Upon a member's return to work from any amount of Sick Leave, their supervisor will complete a review of the member's Sick Leave history and complete a Sick Leave Review Form. The supervisor shall determine if further action is warranted (e.g. possible Sick Leave abuse) and forward the form to the member's commander. These forms shall be maintained by the commander for the biannual review.

A member on Sick Leave may be contacted by a supervisor to determine when the member expects to return to work, the process for returning to work, the submission of any required documentation, and/or possible coverage under FMLA and/or CFRA.

If a member is contacted, this fact shall be documented on the Sick Leave Review Form, and shall include:

- a) Date;
- b) Time;
- c) Whether the contact was by phone or in person; and
- d) The name of the supervisor who made the contact.

A supervisor, with staff approval, may require a medical provider's verification of illness, which must be signed by a medical care provider, for any period of absence. Such verification shall be mandatory for any member absent for more than seven calendar days due to illness or non-job related injury. This verification of illness or injury must be provided to the member's supervisor immediately upon return to work.

Members who fail to provide a required verification may be required to use leave other than Sick Leave for their absence.

When a pattern or incident of Sick Leave use appears abusive or unauthorized, an immediate review shall be completed. In cases of suspected abuse or misuse of Sick Leave, the supervisor may, at their discretion, impose a physician's statement requirement without prior counseling.

When the findings of any such review support a violation of Department regulations, appropriate corrective action shall be taken.

1014.10 SICK LEAVE USAGE LIMITS

The acceptable limit for Sick Leave usage for all members is 80 hours per fiscal year. The allowable hours are divided so that a maximum of one half may be used in each semester: January through June and July through December. Members should review their applicable MOU for additional rules and regulations concerning Sick Leave usage and leave administration.

Division commanders, or their designees, will review Sick Leave usage biannually, in January and July, for any member exceeding the authorized limits in the previous six-month period. Records indicating Sick Leave usage in excess of the review limit will be examined further to determine compliance.

Leave of absence requests and Sick Leave review forms will be reviewed to determine how many hours of Sick Leave were hours that are to be considered exempt. Sick Leave hours are exempt from inclusion in the authorized limits for:

- a) A long-term illness or injury of 40 or more consecutive working hours. Members will be required to submit a physician's statement verifying the illness or injury. A member whose absence would otherwise be exempt under this section, who returns to work for up to four hours during their absence, will not lose the exemption (e.g., the member is absent from work for 36 hours of a 40-hour work period);
- b) Pre-approved, scheduled medical or dental appointments of less than four hours. Multiple appointments on the same day, such as those for lab tests and x-rays that take longer than four hours, will be considered exempt. For appointments of more than four hours, members will be required to submit a statement from the medical offices verifying the appointment(s). This does not preclude the Department from requiring verification notes for all medical/dental appointments as provided in FMC §3-107(f);
- c) Sick Leave used for Worker's Compensation absences;
- d) Special leave taken for death in the immediate family, hospitalization of a member of the immediate family, or care of a member of the immediate family who is critically ill or injured, though not hospitalized, subject to the limitations provided in FMC §3-107;
- e) An ongoing medical condition of a serious nature (e.g., diabetes or chemotherapy). Members will be required to submit a letter from the physician indicating the estimated length and frequency of absences;
- f) Surgery and/or hospitalization. Members will be required to submit a physician's statement; and
- g) Up to half of the total accumulated Sick Leave per fiscal year (including leave taken as sick and FMLA/CFRA) in accordance with State of California Labor Code, Chapter 164, Section 233.
- h) FMLA/CFRA leave, leave as an accommodation pursuant to the American with Disabilities Act and of the Fair Employment and Housing Act, and the leaves of absence protected by City, State or federal law.

1014.11 SICK LEAVE USAGE REVIEW

As part of this process the Department has instituted several levels of review for members who may be in violation of this policy. The steps and course of action are as follows:

- a) **Initial Review** - Members whose adjusted Sick Leave hours exceed the limit for the first time will be counseled and advised to reduce Sick Leave usage. Supervisory staff are not required to hold a counseling session or impose the physician's statement requirement in situations where the Sick Leave hours used, after the exempt hours are subtracted, do not exceed the authorized limits. Records of counseling will be maintained by the division commander, or designee, and will not be placed in member personnel files.
- b) **Three Month Follow-up Review** - Members who are counseled as part of an initial review will have their Sick Leave usage reviewed three months after being counseled to determine if their non-exempt Sick Leave usage has exceeded the limit of 16 hours (20 hours for 4/10 members). When the usage is at or below the limit, no further action is required. When it is above the limit, the division commander, or designee, will prepare a Letter of Understanding informing the member of a physician's statement requirement. The member will be required to provide written verification from the physician for every Sick Leave absence during a period of three months.
- c) **Failure to Submit a Physician's Excuse** - Should the member fail to submit a signed physician's excuse for any absence during this three-month period that absence will be treated as leave without pay. Supervisors should take action to ensure that members are placed on leave without pay for any unverified absences. When the supervisor fails to take such action, the leave will be deducted from the member's Sick or Vacation balance.
- d) **Cancellation of Physician's Excuse Requirement** - Should the member's Sick Leave usage fall below the 16-hour limit (20 hours for 4/10 members) at the conclusion of the three-month follow-up review period, the requirement for physician's verification will cease. This does not preclude the member's supervisor from requiring a physician's verification when individual circumstances warrant it. Should the member's Sick Leave usage remain above the limit, the physician's verification requirement shall be extended in three-month increments.
- e) **Two Year Compliance** - When a member's usage remains within the authorize limit for a 24-month period following removal from the physician's verification requirement or initial counseling session, the first step for any future action will be counseling, as provided in the initial review.
- f) **Non-Compliance** - When a member's Sick Leave usage continues to exceed the standard set by regulation, progressive corrective action may be taken. Before progressive corrective action is taken, a member's Sick Leave usage over their City career will be considered in determining the appropriateness of discipline.

Should the Sick Leave trend continue, the member may be subject to disciplinary measures, up to and including termination, and may be subject to a mandatory physical examination to determine the member's fitness for duty, as permitted in FMC §3-288.

1016.1 POLICY

In actual or suspected exposure incidents, proper documentation and follow-up action must occur to care for member(s), limit potential liabilities, and ensure that the best protection is available.

1016.1.1 PURPOSE AND SCOPE

It is the purpose of this policy to assist members in minimizing the risk of contracting and/or spreading communicable diseases and to minimize the incidence of illness and injury by:

- a) Reducing exposures to bloodborne pathogens and other potentially infectious body fluids;
- b) Assisting members in making decisions concerning the selection, use, maintenance, limitations, storage, and disposal of personal protective equipment;
- c) Protecting the privacy rights of all members who may be exposed to or contract a communicable disease during the course of their duties; and
- d) Providing appropriate treatment and counseling should a member be exposed to a communicable disease.

1016.2 UNIVERSAL PRECAUTIONS

All human blood and body fluids such as saliva, urine, semen, and vaginal secretions are to be treated as if they are known to be infectious.

Where it is not possible to distinguish between body fluid types, all body fluids are to be assumed potentially infectious. Caution should be taken when collecting evidence.

Some infectious diseases are viable up to two weeks, and can be transmitted from dried blood or other body fluids found on clothing, tools, etc.

1016.3 EXPOSURE TO BLOOD, BODILY FLUIDS OR AEROSOL TRANSMISSIBLE DISEASES

All Department personnel who are exposed to another person's blood, bodily fluids, or a reportable aerosol transmissible disease (Tuberculosis or Ebola) shall follow these procedures and guidelines.

Exposure to blood or other potentially infectious material includes, but is not limited to, the contact of such substances with the eye, mouth, other mucous membranes, non-intact skin, needle sticks, human bites, cuts or abrasions or any exposure that otherwise qualifies under Health and Safety Code § 121060.1 or 8 California Code of Regulations §5193.

Exposure to aerosol transmissible disease is any event in which all of the above have occurred (8 CCR §5199):

- a) An employee has been exposed to an individual who has a case or a suspected case of a reportable aerosol transmissible disease, or to a work area or to equipment that is reportedly expected to contain aerosol transmissible pathogens associated with a reportable aerosol transmissible disease;
- b) The exposure occurred without the benefit of applicable exposure controls required by this policy; and
- c) It reasonably appears from the circumstances of the exposure that transmission of disease is sufficiently likely to require medical attention.

1016.4 DESIGNATED INFECTIOUS CONTROL OFFICER (DICO)

The Chief of Police will assign a person(s) as the Department's Designated Infectious Control Officer(s). The DICO shall be responsible for the following:

- a) The overall management of the bloodborne pathogen Exposure Control Plan (ECP);
- b) Implementing updates to written procedures and a training program related to aerosol transmissible diseases, as required by 8 CCR §5199;
- c) Working with management to develop and administer any additional related policies and practices necessary to support the effective implementation of this plan;
- d) Remaining current on all legal requirements concerning bloodborne pathogens and other communicable diseases, as required by 8 CCR §5193; and
- e) Reviewing and updating the ECP annually.

Department supervisors are responsible for the exposure control in their respective areas. They shall work directly with the DICO and any affected employees to ensure that the proper exposure control procedures are followed.

1016.5 PERSONAL PROTECTIVE EQUIPMENT

Personal protective equipment is the last line of defense against communicable disease. Therefore, the following equipment is provided for all personnel to assist in the protection against such exposure:

- a) Disposable latex gloves;
- b) Isolation mask with eye shield;
- c) Rescue mask with one-way valve; and
- d) Alcohol based gel and/or alcohol wipes.

The protective equipment is to be kept in each police vehicle; inspected at the start of each shift and replaced immediately upon returning to the station if used or damaged during the shift, or as otherwise needed.

1016.6 WORK PRACTICES

Members shall use the appropriate barrier precautions to prevent skin and mucous membrane exposure when contact with blood or body fluid is anticipated.

Disposable gloves shall be worn on all medical emergency responses.

- a) Disposable gloves shall be worn before making physical contact with any patient and/or when handling items (e.g., evidence, transportation vehicle) soiled with blood or other body fluids.
- b) When disposable gloves become contaminated with blood or other body fluids, the gloves shall be disposed of as contaminated waste.
- c) Care should be taken to avoid touching other items (e.g., pens, books, and personal items in general) while wearing the disposable gloves in a potentially contaminated environment.

All procedures involving blood or other potentially infectious materials shall be done in a way to minimize splashing, spraying, or otherwise generating droplets of those materials.

1016.7 IMMUNIZATIONS

All department personnel who, in the line of duty, may be exposed to or have contact with a communicable disease shall be offered appropriate treatment immunization.

1016.8 TRAINING

In accordance with 8 CCR §5193 and §5199, all department personnel who, in the line of duty, may be exposed to or have contact with a communicable disease shall receive annual training.

1016.9 DISPOSABLE PROTECTIVE EQUIPMENT

Contaminated disposable supplies (gloves, dressings, CPR mask) shall be transported with the patient or suspect in the ambulance or police vehicle. The waste material shall then be disposed of in a biohazard waste container at the hospital.

1016.10 DECONTAMINATION OF SKIN AND MUCOUS MEMBRANES

Members shall wash their hands immediately (on-scene if possible), or as soon as possible following the removal of potentially contaminated gloves. Antibacterial soap and warm water or an approved disinfectant shall be used to wash one's hands, paying particular attention to the fingernails.

In the event decontamination of the whole body is deemed necessary, members should seek attention either from a local hospital, fire department or ambulance services. Medical treatment should be obtained as soon as possible.

Contaminated non-intact skin (e.g., injured skin, open wound, acne) shall be cleaned using an approved disinfectant and then dressed or bandaged as required. Medical treatment is required.

1016.11 DECONTAMINATION OF CLOTHING AND EQUIPMENT

Member's clothing that becomes contaminated with blood or other body fluids shall be removed as soon as possible and put in a disposable bag.

Normal washing, using regular detergents in a washing machine, will decontaminate clothing. It is recommended that laundering be done at a commercial laundry to ensure adequate precautions. When washed at home, two washes are recommended; the first in cold water to remove soilage, and the second in hot water to sanitize. Bleach is recommended when fabric permits.

As an added precaution, contaminated clothing should be washed separately from other items. Normal dry cleaning will decontaminate uniform items that must be dry-cleaned. Wet clothing should be sun dried prior to dry cleaning.

Equipment items that are contaminated with blood or other body fluids are to be thoroughly cleaned after exposure. A solution of one-part household bleach to ten parts water is sufficient to decontaminate equipment items.

1016.12 USE OF WASTE CONTAINERS

Members shall dispose of biohazard with the on-scene fire response vehicle, or at the attending clinic/hospital with their approval.

1016.13 DECONTAMINATION OF VEHICLES

Contaminated vehicles and components such as the seats, radios, and doors shall be "tagged" (details should be written on the tag) for decontamination.

1016.14 MEMBER RESPONSIBILITY TO REPORT EXPOSURE (SEE ALSO POLICY §1008 HIV)

In order to provide appropriate and timely treatment should exposure occur, members shall verbally report the exposure to their immediate supervisor.

1016.15 SUPERVISOR REPORTING REQUIREMENTS

The supervisor on duty shall investigate every exposure that occurs as soon as possible following the incident and take the following steps:

- a) Print out the 3 Exposure Forms located on the 'L' Drive, 'Library', 'Forms', "DICO", "Exposure Forms".
 - 1) Exposure Interview Report Form FPD-BBP01 (2 pages);
 - 2) Request for Notification: Communicable Disease Form FPD-BBP02; and
 - 3) Confidential Disease Exposure Report Form FPD-BBP03.
- b) Call the Duty Office to find out which Designated Infectious Control Officer (DICO Officer) is on duty.
- c) Contact the DICO officer on duty and relate the information.
- d) If the DICO officer advises that an exposure did NOT occur, no additional forms are needed.
- e) If the DICO officer advises that an exposure has occurred, you will be directed to have the exposed employee respond to Kaiser Hospital and the source patient respond to CRMC for testing.

- f) If the DICO officer is unavailable to respond, the supervisor shall complete the forms titled Exposure Interview Report Form FPD-BBP01 (2 pages), Request for Notification: Communicable Disease FPD-BBP02, and Confidential Disease Exposure Form FPD-BBP03 at Kaiser Hospital for exposed employee.
- g) Provide a copy of the completed forms to the ER nurse/doctor at Kaiser Hospital.
- h) Send the original completed forms to Personnel – Work Compensation Coordinator.
- i) Ensure the source patient is sent to CRMC for a blood draw and medical staff will attempt to obtain consent from the source patient.

Supervisors shall also complete the following forms and forward to Personnel-Work Compensation Coordinator:

For incidents of suspected exposure but the field supervisor or DICO officer determined an exposure did not occur:

- a) Exposure Interview Report Form FPD-BBP01

For incidents of confirmed exposure:

- a) Exposure Interview Report – Form FPD-BBP01
- b) Request for Notification: Communicable Disease Form FPD-BBP02
- c) Confidential Disease Exposure Report – Form FPD-BBP03
- d) SRI (Supervisor's Report of Injury)

For incident of potential HIV exposure, a Report of Potential HIV Exposure to Law Enforcement Employees form (CDPH 8749) must be completed.

1016.16 COUNSELING

The Department shall provide the exposed employee (and their family if necessary) the opportunity for counseling and consultation.

1016.17 CONFIDENTIALITY OF REPORTS

Most of the information involved in this process must remain confidential. Supervisors shall not include any information that could identify the exposed member in an Administrative Review Memo end of watch report, etc. If necessary, a confidential unusual report may be completed. The DICO shall ensure that all records and reports are kept in the strictest confidence.

The Employee Assistance Program Officer shall be responsible for maintaining the records containing the employee's treatment status and the results examinations, medical testing, and follow-up procedures.

1018.1 POLICY

Use of tobacco products are not permitted within any Department owned or occupied facility. Tobacco products shall not be used while in any Department vehicle.

1018.1.1 PURPOSE AND SCOPE

The Surgeon General has determined that tobacco smoke can be hazardous to the health of others. Tobacco products may also be offensive to some Department members and members of the public.

No person shall smoke tobacco products within 20 feet of a main entrance, exit, or operable window of any public building (including Department facility) (Government Code §7596 et seq.).

Members in uniform are prohibited from using any tobacco products while in public view.

The Department will accept and address all complaints of misconduct in accordance with this policy and applicable federal, state, and local law, municipal and county rules, and the requirements of any collective bargaining agreements.

It is also the policy of this Department to ensure that the community can report misconduct without concern for reprisal or retaliation. The Department encourages the public to come forward with any relevant facts pertaining to complaints or violations of policies against its members.

1020.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the reporting, investigation, and disposition of complaints regarding the conduct of members of the Department.

1020.2 DEFINITIONS

Accused - Accused means the member or members against whom a complaint is filed. The accused may include the Department or any subdivision thereof.

Blue Team - Blue Team is the web interface that allows data to be entered into the IA Pro database related to inquiries, complaints, and supervisor reports on pursuits, vehicle accidents, and reportable use-of-force incidents. All recordkeeping is accomplished via the IA Pro database.

Complaint – Any allegation of misconduct or improper job performance against any Department member that, if true, would constitute a violation of Department policy, Federal, state, or local law.

External Complaint – A complaint against a member generated by a “member of the public” (Government Code §6252 (b)).

Formal Complaint – A complaint involving either a serious or general violation, which may lead to disciplinary measures, if sustained. Formal complaints should be documented in an ROC memo. Such complaints may be investigated by a Department supervisor or referred to Internal Affairs (IA), depending upon the seriousness and complexity of the investigation.

Informal Complaint – A matter which can be handled at a supervisor level within a district/division and is not reasonably likely to result in disciplinary measures. Generally, complaints handled via this process include minor allegations or general violations. A finding of sustained, not sustained, unfounded or exonerated is required. Informal complaints should be documented in a Complaint Attachment Form (CAF) and forwarded through the involved member’s chain of command via Blue Team.

Inquiry - An inquiry involves a question about the policy or procedures of the Department. Inquiries may be documented via an Inquiry Attachment Form (IAF) and Blue Team entry.

Inquiry/Complaint Log - The Inquiry/Complaint Log is maintained electronically within the IA Pro database and contains records of inquiries and complaints.

Internal Complaint - A complaint against a member generated by any member, agent, officer, or employee of the City of Fresno or any other member, agent, officer, or employee of a federal, state, or local agency acting within the scope of their membership, agency, office, or employment (GC §6252 (b)).

A major allegation is any serious act of misconduct including, but not limited to, lack of integrity, excessive force, insubordination, abuse of authority, discrimination, harassment, or criminal conduct. Major allegations should be handled formally and documented as a Receipt of Complaint.

An inquiry involves a question about the policy or procedures of the Department. This type of communication usually stems from a lack of or faulty understanding of the circumstances of a member's conduct or of the policies, rules, and procedures of the Department. An inquiry may be resolved by the member in question or by their immediate supervisor, whereas a complaint may require a more extensive internal administrative investigation. A resolved inquiry may be documented on an IAF.

Inquiries about member conduct which, even if true, would not qualify as a personnel complaint may be handled informally by a Department supervisor and shall not be considered complaints.

An unresolved inquiry arises when the actions in question are within Department policy and procedure, or are disputed and cannot be determined, and the complainant is not satisfied with the supervisor's explanation. An unresolved inquiry shall be documented in an IAF and forwarded through the chain of command to Internal Affairs. Resolved inquiries may also be documented in an IAF and forwarded to Internal Affairs.

At a minimum, an ROC memo includes the allegations and a synopsis of the complainant's statement, or a summary of the allegations when the complaint is internally generated.

Receiving Member - A receiving member is any member who receives an inquiry or complaint from the public.

Resolved Inquiry - When the circumstances generating an inquiry appear to be within Department policy and an explanation produces understanding and/or satisfaction on the part of the complainant, it shall be deemed a Resolved Inquiry.

Unresolved Inquiry - When the circumstances surrounding an inquiry are within Department policy and procedure or are disputed and cannot be determined through further investigation, and the complainant is not satisfied with the supervisor's explanation, the incident shall be classified as an Unresolved Inquiry.

1020.5.2 SOURCE OF COMPLAINTS

- (a) A Department member made aware of alleged misconduct shall immediately notify a supervisor.
- (b) A supervisor receiving a complaint from any source alleging misconduct of a member which, if true, could result in disciplinary action.
- (c) Anonymous complaints and third-party complaints should be accepted and investigated to the extent that sufficient information is provided.

Supervisors assigned to handle an inquiry/complaint shall ensure that the complainant is re-contacted within two working days of the supervisor receiving the inquiry/complaint. The supervisor is responsible for updating the complainant on the outcome of their investigation and documenting their notification in the IAF/CAF. When an internal affairs investigation is completed, or a final disposition is reached on an informal complaint, Internal Affairs will notify the complainant of the disposition in writing.

1020.5.3 ACCEPTANCE OF COMPLAINTS

A complaint may be filed in person, in writing, by telephoning the Department, or at the City of Fresno website at www.fresno.gov/police/services-special-units/internal-affairs/internal-affairs-online-complaint-form/. Although not required, every effort should be made to have the complainant appear in person.

1020.5.4 COMPLAINT DOCUMENTATION

When a Personnel Complaint form is completed in person, the complainant should legibly write a detailed narrative of their complaint. If circumstances indicate that this is not feasible, the complaint may be dictated to the receiving supervisor. In an effort to ensure accuracy in any complaint, a recorded statement should be obtained from the reporting party; however, a refusal by a party to be recorded shall not alone be grounds to refuse to accept a complaint. Whether handwritten or dictated, the complainant's signature should be obtained at the conclusion of the statement. Upon request, the complainant will be provided with a copy of their own original complaint per PC §832.7.

1020.5.5 COMPLAINT PROCESS AUDITING

The Department will conduct periodic reviews of the complaint process. The audit will ensure the availability, acceptance, and completion of the complaint process is done in a timely, effective, and unbiased manner. The audit will be submitted to the Chief of Police for review.

1020.6 DISPOSITION OF PERSONNEL COMPLAINTS

Each allegation shall be classified with one of the following dispositions:

- a) **Exonerated** – When the investigation clearly established that the actions of the personnel that formed the basis of the complaint are not a violation of law or agency policy.
- b) **Misconduct Not Alleged in Original Complaint** – “Misconduct Not Alleged” is a sustained finding of misconduct not originally alleged in a complaint.
- c) **Not Sustained** – When the investigation failed to disclose sufficient evidence to clearly prove or disprove the allegation in the complaint.
- d) **Sustained** – When the investigation disclosed sufficient evidence to prove the truth of the allegation in the complaint by the preponderance of evidence.
- e) **Unfounded** – When the investigation clearly established that the allegation is not true. Complaints which are determined to be frivolous will fall within the classification of unfounded [PC §832.5(c)].

1020.7 BLUE TEAM – INQUIRY / COMPLAINT PROCESS

Blue Team shall be accessed using the member's individually assigned login. Updates may be made to individual entries regarding the status or disposition of a case. Blue Team entries contain details of inquiries and complaints received by the Department, including a brief description of the type of contact and the disposition of the information received. Each completed Blue Team inquiry/complaint entry requires an IAF/CAF, unless an ROC memo is attached instead.

When any possible violation of policy or procedure is identified during the investigation of a complaint or inquiry, it shall be thoroughly investigated and reported via either the informal or formal complaint process. When handling an inquiry or complaint, the assigned member will consider if video evidence is potentially available and take steps to ensure that the evidence is preserved for inclusion in the investigation. However, it is not necessary to attach body camera video into Blue Team, as it can be accessed via Evidence.com.

Supervisors assigned to handle an inquiry or complaint shall ensure the complainant is re-contacted within two working days of the supervisor receiving the inquiry/complaint. The supervisor is responsible for updating the complainant on the outcome of their investigation and documenting the notification in the appropriate section of the IAF/CAF.

Investigating supervisors shall complete and submit the IAF/CAF within 30 days of the inquiry/complaint date or date assigned.

When completing an IAF/CAF, supervisors shall list the involved member's name(s) on the IAF/CAF and have the member review it, prior to forwarding it to Internal Affairs. A witnessing supervisor may be present to verify an involved member's opportunity to view the IAF/CAF.

When reportable force has been used and an unreasonable force complaint is also made regarding the same incident, separate inquiry and use of force entries must be made in Blue Team.

IA shall track and maintain the final disposition of all complaints and inquiries entered into Blue Team. The record maintained in IA Pro is the only official record.

1020.7.1 DIFFERENCE BETWEEN INQUIRY AND COMPLAINT

All expressions of displeasure with the conduct of the Department or its members shall be carefully examined to determine whether or not the expressed sentiment is an inquiry or a complaint.

An inquiry involves a question about the policy or procedures of the Department. This type of communication usually stems from a lack of or faulty understanding of the circumstances of a member's conduct or of the policies, rules, and procedures of the Department. An inquiry may be resolved by the member in question or by their immediate supervisor, whereas a complaint may require a more extensive investigation. All Inquiries should be documented on an Inquiry Attachment Form, while complaints should be documented on a Complaint Attachment Form.

1020.8 INQUIRIES

1020.8.1 RECEIPT OF INQUIRIES

Any member who receives an inquiry regarding their performance from a person who has a reasonable standing to inquire (i.e., someone impacted by the actions of the member) should attempt to satisfy the inquiry as soon as circumstances permit. When the complainant is satisfied with the member's response, no further action is required. When the complainant is unsatisfied, a supervisor shall be immediately called to the scene to receive and handle the inquiry. When the supervisor who arrives to handle the inquiry is able to bring understanding to the complainant regarding the officer's actions, no further action is necessary.

1020.8.2 RESOLVED / UNRESOLVED INQUIRY DISPOSITION

Although some inquiries may be resolved in the field with no further documentation, other inquiries may require documentation in an IAF (e.g., when a supervisor is assigned to handle an inquiry originally entered into Blue Team by the Duty Office).

When the circumstances established by the investigating supervisor result in a resolved or unresolved inquiry, the investigating supervisor shall forward the completed IAF via Blue Team, noting the disposition. The IAF shall be forwarded through the member's bureau/district commander/manager, to the IA Secretary via Blue Team.

1020.9 COMPLAINTS

All complaints, regardless of the means by which they are conveyed, shall be received by any member of the Department to whom they are transmitted and processed according to the procedures contained in this order. Any member who receives a complaint regarding their performance shall notify their supervisor as soon as possible. The supervisor should respond to the location to contact the complainant and conduct an investigation into their allegations. Supervisors will ensure a Blue Team entry is made, attach an CAF or ROC memo and all supporting documents, then forward the Blue Team entry to their bureau/district commander. When AXON recordings of the involved incident exist, the investigating supervisor shall briefly summarize the video in the CAF.

All supervisory contact with complainants shall be made in person whenever possible. Interviews should be recorded, whether in person or by telephone. AXON cameras may be used for the purpose of recording statements during the investigation of complaints, although digital recordings are also acceptable.

1020.9.1 COMPLAINTS INVOLVING MINOR OR GENERAL ALLEGATIONS

The supervisor receiving or investigating a complaint shall discuss all allegations with the complainant to determine its validity. When it is determined the complaint can be appropriately handled via the informal complaint process, the supervisor will reach a disposition of Unfounded, Exonerated, Not Sustained, or Sustained and a CAF shall be completed. The CAF should contain details regarding the origin of the complaint, the specific allegations involved, and efforts made to investigate the complaint. The CAF shall be forwarded via Blue Team to the accused member's bureau/district commander/manager. Upon approval of the disposition, the CAF shall be forwarded via Blue Team to the IA Secretary, subject to final review by the IA commander. Formal complaints involving a minor or general violation should be documented in an ROC.

1020.9.2 RESOLUTION OF ROC'S INVOLVING MINOR OR GENERAL ALLEGATIONS

When the investigating supervisor documents an ROC regarding a minor violation where there is no probability of reaching a conclusion through further investigation (e.g., cases of a member's word against the complainant with no identifiable witnesses or evidence to support either position), they may recommend that the complaint be closed as "Not Sustained." With the concurrence of the bureau/district commander, such cases may be concluded at the ROC level without further investigation. The complainant shall be notified of the disposition of the complaint by Internal Affairs. If additional evidence or information is provided at a later time, the investigation may be reopened at the discretion of the bureau/district commander/manager. Command Staff has the discretion to bypass the Receipt of Complaint process and proceed directly to an investigation when the Administrative Service Division Commander concurs with the decision.

1020.9.3 COMPLAINTS INVOLVING A MAJOR ALLEGATION

When a complaint of a major allegation is received, the supervisor shall prepare an ROC memo, which shall be forwarded through the chain of command via Blue Team to the division commander, who will decide if the complaint is to be investigated at the division level or forwarded to IA. The Blue Team entry attachments shall include an ROC memorandum summarizing the complaint, copies of all relevant documentation (e.g., reports, call printouts, medical forms, photographs, IAF/CAF, non-AXON video, etc.), and recordings of all interviews.

1020.9.4 FIREARM RELATED INCIDENTS

Unintentional firearm discharges by officers that do not result in injury should be documented in an ROC. Refer to Policy §310 regarding intentional firearm discharges/use of deadly force (OIS).

Incidents where an officer uses their firearm to subdue a vicious animal (Dog OIS), may be documented in an Administrative Review or ROC memorandum.

1020.9.5 COMPLAINT INVOLVING RACIAL OR IDENTITY PROFILING

Complaints related to racial/identity profiling (or bias-based policing) generally require an ROC and are investigated via the formal complaint process. However, when the following conditions apply, such complaints may be handled via the informal complaint process and documented in a CAF:

- a) The entire contact between the complainant and officer(s) is captured via AXON body camera and;
 - 1) A review of the video demonstrates no conduct by the officer(s) that suggests, implies, or indicates bias-based policing; and
 - 2) Reasonable suspicion for the contact is not in question by the complainant or is captured on video, or
- b) The entire contact is not recorded via AXON body camera, but upon a supervisor discussing the matter with the complainant, the complainant chooses to voluntarily rescind their allegations/complaint. Under these circumstances, a recording (audio or AXON) of the complainant rescinding their complaint is required.

1020.9.6 ANONYMOUS COMPLAINTS

Anonymous complaints shall be referred to a supervisor by the receiving member. The supervisor shall create a Blue Team entry and forward it to the accused member's bureau/district commander/manager. When the anonymous complaint contains sufficient information for investigation, the bureau/district commander/manager shall assign it for investigation. If the complaint does not contain sufficient information for follow-up, it shall be documented in a CAF, which shall be forwarded via Blue Team to the IA Secretary.

Under exceptional circumstances, where the nature of the complaint dictates a departure from the provisions of this section, the receiving member shall contact an appropriate supervisor or commander for assistance in the special handling of the complaint.

1020.9.7 WRITTEN COMPLAINTS

Persons desiring to file a complaint, who do not want contact with or cannot wait for a supervisor, shall be provided with a "mail-in" complaint form. A form may be picked up in person at HQ, at designated locations throughout the City, or by calling the IA Office and requesting that a form be sent to the complainant by mail. Upon completion, the forms are to be mailed to the Duty Office. When preferred, complainant may access the Department's website at www.fresno.gov and print the form to mail in or submit by e-mail. The receiving member shall forward the e-mail to the Duty Office.

A written complaint received by any member of the Department shall be forwarded to the Duty Office or the accused member's bureau/district commander/manager. A Blue Team entry shall be made prior to the accused member's bureau/district commander assigning the complaint for investigation.

1020.9.8 DISPOSITION OF COMPLAINTS

When an internal affairs investigation is completed, or a final disposition is reached on an informal complaint, IA will notify the complainant of the disposition in writing.

1020.10 ROLE OF DUTY OFFICE, SUPERVISORS AND COMMANDERS IN RECEIVING INQUIRIES AND COMPLAINTS

All inquiries/complaints brought to the attention of a Duty Officer, by any means (i.e., phone, mail, e-mail, HQ walk-ins, etc.), shall be entered into Blue Team by the Duty Officer and/or the assigned supervisor dependent upon the type of violation.

When the inquiry/complaint is of a minor violation, and the accused member is on duty, the Duty Officer shall notify the member's supervisor. The supervisor shall respond to handle the inquiry/complaint, complete the IAF/CAF, and complete the Blue Team entry. When the accused member is off-duty, or a supervisor from the accused member's bureau/district is unavailable, the Duty Officer shall complete a Blue Team entry and forward it to the accused member's commander.

When the inquiry/complaint is of a major violation, whether the accused member is on or off-duty, the Duty Officer shall notify a supervisor from the accused member's bureau/district of assignment (e.g., unreasonable force, criminal conduct, etc.). The on-duty supervisor shall contact the complainant, handle the inquiry/complaint, and complete a Blue Team entry. An ROC should be completed by the on-duty supervisor. Whenever possible, efforts shall be made to obtain any pertinent evidence that may not be available at a later time, to include photographs of injuries, jail booking or surveillance video, and recordings of critical witness statements.

In all instances where the Duty Officer enters an inquiry/complaint into Blue Team, a Receipt for Personnel Complaint form shall also be completed. The receipt will be sent to the complainant via U.S. mail by Records. When mail-in complaint forms or email complaints are received, the receiving Duty Officer shall scan any original documents and complete a Blue Team entry, electronically attaching the scanned copies and any related emails. The original mail-in form shall be forwarded to IA. The Blue Team entry shall be forwarded to the bureau/district commander/manager of the involved member, who shall assign the inquiry/complaint the appropriate supervisor for investigation.

1020.10.1 INQUIRIES AND COMPLAINTS WITH AXON RECORDINGS

In the course of handling an inquiry or complaint in the field, a supervisor may review an officer's AXON video. In instances where the alleged misconduct did not occur and allowing the complainant to view the video may facilitate resolution of the inquiry or complaint, the supervisor may allow the complainant to view the video. When the inquiry/complaint is resolved, it shall be documented in an IAF/CAF and entered into Blue Team.

When the inquiry or complaint involves use of force and the video shows force being used by a(n) officer(s), an ROC will still be required. If the complainant rescinds their initial complaint after viewing the video, it shall be noted in the ROC. If the video clearly demonstrates no force was used by officers, the complaint may be documented in an IAF/CAF and entered into Blue Team, subject to review by the IA commander. The IA commander will make a determination as to whether or not further investigation is warranted (refer to Policy §450 for additional requirements related to AXON recordings and complaints).

1020.10.2 COORDINATION OF INVESTIGATIONS

When members from different bureaus are involved in the same inquiry, the Blue Team entry shall be sent to the bureau commander/manager of each accused member. The commanders/managers shall ensure that the investigation is coordinated by the assigned supervisor(s).

1020.11 NOTIFICATION TO IA OF ASSIGNED COMPLAINTS

When a division commander determines that a complaint should be formally investigated by IA, it will be forwarded to the Administrative Division Commander for review. Upon concurrence by the Administrative Division Commander, the complaint will be assigned to IA for investigation.

When a supervisor who is not assigned to IA is assigned any internal investigation, they shall contact IA within the next three workdays to provide the following information and obtain an IA case number. ~~Notification of the incident (if known),~~ via e-mail or voicemail.

- a) ~~Notification of the incident (if known),~~
- b) Location of the incident;
- c) Case number or event number of the incident;
- d) First and last name of the accused member(s);
- e) Nature of complaint including a brief summary; and
- f) Whether the complaint was generated internally or by a citizen.

g) When complaint is citizen generated, provide name, race, age, and sex of citizen.

When an administrative investigation is handled by a supervisor outside of the Internal Affairs Bureau (IAB), it shall be forwarded to IAB upon completion. IAB is responsible for initiating and tracking the review process.

See Policy §340 for staffing and forwarding of administrative investigations.

1020.11.1 INTERNAL AFFAIRS INVESTIGATION COMPLETION DEADLINES

Supervisors conducting IA investigations shall make reasonable efforts to complete assigned IA's in a timely manner. The target goal for IA investigations is completion within 30 days of assignment, not to exceed 60 days without an extension. Requests for extensions shall be made in writing to the investigating supervisor's bureau/district commander. The IA secretary shall be notified of the extension and its length. (Policy § 340.3). Extensions may be granted for investigations of a complex or difficult nature. Generally, those IA Investigations assigned to the Internal Affairs Bureau are complex and of a difficult nature. The target goal for IA investigations assigned to the Internal Affairs Bureau is completion within 90 days of assignment, however completion times will be subject to the discretion of the Internal Affairs Bureau Commander.

Fresno Police Department Policy Manual
Seat Belt Use

1022.1 POLICY

All members shall wear available safety restraints whenever operating a Department vehicle as outlined in this policy.

1022.1.1 PURPOSE AND SCOPE

Vehicle Code §27315.5 requires law enforcement agencies to adopt a policy concerning the use of seat belts. Additionally, the use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic collision.

1022.2 WEARING OF SAFETY RESTRAINTS

Under unusual circumstances or if a potentially dangerous situation is either perceived or anticipated, safety restraints may be removed to allow for a more rapid response to the situation.

All nonmembers occupying the front seat of a police vehicle shall be required to wear available safety restraints.

All persons occupying the rear seat of a police unit, to include prisoners, shall wear available safety restraints unless physical conditions would prevent such from being applied.

This section shall not apply to prisoner transportation wagons or vans pursuant to VC §27315(g).

1022.3 CHILD PASSENGER RESTRAINT SYSTEM

Members transporting children under 8 years of age or less than 4'9" tall should make every effort to utilize an appropriate child passenger restraint system meeting current federal motor vehicle safety standards, and should attempt to obtain these restraints through all available means (e.g., on-duty volunteers, family members of the child, or CPS). Where an appropriate child passenger restraint system is unavailable or impractical based on patrol vehicle design, and the circumstances warrant the immediate transportation of a child under 8 years or less than 4'9" tall, the member may, with supervisor approval, transport the child without the use of that system, but the child shall be secured by available means and transported in an authorized emergency vehicle only.

1024.1 POLICY

The Department provides soft body armor for specified members in an effort to improve safety.

1024.1.1 PURPOSE AND SCOPE

Practical safety measures should be used to reduce the risks and hazards associated with police work.

1024.2 DEFINITIONS

Enforcement Activities – Duty assignments and/or tasks that place or could reasonably be expected to place officers in situations where they are at risk of being involved in violent encounters.

Extreme Climate Related Conditions – Any time the local outside ambient temperature exceeds 95 degrees Fahrenheit, as listed on the National Weather Service Forecast at <http://www.weather.gov>.

1024.3 BODY ARMOR

Soft body armor vests are issued to all sworn personnel because they have been shown to be effective in reducing deaths and life threatening injuries. Personnel are only authorized to wear Department issued or Department approved body armor.

1024.4 USE OF BODY ARMOR

All officers assigned to a uniformed position are required to wear body armor while engaged in enforcement activities as defined above. Officers may be exempt from mandatory use when:

- (a) The officer provides written documentation from their physician indicating that the officer has a medical condition that precludes wearing body armor;
- (b) The Department determines that circumstances make it inappropriate to mandate wearing body armor based on job assignment; or
- (c) Extreme climate related conditions exist, as defined above.

All probationary officers are required to wear their issued ballistic vest while in uniform. Officers engaged in enforcement activities that are exempt from wearing their body armor shall have it readily available. Damaged vests should be replaced by the Equipment & Supply Unit as soon as possible.

Body armor use is mandatory for all sworn personnel involved in a pre-planned event where time and practicality allow officers to put on body armor in anticipation of encountering armed or dangerous suspects, serving any search warrant, or circumstances involving a felony suspect (i.e., arrest, field interview, SWAT operations, stake-outs, etc.). (See Policy §323)

Supervisors shall be responsible for ensuring that body armor is worn as required through routine observation.

Note: PC §1054.1 establishes a criminal defendant's right to access potentially exculpatory evidence.

The Prosecution - Refers to the District Attorney and all investigative agencies involved in the criminal prosecution of a defendant, including this Department.

1026.2.1 PERSONNEL FILES DEFINED

Pursuant to PC §832.8, member personnel records shall include any file maintained under an individual member's name relating to:

The personnel files described in this order are authorized by the Chief of Police. No other personnel files may be maintained with respect to any member without the knowledge of the member and the permission of the Chief of Police. This order does not, however, prohibit supervisors from keeping notes, attendance logs or similar documents, when these documents are to be used for periodic performance evaluations or will eventually be entered into an authorized file.

Nothing in this section is intended to preclude review of personnel files by the City Attorney, other attorneys employed by and/or retained by the City, or representatives of the City in connection with official business. See Policy §1026.7 for member personnel files subject to release pursuant to a proper request under the California Public Records Act.

Information possessed by the Department regarding members is strictly confidential. This includes all personnel files, telephone and address information, and other personal information. 1026.5.1 REQUESTS FOR DISCLOSURE

Any request for a personnel record under Evidence Code (EC) sections 1043 et seq. (i.e., Pitchess motion process) shall promptly be forwarded to the City Attorney's Office (CAO). Upon receipt of any

such request, the affected member shall be notified as soon as practical that such a request has been made. The CAO shall further ensure that an appropriate response is made in a timely manner, consistent with applicable law. All requests for disclosure that result in access to a member's personnel records shall be logged in the corresponding file. Should the CAO or any other Department or representative of the City of Fresno receive a request for member personnel records, they will notify the Internal Affairs Bureau (IAB) Commander.

1026.5.2 RELEASE OF CONFIDENTIAL INFORMATION

Except as provided by this policy or pursuant to lawful process, no information contained in any confidential member personnel file shall be disclosed to any unauthorized person(s) without the expressed prior consent of the involved member or written authorization of the Chief of Police or their designee.

Any person who maliciously, and with the intent to obstruct justice or the due administration of the laws, publishes, disseminates, or otherwise discloses the residence address or telephone number of any member of this Department may be guilty of a misdemeanor (PC §146(e)).

Pursuant to PC §832.7(f)(1), the disposition of any member of the public's complaint shall be released to the complaining party within 30 days of the final disposition. This release shall be limited to the disposition and shall not include what discipline, if any was imposed.

The Department may also release any factual information concerning a disciplinary investigation if the member who is the subject of the investigation (or the member's representative) publicly makes a statement which is published in the media and which the member (or representative) knew to be false. The disclosure of such information, if any, shall be limited to facts that refute any such false statement (PC §832.7(e)).

1026.6 BRADY MATERIAL IN PERSONNEL FILES

The purpose of this section is to establish a procedure for releasing potentially exculpatory information (so-called Brady material) contained within confidential peace officer personnel files.

1026.6.1 RELEASE OF PERSONNEL FILES TO DISTRICT ATTORNEY

Pursuant to PC §832.7(a), the only time the District Attorney (Attorney General or Grand Jury) is entitled to access confidential peace officer personnel files without filing a Pitchess motion is when they are investigating the conduct of an officer or this Department. Such access shall not be considered a waiver of the confidentiality of the information contained in these files. The Pitchess motion process does not apply to federal law.

Absent a specific investigation of identified officer(s) or a specific investigation of this Department (or the consent of an involved officer), no confidential information from any officer's personnel file shall be released to the District Attorney or Grand Jury without full compliance with the *Pitchess motion* process. The prosecution of a criminal defendant is not considered an investigation of any involved officer.

Should an officer's credibility or other issues related to an officer's personnel file arise in the context of an officer acting as a witness for the prosecution, access to that officer's personnel file by either the District Attorney or the criminal defendant shall be limited to that which is authorized by the process set forth in EC §1043, et seq.

1026.6.2 PROCEDURE

If an officer is a material witness in a criminal case, a person or persons designated by the Chief of Police may examine the subject officer's personnel file to determine whether there are Brady materials contained therein (e.g., evidence which is both favorable and material to the guilt and/or punishment of the defendant). If Brady material is located, the following procedure shall apply:

- (a) In the event that a Pitchess motion has not already been filed by the criminal defendant or other party, the District Attorney shall be notified of the potential presence of Brady material in the officer's personnel file;

- (b) The District Attorney should be instructed to file a Pitchess motion in order to initiate an in-camera review by the court;
- (c) As with any Pitchess motion, and prior to any review of the files by the court, subject officer(s) shall be notified in writing that a Pitchess motion has been filed;
- (d) The responsible Custodian of Records shall accompany all relevant personnel files during any in camera inspection and address any issues or questions raised by the court in determining whether or not any material contained in the file is both material and favorable to the criminal defendant; and
- (e) If the court determines that there is relevant Brady material contained in the file(s), only that material ordered released will be copied and released to the parties filing the Pitchess motion.
 - 1) Prior to the release of any materials pursuant to this process, the Custodian of Records should request a protective order from the Court limiting the use of such materials to the involved case and requiring the return of all copies upon completion of the case.

1026.7 RELEASE OF PERSONNEL RECORDS AND RECORDS RELATED TO CERTAIN INCIDENTS, COMPLAINTS, AND INVESTIGATIONS OF OFFICERS

Personnel records and records related to certain incidents, complaints, and investigations of officers shall be released pursuant to a proper request under the Public Records Act and subject to redaction and delayed release as provided by law.

The IAB Commander and CAO shall determine what records may qualify for disclosure when a request for records is received and if the requested record is subject to redaction or delay from disclosure. The IAB Commander shall notify the affected member as soon as practical that such a request has been made.

Unless a record or information is confidential or qualifies for delayed disclosure as provided by PC §832.7(b)(7) or other law, the following records shall be made available for public inspection upon request (PC §832.7):

- (a) Records relating to the report, investigation, or findings of:
 - 1) The discharge of a firearm at another person by an officer.

 - I. Should a request concern an incident for which there is no current or anticipated administrative or criminal investigation, the records requested will be provided by the Records Manager. The records will be forwarded to the CAO for review and redaction if necessary, and then to the IAB Commander who will be responsible for final review. If a member is identified as a focus of the request, or a substantial actor in the incident as determined by the IA Commander, the member will be notified prior to the release of records and given an opportunity to object and/or otherwise respond to the production. The FPOA will be provided a courtesy copy of the notice at such time as the member(s) is notified.
- (b) Records relating to an incident where a sustained finding was made by the Department:
 - 1) An officer engaged in sexual assault of a member of the public (as defined by PC §832.7(b)).
 - 2) Dishonesty of an officer directly relating to the reporting, investigation, or prosecution of a crime, or directly relating to the reporting of, or investigation of misconduct by, another officer, including but not limited to any sustained finding of perjury, false statements, filing false reports, destruction, falsifying, or concealing of evidence.
 - 3) Involving a complaint that alleged unreasonable or excessive force.
 - 4) That an officers failed to intervene against another officer using force that is clearly unreasonable or excessive.
 - 5) That an officer engaged in conduct including, but not limited to, verbal statements, writings, online posts, recordings, and gestures, involving prejudice or discrimination against a person on the basis of race, religious creed color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex,

gender, gender identity, gender expression, age, sexual orientation, or military and veteran status.

6) That an officer made an unlawful arrest or conducted an unlawful search.

For purposes of this section, a record includes:

- (a) All investigation reports;
- (b) Photographic, audio and video evidence;
- (c) Transcripts or recordings of interviews;
- (d) Autopsy reports;
- (e) All materials compiled and presented for review to the District Attorney or to any person or body charged with determining whether to file criminal charges against an officer in connection with an incident, or whether the officer's action was consistent with law and Department policy for purposes of discipline or administrative action, or what discipline to impose or corrective action to take;
- (f) Documents setting forth findings or recommending findings;
- (g) Copies of disciplinary records relating to the incident, including any letters of intent to impose discipline, any documents reflecting modifications of discipline due to the Skelly or grievance process, and letters indicating final imposition of discipline or other documentation reflecting implementation of corrective action (PC §832.7(b)(2);
- (h) To the complaining party, a copy of their own statements at the time the complaint is filed (PC §832.7(c));
- (i) Data regarding the number, type, or disposition of complaints (sustained, not sustained, exonerated, or unfounded) made against officers if that information is in a form which does not identify the individuals involved (PC §832.7(d)); and
- (j) Factual information (facts contained in the personnel file concerning the investigation that specifically refute the false statements) concerning a disciplinary investigation if the officer who is the subject of the disciplinary investigation or the officer's agent, publicly makes a statement they know to be false concerning the investigation by the employer unless the false statement was published by an established medium of communication, such as television, radio, or newspapers (PC §832.7(e)).

Upon receipt of a request for the inspection of records described in PC §832.7(b)(2), the Department (Internal Affairs Commander or designee) shall notify the affected member(s) and the designated FPOA representative of the request within three (3) business days, absent extenuating circumstances. The same members shall be notified five (5) business days prior to the anticipated release of the requested material and shall be provided with an opportunity to review said material at the CAO.

A record from a separate and prior investigation or assessment of a separate incident shall not be released unless it is independently subject to disclosure (PC §832.7(b)(3)).

When an investigation involves multiple officers, the Department shall not release information about allegations of misconduct or the analysis or disposition of an investigation of an officer unless it relates to a sustained finding of a qualified allegation as provided by PC §832.7(b)(4) against the officer. However, factual information about the action of the officer during an incident or the statements of an officer shall be released if the statements are relevant to a sustained finding of the qualified allegation against another officer that is subject to release (PC §832.7(b)(4)).

1026.7.1 REDACTION

The IAB Commander and CAO, in consultation with the Chief of Police or authorized designee, shall redact the following portions of records made available for release (PC §832.7(b)(5)):

- (a) Personal data or information (e.g., home address, telephone number, identities of family members, driver's license numbers, social security numbers, date of birth, and other identifying information that may be present in the investigative file) other than the names and work-related information of officers;
- (b) Information that would compromise the anonymity of complainants and witnesses, including non-sworn employees, however, the name of any criminal suspects will not be redacted unless

necessary to preserve their confidentiality as a confidential informant if they are acting in such a capacity;

- (c) Confidential medical, financial, or other information where disclosure is prohibited by federal law or would cause an unwarranted invasion of personal privacy that clearly outweighs the strong public interest in records about misconduct and serious use of force (e.g. Social Security number, HIPPA, CLETS reports);
- (d) Where there is a specific, articulable, and particularized reason to believe that disclosure of the record would pose a significant danger to the physical safety of the officer or another person;
- (e) Information will be redacted to prevent an unwarranted invasion of personal privacy that clearly outweighs the public interest as determined by the CAO;
- (f) Attorney-client privileged communication and/or attorney work product;
- (g) Documents maintained in the IA file that are not part of the IA or the disciplinary decision, such as internal memos or e-mails and internal logs;
- (h) Skelly meeting recordings and notes made by the Skelly Officer will be withheld, with only the letter of intent and final disciplinary documents being produced if discipline was actually imposed; and
- (i) The letter of intent/notice of proposed disciplinary documents will only be produced if the officer was served with the final order of suspension/demotion/removal.

Additionally, a record may be redacted, including redacting personal identifying information, where, on the facts of the particular case, the public interest served by not disclosing the information clearly outweighs the public interest served by disclosing it (PC §832.7(b)(6)).

1026.7.2 DELAY OF RELEASE

Unless otherwise directed by the Chief of Police, the IAB Commander should consult with the unit supervisor of the underlying investigation to determine whether to delay disclosure of records relating to the discharge of a firearm or use of force resulting in death or in great bodily injury due to any of the following conditions (PC §832.7):

- (a) Active criminal investigations;
 - 1) Disclosure may be delayed 60 days from the date the misconduct or use of force occurred or until the District Attorney determines whether to file criminal charges, whichever occurs sooner.
 - 2) After the initial 60 days, delay of disclosure may be continued if the disclosure could reasonably be expected to interfere with a criminal enforcement proceeding against an officer or against someone other than an officer who engaged in misconduct or used the force.
- (b) Filed criminal charges;
 - 1) When charges are filed related to an incident where misconduct or force was used, disclosure may be delayed until a verdict on those charges is returned at trial or, if a plea of guilty or no contest is entered, the time to withdraw the plea has passed.
- (c) Administrative investigations;
 - 1) Disclosure may be delayed until whichever occurs later:
 - I. There is a determination from the investigation whether the misconduct or use of force violated law or Department policy, but no longer than 180 days after the date of the Department's discovery of the misconduct or use of force or allegation of misconduct or use of force.
 - II. Thirty days after the close of any criminal investigation related to the officer's misconduct or use of force.
- (d) Except to the extent temporary withholding is permitted in (a) – (c) above, records subject to disclosure shall be provided at the earliest possible time and no later than 45 days from the date of a request for their disclosure. ((PD 832.7(b)(11))

1026.7.3 NOTICE OF DELAY OF RECORDS

When there is justification for delay of disclosure of records relating to misconduct, the discharge of a firearm or use of force resulting in death or in great bodily injury during an active criminal investigation,

the IAB Commander shall provide written notice of the reason for any delay to a requester as follows (PC §832.7):

- (a) Provide the specific basis for the determination that the interest in delaying disclosure clearly outweighs the public interest in disclosure. The notice shall also include the estimated date for the disclosure of the withheld information.
- (b) When delay is continued beyond the initial 60 days because of criminal enforcement proceedings against anyone, at 180-day intervals provide the specific basis that disclosure could reasonably be expected to interfere with a criminal enforcement proceeding and the estimated date for disclosure.
 - 1) Information withheld shall be disclosed when the specific basis for withholding the information is resolved, the investigation or proceeding is no longer active, or no later than 18 months after the date of the incident, whichever occurs sooner, unless:
 - I. When the criminal proceeding is against someone other than an officer and there are extraordinary circumstances to warrant a continued delay due to the ongoing criminal investigation or proceeding, then the Department must show by clear and convincing evidence that the interest in preventing prejudice to the active and ongoing criminal investigation or proceeding outweighs the public interest for prompt disclosure of records about use of serious force by officers.

In cases where an action to compel disclosure is brought pursuant to Government Code § 6258, the Department may justify delay by filing an application to seal the basis for withholding if disclosure of the written basis itself would impact a privilege or compromise a pending investigation (PC §832.7(b)(7)).

1026.8 MEMBER ACCESS TO OWN FILE(S)

A member may request access to their own personnel file(s) during normal business hours. A member may review any file maintained on them in the presence of whomever is responsible for maintaining the file, subject to the provisions of this section. Review of permanent files (i.e., master personnel and division level) may be conducted at no less than six-month intervals.

1026.9 INFORMATION REMOVAL

A member seeking the removal of any item from their personnel file shall file a written request to the Chief of Police through the chain of command.

The Department shall thereafter remove any such item if appropriate or within 30 days provide the member with a written explanation why the contested item will not be removed (GC §3306.5).

1026.11.2 MISCELLANEOUS FOLDER PROTOCOLS

All documents, except those temporarily maintained in the center section, should be attached with the folder clasps in reverse chronological order (i.e., the most recent document on top).

All documents containing adverse comments must be signed and dated before being inserted. All documents with non-adverse comments should be signed to reflect that they were seen by the member, but signature is not mandatory.

At a minimum, signatures should be contained on the last page of multi-page documents. Neutral entries (e.g., training certificates, attendance logs, etc.) need not be signed or acknowledged before being entered into a file. Members may attach a response to adverse entries consistent with Policy §340.

Entries of other than neutral documents into divisional personnel files shall be made only after the member's commander has had an opportunity to review the document(s).

1026.13 RETENTION PERIODS AND PURGING OF FILES

Formal citizen complaints, final orders of discipline, Inquiry or Complaint forms, pursuit review memos, collision review memos and all related files not the subject of pending litigation or other ongoing legal proceedings shall be purged after five years from the date the file was closed (PC §832.5).

Minor commendations placed in the divisional file should be included in the annual evaluation and returned to the member at the end of the evaluation period. PIE forms which are not part of a more permanent disciplinary or commendatory action should not be retained beyond the conclusion of the evaluation period.

The supervisor shall forward the document through their commander to the Chief of Police, or designee.

When information is received from a citizen that a member has performed in an exemplary manner, the information shall be forwarded to the member's supervisor. 1030.3.2 PEER RECOGNITION PROCESS

Any member may commend another member for an act or performance level that the observing member believes is deserving of special recognition. A Peer Recognition Form may be completed by the issuing member and given to the receiving member. The receiving member may sign the form and give a copy to their supervisor. 1032.1 POLICY

All officers are required to be free from any physical, emotional, or mental condition, which might adversely affect the exercise of peace officer powers.

1032.1.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure that all members of this Department remain fit for duty and able to perform their job functions (Government Code §1031).

1032.1.2 FITNESS FOR DUTY

A member may be scheduled for consultation with a medical service provider upon recommendation of the member's Division Commander and the concurrence of the Administrative Division Commander, when a member's behavior, actions, or performance is such that a reasonable person would have concerns regarding fitness for duty, the member's personal safety, or the safety of others. When a member is referred for a mental health or physical assessment to determine fitness for duty, the medical service provider will submit a report directly to the Chief of Police or a designated representative, and will report only diagnosis and prognosis pertaining to the member's fitness for duty.

1032.2 EMPLOYEE RESPONSIBILITIES

- (a) It shall be the responsibility of each member of this Department to maintain good physical condition sufficient to safely and properly perform the duties of their job function;
- (b) Each member of this Department shall perform their respective duties without physical, emotional, and/or mental constraints;
- (c) During working hours, all members are required to be alert, attentive, and capable of performing their assigned responsibilities;
- (d) Any member who feels unable to perform their duties shall promptly notify a supervisor. In the event that a member believes that another member is unable to perform their duties, such observations and/or belief shall be promptly reported to a supervisor.

1032.3 SUPERVISOR RESPONSIBILITIES

- (a) A supervisor observing a member or receiving a report of a member who is perceived to be unable to perform their duties shall take prompt and appropriate action in an effort to resolve the situation;
- (b) When feasible, the supervisor should attempt to ascertain the reason or source of the problem and in all cases a preliminary evaluation should be made in an effort to determine the level of inability of the member to perform their duties;
- (c) In the event the member appears to be in need of immediate medical or mental health treatment, a District Commander shall be notified all reasonable efforts should be made to provide such care;
- (d) The District and Bureau Commanders will make a joint determination as to whether or not the member should be temporarily relieved from their duties;
- (e) The Chief of Police shall be promptly notified in the event that any member is relieved from duty.

1032.4 NON-WORK RELATED CONDITIONS

Any employee suffering from a non-work related condition which warrants a temporary relief from duty may be required to use sick leave or other paid time off (PTO) in order to obtain medical treatment or other reasonable rest period.

1032.5 WORK RELATED CONDITIONS

Any employee suffering from a work related condition which warrants a temporary relief from duty shall be required to comply with personnel rules and guidelines for processing such claims.

1032.6 LIMITATION ON HOURS WORKED

Absent emergency operations, members are limited to an accrued total of 70 work hours, including mandatory court appearances, within a work week. Of the 70 total work hours, members are not to exceed 16 hours of outside employment. Additionally, members shall have at least one non-work day during each work week.

Except in very limited circumstances, members should have a minimum of 8 hours off between shifts. Supervisors should give consideration to reasonable rest periods and are authorized to deny overtime or temporarily relieve from duty any member who has exceeded the above guidelines.

Limitations on the number of hours worked apply to shift changes, shift trades, rotation, hold-over, training, general overtime and any other work assignments.

1032.7 EMPLOYEE INTERVENTION PROGRAMS

Employee Intervention Programs (EIP's) are designed to provide support in a confidential and trustworthy environment, equipping and enabling our members to effectively address professional and personal challenges, thereby allowing them to better serve the community. By providing a variety of programs and levels of participation, the Department encourages personnel to access the services that best meet their individual needs. All EIP's are staffed by personnel trained in law enforcement critical incidents, stress management, and peer support.

1032.7.1 COMPANION OFFICER PROGRAM

The Companion Officer Program is designed to provide peer support to members, when they have been subjected to a traumatic incident, or when otherwise requested. Companion Officers also provide informal peer support to members dealing with the day-to-day challenges and cumulative stress of the law enforcement profession.

The use of the Companion Officer Program is voluntary. When a request for a companion officer is made, Duty Office personnel shall notify the Companion Officer Program Coordinator and contact a companion officer(s) to respond. Off-duty companion officers should relieve any on-duty companion officers as needed. The assigned companion officer should remain with the involved member as long as needed or requested.

1032.7.2 CHAPLAIN PROGRAM

The Fresno Peace Officers Chaplaincy (FPOC) provides spiritual crisis support to law enforcement personnel and the community. FPOC may also be used for the same purpose and within the same guidelines as the Companion Officer Program.

The FPOC also provides support, counseling, and referral services from their office. Their services are provided to all Department members.

1032.8 STRUCTURED ASSISTANCE FOR VALUED EMPLOYEES (SAVE)

SAVE is a mandatory intervention program for members who are demonstrating observable difficulties dealing with traumatic events, professional challenges, or personal problems, utilizing approved mental health professionals and peer groups. The program relies on supervisors to identify potential problems before they become discipline issues. SAVE will provide alternatives and solutions for individuals through a process which ensures confidentiality.

SAVE is designed to address patterns of behavior and stress incidents before they manifest themselves into discipline. Conduct which may result in discipline shall be investigated consistent with existing policy guidelines. SAVE does not modify, alter, or change these guidelines. SAVE is not a substitute for the disciplinary process. The purpose of SAVE is to:

Provide training for first line personnel, supervisors, and staff, to identify stressful events and behavioral indicators before discipline is warranted; and

- (a) Provide resource options to assist members in dealing with challenges in both their personal life and at work.

1032.8.1 SUPERVISOR RESPONSIBILITIES WITH SAVE

If a supervisor observes a pattern of behavior in a member that suggests there may be a stress related issue, the supervisor shall:

- (a) Advise the member that they will be meeting to discuss possible involvement in the SAVE program. Members will be provided adequate time before the meeting to consult with a Companion Officer or other Department member regarding questions they may have about the SAVE program;
- (b) While the initial SAVE meeting is mandatory, members are not obligated to discuss their personal issues with the supervisor, but may choose to do so;
- (c) Meet individually with the member to discuss the behavior and attempt to determine if counseling intervention may be appropriate;
- (d) If counseling intervention is appropriate, complete the SAVE Form which can be located on the LAN. The form requires the following information:
 - 1) Behavioral observations of supervisor;
 - 2) Information learned that is relevant to the behavior (e.g., any stressors or other challenges that may be present); and
 - 3) Requests for information from existing data sources that may indicate physical manifestations of stress; and
- (e) Only report the absence or presence of factors within the last six months, with a brief summary for each. Data sources may include:
 - 1) Prior SAVE referrals (based on information provided by the member);
 - 2) Sick leave review;
 - 3) Citizen complaints;
 - 4) On-duty accidents;
 - 5) IA investigations; and
 - 6) Performance evaluations, training memos, commendations, and letters of appreciation.
- (f) Once the information is collected and the package completed, the supervisor will forward the package to the ESC and request a log number. The ESC and the selected licensed mental health clinician will, as the SAVE Committee, review the package and determine whether or not intervention is warranted.
- (g) If intervention is warranted, the SAVE Committee will recommend a course of action.

Note: Prior to accessing SAVE, the supervisor must have attended SAVE training.

1032.8.2 SAVE REVIEW COMMITTEE

The SAVE Review Committee will consist of the following:

- (a) The Employee Services Coordinator; and
- (b) A licensed mental health clinician experienced with law enforcement issues.

1032.8.3 SAVE REVIEW COMMITTEE RESPONSIBILITIES

The SAVE Review Committee will determine whether all the information provided meets the threshold set for intervention. The committee may find that:

- (a) No intervention is warranted (supervisor notified); or
- (b) Intervention is warranted and recommend a course of action.

1032.8.3 MANDATORY SAVE MEETING WITH A LICENSED MENTAL HEALTH CLINICIAN

After review of the information, the SAVE Review Committee may recommend the member attend stress management training and/or meet with a licensed mental health clinician for additional assessment. This meeting is mandatory and subject to the following:

- (a) Prior to scheduling a mandatory meeting with a licensed mental health clinician, the Administrative Division Commander must concur with the recommendation;

- (b) The ESC shall personally deliver the SAVE package to the licensed mental health clinician. The ESC will schedule the appointment with the licensed mental health clinician and notify the member of the appointment date and time;
- (c) While this meeting is mandatory, members are not obligated to discuss their personal issues with the licensed mental health clinician. However, members are strongly encouraged to speak with the licensed mental health clinician as the meeting is strictly confidential and the member enjoys privileged communication with the licensed mental health clinician;
 - 1) The licensed mental health clinician will discuss the issues identified, and determine what steps or information the member has taken to address their issues;
 - 2) This information, combined with the findings of the SAVE Committee will form the basis for the licensed mental health clinician's recommendations to the member on options available to them;
 - 3) Such options could include referral to the Department EIP's, or referral to professional counseling;
 - 4) Members are not mandated to participate in the recommended options;
 - 5) The licensed mental health clinician will not provide any report about the content of the meeting, written or verbal, to any Department member or anyone else.
 - 6) The licensed mental health clinician will only notify ESC that the member attended the mandatory meeting.

Note: For the purpose of this order, a licensed mental health clinician will be defined as a psychologist, licensed clinical social worker or a licensed marriage & family therapist. In addition to licensure, a qualified mental health clinician shall have had specific training and/or experience working with law enforcement.

Members shall meet with the responding licensed mental health clinician in an on-duty capacity. When follow-up meetings are required due to a problem not related to City employment, the member shall schedule the visits during off-duty time, or use sick leave, vacation, or leave without pay as appropriate.

1032.8.4 STRESS MANAGEMENT TRAINING

When the SAVE Review Committee finds intervention is warranted, the ESC may schedule training with the Training Bureau. When it is determined stress management training is appropriate, the ESC will;

- (a) Notify the member of the scheduled date and time for the training;
- (b) After the member has attended the training, notify the referring supervisor. Once the training is complete, the package will be disposed of.

Where training is mandated as a result of the SAVE review process, this action will be in the form of an order. Failure to follow this order will subject the member to discipline. This issue is separate from the conduct or events that warranted the SAVE review. The ESC will ensure that the member follows this order, to the best of their ability. The ESC will notify the Administrative Division Commander in the event the member fails to follow the order.

1032.8.5 SAVE RECORDS

The ESC is notified the appointment with the licensed mental health clinician was kept and/or verifies the member attended training. The ESC then closes out the file, and securely discards the entire package for shredding. No permanent record of the SAVE process, other than the numbered tracking log shall be maintained or recorded anywhere.

1032.9 MENTAL HEALTH REVIEW

1032.9.1 MANDATORY REVIEWS

Members involved in one or more Officer Involved Shooting (OIS) or other intentional use of deadly force (e.g. vehicle) are required to meet with a licensed mental health clinician before returning to full duty. These reviews will be scheduled by the Employee Services Coordinator (refer to Policy §310).

1032.9.2 OPTIONAL REVIEWS

Members involved in other critical or traumatic incidents may be required to meet with a licensed mental health clinician before returning to full duty. Situations that may reasonably warrant a meeting with a licensed mental health clinician include, but are not limited, to the following:

- (a) On-duty motor vehicle collisions resulting in serious injury or death to any person;
- (b) Discharge of a firearm at an officer when injury results;
- (c) Incident where a member causes serious injury to another person by means other than a firearm (e.g., baton, take down hold); or
- (d) The member is involved in a physical confrontation in which they are seriously injured; or
- (e) A member is involved in an incident which could be considered disturbing such as child abuse, fatal traffic collisions, life threatening disturbances, in custody deaths, or any other significant traumatic event.

When a staff member determines that an optional review is appropriate, concurrence of the involved member's Bureau and Division Commanders is required.

Critical Incident Stress Debriefings (CISD) may also be considered for the above described circumstances, subject to approval by the Administrative Division Commander. The Employee Services Coordinator (ESC) will be responsible for coordinating CISD's approved by the Administrative Division Commander.

1032.9.3 IMMEDIATE REVIEWS

When an immediate review or response is determined necessary for an on-duty member, the recommending staff member shall seek the concurrence of the involved member's Division Commander. Upon agreement that an immediate review is necessary, the staff member will advise the Duty Office to contact a currently designated licensed mental health clinician. The staff member or a supervisor shall be available to brief the licensed mental health clinician. The Duty Office will advise the ESC of the member's need for an immediate review as soon as practical. The ESC will be responsible for coordinating any follow-up needs.

1032.10 EARLY ALERT SYSTEM (EAS)

The Department recognizes that careful monitoring of employee behavior is a necessary element of effective personnel management. In order to maximize the Department's ability to detect and correct deficiencies before they become significant performance issues, an Early Alert System (EAS) has been developed.

EAS is intended to provide a means of positive, confidential, non-disciplinary intervention, primarily in the form of training and counseling to assist members with performance problems. The fact that an EAS report is generated regarding a member does not necessarily indicate a problem with that member's behavior.

1032.10.1 EAS EVALUATION CRITERIA

The following incidents, events and documents will be included in the EAS review process:

- (a) Internal Affairs Investigations with a finding of Sustained or Not Sustained (final disposition);
- (b) Inquiry/Complaint Forms;
- (c) Vehicle Pursuits that are not within policy (for individual members);
- (d) Vehicle accidents while on duty or involving Department owned/leased vehicles when the member is at fault;
- (e) Reportable uses of force resulting in injury or complaint of pain; and
- (f) Risk management claims not already included in the above.

1032.10.2 INFORMATION PROCESSING AND REPORTING REQUIREMENTS

The Internal Affairs Bureau is responsible for entering the data from the above incidents, events and documents into IA PRO, and for generating reports to be forwarded to the Administrative Division Commander.

Reporting requirements for employee conduct and behavior are contained in Policy §1020-Personnel Complaints, Policy §314-Vehicle Pursuit Policy, Policy §502-Vehicle Accidents, and Policy §300-Use of Force.

1032.10.3 CRITERIA FOR EAS REPORTS

An EAS report will be generated when a member is accused in three IA investigations where the findings are Sustained or Not Sustained, or involved in three use of force incidents resulting in injury or complaint of pain, or involved in a combination of any six incidents involving IA investigation(s), inquiry/complaints, out of policy vehicle pursuits, at fault vehicle accidents, risk claims, and use of force incidents within a rolling six month time period. These criteria can be modified by the Chief of Police or their designee with the concurrence of the Fresno Police Officers' Association (FPOA).

1032.10.4 ADMINISTRATIVE REVIEW

When a member meets the criteria, a confidential EAS report will be prepared by the IA Commander containing a synopsis of the incidents for the rolling six month period. The EAS report will be forwarded to the Administrative Division Commander. The Administrative Division Commander will review the totality of the circumstances (member's assignment, nature of the incidents, mitigating factors, etc.) contained in the EAS report.

If the Administrative Division Commander determines the member's behavior warrants further review, they shall assign a tracking number to the file and remove the member's name and other references which may cause identification of the member to occur. The Administrative Division Commander shall notify the EAS Committee to convene at the earliest opportunity to review the redacted report.

If the Administrative Division Commander determines the member's behavior does not warrant further review, they shall notify the IA Commander. The EAS report shall be given to the member for their retention or destruction. Should the member wish to discuss the EAS report they may contact Administrative Division Commander without going through their chain of command.

1032.10.5 EAS COMMITTEE

The EAS Committee shall be composed of a FPOA representative, a Department staff representative and a third party mutually agreed upon by the Chief of Police and the FPOA. Committee members serve a one year term, but can be reappointed for additional terms. The committee shall meet to discuss the report's contents and the need for intervention. A majority vote is required for intervention to occur. All meetings shall be held on a confidential basis.

1032.10.6 INTERVENTION MEETING

Upon a majority vote of the committee authorizing intervention, the report shall be returned to the Administrative Division Commander. The commander shall arrange for a personal meeting with the member to discuss their behavior and identify positive ways to address that behavior. The member shall be provided a copy of the EAS report prior to the meeting with the commander. Remedial training, referral to the Department's Employee Intervention Programs (EIP), peer support/counseling, and other methods which may be helpful in addressing the member's behavior will be explored. An agreed upon action plan may be prepared by the Administrative Division Commander and the member. If a plan is developed, the plan will only be provided to the member. The Department will not maintain the plan or any written document regarding the EAS review in any file(s). The Administrative Division Commander will not track the member's progress nor will punitive action result from the member's failure to follow the plan.

Once the meeting with the member occurs, the report shall be destroyed. No mention of the EAS review shall be made in a member's performance evaluation.

1032.10.7 ACCESS TO EAS REPORT

Access to the non-redacted EAS report shall be limited to the Chief of Police, IA Commander, IA senior secretary, Administrative Division Commander, Administrative Division Senior Secretary, and the affected member.

1032.10.8 ANNUAL EVALUATION OF THE EAS PROGRAM

Annually, the FPOA and the Administrative Division Commander will conduct a joint evaluation and review of the EAS program. The report will evaluate the overall effectiveness of the EAS program and review compliance with this policy. The report will also evaluate the effectiveness of remedial training, EIP, or any other method which was helpful in addressing a member's behavior.

The review, along with recommendations for improvement, will be submitted to the Chief of Police. To ensure confidentiality, names shall not be contained in the annual evaluation.

1032.10.9 ROLE OF FIRST AND SECOND LEVEL SUPERVISORS

EAS is not a substitute for the first and second level supervisors' duty to counsel, train, and/or discipline their assigned members. A member's acceptance into EAS is not indicative of a failure of the first and second level supervisors' ability to resolve personnel issues. However, it should serve as a reminder of the supervisor's important role when leading and directing Department members.

First and Second level supervisors have a variety of methods which may prevent members from becoming subject to the provisions of EAS. These methods include coaching, training, referral to the Department's EIP, SAVE program, peer support/counseling, corrective action (oral counseling, letter of counseling, oral reprimand, documented oral reprimand), and recommendation for disciplinary action (second level supervisors only).

1032.11 FITNESS FOR DUTY EXAMINATIONS

Whenever circumstances reasonably indicate that an employee is unfit for duty, the Chief of Police may serve that employee with a written order to undergo a physical and/or mental health examination in cooperation with the Personnel Bureau to determine the level of the employee's fitness for duty. The order shall indicate the date, time and place for the examination.

The examining physician or therapist will provide the Department with a report indicating that the employee is either fit for duty or, if not, listing any functional limitations which limit the employee's ability to perform job duties [Civil Code §56.10(c)(8)(A)]. If the employee places their condition at issue in any subsequent or related administrative action/grievance, the examining physician or therapist may be required to disclose any and all information which is relevant to such proceeding [CC §56.10(c)(8)(B)].

In order to facilitate the examination of any employee, the Department will provide all appropriate documents and available information to assist in the evaluation and/or treatment.

- (a) All reports and evaluations submitted by the treating physician or therapist shall be part of the employee's confidential personnel file.
- (b) Any employee ordered to receive a fitness for duty examination shall comply with the terms of the order and cooperate fully with the examining physician or therapist regarding any clinical interview, tests administered or other procedures as directed. Any failure to comply with such an order and any failure to cooperate with the examining physician or therapist may be deemed insubordination and shall be subject to discipline up to and including termination.
- (c) Once an employee has been deemed fit for duty by the examining physician or licensed mental health clinician the employee will be notified to resume their duties.

1032.12 CONFIDENTIALITY OF INFORMATION AND RECORDS

In general, all records resulting from mental health review or treatment shall be designated as confidential and afforded the same protection as other medical records.

When a member voluntarily seeks review under any of the aforementioned programs, all information remains confidential and shall not be reported to anyone, except when the member threatens to commit a crime of personal injury. When a member threatens to commit a crime of personal injury, the licensed mental health clinician will be required to make Tarasoff notifications (Refer to Policy §418 for Tarasoff notification requirements).

At the initial review between the licensed mental health clinician and the member, the licensed mental health clinician will provide the member with a statement, in duplicate, of the rules regarding the confidentiality of the review (s). The licensed mental health clinician and member will each sign the statement and the member will retain the original and the licensed mental health clinician the duplicate. When a member files a claim under Workers' Compensation for stress, emotional, or mental health injury, all records pertaining to the alleged claim and fitness for duty will be provided to the City.

1034.1 POLICY

Members should conform to the policies governing all Department employees that have been established by the City of Fresno and appropriate MOUs, regarding meals and breaks.

1034.1.1 PURPOSE AND SCOPE

Due to the nature of the Department's mission to provide continual law enforcement and related services to the community, the provisions to provide meal periods and breaks to all employees consistent with the laws and MOUs in place, can oftentimes be difficult or impossible. However, when possible, all accommodations will be made to make certain everyone is afforded a reasonable opportunity to exercise the right to a meal period and/or breaks.

1034.2 ON DUTY MEALS

The parameters governing hours of work are outlined in each applicable MOU, including any designated meal breaks. All sworn officers, either in uniform or in plain clothes, may take a meal break under the following conditions:

- (a) Officers must be in service and/or available by radio to respond to any call;
- (b) Generally no more than 30 minutes shall be allowed;
- (c) No more than two uniformed officers at any one time are allowed at the same restaurant; and
- (d) Members leaving their patrol units shall place themselves out "portable" via their MDS or by radio with their location.

The aforementioned provisions do not apply to personnel who are authorized in the MOU to have an uninterrupted meal breaks.

1034.3 BREAKS

Breaks apply to civilian members only and are subject to the following:

- (a) Two 15minute breaks are allowed during a shift (eight-hour or ten-hour);
- (b) One 15minute break for each four or more hours of overtime worked;
- (c) Breaks shall be scheduled by supervisors, consistent with workload, so as to minimize the disruption of service to the public;
- (d) Breaks shall not be taken in conjunction with meal breaks or accumulated for use at a later time;
- (e) Generally, breaks should be taken on the worksite;
- (f) When there is a need to exceed the designated 15minute time limitation, supervisory approval shall be obtained; and
- (g) Department vehicles shall not be utilized during breaks without prior supervisory approval.

1035.1 POLICY

The Department will provide, in compliance with the Fair Labor Standards Act and California Labor Code, reasonable break time and appropriate facilities to accommodate any employee desiring to express breast milk for the employee's nursing infant child, (29 United States Code §207 and Labor Code §1030).

1035.1.1 PURPOSE AND SCOPE

The purpose of this policy is to provide reasonable accommodations to employees desiring to express breast milk for the employee's infant child (LC §§1030).

1035.2 LACTATION BREAK TIME

A reasonable amount of break time should be permitted each time the employee has the need to express breast milk (29 USC §207; LC §1030). In general, lactation breaks that cumulatively total 30 minutes or less during any four-hour work period or major portion of a four-hour work period would be considered reasonable. However, individual circumstances may require more or less time. Such breaks, when feasible, should be taken at the same time as the employees' regularly scheduled rest or meal periods.

While a reasonable effort will be made to provide additional time beyond authorized breaks, any such time exceeding regularly scheduled and paid break time will be unpaid (LC §1030). Employees who exceed regularly scheduled and paid break time shall submit a time-off request via the OTTO system to their supervisor prior to the completion of the employee's shift.

Employees desiring to take a lactation break shall notify Dispatch or a supervisor prior to taking such a break. Such breaks may be reasonably delayed if they would seriously disrupt department operations (LC §1032). Once a lactation break has been approved, the break should not be interrupted except for emergency or exigent circumstances.

1035.3 PRIVATE LOCATION

The Department will make reasonable efforts to accommodate employees with the use of an appropriate room or other location to express milk in private. Such room or place should be in close proximity to the employee's work area and shall be other than a bathroom or toilet stall. The location must be shielded from view and free from intrusion from co-workers and the public (29 USC §207 and LC §1031).

Employees occupying such private areas shall either secure the door or otherwise make it clear to others that the area is occupied with a need for privacy. All other employees should avoid interrupting an employee during an authorized break, except to announce an emergency or other urgent circumstance.

Authorized lactation breaks for employees assigned to the field may be taken at the nearest appropriate private area.

1035.4 STORAGE OF EXPRESSED MILK

Any employee storing expressed milk in any authorized refrigerated area within the Department shall clearly label it as such and shall remove it when the employee ends their shift.

1035.5 REQUESTS FOR LACTATION ACCOMMODATION

Employees have the right to request lactation accommodations. When requesting a lactation accommodation, the employee shall submit their proposed accommodation, including a plan for specific break times, and a proposed plan for employees who are called out into the field.

If a break time or location accommodation cannot be provided, the supervisor shall provide the member with a written response regarding the reasons for the determination (LC §1034).

Employees who believe that their rights have been violated under this policy or have been the subject of discrimination or retaliation for exercising or attempting to exercise their rights under this policy, are encouraged to follow the chain of command in reporting a violation, but may also file a complaint directly with the Labor Commissioner (LC §1033).

1035.6 APPROVED LOCATIONS

Lactation breaks should be taken at the approved location nearest to the employees' work site. Employees assigned to Patrol Division may take their break at home when they reside within their assigned policing district. The following private locations have been approved to accommodate employees needing to express milk during a lactation break:

- (a) Northeast District Station –A designated room located within the Northeast Investigations Office;
- (b) Northwest District Station – A designated room located across from the gym;
- (c) Central District Station –A designated room located within the Central Investigations Office;
- (d) Southwest District Station – A designated room located next to the DST/DPU office;
- (e) Southeast District Station – A designated room located next to the briefing room;

Lactation rooms or other locations should comply with the prescribed feature and access requirements of LC §1031.

1036.1 POLICY

Department members will utilize the Over-Time/Time-Off (OTTO) System to account for absences, additional time, or overtime earned, according to applicable MOU's. Members will utilize the Days-off System to account for regularly scheduled days off.

1036.1.1 PURPOSE AND SCOPE

The purpose of the OTTO and Days-off Systems is to accurately document time earned or time used by Department members and to provide timely processing of this information.

1036.2 RESPONSIBILITY FOR COMPLETION OF OTTO ENTRIES

OTTO entries are submitted to the Fiscal Affairs Bureau for registering the absence, additional time, overtime earned, and any leave of absence for all members.

Days-off System entries are submitted to the Fiscal Affairs Bureau on a biweekly basis for the payment of wages.

Employees are responsible for the accurate and timely submission of all OTTO and Days-off entries. The OTTO entries for pre-planned absences (e.g., annual vacation, FMLA, etc.) shall be submitted prior to the first day of absence. Employees are responsible for monitoring their leave balances to ensure time off is accurately deducted and there is time available prior to requesting time off.

1036.3 TIME REQUIREMENTS

All employees are paid on a bi-weekly basis usually on Friday with certain exceptions such as holidays. Days-off System entries shall be completed and submitted to the Fiscal Affairs Bureau by logging onto <http://daysoff.police.fresno/> no later than 8:00 a.m. on the Monday morning after first day of the pay period, unless otherwise specified. The acceptable method is to enter your days-off information via the intranet. This system is web-based, but only accessible INSIDE the PD network. A UserID and Password are required for access. The UserID is your PeopleSoft (Payroll) number. The Password is defaulted to your last name.

In addition, absence, overtime, and pay down requests shall be completed via the OTTO System and submitted to the Fiscal Affairs Bureau by logging onto <http://otto.police.fresno/>, no later than 8:00 a.m. on the Wednesday morning before the end of the pay period, unless otherwise specified.

As a courtesy to members, the Fiscal Affairs Bureau may send out a Department-wide voice mail each pay period indicating the due dates for such period. A written schedule shall be prepared and emailed Department wide once per year, usually in December, with the due dates for the full calendar period.

1036.4 SUPERVISOR RESPONSIBILITY

Supervisors are responsible for ensuring that OTTO entries are completed by employees assigned to them no later than the first day following a return from any leave of absence.

Non-patrol supervisors or their designee shall advise their commander of the work status of all assigned employees including any days off, sick leave, and leaves of absence.

Supervisor's shall review overtime and time-off requests a minimum of once during their shift. The supervisor who verifies the overtime earned shall verify that the overtime was worked before signing approval. It shall then be forwarded to the appropriate Commander/Manager for final approval.

1036.5 DIVISION/BUREAU COMMANDER RESPONSIBILITY

Commanders shall review overtime and time-off requests and forward to the Fiscal Affairs Bureau once approved.

1036.6 DUTY OFFICE RESPONSIBILITIES

The Duty Office shall record all Patrol absences on the daily detail sheet. A hard copy of this detail shall be sent to the district supervisors daily. The Duty Office shall submit the OTTO entry for all time off requests by patrol members, except pre-planned absences (e.g., annual vacation, FMLA, etc.).

1036.7 AUDITING

Commanders and managers shall periodically audit the attendance records for their personnel and submit a report to their Division Commander.

1036.8 RECORDS

The Administrative Manager shall ensure that accurate and timely payroll records are maintained as required by 29 Code of Federal Regulations §516.2 for a minimum of three years (29 CFR §516.5).

1036.9 DAYS OFF ACCOUNTING

On-duty employees shall submit a time-off request via the OTTO system to their supervisor prior to taking any time off from work. If an employee is granted leave while on days off, they shall complete a time-off request on the first day they return to work.

Employees shall not request or take any days off without first verifying they have sufficient hours in their account(s) to cover the type of leave they are requesting. Employees are expressly prohibited from requesting or taking a leave of absence which would result in a deficit in any of their leave accounts.

Members shall submit the Days-off System entries prior to the scheduled cutoff dates. The entry shall accurately reflect the member's days off. When there is a change in days off for a time period previously submitted, a new entry for the same time period shall be submitted electronically with the correct days off no later than the first working day after the change is identified. This will override the previously submitted days-off entry.

1036.10 ATTENDANCE VERIFICATION

Supervisors and managers shall periodically audit the attendance records for their personnel and submit a report to their division commander/bureau manager. Supervisors are responsible for tracking all leaves of absence and days off of employees assigned to them, along with ensuring the accuracy of the information. Supervisors shall reconcile all absences reported on the daily detail sheet with an appropriately completed OTTO request. When an OTTO request is not received for any leave of absence, the member shall be notified and directed to complete the OTTO request no later than the first day following a return from any leave of absence.

A time-off request submitted via OTTO received by a supervisor that has not been appropriately completed by a member shall be returned to the member to be completed correctly.

1036.11 OVERTIME DOCUMENTATION

1036.11.1 EMPLOYEES RESPONSIBILITY

Overtime requests should be submitted at the end of the member's shift whenever practical. If the overtime request submission is to be delayed beyond the end of the member's shift, then a supervisor shall be notified of the delay, the reason for the delay, and the anticipated submission date (e.g., after return from days off). Member's submitting a delayed overtime request shall do so via the OTTO system at the beginning of their next work shift.

When an overtime request has been delayed and the member is anticipated to be off for an extended period due to vacation, injury, or other acceptable reason prior to their next scheduled work shift, then the member shall make timely arrangements through their supervisor to have the overtime submitted through the business office for processing.

To avoid approval delays by supervisors and/or managers who are anticipated to be unavailable for extended periods, members may select an alternate supervisor and/or, manager to approve their request.

If the member is unable to submit a request due to the OTTO system being down, the member shall notify a supervisor that the system is down. Details of the overtime worked shall be provided to the supervisor and the member shall then submit the overtime request when the system is back on line.

1036.12 ACCOUNTING FOR PORTIONS OF AN HOUR

When accounting for less than a full hour, time worked shall be rounded down to the nearest tenth of an hour as indicated by the following chart:

TIME WORKED	INDICATE ON CARD
Less than 6 minutes	0.0 hour
At least 6 but less than 12 minutes	0.1 hour
At least 12 but less than 18 minutes	0.2 hour
At least 18 but less than 24 minutes	0.3 hour
At least 24 but less than 30 minutes	0.4 hour
At least 30 but less than 36 minutes	0.5 hour
At least 37 but less than 42 minutes	0.6 hour
At least 42 but less than 48 minutes	0.7 hour
At least 48 but less than 54 minutes	0.8 hour
At least 54 but less than 60 minutes	0.9 hour
60 minutes	1 hour

1036.13 COURT TIME

Refer to Policy §348.

1036.14 FLEX TIME

Members assigned to non minimum-staffing units may request and be assigned flexible hours of work. A member's supervisor may adjust hours of work under conditions set forth in the applicable MOU.

The occasional granting of a flex schedule shall be only for specific qualified purposes as determined by a Supervisor. Granting a long-term flex schedule shall require concurrence of the Bureau Commander. Personnel shall obtain their supervisor approval and submit an OTTO request for all Flex Time adjustments to their regular work schedules. All dates involving a flexing of a member's schedule should occur within the same pay period. Also refer to Policy §1040.

1036.15 RECORDS

The Administrative Manager shall ensure that accurate and timely payroll records are maintained as required by 29 CFR §516.2 for a minimum of three years (29 CFR §516.5).

1038.1 POLICY

The Department will compensate non-exempt employees who work authorized overtime either by payment of wages or by accrual of compensatory time off at the rate of time and one-half, or as otherwise specified in an applicable MOU.

In order to qualify for either, the employee must complete and submit an overtime request via the Over-Time/Time-Off (OTTO) System as soon as practical after overtime is worked. When the electronic system is not functioning, Scantron forms shall be completed.

1038.1.1 PURPOSE AND SCOPE

Because of the nature of police work, and the specific needs of the Department, a degree of flexibility must be maintained. The purpose of this policy is to assure timely and accurate overtime compensation is achieved for employees and to provide for adequate Department staffing needs.

1038.1.2 GUIDELINES

Members are not authorized to volunteer work time to the Department. Therefore time in excess of the normal work schedule will be compensated according to this policy.

All requests to work overtime shall be approved in advance by a supervisor. If circumstances do not permit prior approval, then approval shall be sought as soon as practical during the overtime shift and in no case later than the end of shift in which the overtime is worked.

The individual employee may request compensatory time in lieu of receiving overtime payment with the exception of those specifically pre-designated as cash only assignments.

The maximum number of hours for compensatory time is governed by current MOU's for each classification.

1038.2 EMPLOYEES RESPONSIBILITY

Employees shall complete an OTTO request after working the overtime and turn it in to a supervisor for approval.

Note: Failure to submit an OTTO request in a timely manner may result in a delay of compensation.

1038.3 ACCOUNTING FOR OVERTIME WORKED

Employees are to record the actual time worked in an overtime status. In some cases, the applicable MOU provides that a minimum number of hours will be paid, (e.g., two hours for court on regular duty days, three hours for automatic go and court appearances on regular days off, etc.). The supervisor shall confirm the actual time worked.

(Refer to Policy §1036 Use of Scantrons/OTTO/Days-Off System)

Fresno Police Department Policy Manual
Extra Duty & Off-Duty Employment

1040.1 POLICY

Departmental employees engaging in outside employment, who hold full time permanent positions, shall obtain an approved City of Fresno work permit through the Personnel Bureau prior to engaging in any outside employment. These provisions do not apply to policing Special Events or Contract Law Enforcement Services (CLES).

1040.1.1 PURPOSE AND SCOPE

In order to avoid actual or perceived conflicts of interest, approval of outside employment shall be at the discretion of the Chief of Police or their designee in accordance with the provisions of Fresno Municipal Code §3-102(b) and this policy.

1040.2 DEFINITIONS

Outside Employment - Wages, compensation or other consideration of value from another employer, organization, or individual not affiliated directly with this Department for services, product(s) or benefits rendered. For purposes of this section, the definition of outside employment includes those employees who are self-employed and not affiliated directly with this Department for services, product(s) or benefits rendered.

1040.3 WORK HOUR LIMITS

The work hour limits prescribed in the below sections shall not apply during an emergency situation as declared by the Chief of Police, or designee. Members shall track their work hours to ensure that they do not exceed limits established herein. Work hours and any OTTO submissions for time off or flexing shall be tracked on an Outside Employment Calendar. The calendar shall be submitted to the employee's immediate supervisor by the 5th of the month following any hours worked. After approving the calendar, the supervisor will place the Outside Employment Calendar in the employee's divisional file for two years.

Daily Limit – Members are limited to 15 continuous work hours of all types or 15 accrued hours within a 24-hour period. When 15 continuous work hours have been accumulated, and members are off duty, work for compensation shall not resume for at least eight hours.

Exception: Calls for service and mandatory court appearances shall be completed even though the 15-hour limit may be exceeded.

Weekly Limit – Members are limited to an accrued total of 70 work hours, including mandatory court appearances, within a workweek, unless expressly authorized by the Chief of Police, or designee. Of the 70 total work hours, members are not to exceed 16 hours of outside employment (pursuant to FMC §3-102). Additionally, members shall have at least one non-workday during each workweek.

Flex Time – Members with flexible work schedules may adjust their city work schedule/hours to accommodate their outside employment with supervisor approval. All requests to flex schedule/hours must be submitted through OTTO.

Exception: Members may work more than the weekly 16-hour limit of outside employment under all of the following circumstances:

- (a) The outside employment benefits the Department;
- (b) The member has written commander approval to exceed the limit; and
- (c) The member takes an equal amount of time off (for those hours exceeding the 16-hour limit) from their Department duties using their accrued leave hours, excluding their accrued sick leave.

Discredit & Fatigue – Members are prohibited from accepting employment or engaging in any occupation or business which reflects discredit on the member or the Department, or which employment, occupation, or business causes criticism of the member or the Department, or where the activity affects the physical condition of the member in the performance of their regular duties by reason of fatigue or other detrimental condition. The number of hours worked per week shall not exceed the hours approved on the work permit.

Working While on Leave – Members are prohibited from engaging in any off-duty work [including Order Back, AWS, Contract Law Enforcement Services (CLES), etc.] or activity for which they are compensated or derive personal gain when they are:

- (a) On sick leave (including Special Sick);
- (b) On Family Sick/Family Care Leave pursuant to FMLA or CFRA
- (c) On injury leave or receiving temporary disability payments; or
- (d) On leave without pay for illness or injury.

Note: Members on Family Sick/Family Care Leave pursuant to FMLA, may not work extra duty assignments (i.e. Order Back, AWS, CLES, etc.). Exceptions to this rule require prior approval by the member's division commander.

Members on leave without pay may be permitted to engage in outside employment with the approval of the City Manager. Outside employment may not conflict with restrictions placed on the member, which prevent participation in regular duties. Members shall initiate any approval requests through the chain of command, beginning with their immediate supervisor.

1040.4 OBTAINING APPROVAL

Members may not engage in any outside employment without first obtaining prior written approval of the Chief of Police or designee. Failure to obtain prior written approval for outside employment or engaging in outside employment prohibited by this policy may lead to disciplinary action.

Probationary members and recruits shall generally not be issued work permits, nor shall they engage in any off-duty work during their probationary period. On a case-by-case basis, the Chief of Police or designee may approve work permits for probationary members and recruits if they do not interfere with the members duties or create a conflict of interest between the City of Fresno and the outside employer. This does not prohibit officers and recruits from performing their normal duties by working extra for the Department on an overtime basis.

Applications for work permits are available from the Personnel Bureau. Probationary members and recruits shall submit their work permit application and a memorandum through their chain of command to the Chief of Police or designee. The memorandum shall outline the reason(s) for the work permit.

Members must submit their work permit applications annually between June 1 and June 15 to the Personnel Bureau. Failure to submit the annual application during this period may result in an extended review and approval. First time applications can be turned in anytime but must be submitted before the member begins any outside employment, and also submitted again during the renewal period above. Completed applications shall be returned to the Personnel Bureau for approval and forwarding to the City Personnel Services Division. Work permits are not valid until all required signatures have been obtained.

If an employee terminates their outside employment during the period of a valid permit, the employee shall promptly submit written notification of such termination to the Chief of Police or designee through their chain of command. Any subsequent request for renewal or continued outside employment must thereafter be processed and approved through normal procedures set forth in this policy.

Any member seeking approval of outside employment, whose request has been denied, shall be provided with a written reason for the denial of the application at the time of the denial [Penal Code §70(e)(3)].

Note: These provisions do not apply to policing Special Events or Contract Law Enforcement Services (CLES).

Work permits may be rescinded if a conflict of interest develops, or the member is unable to perform their duties.

1040.4.1 APPEAL OF DENIAL OF OUTSIDE EMPLOYMENT

If an employee's Work Permit application is denied or withdrawn by the Department, the employee may file a written notice of appeal to the Chief of Police within ten days of the date of denial.

If the employee's appeal is denied, the employee may file a grievance pursuant to the procedure set forth in their current Memorandum of Understanding (MOU).

1040.4.2 REVOCATION/SUSPENSION OF OUTSIDE EMPLOYMENT PERMITS

Any work permit may be revoked or suspended under the following circumstances:

- (a) When an employee's performance at this Department declines to a point where it is evaluated by a supervisor as needing improvement to reach an overall level of competency, the Chief of Police or their designee may, at their discretion, revoke any previously approved work permit(s). That revocation will stand until the employee's performance has been reestablished at a satisfactory level and their supervisor recommends reinstatement of the work permit;
- (b) Suspension or revocation of a previously approved work permit may be included as a term or condition of sustained discipline;
- (c) If, at any time during the term of a valid work permit, an employee's conduct or outside employment conflicts with the provisions of Department policy, the permit may be suspended or revoked; or
- (d) When an employee is unable to perform at a full duty capacity due to an injury or other condition, any previously approved work permit may be rescinded until the employee has returned to a full duty status.

1040.5 PROHIBITED OUTSIDE EMPLOYMENT

Consistent with the provisions of Government Code §1126, the Department expressly reserves the right to deny any Work Permit application submitted by an employee seeking to engage in any activity which:

- (a) Involves the employee's use of Departmental time, facilities, equipment or supplies, the use of the Department badge, uniform, prestige or influence for private gain or advantage;
- (b) Involves the employee's receipt or acceptance of any money or other consideration from anyone other than this Department for the performance of an act which the employee, if not performing such act, would be required, or expected to render in the regular course or hours of employment or as a part of the employee's duties as a member of this Department;
- (c) Involves the performance of an act in other than the employee's capacity as a member of this Department that may later be subject directly or indirectly to the control, inspection, review, audit, or enforcement of any other employee of this Department; or
- (d) Involves time demands that would render performance of the employee's duties for this Department less efficient

1040.5.1 OUTSIDE SECURITY EMPLOYMENT

Consistent with the provisions of PC §70, and because it would further create a potential conflict of interest, no member of this Department may engage in any outside employment as a private security guard, private investigator or other similar private security position.

1040.5.2 OUTSIDE CANNABIS RELATED EMPLOYMENT

Consistent with the Federal Law (CSA), no employee shall be an owner, employee, investor, lender/silent partner, or independent contractor of a cannabis business. This includes providing a service/consultation to a cannabis business as it may still be viewed as committing a federal crime.

1040.6 CITY RESOURCES

Employees are prohibited from using any City equipment or resources in the course of or for the benefit of any outside employment.

1040.7 TERMINATION OF OUTSIDE EMPLOYMENT

If an employee terminates their outside employment during the period of a valid permit, the employee shall promptly submit written notification of such termination to the Chief of Police or their designee through their chain of command. Any subsequent request for renewal or continued outside employment must thereafter be processed and approved through normal procedures set forth in this policy.

1040.8 CONTRACT LAW ENFORCEMENT SERVICES

Pursuant to FMC §§3-122(b) and (c), citizens may request uniformed police services for law enforcement, traffic safety, or crowd control purposes.

Staff Officers and sergeants shall not work in place of an officer for purposes of delivering contract law enforcement services. Ride-a-longs are prohibited.

1040.8.1 NOTIFICATION OF AVAILABLE CLES DETAILS

An e-mail listing the available CLES details will be sent out at approximately 1230 hours on Thursdays, eleven days prior to the week of available CLES details. Members wishing to be advised of available CLES details shall provide the CLES Coordinator with their Department e-mail address by e-mailing Police.ContractServices@fresno.gov. Department e-mail will be the ONLY means by which a member can request, accept, or cancel CLES details.

For notification purposes only, members may provide one personal e-mail address to the coordinator by e-mailing the Coordinator with this request from their personal e-mail account.

1040.8.2 MEMBER REQUEST FOR CLES DETAIL(S)

Members interested in a detail must respond by 2359 hours on the Sunday following the notification, unless otherwise directed in the notification email. In order for the member's request(s) to be accepted, it must be sent from the member's Department e-mail account.

1040.8.3 ASSIGNMENT & ACCEPTANCE OF CLES DETAILS

Members who have been assigned a CLES detail will receive notification of their assignment(s) on Tuesday, by 2200 hours, the week prior to the CLES detail(s). Notifications of assigned CLES details will be e-mailed to the member's Department e-mail address, along with a 'Read Receipt Request'.

When opening the notification e-mail, the member will be prompted with the "Read Receipt" and they must click on the "Yes" box. Only receipts from the member's Department e-mail address will be accepted. The member's response to this receipt will serve as acceptance of the CLES detail(s). A member will have until 1230 hours on the Thursday prior to the week of the CLES detail to accept the detail. Failure to respond to the receipt request will result in the CLES detail being assigned to someone else.

1040.8.4 OFFICER RESPONSIBILITIES

Officers performing supplemental law enforcement services during contracted assignments are responsible for enforcement of laws and not enforcement of rules established solely by the employer unless specifically authorized by the Chief of Police or their designee (e.g., The Big Fresno Fair, etc.). Prohibited activities may include:

- (a) Permitting unauthorized entrance to any person(s);

- (b) Taking tickets; and
- (c) Ejecting patrons only on the employer's request (absent a criminal violation).

Absent the aforementioned authorization, members shall not perform any duties outside of enforcing the law or providing those services that are normally performed by on-duty officers. The same regulations and procedures that apply to officers working patrol assignments shall apply to contractual work arrangements.

Officers working a contract assignment shall first contact the on-duty supervisor in the district that they are working (or the contract supervisor when one is assigned).

- (a) The officer will be briefed about any activity occurring or anticipated at the contract assignment.
- (b) Officers then shall respond directly to the location of the assignment at the designated time unless otherwise directed.
- (c) Officers are responsible for notifying the contractor when beginning and ending their shift.
- (d) At the specified start time of the assignment, officers shall log on the radio channel controlling the policing district in which the officer is working with the radio designator assigned by the CLES Coordinator.

Exception: When an officer is assigned to pick up a patrol vehicle they shall respond to the district where the contract assignment is occurring, check out the vehicle, logon to the controlling radio channel at the designated time and report to the worksite as soon thereafter as possible. The officer may add an additional half hour of time to the total time worked as travel time for picking up/dropping off the vehicle. Officers assigned to utilize a patrol vehicle as part of their assignment shall first utilize high mileage vehicles if available. If one is not available, then other patrol vehicles without MDS or a hard mount radio should be utilized. If none of these vehicles are available, then officers may utilize a fully equipped patrol vehicle.

Members who must leave their assignment shall notify the contractor and Department supervisor as soon as possible and inform them of the expected duration and reason for the absence.

When a member leaves their assignment as the result of injury, illness, court, or an emergency situation occurring in the officer's presence (occurring off the contractor's premises), the officer shall call the Duty Office and provide the reason/length of absence.

Officers should not volunteer to handle calls for service unless they occur on the contractor's premises or the call is an emergency and it is occurring in the immediate area. When transportation of arrestees is required a wagon or patrol unit shall be utilized.

1040.8.5 STAFF OFFICERS

At the direction of the Chief of Police, staff officers including lieutenants, captains, and deputy chiefs may be assigned to CLES events. CLES shall be limited to one staff officer per event, with limited exceptions determined by the Chief of Police or their designee. The assigned staff officer shall have overall command of the event. Compensation for the CLES event will be in accordance with the applicable MOU.

1040.8.6 DISTRICT COMMANDER RESPONSIBILITIES

District commanders shall:

- (a) Determine whether or not an applicant will be allowed to contract with the Department for supplemental law enforcement services under Approval Guidelines listed below;
- (b) When an applicant requests vehicles, determine whether or not vehicles will be available and authorized;
- (c) Determine whether staffing in excess of that which has been requested will be required;
- (d) Notify the CLES Coordinator of applications that have been denied or require modification;
- (e) Return the application to the CLES Coordinator; and
- (f) Arrange for a designee to complete the tasks described in this section in the event of their absence.

1040.8.7 APPROVAL GUIDELINES

Generally, contracted law enforcement services may be approved when the location/event:

- (a) Generates an above average number of calls for service;
- (b) Is in a high crime area;
- (c) Is frequented by known drug dealers or gang members; or
- (d) Has received approval by the Chief of Police, or designee.

Contracted law enforcement services may also be approved when, in the district commander's judgment, the Department and/or the community would benefit from the delivery of supplemental law enforcement services.

All CLES events shall require at least one marked patrol vehicle. Additional patrol vehicles will be required when more than two officers are assigned, at the rate of one patrol vehicle for every two officers.

Additional guidelines for types of non-approved events, etc., are contained within the Application for Contract Law Enforcement Services.

1040.9 SPECIAL EVENT POLICING

1040.9.1 NOTIFICATION OF AVAILABLE SPECIAL EVENT DETAILS

An e-mail announcing upcoming Special Event details will be sent out by the Special Events Coordinator at least three weeks prior to the special event. The announcement will list the available details, applicable deadlines to submit shift preference sheets, and any other pertinent information.

1040.9.2 MEMBER REQUEST FOR SPECIAL EVENT DETAIL(S)

Members interested in a detail must respond by 2359 hours on the application deadline date listed in the notification. In order for the member's request(s) to be accepted, it must be sent from the member's Department e-mail account.

1040.9.3 ASSIGNMENT & ACCEPTANCE OF SPECIAL EVENT DETAILS

Members who have been assigned a Special Event detail will receive notification of their assignment(s) at least one week prior to the Special Event detail(s). Notifications of assigned Special Event details will be e-mailed to the member's Department e-mail address, along with a 'Read Receipt Request'. When opening the notification e-mail, the member will be prompted with the "Read Receipt" and they must click on the "Yes" box. Only receipts from the member's Department e-mail address will be accepted. The member's response to this receipt will serve as acceptance of the Special Event detail(s). A member will have until the deadline listed on the email to accept the detail. Failure to respond to the receipt request will result in the Special Event detail being assigned to someone else.

Members may not swap their Special Event detail assignments.

1040.10 GENERAL GUIDELINES FOR CLES AND SPECIAL EVENTS POLICING

For the purposes of this section, the term contracted events/assignments includes CLES as well as special events policing (e.g., The Big Fresno Fair, Hmong New Year, etc.).

Officers shall work contracted events in their Class B uniforms and shall have related equipment available (i.e., report forms, baton, flashlight, etc.). Specialized items, such as shotguns, canines, etc., are specifically prohibited.

1040.10.1 CANCELLATIONS

- (f) The duty officer shall promptly notify the contractor when a replacement officer cannot be located.

1040.10.2 COMPLAINTS

When a complaint arises regarding an officer's conduct it shall be referred to the supervisor on-duty in the policing district where the contract service is being performed. When the complaint is not resolved and is not assigned to the Internal Affairs Bureau, the decision as to the assignment of the complaint will be made by the Patrol Commander. Concerns relating to the terms or execution of the contract that are not of an immediate nature shall be referred to the CLES Coordinator or Special Events Coordinator as appropriate.

1040.10.3 REPORTS

Reports, which were the result of an incident occurring on the contractor's premises, shall be written by the contract officer.

When activities such as report writing result in contract officer time in excess of that which was contracted, the contract officer shall notify the CLES Coordinator or Special Events Coordinator as appropriate by voicemail with the reason for and length of time involved with the activity.

1040.10.4 SUPERVISOR RESPONSIBILITIES

Supervisors assigned in the district where a contract event is occurring shall be responsible for supervising the contract officers including any associated administrative duties.

- (a) The contract officers shall be contacted at least once during their shift.
- (b) Supervisors will ensure that contract officers are not dispatched on calls or otherwise leave the assignment unless the call is occurring on the contractor's premises or the call is an emergency and it is occurring in the immediate area.

Exception: When sergeants are working in a contract capacity, they shall be responsible for any administrative duties associated with the contracted event (i.e., the investigation of complaints against contract officers including officers who fail to appear as assigned).

All work-related injuries and illnesses must be reported to the member's supervisor immediately, but no later than 24 hours of its occurrence if the member cannot reasonably provide immediate notice of the injury/illness. A claim form shall be provided to the injured/ill member within one business day from the time the injury/illness was reported or discovered by the member's supervisor. This policy covers only matters regarding work-related injuries/illnesses, with the exception of Section 1042.10 and 1042.10.1 Temporary Light Duty Assignments which applies to both work-related and non-work-related injuries/illnesses.

1042.1.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure proper medical attention is received for work related injuries, illnesses, or deaths, along with prompt documentation describing circumstances of the incident.

Documentation shall be completed to ensure compliance with Workers' Compensation Fund and Risk Management requirements.

1042.2 DEFINITIONS

Long Term Absence (LTA) - Refers to any member who is incapacitated and unable to perform their regular job duties and are unable to work in any capacity for longer than one week, a work-related injury/illness, or the Department's inability to reasonably accommodate their temporary medical limitations and/or restrictions.

Temporary Total Disability (TTD)- Applies to a member whose work-related injury/illness temporarily keeps them from doing any type of work, including modified light duty or alternative work. Members on TTD are expected to recover and be able to return to their job doing all essential job duties they had before their injury/illness, with or without reasonable accommodation(s).

Light or Modified Duty – Refers to any member with a temporary adjusted work assignment in order to accommodate the members physical limitations while recovering from a work-related injury/illness.

Workers Compensation Coordinator (WC Coordinator)- The Fresno Police Department WC Coordinator acts as the central point of communication and case management for members who have work-related injuries/illnesses and the Department. They also act as the Department's point of contact with other stakeholders, including the City's Third-Party Administrator, medical providers, City Attorney's Office, Risk Management, and others regarding Department worker's compensation matters.

1042.3 LONG TERM ABSENCE MEMBER (LTA MEMBER)

When an employee is on Long Term Absence (LTA) due to a work-related injury/illness, the WC Coordinator is responsible for tracking the member's recovery progress to ensure appointments and necessary documents are completed in a timely manner. The WC Coordinator will retain such responsibilities until the employee returns to their prior duty, with or without reasonable accommodations, or it is determined by a medical professional that the employee is permanently unable to return to work performing all of their essential job duties, with or without reasonable accommodation(s).

When a member is on LTA and is placed on injury pay or medical absence the member will be carried on that disability status and respective pay until that member is released to perform all of their essential job duties, with or without reasonable accommodation, or placed in a temporary light duty assignment.

1042.4 MEMBER'S RESPONSIBILITY

When an injury/illness is incurred related to the member's job, the member shall notify their supervisor immediately, but in any event no later than 24 hours of its occurrence if the member cannot reasonably provide immediate notice of the injury/illness. All members shall comply with the following instructions for work-related injuries/illnesses, whether they are on-duty or off-duty.

1042.4.1 INITIAL NOTIFICATION

Immediately upon learning that they meet or reasonably anticipate meeting the criteria of LTA, members shall notify their immediate supervisor, the Duty Office (if assigned to the patrol matrix), and, the WC Coordinator to provide the following information:

- (a) Their name and a phone number where they can be contacted;
- (b) When the injury/illness occurred;
- (c) The anticipated length of disability;
- (d) The date available for temporary light duty assignment;
- (e) The treating medical provider's name and telephone number;
- (f) The current medical limitations and/or restrictions;
- (g) Their next appointment with their treating medical provider's; and
- (h) Copies of all Medical Status Report Forms.

Any member sustaining a work-related injury/illness that requires relief from duty is required to be examined / treated by a medical provider from the Workers' Compensation Alternative Dispute Prevention and Resolution Program (ADR) list of providers. Non-sworn members may pre-designate a medical provider or select from the Medical Provider Network. The ADR list may be obtained from the WC Coordinator or the Duty Office.

Hospital emergency rooms should be used only in cases of extreme emergency or when other service providers are unavailable (e.g., after normal business hours for those on the ADR list).

1042.4.2 WORK STATUS UPDATE

Injured/ill members shall provide an updated status report to the WC Coordinator on their work restrictions and/or limitations and work status (i.e. release date) after each medical appointment, no later than 5 p.m. on the date of their medical appointment. The work status reporting requirement applies to members on temporary light duty assignments, as well as members on TTD. All required Work Status Reports shall be provided to the WC Coordinator. This update should be provided in person to the WC Coordinator or the Duty Office. In an extenuating circumstance the notification may be made via email, text, or fax.

1042.4.3 MEDICAL APPOINTMENTS FOR WORK-RELATED INJURIES/ILLNESSES

Members are responsible for scheduling and keeping all workers' compensation medical appointments and cooperating with their established medical treatment plan. Members shall make every attempt to seek prompt treatment for their injury/illness in order to facilitate their full return to work.

Members are required to appear for medical examinations, treatments and procedures as scheduled.

When a member cannot attend a scheduled workers' compensation appointment or wishes to reschedule an appointment, they shall first contact the WC Coordinator and explain the need to reschedule. After obtaining approval from the WC Coordinator, the member will reschedule the appointment with the medical provider, then shall report back to the WC Coordinator the new date and time for the appointment. Failure to properly communicate with the Department and/or to appear at scheduled medical appointments may result in the denial of workers' compensation benefits.

Members shall provide a medical providers' note, or verification of the visit, to the WC Coordinator for every medical appointment for a work-related injury/illness. The note must specify which injury/illness claim the appointment was for to ensure the member is properly compensated for the absence.

For members on TTD leave or assigned to a temporary light duty assignment , medical appointments should be scheduled during regular or modified duty hours, whenever possible.

For members released to full duty, with or without reasonable accommodations, but still attending worker's compensation medical appointments, reasonable efforts should be made to schedule those appointments outside of normal working hours or on days off.

If a member assigned to a temporary light duty assignment or released to full duty, with or without reasonable accommodations, attends a workers' compensation medical appointment while on duty, an OTTO entry shall be submitted for On-the-Job (OJI) Injury Pay (i.e., workers' compensation benefits pay)

1042.4.4 WORK STATUS REPORT FORM

The supervisor contacted by the member shall provide the injured/ill member with a Work Status Report Form. The member shall have these forms completed by the attending medical provider at the time initial medical treatment is provided for any work-related injury/illness. The completed form, along with any other necessary paperwork, shall be forwarded to the WC Coordinator as soon as practical.

Members shall take blank copies of the Work Status Report Form to each subsequent appointment with their treating medical provider. The form or other approved report form shall be completed by the medical provider, or designee, and returned via FAX/email to the WC Coordinator by 5:00 p.m. on the date of their medical appointment. Failure by the member to provide copies of the Work Status Report Form after each appointment with their treating medical provider may impact the member's worker's compensation claim benefits.

1042.4.5 ACTIVITY RESTRICTIONS

LTA and TTD members, and members on temporary light duty assignments, shall not become involved in activities that would conflict with their injury/illness medical restrictions and/or limitations or interfere with their medical treatment. For sworn members, these same restrictions apply absent a life- threatening emergency that requires an immediate response and the use of peace officer powers only if they meet their qualifications under Policy 312.7, Firearms Qualifications.

LTA and TTD members, and members on temporary light duty assignments are prohibited from working outside employment including self-employment, in violation of Fresno Municipal Code Section 3-102(b). Any approved work permits are automatically suspended until the member is no longer receiving workers' compensation benefits, unless: (1) written approval is provided to the WC Coordinator from the member's treating medical provider that the outside work to be performed does not interfere with the progress of the member's treatment and is consistent with the medical limitations and restrictions imposed by the provider, and (2) no light duty work is available in the City. LTA and TTD members shall not participate in any activities that require them to be in uniform.

Members with work-related injuries/illnesses that are not working full duty for longer than one work week or where temporary light-duty restrictions cannot be accommodated, shall be assigned to a temporary modified work schedule, Monday through Friday, 9 am to 5 pm. Members shall remain at their residential address of record in Peoplesoft during the designated temporary modified work schedule hours and be personally available to respond to any official telephonic and/or personal contact by the Department, except when engaging in workers' compensation activities, such as medical appointments, treatments, prescribed activities, or with approved time off as in Section 1042.4.6.

Members assigned to attend (or who request to) attend training while on LTA or TTD shall seek approval from their commander prior to attending. LTA and TTD members shall not participate in any training activities outside of their work restrictions and/or limitations.

1042.4.6 OTTO TIME TRACKING

Members placed on LTA or TTD and members on temporary light duty assignments must submit OTTO requests for time off, including Vacation Leave, Holiday Leave, and CTO. The WC Coordinator will serve as the temporary supervisor/manager for members placed on LTA/TTD for OTTO tracking purposes. All requests for time off must be sent to the WC Coordinator for preapproval. Time away from the member's residence for scheduled workers' compensation medical appointments, treatments, prescribed activities, do not require an OTTO entry. However, unscheduled absences during the member's temporary modified work schedule from the member's residence of more than 2 hours require preapproval from the WC Coordinator. If the WC Coordinator is unavailable, the member may contact the Duty Office to report the absence.

Members on temporary light duty will be assigned to a temporary work location within the Department consistent with their limitations and/or restrictions. The shift and work schedule will be determined based on the work location assigned. The supervisor of their temporary assignment workplace will serve as the member's immediate supervisor / manager for OTTO tracking purposes. All requests for time off must be sent to the member's temporary supervisor/manager, except worker's compensation for OJI- related medical appointments, which are sent to the WC Coordinator and listed as OJI Pay.

Members released to full duty with or without restrictions, who are required to attend ongoing compensation medical appointments during working hours are required to submit an OTTO entry for OJI Pay, which is forwarded to the WC Coordinator for approval.

The member shall provide a copy of medical documentation to the WC Coordinator upon returning to work after a medical appointment. The note must specify which injury/illness claim the appointment was for in order for the member to be properly compensated for the absence.

1042.5 SUPERVISOR'S RESPONSIBILITY

1042.5.1 AUTHORIZATION FOR MEDICAL CARE

Supervisors shall complete an Authorization for Medical Care form before a member seeks medical attention, when possible. Supervisors shall refer members to medical facilities within the Medical Provider Network (MPN), on the workers' compensation list of "first treatment sites", unless the non- sworn member has pre-designated their personal physician, in writing, prior to the current injury. Sworn members shall be referred to one of the ADR providers.

1042.5.2 SUPERVISOR'S REPORT OF INJURY (SRI) FORM

The supervisor shall complete the Supervisor's Report of Injury Form (SRI) when any injury / illness arising out of a member's employment is reported. The SRI shall contain the case number (when applicable) and a detailed account of exactly how the injury occurred. Even when self-administered first aid is the only treatment required, an SRI must still be completed. The form shall be completed before the end of the shift during which the injury/illness is reported.

1042.5.3 EMPLOYEE'S CLAIM FOR WORKERS' COMPENSATION BENEFITS FORM

Every injured/ill member must be provided with an Employee's Claim for Workers' Compensation Benefits Form (DWC1) within 24 hours the injury/illness was reported or discovered by the member's supervisor, in the event the member will be missing work or seeking medical attention.

The supervisor shall complete the 'Employer' section. The injured member, and not the supervisor, shall complete the 'Employee' section when the member will be missing work or seeking medical attention. A copy of the DWC1 form shall then be given to the member as their claim receipt.

Members shall also complete the "Workers' Compensation-Employee Obligations Notice" at the time the DWC1 form is completed. The original shall remain in the member's medical claim file in the WC Coordinator's office and a copy shall be provided to the member.

Note: If a member is unable to complete the DWC1 form at the time of the injury/illness, the supervisor shall make a copy of the partially completed form to send in with the SRI and give the claim form to the member. The member shall complete the DWC1 claim form as soon as possible and return it to the WC Coordinator's office

1042.5.4 DISTRIBUTION OF FORMS

The SRI and DWC1 shall be faxed (or emailed) to the WC Coordinator (457-1123) prior to forwarding the originals. The original SRI and original DWC1 shall be forwarded to the WC Coordinator's office **within** one business day of the reported injury/illness.

When a member returns the DWC1 to their supervisor, the DWC1 shall be faxed (or emailed) to the WC Coordinator (457-1123). The original and remaining copies shall be forwarded to the WC Coordinator's office within 24 hours of its return by the injured member.

1042.6 BUREAU / DISTRICT / SECTION COMMANDER / MANAGER RESPONSIBILITY

It is the responsibility of the LTA member's regular Bureau / District / Section Commander / Manager (or designee) to maintain weekly contact with said member and to determine any changes or updates to their status. Any changes / updates to the member's status shall be brought to the attention of the WC Coordinator.

The Bureau / District Commander/Manager, as soon as it is medically permissible, shall personally contact the member to inquire whether or not any assistance may be rendered.

When a member is determined to be LTA or has been assigned to temporary light duty their Commander / Manager shall ensure the member has signed the "Employees Obligation Notice", and understands the information and instructions in the memo.

The Commander / Manager shall designate a representative who shall be the Bureau / District contact person for members on temporary disability due to industrial injury/illness. In cases where there is traumatic injury or illness, hospitalization, or family members in need of assistance due to incapacitation of a Department member, the Bureau / District designee may contact the appropriate personnel for assistance. LTA members shall be contacted on a regular basis, at least once per week, to determine the status of the injured / ill member and document the anticipated return to work time. The contacts may be made telephonically or, when appropriate, in person. A record of this contact, either memo or e-mail, shall be forwarded to the Commander / Manager and the WC Coordinator.

Commanders / Managers should remain aware of positions under their command that could be filled with temporary modified light duty personnel. The availability of these positions should be communicated to the WC Coordinator for consideration when light duty personnel become available.

1042.6.1 CONTACT FOR NON-WORK RELATED INJURIES/ILLNESSES

When a member is LTA while recovering from a non-work related injury/illness (i.e., off-duty injury/illness), the Commander / Manager shall maintain weekly contact with the member throughout the recovery process. Whenever issues or concerns are brought to the attention of the Commander / Manager by an injured member or member's family, available resources should be considered to remedy the situation.

1042.7 WC COORDINATOR RESPONSIBILITY

Once it has been determined by a medical professional that a member is permanently unable to return to perform their essential duties with or without reasonable accommodation, the member will be removed from any assigned temporary light duty assignment and will be placed on injury pay (for accepted workers' compensation claims, provided leave time is still available) or use personal time accruals for other absences that are not accepted workers' compensation claims in accordance with the applicable MOU and salary resolution. The Department will initiate the interactive process with Risk Management. Risk will schedule an interactive process meeting with the member, which includes a discussion regarding potential alternate work in another job position/classification. In the event the

member does not accept another job position/classification within the City as a reasonable accommodation, the interactive process will conclude and Risk will notify the WC Coordinator's office.

The WC Coordinator's office will prepare a letter to the member stating temporary light duty assignments will no longer be available. The member's commander will also be notified. The injured member will remain on appropriate leave time pending separation from the Department.

Depending on time vested and retirement eligibility, the options available to the member are: pursuing alternative work with the City, subject to minimum qualifications and ability to perform all essential job duties with or without accommodation(s) filing for service connected disability retirement, filing for service retirement, resigning or medical separation (termination). Members may file for both a service and service-connected disability retirement, with the understanding that separation from the Department has occurred, while the disability retirement process is completed.

1042.7.1 ROLE OF THE WC/LTA COORDINATOR

The WC Coordinator acts as the central point of communication and case management for injured members and the Department and acts as the Department's point of contact with other stakeholders, including the City's Third-Party Administrator, medical providers, City Attorney's Office, Risk Management, and others.

Responsibilities of the WC Coordinator include (but are not limited to):

- (f) Coordinate with the Patrol Administrative Bureau Commander for temporary modified duty (light duty) assignments; and
- (g) Supervisor / Manager for temporarily disabled members.

1042.8 DIVISION COMMANDER RESPONSIBILITY

Long Term Absence personnel may be assigned other light duty assignments to meet the needs of the Department. Division Commanders seeking a change to a light duty assignment will contact the Chief of Police for concurrence with the proposed change. Following this decision, the Division Commander will advise the Patrol Administrative Bureau Commander of the change. The Patrol Administrative Bureau Commander will notify the affected personnel of the change in assignment within 24 hours to allow for changes to the detail and/or work schedule.

1042.9 FISCAL AFFAIRS RESPONSIBILITY

Members who are absent from work due to a work-related injury shall be placed on injury pay in accordance with the provisions of Fresno Municipal Code §3-118, Administrative Order §2-22 and Labor Code 4850.

1042.10 TEMPORARY LIGHT DUTY ASSIGNMENTS-ALL INJURIES/ILLNESSES

The Department may offer temporary light duty assignments to members who are unable to perform their usual and customary duties. Temporary light duty assignments will be made based on the needs of the Department and all temporary light duty assignments will be made by the Patrol Administrative Bureau Commander, or as otherwise directed by the Chief of Police.

Members being treated for a work-related injury/illness shall inform the attending medical provider that a temporary modified duty assignment is available at the Department.

Members incapacitated, but who are expected to return to their regular duties in less than one week, may be allowed to remain in their Division. Upon learning their absence from regular duties will

continue beyond one week, members shall immediately notify the Duty Office (if assigned to the patrol matrix), and the WC Coordinator to be placed on a temporary modified work schedule, Monday through Friday, 8 a.m. to 5 p.m.

Members who are eligible for temporary light duty and have been released by their medical provider to perform modified duties, shall immediately contact the Patrol Administrative Bureau Commander for assignment.

- (a) Prior to commencing their assignment, members shall provide their Medical Status Report and any medical provider notes to the WC Coordinator.
- (b) Members will report to their assignment in training attire unless arrangements have been made with their assigned supervisor to accommodate medical disabilities.

- (d) Members will not be allowed to resume duty until a completed Medical Status Report, or medical provider release, is received.
- (e) The completed form / release may be faxed, emailed or sent via text to the Duty Office / LTA Coordinator.
- (f) Sworn members' range training / qualification status must be current prior to resuming their regularly assigned duties.

The Department may be limited in the number of temporary light duty assignments available due to department needs. All temporary modified duty assignments will be made by the Patrol Division Administrative Commander, or as otherwise directed by the Chief of Police

Members assigned to a light duty assignment may be assigned to work a five-day, eight-hour schedule, with work hours and days off based on the needs of the Department. Exceptions involving temporary light duty assignments and/or work schedules shall be at the direction of the Patrol Division Administrative Commander, or as otherwise directed by the Chief of Police.

Once assigned to a temporary light duty assignment, the members shall ensure OTTO accurately reflects their temporary supervisor / manager when submitting for any time off, except injury/illness leave, which is to be submitted to the WC Coordinator for approval. Members shall ensure medical appointments, including physical therapy and workers' compensation appointments during work hours, are accounted for in OTTO. Injured/ill members will provide medical documentation to their temporary supervisor / manager and the LTA Coordinator for verification in OTTO.

When a member assigned to temporary light duty becomes unable to work in this capacity per medical provider's order, the WC Coordinator and the member's temporary immediate supervisor shall be notified. The member shall ensure OTTO accurately reflects their regular supervisor / manager before being placed on injury/illness leave.

1042.10.1 DURATION OF ASSIGNMENT

Light duty assignments will be reviewed when there is a change in the member's medical status, or when the temporary light duty assignment is no longer available due to business reasons, or, after 30-days from LTA assignment, and again once (6) months have passed in any case. The review to determine will determine whether the member is likely to return to full-duty, (with or without reasonable accommodation(s)), or if another course of action should be considered (i.e., Interactive Process to discuss further reasonable accommodations, fitness for duty examination (**Fresno Municipal Section 3-288**)).

1042.11 INJURY NOT REQUIRING MEDICAL ATTENTION

Those injuries not requiring medical attention shall be recorded on an SRI form. This form shall be completed, signed by a supervisor, and forwarded to the WC Coordinator at the end of the shift.

This form shall be signed by the affected member, indicating that they desire no medical attention at the time of the report. By signing this form, the member will not preclude their ability to seek medical attention later.

1042.12 ADMISSION TO HOSPITAL

When a member is admitted to a hospital due to a work related injury/illness, a District, Operations or Field Commander will determine whether to request a "normal" admission or a "security" admission. Notification to the WC Coordinator is required.

1042.12.1 NORMAL ADMISSION

A normal admission shall be requested when there is no necessity for security associated with the member's stay at the hospital. Normal hospital procedures shall apply to the member. The Department will not request any special conditions regarding access to the member.

1042.12.2 SECURITY ADMISSION

The Chief of Police, or designee, shall determine the necessity for a police guard. When a police guard is necessary, the injured member's supervisor shall ensure a police guard is provided. The guard shall be placed at a location that will prevent unauthorized access to the member's room. Only those persons who have a valid reason to see the injured member will be allowed entry.

1042.13 IN LINE OF DUTY DEATH

When the death of a member is believed to be in the line of duty, the Employee Services Coordinator will be a liaison between the member's family and the Department. The Coordinator will guide the member's family through the process of filing for Federal, Workers Compensation, retirement, and other available benefits.

Members shall not display any visible intentional scarring, mutilation, brandings, dermal punching, body implants or dental ornamentation while on duty or officially representing the Department. All items in this section shall be completely covered by wearing an approved uniform, appropriate non-uniform clothing, a plain neutral skin patch or plain neutral skin bandage (e.g., ace bandage or Band-Aid type bandage) while maintaining a professional appearance.

- (a) Body implants are generally objects inserted beneath the skin of the hands, arms, head, face, neck, upper chest, or ears resulting in a visible protrusion of the skin outlining the object for other than reconstructive purposes.
- (b) Dermal punching is the removal of tissue for the insertion of jewelry or other objects, or for the creation of visible holes larger than a standard piercing.
- (c) Dental ornamentation includes the affixing to the teeth of gold, platinum, or other veneers or caps used for decorative purposes. Dental ornamentation does not include braces for orthodontic reasons, veneers, or other fillings/methods used to repair a cavity or damaged teeth.

- (a) On duty personnel shall cover all tattoos by wearing a long sleeve shirt and /or pants; or
- (b) Cover the tattoo with a solid black full, half, or ¼ tattoo cover-up sleeve (no logos).
 - 1) Cover-up sleeve must originate under the shirt sleeve; no skin shall be exposed between the cover-up sleeve and the shirt sleeve.

1044.3 TATTOO REVIEW COMMITTEE

The committee was created to provide a case-by-case review for members seeking an exemption from the policy requiring all visible tattoos to be covered while on duty or when representing the Department in any official capacity. The committee serves at the discretion of the Chief of Police and will convene at the direction of the committee chair. The Chief retains final control over the appearance of all department members.

The tattoo review committee will be comprised of five members. The Fresno Police Officers' Association and the Fresno City Employees Association will each appoint one member to the committee. The Chief will appoint three members to the committee, including the Committee Chair.

Members wishing to have a tattoo reviewed by the committee will complete a "Visible Tattoo Approval Application" available on the Department network ("L" Drive) and provide photographs of the tattoos to be reviewed. The application and photographs shall be submitted to the review committee's email at tattoo.review@fresno.gov. If the tattoo consists of foreign language symbols or non-English text, the applying member shall accurately state what the symbol or text states when translated to English. The committee will review any text symbols or non-English text before approval. The committee will convene on a quarterly basis, or as needed, to review member submissions.

If the committee has additional questions for the member or wishes to physically see the tattoo being reviewed, a meeting with the committee and member will be scheduled. Members will not be allowed to use overtime to meet with the committee but may attend on duty with their supervisor's permission. The committee chair will inform the member of the committee's decision, in writing, or by electronic mail, within one week of the committee's convening.

If the tattoo is approved to be visible, a copy of the application, photo, and letter of exemption will be kept on file in the member's personnel file in the Personnel Bureau and the member's divisional file. Supervisors should review the member's file to ensure policy compliance.

If the member disagrees with the committee's decision, the member can appeal that decision to the Chief or the Chief's designee. The decision of the Chief on any appeal will be final. As societal norms change over time, exemptions to the visible tattoo policy are not a permanent guarantee, and the Chief has the right to re-evaluate previously approved tattoos to maintain the public's trust. The Chief's decision related to tattoo review approval or disapproval is final and considered non-grievable.

Tattoos that are specifically prohibited from being visible while on duty include the following:

- (a) Tattoos visible on the head, neck, or face;
- (b) Tattoos covering the majority (more than 50%) of the back of hands, fingers, or palms.
 - 1. Tattoos such as a wedding band, initials, or other discrete designs are eligible for committee review provided they are not extreme or excessive;
- (c) Tattoos that are vulgar, profane, or racist in nature;
- (d) Tattoos depicting nude images;
- (e) Tattoos that promote hate or violence;
- (f) Tattoos that violate City of Fresno [AO 2-16](#), harassment, and discrimination; and
- (g) Any tattoo that a member knows or reasonably should know is unbecoming a member of the Department or which is contrary to good order, morale, or tends to reflect unfavorably upon the Department or its members.

1044.4 SUPERVISOR DISCRETION & CONTROL

It shall be the responsibility of supervisors to monitor the appearance of members under their command to ensure that they present a professional appearance, in keeping with accepted standards throughout the Department and the professional community.

Superiors shall instruct their subordinates to maintain these standards. Supervisors may require members under their command to conform to more stringent standards than those described herein when it is necessary to promote acceptance by a particular portion of the public served by a particular unit but shall not impose more stringent requirements based solely on personal preferences.

1044.5 EXEMPTIONS

Members who seek cultural (e.g., culturally protected hairstyles) or other exemptions to this policy that are protected by law should generally be accommodated (Government Code §12926). A member with an exemption may be ineligible for an assignment if the individual accommodation presents a security or safety risk. The Chief of Police should be advised any time a request for such an accommodation is denied or when a member with a cultural or other exemption is denied an assignment based on a safety or security risk.

Fresno Police Department Policy Manual Transgender and Gender Non-Conforming Employees

and Gender Non-Conforming Employees

1045.1 POLICY

The Fresno Police Department is committed to creating and maintaining a work environment that is free of all forms of discrimination and harassment. The Department will take preventative, corrective and disciplinary action for any behavior that violates this policy or the rights and privileges it is designed to protect. This policy is designed to create a safe and productive workplace environment for all members.

1045.1.1 PURPOSE AND SCOPE

The purpose of this policy is to set forth guidelines to address the needs of transgender and gender non-conforming members and clarify how the law should be implemented in situations where questions may arise about how to protect the legal rights or safety of such members. This policy does not anticipate every situation that might occur with respect to transgender or gender non-conforming members, and the needs of each transgender or gender non-conforming member must be assessed on a case-by-case basis.

1045.2 DEFINITIONS

The definitions provided are not intended to label individuals, but rather to assist in understanding this policy.

Gender Expression - An individual's external and social characteristics and behaviors (such as appearance, dress, mannerisms, speech, and social interactions) that may be perceived as masculine, feminine, or androgynous.

Gender Fluid/Genderfluid - A person whose gender identification and presentation shifts, whether within or outside of societal, gender-based expectations. Being fluid in motion between two or more genders.

Gender Identity - An individual's internal sense of being male or female, or something not defined by traditional definitions of male or female.

Gender Non-Conforming - Individuals who display gender traits which are not generally associated with their birth-assigned sex. Gender non-conforming individuals may or may not identify as male, female, or transgender. Also known as gender-variant, gender atypical or androgynous. Keep in mind that these expectations can vary across cultures and have changed over time.

LGBTQ+ (sometimes LGBTQIQA) - A common abbreviation that stands for Lesbian, Gay, Bisexual, Transgender, Queer, Intersex, Questioning, and Asexual.

Sexual Orientation - A person's physical and emotional attraction to people of the same and/or other gender. Straight, gay, and bisexual are some ways to describe sexual orientation. It is important to note that sexual orientation is distinct from gender identity and expression. Transgender people can be straight, gay, lesbian, or bisexual, just like non-transgender people.

Transgender - Individuals with a gender identity that is different from the sex assigned to them at birth. Someone who was assigned the male sex at birth but who identifies as female is a transgender woman. Likewise, a person assigned the female sex at birth but who identifies as male is a transgender man. Some individuals who would fit this definition of transgender do not identify themselves as such, and identify simply as men and women, consistent with their gender identity. The guidance discussed in this policy applies whether or not a particular individual self-identifies as transgender.

Transition - The process of changing one's gender from the sex assigned at birth to one's gender identity. There are many different ways to transition. These individuals often seek some form of medical treatment such as counseling, hormone therapy, electrolysis, and reassignment surgery. Some individuals, however, will not pursue some (or any) forms of medical treatment. Transitioning may also include the emotional task of telling one's family, friends, and co-workers, and the process of changing one's name and gender on legal documents and identification.

1045.3 TRANSITIONING EMPLOYEES

Transitioning individuals have the right to openly be who they are. This means that while transitioning employees will still be expected to conduct their professional responsibilities, they may express their gender identity without fear of discrimination or harassment. With that right comes the expectation that they will work with others to ensure their needs are understood and that there will also be expectations made of them. It is important they do their part to make their transition in the workplace successful.

1045.4 PRIVACY/CONFIDENTIALITY

A member's transition should be treated with as much sensitivity and confidentiality as any other member who is going through a significant life experience. Transgender members have the right to discuss their gender identity or expression openly, or to keep that information private. The transgender member decides when, with whom, and how much to share their private information. If a transgender member does choose to share information about their own gender transition, they are reminded that they are still subject to the Policy § 328- Discrimination, Harassment & Retaliation.

Members should not disclose information that may reveal a member's transgender status or gender non-conforming presentation to others without the member's permission, except where legally required. Information about a member's transgender status (such as the sex they were assigned at birth) can constitute confidential medical information under privacy laws like HIPAA. That kind of personal or confidential information may only be shared with the transgender member's consent and with co-workers who truly need to know to do their jobs. If the member is in the process of transitioning from one gender to another, guidance for preparing co-workers and providing workplace sensitivity training is presented in the section below titled Transitioning on the Job.

1045.5 TRANSITIONING ON THE JOB

Transgender members who transition on the job can expect the support of Department management and Personnel staff. The Employee Service Coordinator (ESC) will work with each transitioning member individually to ensure a successful workplace transition.

Any member, who desires to transition from one gender to another, is strongly encouraged to contact the ESC. This initial contact may also be requested by the member's supervisor or other staff with the consent of the transitioning member. ESC will work with the transgender member to assist them in making the transition as smooth as possible. ESC will assist the member with name changes on Department paperwork and computer systems, will work as a liaison with the member's unit of assignment to assist with changes in restroom and/or locker room accessibility if requested, and can help to coordinate educational training for the member's co-workers prior to the transition date. The ESC should periodically contact the transitioning member to determine if the member has any concerns.

The transitioning member's Commander should also assign a supervisor (minimum rank of sergeant/ supervisor) from their staff to act as the member's primary point of contact regarding transition issues while at work on a day-to-day basis. This supervisor should be educated on basic transgender terminology and transition issues, and familiar with Administrative Order 2-39. This supervisor should be supportive to the transitioning member. A guide to developing a Workplace Transition Plan is attached at the end of this Policy.

1045.6 SUPERVISOR/MANAGER RESPONSIBILITIES

It is important that supervisors and managers demonstrate an understanding and sensitive approach to the needs and concerns of employees who are transitioning, as their support is critical. It may be frightening to an employee to make themselves vulnerable to a person in a supervisory capacity.

If an employee informs a supervisor or manager of their desire to transition or if an individual in the workplace is currently transitioning, it is the supervisor's or manager's professional responsibility to ensure that the employee is not the target of discrimination or harassment and that compliance is maintained with the city's policy. Any employee's failure to comply with the non-discrimination policy could result in corrective action, including termination of their employment.

Supervisors and managers are not expected to understand all of the employee's needs, but are expected to fully inform themselves and provide the necessary support to enable the individual to receive the assistance they need in a respectful manner. The employee would like to feel confident that the individuals who will help plan their workplace gender transition will take steps to inform themselves about transgender issues.

Supervisors/Managers should:

- (a) Make it clear that the conversation will be held in confidence, not only to ensure the employee's rights are protected but also help avoid inadvertent violations of the employee's right to medical privacy.
- (b) Obtain permission from the employee prior to discussing the transition with or seeking further assistance from anyone, including other staff, your own supervisor, other managers, and the ESC.
- (c) Listen carefully to what the individual is telling you about how they want the workplace transition to proceed.
- (d) Become informed. See the Resources section of this guide as a starting point. Let the employee know that you are taking steps to educate yourself about how you can assist their workplace gender transition, and let the employee also know that you welcome their input.
- (e) Remind them about the additional resources available to them, such as the Employee Assistance Program.
- (f) Make sure the employee is aware of the city's protocols, procedures and encourage them to contact the ESC with any questions or feedback.
- (g) Familiarize themselves with Administrative Order 2-39.

Supervisors/Managers should **NOT**:

- (a) Ask the employee about their medical decisions, as medical information is private and protected by law. If the employee needs time off for medical care or recovery, follow the same steps used for any request for time off for medical reasons.

1045.7 OFFICIAL RECORDS

Transgender members have the right to be addressed by the name and pronoun corresponding to the member's gender identity. The Department will change a member's official record to reflect a change in name and/or gender upon presentation of a current California Driver's License or California Identification Card in the member's new name and/or gender. Information Technology Section should be contacted to change the member's name in the Outlook Address Book database and in HRP

If a new or transitioning member has questions about Department records, identification cards, transitioning on the job, or other transgender-related issues, the member should contact the Employee Services Coordinator.

1045.8 NAMES/ PRONOUNS

A member has the right to be addressed by the name and pronoun that correspond to the member's gender identity, upon request. A court-ordered name or gender change is not required. The intentional or persistent refusal to respect a member's gender identity (for example, intentionally referring to the member by a name or pronoun that does not correspond to the member's gender identity) can constitute harassment and is a violation of Policy § 328- Discrimination, Harassment & Retaliation. When unsure what name or pronoun a transitioning co-worker might prefer, members may politely ask the transitioning co-worker how they would like to be addressed.

Supervisors and managers shall use the name and pronoun requested by the member, regardless of the supervisor's perception of the member's gender expression. Supervisors and managers should also monitor the workplace regularly to make sure co-workers are using the member's desired name and pronoun.

1045.9 RESTROOM ACCESSIBILITY

Members shall have access to restrooms corresponding to their gender identity. Any member who has a need or desire for increased privacy, regardless of the underlying reason, will be provided access to a single stall or private restroom, when available. However, no member shall be required to use such a restroom. All members have a right to safe and appropriate restroom facilities, including the right to use a restroom that corresponds to the member's gender identity, regardless of the member's sex assigned at birth. The decision about which restroom to use should be left to the transgender member to determine the most appropriate and comfortable option for them. (California Protections for Transgender Individuals, AB 1732: The Equal Restroom Access Act, City of Fresno Administrative Order 2-39)

Some members – transgender or non-transgender – may desire additional privacy. Where possible, the effected unit should make available a unisex private or single-stall restroom that can be used by any member who has a need for increased privacy, regardless of the reason. If a single-stall restroom is not available, another option might be to install an "Occupied / Unoccupied" sign and an interior slide lock on the door of a multi-stall restroom, which could be used by any member desiring additional privacy. Under no circumstances may the Department require a member to use facilities that are unsanitary, potentially unsafe for the member, or located at an unreasonable distance from the member's work station.

1045.10 LOCKER ROOM ACCESSIBILITY

All members have the right to use the locker room that corresponds to their gender identity. Transitioning members are not required to provide proof or have undergone any particular medical procedure (including gender reassignment surgery) in order to have access to facilities designated for use by a particular gender. Any member who has a need or desire for increased privacy, regardless of the underlying reason, may be provided with a reasonable alternative changing area, such as the use of a private room. A member's schedule may also be slightly adjusted so that they may use the locker room that corresponds to their gender identity before or after other members. Any alternative arrangement for a transgender member will be provided in a way that allows the member to keep their transgender status confidential, according to their needs.

1045.11 DRESS CODE

Transgender and gender non-conforming members may wear clothing and hair consistent with their gender identity. Transgender and gender non-conforming members must still comply with Department dress codes and grooming standards in a manner consistent with their gender identity or gender expression.

1045.12 SEX-SEGREGATED JOB ASSIGNMENTS

For sex-segregated jobs, transgender employees will be classified and assigned in a manner consistent with their gender identity, not their sex assigned at birth.

Gender Transition Plan Guide

This sample Transition Plan addresses some of the processes that may occur during a member transition. This sample plan should be customized to fit your unit's staffing structure and procedures, and should be modified individually with each transitioning member to meet their individual needs.

Once a tentative Transition Plan has been agreed on, the Employee Service Coordinator (ESC), the members commander, assigned supervisor, and the transitioning member must work together to see that each portion of the plan is addressed. It is important to remember that this plan is flexible and is completely up to the transitioning member. Every member is different and the individual needs of one member may be different than the needs of the member authoring the plan.

Before Gender Transition Begins:

- 1) If the member's Commander has been contacted first, the Commander should immediately notify the ESC so that a liaison may be assigned to the transitioning member with the member's consent. If the ESC is contacted first, ESC personnel should notify the member's Commander as soon as possible.
- 2) An initial meeting should be set up with the transitioning member, their assigned ESC liaison, and a supervisor from their unit of assignment who has been assigned as their primary point of contact. Copies of the Department's transgender-related policies and the availability of transition-related support through Employee Services should be made available to the member.
- 3) Next, if the transitioning member's immediate supervisor was not the first point of contact, a meeting between the ESC liaison and the member's supervisor(s) should be scheduled, with the member's consent, to ensure the supervisor knows of the member's planned transition. The transitioning member may or may not want to attend this meeting.

Note: Management above the transitioning member's supervisor should be made aware of the member's planned transition so that supervisors and management can express their support when the member's transition is made known to the member's co-workers.

- 4) Create a Transition Plan. Make sure it addresses all of the following areas:
 - (a) The date when the transition will officially and formally occur. This means the date that the member will change their gender expression, name, and pronouns. The transitioning member may or may not choose to begin using the restroom and locker room associated with their gender identity on this same date.
 - (b) Decide how, and in what format, the transitioning member's co-workers should be made aware of the member's transition. It is up to the transitioning member to decide if they would like to make some co-workers aware of their transition on a one-on-one basis before it is officially announced.
 - (c) Decide what, if any, training will be given to co-workers. Training may be provided before, during or after transition.
 - (d) Determine what updates should be made to the transitioning member's records and email address, and when these updates will be made.
 - (e) Determine dates of any leave, if needed, for pre-scheduled medical procedures.

The Day the Gender Transition Will Be Made Known to Co-Workers:

- 1) If the transitioning employee has decided, the announcement will be made in a briefing/meeting that includes the member's co-workers, the member's supervisors, and the member's Commander and/or Operations staff. The assigned ESC liaison and support personnel from Employee Services should also attend. It is up to the member whether they feel comfortable attending or would prefer not to be there.
- 2) Preferably, the Commander should announce the transition, along with any other high level management who can attend, showing solidarity with the transitioning member. The speaking supervisor should:
 - (a) Emphasize the transitioning member's importance within the Department and management's complete support of the member's transition.
 - (b) Review the Department's Policy § 328- Discrimination, Harassment & Retaliation
 - (c) Indicate that the transitioning member will be presenting themselves in accordance with their gender identity and this should be respected. The supervisor should also advise co-workers about the transitioning member's new name and preferred pronoun which must be used from this point forward.
 - (d) Address bathroom/locker room concerns.
 - (e) Be an example by using the transitioning member's new name and pronoun.
 - (f) Make a point that the Chief of Police and the City of Fresno are inclusive employers and disrespectful behaviors will not be tolerated.
 - (g) Solicit any questions. Refer questions to the ESC or ES representatives if appropriate.
 - (h) If training is going to occur, the date should be announced at this meeting. If possible, the training should occur before the date of the member's official workplace transition.

The First Day of the Member's Official Workplace Transition:

The transitioning member's supervisor should be clear that all elements are in place, in the same way the supervisor would for a new hire or transferred member. These elements include:

- 1) Making sure the transitioning member has a new Department ID, name tag, if required.
- 2) Making sure the member has an updated locker assignment if necessary.
- 3) Ensuring all work documents and workstations (i.e. mailboxes, business cards, computer log in's, e-mails, etc.) have the appropriate name and gender.
- 4) Continue monitoring the workplace to ensure co-workers are using the member's new name and pronoun and continuing to monitor the workplace to stop inappropriate behaviors or comments.
