

Cool It. Can It. Trash It.

Coals, ash, and fireworks can stay hot for hours – or even days – and may cause fires in your cart or our trucks. Always make sure they're completely out before disposal.

Follow these steps for safe disposal of coals, ash, and fireworks:

1. Let coals, ash, and fireworks cool for 48 hours or soak in water for 1 hour
2. Wrap in foil or place in a noncombustible metal container
3. Toss in your gray garbage cart
