

FIREFIGHTER

DEFINITION

Under close supervision, responds to fire incidents and emergency calls with a fire company; participates in fire prevention programs; may be assigned to a paramedic unit.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from a Fire Captain or other superior officers. Exercises no supervision.

DISTINGUISHING CHARACTERISTICS

Incumbents in this class perform the full range of firefighting duties in the protection of life and property. Duties are usually performed under emergency conditions, frequently involving considerable hazards. Firefighters receive thorough training in current firefighting techniques and equipment, fire prevention, emergency medical care, CPR, salvage, and related activities. After successful completion of the probationary period, incumbents may have the opportunity to receive paramedic training and be assigned as a firefighter/paramedic.

This classification is distinguished from Firefighter Specialist in that incumbents of the latter operate fire apparatus or perform fire investigation duties. This classification is distinguished from Firefighter Trainee in that the latter is an entry level training classification.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES

May include, but not limited to the following:

Participates in the rescue of persons, administration of first aid, connecting and laying of hose lines, placement of ladders, ventilation of buildings, placement of salvage covers, handling of hazardous materials, and in clean-up operations, and returning all fire equipment after use.
