APPENDIX G/INITIAL STUDY FOR A NEGATIVE DECLARATION

Environmental Checklist Form for:
937-943 F Street (Peacock Building Acquisition and Demolition)

1.	**Project Title:** 937-943 F Street (Peacock Building Acquisition, Demolition, and Construction of Housing)
2.	**Lead Agency Name and Address:** City of Fresno Housing Production Division, Planning and Development 2600 Fresno Street Fresno, CA 93721
3.	**Contact Person and Phone Number:** Danny Tohme, Projects Administrator City of Fresno Housing Production Division, Planning and Development (559) 621-8055
4.	**Project Location:** The Project site consists of a 0.33-acre developed lot located at 937-943 F Street, Fresno, California 93706; Assessor's Parcel Number (APN) 467-074-02 (Figure 1).
5.	**Project Sponsor's Name and Address:** City of Fresno Housing Production Division, Planning and Development 2600 Fresno Street Fresno, California 93721
6.	**General and Community Plan Land Use Designation:** The Project site is within the Downtown Neighborhood (DTN) land use designation and is immediately surrounded by existing commercial uses within the DTN land use designation in all directions.
7.	**Zoning:** The Project site is zoned DTN and is immediately surrounded by existing commercial uses zoned DTN in all directions.

8. **Description of Project:**

The 937-943 F Street Project (Project) includes the acquisition and demolition of an existing building located at 937-945 F Street in the City of Fresno to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The Project site consists of a 0.33-acre lot (APN 467-074-02) zoned DTN.

The proposed Project includes the acquisition and demolition of an existing 12,568-square-foot steel/masonry building that was originally constructed in 1940 and is in fair to poor condition. The building and ancillary structures are currently vacant but have been previously used for mixed-commercial land uses.

Following acquisition and demolition activities, the proposed Project would include the construction of a four-story mixed-use building consisting of up to 100 new residential units, which may consist of affordable and market-rate housing units and commercial uses. The first floor would consist of commercial uses and the second through fourth floors would consist of residential units. The specific commercial uses are currently not known but would be limited to small retail stores. The proposed Project would result in approximately 75 to 150 new residents depending on the final unit mix. The proposed Project is expected to result in approximately 665 daily vehicle trips. Specific design plans are currently not available; however, the proposed Project would be 60 feet in height and would include architecture and design materials consistent with the surrounding neighborhood.

Proposed construction activities would result in limited ground-disturbing activities over the 0.33-acre Project site. Ground-disturbing activities would have a maximum 10-foot excavation depth. Demolition activities are expected to occur over a 30- to 60-day period beginning in mid- to late 2025. Demolition activities are expected to require the use of typical construction equipment for demolition and would result in a total of approximately 50 total truck trips. Construction of the new mixed-use building is expected to occur over a 2-year period beginning in early 2026. Construction activities are expected to require the use of typical construction equipment and would result in a total of approximately 500 total truck trips. The exact staging area for construction activities is currently not known; however, it would be located entirely within a nearby developed area.

9. **Surrounding land uses and setting:**

	Planned Land Use	Existing Zoning	Existing Land Use
North	DTN	DTN	DTN
East	DTN	DTN	DTN
South	DTN	DTN	DTN
West	DTN	DTN	DTN

10.	**Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement):** San Joaquin Valley Air Pollution Control District Permit(s)
11.	**Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code (PRC) Section 21080.3.1? If so, has consultation begun?** The State of California (State) requires lead agencies to consider the potential effects of proposed projects and consult with California Native American Tribes during the local planning process for the purpose of protecting Traditional Tribal Cultural Resources through the California Environmental Quality Act (CEQA) Guidelines. Pursuant to California Public Resources Code (PRC) 21080.3.1, before public distribution of the document, the lead agency shall begin consultation with the California Native American Tribe that is traditionally and culturally affiliated with the geographical area of the proposed Project. Such significant cultural resources are either sites, features, places, cultural landscapes, sacred places, and objects with cultural value to a Tribe that is either included in or eligible for inclusion in the California Register of Historical Resources (CRHR) or local historic register, or the lead agency, at its discretion, and supported by substantial evidence, chooses to treat the resources as a tribal cultural resource (PRC 21074(a)(1–2)). According to the most recent census data, California is home to 109 currently recognized Native American Tribes. Tribes in California currently have nearly 100 separate reservations or rancherias. Fresno County has a number of rancherias, including Table Mountain, Millerton, Big Sandy, Cold Springs, and Squaw Valley; these rancherias are not located within the City limits. Conducting consultation early in the CEQA process allows tribal governments, lead agencies, and project proponents to discuss the level of environmental review; identify and address potential adverse impacts to tribal cultural resources; and reduce the potential for delay and conflict in the environmental review process (see PRC 21083.3.2). Information may also be available from the California Native American Heritage Commission (NAHC) Sacred Lands File (SLF) per PRC 5097.96 and the California Historical Resources Information System (CHRIS) administered by the California Office of Historic Preservation (OHP). Please also note that PRC 21082.3(c) contains provisions specific to confidentiality. Pursuant to Assembly Bill (AB) 52, Native American Tribes traditionally and culturally affiliated with the Project area were invited to consult regarding the proposed Project based on a list of contacts provided by the NAHC. The City mailed notices of the Project to each of these Tribes on July 30, 2024, and the required 30-day time period for Tribes to request consultation ended on September 3, 2024. One letter response was received from Robert Pennell, Tribal Cultural Resources Director for the Table Mountain Rancheria, in a letter dated August 16, 2024, stating that they " . . . Decline participation at this time but would appreciate being notified in the unlikely event that cultural resources are identified." All other Tribes that were contacted declined consultation.

Figure 1. Project Location Map.

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a “Potentially Significant Impact” as indicated by the checklist on the following pages.

☐	Aesthetics	☐	Agriculture and Forestry Resources
☐	Air Quality	☐	Biological Resources
☐	Cultural Resources	☐	Energy
☐	Geology/Soils	☐	Greenhouse Gas Emissions
☐	Hazards and Hazardous Materials	☐	Hydrology/Water Quality
☐	Land Use/Planning	☐	Mineral Resources
☐	Noise	☐	Population/Housing
☐	Public Services	☐	Recreation
☐	Transportation	☐	Tribal Cultural Resources
☐	Utilities/Service Systems	☐	Wildfire
☐	Mandatory Findings of Significance		

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

___	I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
_X_	I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
___	I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT (EIR) is required.
___	I find that the proposed project MAY have a “potentially significant impact” or “potentially significant unless mitigated” impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An EIR is required, but it must analyze only the effects that remain to be addressed.

___	I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Danny Tohme

Danny Tohme, Projects Administrator

7/1/25

Date

EVALUATION OF ENVIRONMENTAL IMPACTS

1. For purposes of this Initial Study, the following answers have the corresponding meanings:
    a. “No Impact” means the specific impact category does not apply to the project, or that the record sufficiently demonstrates that project specific factors or general standards applicable to the project will result in no impact for the threshold under consideration.
    b. “Less Than Significant Impact” means there is an impact related to the threshold under consideration, but that impact is less than significant.
    c. “Less Than Significant with Mitigation Incorporation” means there is a potentially significant impact related to the threshold under consideration, however, with the mitigation incorporated into the project, the impact is less than significant. For purposes of this Initial Study “mitigation incorporated into the project” means mitigation developed specifically for an individual project.
    d. “Potentially Significant Impact” means there is substantial evidence that an effect may be significant related to the threshold under consideration.
2. A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A “No Impact” answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A “No Impact” answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
3. All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

4. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. “Potentially Significant Impact” is appropriate if there is substantial evidence that an effect may be significant. If there are one or more “Potentially Significant Impact” entries when the determination is made, an EIR is required.
5. “Negative Declaration: Less Than Significant With Mitigation Incorporated” applies where the incorporation of mitigation measures has reduced an effect from “Potentially Significant Impact” to a “Less Than Significant Impact.” The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from, “Earlier Analyses,” as described in (6) below, may be cross-referenced).
6. Earlier analyses may be used where, pursuant to the tiering or another CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
    a. Earlier Analysis Used. Identify and state where they are available for review.
    b. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in another earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
    c. Mitigation Measures. For effects that are “Less than Significant with Mitigation Measures Incorporated,” describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
7. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
8. Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
9. The explanation of each issue should identify:
    a. The significance criteria or threshold, if any, used to evaluate each question; and
    b. The mitigation measure identified, if any, to reduce the impact to less than significance.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
I. AESTHETICS – Except as provided in PRC Section 21099, would the project:				
a) Have a substantial adverse effect on a scenic vista?				X
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?				X
c) In non-urbanized areas, substantially degrade the existing visual character or quality public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?			X	
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?			X	

DISCUSSION

a) Have a substantial adverse effect on a scenic vista?

A scenic vista is a viewpoint that provides expansive views of a highly valued landscape for the public's benefit. The City-approved *Fresno General Plan* identifies six locations along the San Joaquin River bluffs as designated vista points from which views should be maintained. Scenic vistas within the City of Fresno Planning Area could provide distant views of features such as the San Joaquin River to the north and the foothills of the Sierra Nevada to the east. The Project site is not located within any of the scenic vista points identified in the City's General Plan; therefore, the construction of a new four-story mixed-use building would not alter views of any identified scenic vistas. Therefore, *no impact* related to scenic vistas would occur.

b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?

According to the California Department of Transportation (Caltrans) State Scenic Highway Mapping System,[1] there are no eligible or officially designated State Scenic Highways within the City of Fresno. Fresno County has three eligible State Scenic Highways; the nearest eligible highways include a portion of State Route 180, located approximately 7 miles east of the City, and a portion of State Route 168, located approximately 5 miles east of the City. The nearest officially designated State Scenic Highway is located more than 30 miles northeast of the City within Madera County. Since there are no eligible or officially designated State Scenic Highways in close proximity to the Project site, the proposed Project would not damage scenic resources within a designated State scenic highway; therefore, *no impact* would occur.

c) In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?

The Project site is located in an urbanized area and consists entirely of an existing 12,568-square-foot building and associated developed areas. The Project site is within the DTN land use and zoning designation and is immediately surrounded by existing commercial uses within the DTN land use and zoning designation in all directions. Surrounding buildings are approximately four stories tall. The Project site and surrounding area are characterized by relatively flat topography. There are scattered ornamental trees located along the Project frontage. There are no surface water features located within or adjacent to the Project site.

The DTN land use and zoning designation allows for lively, walkable, mixed-use urban neighborhoods surrounding the Downtown Core and Downtown General areas. It allows new buildings to be up to six stories in height located at or near the sidewalk. Ground floor spaces will have active frontages with commercial uses, retail uses, multi-family housing, and office activity to support active streetscapes and walking. Upper floors and the floor area behind storefronts accommodate a wide variety of office, civic, lodging, housing, or additional commercial uses.

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new mixed-use building. The proposed Project would be four stories tall and approximately 60 feet in height, which would be consistent with the height of surrounding buildings and the allowable height requirements of the DTN zone. Specific design plans are currently not available; however, the proposed Project would be 60 feet in height and would include architecture and design materials consistent

[1] California Department of Transportation (Caltrans). 2024. Scenic Highways: California State Scenic Highways. Available at: https://dot.ca.gov/programs/design/lap-landscape-architecture-and-community-livability/lap-liv-i-scenic-highways. Accessed August 2024.

with the surrounding neighborhood. The proposed Project would be consistent with the DTN zone and the visual character of the surrounding area and would not conflict with applicable zoning or other regulations governing scenic quality. Therefore, impacts would be *less than significant*.

d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?

The Project site is located in an urbanized area and existing sources of outdoor lighting include lighting from surrounding developments, streetlighting, and intermittent vehicle headlights. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. Proposed demolition and construction activities would be limited to daytime hours (8:00 a.m.–5:00 p.m.) and would not require the installation of temporary nighttime lighting. Following construction activities, the proposed Project would result in a marginal increase in outdoor lighting within the Project area. New outdoor lighting would be required to comply with Section 15-2015 (Outdoor Lighting and Illumination) of the City's Municipal Code, used for illumination purposes only, and pointed downward to avoid light spillover to surrounding land uses. Based on compliance with the City's Municipal Code, the proposed Project would not create a new source of light and glare, and impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
II. AGRICULTURE AND FORESTRY RESOURCES – In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts to agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the State's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:				
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				X
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?				X
c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?				X
d) Result in the loss of forest land or conversion of forest land to non-forest use?				X

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?				X

DISCUSSION

a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

The Project site and surrounding area are underlain by land designated by the California Department of Conservation Farmland Mapping and Monitoring Program (FMMP)[2] as Urban and Built-Up Land. Therefore, the proposed Project would not convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance to a non-agricultural use, and *no impact* would occur.

b) Conflict with existing zoning for agricultural use or a Williamson Act contract?

The Project site and surrounding parcels are located in the City's DTN land use and zoning designation. The Project site is not within or adjacent to land within the Agriculture zoning district. Further, the Project site is not subject to a Williamson Act contract. The proposed Project would not conflict with existing zoning for agricultural use or a Williamson Act contract; therefore, *no impact* would occur.

c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))?

The Project site and surrounding area consist of existing development and are located in an urbanized downtown area in the City of Fresno. The Project site and surrounding area are not within forest land, timberland, or timberland production land use or zoning designations; therefore, the proposed Project would not conflict with the zoning, or cause rezoning of, designated forest land, timberland, or timberland production, and *no impact* would occur.

[2] California Department of Conservation. 2022. California Important Farmland Finder. Available at: https://maps.conservation.ca.gov/DLRP/CIFF/. Accessed August 2024.

d) Result in the loss of forest land or conversion of forest land to non-forest use?

Please refer to *Impact Discussion II.c)*. The proposed Project would not result in the loss of forestland or conversion of forestland to non-forest uses because the Project site is not forested nor is it located near a forested area; therefore, *no impact* would occur.

e) Involve other changes in the existing environment, which, due to their location or nature, could result in conversion of Farmland to non-agricultural use or conversion of forest land to non-forest use?

Please refer to *Impact Discussions II.a)* and *II.c)*. The Project site is located in an existing urbanized area and would not result in the conversion of farmland to non-agricultural uses or forestland to non-forest uses; therefore, *no impact* would occur.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
III. AIR QUALITY – Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
a) Conflict with or obstruct implementation of the applicable air quality plan (*e.g.*, by having potential emissions of regulated criterion pollutants which exceed the San Joaquin Valley Air Pollution Control Districts (SJVAPCD) adopted thresholds for these pollutants)?			X	
b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?			X	

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Expose sensitive receptors to substantial pollutant concentrations?		X		
d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?		X		

DISCUSSION

a) Conflict with or obstruct implementation of the applicable air quality plan?

CEQA requires that certain proposed projects be analyzed for consistency with the applicable air quality plan. An air quality plan describes air pollution control strategies to be implemented by a region, County, or City that is classified as a non-attainment area. The main purpose of the air quality plan is to bring the area into compliance with the requirements of the federal and State air quality standards. Fresno is located within the San Joaquin Valley Air Basin (SJVAB) and is under the jurisdiction of the San Joaquin Valley Air Pollution Control District (SJVAPCD). The SJVAB is designated as Nonattainment-Extreme for the 8-hour ozone standard, Maintenance-Serious for the particulate matter less than 10 microns in diameter (PM_{10}) standard, and Nonattainment-Moderate for the particulate matter less than 2.5 microns in diameter ($PM_{2.5}$) standard under the National Ambient Air Quality Standards (NAAQS). The SJVAB is designated Nonattainment for the 1-hour ozone standard, the 8-hour ozone standard, the PM_{10} standards, and the $PM_{2.5}$ standards under the California Ambient Air Quality Standards (CAAQS).

To bring the SJVAB into attainment, the SJVAPCD adopted the *2022 Plan for the 2015 8-Hour Ozone Standard* (2022 Ozone Plan)[3] in to satisfy Clean Air Act requirements and ensure attainment of the 70 parts per billion (ppb) 8-hour ozone standard. To assure the SJVAB's continued attainment of the U.S. Environmental Protection Agency (USEPA) respirable particulate matter (PM_{10}) standard, the SJVAPCD adopted the *2023 Maintenance Plan and Redesignation Request for the Revoked 1-Hour Ozone Standard* (2023 Maintenance Plan)[4] SJVAPCD Regulation VIII (Fugitive PM_{10} Prohibitions) is designed to reduce PM_{10} emissions generated by

[3] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2022. *2022 Plan for the 2015 8-Hour Ozone Standard*. Adopted December 15. Available at: https://ww2.valleyair.org/media/q55posm0/0000-2022-plan-for-the-2015-8-hour-ozone-standard.pdf. Accessed August 2024.

[4] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2023. *2023 Maintenance Plan and Redesignation Request for the Revoked 1-Hour Ozone Standard*. June 15. Available at: https://ww2.valleyair.org/media/itoegkch/03-adopted-2023-maintenance-plan-and-redesignation-request-for-the-revoked-1-hour-ozone-standard.pdf. Accessed September 2024.

human activity. Additionally, the SJVAPCD adopted the *2024 Plan for the 2012 $PM_{2.5}$ Standard* (2024 $PM_{2.5}$ Plan)[5] to address the USEPA federal annual $PM_{2.5}$ standard of 12 micrograms per cubic meter ($\mu g/m^3$), established in 2012.

The SJVAPCD has established project construction and operational emissions thresholds for criteria pollutants (Table 1).[6] For a project to be consistent with SJVAPCD attainment plans, the pollutants emitted from project operation should not exceed the SJVAPCD daily thresholds, the project should not cause a significant impact on air quality, or the project must already have been included in the attainment plans projection.

Table 1: SJVAPCD Project Construction and Operational Emission Thresholds

	CO	NO_X	ROG	SO_X	PM_{10}	$PM_{2.5}$
Annual Construction Emissions*	100.0	10.0	10.0	27.0	15.0	15.0
Annual Operational Emissions*	100.0	10.0	10.0	27.0	15.0	15.0

Source: SJVAPCD (2015)

Notes: CO = carbon monoxide; NO_X = nitrogen oxides; ROG = reactive organic gas; SO_X = sulfur oxides

* Emission units = Tons per Year (tpy)

As discussed in *Impact Discussion III.b)*, emissions associated with Project activities would not result in the generation of criteria air pollutants that would exceed SJVAPCD thresholds of significance. As discussed in Section XVII, *Transportation*, the proposed Project would not result in substantial or unplanned population growth or associated vehicle trips in a manner that could conflict with the SJVAPCD 2022 Ozone Plan and the 2024 $PM_{2.5}$ Plan. Therefore, the proposed Project would not conflict with or obstruct implementation of SJVAPCD air quality plans, and impacts would be *less than significant*.

b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?

As discussed in *Impact Discussion III.a)*, the SJVAPCD establishes thresholds for carbon monoxide (CO), nitrogen oxides (NO_X), reactive organic gases (ROG), sulfur oxides (SO_X), PM_{10}, or $PM_{2.5}$. CEQA defines a cumulative impact as two or more individual effects that, when considered together, are considerable or that compound or increase other environmental impacts. Therefore, if annual emissions of

[5] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2024. *2024 Plan for the 2012 $PM_{2.5}$ Standards*. June 20. Available at: https://ww2.valleyair.org/media/gw5bacvj/2024-pm25-plan.pdf. Accessed September 2024.

[6] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2015a. *Air Quality Thresholds of Significance – Criteria Pollutants*. Available at: http://www.valleyair.org/transportation/0714-GAMAQI-Criteria-Pollutant-Thresholds-of-Significance.pdf. Accessed August 2024.

construction- or operational-related criteria air pollutants exceed any applicable thresholds established by the SJVAPCD, the proposed Project would result in a cumulatively significant impact.

To aid in evaluating potentially significant construction and operational impacts of a project, the SJVAPCD has prepared an advisory document, the *Guidance for Assessing and Mitigating Air Quality Impacts* (GAMAQI),[7] which contains standard procedures for addressing air quality. The GAMAQI presents a three-tiered approach to air quality analysis. The Small Project Analysis Level (SPAL) is first used to screen the project for potentially significant impacts. A project that meets the screening criteria at this level requires no further analysis and air quality impacts of the project may be deemed less than significant. If a project does not meet all the criteria at this screening level, additional screening is recommended at the Cursory Analysis Level and, if warranted, the Full Analysis Level. The SPAL thresholds are provided by project type and by number of vehicle trips. For a mid-rise apartment building, the size threshold is 225 units, and the vehicle trip threshold is less than 800 trips per day.[8] The proposed Project would result in up to 100 residential units and is expected to generate 665 daily vehicle trips, which is less than 225 units and 800 vehicle trips per day. Therefore, the proposed Project would be consistent with the SPAL screening thresholds for mid-rise apartment units and trip generation rates and would not require further air quality analysis as construction-related and operational emissions would fall below the thresholds established by the SJVAPCD. Therefore, impacts related to construction and operational air emissions would be *less than significant*

The SPAL analysis covers the construction and operation of the proposed affordable housing development. In order to conservatively analyze the proposed Project's potential air emissions, the air emissions associated with demolition of the existing building have been estimated separately. The proposed Project includes the acquisition and demolition of an existing 12,568-square-foot building. Proposed demolition activities have the potential to generate fugitive dust and combustion emissions that may have substantial temporary impacts to local air quality. Fugitive dust emissions would result from demolition and limited ground-disturbing activities and trip generation. Combustion emissions, such as NO_X and PM_{10}, are most significant when using large diesel-fueled scrapers, loaders, bulldozers, haul trucks, compressors, generators, and other types of equipment.

Estimated demolition air emissions were calculated for the proposed Project using the California Emissions Estimator Model (CalEEMod). The CalEEMod results are

[7] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2015b. *Guidance for Assessing and Mitigating Air Quality Impacts*. March 19. Available at: https://www.valleyair.org/media/g4nl3p0g/gamaqi.pdf. Accessed March 2024.

[8] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2020. Small Project Analysis Levels (SPAL). November 13. Available at: https://www.valleyair.org/transportation/CEQA%20Rules/GAMAQI-SPAL.PDF. Accessed March 2024.

included in Appendix A, and the results of the unmitigated estimated demolition emission calculations for the proposed Project are shown in Table 2.[9]

Table 2: Annual Demolition Emissions for the Proposed Project

Source	Criteria Pollutant (TPY)					
	ROG	**NO_X**	**CO**	**SO_X**	**PM_{10}**	**$PM_{2.5}$**
Project Demolition	0.01	0.05	0.06	<0.005	0.01	<0.005
SJVAPCD Threshold	10	10	100	27	15	15
Exceed threshold?	***No***	***No***	***No***	***No***	***No***	***No***

Source: California Air Pollution Control Officers Association (CAPCOA) (2024); Appendix A

Note: TPY = tons per year

Based on the results shown in Table 2, demolition air emissions would be in compliance with the SJVAPCD thresholds for all pollutants; therefore, demolition-related impacts would be *less than significant*.

Conclusion

Based on the analysis provided above, the proposed Project would not exceed SJVAPCD established significance thresholds for CO, NO_X, ROG, SO_X, PM_{10}, or $PM_{2.5}$ emissions during demolition, construction, or operation. Therefore, the proposed Project would not result in a cumulatively considerable contribution to a net increase of any criteria pollutant for which the Project region is in non-attainment, and impacts would be *less than significant*.

c) Expose sensitive receptors to substantial pollutant concentrations?

Sensitive receptors are people that have an increased sensitivity to air pollution or environmental contaminants, such as the elderly, children, people with asthma or other respiratory illnesses, and others who are at a heightened risk of negative health outcomes due to exposure to air pollution. Some land uses are considered more sensitive to changes in air quality than others due to the population that occupies the uses and the activities involved. Sensitive receptor locations include schools, parks and playgrounds, day care centers, nursing homes, hospitals, and residences.

The nearest sensitive receptors to the Project site include residential dwelling units, located approximately 900 feet northeast of the Project site. Due to this proximity, proposed demolition and construction activities associated with the proposed Project have the potential to expose nearby residents to short-term demolition and construction-related emissions. As discussed in *Impact Discussion III.b)*, construction

[9] California Air Pollution Control Officers Association (CAPCOA). 2024. California Emissions Estimator Model (CalEEMod). Available at: https://www.caleemod.com/. Accessed July 2024.

of the proposed Project would generate emissions, including diesel particulate matter (diesel PM) and fugitive dust. Construction and operational emissions would not exceed SJVAPCD thresholds; however, due to the close proximity of sensitive receptors, compliance with the SJVAPCD Standard Regulation VIII Control Measures and Mitigation Measures AQ-1 through AQ-3 would be required to reduce the potential for a nuisance and exposure to diesel PM and fugitive dust. Potential impacts related to the exposure of sensitive receptors to other emissions are included in *Impact Discussion III.d)*. The proposed Project includes acquisition and demolition activities to allow for the construction of a residential and commercial mixed-use building. Commercial uses would be limited to small retail stores, and no operational activities are proposed that could expose sensitive receptors to substantial long-term pollutant concentrations; therefore, potential impacts would be *less than significant with mitigation*.

d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?

Construction activities generally have the potential to emit odors from diesel equipment, paints, solvents, fugitive dust, and adhesives. Any odors generated by construction activities would be intermittent and temporary, and generally would not extend beyond the construction area. Any construction odors would be temporary and limited to the construction phase of the proposed Project. The proposed Project includes acquisition and demolition activities to allow for the construction of a residential and commercial mixed-use building. Commercial uses would be limited to small retail stores; therefore, no operational activities are proposed that could produce any offensive odors, including land uses such as agricultural activities, feedlots, wastewater treatment facilities, landfills, or heavy manufacturing uses.

The proposed Project is not located in an area with known potential for naturally occurring asbestos (NOA).[10] Therefore, construction activities would not have the potential to expose workers or surrounding land uses to harmful levels of NOA. Asbestos-containing material (ACM) and lead-based paint (LBP) may be present in buildings built prior to 1978. The existing building was first developed in the early 1900s, with redevelopment occurring in 1918 and the 1930s; therefore, there is potential that ACM and LBP may be present. Mitigation Measures AQ-4 and AQ-5 have been included to require ACM and LBP testing and identify the proper protocol for the handling and removal of ACM and LBP if identified within materials proposed for demolition. With implementation of Mitigation Measures AQ-4 and AQ-5, the proposed Project would not result in odors or other emissions; therefore, impacts would be *less than significant with mitigation*.

[10] California Geological Survey (CGS). 2011. *Reported Historic Asbestos Mines, Historic Asbestos Prospects, and Other Natural Occurrences of Asbestos in California*.

Mitigation Measures

AQ-1 **Permit Requirements.** Prior to ground disturbance and construction, the Construction Contractor shall obtain all required permits for dust control and the use of portable equipment, 50 horsepower or greater, from the San Joaquin Valley Air Pollution Control District. Upon application for construction permits, all required mitigation measures shall be shown on all applicable grading or construction plans and implemented during all applicable grading and construction activities.

AQ-2 **Dust Control Measures.** No person shall perform any construction, demolition, excavation, extraction, or other earth-moving activities unless measures are sufficiently implemented to limit visible dust emissions (VDE) to 20% opacity and comply with the conditions for a stabilized surface area when applicable. In addition to the requirements of this rule, a person shall comply with all other applicable requirements of San Joaquin Valley Air Pollution Control District Regulation VIII. A person shall control the fugitive dust emissions to meet the following requirements:

1. Pre-Activity:
    a. Pre-water site sufficient to limit VDE to 20% opacity, and
    b. Phase work to reduce the amount of disturbed surface area at any one time.
2. During Active Operations:
    a. Apply water or chemical/organic stabilizers/suppressants sufficient to limit VDE to 20% opacity; or
    b. Construct and maintain wind barriers sufficient to limit VDE to 20% opacity. If utilizing wind barriers, control measure 2.a shall also be implemented.
    c. Apply water or chemical/organic stabilizers/suppressants to unpaved haul/access roads and unpaved vehicle/equipment traffic areas sufficient to limit VDE to 20% opacity and meet the conditions of a stabilized unpaved road surface.
3. Temporary Stabilization During Periods of Inactivity:
    a. Restrict vehicular access to the area; and
    b. Apply water or chemical/organic stabilizers/suppressants, sufficient to comply with the conditions of a stabilized surface. If an area having 0.5 acre or more of disturbed surface area remains unused for 7 or more days, the area must comply with the conditions for a stabilized surface area as defined in Section 3.58 of Rule 8011.

AQ-3 **Construction Emissions.** The Project shall utilize clean off-road construction equipment, including the latest tier equipment, where feasible.

AQ-4 **Asbestos-Containing Material.** An asbestos-containing material (ACM) survey consisting of a visual inspection, sampling, testing, and reporting shall be performed by a Certified Asbestos Consultant to determine if building materials contain ACM and would require special handling and disposal during demolition. If ACM is detected, proposed construction activities shall be conducted in full compliance with the requirements stipulated in the National Emission Standards for Hazardous Air Pollutants (NESHAP; 40 Code of Federal Regulations [CFR] 61, Subpart M – National Emission Standard for Asbestos). These requirements include, but are not limited to, the following:

1. Written notification, within at least 10 business days of activities commencing, to the San Joaquin Valley Air Pollution Control District;
2. Preparation of an asbestos survey conducted by a Certified Asbestos Consultant; and
3. Implementation of applicable removal and disposal protocol and requirements for identified naturally occurring asbestos.

AQ-5 **Lead-Based Paint.** A lead-based paint (LBP) survey consisting of a visual inspection, sampling, testing, and reporting shall be performed to determine if building materials within the Project site contain LBP. If elevated concentrations of metals from LBP are detected, construction activities shall be conducted in full compliance with the requirements of Sections 402 and 406 of the Toxic Substances Control Act.

IV. BIOLOGICAL RESOURCES – Would the project:				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?		X		

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?				X
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?				X
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?				X
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?				X
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?				X

DISCUSSION

a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or the U.S. Fish and Wildlife Service?

Short-term construction activities would have the potential to result in direct (e.g., take) or indirect (e.g., light pollution, noise pollution, habitat loss, etc.) impacts to special-status plant and animal species if present within the Project area during Project construction.

Special-Status Plants

Based on a nine-quadrangle query of the California Department of Fish and Wildlife (CDFW) California Natural Diversity Database (CNDDB),[11] a query of the U.S. Fish and Wildlife Service (USFWS) Information for Planning and Consultation (IPaC),[12] and a query of the California Native Plant Society (CNPS) Rare Plant Inventory,[13] the following five special-status plant species have been previously documented in the Project vicinity (Appendix B):

- succulent owl's-clover (*Castilleja campestris* var. *succulenta*) is a California Rare Plant Rank (CRPR) 1B.2 species that typically occurs in vernal pool and wetland areas. The nearest recorded occurrence is approximately 9.2 miles north of the Project site (CNDDB Occ. 7).
- California jewelflower (*Caulanthus californicus*) is a CRPR 1B.1 species that typically occurs in chenopod scrub, pinyon and juniper woodlands, and valley and foothill grasslands. The Project site is located within a 5-mile buffer area of the nearest recorded occurrence (CNDDB Occ. 38).
- San Joaquin Valley Orcutt grass (*Orcuttia inaequalis*) is a CRPR 1B.1 species that typically occurs in vernal pool and wetland habitats. The nearest recorded occurrence is approximately 8 miles north of the Project site (CNDDB Occ. 21).
- hairy Orcutt grass (*Orcuttia pilosa*) is a CRPR 1B.1 species that typically occurs in vernal pool and wetland habitats. The nearest recorded occurrence is approximately 11 miles northwest of the Project site (CNDDB Occ. 28).
- Greene's tuctoria (*Tuctoria greenei*) is a CRPR 1B.1 species that typically occurs in vernal pool and wetland habitats. The nearest recorded occurrence is approximately 13 miles east of the Project site (CNDDB Occ. 17).

[11] California Department of Fish and Wildlife (CDFW). 2024. California Natural Diversity Database. Available at: https://wildlife.ca.gov/Data/CNDDB/Maps-and-Data. Accessed July 2024.

[12] U.S. Fish and Wildlife Service (USFWS). 2024a. Information for Planning and Consultation (IPaC). Available at: https://ipac.ecosphere.fws.gov/. Accessed August 2024.

[13] California Native Plant Society (CNPS). 2024. Rare Plant Inventory. Available at: https://rareplants.cnps.org/. Accessed August 2024.

The Project site is entirely developed with an existing building, ancillary derelict structures, and other hardscapes. There are some ornamental trees scattered throughout the Project site and surrounding area, but there are no other natural features on or adjacent to the Project site that could provide suitable habitat for the special-status plant species listed above. Further, the Project site experiences frequent human and vehicle disturbance, which further reduces the potential for special-status plant species to occur within the Project area. Based on the lack of suitable habitat, developed condition of the Project site, and frequent human, vehicle, and equipment disturbance, special-status plant species are not expected to occur within the Project site; therefore, the proposed Project would not result in adverse effects to special-status plant species and impacts would be *less than significant*.

Special-Status Animals

Based on a query of the USFWS IPaC and a nine-quadrangle query of the CDFW CNDDB, the following 14 special-status animal species have been previously documented in the Project vicinity (see Appendix B):

- San Joaquin kit fox (*Vulpes macrotis mutica*) is a federally endangered and State threatened species that typically occurs in chenopod scrub and valley and foothill grasslands. The nearest recorded occurrence is approximately 8.7 miles northwest of the Project site (CNDDB Occ. 89).
- Fresno kangaroo rat (*Dipodomys nitratoides exilis*) is a federally and State endangered species that typically occurs in chenopod scrub habitat. The nearest recorded occurrence is approximately 3.4 miles northwest of the Project site (CNDDB Occ. 15).
- California tiger salamander – Central California Distinct Population Segment (DPS) (*Ambystoma californiense* pop. 1) is a federally and State threatened species that typically occurs in cismontane woodland, meadow and seep, riparian woodland, valley and foothill grassland, vernal pool, and wetland habitats. The Project site is located within a 5-mile buffer area of the nearest recorded occurrence (CNDDB Occ. 478).
- blunt-nosed leopard lizard (*Gambelia sila*) is a federally and State endangered species that typically occurs in chenopod scrub habitats. The nearest recorded occurrence is approximately 21.2 miles west of the Project site (CNDDB Occ. 207).
- Crotch's bumble bee (*Bombus crotchii*) is a State candidate endangered species that typically occurs in grassland habitats. The Project site is located within a 5-mile buffer area of the nearest recorded occurrence (CNDDB Occ. 53).
- valley elderberry longhorn beetle (*Desmocerus californicus dimorphus*) is a federally threatened species that typically occurs in chenopod scrub habitat. The nearest recorded occurrence is approximately 9.9 miles north of the Project site (CNDDB Occ. 134).

- vernal pool fairy shrimp (*Branchinecta lynchi*) is a federally threatened species that typically occurs in valley and foothill grassland, vernal pool, and wetland habitats. The nearest recorded occurrence is approximately 9.9 miles northeast of the Project site (CNDDB Occ. 148).
- western yellow-billed cuckoo (*Coccyzus americanus occidentalis*) is a federally threatened and State endangered species that typically occurs in riparian forest habitat. The nearest recorded occurrence is approximately 7.7 miles northeast of the Project site (CNDDB Occ. 87).
- Swainson's hawk (*Buteo swainsoni*) is a State threatened species that typically occurs in grassland, riparian forest, riparian woodland, and valley and foothill grassland habitats. The Project site is located within a 5-mile buffer area of the nearest recorded occurrence (CNDDB Occ. 2,583).
- tricolored blackbird (*Agelaius tricolor*) is a State threatened species that typically occurs in freshwater marsh, marsh, swamp, and wetland habitats. The nearest recorded occurrence is approximately 5.7 miles northeast of the Project site (CNDDB Occ. 664).
- western spadefoot (*Spea hammondii*) is a federally proposed threatened species that typically occurs in cismontane woodland, coastal valley scrub, valley and foothill grassland, vernal pool, and wetland habitats. The nearest recorded occurrence is approximately 8.9 miles north of the Project site (CNDDB Occ. 1,246).
- northwestern pond turtle (*Actinemys marmorata*) is a federally proposed threatened species that typically occurs near aquatic habitat. The nearest recorded occurrence is approximately 22.7 miles east of the Project site (CNDDB Occ. 424).
- giant garter snake (*Thamnophis gigas*) is a federally and State threatened species that typically occurs in marsh, swamp, riparian scrub, and wetland habitats. The nearest recorded occurrence is approximately 25.4 miles west of the Project site (CNDDB Occ. 395).
- least Bell's vireo (*Vireo bellii pusillus*) is a federally and State endangered species that typically occurs in riparian forest, riparian scrub, and riparian woodland habitats. The nearest recorded occurrence is approximately 5.7 miles northeast of the Project site (CNDDB Occ. 505).

Special-status animal species known to occur in the region are not expected to occur within the Project area based on the developed condition of the Project site and lack of natural areas and suitable habitat, negligible connectivity to natural areas, and frequent site disturbance; however, there is some potential for migratory bird species to nest in the scattered ornamental trees in the Project area. The proposed Project does not require removal of any existing ornamental trees in the Project area; however, proposed construction activities have the potential to result in indirect disturbance to special-status and nesting migratory bird species if present within the Project area during construction. Mitigation Measure BIO-1 has been included to require a preconstruction nesting bird survey and identifies the proper protocol to be

implemented if birds are found nesting in the Project area. Implementation of Mitigation Measure BIO-1 would avoid and/or minimize potential impacts related to nesting special-status and/or migratory birds during construction. Following construction, the Project site would continue to be covered in hardscapes and would not provide suitable habitat for special-status plants or animals. Project activities would be consistent with the scale of surrounding uses and would not introduce new activities that could result in adverse long-term effects to special-status species. Therefore, impacts related to special-status animal species would be *less than significant with mitigation*.

b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations or by the California Department of Fish and Wildlife or the U.S. Fish and Wildlife Service?

According to the USFWS National Wetlands Inventory (NWI) Surface Waters and Wetlands Mapper,[14] there are no mapped wetland areas within or adjacent to the Project area that could support riparian habitat. In addition, the Project area is entirely developed with existing buildings and other hardscapes, experiences frequent human and vehicle disturbance, and does not support suitable habitat for any sensitive natural communities. The Project site does not support riparian habitat or other sensitive natural communities; therefore, the proposed Project would not result in a substantial adverse effect on any riparian habitat or other sensitive natural community, and *no impact* would occur.

c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?

The entire project site is developed and surrounded by other developed areas. According to the USFWS NWI Surface Waters and Wetlands Mapper, there are no mapped wetland areas within or adjacent to the Project area. Based on the absence of wetlands within the Project area, the proposed Project would not result in a substantial adverse effect on a federally or State-protected wetland; therefore, *no impact* would occur.

d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?

Open space areas, undeveloped land, and agricultural land are mainly located along the boundaries of the City, particularly near the northern boundary along the San Joaquin River corridor. The San Joaquin River corridor functions as a wildlife movement corridor for a number of terrestrial and aquatic mammals and birds. The San Joaquin River corridor facilitates movement of wildlife species from the City to the

[14] U.S. Fish and Wildlife Service (USFWS). 2024b. National Wetlands Inventory (NWI) Surface Waters and Wetlands Mapper. Available at: https://fwsprimary.wim.usgs.gov/wetlands/apps/wetlands-mapper/. Accessed July 2024.

Sierra Nevada to the east and open agricultural land to the west. The Project site is located in a developed, urbanized area in the western portion of the City and is not located within a wildlife movement corridor.

The Project area is entirely developed with existing buildings and other hardscapes, including commercial uses, roadways, fencing, railroad tracks, and other ancillary features, which reduces terrestrial habitat connectivity within the area. There are no waterways in the Project area that could provide migratory fish or breeding habitat. Since the Project area does not provide terrestrial or aquatic habitat connectivity, the proposed Project would not interfere with terrestrial or aquatic wildlife corridors. As previously identified, there is low potential for migratory birds to utilize ornamental trees within the Project area for nesting habitat; however, the proposed Project does not include the removal of any trees that could result in the loss of nesting habitat within the Project area. Therefore, the proposed Project would not interfere substantially with the movement of migratory species, and *no impact* would occur.

e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?

Section 13-305 (Tree Preservation) of the City's Municipal Code requires the use of techniques, methods, and procedures to preserve, whenever feasible, all trees in the City, including, but not limited to, trees that are affecting surface improvements or underground facilities or are diseased or located where construction is being considered or will occur. The proposed Project does not include the removal of any trees that could conflict with the City's Tree Preservation Ordinance; therefore, *no impact* would occur.

f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?

The Pacific Gas and Electric Company (PG&E) San Joaquin Valley Operation and Maintenance Habitat Conservation Plan (O&M HCP)[15] was approved in 2007 and covers portions of nine counties, including Fresno County. The O&M HCP covers PG&E activities that occur as a result of ongoing O&M that would have an adverse impact on any of the 65 covered species and provides incidental take coverage from the USFWS and CDFW. The Project site is not located within the covered area of any HCP, Natural Community Conservation Plan (NCCP), or other adopted local, regional, or State HCP. Therefore, the proposed Project would not conflict with the provisions of the PG&E O&M HCP, and *no impact* would occur.

[15] Pacific Gas and Electric Company (PG&E). 2006. *PG&E San Joaquin Valley Operation & Maintenance Habitat Conservation Plan*. Available at: https://ecos.fws.gov/docs/plan_documents/thcp/thcp_838.pdf. Accessed July 2024.

Mitigation Measures

BIO-1 **Preconstruction Nesting Bird Survey.** Prior to initiation of any site preparation/construction activities, if work is planned to occur between February 1 and September 15, a qualified biologist shall survey the area for nesting birds within 1 week prior to initial project activity beginning, including ground disturbance and/or vegetation removal/trimming. If nesting birds are located on or near the Project site, they shall be avoided until they have successfully fledged, or the nest is no longer deemed active, as detailed below:

1. A 50-foot exclusion zone shall be placed around non-listed, passerine species and a 250-foot exclusion zone shall be implemented for raptor species. Each exclusion zone shall encircle the nest and have a radius of 50 feet (non-listed passerine species) or 250 feet (raptor species). All project activities, including foot and vehicle traffic and storage of supplies and equipment, are prohibited inside exclusion zones. Exclusion zones shall be maintained until all exterior construction activities have been terminated for the current phase of work (e.g., if initial site improvements are completed, exclusion zones may be removed until initiation of site preparation for residence construction begins), or it has been determined by a qualified biologist that the young have fledged or that Project activities would not cause adverse impacts to the nest, adults, eggs, or young.
2. If special-status avian species are identified and nesting within the work area, no work shall begin until an appropriate exclusion zone is determined in consultation with the City of Fresno and any relevant resource agencies.

The results of the survey shall be provided to the City of Fresno prior to initiation of site preparation/construction activities. The results shall detail appropriate fencing or flagging of exclusion zones and include recommendations for additional monitoring requirements. A map of the Project site and nest locations shall be included with the results. The qualified biologist conducting the nesting survey shall have the authority to reduce or increase the recommended exclusion zone depending on site conditions and species (if non-listed).

If 2 weeks lapse between different phases of project activities (e.g., vegetation trimming, the start of grading), during which no or minimal work activity occurs, the nesting bird survey shall be repeated, and a separate survey report shall be prepared and submitted to the City of Fresno.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
V. CULTURAL RESOURCES – Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?		X		
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?		X		
c) Disturb any human remains, including those interred outside of formal cemeteries?			X	

DISCUSSION

a) Cause a substantial adverse change in the significance of a historical resource pursuant to Section 15064.5?

A historical resource, as defined by CEQA, includes one or more of the following criteria: 1) the resource is listed, or found eligible for listing in, the CRHR; 2) the resource is listed in a local register of historical resources as defined by PRC 5020.1(k); 3) the resource is identified as significant in a historical resources survey meeting the requirements of PRC 5024.1(g); or 4) determined to be a historical resource by the project's lead agency (PRC 21084.1; State CEQA Guidelines Section 15064(a)). Under CEQA, historical resources include built environment resources and archaeological sites.

A Cultural Resources Technical Report (CRTR) was prepared for the proposed Project to evaluate potential impacts to historical and cultural archaeological resources.[16] The CRTR evaluates all buildings and structures located at the Project site, including the building located at 937-945 F Street and the associated structure located at 942 Fagan Alley. The CRTR includes findings based on a background review and a field survey of the Project site. The background review included a records search conducted at the Southern San Joaquin Valley Information Center (SSJVIC) located at California State University, Bakersfield, to identify previously recorded historic and cultural resources within the Project area. The background review also consisted of research of property-specific historical information and ethnographic literature focused on historical maps, aerial photographs, ethnographic reports, and

[16] SWCA Environmental Consultants (SWCA). 2024. *Cultural Resources Technical Report for the 937-945 F Street and 942 Fagan Alley Acquisition Project, Fresno, Fresno County, California*. Prepared for City of Fresno.

technical reports prepared for the property. A historical resources survey was conducted on July 22, 2024, to evaluate existing conditions at the Project site and in the surrounding area.

Based on the results of the records search, 67 previously recorded cultural resources are located within a 0.25-mile radius of the Project area and a total of three built environment resources are associated with the Project area, of which two are built environment properties (P-10-005862 and P-10-005874) and one is a district (P-10-004294). Resources P-10-005862 and P-10-005874 consist of the historic-era buildings within the Project area (937-945 F Street and 942 Fagan Alley, respectively), and resource P-10-004294 consists of the Fresno Nihonmachi/Fresno Chinatown area, which includes the Project area. In addition, one previously recorded resource is located adjacent to the Project area: P-10-004270, the former Bank of America/Bank of Italy building at 947-949 F Street.

The 2006 *Chinatown Historic Resource Survey* identified a concentration of buildings in the vicinity of F and Kern Streets that appeared to qualify as a local Chinatown historic district,[17] which was found eligible for the City's Local Register of Historic Resources (LRHR) under Criterion i, as it is associated with events that have made a significant contribution to the broad patterns of our history. Based on the results of the historical research and historical resources survey, the potential LRHR-eligible Local Historic District has been heavily altered and diminished through alterations of individual buildings and complete loss of others, and it is unlikely that the Chinatown Historic District would continue to qualify as an eligible historic resource due to the loss of historic integrity. The built resources that comprise the Project site are identified in the 2006 *Chinatown Historic Resource Survey* as a contributor to the LRHR-eligible Chinatown Historic District. However, these resources have undergone extensive alterations in recent years, further compromising their overall historical integrity and status as an eligible resource. Due to the lack of historic integrity associated with the potential historic district and associated built resources, proposed demolition and construction activities would not result in the adverse change in the significance of a historical resource. While the potential Chinatown Historic District is unlikely to qualify as a historic district within the current environmental and historic preservation frameworks, there is undoubtedly cultural sensitivity and significance related to this particular area of Fresno. Mitigation Measure CR-1 identifies design criteria for the future development to address the potential indirect impacts of the new construction on the adjacent historical resource at 947-951 F Street. In addition, Mitigation Measure CR-2 has been identified to develop interpretive materials to reduce cumulative impacts to historic resources in the Project area. With implementation of Mitigation Measures CR-1 and CR-2, new development at the subject property would be in scale with the overall neighborhood and would not severely detract from the character of the historic building at 947-951 F Street.

[17] Architectural Resources Group (ARG). 2006. *Chinatown Historic Resources Survey*. Prepared for the City of Fresno Planning and Development Department. April 4. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/HistoricSurvey_Chinatown_2006.pdf. Accessed September 2024.

As previously identified, there is a historic resource located adjacent to the Project site (P-10-004270) at 947-949 F Street and there is potential for vibration associated with proposed demolition and construction activities to damage those adjacent historic building materials. Mitigation Measure CR-3 has been identified to reduce inadvertent impacts to adjacent historic resources through implementation of structural assessment and stabilization techniques and construction monitoring during demolition and construction activities. Based on implementation of Mitigation Measures CR-1 through CR-3, the proposed Project would not result in the adverse change in the significance of a historical resource; therefore, impacts would be *less than significant with mitigation*.

b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?

According to the State CEQA Guidelines, "When a project will impact an archaeological site, a lead agency shall first determine whether the site is an historical resource" (State CEQA Guidelines Section 15064.5(c)(1)). Those archaeological sites that do not qualify as historical resources shall be assessed to determine if these qualify as "unique archaeological resources" (PRC 21083.2).

A CRTR[18] was prepared for the proposed Project to evaluate potential impacts associated with historic and cultural archaeological resources. The CRTR includes findings based on background review and a field survey of the Project site. The background review included a records search conducted at the SSJVIC and the NAHC SLF, to identify previously recorded historic and cultural resources within the Project area. Based on the results of the records search, 67 previously recorded cultural resources are located within a 0.25-mile radius of the Project area, and three resources involve the Project area, of which two are built environment properties and one is a district. No cultural archaeological resources have been previously documented within the Project area. No archaeological resources, artifacts, or features were observed during an archaeological resources survey of the Project site conducted on August 7, 2024.

Proposed construction activities would result in limited ground-disturbing activities associated with demolition of the existing building and the construction of the future mixed-use building. Ground-disturbing activities would have a maximum depth of excavation up to 10 feet for demolition of the basement associated with the building. As previously identified, there are no previously recorded cultural resources within the Project site. In addition, the Project site has been entirely disturbed through grading and various periods of development and improvements, which reduces the archaeological sensitivity of the Project site; however, the archaeological sensitivity of the surrounding Chinatown area remains high. As such, it is possible that unknown archaeological resources are extant within the Project area that have the potential to be impacted during demolition and construction activities. Mitigation Measure CR-4

[18] SWCA Environmental Consultants (SWCA). 2024. *Cultural Resources Technical Report for the 937-945 F Street and 942 Fagan Alley Acquisition Project, Fresno, Fresno County, California*. Prepared for City of Fresno.

requires an archaeological monitor to be present during demolition and removal of the basement. Further, Mitigation Measure CR-5 requires that, in the event that previously unidentified cultural resources are uncovered during proposed ground-disturbing activities, all work shall cease within the vicinity of the find until a qualified archaeologist is retained to evaluate the significance of the find and determine the need for further study. Based on implementation of Mitigation Measures CR-4 and CR-5, the proposed Project would not result in adverse impacts to known or unknown cultural resources, and impacts would be *less than significant with mitigation*.

c) Disturb any human remains, including those interred outside of formal cemeteries?

There are no known human remains or cemeteries located within or in the immediate vicinity of the Project site and the Project area is considered to have low sensitivity for the presence of unidentified human remains. The proposed Project would be required to comply with California Health and Safety Code Section 7050.5, which outlines the protocol for unanticipated discovery of human remains. Section 7050.5 states that no further disturbance shall occur until the Fresno County Coroner has made a determination of origin and disposition of the human remains pursuant to PRC Section 5097.98. The Fresno County Coroner must be notified of the find immediately. If the human remains are determined to be Native American, the coroner will notify the NAHC, which will determine and notify a Most Likely Descendant (MLD). The MLD shall complete the inspection of the Project site within 48 hours of notification and may recommend scientific removal and nondestructive analysis of human remains and items associated with Native American burials. Based on required compliance with California Health and Safety Code Section 7050.5, the proposed Project would not result in disturbance to human remains; therefore, impacts related to disturbance of human remains would be *less than significant.*

Mitigation Measures

CR-1 **Design Criteria for Future Development.** To address potential indirect impacts of the new construction on the adjacent historical resource at 947-951 F Street, the following recommendations related to the design of the housing shall be implemented:

- Qualified Historic Preservation Consultant. The design team selected for the new construction project shall include a qualified historic preservation professional, such as a historic architect or architectural historian that meets the Secretary of the Interior's Professional Qualification Standards in their respective fields, that has demonstrable experience in success working on infill construction projects within historic settings and spaces.
- Compatible Design Criteria. The overall design of the new construction shall be both differentiated from the surrounding historic context and character, meaning that it shall be reconstructionist or designed to appear historic in itself, while also being compatible with the historic

character such that the new construction would not detract from the overall setting and sense of place for the adjacent historical resource at 947-951 F Street. The design shall utilize appropriate scale, massing, façade articulation, fenestration placement and rhythm, and the use of materials, details, and ornamentation to enhance compatibility and differentiation between the new construction and the adjacent historical resource.

- Historic Preservation Commission. At approximately the 60% stage of the conceptual and schematic design phases within the overall design process, the design team and the qualified historic preservation consultant shall present the proposed design of the new construction to the City of Fresno's Historic Preservation Commission for review and comment to provide direction related to the compatible design. This will provide additional opportunities for the City's Historic Preservation Commission, as well as the general public, to provide feedback to the design team. As outlined in the City's requirements, the final design will also go before the Historic Preservation Commission for approval.

CR-2 **Interpretive Materials.** The City of Fresno shall develop publicly accessible interpretive materials to educate the public on the historical significance of the Chinatown neighborhood. Interpretive materials shall consider a number of factors, including, but not limited to, the history of Chinatown, its evolution as a neighborhood, notable organizations and community leaders associated with Chinatown, and any historical themes no longer reflected in the built environment, as well as the intended audience, and the location of the display. Although traditional interpretive materials, such as signage, are typically located at or near the location at which a project is occurring, off-site interpretive displays are appropriate in certain cases, such as buildings that are not open to the public for security or other reasons. As this is a public project administered by the City of Fresno, other public locations owned and/or managed by the City within the Chinatown neighborhood are acceptable, such as the placement of signage along sidewalks of the F Street corridor. This could also include the development of digitally based interpretive materials that are hosted by the City and easily accessed by the public. Interpretive materials shall be prepared by an architectural historian or historian who meets the Secretary of the Interior's Professional Qualification Standards, in coordination with the City of Fresno. Development of these interpretive materials shall involve consultation with parties that have demonstrable interest in the history of Fresno and the cultural significance of the Chinatown neighborhood, and will be subject to approval by the City's Historic Preservation Commission.

CR-3 **Structural Assessment and Stabilization and Construction Monitoring.** To reduce the potential significant impacts to 947-951 F, the following measures shall be implemented:

1. **Structural Assessment and Stabilization:** To address the potential indirect impacts to the historic resource (P-10-004270) located at

947-951 F Street during demolition and construction activities, the City shall contract a qualified structural engineer with demonstrable experience assessing historic buildings to conduct a structural assessment of the brick masonry building located at 947-951 F Street. This assessment shall outline any potential structural issues that may be affected by demolition and construction activities at the Project property (937-945 F Street and 942 Fagan Alley) and provide any recommendations to reduce the potential impacts related to the demolition and construction activities at the historic resource (P-10-004270) located at 947-951 F Street. If structural deficiencies are present, the City of Fresno shall be responsible for implementing any temporary shoring or stabilization approaches during demolition and construction.

2. **Construction Monitoring.** Prior to demolition and construction activities, the City of Fresno shall use a qualified consultant that meets the Secretary of the Interior's Professional Qualification Standards in architectural history and/or historic architecture to document the existing conditions and character-defining features at the exterior of the historic resource (P-10-004270) located at 947-951 F Street. Site protocols for the protection of the resource shall be developed and included as part of the Project specifications. This shall include identifying appropriate demolition and construction approaches and equipment at locations within 10 feet of the historic building, potential protection interventions (e.g., boarding up windows, temporary covering of character-defining features, etc.), vibration and conditions monitoring throughout the course of the demolition and construction, and emergency protocols in the event that demolition and construction results in physical damage to the historic building at 947-951 F Street. These emergency protocols shall include the following measures or comparable measures that achieve the same level of protection:

    a. Stop-work protocols after damage to the historic building is sustained;
    b. List of contacts and notification procedures;
    c. List of qualified historic preservation professionals to investigate the condition of the historic resources in the immediate aftermath of the accidental damage;
    d. Supplemental conditions assessment of the historical resource by a qualified historic architect and the structural engineer that completed the original assessment to assess the damage and immediate stabilization work; and
    e. Preparation of a treatment plan to repair the damage portion of the building.

Following completion of the demolition and construction activities, a supplemental conditions assessment shall be conducted, which shall

include a comparative analysis of the preconstruction conditions, a summary of the monitoring efforts or any emergency stop-work incidents, and the identification of any Secretary of the Interior's Standards for Rehabilitation-compliant treatment to repair or restore damaged character-defining features to at least the pre-construction condition.

CR-4 **Archaeological Monitoring.** Based on the overall sensitivity of the surrounding Chinatown area for cultural resources, a qualified archaeologist shall be retained to conduct archaeological monitoring during all ground-disturbing activities, including demolition and removal of the basement, to monitor activities and to identify any intact archaeological resources. The archaeological monitor shall maintain monitoring logs during all ground-disturbing demolition and construction activities. Following demolition and construction activities, the archaeological monitor shall prepare and submit an archaeological monitoring report to the City of Fresno and the Southern San Joaquin Valley Information Center with the results of the cultural monitoring program.

CR-5 **Inadvertent Discovery.** In the event that cultural resources are encountered during project activities, all ground-disturbing activities within a 50-foot radius of the find shall cease; however, disturbance activities may continue in other areas. Work shall not continue until a qualified archaeologist assesses the find and determines the need for further study. If the find includes Native American-affiliated materials, a local Native American tribal representative shall be contacted to work in conjunction with the approved archaeologist to determine the need for further study. If the discovery proves significant, additional work such as archaeological testing, data recovery, or consultation with stakeholders may be warranted. A standard inadvertent discovery clause shall be included in every grading and construction contract to inform contractors of this requirement.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
VI. ENERGY – Would the project:				
a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?			X	
b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?			X	

DISCUSSION

a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?

During construction activities, fossil fuels, electricity, and natural gas would be used by construction vehicles and equipment. The energy consumed during construction would be temporary in nature and typical of other similar construction activities in the City. Federal and State regulations in place require the use of fuel-efficient equipment and vehicles and that wasteful activities, such as diesel idling, be limited. Further, construction contractors, in an effort to ensure cost efficiency, would be expected to not engage in wasteful or unnecessary energy and fuel practices, such as diesel idling. Energy consumption during construction would not conflict with a State or local plan for renewable energy and would not be wasteful, unnecessary, or inefficient.

Operational energy consumption would include electricity use for building operations and fossil fuel use for vehicle trips to and from the Project site. Electricity would be provided by PG&E, which consists of 38% renewable energy sources and 57% greenhouse gas (GHG)-free energy sources.[19] By using electricity from PG&E, the proposed Project would reduce the long-term use of non-renewable energy resources. As discussed in Section XVII, *Transportation*, the proposed Project would result in a VMT per capita of 4.8, which would fall below the regional VMT per capita threshold of 14.0. Therefore, the proposed Project is not anticipated to generate VMT in a manner that could result in substantial consumption of fossil fuels. The proposed building would be required to comply with applicable California Green Building Standards Code (CALGreen; 24 California Code of Regulations [CCR] Part 11) and California Energy Code (24 CCR Part 6) requirements to encourage energy efficient design. Therefore, the proposed Project would not result in wasteful, inefficient, or unnecessary consumption of energy resources, and impacts would be *less than significant*.

b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?

The *Fresno General Plan Resource Conservation and Resilience Element*[20] identifies goals and policies to reduce the consumption of non-renewable energy resources by requiring and encouraging conservation measures and the use of alternative energy sources. Specifically, Objective RC-2 includes a goal to promote land uses that conserve resources.

---

[19] Pacific Gas and Electric Company (PG&E). 2022. Exploring Clean Energy Solutions. Available at: https://www.pge.com/en_US/about-pge/environment/what-we-are-doing/clean-energy-solutions/clean-energy-solutions.page. Accessed March 2024.

[20] City of Fresno. 2018. *Fresno General Plan, Chapter 7: Resource Conservation and Resilience Element*. December. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/General-Plan-7-Resources-Conservation-and-Resilience-7-19.pdf. Accessed October 2024.

As previously evaluated, proposed demolition and construction activities would require the use of energy in the form of diesel fuel and gasoline for worker and construction vehicles and equipment. The energy consumed during construction would be temporary and would not represent a significant or wasteful demand on available resources.

As previously mentioned, electricity would be provided by PG&E, which consists of 38% renewable energy sources and 57% GHG-free energy sources.[21] By using electricity from PG&E, the proposed Project would reduce the long-term use of non-renewable energy resources, which is consistent with Objective RC-2. As discussed in Section XVII, *Transportation*, the proposed Project would result in a VMT per capita of 4.8. which would fall below the regional VMT per capita threshold of 14.0. Therefore, the proposed Project is not anticipated to generate VMT in a manner that could result in substantial consumption of fossil fuels. The proposed building would be required to comply with applicable CALGreen (24 CCR Part 11) and California Energy Code (24 CCR Part 6) requirements to encourage energy efficient design, which is consistent with Objective RC-2. The use of renewable energy resources, reduction of fossil fuel consumption, and compliance with energy efficient building design would be consistent with the City's General Plan goals related to the reduction of the consumption of non-renewable energy resources as well as promoting resource conservation. The proposed Project would be consistent with goals and policies of the *Fresno General Plan Resource Conservation and Resilience Element*; therefore, impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
VII. GEOLOGY AND SOILS – Would the project:				
a) Directly or Indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:

iv) Landslides?			X	
b) Result in substantial soil erosion or the loss of topsoil?			X	
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?			X	
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?			X	
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?				X
f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?		X		

DISCUSSION

a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:

i. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.

Fault ruptures are generally expected to occur along active fault traces that have exhibited signs of recent geological movement (i.e., in the last 11,000 years). Alquist-Priolo Earthquake Fault Zones delineate areas around active faults with potential surface fault rupture hazards that would require specific geological investigations prior to approval of certain kinds of development within the delineated area. The Project site is not located within an Alquist-Priolo Earthquake Fault Zone. In addition, no known active or potentially active faults or fault traces are located in the Project vicinity. The nearest active fault is the Nunez Fault, approximately 50 miles southwest of the City. Therefore, the proposed Project would not expose people or structures to risk as a result of fault rupture, and *no impact* would occur.

ii. Strong seismic ground shaking?

The City of Fresno is located in an area with a historically low-to-moderate level of seismicity. However, strong ground shaking could occur within the Project site during seismic events and occurrences have the possibility to result in significant impacts. Major seismic activity along the nearby Great Valley Fault Zone or the Nunez Fault, or other associated faults, could affect the Project site through strong seismic ground shaking. Strong seismic ground shaking could potentially cause structural damage to the proposed Project. However, based on the distance from known faults, hazards due to ground shaking would be minimal. In addition, the proposed Project would be required to be designed and constructed in accordance with the California Building Code (CBC) to reduce the risk associated with seismic groundshaking. Based on low potential for seismic groundshaking and required compliance with the CBC, the proposed Project would not result in the risk of loss, injury, or death as a result of seismic ground shaking; therefore, impacts would be *less than significant*.

iii. Seismic-related ground failure, including liquefaction?

Liquefaction takes place when loosely packed, water-logged sediments at or near the ground surface lose their strength in response to strong ground shaking. The predominant soils within the City consist of varying combinations of loose/very soft to very dense/hard silts, clays, sands, and gravels. Groundwater has been encountered near the ground surface in close proximity to water-filled features such as canals, ditches, ponds, and lakes. Based on these characteristics, the potential for soil liquefaction within the City ranges from very low to moderate due to the variable density of the subsurface soils and the presence of shallow

groundwater. In addition to liquefaction, the City could be susceptible to induced settlement of loose unconsolidated soils or lateral spread during seismic shaking events. Based on the nature of the subsurface materials and the relatively low to moderate seismicity of the region, seismic settlement and/or lateral spread are not anticipated to represent a substantial hazard within the City during seismic events.

Based on the nature of the subsurface materials and the relatively low-to-moderate seismicity of the region, potential for seismic related ground failure is low in Fresno.[22] In addition, the proposed Project would be required to be designed and constructed in accordance with the CBC to reduce the risk associated with liquefaction. Based on the low potential for liquefaction and required compliance with CBC requirements, the proposed Project would not result in the risk of loss, injury, or death as a result of liquefaction; therefore, impacts would be *less than significant*.

iv. Landslides?

A landslide generally occurs on relatively steep slopes and/or on slopes underlain by weak materials. Fresno is located within an area that predominantly consists of flat topography within the Central Valley. Accordingly, there is no risk of large landslides in the majority of the City; however, there is potential for landslides and slumping along the steep banks of rivers, creeks, or drainage basins such as the San Joaquin River bluff and the many unlined basins and canals that trend throughout the City. The Project site is located in a relatively flat area and is not in the vicinity of the San Joaquin River bluff or other unlined basins or canals; therefore, the potential for landslides to occur within the Project site is negligible. In addition, the proposed Project would be required to be designed and constructed in accordance with the CBC to reduce the risk associated with landslides. Based on the low potential for landslide and required compliance with CBC requirements, the proposed Project would not result in the risk of loss, injury, or death as a result of landslide; therefore, impacts would be *less than significant*.

b) Result in substantial soil erosion or the loss of topsoil?

Proposed demolition and construction activities would result in limited ground-disturbing activities associated with demolition of the existing building and construction of a new mixed-use development. As such, the potential for erosion and loss of topsoil is low. The proposed Project would be required to comply with City Municipal Code Chapter 6, Article 7 (Urban Storm Water Quality Management and Discharge Control), which requires the implementation of best management practices (BMPs) to reduce erosive runoff during demolition and construction activities. The proposed Project would disturb less than 1 acre of soil and would not be required to comply with Regional Water Quality Control Board (RWQCB) General Construction Permit requirements. Following demolition and construction activities, the Project site would

[22] City of Fresno. 2020a. *Fresno General Plan, 9: Noise and Safety Element*, pgs. 9-33 and 9-34. May 21. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/9-Noise-and-Safety-02-03-21.pdf. Accessed July 2024.

continue to be covered in hardscapes associated with paved areas, which would reduce the potential for long-term erosion to occur at the Project site. Based on required compliance with City requirements, impacts related to substantial erosion would be *less than significant*.

c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction, or collapse?

As previously stated, soils at the Project site would not be subject to liquefaction, lateral spreading, or landslides, and the proposed Project would be required to be designed and constructed in accordance with the CBC to reduce the risk associated with landslides. Based on the low potential for landslide and required compliance with CBC requirements, impacts would be *less than significant*.

d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994, as updated), creating substantial direct or indirect risks to life or property?

The surface and near-surface soils observed throughout the City consist of varying combinations of clays, silts, sands, gravels, and cobbles. Expansive soils are characterized by the potential for shrinking and swelling as the moisture content of the soil decreases and increases, respectively. The clayey soils, which consist of very fine particles, are considered to be slightly to moderately expansive. Soils at the Project site include Delhi loamy sand, 3 to 9 percent slopes, and Hanford sandy loam. The soils do not contain clay components and have negligible potential for expansion.[23] Further, the proposed Project would be required to be constructed in accordance with the CBC to further reduce the risk associated with development on expansive soils. Based on the low potential for soil expansion and required compliance with applicable design standards, the proposed Project would not result in risks associated with expansive soils; therefore, impacts would be *less than significant*.

e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?

The Project site is within the jurisdiction of the City's Wastewater Management Division (WMD), which maintains wastewater conveyance infrastructure throughout the City. Wastewater from the City's collection system is treated at the Fresno/Clovis Regional Wastewater Reclamation Facility (WRF). The proposed Project does not include the installation of septic tanks or alternative wastewater disposal systems. Further, the Project site is located in an urbanized area where existing City-maintained sewer infrastructure exists, and the installation of septic tanks or alternative

[23] Natural Resources Conservation Service (NRCS). 2024. Web Soil Survey. U.S. Department of Agriculture, Natural Resources Conservation Service. Available at: https://websoilsurvey.sc.egov.usda.gov/App/WebSoilSurvey.aspx. Accessed July 2024.

wastewater disposal systems would not be necessary at this location. Therefore, *no impact* would occur.

f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?

The Project site is underlain by Pleistocene quaternary nonmarine terrace deposits from the early quaternary era (Qf), which has a low paleontological sensitivity due to its relatively young age.[24] In addition, the Project site consists entirely of developed areas; therefore, there is low potential for intact paleontological resources to be present within the proposed area of disturbance. Proposed demolition and construction activities would be limited to the existing developed footprint of the building and would require a maximum depth of excavation up to 10 feet for demolition of the basement. Proposed demolition and construction activities are not expected to disturb the underlying bedrock. Further, Mitigation Measure GEO-1 has been identified to address inadvertent discovery of paleontological resources if encountered during excavation activities. Based on implementation of Mitigation Measure GEO-1, the low paleontological sensitivity of the underlying geologic unit, and limited excavation activity, the proposed Project would not be expected to disturb paleontological resources; therefore, impacts would be *less than significant with mitigation*.

Mitigation Measures

GEO-1 **Inadvertent Discovery of Paleontological Resources.** During excavation activities that reach or occur within the bedrock of the underlying geologic unit, if a paleontological resource is encountered, the Project contractor shall cease ground-disturbing activities within 50 feet of the find. A qualified paleontologist shall evaluate the significance of the resource(s) and recommend appropriate treatment measures. At each fossil locality, field data forms shall be used to record pertinent geologic data, stratigraphic sections shall be measured, and appropriate sediment samples shall be collected and submitted for analysis. Any fossils encountered and recovered shall be catalogued and presented for donation to a public, non-profit institution with a research interest in the materials. Accompanying notes, maps, and photographs shall also be filed at the repository.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
VIII. GREENHOUSE GAS EMISSIONS – Would the project:				
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?			X	
b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?			X	

DISCUSSION

a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. Estimated construction and operational GHG emissions were calculated for the proposed Project using CalEEMod (see Appendix A).[25] The proposed Project is estimated to result in a total of 437.5 metric tons of carbon dioxide equivalent ($MTCO_2e$) during construction and 810 $MTCO_2e$ during operation. The proposed Project would be consistent with state and local GHG reduction goals, described in detail below.

California's Long Term Climate Goals

A project that would be consistent with meeting the State's long-term climate goals can be found to have a less-than-significant impact on climate change under CEQA. If a project would contribute its "fair share" of what will be required to achieve those long-term climate goals, then a reviewing agency can find that the impact will not be significant because the project will help to solve the problem of global climate change.

The State's long-term climate goals are developed by the California Air Resources Board (CARB). CARB's *Scoping Plan for Achieving Carbon Neutrality* (2022 Scoping Plan Update),[26] dated November 16, 2022, identifies a plan to reach carbon neutrality by 2045 or earlier. The 2022 Scoping Plan Update is the first plan that adds carbon

[25] California Air Pollution Control Officers Association (CAPCOA). 2024. California Emissions Estimator Model (CalEEMod). Available at: https://www.caleemod.com/. Accessed July 2024.

[26] California Air Resources Board (CARB). 2022. 2022 Scoping Plan Documents. Available at: https://ww2.arb.ca.gov/our-work/programs/ab-32-climate-change-scoping-plan/2022-scoping-plan-documents. Accessed July 2024.

neutrality as a science-based guide beyond established emission reduction targets. It identifies a feasible path to achieve carbon neutrality by 2045, or earlier, while also assessing the progress the State is making toward reducing its GHG emissions by at least 40% below 1990 levels by 2030, as called for in Senate Bill (SB) 32 and laid out in California's *2017 Climate Change Scoping Plan* (2017 Scoping Plan).

Lead agencies across the state have since adopted various approaches to assessing a project's consistency with the above-described thresholds of significance for climate impacts. In 2022 the Bay Area Air Quality Management District (BAAQMD) published the *California Environmental Quality Act Air Quality Guidelines* (BAAQMD 2022 CEQA Guidelines)[27] for evaluating climate impacts from land use projects and plans.

Applying this approach, the BAAQMD has analyzed what will be required of new land use development projects to achieve California's long-term climate goal of carbon neutrality by 2045. The BAAQMD has found, based on this analysis, that a new land use development project being built today needs to incorporate the following design elements (either A or B) to do its "fair share" of implementing the goal of carbon neutrality by 2045:

A. Projects must include, at a minimum, the following project design elements:
    1. Buildings
        a. The project will not include natural gas appliances or natural gas plumbing (in both residential and nonresidential development).
        b. The project will not result in any wasteful, inefficient, or unnecessary energy usage as determined by the analysis required under CEQA Section 21100(b)(3) and Section 15126.2(b) of the State CEQA Guidelines.
    2. Transportation
        a. Achieve a reduction in project-generated vehicle miles traveled (VMT) below the regional average consistent with the current version of the California Climate Change Scoping Plan (currently 15 percent) or meet a locally adopted Senate Bill 743 VMT target, reflecting the recommendations provided in the Governor's Office of Planning and Research's Technical Advisory on Evaluating Transportation Impacts in CEQA:
            i. Residential projects: 15 percent below the existing VMT per capita
            ii. Office projects: 15 percent below the existing VMT per employee

[27] Bay Area Air Quality Management District (BAAQMD). 2022. *California Environmental Quality Act Air Quality Guidelines*. Available at: https://www.baaqmd.gov/~/media/files/planning-and-research/ceqa/ceqa-guidelines-2022/ceqa-guidelines-chapter-0-cover-page-pdf.pdf?rev=f250e4ab435c491ba2afcbe299590a67&sc_lang=en. Accessed July 2024.

iii. Retail projects: no net increase in existing VMT

b. Achieve compliance with off-street electric vehicle requirements in the most recently adopted version of CALGreen Tier 2.

B. Projects must be consistent with a local GHG reduction strategy that meets the criteria under State CEQA Guidelines Section 15183.5(b)

If a project is designed and built to incorporate these design elements, then it will contribute its portion of what is necessary to achieve California's long-term climate goals—its "fair share"—and an agency reviewing the project under CEQA can conclude that the project will not make a cumulatively considerable contribution to global climate change. If the project does not incorporate these design elements, then it should be found to make a significant climate impact because it will hinder California's efforts to address climate change.

Although the BAAQMD 2022 CEQA Guidelines were developed for application in the Bay Area, they are broadly applicable across the state since they rely on statewide standards for GHG emission thresholds. Impacts from the proposed Project have been analyzed using the BAAQMD 2022 CEQA Guidelines. Fresno does not have a local GHG reduction strategy that meets the criteria under State CEQA Guidelines Section 15183.5(b), so the proposed Project was reviewed for consistency with the design elements described in Section A. The proposed Project's consistency with the BAAQMD thresholds for land use is shown in Table 3.

Table 3: Project Consistency with the BAAQMD Thresholds for Land Use Projects

BAAQMD Design Element	Evaluation of Project Consistency
Buildings	
The project will not include natural gas appliances or natural gas plumbing (in both residential and nonresidential development).	The proposed building would be all electric and would not require natural gas appliances or natural gas plumbing. Further, the proposed building would be required to comply with applicable CALGreen (24 CCR Part 11) and California Energy Code (24 CCR Part 6) requirements to encourage energy efficient design, including regulations related to natural gas appliances.
The project will not result in any wasteful, inefficient, or unnecessary energy usage as determined by the analysis required under CEQA Section 21100(b)(3) and	As discussed in *Impact Discussion VI(a)*, the energy consumed during construction would be temporary in nature and typical of other similar construction activities in the City. Federal

Table 3: Project Consistency with the BAAQMD Thresholds for Land Use Projects

BAAQMD Design Element	Evaluation of Project Consistency
Section 15126.2(b) of the State CEQA Guidelines.	and State regulations in place require the use of fuel-efficient equipment and vehicles and that wasteful activities, such as diesel idling, be limited. Operational electricity would be provided by PG&E, which consists of 38% renewable energy sources and 57% GHG-free energy sources.[28] By using electricity from PG&E, the proposed Project would reduce the long-term use of nonrenewable energy resources. Further, the proposed building would be required to comply with applicable CALGreen (24 CCR Part 11) and California Energy Code (24 CCR Part 6) requirements to encourage energy efficient design. Based on required compliance with existing regulations and use of renewable energy resources, the proposed Project would not result in wasteful, inefficient, or unnecessary consumption of energy resources; therefore, no additional mitigation is necessary to reduce energy consumption.
Transportation	
Achieve a reduction in project-generated vehicle miles traveled (VMT) below the regional average consistent with the current version of the California Climate Change Scoping Plan (currently 15 percent) or meet a locally adopted Senate Bill 743 VMT target, reflecting the recommendations provided in the Governor's Office of Planning and Research's Technical Advisory on	As discussed in *Section XVII, Transportation*, the proposed Project would result in a VMT per capita of 4.8, which would fall below the regional and local VMT per capita threshold. Therefore, the proposed Project would not generate VMT in a manner that would exceed the BAAQMD threshold of 15% below the existing VMT per employee.

[28] Pacific Gas and Electric Company (PG&E). 2022. Exploring Clean Energy Solutions. Available at: https://www.pge.com/en_US/about-pge/environment/what-we-are-doing/clean-energy-solutions/clean-energy-solutions.page. Accessed March 2024.

Table 3: Project Consistency with the BAAQMD Thresholds for Land Use Projects

BAAQMD Design Element	Evaluation of Project Consistency
Evaluating Transportation Impacts in CEQA: i. Residential projects: 15 percent below the existing VMT per capita ii. Office projects: 15 percent below the existing VMT per employee iii. Retail projects: no net increase in existing VMT	
Achieve compliance with off-street electric vehicle requirements in the most recently adopted version of CALGreen Tier 2.	The proposed building would be required to comply with applicable CALGreen (24 CCR Part 11) and California Energy Code (24 CCR Part 6) requirements to encourage energy efficient design, including regulations related to electric vehicle (EV) parking requirements.

Source: BAAQMD (2022)

As shown in Table 3, the proposed Project would be consistent with the BAAQMD Thresholds for Land Use Projects and would contribute its "fair share" of implementing the goal of carbon neutrality by 2045. Therefore, the proposed Project would be consistent with State goals related to the reduction of GHG emissions, and impacts would be *less than significant*.

Further, the proposed Project would be limited to acquisition and demolition and no operational activities that would result in GHG emissions would occur. The proposed Project would not result in significant GHG emissions; therefore, impacts would be *less than significant.*

b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?

San Joaquin Valley Climate Change Action Plan

The proposed Project is within the jurisdiction of the SJVAPCD, which released the San Joaquin Valley Climate Change Action Plan (CCAP)[29] in December 2009. The CCAP identifies goals and policies to address reductions in GHGs and improvement

[29] San Joaquin Valley Air Pollution Control District (SJVAPCD). 2009. *Guidance for Valley Land-use Agencies in Addressing GHG Emission Impacts for New Projects under CEQA*. December 17. Available at: https://www.valleyair.org/media/dnsnicdv/3-ccap-final-lu-guidance-dec-17-2009.pdf. Accessed October 2024.

to regional air quality. The CCAP also includes a methodology for determining project-specific Best Performance Standards (BPSs), which are described as mitigation measures intended to accomplish GHG reductions. BPSs may include building design elements that reduce energy consumption, project designs that promote pedestrian access, and land use planning decisions that reduce VMT. As discussed in *Impact Discussion VIII.a)*, the proposed Project would be required to comply with State and local requirements to reduce construction and operational GHG emissions, would utilize clean energy sources and building design, and would not generate a substantial increase in VMT and associated vehicle emissions; therefore, the proposed Project would not generate significant GHG emissions during construction or operation and would be consistent with the goals of the CCAP. According to the process for evaluating GHG significance described in the CCAP, projects that comply with an approved GHG emission reduction plan or GHG mitigation program, which avoids or substantially reduces GHG emissions within the geographic area in which the project is located, would be determined to have a less-than-significant individual and cumulative impact for GHG emissions. Such plans or programs must be specified in law or approved by the lead agency with jurisdiction over the affected resource and supported by a CEQA-compliant environmental review document adopted by the lead agency. Projects complying with an approved GHG emission reduction plan or GHG mitigation program would not be required to formally implement BPSs. As described in Table 3, the proposed Project would be consistent with the BAAQMD Thresholds of Significance for Land Use Initiatives; therefore, the proposed Project would be consistent with an approved applicable GHG emission reduction plan or GHG mitigation program intended to avoid or substantially reduce GHG emissions and would not be required to formally implement project-specific BPSs as identified in the CCAP.

Additionally, the proposed Project would not conflict with plans, policies, or regulations adopted for the purpose of reducing GHG emissions, including State initiatives or BAAQMD Thresholds for Land Use Projects; therefore, impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
IX. HAZARDS AND HAZARDOUS MATERIALS – Would the project:				
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?			X	

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?		X		
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				X
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				X
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?				X
f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?			X	
g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?			X	

DISCUSSION

a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?

The proposed Project would require limited quantities of hazardous substances, including gasoline, diesel fuel, hydraulic fluid, solvents, oils, paints, etc. during demolition and construction activities, which has the potential to result in an accidental spill or release. However, all materials used during construction would be contained, stored, and handled in compliance with applicable standards and regulations established by the USEPA, U.S. Occupational Safety and Health Administration (OSHA), and California Department of Toxic Substances Control (DTSC). All storage, handling, and disposal of hazardous materials during project activities would be required to comply with applicable local safety standards and regulations, including General Plan Policies NS-4-a, NS-4-e, and NS-4-f.[30] The proposed Project would include operation of residential and commercial uses that would use limited quantities of common household substances and would not result in manufacturing, industrial, or other uses utilizing large amounts of hazardous materials. Therefore, impacts associated with the routine transport, use, or disposal of hazardous materials would be *less than significant.*

b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?

As described in *Impact Discussion IX.a)*, the proposed Project would not result in a significant hazard to the public or the environment through the transport of hazardous materials through required compliance with applicable standards and regulations established by USEPA, OSHA, and DTSC.

A Phase I Environmental Site Assessment (ESA) was prepared to determine if any on-site Recognized Environmental Concerns (RECs), including, but not limited to, soil staining, aboveground storage tanks (ASTs), signs of underground storage tanks, odors, hazardous debris, etc. Based on a review of relevant background information and a field inspection of the Project site, the Phase I ESA did not reveal any on-site RECs (Appendix C).[31]

The proposed Project is not located in an area with known potential for NOA.[32] Therefore, construction activities would not have the potential to expose workers or surrounding land uses to harmful levels of NOA. ACM and LBP may be present in

---

[30] City of Fresno. 2020a. *Fresno General Plan, 9: Noise and Safety Element*, pgs. 9-33 and 9-34. May 21. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/9-Noise-and-Safety-02-03-21.pdf. Accessed July 2024.

[31] Krazan & Associates, Inc. 2023. *Phase I Environmental Site Assessment, The Peacock Building, 937 - 943 F Street and 942 Fagan Alley, APN 467-074-02, Fresno, California 93706*. Prepared for SWCA Environmental Consultants. August 29.

[32] California Geological Survey (CGS). 2011. *Reported Historic Asbestos Mines, Historic Asbestos Prospects, and Other Natural Occurrences of Asbestos in California*.

buildings built prior to 1978. The existing building was first developed in the early 1900s, with redevelopment occurring in 1918 and the 1930s; therefore, there is potential that ACM and LBP may be present and could be released during demolition activities. Mitigation Measures AQ-4 and AQ-5 have been included to require ACM and LBP testing and identify the proper protocol for the handling and removal of ACM and LBP if identified within materials proposed for demolition. The proposed Project would include operation of residential and commercial uses that would use limited quantities of common household substances and would not result in the use of large quantities of hazardous materials that could create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions.

Based on implementation of Mitigation Measures AQ-4 and AQ-5, and required compliance with existing regulations, the proposed Project would not create a significant hazard to the public or the environment through reasonably foreseeable upset or accident conditions involving the release of hazardous materials into the environment; therefore, impacts would be *less than significant with mitigation.*

c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?

The nearest existing school is Lincoln Elementary School, located approximately 0.3 mile south of the Project site, and there are no proposed schools within 0.25 mile of the Project site. The Project site is not located within 0.25 mile of an existing school; therefore, the proposed Project would not have the potential to emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school, and *no impact* would occur.

d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?

According to the DTSC EnviroStor database[33] and State Water Resources Control Board (State Water Board) GeoTracker database,[34] the Project site is not located on a federal superfund site, State response site, voluntary cleanup site, school cleanup site, evaluation site, school investigation site, military evaluation site, tiered permit site, or corrective action site. Additionally, the Project site is not included on the list of hazardous waste sites compiled pursuant to California Government Code Section

[33] California Department of Toxic Substances Control (DTSC). 2024. EnviroStor. Available at: https://www.envirostor.dtsc.ca.gov/public/map/?myaddress=fresno. Accessed August 2024.

[34] State Water Resources Control Board (State Water Board). 2024. GeoTracker. Available at: https://geotracker.waterboards.ca.gov/. Accessed August 2024.

65962.5.[35] As a result, no hazards to the public or environment are anticipated; therefore, *no impact* would occur.

e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?

The nearest medical center helipad is at the Community Regional Medical Center,[36] located approximately 1 mile northeast of the Project site. The nearest airports include the Fresno Yosemite International Airport, located approximately 5 miles northeast of the Project site; Fresno Chandler Executive Airport, located approximately 1.1 miles west of the Project site; and Sierra Sky Airport, located approximately 8.4 miles northwest of the Project site. Each of these airports is considered under the *Fresno County Airport Land Use Compatibility Plan* (ALUCP), which guides local jurisdictions in determining appropriate compatible land uses with detailed findings and policies. The Fresno County ALUCP includes airport safety zone maps that are based on the likelihood of aircraft accident adjacent to airports. Although the Project site is located within 2 miles of the helipad at the Community Regional Medical Center and Fresno Chandler Executive Airport, the Project site is located in Safety Zone 6 - Traffic Pattern Zone, which is an area of low aircraft accident risk.[37] Therefore, the proposed Project would not result in a safety hazard for people residing or working in the Project area, and *no impact* would occur.

f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?

Construction activities would be limited to a single, existing parcel and would not require the implementation of any traffic controls that could impede emergency response or evacuation efforts within the Project area. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The proposed Project would be located in an existing urban area, would be consistent with the existing zoning of the Project site, and would not facilitate substantial or unplanned population growth in a manner that could generate a substantial number of new vehicle trips that could otherwise impede emergency response or evacuation efforts within the Project area; therefore, impacts would be *less than significant*.

---

[35] California Environmental Protection Agency (CalEPA). 2018. California Government Code Section 65962.5(a) Hazardous Waste and Substances Site List. Available at: https://calepa.ca.gov/sitecleanup/corteselist/section-65962-5a/. Accessed August 2024.

g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury, or death involving wildland fires?

The Project site is located in an area mapped as Local Responsibility Area (LRA) Unzoned, indicating that the area is urbanized and not susceptible to wildland conflagrations. Additionally, the proposed Project is not located within a very high fire hazard severity zone (VHFHSZ).[38] The proposed Project would be constructed in accordance with the California Fire Code (CFC) to reduce risk of loss, injury, or death involving wildland fires. Based on the Project location and required compliance with the CFC, the proposed Project would not expose people or structures, either directly or indirectly, to a significant risk of loss, injury, or death involving wildland fires; therefore, impacts would be *less than significant*.

Mitigation Measures

Implement Mitigation Measures AQ-4 and AQ-5, included in Section III, *Air Quality*.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
X. HYDROLOGY AND WATER QUALITY – Would the project:				
a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?			X	
b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?			X	
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or through the addition of impervious surfaces, in a manner which would:				

[38] California Department of Forestry and Fire Protection (CAL FIRE). 2024. *Fire Hazard Severity Zones in State Responsibility Area.* Available at: https://calfire-forestry.maps.arcgis.com/apps/webappviewer/index.html?id=988d431a42b242b29d89597ab693d008. Accessed August 2024.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
i) Result in a substantial erosion or siltation on- or off-site;			X	
ii) Substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site:			X	
iii) create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or			X	
iv) impede or redirect flood flows?			X	
d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?			X	
e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?			X	

DISCUSSION

a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?

The State Water Board and nine RWQCBs regulate the water quality of surface water and groundwater bodies throughout California. The proposed Project is within the jurisdiction of the Central Valley RWQCB.

Pollutants of concern during construction include sediments, trash, petroleum products, concrete waste (dry and wet), sanitary waste, and chemicals. Ground disturbance and the use of construction equipment and vehicles during proposed construction activities have the potential to result in erosion and other pollutants that could run off to surrounding areas. There are no surface water resources located within or adjacent to the Project site. The proposed Project would be required to comply with City Municipal Code Chapter 6, Article 7 (Urban Storm Water Quality Management and Discharge Control), which requires the implementation of BMPs to reduce and/or eliminate pollutant discharge during construction. The proposed Project

would disturb less than 1 acre of soil and would not be required to comply with RWQCB General Construction Permit requirements.

The proposed Project would result in the operation of a new mixed-use building, which would not result in a new source of substantial pollutant concentrations in the Project area due to the largely residential nature of the operation of the proposed Project. Further, the proposed Project would be required to implement water quality and watershed protection measures in accordance with the City's Storm Drainage and Flood Control Master Plan (SDFCMP), which manages the City's stormwater drainage systems and the City's participation in the Phase 1 National Pollutant Discharge Elimination System (NPDES) Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (Phase 1 MS4).

Based on required compliance with City requirements, the proposed Project would not violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface water or groundwater quality; therefore, impacts would be *less than significant*.

b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?

The Project site is located in the Kings Subbasin of the San Joaquin Valley Groundwater Basin (California Department of Water Resources [DWR] Groundwater Subbasin Number: 5-22.08). The Kings Subbasin encompasses an area of approximately 976,000 acres (1,530 square miles) within Fresno, Kern, and Tulare Counties.[39] The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The Project site is located entirely within the City limits and City's Sphere of Influence (SOI), and the proposed Project would be consistent with DTN uses as defined in the City's General Plan; therefore, the proposed Project would be consistent with the City's planned buildout scenario and associated water use projections. The City's Department of Public Utilities (DPU) was contacted to determine the proposed Project's impacts on existing utilities. No response identifying potential impacts has been received to date. During demolition and construction activities, water may be used for dust suppression; however, any water used during demolition and construction activities would be limited in volume and supplied from off-site sources. Following demolition and construction activities, the Project site would continue to be covered in hardscapes associated with paved areas; therefore, the amount of impervious surface area on-site would be generally the same as existing conditions. The proposed Project would not decrease

[39] California Department of Water Resources (DWR). 2006. San Joaquin Valley Groundwater Basin Kings Subbasin. Available at: https://water.ca.gov/-/media/DWR-Website/Web-Pages/Programs/Groundwater-Management/Bulletin-118/Files/2003-Basin-Descriptions/5_022_08_KingsSubbasin.pdf. Accessed August 2024.

groundwater supply or interfere with groundwater recharge, and impacts would be *less than significant*.

c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or through the addition of impervious surfaces, in a manner which would:

i. Result in substantial erosion or siltation on- or off-site?

Proposed demolition and construction activities would result in limited ground-disturbing activities over the 0.33-acre Project site. The proposed Project would be required to comply with City Municipal Code Chapter 6, Article 7 (Urban Storm Water Quality Management and Discharge Control), which requires the implementation of BMPs to reduce erosive runoff during demolition and construction activities. The proposed Project would disturb less than 1 acre of soil and would not be required to comply with RWQCB General Construction Permit requirements. Following demolition and construction activities, the Project site would continue to be covered in hardscapes associated with paved areas, which would reduce the potential for long-term erosion to occur at the Project site. Based on required compliance with City requirements, impacts related to substantial erosion would be *less than significant*.

ii. Substantially increase the rate or amount of surface runoff in a manner, which would result in flooding on- or off-site?

The proposed Project does not include alteration or other direct impacts to any surface water features. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. Following demolition and construction activities, the Project site would continue to be covered in hardscapes associated with paved areas; therefore, drainage conditions and the amount of impervious surface area on-site would be generally the same as existing conditions. Further, the proposed Project would be subject to Article 7 of the City's Municipal Code and the SDFCMP for long-term drainage requirements. Based on required compliance with City stormwater requirements, the proposed Project would not increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site; therefore, impacts would be *less than significant*.

iii. Create or contribute runoff water, which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building that could create or contribute runoff water. Following demolition and construction activities, the Project site would continue to be covered in hardscapes associated with paved areas; therefore, drainage conditions and the amount of impervious surface area

on-site would be generally the same as existing conditions. The proposed Project would be subject to RWQCB requirements and Article 7 of the City's Municipal Code, which requires the implementation of BMPs to reduce and/or eliminate pollutant discharge from entering the City's storm drain system during construction and operation. Further, the proposed Project would be required to implement water quality and watershed protection measures in accordance with the City's SDFCMP. Based on required compliance with RWQCB and City stormwater requirements, the proposed Project would not create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; therefore, impacts would be *less than significant*.

iv. Impede or redirect flood flows?

Regulations in 44 CFR Part 9 and the City's Floodplain Ordinance require that placement of structures within a floodplain not result in a cumulative change in the floodplain water surface that exceeds 1 foot. In addition, the regulations in 44 CFR Part 9 do not allow placement of structures within a regulatory floodway unless that placement would not result in any increase in the floodplain water surface elevation, meaning that there is no displacement or redirection of the floodway. The City's Floodplain Ordinance requires that a Civil Engineer registered in the State of California certify that no displacement of floodwater would result from the flood proofing of a structure within a floodplain or a regulatory floodway.

According to Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) 06019C2110H (effective date 2/18/2009), the Project site is located within shaded Zone X, an area with 0.2% annual chance of flooding or areas of 1% annual chance of flooding with average depth less than 1 foot or with drainage areas of less than 1 square mile. Shaded Zone X is not considered a Special Flood Hazard Area (SFHA) by the City; therefore, the proposed Project would not be subject to the City's Floodplain Ordinance (Article 6). Following demolition and construction activities, the Project site would continue to be covered in hardscapes associated with paved areas; therefore, drainage conditions and the amount of impervious surface area on-site would generally be the same as existing conditions and would not impede or redirect potential flood flows. Therefore, impacts would be *less than significant*.

d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?

The Project site is not located in a tsunami or seiche zone and would not risk pollutant release as a result of inundation by a tsunami or seiche. According to FEMA FIRM 06019C2110H (effective date 2/18/2009), the Project site is located within shaded Zone X, an area with 0.2% annual chance of flooding or areas of 1% annual chance of flooding with average depth less than 1 foot or with drainage areas of less than 1 square mile. Shaded Zone X is not considered an SFHA by the City; therefore, the proposed Project would not be subject to the City's Floodplain Ordinance (Article 6). Following demolition and construction activities, the Project site would continue to be

covered in hardscapes associated with paved areas; therefore, the proposed Project would not alter existing drainage conditions or the amount of impervious surface area on-site in a manner that could interfere with flood flows. The proposed Project would be subject to City Municipal Code Chapter 6, Article 7, which requires the implementation of BMPs to reduce and/or eliminate pollutant release at the Project site, which would reduce the potential to release pollutants in the event of on-site flooding. Further, the proposed Project would be required to implement water quality and watershed protection measures in accordance with the City's SDFCMP, which would also reduce the potential to release pollutants in the event of on-site flooding. Based on required compliance with RWQCB and City stormwater requirements, the proposed Project would not risk the release of pollutants due to project inundation, and impacts would be *less than significant*.

e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?

The Project site is located in the Kings Subbasin of the San Joaquin Valley Groundwater Basin (DWR Groundwater Subbasin Number: 5-22.08). As evaluated in *Impact Discussion X.b)*, the proposed Project would not decrease groundwater supply or interfere with groundwater recharge in a manner that would impede sustainable management of the groundwater basin. The Project site is under the jurisdiction of the Central Valley RWQCB and would be subject to *The Water Quality Control Plan (Basin Plan) for the California Regional Water Quality Control Board Central Valley Region* (Basin Plan),[40] which establishes water quality objectives for beneficial uses of water resources within the Sacramento and San Joaquin River Basins. The proposed Project would disturb less than 1 acre of soil and would not be required to comply with RWQCB General Construction Permit requirements. The proposed Project would be required to comply with City Municipal Code Chapter 6, Article 7, which requires the implementation of BMPs to reduce and/or eliminate pollutant discharge during construction. Further, the proposed Project would be required to implement water quality and watershed protection measures in accordance with the City's SDFCMP. Based on required compliance with City requirements, the proposed Project would not violate any RWQCB water quality standards or waste discharge requirements. The proposed Project would be consistent with sustainable management of the San Joaquin Valley Groundwater Basin and the Basin Plan; therefore, impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

[40] Regional Water Quality Control Board (RWQCB). 2019. *The Water Quality Control Plan (Basin Plan) for the California Regional Water Quality Control Board Central Valley Region*. Fifth Edition. Revised June 2019 (with Approved Amendments. Available at: https://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/sacsjr_201902.pdf. Accessed August 2024.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XI. LAND USE AND PLANNING – Would the project:				
a) Physically divide an established community?				X
b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?		X		

DISCUSSION

a) Physically divide an established community?

The physical division of an established community typically refers to the construction of a physical feature (such as an interstate highway or railroad tracks) or removal of a means of access (such as a local road or bridge) that would impair mobility within an existing community, or between a community and outlying areas. For instance, the construction of an interstate highway through an existing community may constrain travel from one side of the community to another; similarly, such construction may also impair travel to areas outside of the community. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of a new four-story mixed-use building on an existing parcel and does not include new construction in an undeveloped area or other activities that could result in the removal or blockage of existing public roadways or other circulation paths or include any features that would physically divide an established community; therefore, *no impact* would occur.

b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?

As evaluated throughout this Initial Study, the proposed Project would be consistent with standards and policies set forth in the City's General Plan, SJVAPCD 2022 Ozone Plan, and SJVAPCD 2024 $PM_{2.5}$ Plan. The proposed Project would be required to implement Mitigation Measures AQ-1 through AQ-5, included in Section III, *Air Quality*; Mitigation Measure BIO-1, included in Section IV, *Biological Resources*; Mitigation Measures CR-1 through CR-5, included in Section V, *Cultural Resources*; and Mitigation Measure GEO-1, included in Section VII, *Geology and Soils*, to mitigate potential impacts associated with Air Quality, Biological Resources, Cultural and Tribal Cultural Resources, Geology and Soils, and Hazards and Hazardous Materials, which

is consistent with the identified plans and policies intended to avoid or mitigate adverse environmental effects. With implementation of the identified mitigation measures, the proposed Project would not conflict with other local policies or regulations adopted for the purpose of avoiding or mitigating environmental effects; therefore, impacts would be *less than significant with mitigation*.

Mitigation Measures

Implement Mitigation Measures AQ-1 through AQ-5, included in Section III, *Air Quality*; Mitigation Measure BIO-1, included in Section IV, *Biological Resources*; Mitigation Measures CR-1 through CR-4, included in Section V, *Cultural Resources;* and Mitigation Measure GEO-1, included in Section VII, *Geology and Soils*.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XII. MINERAL RESOURCES – Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				X
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?				X

DISCUSSION

a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

The principal area for mineral resources in the City is located along the San Joaquin River Corridor. The California Department of Mines and Geology classifies lands along the San Joaquin River Corridor as Mineral Resource Zone (MRZ)-1, MRZ-2, and MRZ-3. The Project site is in an urbanized area and is not located in the vicinity of the San Joaquin River, is not an MRZ, and does not contain an MRZ. The proposed Project would not result in the loss of availability of a known mineral resource of value to the region or residents of the State; therefore, *no impact* would occur.

b) Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?

Please refer to *Impact Discussion XII.a)*. The proposed Project would not result in the loss of availability of any known locally important mineral resource recovery sites; therefore, *no impact* would occur.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XIII. NOISE – Would the project result in:				
a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?			X	
b) Generation of excessive groundborne vibration or groundborne noise levels?			X	
c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?				X

DISCUSSION

a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or in other applicable local, state, or federal standards?

Existing ambient noise levels in the Project area consist of noise from surrounding commercial land uses, vehicle noise along proximate roadways, and noise associated with railroad tracks. During Project construction, noise from demolition and construction activities may intermittently dominate the noise environment in the immediate project area. The proposed Project would require the use of typical construction equipment (e.g., dozers, excavators, etc.). According to the Federal

Highway Administration (FHWA),[41] noise from standard construction equipment generally ranges between 80 and 85 A-weighted decibels (dBA) in equivalent sound level (L_{eq}) at 50 feet from the source. The nearest sensitive receptors to the Project site include residential dwelling units located approximately 900 feet northeast of the Project site. According to City Municipal Code Section 10-109, Noise Regulations Exceptions, construction-related noise is exempt from the City's noise standards between the hours of 7:00 a.m. and 10:00 p.m. on any day except Sunday.

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building that could result in a marginal increase in residential and commercial noise within the Project area.

Potential sources of operational noise would include stationary noise from mechanical equipment associated with heating, ventilation, and air conditioning (HVAC) equipment and mobile noise from vehicle trips generated by the proposed Project. Noise generated by HVAC systems or other equipment would not result in a noticeable increase in ambient noise levels based on the density of surrounding development. In addition, the proposed Project would be located in an existing urban area, would be consistent with the existing zoning of the Project site, and would not facilitate substantial or unplanned population growth in a manner that could generate a substantial number of new vehicle trips that could substantially increase long-term ambient noise levels in the Project area. Therefore, the proposed Project would not result in a substantial increase in short- or long-term ambient noise levels, and impacts would be *less than significant*.

b) Generation of excessive groundborne vibration or groundborne noise levels?

The proposed Project does not include pile driving or other high-impact activities that would generate substantial groundborne noise or vibration during construction. Standard construction equipment would generate some groundborne noise and vibration during proposed ground-disturbing activities; however, these activities would be limited in duration and consistent with other standard construction activities. Any groundborne noise or vibration generated by short-term construction activities would be limited to the immediate work area and is not anticipated to disturb surrounding residential land uses. In addition, City Municipal Code Section 15-2507, Vibration, exempts temporary construction activities from the City's vibration standards. Further, the construction of new residential and commercial uses would not increase long-term vibration or groundborne noise levels in the Project area. Therefore, impacts related to groundborne vibration would be *less than significant*.

[41] Federal Highway Administration (FHWA). 2018. *Construction Noise Handbook*. Available at: https://www.nrc.gov/docs/ML1805/ML18059A141.pdf. Accessed June 2024.

c) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?

The nearest medical center helipad is at the Community Regional Medical Center,[42] located approximately 1 mile northeast of the Project site. The nearest airports include the Fresno Yosemite International Airport, located approximately 5 miles northeast of the Project site; Fresno Chandler Executive Airport, located approximately 1.1 miles west of the Project site; and Sierra Sky Airport, located approximately 8.4 miles northwest of the Project site. Each of these airports is considered under the *Fresno County Airport Land Use Compatibility Plan* (ALUCP), which guides local jurisdictions in determining appropriate compatible land uses with detailed findings and policies. The City's General Plan, other City land use plans, and all City land use decisions must be compatible with the adopted Fresno County ALUCP, which includes community noise equivalent level (CNEL) noise contours based on projected airport and aircraft operations. Although the Project site is located within 2 miles of the Community Regional Medical Center helipad and Fresno Chandler Executive Airport, the Project site is not located within the CNEL noise contours identified in the Fresno County ALUCP.[43] Therefore, the proposed Project would not result in the exposure of sensitive receptors to the excessive noise levels from aircraft noise sources, and *no impact* would occur.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XIV. POPULATION AND HOUSING – Would the project:				
a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?			X	

[42] California Department of Transportation (Caltrans). 2019. Caltrans HeliPlates. Available at: https://heliplates.dot.ca.gov/#. Accessed June 2024.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?				X

DISCUSSION

a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?

The City's Planning Area is defined as the geographic area for which the City's General Plan establishes policies related to future urban growth and resource conservation and includes the area within the City Limits, the City's SOI, and land immediately north and southwest of the SOI. The City's General Plan identifies a "General Plan Horizon" and "General Plan Buildout" to categorize and predict future growth and buildout conditions. The General Plan Horizon is set to occur in 2035, and General Plan Buildout refers to complete development under the General Plan past the horizon year of 2050.

The General Plan Horizon is set to accommodate a population of approximately 226,000 new residents by 2035, resulting in a total population of 771,000. General Plan Buildout anticipates an additional 425,000 new residents over the existing population, resulting in a total population of 970,000. As of 2023, the population estimate was 545,716 for the City.[44] The General Plan Horizon is set to accommodate an estimated 267,000 residential units by 2035, of which 32,000 residential units would be located in the existing city limits, including Downtown. General Plan Buildout anticipates complete buildout of approximately 336,000 residential units, of which 55,610 units would be located in the existing City limits, including Downtown.

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The proposed Project would result in approximately 75 to 150 new residents depending on the final unit mix. The Project site is in the City's DTN zone and land use designation in the City's Downtown Planning Area and is located entirely within the Fresno City Limits and SOI. The proposed Project would be consistent with the allowable uses of the DTN zone and land use designation; therefore, buildout of the Project site would be consistent with the City's planned buildout scenario and would not result in unplanned growth. Further, the proposed Project includes the construction of affordable housing units

[44] U.S. Census Bureau. 2023. Quick Facts, Fresno city, California. Available at: https://www.census.gov/quickfacts/fact/table/fresnocitycalifornia/PST045223. Accessed July 2024.

that would be consistent with the Fresno Council of Governments (FCOG) sixth cycle Regional Housing Needs Allocation (RHNA) Determination that calls for the creation of 58,298 new affordable units within the City between June 30, 2023, and December 31, 2031. Therefore, the proposed Project would be consistent with local and regional housing projections and would not result in substantial or unplanned growth.

The proposed Project also includes the construction of commercial uses that would be consistent with the allowable uses of the DTN zone and land use designation; therefore, any new long-term employment opportunities would be consistent with the City's planned buildout scenario and would not result in unplanned growth.

Proposed demolition and construction activities have the potential to generate short-term employment opportunities; however, Project construction is expected to use workers from the local employment force and would not require workers to relocate to the Project area. Therefore, the proposed Project would not result in unplanned or substantial population growth, and impacts would be *less than significant*.

b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The building proposed for acquisition and demolition is currently vacant; therefore, the proposed Project would not result in the displacement of existing people or housing, and *no impact* would occur.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XV. PUBLIC SERVICES – Would the project:				
a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Fire protection?			X	
Police protection?			X	
Schools?			X	
Parks?			X	
Other public facilities?			X	

DISCUSSION

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the public services:

i. Fire protection?

The Fresno Fire Department (FFD) would provide fire protection services to the proposed Project. There are 20 FFD fire stations in the City, with the closest fire station, Fire Station 3, located approximately 0.2 mile northeast of the Project site. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building, which would result in approximately 75 to 150 new residents. The proposed Project would result in an incremental increase on fire protection services in the City. The proposed Project would be consistent with the City's DTN zoning and land use designation; therefore, buildout of the Project site would be consistent with the City's planned buildout scenario and would not result in unplanned growth. The FFD was contacted to determine the proposed Project's impact on existing fire protection services. No response identifying potential impacts has been received to date. Further, the proposed Project would be subject to the payment of Development Impact Fees to offset the incremental increase in demand on fire protection services. Therefore, the proposed Project would not require new or physically altered governmental facilities for fire protection services, and impacts would be *less than significant*.

ii. Police protection?

The Fresno Police Department (FPD) provides police protection to the Project site. The FPD Patrol Division is divided into five policing districts, with the Project site being within the Southwest District. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new

residential units and commercial space within a new four-story mixed-use building, which would result in approximately 75 to 150 new residents. The proposed Project would result in an incremental increase on police protection services in the City. The proposed Project would be consistent with the allowable uses of the City's DTN zoning and land use designation; therefore, buildout of the Project site would be consistent with the City's planned buildout scenario and would not result in unplanned growth. The FPD was contacted to determine the proposed Project's impacts on existing police protection services. No response identifying potential impacts has been received to date. Further, the proposed Project would be subject to the payment of Development Impact Fees to offset the incremental increase in demand on police protection services. Therefore, the proposed Project would not require new or physically altered governmental facilities for police protection services, and impacts would be *less than significant*.

iii. Schools?

The Fresno Unified School District (FUSD) serves more than 74,000 students and operates 64 elementary schools, 15 middle schools, eight high schools, four alternative schools, and three special education schools. The proposed Project includes the construction of a new residential and commercial mixed-use building that would result in approximately 75 to 150 new residents, which may increase the number of school-aged children in the area. As discussed in Section XIV, *Population and Housing*, the proposed Project would not result in substantial or unplanned population growth in a manner that would exceed the City's planned buildout scenario. The FUSD was contacted to determine the proposed Project's impacts on existing school facilities. No response identifying potential impacts has been received to date. Further, the proposed Project would be subject to the payment of State impact fees to offset the incremental demand on public schools. Therefore, the proposed Project would not create an increased demand on local schools, and impacts would be *less than significant*.

iv. Parks?

The proposed Project includes the construction of a new residential and commercial mixed-use building that would result in approximately 75 to 150 new residents, which would result in an incremental increase in demand on existing recreational facilities. As discussed in Section XIV, *Population and Housing*, the proposed Project would not result in substantial or unplanned population growth in a manner that would exceed the City's planned buildout scenario. The proposed Project would not result in a substantial or unplanned population increase that could result in deterioration of existing recreation or park facilities or require the expansion of new facilities. Therefore, the proposed Project would not create an increased demand on public recreation facilities, and *impacts would be less than significant*.

v. Other public facilities?

The proposed Project includes the construction of a new residential and commercial mixed-use building that would result in approximately 75 to 150 new

residents, which would result in an incremental increase in demand on other existing public facilities. As discussed in Section XIV, *Population and Housing*, the proposed Project would not result in substantial or unplanned population growth in a manner that would exceed the City's planned buildout scenario and substantially increase the demand on public facilities, such as libraries or post offices, or result in the need for new or physically altered governmental facilities. Therefore, the proposed Project would not create an increased demand on other public facilities, and impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XVI. RECREATION – Would the project:				
a) Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?			X	
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?				X

DISCUSSION

a) Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building, which would result in approximately 75 to 150 new residents. The proposed Project would result in an incremental increase on existing recreational facilities in the City. As discussed in Section XIV, *Population and Housing*, the proposed Project would not result in substantial or unplanned population growth in a manner that would exceed the City's planned buildout scenario, and the proposed Project would not result in a substantial or unplanned population increase that could rapidly increase the physical deterioration of existing recreation facilities.

Therefore, the proposed Project would not create an increased demand on public recreation facilities, and *impacts would be less than significant*.

b) Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. Therefore, the proposed Project would not include or require the construction or expansion of public recreational facilities, and *no impact* would occur.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XVII. TRANSPORTATION – Would the project:				
a) Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?			X	
b) Conflict or be inconsistent with CEQA Guidelines § 15064.3, subdivision (b)?			X	
c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?			X	
d) Result in inadequate emergency access?			X	

DISCUSSION

a) Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?

The *Fresno General Plan Mobility and Transportation Element*,[45] identifies goals and implementing policies related to promoting a city of healthy communities, improving the quality of life in established neighborhoods, planning for all modes of travel on local and major streets in Fresno, providing a well-maintained transportation system, and protecting and improving public health and safety. Additionally, the FCOG *2022 Regional Transportation Plan* (RTP)[46] reflects transportation planning for Fresno County through 2046 and is intended to create a region of diverse, safe, resilient, and accessible transportation options that improve the quality of life for all residents by fostering sustainability, equity, a vibrant economy, clean air, and healthy communities. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The proposed Project would be located in an existing urban area, would be consistent with the existing zoning of the Project site, and would not facilitate substantial or unplanned population growth in a manner that could generate a substantial number of new vehicle trips, which is consistent with the objectives of the City's General Plan. Further, the Project site is located near existing transit stops that would allow for the use of alternative modes of transportation and allow residents to access other areas of the city, which would be consistent with the FCOG 2022 RTP. Therefore, the proposed Project would be consistent with the City's Mobility and Transportation Element and the FCOG 2022 RTP, and impacts would be *less than significant.*

b) Would the project conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)?

Per SB 743, relevant CEQA analysis of transportation impacts is required to be conducted using a metric known as vehicle miles traveled (VMT) instead of level of service (LOS). VMT measures how much actual auto travel (additional miles driven) a proposed project would create on California roads. If a project adds excessive car travel onto roads, the project may cause a significant transportation impact.

The State CEQA Guidelines were amended to implement SB 743 by adding Section 15064.3. Among its provisions, Section 15064.3 confirms that, except with respect to transportation projects, a project's effect on automobile delay shall not constitute a significant environmental impact. Therefore, LOS measures of impacts to traffic facilities are no longer a relevant CEQA threshold for transportation impacts.

---

[45] City of Fresno. 2021a. *Fresno General Plan, Chapter 4: Mobility and Transportation Element*. September 30. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/upload_temp4-Mobility-and-Transportation-9-30-2021.pdf. Accessed June 2024.

[46] Fresno Council of Governments (FCOG). 2022. *2022 Regional Transportation Plan/Sustainable Communities Strategy*. Available at: https://www.planfresno.com/sustainable-communities-strategies-fall-outreach/. Accessed February 2024.

State CEQA Guidelines Section 15064.3(b)(4) states, "A lead agency has discretion to choose the most appropriate methodology to evaluate a project's vehicle miles traveled, including whether to express the change in absolute terms, per capita, per household or in any other measure. A lead agency may use models to estimate a project's vehicle miles traveled and may revise those estimates to reflect professional judgment based on substantial evidence. Any assumptions used to estimate vehicle miles traveled and any revision to model outputs should be documented and explained in the environmental document prepared for the project. The standard of adequacy in Section 15151 shall apply to the analysis described in this section."

On June 25, 2020, the City adopted the *CEQA Guidelines for Vehicle Miles Traveled Thresholds* (Fresno VMT Thresholds), pursuant to SB 743 to be effective July 1, 2020.[47] The Fresno VMT Thresholds were prepared and adopted consistent with the requirements of State CEQA Guidelines Sections 15064.3 and 15064.7. In December 2018, the California Governor's Office of Planning and Research (OPR) published the *Technical Advisory on Evaluating Transportation Impacts in CEQA*,[48] which was utilized as a reference and guidance document in the preparation of the Fresno VMT Thresholds.

The Fresno VMT Thresholds state that VMT exceeding an applicable threshold of significance may indicate a significant impact. Generally, projects with a high level of affordable housing units should be presumed to cause a less-than-significant transportation impact. The proposed Project includes the construction of a mixed-use building consisting of affordable housing units

Based on the FCOG *Vehicle Miles Traveled Analysis Tool Summary Report*,[49] based on the number of new market rate and affordable residential units, the proposed Project would result in a VMT per capita of 4.8, which would fall below the regional VMT per capita thresholds of 14.0 using 13% as the threshold and a threshold of 13.7 using 15% as the threshold and the local VMT per capita thresholds of 11.5 using 13% as the threshold and a threshold of 11.2 using 15% as the threshold. Therefore, the proposed Project is consistent with State CEQA Guidelines Section 15064.3(b), and impacts would be *less than significant*.

---

[47] City of Fresno. 2020b. *CEQA Guidelines for Vehicle Miles Traveled Thresholds*. June 18. Available at: https://fresno.legistar.com/View.ashx?M=F&ID=8601948&GUID=9AEF1630-3BE3-45BF-9BB8-3D4BB9DB1677. Accessed August 2024.

[49] Fresno Council of Governments (FCOG). 2025. *Vehicle Miles Traveled Analysis Tool Summary Report*. Version 1.38.

c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The proposed Project does not include the construction of new roadways or establishment of incompatible land uses that could result in new roadway hazards. The proposed Project would be located in an existing urban area, would be consistent with the existing zoning of the Project site, and would not facilitate substantial or unplanned population growth in a manner that could generate a substantial number of new vehicle trips that could increase congestion and associated hazards. Therefore, impacts would be *less than significant*.

d) Result in inadequate emergency access?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. Demolition and construction activities would be limited to a single existing parcel and would not require the implementation of any traffic controls that could impede emergency response or evacuation efforts within the Project area. Further, the Project site would provide adequate long-term emergency vehicle access. Therefore, the proposed Project would not result in inadequate emergency access, and impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XVII. TRIBAL CULTURAL RESOURCES – Would the project:				
a) Cause a substantial adverse change in the significance of a tribal cultural resource, defined in PRC section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:				

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in PRC section 5020.1(k), or,				X
ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of PRC section 5024.1. In applying the criteria set forth in subdivision (c) of PRC section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.		X		

DISCUSSION

a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:

i. Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k), or

Pursuant to AB 52, Native American Tribes traditionally and culturally affiliated with the Project area were invited to consult regarding the proposed Project based on a list of contacts provided by the NAHC. The City mailed notices of the proposed Project to each of these Tribes on July 30, 2024, and the required 30-day time period for Tribes to request consultation ended on September 3, 2024. One letter response was received from Robert Pennell, Tribal Cultural Resources Director for the Table Mountain Rancheria, in a letter dated August 16, 2024, stating that they "Decline participation at this time but would appreciate being notified in the unlikely event that cultural resources are identified." All other Tribes that were contacted declined consultation.

Based on the results of the cultural records search and AB 52 consultation, there are no built tribal historical resources located at the Project site. Therefore, the

proposed Project would not result in an adverse change to the significance of a tribal historical resource, and *no impacts* would occur.

ii. A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.

The State requires lead agencies to consider the potential effects of proposed projects and consult with California Native American Tribes during the local planning process for the purpose of protecting Traditional Tribal Cultural Resources through the State CEQA Guidelines. Pursuant to PRC 21080.3.1, the lead agency shall begin consultation with the California Native American Tribe that is traditionally and culturally affiliated with the geographical area of the proposed Project. Such significant cultural resources are either sites, features, places, cultural landscapes, sacred places, and objects with cultural value to a Tribe that is either included in or eligible for inclusion in the CRHR or local historic register, or, the lead agency, at its discretion, and support by substantial evidence, chooses to treat the resources as a Tribal Cultural Resources (PRC 21074(a)(1–2)).

Additional information may also be available from the NAHC SLF per PRC 5097.96 and the CHRIS administered by the OHP. Please also note that PRC 21082.3(c) contains provisions specific to confidentiality.

As previously identified, pursuant to AB 52, Native American Tribes traditionally and culturally affiliated with the Project area were invited to consult regarding the proposed Project based on a list of contacts provided by the NAHC. The City mailed notices of the proposed Project to each of these Tribes on July 30, 2024, and the required 30-day time period for Tribes to request consultation ended on September 3, 2024. One letter response was received from Robert Pennell, Tribal Cultural Resources Director for the Table Mountain Rancheria, in a letter dated August 16, 2024, stating that they “Decline participation at this time but would appreciate being notified in the unlikely event that cultural resources are identified.” All other Tribes that were contacted declined consultation.

As previously discussed in Section V, *Cultural Resources*, based on the SSJVIC records and NAHC SLF searches, there are no previously recorded archaeological resources within the Project area. Additionally, no archaeological resources or evidence of archaeological resources were observed during a field survey of the Project area. Based on the findings of the records search and pedestrian field survey, the Project site is considered to have low sensitivity for the presence of unidentified prehistoric or historic archaeological resources; however, the archaeological sensitivity of the surrounding Chinatown area remains high. As such, it is possible that unknown archaeological resources are extant within the Project area that have the potential to be impacted during demolition activities. Mitigation Measure CR-4 requires an archaeological monitor to be present during

demolition and removal of the basement. Further, Mitigation Measure CR-5 requires that, in the event that previously unidentified cultural resources are uncovered during proposed ground-disturbing activities, all work shall cease within the vicinity of the find until a qualified archaeologist is retained to evaluate the significance of the find and determine the need for further study. The proposed Project would also be required to comply with California Health and Safety Code Section 7050.5, which outlines the protocol for unanticipated discovery of human remains. Section 7050.5 states that no further disturbance shall occur until the Fresno County Coroner has made a determination of origin and disposition pursuant to PRC 5097.98. Based on the implementation of Mitigation Measures CR-4 and CR-5 as identified in Section V, *Cultural Resources*, the proposed Project would not result in disturbance to tribal cultural resources; therefore, impacts related to disturbance of tribal cultural resources would be *less than significant with mitigation.*

Mitigation Measures

Implement Mitigation Measures CR-4 and CR-5, as included in Section V, *Cultural Resources.*

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XIX. UTILITIES AND SERVICE SYSTEMS – Would the project:				
a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effect?			X	
b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry and multiple dry years?				X

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Result in a determination by the waste water treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?				X
d) Generate solid waste in excess of state or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?			X	
e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?			X	

DISCUSSION

a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?

The proposed Project would require connection to existing utility infrastructure within the footprint of the proposed Project. The impacts of construction activities at the Project site has been analyzed throughout this Initial Study, and no new impacts would occur as a result of construction activities for utility extensions. The proposed Project would be served by existing energy and telecommunications services, and no new natural gas or telecommunications facilities would be required to support the proposed Project. Further, as discussed in *Impact Discussions XIX.b)* through *XIX.d)*, the proposed Project would not increase demand on existing water, wastewater, or solid waste infrastructure in a manner that would require the construction of new or expansion of existing City utility infrastructure elsewhere. Therefore, impacts would be *less than significant*.

b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry and multiple dry years?

The City's DPU would supply water to the Project site. Based on the City's *2020 Urban Water Management Plan* (2020 UWMP),[50] the City has a water supply of 329,030 acre-feet per year (AFY) for the year 2025 and a projected water supply of 357,330 AFY for the year 2045. The City relies on groundwater from the North Kings Subbasin, surface water from the Central Valley Project through a contract with the U.S. Bureau of Reclamation, Kings River water through a contract with Fresno Irrigation District, and recycled water. Water supply in the City was entirely made up of groundwater prior to the commissioning of the City's first Surface Water Treatment Facility (SWTF) in 2004. Since 2004, the City has invested in expanding its surface water treatment capabilities and now has three SWTFs that provide approximately half of all potable water demands in the service area. Based on the 2020 UWMP, the projected potable water demand for 2025 is 136,504 AFY and the projected potable water demand for 2045 is 167,947 AFY. Further, the projected non-potable water demand for 2025 is 62,700 AFY and the projected non-potable water demand for 2045 is 73,500 AFY. The City's DPU was contacted to determine the proposed Project's impacts on existing utilities. No response identifying potential impacts has been received to date. Therefore, the City has ample water supply to serve the existing and projected water consumption within the City's service area.

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building, which would result in an incremental increase in water use. The 2020 UWMP identifies objectives for the City's future water supply and to balance groundwater operations through a host of strategies. The City has designed a comprehensive plan to accomplish this objective by increasing surface water supplies and surface water treatment facilities, intentional recharge, and conservation, in order to reduce groundwater pumping. The City continually monitors impacts of land use changes and development project proposals on water supply facilities by assigning fixed demand allocations to each parcel by land use as currently zoned or proposed to be rezoned. The City has indicated that groundwater wells, pump stations, recharge facilities, and water treatment and distribution systems shall be expanded incrementally to mitigate increased water demands. The City's General Plan requires the City to maintain a comprehensive conservation program to help reduce per capita water usage, and includes conservation programs such as landscaping standards for drought tolerance, irrigation control devices, leak detection and retrofits, water audits, public education, and implementing U.S. Bureau of Reclamation BMPs for water conservation to maintain surface water entitlements.

The Project site is located entirely within the Fresno City limits and SOI, and the proposed Project would be consistent with DTN uses as defined in the City's General Plan; therefore, the proposed Project would be consistent with the City's planned

[50] City of Fresno. 2021b. *Final 2020 Urban Water Management Plan*. City of Fresno Department of Public Utilities. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/Fresno-2020-UWMP_Final_2021-07-21.pdf. Accessed September 2024.

buildout scenario. Implementation of policies identified in the City's General Plan and 2020 UWMP would address the issues of providing an adequate, reliable, and sustainable water supply for the proposed Project. The proposed Project would have sufficient water supplies available to serve the proposed Project and reasonably foreseeable future development during normal, dry, and multiple dry years, and impacts would be *less than significant*.

c) Result in a determination by the wastewater treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?

The City owns and operates two wastewater treatment facilities: the Fresno/Clovis Regional Wastewater Reclamation Facility (WRF) and the North Fresno WRF. The Fresno/Clovis Regional WRF currently has a capacity of 91.5 million gallons per day (MGD) and the North Fresno WRF has a capacity of 0.71 MGD. The proposed Project would result in the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building that would result in an incremental increase in wastewater generation. The Project site is located entirely within the Fresno City limits and SOI, and the proposed Project would be consistent with DTN uses as defined in the City's General Plan; therefore, the proposed Project would be consistent with the City's planned buildout scenario and would not result in unplanned growth that could result in a substantial increase in wastewater generation. The City's DPU was contacted to determine the proposed Project's impacts on existing utilities. No response identifying potential impacts has been received to date. Therefore, the proposed Project would not generate wastewater in excess of existing wastewater treatment infrastructure, and impacts would be *less than significant*.

d) Generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?

Garbage disposed of in the City is taken to the Cedar Avenue Recycling and Transfer Station. Once trash has been off-loaded at the transfer station, it is sorted, and non-recyclable solid waste is loaded onto large trucks and taken to the American Avenue Landfill, located approximately 6 miles southwest of Kerman.

The American Avenue Landfill (American Avenue Disposal Site 10-AA-0009)[51] has a maximum permitted capacity of 32,700,000 cubic yards (CY) and a remaining capacity of 29,358,535 CY, with an estimated closure date of August 31, 2031. The maximum permitted throughput is 2,200 tons per day. Other landfills within Fresno County include the Clovis Landfill (City of Clovis Landfill 10-AA-0004)[52] with a maximum

[51] California Department of Resources Recycling and Recovery (CalRecycle). 2024a. SWIS Facility/Site Summary: American Avenue Disposal Site (10-AA-0009). Available online at: https://www2.calrecycle.ca.gov/SolidWaste/Site/Summary/352. Accessed September 2024.

[52] California Department of Resources Recycling and Recovery (CalRecycle). 2024b. SWIS Facility/Site Summary: City of Clovis Landfill (10-AA-0004). Available online at: https://www2.calrecycle.ca.gov/SolidWaste/Site/Summary/347. Accessed September 2024.

remaining permitted capacity of 7,740,000 CY, a maximum permitted throughput of 2,000 tons per day, and an estimated closure date of 2047.

Construction of the proposed Project may result in a temporary increase in solid waste, which would be disposed of in accordance with applicable State and local laws and regulations, such as CALGreen Sections 4.408 and 5.408, which require diversion of at least 75% of construction waste. The proposed Project would also be required to comply with the City's Construction and Demolition Approved Disposal Facilities guide for proper disposal methods. Based on required compliance with CALGreen and City regulations, construction of the proposed Project would not generate solid waste in excess of local infrastructure capacity.

According to the California Department of Resources Recycling and Recovery (CalRecycle) Estimated Solid Waste Generation Rates,[53] operation of seven residential units would result in approximately 85.61 pounds of solid waste per day. Proposed solid waste calculations are shown in Table 4.

Table 4: Estimated Solid Waste Generation Rates

Waste Generation Source	Generation Rate	Unit of Measure	Proposed Development	Total
Residential	12.23	lb/household/day	100 units	1,223 lbs
Commercial	13	lb/1000 sq ft/day	15,000 sq ft*	195 lbs
Total				**1,418 lbs**

Source: CalRecycle Estimated Solid Waste Generation Rates (2019)

Note: lb = pound; sq ft = square foot

* The estimation is using a conservative estimate of 15,000 sf of commercial space based on parcel size.

As shown in Table 4, the proposed Project would result in an incremental increase in solid waste of approximately 1,418 pounds per day. The Project site is located entirely within the Fresno City limits and SOI, and the proposed Project would be consistent with DTN uses as defined in the City's General Plan; therefore, the proposed Project would be consistent with the City's planned buildout scenario and would not result in unplanned growth that could result in a substantial increase in solid waste generation. Solid waste generated by the proposed Project would be disposed of at the American Avenue Landfill, which has adequate capacity to dispose of the marginal amount of solid waste generated by construction activities, and the additional projected 1,418 pounds of waste per day during operation. Operation of the proposed Project would result in a marginal increase in solid waste and would not generate waste in excess

[53] California Department of Resources Recycling and Recovery (CalRecycle). 2019. Estimated Solid Waste Generation Rates. Available at: https://www2.calrecycle.ca.gov/WasteCharacterization/General/Rates. Accessed September 2024.

of State or local standards or in excess of the capacity of local infrastructure. Therefore, impacts would be *less than significant*.

e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?

The proposed Project would result in a marginal increase in solid waste and would not result in a substantial increase in solid waste that could interfere with solid waste reduction statutes and regulations, including, but not limited to, policies identified in the *Fresno General Plan Public Utilities and Services Element*.[54] The proposed Project would be required to comply with CALGreen and City requirements to ensure proper diversion and disposal of short- and long-term solid waste. Therefore, the proposed Project would not conflict with federal, State, and local management and reduction statutes and regulations related to solid waste, and impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XX. WILDFIRE – If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:				
a) Substantially impair an adopted emergency response plan or emergency evacuation plan?			X	
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?			X	

[54] City of Fresno. 2014. *Fresno General Plan, Chapter 6: Public Utilities and Services Element*. Adopted December 18. Available at: https://www.fresno.gov/wp-content/uploads/2023/03/General-Plan-6-Public-Utilities-and-Services-7-19.pdf. Accessed September 2024.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?			X	
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?			X	

DISCUSSION

a) Substantially impair an adopted emergency response plan or emergency evacuation plan?

The Project site is in an urban area and is not located within a VHFHSZ.[55] The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. Construction activities would be limited to an existing parcel and would not require the closure of any public roadways that could impede emergency response or evacuation efforts. The proposed Project would not require the alteration of any existing roadways that could interfere with any emergency evacuation routes within the city or an adopted emergency response plan. Therefore, the proposed Project would be consistent with the *Fresno General Plan Noise and*

[55] California Department of Forestry and Fire Protection (CAL FIRE). 2024. *Fire Hazard Severity Zones in State Responsibility Area.* Available at: https://calfire-forestry.maps.arcgis.com/apps/webappviewer/index.html?id=988d431a42b242b29d89597ab693d008. Accessed August 2024.

Safety Element[56] and the *Fresno County Multi-Jurisdictional Hazard Mitigation Plan*,[57] and impacts would be *less than significant*.

b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?

The Project site is in an urban area and is not located within a VHFHSZ. The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building. The proposed Project would be required to comply with the CFC to reduce risk associated with wildfire ignition at the Project site. Therefore, the proposed Project would not expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire, and impacts would be *less than significant*.

c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?

The proposed Project would require the expansion of utility infrastructure to serve the proposed mixed-use building. However, the proposed Project would be required to comply with the CFC to reduce risk associated with wildfire ignition at the Project site. Therefore, the proposed Project would not exacerbate wildfire risk, and impacts would be *less than significant*.

d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?

The Project site is in an urban area and is not located within a VHFHSZ. Based on the low risk of wildfire within the Project area, hazards associated with wildfire, including post-fire instability or drainage changes, have a low potential to occur. In addition, the Project site is located in a developed portion of the City in an area with flat topography and a low risk of landslide and other ground-failure events. Further, the proposed Project would be required to comply with applicable CFC and CBC requirements to avoid risk associated with post-fire hazards. Therefore, the proposed Project would not expose people or structures to significant post-fire risks, and impacts would be *less than significant*.

Mitigation Measures

Mitigation measures are not required.

ENVIRONMENTAL ISSUES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
XIX. MANDATORY FINDINGS OF SIGNIFICANCE				
a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?		X		
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?		X		
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?		X		

DISCUSSION

a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of an endangered, rare, or threatened species, or eliminate important examples of the major periods of California history or prehistory?

The proposed Project includes the acquisition and demolition of an existing building to allow for the construction of up to 100 new residential units and commercial space within a new four-story mixed-use building in a developed portion of the City and does not include development in a rural or previously undeveloped area that could lead to a substantial reduction in habitat, plant and animal species, or significant resources of the major periods of California history or prehistory. Further, Mitigation Measure BIO-1, included in Section IV, *Biological Resources*, has been identified to reduce impacts to migratory birds and Mitigation Measures CR-1 through CR-5, included in Section V, *Cultural Resources*, have been identified to reduce impacts to cultural resources. Therefore, the proposed Project would not have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of an endangered, rare, or threatened species, or eliminate important examples of the major periods of California history or prehistory, and impacts would be *less than significant with mitigation*.

b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)

When project impacts are considered along or in combination with other impacts, the project-related impacts may be significant. Construction and operation of the proposed Project would contribute to cumulative impacts related to Air Quality, Biological Resources, Cultural and Tribal Cultural Resources, Geology and Soils, and Hazards and Hazardous Materials. Mitigation measures have been incorporated into the proposed Project to reduce project-related impacts to a less-than-significant level. Based on implementation of Mitigation Measures AQ-1 through AQ-5, included in Section III, *Air Quality*; Mitigation Measure BIO-1, included in Section IV, *Biological Resources*; Mitigation Measures CR-1 through CR-5, included in Section V, *Cultural Resources*; and Mitigation Measure GEO-1, included in Section VII, *Geology and Soils*, the cumulative effects of the proposed Project would be less than significant.

c) Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?

The proposed Project would result in air emissions and may disturb hazardous substances during demolition and construction activities. Mitigation Measures AQ-1

through AQ-5, included in Section III, *Air Quality*, have been identified that would reduce these project-specific impacts to a less-than-significant level. However, no substantial adverse effects on human beings are expected to occur as a result of the operation of the anticipated 100 residential units and limited commercial operations on the first floor. Therefore, the proposed Project would not result in substantial, adverse environmental effects to human beings, either directly or indirectly, and impacts are *less than significant with mitigation incorporated*.

Mitigation Measures

Implement Mitigation Measures AQ-1 through AQ-5, included in Section III, *Air Quality*; Mitigation Measure BIO-1, included in Section IV, *Biological Resources*; Mitigation Measures CR-1 through CR-5, included in Section V, *Cultural Resources*; and Mitigation Measure GEO-1, included in Section VII, *Geology and Soils.*

APPENDIX A

CalEEMod Results

Peacock Building Acquisition and Demolition Custom Report

Table of Contents

1. Basic Project Information

1.1. Basic Project Information

1.2. Land Use Types

1.3. User-Selected Emission Reduction Measures by Emissions Sector

2. Emissions Summary

2.1. Construction Emissions Compared Against Thresholds

2.2. Construction Emissions by Year, Unmitigated

2.4. Operations Emissions Compared Against Thresholds

2.5. Operations Emissions by Sector, Unmitigated

3. Construction Emissions Details

3.1. Demolition (2025) - Unmitigated

3.3. Site Preparation (2025) - Unmitigated

3.5. Grading (2026) - Unmitigated

3.7. Building Construction (2026) - Unmitigated

3.9. Building Construction (2027) - Unmitigated

3.11. Paving (2027) - Unmitigated

3.13. Architectural Coating (2027) - Unmitigated

4. Operations Emissions Details

4.1. Mobile Emissions by Land Use

4.1.1. Unmitigated

4.2. Energy

4.2.1. Electricity Emissions By Land Use - Unmitigated

4.2.3. Natural Gas Emissions By Land Use - Unmitigated

4.3. Area Emissions by Source

4.3.1. Unmitigated

4.4. Water Emissions by Land Use

4.4.1. Unmitigated

4.5. Waste Emissions by Land Use

4.5.1. Unmitigated

4.6. Refrigerant Emissions by Land Use

4.6.1. Unmitigated

4.7. Offroad Emissions By Equipment Type

4.7.1. Unmitigated

4.8. Stationary Emissions By Equipment Type

4.8.1. Unmitigated

4.9. User Defined Emissions By Equipment Type

4.9.1. Unmitigated

4.10. Soil Carbon Accumulation By Vegetation Type

4.10.1. Soil Carbon Accumulation By Vegetation Type - Unmitigated

4.10.2. Above and Belowground Carbon Accumulation by Land Use Type - Unmitigated

4.10.3. Avoided and Sequestered Emissions by Species - Unmitigated

5. Activity Data

5.1. Construction Schedule

5.2. Off-Road Equipment

5.2.1. Unmitigated

5.3. Construction Vehicles

5.3.1. Unmitigated

5.4. Vehicles

5.4.1. Construction Vehicle Control Strategies

5.5. Architectural Coatings

5.6. Dust Mitigation

5.6.1. Construction Earthmoving Activities

5.6.2. Construction Earthmoving Control Strategies

5.7. Construction Paving

5.8. Construction Electricity Consumption and Emissions Factors

5.9. Operational Mobile Sources

5.9.1. Unmitigated

5.10. Operational Area Sources

5.10.1. Hearths

5.10.1.1. Unmitigated

5.10.2. Architectural Coatings

5.10.3. Landscape Equipment

5.11. Operational Energy Consumption

5.11.1. Unmitigated

5.12. Operational Water and Wastewater Consumption

5.12.1. Unmitigated

5.13. Operational Waste Generation

5.13.1. Unmitigated

5.14. Operational Refrigeration and Air Conditioning Equipment

5.14.1. Unmitigated

5.15. Operational Off-Road Equipment

5.15.1. Unmitigated

5.16. Stationary Sources

5.16.1. Emergency Generators and Fire Pumps

5.16.2. Process Boilers

5.17. User Defined

5.18. Vegetation

5.18.1. Land Use Change

5.18.1.1. Unmitigated

5.18.1. Biomass Cover Type

5.18.1.1. Unmitigated

5.18.2. Sequestration

5.18.2.1. Unmitigated

7. Health and Equity Details

7.1. CalEnviroScreen 4.0 Scores

8. User Changes to Default Data

1. Basic Project Information

1.1. Basic Project Information

Data Field	Value
Project Name	Peacock Building Acquisition and Demolition
Construction Start Date	9/1/2025
Operational Year	2028
Lead Agency	—
Land Use Scale	Project/site
Analysis Level for Defaults	County
Windspeed (m/s)	2.70
Precipitation (days)	22.6
Location	939 F St, Fresno, CA 93706, USA
County	Fresno
City	Fresno
Air District	San Joaquin Valley APCD
Air Basin	San Joaquin Valley
TAZ	2478
EDFZ	5
Electric Utility	Pacific Gas & Electric Company
Gas Utility	Pacific Gas & Electric
App Version	2022.1.1.29

1.2. Land Use Types

Land Use Subtype	Size	Unit	Lot Acreage	Building Area (sq ft)	Landscape Area (sq ft)	Special Landscape Area (sq ft)	Population	Description
Apartments Mid Rise	100	Dwelling Unit	0.33	96,000	0.00	—	320	—

General Office Building	15.0	1000sqft	0.33	15,000	0.00	—	—	—

1.3. User-Selected Emission Reduction Measures by Emissions Sector

No measures selected

2. Emissions Summary

2.1. Construction Emissions Compared Against Thresholds

Criteria Pollutants (lb/day for daily, ton/yr for annual) and GHGs (lb/day for daily, MT/yr for annual)

Un/Mit.	ROG	NOx	CO	SO2	PM10E	PM10D	PM10T	PM2.5E	PM2.5D	PM2.5T	BCO2	NBCO2	CO2T	CH4	N2O	R	CO2e
Daily, Summer (Max)	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—	—

Poverty	97.4
Unemployment	—

8. User Changes to Default Data

Screen	Justification
Land Use	100 dwelling units and 15,000-sf of commercial space on a 0.33-acre site.
Construction: Construction Phases	Demolition activities are expected to occur over a 30- to 60-day period beginning in mid to late 2025. Construction of the new mixed-use building is expected to occur over a 2-year period beginning in early 2026.
Construction: Dust From Material Movement	Estimated Import of 1,000 CY to fill basement area
Construction: Trips and VMT	Construction activities would result in a total of approximately 500 total truck trips.
Operations: Hearths	No natural gas appliances or wood stoves.

APPENDIX B

USFWS IPaC, CDFW CNDDB, and CNPS Query Results

IPaC resource list

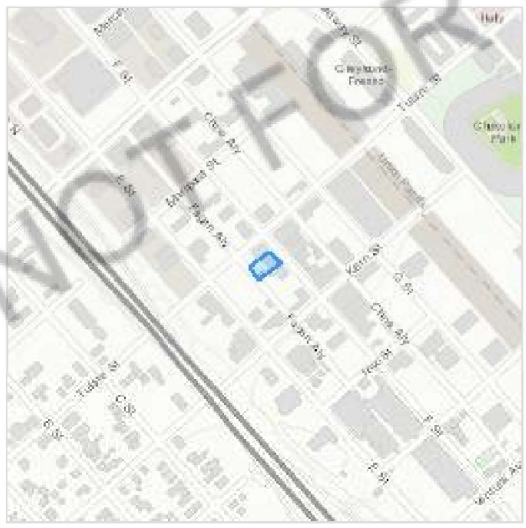

This report is an automatically generated list of species and other resources such as critical habitat (collectively referred to as *trust resources*) under the U.S. Fish and Wildlife Service's (USFWS) jurisdiction that are known or expected to be on or near the project area referenced below. The list may also include trust resources that occur outside of the project area, but that could potentially be directly or indirectly affected by activities in the project area. However, determining the likelihood and extent of effects a project may have on trust resources typically requires gathering additional site-specific (e.g., vegetation/species surveys) and project-specific (e.g., magnitude and timing of proposed activities) information.

Below is a summary of the project information you provided and contact information for the USFWS office(s) with jurisdiction in the defined project area. Please read the introduction to each section that follows (Endangered Species, Migratory Birds, USFWS Facilities, and NWI Wetlands) for additional information applicable to the trust resources addressed in that section.

NOT FOR CONSULTATION

Location

Fresno County, California

Local office

Sacramento Fish And Wildlife Office

(916) 414-6600
(916) 414-6713

Federal Building
2800 Cottage Way, Room W-2605
Sacramento, CA 95825-1846

NOT FOR CONSULTATION

Endangered species

This resource list is for informational purposes only and does not constitute an analysis of project level impacts.

The primary information used to generate this list is the known or expected range of each species. Additional areas of influence (AOI) for species are also considered. An AOI includes areas outside of the species range if the species could be indirectly affected by activities in that area (e.g., placing a dam upstream of a fish population even if that fish does not occur at the dam site, may indirectly impact the species by reducing or eliminating water flow downstream). Because species can move, and site conditions can change, the species on this list are not guaranteed to be found on or near the project area. To fully determine any potential effects to species, additional site-specific and project-specific information is often required.

Section 7 of the Endangered Species Act **requires** Federal agencies to "request of the Secretary information whether any species which is listed or proposed to be listed may be present in the area of such proposed action" for any project that is conducted, permitted, funded, or licensed by any Federal agency. A letter from the local office and a species list which fulfills this requirement can **only** be obtained by requesting an official species list from either the Regulatory Review section in IPaC (see directions below) or from the local field office directly.

For project evaluations that require USFWS concurrence/review, please return to the IPaC website and request an official species list by doing the following:

1. Draw the project location and click CONTINUE.
2. Click DEFINE PROJECT.
3. Log in (if directed to do so).
4. Provide a name and description for your project.
5. Click REQUEST SPECIES LIST.

Listed species[1] and their critical habitats are managed by the Ecological Services Program of the U.S. Fish and Wildlife Service (USFWS) and the fisheries division of the National Oceanic and Atmospheric Administration (NOAA Fisheries[2]).

Species and critical habitats under the sole responsibility of NOAA Fisheries are **not** shown on this list. Please contact NOAA Fisheries for species under their jurisdiction.

---

1. Species listed under the Endangered Species Act are threatened or endangered; IPaC also shows species that are candidates, or proposed, for listing. See the listing status page for more information. IPaC only shows species that are regulated by USFWS (see FAQ).

NOT FOR CONSULTATION

2. NOAA Fisheries, also known as the National Marine Fisheries Service (NMFS), is an office of the National Oceanic and Atmospheric Administration within the Department of Commerce.

The following species are potentially affected by activities in this location:

Mammals

NAME	STATUS
Fresno Kangaroo Rat Dipodomys nitratoides exilis Wherever found **There is final critical habitat for this species. Your location does not overlap the critical habitat.** https://ecos.fws.gov/ecp/species/5150	**Endangered**
San Joaquin Kit Fox Vulpes macrotis mutica Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/2873	Endangered

Reptiles

NAME	STATUS
Blunt-nosed Leopard Lizard Gambelia silus Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/625	Endangered
Northwestern Pond Turtle Actinemys marmorata Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/1111	Proposed Threatened

Amphibians

NAME	STATUS
California Tiger Salamander Ambystoma californiense **There is final critical habitat for this species. Your location does not overlap the critical habitat.** https://ecos.fws.gov/ecp/species/2076	**Threatened**

NOT FOR CONSULTATION

Western Spadefoot Spea hammondii Wherever found **No critical habitat has been designated for this species.** https://ecos.fws.gov/ecp/species/5425	**Proposed Threatened**

Insects

NAME	STATUS
Monarch Butterfly Danaus plexippus Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/9743	**Candidate**

Crustaceans

NAME	STATUS
Vernal Pool Fairy Shrimp Branchinecta lynchi Wherever found There is **final** critical habitat for this species. Your location does not overlap the critical habitat. https://ecos.fws.gov/ecp/species/498	Threatened

Critical habitats

Potential effects to critical habitat(s) in this location must be analyzed along with the endangered species themselves.

There are no critical habitats at this location.

You are still required to determine if your project(s) may have effects on all above listed species.

Bald & Golden Eagles

There are no documented cases of eagles being present at this location. However, if you believe eagles may be using your site, please reach out to the local Fish and Wildlife Service office.

NOT FOR CONSULTATION

Additional information can be found using the following links:

- Eagle Management https://www.fws.gov/program/eagle-management
- Measures for avoiding and minimizing impacts to birds https://www.fws.gov/library/collections/avoiding-and-minimizing-incidental-take-migratory-birds
- Nationwide conservation measures for birds https://www.fws.gov/sites/default/files/documents/nationwide-standard-conservation-measures.pdf
- Supplemental Information for Migratory Birds and Eagles in IPaC https://www.fws.gov/media/supplemental-information-migratory-birds-and-bald-and-golden-eagles-may-occur-project-action

What does IPaC use to generate the potential presence of bald and golden eagles in my specified location?

The potential for eagle presence is derived from data provided by the Avian Knowledge Network (AKN). The AKN data is based on a growing collection of survey, banding, and citizen science datasets and is queried and filtered to return a list of those birds reported as occurring in the 10km grid cell(s) which your project intersects, and that have been identified as warranting special attention because they are a BCC species in that area, an eagle (Eagle Act requirements may apply). To see a list of all birds potentially present in your project area, please visit the Rapid Avian Information Locator (RAIL) Tool.

What does IPaC use to generate the probability of presence graphs of bald and golden eagles in my specified location?

The Migratory Bird Resource List is comprised of USFWS Birds of Conservation Concern (BCC) and other species that may warrant special attention in your project location.

The migratory bird list generated for your project is derived from data provided by the Avian Knowledge Network (AKN). The AKN data is based on a growing collection of survey, banding, and citizen science datasets and is queried and filtered to return a list of those birds reported as occurring in the 10km grid cell(s) which your project intersects, and that have been identified as warranting special attention because they are a BCC species in that area, an eagle (Eagle Act requirements may apply), or a species that has a particular vulnerability to offshore activities or development.

Again, the Migratory Bird Resource list includes only a subset of birds that may occur in your project area. It is not representative of all birds that may occur in your project area. To get a list of all birds potentially present in your project area, please visit the Rapid Avian Information Locator (RAIL) Tool.

What if I have eagles on my list?

If your project has the potential to disturb or kill eagles, you may need to obtain a permit to avoid violating the Eagle Act should such impacts occur. Please contact your local Fish and Wildlife Service Field Office if you have questions.

NOT FOR CONSULTATION

Migratory birds

Certain birds are protected under the Migratory Bird Treaty Act[1] and the Bald and Golden Eagle Protection Act[2].

Any person or organization who plans or conducts activities that may result in impacts to migratory birds, eagles, and their habitats[3] should follow appropriate regulations and consider implementing appropriate conservation measures, as described in the links below. Specifically, please review the "Supplemental Information on Migratory Birds and Eagles".

1. The Migratory Birds Treaty Act of 1918.
2. The Bald and Golden Eagle Protection Act of 1940.

Additional information can be found using the following links:

- Eagle Management https://www.fws.gov/program/eagle-management
- Measures for avoiding and minimizing impacts to birds https://www.fws.gov/library/collections/avoiding-and-minimizing-incidental-take-migratory-birds
- Nationwide conservation measures for birds https://www.fws.gov/sites/default/files/documents/nationwide-standard-conservation-measures.pdf
- Supplemental Information for Migratory Birds and Eagles in IPaC https://www.fws.gov/media/supplemental-information-migratory-birds-and-bald-and-golden-eagles-may-occur-project-action

The birds listed below are birds of particular concern either because they occur on the USFWS Birds of Conservation Concern (BCC) list or warrant special attention in your project location. To learn more about the levels of concern for birds on your list and how this list is generated, see the FAQ below. This is not a list of every bird you may find in this location, nor a guarantee that every bird on this list will be found in your project area. To see exact locations of where birders and the general public have sighted birds in and around your project area, visit the E-bird data mapping tool (Tip: enter your location, desired date range and a species on your list). For projects that occur off the Atlantic Coast, additional maps and models detailing the relative occurrence and abundance of bird species on your list are available. Links to additional information about Atlantic Coast birds, and other important information about your migratory bird list, including how to properly interpret and use your migratory bird report, can be found below.

For guidance on when to schedule activities or implement avoidance and minimization measures to reduce impacts to migratory birds on your list, see the PROBABILITY OF PRESENCE SUMMARY below to see when these birds are most likely to be present and breeding in your project area.

NAME	BREEDING SEASON

NOT FOR CONSULTATION

Belding's Savannah Sparrow Passerculus sandwichensis beldingi **This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA** **https://ecos.fws.gov/ecp/species/8**	**Breeds Apr 1 to Aug 15**
Bullock's Oriole Icterus bullockii **This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA**	**Breeds Mar 21 to Jul 25**
California Gull Larus californicus This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.	Breeds Mar 1 to Jul 31
Northern Harrier Circus hudsonius This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/8350	Breeds Apr 1 to Sep 15
Nuttall's Woodpecker Dryobates nuttallii This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9410	Breeds Apr 1 to Jul 20
Olive-sided Flycatcher Contopus cooperi This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/3914	Breeds May 20 to Aug 31
Santa Barbara Song Sparrow Melospiza melodia graminea This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/5513	Breeds Mar 1 to Sep 5
Western Screech-owl Megascops kennicottii cardonensis **This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA**	**Breeds Mar 1 to Jun 30**

NOT FOR CONSULTATION

Probability of Presence Summary

The graphs below provide our best understanding of when birds of concern are most likely to be present in your project area. This information can be used to tailor and schedule your project activities to avoid or minimize impacts to birds. Please make sure you read

"Supplemental Information on Migratory Birds and Eagles", specifically the FAQ section titled "Proper Interpretation and Use of Your Migratory Bird Report" before using or attempting to interpret this report.

Probability of Presence (■)

Each green bar represents the bird's relative probability of presence in the 10km grid cell(s) your project overlaps during a particular week of the year. (A year is represented as 12 4-week months.) A taller bar indicates a higher probability of species presence. The survey effort (see below) can be used to establish a level of confidence in the presence score. One can have higher confidence in the presence score if the corresponding survey effort is also high.

How is the probability of presence score calculated? The calculation is done in three steps:

1. The probability of presence for each week is calculated as the number of survey events in the week where the species was detected divided by the total number of survey events for that week. For example, if in week 12 there were 20 survey events and the Spotted Towhee was found in 5 of them, the probability of presence of the Spotted Towhee in week 12 is 0.25.
2. To properly present the pattern of presence across the year, the relative probability of presence is calculated. This is the probability of presence divided by the maximum probability of presence across all weeks. For example, imagine the probability of presence in week 20 for the Spotted Towhee is 0.05, and that the probability of presence at week 12 (0.25) is the maximum of any week of the year. The relative probability of presence on week 12 is 0.25/0.25 = 1; at week 20 it is 0.05/0.25 = 0.2.
3. The relative probability of presence calculated in the previous step undergoes a statistical conversion so that all possible values fall between 0 and 10, inclusive. This is the probability of presence score.

To see a bar's probability of presence score, simply hover your mouse cursor over the bar.

Breeding Season (■)

Yellow bars denote a very liberal estimate of the time-frame inside which the bird breeds across its entire range. If there are no yellow bars shown for a bird, it does not breed in your project area.

Survey Effort (|)

Vertical black lines superimposed on probability of presence bars indicate the number of surveys performed for that species in the 10km grid cell(s) your project area overlaps. The number of surveys is expressed as a range, for example, 33 to 64 surveys.

To see a bar's survey effort range, simply hover your mouse cursor over the bar.

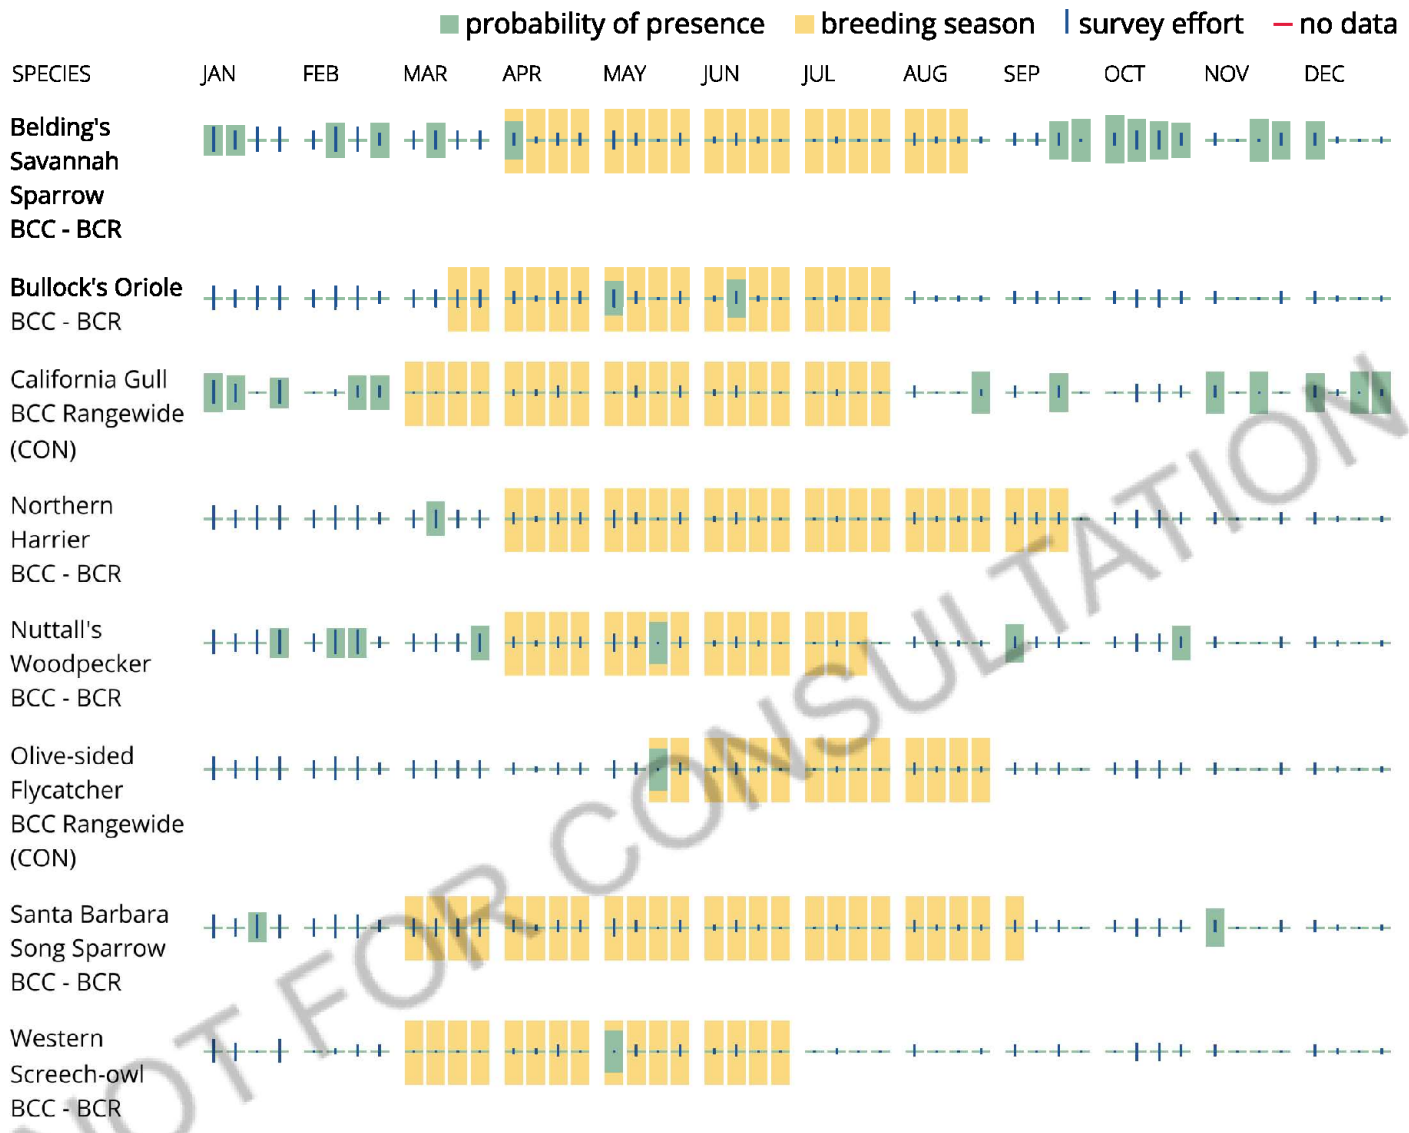

No Data (–)

A week is marked as having no data if there were no survey events for that week.

Survey Timeframe

NOT FOR CONSULTATION

Surveys from only the last 10 years are used in order to ensure delivery of currently relevant information. The exception to this is areas off the Atlantic coast, where bird returns are based on all years of available data, since data in these areas is currently much more sparse.

NOT FOR CONSULTATION

Tell me more about conservation measures I can implement to avoid or minimize impacts to migratory birds.

Nationwide Conservation Measures describes measures that can help avoid and minimize impacts to all birds at any location year round. Implementation of these measures is particularly important when birds are most likely to occur in the project area. When birds may be breeding in the area, identifying the locations of any active nests and avoiding their destruction is a very helpful impact minimization measure. To see when birds are most likely to occur and be breeding in your project area, view the Probability of Presence Summary. Additional measures or permits may be advisable depending on the type of activity you are conducting and the type of infrastructure or bird species present on your project site.

What does IPaC use to generate the list of migratory birds that potentially occur in my specified location?

The Migratory Bird Resource List is comprised of USFWS Birds of Conservation Concern (BCC) and other species that may warrant special attention in your project location.

The migratory bird list generated for your project is derived from data provided by the Avian Knowledge Network (AKN). The AKN data is based on a growing collection of survey, banding, and citizen science datasets and is queried and filtered to return a list of those birds reported as occurring in the 10km grid cell(s) which your project intersects, and that have been identified as warranting special attention because they are a BCC species in that area, an eagle (Eagle Act requirements may apply), or a species that has a particular vulnerability to offshore activities or development.

Again, the Migratory Bird Resource list includes only a subset of birds that may occur in your project area. It is not representative of all birds that may occur in your project area. To get a list of all birds potentially present in your project area, please visit the Rapid Avian Information Locator (RAIL) Tool.

What does IPaC use to generate the probability of presence graphs for the migratory birds potentially occurring in my specified location?

The probability of presence graphs associated with your migratory bird list are based on data provided by the Avian Knowledge Network (AKN). This data is derived from a growing collection of survey, banding, and citizen science datasets.

Probability of presence data is continuously being updated as new and better information becomes available. To learn more about how the probability of presence graphs are produced and how to interpret them, go the Probability of Presence Summary and then click on the "Tell me about these graphs" link.

How do I know if a bird is breeding, wintering or migrating in my area?

To see what part of a particular bird's range your project area falls within (i.e. breeding, wintering, migrating or year-round), you may query your location using the RAIL Tool and look at the range maps provided for birds in your area at the bottom of the profiles provided for each bird in your results. If a bird on your migratory bird species list has a breeding season associated with it, if that bird does occur in your project area, there may be nests present at some point within the timeframe specified. If "Breeds elsewhere" is indicated, then the bird likely does not breed in your project area.

What are the levels of concern for migratory birds?

Migratory birds delivered through IPaC fall into the following distinct categories of concern:

1. "BCC Rangewide" birds are Birds of Conservation Concern (BCC) that are of concern throughout their range anywhere within the USA (including Hawaii, the Pacific Islands, Puerto Rico, and the Virgin Islands);
2. "BCC - BCR" birds are BCCs that are of concern only in particular Bird Conservation Regions (BCRs) in the continental USA; and
3. "Non-BCC - Vulnerable" birds are not BCC species in your project area, but appear on your list either because of the Eagle Act requirements (for eagles) or (for non-eagles) potential susceptibilities in offshore areas from certain types of development or activities (e.g. offshore energy development or longline fishing).

Although it is important to try to avoid and minimize impacts to all birds, efforts should be made, in particular, to avoid and minimize impacts to the birds on this list, especially eagles and BCC species of rangewide concern. For more information on conservation measures you can implement to help avoid and minimize migratory bird impacts and requirements for eagles, please see the FAQs for these topics.

NOT FOR CONSULTATION

Details about birds that are potentially affected by offshore projects

For additional details about the relative occurrence and abundance of both individual bird species and groups of bird species within your project area off the Atlantic Coast, please visit the Northeast Ocean Data Portal. The Portal also offers data and information about other taxa besides birds that may be helpful to you in your project review. Alternately, you may download the bird model results files underlying the portal maps through the NOAA NCCOS Integrative Statistical Modeling and Predictive Mapping of Marine Bird Distributions and Abundance on the Atlantic Outer Continental Shelf project webpage.

Bird tracking data can also provide additional details about occurrence and habitat use throughout the year, including migration. Models relying on survey data may not include this information. For additional information on marine bird tracking data, see the Diving Bird Study and the nanotag studies or contact Caleb Spiegel or Pam Loring.

What if I have eagles on my list?

If your project has the potential to disturb or kill eagles, you may need to obtain a permit to avoid violating the Eagle Act should such impacts occur.

Proper Interpretation and Use of Your Migratory Bird Report

The migratory bird list generated is not a list of all birds in your project area, only a subset of birds of priority concern. To learn more about how your list is generated, and see options for identifying what other birds may be in your project area, please see the FAQ "What does IPaC use to generate the migratory birds potentially occurring in my specified location". Please be aware this report provides the "probability of presence" of birds within the 10 km grid cell(s) that overlap your project; not your exact project footprint. On the graphs provided, please also look carefully at the survey effort (indicated by the black vertical bar) and for the existence of the "no data" indicator (a red horizontal bar). A high survey effort is the key component. If the survey effort is high, then the probability of presence score can be viewed as more dependable. In contrast, a low survey effort bar or no data bar means a lack of data and, therefore, a lack of certainty about presence of the species. This list is not perfect; it is simply a starting point for identifying what birds of concern have the potential to be in your project area, when they might be there, and if they might be breeding (which means nests might be present). The list helps you know what to look for to confirm presence, and helps guide you in knowing when to implement conservation measures to avoid or minimize potential impacts from your project activities, should presence be confirmed. To learn more about conservation measures, visit the FAQ "Tell me about conservation measures I can implement to avoid or minimize impacts to migratory birds" at the bottom of your migratory bird trust resources page.

NOT FOR CONSULTATION

Facilities

National Wildlife Refuge lands

Any activity proposed on lands managed by the National Wildlife Refuge system must undergo a 'Compatibility Determination' conducted by the Refuge. Please contact the individual Refuges to discuss any questions or concerns.

There are no refuge lands at this location.

Fish hatcheries

There are no fish hatcheries at this location.

Wetlands in the National Wetlands Inventory (NWI)

Impacts to NWI wetlands and other aquatic habitats may be subject to regulation under Section 404 of the Clean Water Act, or other State/Federal statutes.

For more information please contact the Regulatory Program of the local U.S. Army Corps of Engineers District.

This location did not intersect any wetlands mapped by NWI.

NOTE: This initial screening does **not** replace an on-site delineation to determine whether wetlands occur. Additional information on the NWI data is provided below.

NOT FOR CONSULTATION

Data limitations

The Service's objective of mapping wetlands and deepwater habitats is to produce reconnaissance level information on the location, type and size of these resources. The maps are prepared from the analysis of high altitude imagery. Wetlands are identified based on vegetation, visible hydrology and geography. A margin of error is inherent in the use of imagery; thus, detailed on-the-ground inspection of any particular site may result in revision of the wetland boundaries or classification established through image analysis.

The accuracy of image interpretation depends on the quality of the imagery, the experience of the image analysts, the amount and quality of the collateral data and the amount of ground truth verification work conducted. Metadata should be consulted to determine the date of the source imagery used and any mapping problems.

Wetlands or other mapped features may have changed since the date of the imagery or field work. There may be occasional differences in polygon boundaries or classifications between the information depicted on the map and the actual conditions on site.

Data exclusions

Certain wetland habitats are excluded from the National mapping program because of the limitations of aerial imagery as the primary data source used to detect wetlands. These habitats include seagrasses or

submerged aquatic vegetation that are found in the intertidal and subtidal zones of estuaries and nearshore coastal waters. Some deepwater reef communities (coral or tuberficid worm reefs) have also been excluded from the inventory. These habitats, because of their depth, go undetected by aerial imagery.

Data precautions

Federal, state, and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, state, or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate Federal, state, or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

RE: Phase I Environmental Site Assessment
The Peacock Building
937 - 943 F Street and 942 Fagan Alley
APN 467-074-02
Fresno, California 93706

Dear Ms. Markley:

Krazan & Associates, Inc., (Krazan) has completed a Phase I Environmental Site Assessment (ESA) at the above-referenced site summarized in a report dated August 29, 2023. Please note that the earliest date of source review was on June 23, 2023. This report is considered viable within 180 days of that date. We appreciate the opportunity to serve your environmental due diligence needs.

During the course of this assessment, Krazan identified no evidence of recognized environmental condition (RECs), controlled RECs (CRECs) or historical RECs (HRECs) in connection with the subject site as defined by ASTM E 1527-21; however, ASTM non-scope considerations were identified.

ASTM Non-Scope Considerations

The structures on the subject site were constructed in the early 1900s and 1930s. Neither an asbestos containing materials (ACMs) survey nor a lead-based paint (LBP) survey, including sampling of materials at the on-site structures, was included within the scope of this assessment; therefore, it is unknown whether the buildings contain ACMs or LBP. Prior to the disturbance of any suspect ACMs or LBP at the subject site via renovation or demolition, a comprehensive asbestos and LBP survey is recommended.

The U.S. EPA has set the safety standard for radon gas in homes to be 4.0 pico Curies per liter (pCi/L). Review of the EPA Map of Radon Zones places the Property in Zone 2, where average predicted radon levels are equal to or above 2.0 pCi/L and equal to or below 4.0 pCi/L. While the available data suggests that the potential for radon to adversely impact the subject site appears to be low, based on the proposed future residential usage of the subject site, a radon survey may be warranted.

If you have any questions regarding the information presented in this report, please call me at (559) 348-2200.

Respectfully submitted,
KRAZAN & ASSOCIATES, INC.

EXECUTIVE SUMMARY

Krazan & Associates, Inc. (Krazan) has conducted a Phase I Environmental Site Assessment (ESA) of the 0.33-acre property identified as Fresno County Assessor's Parcel Number (APN) 467-074-002 located along the southwestern side of F Street in Fresno, California (subject site). The subject site is addressed 937 and 943 F Street and 942 Fagan Alley, and is located within the historic Chinatown District, which was denoted on Sanborn Fire Insurance Maps as early as 1885.

The subject site was developed with dwellings as early as 1885 and was redeveloped as a boarding house as of 1898. The F Street building was constructed in the early 1900s, with the oldest permit noted on file with the City of Fresno to be dated April 1910. The northeastern portion of the property was redeveloped for commercial use by 1918 while the existing lodging/residential building has been present since the 1930s. The adjacent and vicinity properties have been a mix of commercial and residential uses since the 1880s.

The subject site is currently developed with two buildings, the Peacock Building and a residential/dwelling structure. The Peacock Building is a vacant two-story retail and residential building. The single-story residential/dwelling structure consists of a total of five studio-type residential units.

The City of Fresno plans to redevelop the subject site for use as permanent affordable housing. At this time, the existing structures are to be demolished as part of the redevelopment.

The subject site was not identified on any Federal, State or local regulatory database indicating that a release of hazardous materials has impacted the subject site.

During the course of this assessment, Krazan identified no evidence of recognized environmental condition (RECs), controlled RECs (CRECs) or historical RECs (HRECs) in connection with the subject site as defined by ASTM E 1527-21; however, ASTM non-scope considerations were identified.

ASTM Non-Scope Considerations

The structures on the subject site were constructed in the early 1900s and 1930s. Neither an asbestos containing materials (ACMs) survey nor a lead-based paint (LBP) survey, including sampling of materials at the on-site structures, was included within the scope of this assessment; therefore, it is unknown whether the buildings contain ACMs or LBP. Prior to the disturbance of any suspect ACMs or LBP at the subject site via renovation or demolition, a comprehensive asbestos and LBP survey is recommended.

The U.S. EPA has set the safety standard for radon gas in homes to be 4.0 pico Curies per liter (pCi/L). Review of the EPA Map of Radon Zones places the Property in Zone 2, where average predicted radon levels are equal to or above 2.0 pCi/L and equal to or below 4.0 pCi/L. While the available data suggests that the potential for radon to adversely impact the subject site appears to be low, based on the proposed future residential usage of the subject site, a radon survey may be warranted.

1.0 INTRODUCTION

The subject site is addressed 937 and 943 F Street and 942 Fagan Alley in Fresno, California 93702. The subject site is 0.33 acres in area and is identified as Fresno County Assessor's Parcel Number (APN) 467-074-002. The subject site was developed with dwellings as early as 1885 and was redeveloped as a boarding house as of 1898. The F Street building was constructed in the early 1900s was redeveloped for commercial use by 1918 and with the lodging/residential building since the 1930s. The subject site is located in the historic Chinatown District of Fresno. The subject site is currently a vacant two-story retail and residential building, and a separate studio-apartments building.

Krazan conducted the Phase I ESA of the subject site in conformance with the American Society for Testing and Materials (ASTM) E 1527-21 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.* This Phase I ESA constitutes all appropriate inquiry (AAI) designed to identify recognized environmental conditions (RECs) in connection with the previous ownership and uses of the subject site as defined by ASTM E 1527-21.

ASTM E 1527-21 Section 1.1.1 *Recognized Environmental Conditions* – In defining a standard of good commercial and customary practice for conducting an environmental site assessment of a parcel of property, the goal of the processes established by this practice is to identify recognized environmental conditions. The term recognized environmental conditions means: 1) the presence of hazardous substances or petroleum due to a release to the environment; 2) the likely presence of hazardous substances or petroleum products due to a likely release to the environment; or 3) the presence of hazardous substances or petroleum products under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions.

It is incumbent upon the user to read this Phase I ESA report in its entirety. If not otherwise defined within the text of this report, please refer to the Glossary of Terms Section following the References Section for definitions of terms and acronyms utilized within this Phase I ESA report.

Previous Environmental Assessments

No previous environmental assessments were provided to Krazan by SWCA for review as part of this Phase I ESA.

2.0 PURPOSE AND SCOPE OF ASSESSMENT

2.1 Purpose

According to ASTM E 1527-21, the purpose of this practice is to define good commercial and customary practice in the United States of America for conducting an *environmental site assessment* of a parcel of *commercial real estate* with respect to the range of contaminants within the scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and *petroleum products.* As such, this practice is intended to permit a *user* to satisfy one of the requirements to qualify for the *innocent landowner, contiguous property owner,* or *bona fide prospective purchaser* limitation on CERCLA liability (hereinafter, the *landowner liability protections,* or *LLPs*): that is, the practice that constitutes *all appropriate inquiries* into the previous ownership and uses of the *property* consistent with good commercial and customary practice as defined at 42 U.S.C. §9601(35)(B).

2.2 Scope of Work

The scope of work for this Phase I ESA conforms to ASTM E 1527-21. The Phase I ESA includes the following scope of work: a) a site reconnaissance of existing on-site conditions and observations of adjacent property uses, b) a review of user-provided documents and search of available current land title records compiled by AFX Corp., Inc., c) a review of historical aerial photographs, a review of pertinent building permit records, cross-reference directories, historical Sanborn Fire Insurance Maps (SFIMs), and interview(s) with person(s) knowledgeable of the previous and current ownership and uses of the subject site, d) a review of local regulatory agency records, and e) a review of local, state, and federal regulatory agency lists compiled by Environmental Data Resources, Inc. (EDR).

Krazan was provided written authorization to conduct the Phase I ESA by Jacqueline Anne Markley, Senior Environmental Planner, with SWCA on June 23, 2023 in response to Krazan's June 12, 2023 Proposal/Cost Estimate No. P23-275.

3.0 SUBJECT SITE SETTING

The subject site is located approximately 60 feet south of the intersection of F Street and Tulare Street in Fresno, California. The subject site is a rectangular-shaped parcel measuring 0.33 acres in area and is addressed 937 and 943 F Street, and 942 Fagan Alley. The subject site is located within the Historic Chinatown District of Fresno. General property information and property use are summarized in the following table. Refer to Figures No. 1 – 3 for subject site details.

Subject Site Information Summary	
Current Owner:	Wilson Wong and Yolanda Wong
Assessor's Parcel Numbers:	467-074-002
Addresses:	937 and 943 F Street 942 Fagan Alley
Historical Addresses:	2 and 3 F Street (1885 – two dwellings) 3 and 6 F Street (1888 – two dwellings) 1041 through 1057 F Street (1898 – boarding houses) 941 through 957 F Street (1906 – boarding houses) 1432½ and 1434½ Tulare Street (1906 – portions of two boarding houses) 937, 939, 941, 943 and 945 F Street (1918) 945½ F Street Alley (1918 – rooms)
General Location:	Historic Chinatown District of Fresno South of the intersection of F Street and Tulare Street
Acreage:	0.33 acres
Zoning:	DTN – Downtown Neighborhood
Existing Use:	937 and 943 F Street – Vacant two-story building 942 Fagan Alley - Residential
Number of Buildings:	2
Original Construction Date:	Previous structures - prior to 1885 Existing structures – 1910s thru 1930s
Proposed Use:	Permanent Affordable Housing
Electricity:	Pacific Gas & Electric (PG&E)
Natural Gas:	PG&E
Potable Water:	City of Fresno
Sanitary Sewer:	City of Fresno
Latitude / Longitude:	36.729982° / –119.794939°
Topographic Map:	U.S. Geological Survey, 7.5-minute Fresno South, California
Topographic Map Location:	Southeast quarter of the Northeast quarter of Section 09, Township 14 South, Range 20 East, Mount Diablo Principle Meridian
Topography:	Approximately 288 feet above mean sea level
Approximate Depth to Groundwater:	105 feet below ground surface (bgs)*
Regional Groundwater Flow Direction:	North*

Note: * State of California, Department of Water Resources, *Sustainable Groundwater Management Act (SGMA) Data Viewer, Fall 2022*

3.1 Geology and Hydrogeology

The subject site is located within the San Joaquin Valley, a broad structural trough bound by the Sierra Nevada and Coast Ranges of California. The San Joaquin Valley, which comprises the southern portion of the Great Valley of California, has been filled with several thousand feet of sedimentary deposits. Sediments in the eastern valley, derived from the erosion of the Sierra Nevada, have been deposited by major to minor west-flowing drainages and their tributaries. Near-surface sediments are dominated by sands and silty sands with lesser silts, minor clays, and gravel. The sedimentary deposits in the region form large coalescing alluvial fans with gentle slopes. According to the United States Department of Agriculture (USDA) Soil Conservation Service (SCS) Web Soil Survey, soil types at the subject site and vicinity include Hanford sandy loam and Delhi loamy sand. Groundwater is present at approximately 105 bgs and regionally it is flowing generally north according to the State of California Department of Water Resources, SGMA Data Viewer dated Fall 2022.

4.0 SITE BACKGROUND

A review of historical Sanborn Fire Insurance Maps (SFIMs), historic USGS topographic maps, reasonably ascertainable city cross-reference directories, historical aerial photographs, local agency records and previous environmental reports, as made available to Krazan, were utilized to assess the history of the subject site.

4.1 Sanborn Fire Insurance Maps

Krazan reviews Sanborn Fire Insurance Maps (SFIMs) to evaluate prior land use of the subject site and the adjacent properties. SFIMs typically exist for cities with populations of 2,000 or more, the coverage dependent on the location of the subject site within the city limits. Krazan contracted with Environmental Data Resources, Inc. (EDR) to provide copies of available SFIMs for the subject site and the adjacent properties. Refer to Appendix A – *EDR – Certified Sanborn® Map Report* dated June 25, 2023 for details.

Sanborn Fire Insurance Map Summary		
Year	***Site Usage***	***Adjacent Property Usage***
1885	The subject site is developed with two dwellings.	A saloon is present to the adjacent northwest of the subject site. Two dwellings and two saloons (one including a dance hall) are present to the adjacent northeast of the subject site. Dwellings, laundry facilities, and restaurants are present in the subject site vicinity.
1888	The two aforementioned dwellings have been redeveloped and have larger footprints than in the 1885 map.	The adjacent dwellings and saloons to the north and northeast are no longer depicted. A female boarding house is present to the northeast along Tulare Street. The subject site vicinity is depicted as stores, dwellings, and saloons.
1898	The subject site has been redeveloped with a female boarding house adjacent along F Street. The lodgings appear to be addressed 1041 through 1057 F Street. The remainder of the property is undeveloped.	The northwestern, western, and southeastern adjacent properties have been developed as female boarding houses. The northeastern adjacent property is vacant; however, the region is labeled “Chinatown”. The subject site vicinity is depicted as saloons, female boarding houses and restaurants.

Sanborn Fire Insurance Map Summary (continued)		
Year	***Site Usage***	***Adjacent Property Usage***
1906	The lodgings along F Street have been reassigned new addresses of 941 through 957 F Street. Two additional female boarding houses are located on the northwestern subject site boundary and extend partially onto the adjacent property to the northwest. These are addressed 1432½ and 1434½ Tulare Street.	Additional female boarding houses have been developed adjacent to the northwest and southeast, with numerous similar developments, restaurants and stores to the east across F Street. A structure adjacent to the east across F Street is labeled "Lunch".
1918	The female boarding house has been demolished and a new structure is located along the northeastern property boundary, fronting F Street. The new two-story building includes stores, a restaurant, and a shooting gallery. The building is addressed 937 through 945 F Street. Three lodging structures are present in the southwestern portion of the subject site adjacent to the alley. The structures are addressed 935 and 945½ F Street Alley.	The adjacent property to the northwest consists of several buildings with various uses including a bank, clothing cleaners, a restaurant and stores. The property to the southeast has been expanded to include a photo gallery, stores and bathing. The adjacent property to the west has been redeveloped for use as a dwelling and a carpentry store.
1948, 1950	The building along F Street is relatively unchanged. The three lodging structures in the southwestern portion are no longer present. One new structure labeled "lodgings" is present along the southeastern property boundary. The structure is addressed 942 Fagan Alley.	The adjacent property to the east has been redeveloped with one or more adjoining buildings occupied by stores and restaurants on the ground floor and lodgings on the second floor. The buildings are addressed 938 through 952 F Street. Vicinity properties are developed for commercial use as stores, theatres, pharmacies, lodges, and restaurants.
1970	The subject site is unchanged from the 1950 map with the exception of a shed or garage depicted in the southwestern portion of the property.	Surrounding uses are relatively unchanged; however, numerous buildings in the site vicinity have been demolished and appear to be vacant lots.

EDR's search of Sanborn Insurance maps indicate the subject site was developed with two dwellings as early as 1885. The subject site was redeveloped as a boarding house as of 1898. The northeastern portion of the property was redeveloped for commercial use by 1918, with boarding/rooms still located in the southwestern portion of the subject site. The subject site has been occupied by the existing commercial since the late 1910s and a lodging building since the 1930s. Surrounding properties were a mix of boarding houses, saloons, restaurants and stores from 1885 to 1918. As of 1948, the majority of the adjacent and

vicinity properties were developed for commercial use. As of 1970, many buildings in the site vicinity were demolished leaving numerous vacant lots.

4.2 USGS Topographic Quadrangle Map

Krazan reviewed the 7.5-minute Fresno North, Fresno South, Fresno, and Bullard topographic maps between the years 1923 and 2018. According to review of the historical topographic quadrangle maps, the subject site and adjacent/vicinity properties were developed in or before 1923. Refer to Appendix A – *EDR - Historical Topo Map Report* dated June 22, 2023 for details.

Topographic Maps Summary		
Year	***Site Usage***	***Adjacent Property Usage***
1923, 1942	A portion of a rectangular structure is present on the subject site. The subject site is depicted as approximately 285 feet above mean sea level.	The northeastern subject site boundary is bound by a southeast to northwest extending light duty road (F Street). The subject site is surrounded by relatively large structure of unknown use. These relatively larger structures are present in the great vicinity to the northeast. Relatively smaller structures are present in the greater vicinity to the northwest, southwest, and southeast of the subject site. Highways 41 and 180 are labeled to the west and southwest of the subject site. A Southern Pacific railroad spur is present to the northeast of the subject site.
1946, 1947, 1963, 1972, 1981	The subject site is depicted within a densely developed and urban area within the city limits. Individual structures are no longer depicted in this portion of the map. The subject is depicted as “Urban Development”.	The surrounding properties are depicted within a densely developed and urban area within the city limits. The adjacent properties are depicted as “Urban Development”.
2012, 2015, 2018	The subject site is depicted within a densely developed and urban area within the city limits. Map details include streets, highways and freeways, waterways, and surface elevation contours; however, subject site features such as structures are not denoted.	The surrounding properties are depicted within a densely developed and urban area within the city limits. Map details include streets, highways and freeways, waterways, and surface elevation contours. Property features such as structures are not denoted.

Review of topographic maps indicate the subject site was occupied by a structure along F Street in the 1923 and 1942 maps and was depicted within a densely developed/urban area of the City of Fresno in the 1946 through 2018 maps. Information obtained from the review of topographic maps is consistent with that obtained from other historical sources during the course of this assessment.

4.3 City Cross-Reference Directories

EDR provided available cross-reference directories dated between 1922 and 2020 for the subject site address and adjoining properties. A summary of cross-reference directory information is presented in the following table. Refer to Appendix A – *EDR - City Directory Image Report*, dated June 26, 2023 for details.

Cross-Reference Directories Summary		
Address	***Owner / Occupant***	***Years***
Subject Site		
937 F Street	Oriental Nakai Grocery Wah Young Liquors Mexicali Liquors Vacant Cardenas Barber Shop	1927 1932 1937-1952 1958 1965 1970-1996

According to the review of city directories, the subject site has been used as commercial/retail building since at least 1927. Businesses included restaurants, beauty shops, liquor/cigar/fragrance stores, medical offices, and a shoe shining operation. The building adjacent to Fagan Alley has been residential since at least 1932. In 2020, a portion of the on-site commercial structure was used as a non-profit public benefit business operating as Life Change House, Inc. Information obtained from the review of cross-reference directories is consistent with that obtained from other historical sources during the course of this assessment.

4.4 Aerial Photograph Interpretation

Historical aerial photographs were obtained from EDR and reviewed to assess the history of the subject site. According to review of the historical aerial photographs, the subject site was developed for commercial/residential use in or before 1937. The on-site structures have been present on the subject site since at least 1937 to the current day. The adjacent and vicinity properties were developed for use as a commercial/residential downtown area in or before 1937. Refer to Appendix A – *Aerial Photo Decade Package* dated June 22, 2023 for details.

Aerial Photograph Review Summary		
Year	***Site Use***	***Adjacent Properties***
1937, 1942, 1946, 1950	Mixed: Commercial/Residential Three structures are present on the subject site. The eastern structure is parallel to F Street. The southern structure (rectangular) is perpendicular to the alley that bounds the southwestern subject site boundary (Fagan Alley). The smallest of the three structures (square) is located in the western portion of the subject site.	Residential, Commercial The adjacent and vicinity properties are part of the greater downtown Fresno area. The adjacent properties are developed with numerous structures, of unknown usage. Structures appear to be single-story or multiple story. F Street is present as a northwest to southeast extending improved road. An alley is visible along the southwestern property boundary. The Southern Pacific Railroad is visible to the northeast.
1957	The subject site is unchanged from the 1950 photo.	Surrounding and site vicinity properties are relatively unchanged. Highway 99 to the southwest has been constructed as of the 1957 photo.
1962, 1967, 1973, 1979, 1984	The smallest of the three structures (square) in the southwestern portion of the subject site is not visible as of the 1962 photo. Remaining photos are unchanged after the 1962 photo.	Surrounding and site vicinity properties are relatively unchanged from the 1957 photo. As of the 1967 photo, numerous buildings in the site vicinity have been demolished, some appear to be used as vehicle parking lots.
1987, 1998, 2006, 2009, 2012, 2016, 2020	The subject site appears relatively unchanged from the previous aerial photograph.	The western adjacent structure is no longer visible. Other adjacent and site vicinity properties are relatively unchanged from the 1984 photo.

Information obtained from the review of aerial photographs are consistent with that obtained from other historical sources during the course of this assessment.

4.5 Municipal Records

City of Fresno Public Records Center

On June 30, 2023, a public records request was submitted using the Public Records Center online document portal for obtaining public records pertaining to buildings in the provided by the City of Fresno (City). The request included information pertaining to building permits, historical underground storage tank (UST) or aboveground storage tank (AST) permits, and fire incident reports.

On August 1, 2023, the City of Fresno Public Records Center provided a copy of numerous permits, including plumbing, electrical, roofing, remodeling, renovations and alterations associated with the subject site building. The oldest permit noted for the building was dated April 1910. A memo dated January 8, 1963 from Mr. John Easterly, Building Inspector, stated the building was constructed in approximately 1900 with some alterations having been conducted in 1958. The address of 937 F Street was for a store

that was vacant at the time. The address of 943 F Street was assigned to the hotel and rooms on the second floor of the building and the address of 945 F Street was assigned to the Peacock Department store. A municipal code violation was issued in October 2004 for putting merchandise for sale on the public sidewalk/easement/right-of-way causing an obstruction. Review of the permit copies provided did not identify evidence of the usage or storage of hazardous materials or hazardous waste in association at the subject site. For brevity, only copies of the earliest permit cards for the F Street and Fagan Alley buildings are included in Appendix B.

Fresno Fire Department

Formerly, local fire departments were responsible for maintaining UST and select other environmental records. However, the fire departments have transferred this responsibility to the local Fresno County Department of Public Health, Environmental Health Division (FCDEH) as the lead regulatory agency or Certified Unified Program Agency (CUPA). The Fresno Fire Department has stated that environmental record management for the City and County of Fresno is under the jurisdiction of the FCDEH.

4.6 Previous Environmental Assessments

No previous environmental reports were provided to Krazan by SWCA for review and inclusion into this report.

4.7 Agricultural Chemicals

Review of Sanborn Fire Insurance Maps and historical aerial photographs indicates that the subject site has not been utilized for agricultural proposes since at least 1888. No material evidence of the use of environmentally persistent pesticides/herbicides was obtained during the course of this assessment. Therefore, agricultural chemicals are not an environmental concern in connection with historic or current subject site usage.

5.0 USER-PROVIDED INFORMATION

A review of user-provided information was conducted in order to help identify pertinent information regarding potential environmental impacts associated with the subject site.

5.1 Environmental Liens/Activity and Use Limitations Report

An Environmental Lien/Activity and Use Limitations (EL/AUL) Report provides results from a search of available land title records for environmental cleanup liens institutional controls (ICs), environmental land use controls (LUCs), environmental activity and use limitations (AULs), or declaration of environmental use restrictions (DEULs) which may have been filed against the subject site or exist in connection with the subject site as indicated by the subject site EL/AUL Reports.

An Environmental Lien/Activity and Use Limitations (EL/AUL) Report for the subject site APN was not provided to Krazan, nor requested to be obtained by Krazan, for inclusion with this Phase I ESA. *The absence of an environmental lien/activity use report represents a data gap.*

5.2 Title Report

A title report is reviewed to identify potential environmental deed restrictions, environmental liens, or environmental activity and use limitations (AULs) which may have occurred on or exist in connection with the subject site.

A Preliminary Title Report for the subject site dated May 4, 2023 was provided to Krazan by SWCA. Krazan's review of the PTR indicated no environmental deed restrictions, environmental liens, or environmental AULs for the subject site. The PTR noted the subject site is within The Community Redevelopment Plan for The Chinatown Expanded Area and that redevelopment has been instituted under the Redevelopment Law with redevelopment to proceed only after the adoption of the redevelopment plan. As quoted in the PTR, "It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land." The absence of a final title report represents a data gap. Refer to Appendix B – *Preliminary Title Report* for details.

5.3 Interviews

Krazan conducts interviews with the owner of the subject site, a key site manager, subject site occupant(s), and/or the previous owner/occupant(s) of the subject site. The interview(s) is/are designed to provide pertinent information regarding potential environmental impacts associated with the subject site.

Subject Site Owner

A Phase I ESA Owner questionnaire was provided by Krazan to SWCA with the request that the questionnaire be forwarded to the property owner, or their representative, for completion. On July 25, 2023, the Owner questionnaire was completed by Ms. Yolanda Wong, property owner. According to questionnaire responses, Ms. Wong indicated that she has been associated with the subject site since 2004.

Ms. Wong indicated that the subject site consists of two structures; however, the site is currently not in use. According to Ms. Wong, to the best of their knowledge, there are no existing or former ASTs or USTs; no specific chemicals, hazardous materials, or persistent pesticides/herbicides; no vehicle repair-related features, no buried materials; no septic or water well systems; no drainage or disposal ponds; no spills or other chemical releases; and no domestic or irrigation wells are on the subject site. Ms. Wong indicated that the subject site is connected to municipal water and sewer systems. Ms. Wong indicated that they are not aware of any obvious indications pointing to the presence or likely presence of contamination of the subject property. Ms. Wong stated they have no concerns about adjacent property usage. According to Ms. Wong, to the best of their knowledge, no environmental liens, AULs, engineering or institutional controls, or any items of environmental concern are associated with the subject site. Lastly, Ms. Wong indicated that the reason for preparation of this Phase I ESA is related to the owners living too far away to manage the property and that the purchase price for the subject site reasonably reflects fair market value. Refer to Appendix B – *Phase I ESA Questionnaires* for details.

Previous Subject Site Owner Interview

A Phase I ESA interview with a previous owner of the subject site was not conducted as no contact information for the previous owner was provided or easily attainable. *The absence of an interview with the previous owner of the subject site represents a data gap.*

5.4 Phase I Environmental Site Assessment User Questionnaire

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this

information could result in a determination that *all appropriate inquiry* is not complete. The user is asked to provide information or knowledge of the following:

1. Environmental cleanup liens that are filed or recorded against the site.
2. Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry.
3. Specialized knowledge or experience of the person seeking to qualify for the LLPs.
4. Relationship of the purchase price to the fair market value of the *property* if it were not contaminated.
5. Commonly known or *reasonably ascertainable* information about the *property*.
6. The degree of obviousness of the presence or likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation.
7. The reason for preparation of this Phase I ESA.

A Phase I ESA User questionnaire was provided by Krazan to SWCA with the request that the questionnaire be forwarded to the City of Fresno, the Phase I ESA user, for completion. On July 25, 2023, a completed questionnaire was received by Krazan from SWCA on behalf of the City of Fresno. The questionnaire was completed by Mr. Keng Lee, City of Fresno representative. Mr. Lee was unaware of any environmental cleanup liens, activity use limitations (AULs) such as engineering controls, land use restrictions, or institutional controls that have been filed or recorded under federal, tribal, state, or local law against the subject site. Mr. Lee has no specialized knowledge or experience related to the subject site or nearby properties. Mr. Lee is unaware of conditions indicative of releases or threatened releases at the subject site such as past uses of the subject site, specific chemicals present or once present, spills or other chemical releases or environmental cleanups that have taken place at the subject site. Mr. Lee stated that they do not know of or have any experience with obvious indicators that point to the presence or likely presence of contamination at the subject site or adjoining properties. Lastly, Mr. Lee stated that the reason for the preparation of the Phase I was in order to purchase the property, demolish the existing building and construct permanent affordable housing. In addition, the purchase price reasonably reflects the fair market value of the subject site. Refer to Appendix B – *Phase I ESA Questionnaires* for details.

6.0 SITE RECONNAISSANCE

A site reconnaissance, which included a visual observation of the subject site and surrounding properties, was conducted by Ms. Laurie Blakeman, Krazan's Environmental Assessor, on August 16, 2023. Krazan was escorted by Mr. Greg Nasol, representative for the property owner and John (last name withheld), a part-time overseer of the property. In addition, Mr. Danny Tohme and Mr. Keng Lee, representatives with the City of Fresno, were present for the site reconnaissance. The objective of the site reconnaissance is to obtain information indicating the likelihood of identifying recognized environmental conditions, including hazardous substances and petroleum products, in connection with the property (including soils, surface waters, and groundwater).

6.1 Observations

The following table summarizes the subject site features encountered during our site reconnaissance. Observed features are noted in the table below and described in detail below the table. Refer to Figure No. 3 - *Site Map* and *Photographs* for locations and details pertaining to site-specific features discussed in this section of the report.

Site Reconnaissance Summary		
Features	***Observed***	***Not Observed***
Structures (existing)	X	
Evidence of Past Uses (foundations, debris)		X
Hazardous Substances and/or Petroleum Products (including containers)		
Aboveground Storage Tanks (ASTs)		X
Underground Storage Tanks (USTs) or evidence of USTs		X
Evidence of Underground Pipelines (non-irrigation)		X
Strong, Pungent, or Noxious Odors		
Pools of Liquid likely to be Hazardous Materials or Petroleum Products		X
Drums		X
Unidentified Substance Containers		X
Potential Polychlorinated Biphenyl (PCB)-Containing Equipment		X
Subsurface Hydraulic Equipment		X
Heating/Ventilation/Air Conditioning (HVAC)	X	
Stains or Corrosion on Floors, Walls or Ceilings	X	
Floor Drains, Sumps, or Oil/Water Clarifiers		X
Storm Drains		
Pits, Ponds, or Lagoons		X
Stained Soil and/or Pavement		X
Soil/Debris Piles		X

Site Reconnaissance Summary (continued)		
Features	***Observed***	***Not Observed***
Stressed Vegetation		X
Waste or Wastewater (including stormwater) Discharges to Surface/Surface Waters		X
Wells (Irrigation, Domestic, Dry, Injection, Abandoned, Monitoring Wells)		X
Septic Systems		X
High-voltage, tower-mounted transmission lines		X

The subject site is developed with two buildings, the two-story Peacock Building and a single-story residential/dwelling structure.

The two-story Peacock Building fronts along F Street and was formerly occupied by a retail store on the ground floor and a hotel, formerly known as the Peacock Hotel, on the second floor. Exterior walls are constructed of brick and mortar and interior structural walls and flooring are wood. There is reportedly no basement beneath the building. The roof was not accessible at the time of the site reconnaissance. The ground floor of the Peacock Building consists of the former retail sales floor area and numerous storage rooms. Several storage areas were not accessible during the site visit. Access to the second floor was historically from a stairwell located within the southern portion of the building; however, it had been closed off at the ground level and current access to the second floor was from an exterior staircase located on the western side of the building. The second floor consisted of former hotel/dwelling rooms, several shared bathrooms and a kitchen area. According to John, the second floor currently contains eighteen (18) rooms. John stated that six of the eighteen rooms were recently occupied with tenants; however, all were vacant at the time of the site reconnaissance. Interior finishes throughout the building consisted of wooden sub-floors, overlain with various layers of plywood, hardwood, vinyl floor tile and some ceramic tiles, sheet vinyl flooring (linoleum), drywall walls and/or drywall ceilings and drop acoustical panel ceilings. Ducting and venting for HVAC equipment was observed throughout the building; however, the main units were not observed.

The single-story residential/dwelling structure is located in the southeastern portion of the subject site and consists of four studio apartment units within the main portion of the building, and an additional attached unit. At the time of the site reconnaissance, access was provided to three of the four units in the main portion of the building and to the attached unit. Only one of the units was occupied and access to the interior of that unit was not provided. Three of the four units appeared to have been recently updated with new paint, flooring, kitchenettes and some bathroom fixtures. The roof was not accessible at the time of

the site reconnaissance; however, it could be viewed from the second floor of the Peacock Building. The main building has a flat composite roof with brick parapet, while the attached unit was observed to have a sloped composite roof.

An asphalt-paved parking area is located adjacent to the buildings and can only be accessed from Fagan Alley through a gated entrance. Public parking is located along F Street, adjacent to the pedestrian sidewalk.

Staining observed throughout the Peacock Building appeared to be water damage from various plumbing or roof leak incidents. The staining did not appear to be from storage or usage of hazardous materials, or from the storage of hazardous waste.

Exposed surface soils were limited to a 4-foot by 4-foot planters along F Street and a 5-foot by 8-foot area in the southeast corner of the property. Magnolia trees were planted in each of the planters within the pedestrian sidewalk along F Street. Trees were also planted in the area adjacent to the residential/dwelling structure. No obvious signs of surface soil discoloration were observed. No noxious odors or stressed vegetation were noted. During the visual observations of the subject site, no hazardous materials/wastes were observed. No obvious evidence of USTs (vent pipes, fill pipes, dispensers, etc.) were noted within the areas observed. No standing water or major depressions were observed on the subject site. No indications of former structures, such as foundations, were observed on the subject site. No pole- or pad-mounted transformers were observed on the subject site.

6.2 Adjacent Streets and Property Usage

The following table summarizes the current adjacent streets and adjacent property uses observed during the site reconnaissance:

Adjacent Streets and Property Usage		
Direction	***Adjacent Street***	***Adjacent Property Usage***
Northeast	F Street	Two-story building - Ground Floor 938 F Street – Brother's Bakery 944 F Street - Vacant 948 F Street – Vacant (former entrance to Lincoln Hotel on Second Floor of building) 950 F Street – Vacant 952 F Street – Chef Paul's Cafe
Southeast	None	935 F Street – Yosemite Banquet Hall
Southwest	Fagan Alley	Vacant
Northwest	None	947 F Street - Vacant 951 F Street – Chinatown Smoke Shop

Based on the observed uses of the properties located immediately adjacent to the subject site, it is unlikely that significant quantities of hazardous materials currently are stored at these properties.

6.3 ASTM Non-Scope Considerations

According to ASTM E 1527-21, there may be environmental issues or conditions at assessed properties that are outside the scope of the Phase I ESA practice (non-scope considerations). Some substances may be present in quantities and under conditions that may lead to contamination of the subject site or of nearby properties but are not included in CERCLA's definition of hazardous substances (42 U.S.C. §9601[14]). ASTM Non-scope considerations appropriate for the subject site are discussed below.

Asbestos-Containing Materials

Asbestos is a group of naturally occurring mineral fibers that have been used commonly in a variety of building construction materials for insulation and as a fire-retardant. Because of its fiber strength and heat resistant properties, asbestos has been used for a wide range of manufactured goods, mostly in building materials, vehicle brakes, and heat-resistant fabrics, packaging, gaskets, and coatings. When asbestos-containing materials (ACMs) are damaged or disturbed by repair, remodeling, or demolition activities, microscopic asbestos fibers may become airborne and can be inhaled into the lungs, where they can cause significant health problems.

The structures located on the subject site were originally constructed in the early 1900s and 1930s. Based on the date of construction, ACMs may be present at the subject site. An asbestos survey and sampling of the on-site structures was not included within the scope of this assessment. Prior to the disturbance of any suspect ACMs at the subject site via renovation or demolition, a comprehensive asbestos survey designed to determine if the suspect asbestos is a regulated material is recommended.

Lead-Based Paint

Although lead-based paint (LBP) was banned in 1978, many buildings constructed prior to 1978 have paint that contains lead. Lead from paint, chips, and dust can pose serious health hazards if not addressed properly.

The structures located on the subject site were originally constructed in the early 1900s and 1930s. Based on the date of construction, lead-based paint may be present at the subject site. A lead-based paint survey and sampling of the on-site structures was not included within the scope of this assessment. Prior to the disturbance of any of the suspect LBP at this facility via renovation or demolition, a comprehensive LBP survey designed to determine if the suspect LBP is a regulated material is recommended.

Radon

Radon is a radioactive gas that is found in certain geologic environments and is formed by the natural breakdown of radium, which is found in the earth's crust. A radon survey was not included within the scope of this investigation; however, the State of California Department of Public Health (CDPH) maintains a statewide database of radon results in designated geographic areas. Radon detection devices are placed in homes throughout the study region to determine geographic regions with elevated radon concentrations. The U.S. EPA has set the safety standard for radon gas in homes to be 4.0 pico Curies per liter (pCi/L).

The US EPA has prepared a map to assist National, State and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, Zone 1 being those areas with the average predicted indoor radon concentration in residential dwellings exceeding the EPA Action Limit of 4.0 pCi/L. It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures. Review of the EPA Map of Radon Zones places the Property in Zone 2, where average predicted radon levels are equal to or above 2.0 pCi/L or equal to or below 4.0 pCi/L. Therefore, the available data suggests that the potential for radon to adversely impact the subject site appears to be low. While the available data suggests that the potential for radon to adversely impact the subject site appears to be low, based on the proposed future residential usage of the subject site, a radon survey may be warranted.

Mold and Moisture Intrusion

A class of fungi, molds have been found to cause a variety of health problems in humans, including allergic, toxicological, and infectious responses. Molds are decomposers of organic materials, and thrive in humid environments, and produce spores to reproduce, just as plants produce seeds. When mold spores land on a damp spot indoors, they may begin growing and digesting whatever they are growing on in order to survive. When excessive moisture or water accumulates indoors, mold growth will often occur, particularly if the moisture problem remains undiscovered or unaddressed. As such, interior areas of buildings characterized by poor ventilation and high humidity are the most common locations of mold growth. Building materials including drywall, wallpaper, baseboards, wood framing, insulation and carpeting often play host to such growth. Moisture control is the key to mold control. Molds need both food and water to survive; since molds can digest most things, water is the factor that limits mold growth. No indication of mold intrusion was observed in accessible areas during the site reconnaissance.

Environmental Non-Compliance Issues

No material non-compliance issues were identified in connection with the subject site in the process of preparing this report.

Activity and Use Limitations

No activity and use limitations were identified in connection with the subject site in the process of preparing this report.

6.4 Regulatory Agency Records Review

A review of Federal and State regulatory databases was conducted to help determine if hazardous materials have been handled, stored, or generated on the subject site and/or the adjacent properties and businesses. The Federal and State environmental databases consulted in the course of this assessment were compiled by Environmental Data Resources, Inc. (EDR) and identified facilities within the search distances specified in ASTM 1527-21. Krazan did not verify the locations and distances of every property listed by the EDR Radius Map Report. Krazan verified the location and distances of the properties Krazan deemed as having the potential to adversely impact the subject site. The actual location of the listed properties may differ from the EDR listing. No EDR-listed unmapped (non-geocoded) sites identified were determined to be located on or adjacent to the subject site. Refer to Appendix C – *EDR Radius Map Report* dated June 25, 2023 for details.

Regulatory records are reviewed based on the following criteria: 1) properties with known soils and/or groundwater releases considered to represent the potential for impact to the subject site that are located within 1,760 feet of the subject site for constituents of concern impacts or 528 feet of the subject site for petroleum hydrocarbon impacts; 2) properties that are adjacent or in proximity to the subject site included within the EDR regulatory database report or noted during the site reconnaissance to possibly handle, store, or generate hazardous materials. Applicable property records are discussed below.

No Federal Superfund – National Priorities List (NPL) sites were determined to be located within a one-mile radius of the subject site.

State of California Environmental Protection Agency

Krazan's June 30, 2023 review of the State of California Environmental Protection Agency (CalEPA) – Department of Toxic Substances Control (DTSC) Envirostor database available via the DTSC's Internet Website indicated that no records of cleanup sites including State response sites or military or school evaluation sites listed for the subject site, the adjacent properties, or properties located within 500 feet of the subject site. However, the following Voluntary Cleanup Site (VCS) and Corrective Action Site was identified.

- The Pacific Gas & Electric Company (PG&E) Fresno 2 (Former Manufactured Gas Plant Site) (60001247), an Active VCS site, is listed with an address of Mariposa Street between F and G Streets, the nearest portion of which is approximately 400 feet north-northwest of the subject site. The facility consists of four properties, 1042, 1056, 1102, and 1136 F Street. The former facility is also known as PG&E Gas Plant Fresno 325 3A and PG&E Manufactured Gas Plant SQ-FK-FRS-2 (10490095) which is listed as an Inactive Evaluation site since the case was transferred to the VCS program.

  The Voluntary Cleanup Agreement was entered into on August 25, 2010 between the DTSC and PG&E. According to the Final Remedial Investigation Workplan prepared by Parsons in January 2011, the facility operated as a coal-gas facility from 1881 to 1891 and as an oil-gas facility from 1892 to 1919. The Fresno-2 MGP was established by the Fresno Gaslight Company in 1881, expanding between 1885 and 1917. During this time, the Fresno Gaslight Company became known as the Fresno Gas and Electric Light Company and included the generation and distribution of electricity in 1898. The company was acquired by the California Gas and Electric Company in 1903 and by PG&E in 1905. In 1919, the gas works were closed and dismantled and replaced by the Fresno-1 MGP located approximately 1.25 miles away from the facility. Since 1919, the former MGP parcels have been occupied by various automotive, light industrial and retail uses. A used car dealership, a gas station, the Basque Hotel and restaurant and feed warehouse have occupied the parcels since the 1930s.

  No previous investigations had been conducted for the former facility prior to the implementation of the Remedial Investigation Workplan in 2011. Based on past site usage as a MGP facility and other operations, contaminants of potential concern (COPCs) were identified as poly-aromatic hydrocarbons (PAHs), total petroleum hydrocarbons as gasoline, diesel and motor oil (TPH-g,

TPH-D and TPH-mo), heavy metals, volatile organic compounds (VOCs) and cyanide. Numerous investigations and various types of remedial action were conduct between 2011 and 2022.

With finalization of the Human Health Risk Assessment (HHRA), PG&E did not anticipate any further soil vapor sampling and requested the DTSC's approval of the Soil Vapor Investigation Summary Report submitted on June 23, 2022 and sought approval from DTSC to properly abandon the soil vapor probes remaining at the facility. The HHRA presented the post remediation risk assessment for the facility and included information to support a risk management decision for closure of the facility. Remedial excavation was completed to remove soil impacts by past operations and the final HHRA was approved. On December 22, 2022 the Final Post-remedial HHRA for the PG&E Fresno-2 Former MGP Site was submitted to the DTSC by Jacobs. On February 9, 2023, the DTSC issued the Approval of Final Post Remediation HHRA.

Based on review of documents provided on the DTSC Envirostor database, the former PG&E Fresno 2 MGP facility does not represent an environmental concern in connection with this assessment.

- PG&E G Street Substation (10490101), 1131 G Street, is listed as a Certified VCS site, the nearest portion of which is approximately 800 feet north-northwest of the subject site. The 0.25-acre site was first developed as early as early as 1898 and used as an electrical substation beginning in 1937. The site was deactivated in 1983 and has been vacant since. The 2007 Preliminary Endangerment Assessment (PEA) identified petroleum hydrocarbons as gasoline, diesel, and motor oil, and lead, arsenic, and benzo(a)pyrene (BaP) as constituents of concern (highest in shallow soils and attenuate rapidly with depth) at the site contributing to excess cancer risk above the 1 x 10-6 threshold for unrestricted use. Site-wide excavation of soils to 1.5 feet below grade and targeted excavation to approximately 2 feet below grade would reduce the residual risk to below 1 x 10-6, allowing the site to be reused and/or redeveloped with no use restrictions. Between May 13 and June 5, 2009, Stantec oversaw the removal of 1,248 cubic yards (yd3) of soil. Post-excavation confirmation soil samples were collected and additional over-excavation activities were conducted. Final confirmation soil sample results were below cleanup goals. Based on the results, the remedial action objectives of reducing the site-wide excess cancer risk (ECR) to 1 x 10-6 or less, and ensuring soils left in-place contain chemicals of concern (COCs) at concentrations less than cleanup goals, were achieved and the site was deemed suitable for unrestricted use. The Site was Certified that no further removal/remedial action was necessary on January 19, 2010.

  Based on review of documents provided on the DTSC Envirostor database, the former PG&E Substation does not represent an environmental concern in connection with this assessment.

- The Univar Solutions (Univar USA, Inc.) (CAD047384185) and (80001397), 1152 G Street, is an open Corrective Action/Cleanup Program Site located at the intersections of Fresno and G Streets and is approximately 1,000 feet north of the subject site. No details pertaining to investigations were provided on the Envirostor database; however, review of the facility on the State of California Regional Water Quality Control Board (RWQCB) GeoTracker database indicated that the facility was used from 1965 to 1986 to store bulk tetrachloroethene (PCE) in an AST in the northern portion of the property. In 1996, soil and soil vapor surveys identified the presence of PCE at the facility and several groundwater monitoring wells installed identified PCE in groundwater. In 1998, a vapor extraction system was installed and was in operation until 2004. Additional off-site soil vapor extraction wells were installed in 2008. As of the first half of 2020, the SVE system remained in operation and had extracted 133 pounds of PCE with approximately 870 pounds of PCE removed in 2019. The SVE system was decommissioned and several monitoring wells destroyed in August 2022. During this time, plans to install monitoring well MMW-12R were in progress. The most

recent document available in the GeoTracker database was dated June 12, 2023 indicating the approval by the RWQCB to reduce the groundwater monitoring and sampling reporting frequency from semi-annual to annual. Groundwater monitoring and sampling activities would continue on a semi-annual basis with only the reporting frequency change. The approval email indicated the next annual report would need to be submitted by February 1, 2024 and on February 1 for subsequent years.

Based on review of documents provided on the DTSC Envirostor and GeoTracker databases, the former Univar Solutions facility does not represent an environmental concern in connection with this assessment.

For further discussion of the PG&E Fresno 2 MGP and Univar Solutions properties, refer below to the *Regulatory Database Review* portion of this Section.

State of California Regional Water Quality Control Board - GeoTracker

Krazan's June 30, 2023 review of the State of California Regional Water Quality Control Board (RWQCB) GeoTracker database available via the RWQCB Internet Website did not identify any military cleanup sites on the subject site or the adjacent properties. However, the following Cleanup Program and Leaking Underground Storage Tank (LUST) sites were identified.

Franks Exxon (1060 E Street), Del Monte (1625 and 1626 Tulare Street), and Felix Auto Mechanic (804 F Street) are LUST sites that are approximately within the 528-foot search radius for petroleum hydrocarbon concerns surrounding the subject site. According to GeoTracker, the LUST sites were impacted by TPHs and VOCs prior to being issued site closure in 1996, 2019, and 2001, respectively. Refer to the DTSC section above for details pertaining to the PG&E – G Street facility and the Univar facility. Based on review of information contained in the GeoTracker database, these facilities do not represent an environmental concern in connection with this assessment.

California Department of Conservation, California Geologic Energy Management Division

Krazan's June 30, 2023 review of the State of California Department of Conservation, California Geologic Energy Management Division (CalGEM) Online Mapping System indicated that no plugged and abandoned or producing oil wells are located on or adjacent to the subject site.

Fresno County Department of Environmental Health

The Fresno County Department of Environmental Health (FCDEH) is the lead regulatory agency or Certified Unified Program Agency (CUPA) for hazardous materials handling facilities located in Fresno County. A public records search was conducted via the FCDEH's Environmental Health Document Portal

for the subject site addresses 937, 939, 941, 943, 945 F Street and 942 Fagan Alley in Fresno, California on June 30, 2023. No records were yielded by the query.

Local Area Tribal Records

No Indian reservations, USTs on Indian land, or LUSTs on Indian land were reported on the subject site, adjacent properties, or vicinity properties in the EDR-provided database report.

Regulatory Database Review

Several agencies have published documents that list businesses or properties which have handled hazardous materials or waste or may have experienced site contamination. The lists consulted in the course of our assessment were compiled by EDR and Krazan and represent reasonably ascertainable current listings. Krazan did not verify the locations and distances of every property listed by EDR. Krazan verified the location and distances of the properties Krazan deemed as having the potential to adversely impact the subject site. The actual location of the listed properties may differ from the EDR listing. No EDR-listed unmapped (non-geocoded) sites identified were determined to be located on or adjacent to the subject site.

Subject Site

The subject site was not listed in the EDR Radius Map Report or on any regulatory database reviewed.

Adjacent/Vicinity Properties

Service Cleaners
935 E Street
EDR Hist Cleaner
Approximately 250 feet southwest

This facility is listed in EDR, Inc's proprietary database of potential historic dry cleaners identified through a review of cross city directories. The facility is listed within the database as operating between 1958 and 1980. The facility is not listed on the DTSC database, the GeoTracker database or the FCEHS database indicating a release has impacted the facility. Based on the length of time since the noted facility was in operation (in excess of 40 years) and the database information reviewed, there is no evidence to suggest that this former facility represents an environmental concern in connection with this assessment.

Kurata Union 76 Service Station, Kim's Auto Repair
1413 Kern Street
CUPA, EDR Hist Auto
Approximately 230 feet south

This facility is listed in EDR, Inc's proprietary database of potential historic service station and CUPA listing of cross city directories. The facility is listed within the database of fueling station between 1969 to 1998 and an automotive repair shop between 1990 to at least 2015. According to FCDEH records, the facility removed two 10,000-gallon USTs and one 550-gallon UST in 1989. The analytical results showed "none detected" for TPH and BTEX; and showed a detection of 38 mg/kg (PPM) for Oil & Grease. The FCDEH issued a no further action letter on June 23, 1989. Kim's Auto Repair Business Plan stated no USTs or ASTs are in use and is a generator of hazardous waste. An inspection in 2015 of the facility stated hazardous waste generation was under 27 kgs.

Based on the above cited reports, this facility does not represent an environmental concern in connection with this assessment.

Rudy's Cleaners
961 E Street, Fresno, California
EDR Hist Cleaner
Approximately 250 feet southwest

This facility is listed in EDR, Inc's proprietary database of potential historic dry cleaners identified through a review of cross city directories. The facility is listed within the database as operating between 1958 and 1965. The facility is not listed on the DTSC database, the GeoTracker database or the FCEHS database indicating a release has impacted the facility. Based on the length of time since the noted facility was in operation (in excess of 50 years) and the database information reviewed, there is no evidence to suggest that this former facility represents an environmental concern in connection with this assessment.

J E Uribe
949 E Street, Fresno, California
EDR Hist Cleaner
Approximately 250 feet southwest

This facility is listed in EDR, Inc's proprietary database of potential historic dry cleaners identified through a review of cross city directories. The facility is listed within the database as operating between 1937 and 1958. The facility is not listed on the DTSC database, the GeoTracker database or the FCEHS database indicating a release has impacted the facility. Based on the length of time since the noted facility was in operation (in excess of 60 years) and the database information reviewed, there is no evidence to suggest that this former facility represents an environmental concern in connection with this assessment.

M Matsudi
925 G Street, Fresno, California
EDR Hist Cleaner
Approximately 310 feet northeast

This facility is listed in EDR, Inc's proprietary database of potential historic dry cleaners identified through a review of cross city directories. The facility is listed within the database as operating between 1922 and 1962. The facility is not listed on the DTSC database, the GeoTracker database or the FCEHS database indicating a release has impacted the facility. Based on the length of time since the noted facility was in operation (in excess of 60 years) and the database information reviewed, there is no evidence to suggest that this former facility represents an environmental concern in connection with this assessment.

PG&E Former Manufactured Gas Site
1042, 1056, 1102, 1136 F Street and 1131 G Street
Envirostor, VCP, RCRA, CUPA, Hist-Cal Sites, Hist Cortese, CERS, CPS-SLIC, EDR MGP
Approximately 400 feet north

This facility is listed as a site of a release of hazardous materials in various federal, state and local environmental databases.

Parsons (consultant) conducted a Remedial Investigation (RI) on the former manufactured gas plant (MGP) and documented their findings in a summary report dated July 2012 which was retrieved from Envirostor. The former manufactured gas plant operated at 1042, 1056, 1102, and 1136 F Street between the years 1881-1919 after which the facility was relocated approximately 1.25 miles away from the site.

As a part of the RI, a total of over 400 soil samples were collected on the site through soil borings advanced to a maximum depth of at least 70 feet bgs. In addition, 67 soil gas samples were collected from five- and 15-foot bgs soil gas wells throughout the site. Polyaromatic hydrocarbons (PAHs) and total petroleum hydrocarbons (TPHs) were identified as impacting soils to a maximum depth of 70 feet bgs. CAM17-Metals, most significantly lead, were identified as impacting soils to a maximum depth of 10 feet bgs. Naphthalene was identified in soil gas above regulatory screening levels in both the 5- and 15-foot soil gas samples. Benzene was identified in soil gas above regulatory screening levels in the 15-foot soil gas samples. Parsons recommended remediating the impacts identified following discussions with the DTSC.

Following discussion with the DTSC, Jacobs (consultant) conducted remediation activities at the site and documented their findings in a January 2022 Final Remediation Action Completion Report which was retrieved from Envirostor. Over 4,000 cubic yards of soil was excavated at the site, with final excavation depths ranging from two to ten feet bgs depending on the extent of impact identified in the RI. Additionally, Jacobs removed two petroleum containing five-gallon underground storage tanks (USTs) and their associated piping/dispensers. The UST system was reported to not have displayed indications of a release.

Following the remediation action, Jacobs conducted soil gas sampling of 18 dual nested 5- and 15-foot bgs soil gas wells and documented their findings in a summary report dated January 2022 which was retrieved from Envirostor. Naphthalene, Benzene, and Ethyl-benzene were detected at concentrations that exceed regulatory screening levels in soil gas at the site. Jacobs recommended assessing the human health risk of the impacted soil gas as a result of the assessment.

Jacobs prepared a Human Health Risk Assessment for the remaining impacts at the former MGP plant and summarized their findings in a report dated December 2022. Soil expected lifetime cancer risks and non-cancer risk (ELCR & NCR) levels were below their respective action thresholds for commercial and construction worker scenarios. The ELCR for residential scenarios was either below or within the USEPA management range and did not exceed the NCR action level. NCR for soil gas constituents at 5 feet bgs did not exceed the action level for commercial workers or residential scenarios. The residential scenario ELCR was either below or within the USEPA management range for soil gas constituents at 5 feet bgs.

A Preliminary Endangerment Assessment (PEA) was conducted on a portion of the former MGP site by SECOR International Inc. (SECOR) (consultant) in 2007 and was documented in a summary report retrieved from Envirostor.

Pacific Gas and Electric (PG&E) operated an electric substation (1131 G Street) adjacent to a manufactured gas plant at the site from 1938 to 1983 according to the 2007 PEA. The site was assessed several times between 1986 and 2007 according to the PEA. In 1986 a Preliminary Assessment (PA) was conducted by PG&E to assess the presence of Manufactured Gas Plant (MGP) constituents of concern such as lampblack. Elevated Lead (120 - 1,100 milligrams per kilogram (mg/kg)), polyaromatic hydrocarbons (PAHs) (0.2 – 3.2 mg/kg), and Arsenic (2.6 – 9.1 mg/kg) were identified in surface soil samples collected in 1986. Additionally, lampblack was reportedly identified at the site.

In 1991, IT (consultant) advanced four soil borings to a depth of 77 feet bgs collecting a total of 23 soil samples at varying intervals and 16 surface soil samples. The assessment concluded that the lampblack-like substance reported at the site contained concentrations of constituents of concern consistent with background samples. The assessment also concluded that no MGP infrastructure was located on this portion of the greater site as previously reported. This assessment did identify elevated concentration of total petroleum hydrocarbons (TPH) and mercury adjacent to a stained concrete pad that formerly housed electrical transformers. A total of 10 cubic yards of impacted soils were excavated from this area and removed from the site.

In August 2007, twenty soil borings were advanced to a maximum of three feet throughout the former substation site with samples collected at 0.5, 1, and 2-foot bgs intervals. The soil samples collected were analyzed for semi-volatile organic compounds (SVOCs), TPH, and CAM-17 metals. Analysis revealed significant lead impacts in shallow soils with lesser TPH impacts. No SVOCs were detected in shallow soils. SECOR recommend excavating the top 1.5 feet of soils throughout the site to remediate the site for unrestricted future use.

According to a January 19, 2010 site removal action certification letter prepared by the DTSC, approximately 1,248 cubic yards of impacted soils were removed from the site. 238 cubic yards of which was disposed as Class I waste while the remaining soils were disposed of as Class II waste. The top 1.5 feet of soils at the site were removed and specified areas were over excavated to a depth less than three feet as a result of confirmation sampling. The certification letter stated the site was issued No Further Action Status.

This facility is listed in the U.S. Resource Conservation and Recovery Act database as a non-generating handler of hazardous materials. In 2013 this facility filed with the federal agency and is described as a natural gas distribution site. No indication of a release of hazardous materials post-2013 has been identified in any database reviewed.

Based on the above cited reports, this facility does not represent an environmental concern in connection with this assessment.

Frank's Exxon, M&S Service, Kurata's Automotive
1060 E Street
RCRA, LUST, CERS, CUPA, CA FID UST, Cortese, Hist Cortese, ER Hist Auto, HIST UST
Approximately 450 feet northwest

This facility is listed in EDR's proprietary database of potential former historic auto shops identified through city cross reference directories. The facility operated as a gasoline station from 1958 through 1990 and as an automobile service station from 1958 through 1993 according to the listing.

This facility is listed in the California EPA's Facility Inventory Database (FID), SWRCB's Hazardous substance storage container (Hist UST), and Statewide Environmental Evaluation and Planning System (Sweeps UST) databases for facilities that operated a UST gathered by local agencies. The facility operated four USTs: one 250-gallon waste oil UST, one 6,000-gallon unleaded motor vehicle fuel UST, one 6,000-gallon regular motor vehicle fuel, and one 6,000-gallon premium motor vehicle fuel UST according to a hazardous substance storage container information sheet retrieved from GeoTracker.

This facility is listed in the Fresno County CUPA database as a UST Closure site with four USTs. Additionally, this facility is listed in the SWRCB's LUST, California EPA's Cortese, CalEPA Regulated Sites (CERS), and the DTSC's Hist Cortese databases as a leaking underground storage tank (LUST) site. The site's soils were impacted by gasoline only according to the SWRCB's LUST database. No information regarding the extent of the impact was recovered from any database reviewed. However, a Closure Letter dated November 21, 1996 prepared by the County of Fresno awards the site no further action status.

This facility is listed in the Fresno County CUPA database as an Auto Repair Model Plan and Small Quantity Hazardous Waste Generator. Additionally, the facility is listed in the US EPA's Resource Conservation and Recovery Act (RCRA) database for facilities who handled but did not qualify as a generator of hazardous materials as of 2022. These listing describe an active auto repair facility.

Based on the above cited documents and listings this facility does not represent an environmental concern in connection with this assessment.

PG&E Environmental Remediation Department, New China Service Garage
1056 F street
EDR Hist Auto, CUPA
Approximately 450 feet northwest

This facility is listed in EDR, Inc's proprietary database of potential historic service station identified through a review of cross city directories. The facility is listed within the database as operating between 1942 and 1962. According to FCDEH, a UST was removed in January 2021. On May 12, 2021, FCDEH issued a permanent closure of underground storage tank and the site investigation.

Based on the above cited reports, this facility does not represent an environmental concern in connection with this assessment.

Hollywood Tailors & Cleaners
1416 Kern Street
EDR Hist Cleaner
Approximately 450 feet southeast

This facility is listed in EDR, Inc's proprietary database of potential historic dry cleaners identified through a review of cross city directories. The facility is listed within the database as operating in 1962. The facility is not listed on the DTSC database, the GeoTracker database or the FCEHS database indicating a release has impacted the facility. Based on the length of time since the noted facility was in operation (in excess of 60 years) and the database information reviewed, there is no evidence to suggest that this former facility represents an environmental concern in connection with this assessment.

Del Monte Foods/Yorkshire Dried Fruit and Nuts
1625 and 1626 Tulare Street, Fresno, California
LUST, Cortese, Hist Cortese, CERS, CUPA, EMI, NPDES, CIWQS, RCRA, Finds, Echo, WDS
Approximately 460 feet west by northwest

This facility is listed in the US EPA's Resource Conservation and Recovery Act (RCRA) database for facilities who handled and generated small quantities of hazardous materials (SQG). The listing is dated 1995 and does not describe wastes handled or generated.

This facility is also listed in the EPA's Facility Index System (FINDS) and Enforcement and Compliance History Information (ECHO) databases. These databases are considered 'pointer' databases included to provide a second layer of documentation for any given facilities regulated activities to ensure its record and that it would be identifiable. The Finds and Echo listings 'point' to the RCRA listing.

This facility is also listed in the SWRCB's National Pollutant Discharge Elimination System (NPDES) and California Integrated Water Quality System (WDS) databases for water-related regulatory action. The listings are related to industrial storm water management at the facility according to CIWQS. This facility is also listed in the SWRCB's Waste Discharge System (WDS) for sites that have been issued waste discharge permits. A review of Google Earth imagery suggested the facility was disassembled sometime around late 2014. As no indication of a release from these systems was documented in any database reviewed no environmental conditions are anticipated to impact the subject site based on former waste water and industrial stormwater management systems.

This facility is listed in the California Air Resources Board's Emissions Inventory Data (EMI) for emitters of airborne pollutants. The facility is listed to have emitted two tons of nitrogen oxides annually between 1995-2000. No soil or groundwater impacts are anticipated to impact the subject site as a result of nitrogen oxide emissions of a vicinity property.

This facility is listed in several federal, state, and local environmental database as a LUST site.

Three petroleum hydrocarbon (fuel oil and bunker fuel) USTs operated at the former Del Monte Foods facility according to a Case Closure Summary Memorandum prepared by the SWRCB dated March 2019. It was determined that all three USTs had leaked their contents affecting soil and groundwater. Blackburn Consulting and Kleinfelder (consultants) delineated the lateral and vertical extent of the TPH plume at the facility in assessments conducted in 2017 and 1999 respectively. Over the course of the investigation period the 95-foot bgs groundwater monitoring wells went dry. As no domestic, municipal, or agricultural wells were located in the vicinity of the plume, groundwater was considered as non-concern after this point.

The area of the former facility is located in the recently established California Highspeed Rail project right-of-way. As the release does not represent an immediate concern to the health of the public the site was issued Low-Threat closure in 2019 by the SWRCB as discussed in the Memorandum. As part of the closure process Blackburn collected five-foot bgs soil gas samples and analyzed them for volatile TPH fuel additives according to a October 2017 Final Environmental Site Assessment report retrieved from Envirostor. The most recent sampling event of the soil gas well closest to the subject site (approximately 510 feet west by northwest) resulted in non-detects for constituents of concern.

Based on the information presented above this facility does not represent environmental concern in connection with this assessment.

Univar Solutions USA Inc.
1152 G Street
CPS-SLIC, CERS, Envirostor, Hist UST, CUPA, Sweeps UST, Hist UST, CA FID UST, RCRA, HWP, Haznet, HWTS, PFAS Echo
Approximately 1100 feet north by northwest

This facility is listed in the US's RCRA database as a handler, large quantity generator and disposer of hazardous materials. The facility was first listed in 1986 and last updated in 2021. However, operations appear to have suspended in 2019 based on hazardous waste disposal records. The facility is described as an industrial chemical supplier in the RCRA database. The facility handled several volatile organic compounds (VOCs) that the US and California EPAs consider hazardous including carbon tetrachloride and tetrachloroethylene (PCE).

This facility is also listed in the DTSC's Hazardous Waste Tracking System (HWTS) and the CA EPA's Haznet databases for facilities that disposed of hazardous materials gathered from waste manifests. This facility disposed of various quantities of unspecified aqueous solutions, other organic soils, and organic solids with halogens in quantities that did not exceed 11.75 tons per disposal event between 2010 and 2019 according to Haznet.

The facility is also listed in the US EPA's PFAS Echo database as a facility that may have handled polyfluoroalkyl containing substances (PFAS). Based on the wastes listed in the RCRA and Haznet databases PFAS do not appear to have been handled at this facility. In addition, the subject site will use municipally supplied water and therefore human health risk from PFAS, if present at this facility, would be low.

This facility is listed in the SWEEPS UST, HIST UST, and CA FID UST database as an operator of a UST. This facility operated one 1,000-gallon diesel UST according to SWEEPS UST. No indication of a release originating from this UST was identified in any database reviewed. Furthermore, this facility is out of the radius of concern for petroleum hydrocarbon concerns.

This facility is listed in various federal, state, and local environmental databases as a site of a release of hazardous materials.

In 1994 PCE was discovered in soil and groundwater during a routine property transaction during diligence assessment according to a groundwater monitoring report for the site prepared by ERM West Inc. (ERM) (consultant) dated July 2022. The impacts are presumed to be the result of a PCE AST leak that occurred between 1965-1986 according to the report.

Following several additional assessments Univar Solutions USA Inc (Univar) (responsible party (RP)) installed a soil gas extraction system (SGE) that consisted of dual nested, 20-50 ft bgs and 70-90 ft bgs, soil gas wells to remediate soil impacts. The system was run between 1998-2004, 2009-2020, and March-May 2021. For groundwater remediation Univar conducted in-situ chemical oxidation events in 2017 and 2018. Both remediation efforts significantly reduced levels of PCE in groundwater and soil according to ERM.

The former Univar facility is located in the recently established California High Speed Rail right-of-way. No further remediation is proposed at this time as a vicinity dry cleaner is also assessing their contributions to the PCE plume. Following the dry cleaner's assessment Univar proposes to work with the California High-Speed Rail Authority to close and develop the site. Based on Isopleths of the groundwater plume included in the groundwater monitoring report the plume extends west by northwest from the point source of the facility located at the corner of G and Fresno Streets. Based on this environmental risk to the subject site is considered to be low.

Based on the above cited reports and listings this facility does not represent an environmental concern in connection with this assessment.

Hazardous Materials Migration in Soils and/or Groundwater

The remaining properties within the specified search radius of the subject site which appeared on local, state, or federally published lists of sites that use or have had releases of hazardous materials or petroleum products are of sufficient distance and/or situated hydraulically cross- or downgradient from the subject site such that impact to the subject site via groundwater migration is unlikely. In general, potentially hazardous materials released from facilities located generally hydraulically upgradient within subject site vicinity, or in a hydraulically cross-gradient direction in proximity to the site, may have a reasonable potential of migrating to the subject site via groundwater flow. This opinion is based on the assumption that non-vaporous hazardous materials generally do not migrate large distances laterally within the soil, but rather tend to migrate with groundwater in the general direction of groundwater flow. However, the potential for migration of volatile hazardous materials may include movement within soils, groundwater flow or potentially omni-directionally if present in a vaporous state.

Hazardous Materials Migration in Vapor

Hazardous materials or petroleum product vapors which may have the potential to migrate into the subsurface of the subject site may be caused by the release of vapors from contaminated soil or groundwater either on or in the vicinity of the subject site from current or historical uses of the subject site and/or adjacent or vicinity properties. Current or past land uses such as gasoline stations (using petroleum hydrocarbons), dry cleaning establishments (using chlorinated volatile organic compounds), former manufactured gas plant sites (using volatile and semi-volatile organic compounds), and former industrial sites such as those that had vapor degreasing or other parts-cleaning operations (using chlorinated volatile organic compounds) are of particular concern. Constituent of concern vapors are capable of migrating great distances omni-directionally along subsurface conduits such as pipelines, utility lines, sewer and stormwater lines, and building foundations.

Based on Krazan's research and review of State and local regulatory agency records and the EDR regulatory database report, no listings of concern related to potential vapor migration were determined to be associated with adjacent properties or properties located within the subject site vicinity. The rationale supporting this opinion includes the following:

- Relevant sites had undergone investigation and remediation sufficient to receive regulatory agency closure.
- Sites with reported releases of minor quantities of constituents of potential concern (COPCs) or COPCs of limited volatility impacting soil only were considered of minimal concern.
- Sites with reported releases of COCs including volatile organic compounds (VOCs) were either of sufficient distance or hydraulically down- or cross-gradient from the subject site such that they do not appear to represent a significant potential for vapor migration on to the subject site.

No engineering control sites, sites with institutional controls, or sites with deed restrictions were listed for the subject site, adjacent sites or vicinity properties in the EDR Report.

7.0 DISCUSSION OF FINDINGS

Summary of Conclusions		
Apparent Evidence of RECs/CRECs or PAOCs From	***Not Noted***	***Noted***
Historical Uses	X	
Current Uses	X	
Adjacent of Vicinity Property Uses	X	

Historical Uses

Based on Krazan's review of historical aerial photographs, historical topographic maps, and historical cross-reference directories, a site reconnaissance, contacts with the local regulatory agencies, and an interview with a representative of the owner of the subject site, there is no material evidence that RECs exists in connection with the historical uses of the subject site.

Current Uses

Based on Krazan's site reconnaissance, contacts with local regulatory agencies, and an interview with a representative of the owner of the subject site, there is no material evidence that RECs exist in connection with the current uses of the subject site.

Adjacent or Vicinity Property Uses

Based on Krazan's field observations, review of the EDR government database report, and consultation with local regulatory agencies, there is no material evidence that recognized environmental conditions exist in connection with the subject site from adjacent or vicinity property uses.

7.1 Evaluation of Data Gaps/Data Failure

In accordance with ASTM E 1527-21 guidance, data gaps represent a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice. Data failure represents the failure to achieve the historical research objectives of this practice even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. Data failure is one type of data gap.

The following is a summary of data gaps encountered in the process of preparing this report including an observation as to the presumed significance of that data gap to the conclusions of this assessment:

- Absence of an Environmental Lien Search or Final Title Report (Sections 5.1 and 5.2)

  A Final Title Report or Environmental Lien Search was not provided by the Phase I ESA User; therefore, a data gap exists. Taken in consideration with the available information obtained in the course of preparing this report in conjunction with professional experience, there is no evidence to suggest that this data gap might alter the conclusions of this assessment. However, the content of an environmental lien search or final title report is unknown.

- Absence of Interview with Previous Property Owner/Occupant (Section 5.3)

  A Phase I ESA interview with the previous owner of the subject site was not reasonably ascertainable. Consequently, information regarding the history and historical uses of the subject site obtained from an interview of the previous owner of the subject site constitutes a data gap. Taken in consideration with the available information obtained in the course of preparing this report in connection with professional experience, there is no evidence to suggest that this data gap might alter the conclusions of this assessment. However, the content of an interview with the previous property owner is unknown.

8.0 CONCLUSIONS

We have conducted a Phase I ESA of the subject site in conformance with the scope and limitations of the ASTM E 1527-21 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* guidance documents. Any deviations from this practice were previously described in this report. During the course of this assessment, Krazan identified no evidence of RECs, CRECs or HRECs in connection with the subject site as defined by ASTM E 1527-21; however, ASTM non-scope considerations were identified.

ASTM Non-Scope Considerations

The structures on the subject site were constructed in the early 1900s and 1930s. Neither an ACM survey nor a LBP survey, including sampling of materials at the on-site structures, was included within the scope of this assessment; therefore, it is unknown whether the buildings contain ACMs or LBP. Prior to the disturbance of any suspect ACMs or LBP at the subject site via renovation or demolition, a comprehensive asbestos and LBP survey is recommended.

The U.S. EPA has set the safety standard for radon gas in homes to be 4.0 pCi/L. Review of the EPA Map of Radon Zones places the Property in Zone 2, where average predicted radon levels are equal to or above 2.0 pCi/L and equal to or below 4.0 pCi/L. While the available data suggests that the potential for radon to adversely impact the subject site appears to be low, based on the proposed future residential usage of the subject site, a radon survey may be warranted.

9.0 RELIANCE

This report was prepared solely for use by Client and should not be provided to any other person or entity without Krazan & Associates' prior written consent. No party other than Client may rely on this report without Krazan & Associates' express prior written consent. Reliance rights for third parties will only be in effect once requested by Client and authorized by Krazan & Associates with authorization granted by way of a Reliance Letter. The Reliance Letter will require that the relying party(ies) agree to be bound to the terms and conditions of the agreement between Client and Krazan & Associates as if originally issued to the relying party(ies), or as so stipulated in the Reliance Letter.

10.0 LIMITATIONS

The site reconnaissance and research of the subject site has been limited in scope. This type of assessment is undertaken with the calculated risk that the presence, full nature, and extent of contamination would not be revealed by visual observation alone. Although a thorough site reconnaissance was conducted in accordance with ASTM Guidelines and employing a professional standard of care, no warranty is given, either expressed or implied, that hazardous material contamination or buried structures, which would not have been disclosed through this investigation, do not exist at the subject site. Therefore, the data obtained are clear and accurate only to the degree implied by the sources and methods used.

The findings presented in this report were based upon field observations during a single property visit, review of available data, and discussions with local regulatory and advisory agencies. Observations describe only the conditions present at the time of this investigation. The data reviewed and observations made are limited to accessible areas and currently available records searched. Krazan cannot guarantee the completeness or accuracy of the regulatory agency records reviewed. Additionally, in evaluating the property, Krazan has relied in good faith upon representations and information provided by individuals noted in the report with respect to present operations and existing property conditions, and the historical uses of the property. It must also be understood that changing circumstances in the property usage, proposed property usage, subject site zoning, and changes in the environmental status of the other nearby properties can alter the validity of conclusions and information contained in this report. Therefore, the data obtained are clear and accurate only to the degree implied by the sources and methods used.

This report is provided for the exclusive use of the client noted on the cover page and shall be subject to the terms and conditions in the applicable contract between the client and Krazan. Any third-party use of this report, including use by Client's lender, shall also be subject to the terms and conditions governing the work in the contract between the client and Krazan. The unauthorized use of, reliance on, or release of the information contained in this report without the express written consent of Krazan is strictly prohibited and will be without risk or liability to Krazan.

Conclusions and recommendations contained in this report are based on the evaluation of information made available during the course of this assessment. It is not warranted that such data cannot be superseded by future environmental, legal, geotechnical or technical developments. Consequently, given the possibility for unanticipated hazardous conditions to exist on a subject site which may not have been discovered, this Phase I ESA is not intended as the basis for a buyer or developer of real property to waive their rights of recovery based upon environmental unknowns. Parties that choose to waive rights of recovery prior to site development do so at their own risk.

Parties who seek to rely upon Phase I Environmental Site Assessment reports dated more than 180 days prior to the date of reliance do so at their own risk. This limitation in reliance is based on the potential for physical changes at the site, changes in circumstances, technological and professional advances, and guidance related to the continued viability of Environmental Site Assessment reports, user's responsibilities, and requirements for updating of components of the inquiry as stated in the ASTM Standard E 1527-21.

11.0 QUALIFICATIONS

This Phase I ESA was conducted under the supervision or responsible charge of Krazan's undersigned environmental assessor with oversight from the undersigned environmental professional. The work was conducted in accordance with ASTM E 1527-21 guidance, generally accepted industry standards for environmental due diligence in place at the time of the preparation of this report, and Krazan's quality-control policies.

We declare that, to the best of our professional knowledge and belief, we meet the definition of environmental professional as defined in §312.10 of 40 CFR 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property.

We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Respectfully submitted,
KRAZAN & ASSOCIATES, INC.

Laurie K. Blakeman
Sr. Environmental Project Manager

Remington R. Alexander, PE

GLOSSARY OF TERMS

Subject Site: The real property being investigated under this Phase I ESA.

Adjacent Properties: Properties which are contiguous with the subject site, or would be contiguous except for a street, road, or other public thoroughfare.

Subject Site Vicinity: Properties located within a 500-foot radius of the subject site.

Environmental Professional: A person meeting the education, training, and experience requirements as set forth in 40 CFR §312.10(b). The EP may be an independent contractor or an employee of the user.

User: The party seeking to use Practice E 1527 to complete an environmental site assessment of the subject site. A user may include, without limitation, a potential purchaser of the subject site, a potential tenant of the subject site, an owner of the subject site, a lender, or a property manager.

Recognized Environmental Condition (REC): In defining a standard of good commercial and customary practice for conducting an environmental site assessment of a parcel of property, the goal of the processes established by this practice is to identify recognized environmental conditions. The term recognized environmental conditions means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. *De minimis* conditions are not recognized environmental conditions.

Controlled Recognized Environmental Condition (CREC): A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). For example, if a leaking underground storage tank has been cleaned up to a commercial use standard, but does not meet unrestricted residential cleanup criteria, this would be considered a CREC. The "control" is represented by the restriction that the property use remain commercial. A condition considered by the environmental professional to be a CREC shall be listed in the findings section of the Phase I ESA report and as an REC in the conclusions section. A condition identified as a CREC does not imply that the environmental professional has evaluated or confirmed the adequacy, implementation, or continued effectiveness of the required control that has been, or is intended to be, implemented.

Historical Recognized Environmental Condition (HREC): A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release an HREC, the environmental professional must determine whether the past release is an REC at the time the Phase I ESA is conducted (for example, if there has been change in the regulatory criteria). If the EP considers the past release to be an REC at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as an REC.

GLOSSARY OF TERMS (continued)

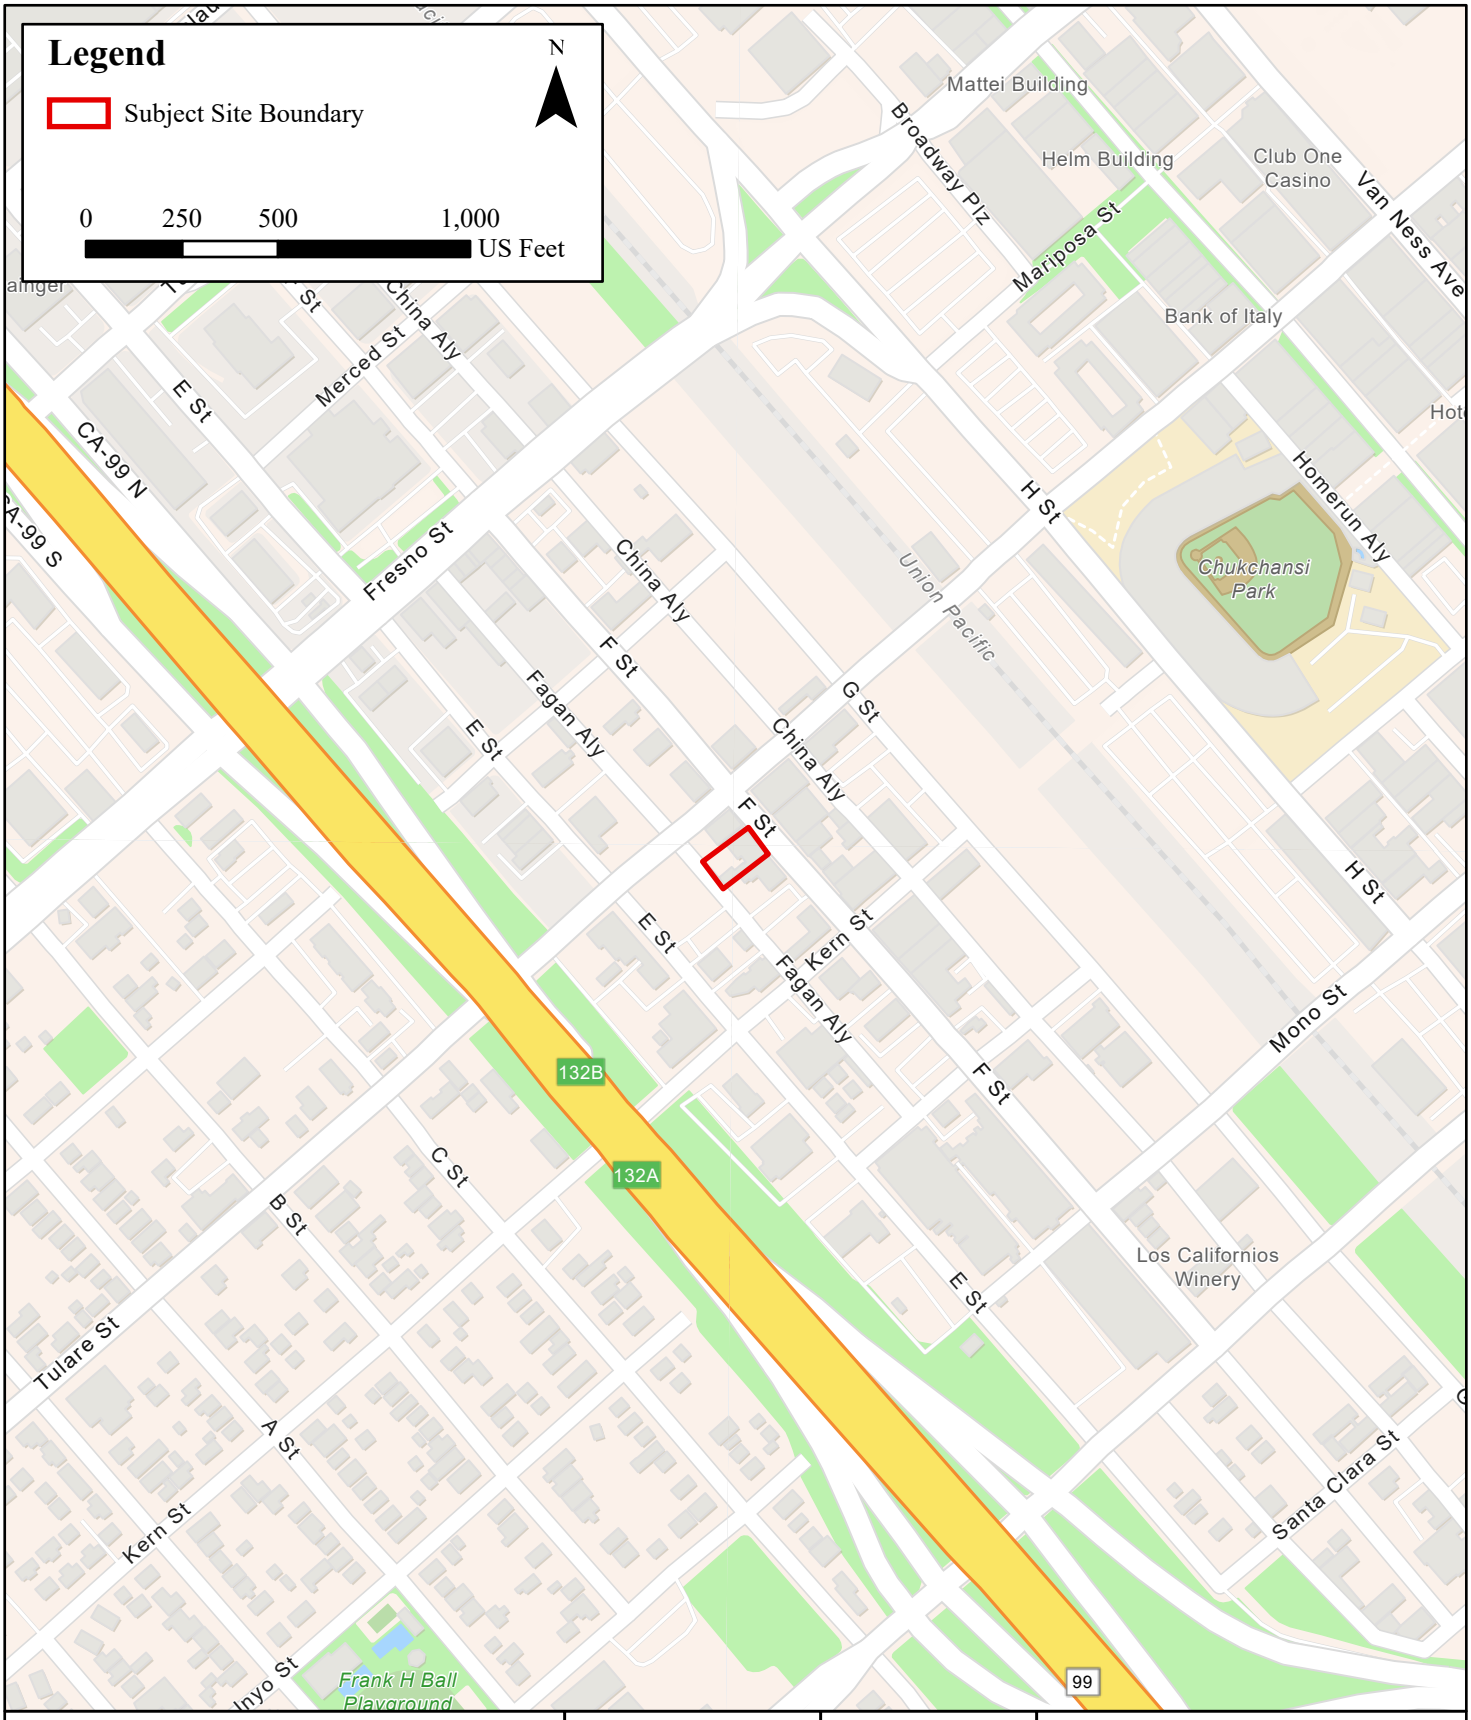

Potential Area of Concern (PAOC): A term adopted to provide an alternative designation to the REC and HREC for a range of environmental issues related to current subject site uses, historical subject site uses, or from adjacent and/or vicinity property uses. The PAOC is utilized to emphasize full disclosure and provide the User with conclusions and recommendations related to potential environmental issues in connection with the subject site based on Krazan's professional experience in cases where official documentation or other evidence may be absent in order to identify an REC or HREC, thereby aiding the User's considerations of environmental due diligence risk tolerance.

Migrate/migration: For the purposes of this practice, "migrate" and "migration" refer to the movement of hazardous substances or petroleum products in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface. Vapor migration in the subsurface is described in ASTM E 2600-10 guidance; however, nothing in the E 1527-21 practice should be construed to require application of the E 2600-10 standard to achieve compliance with AAI.

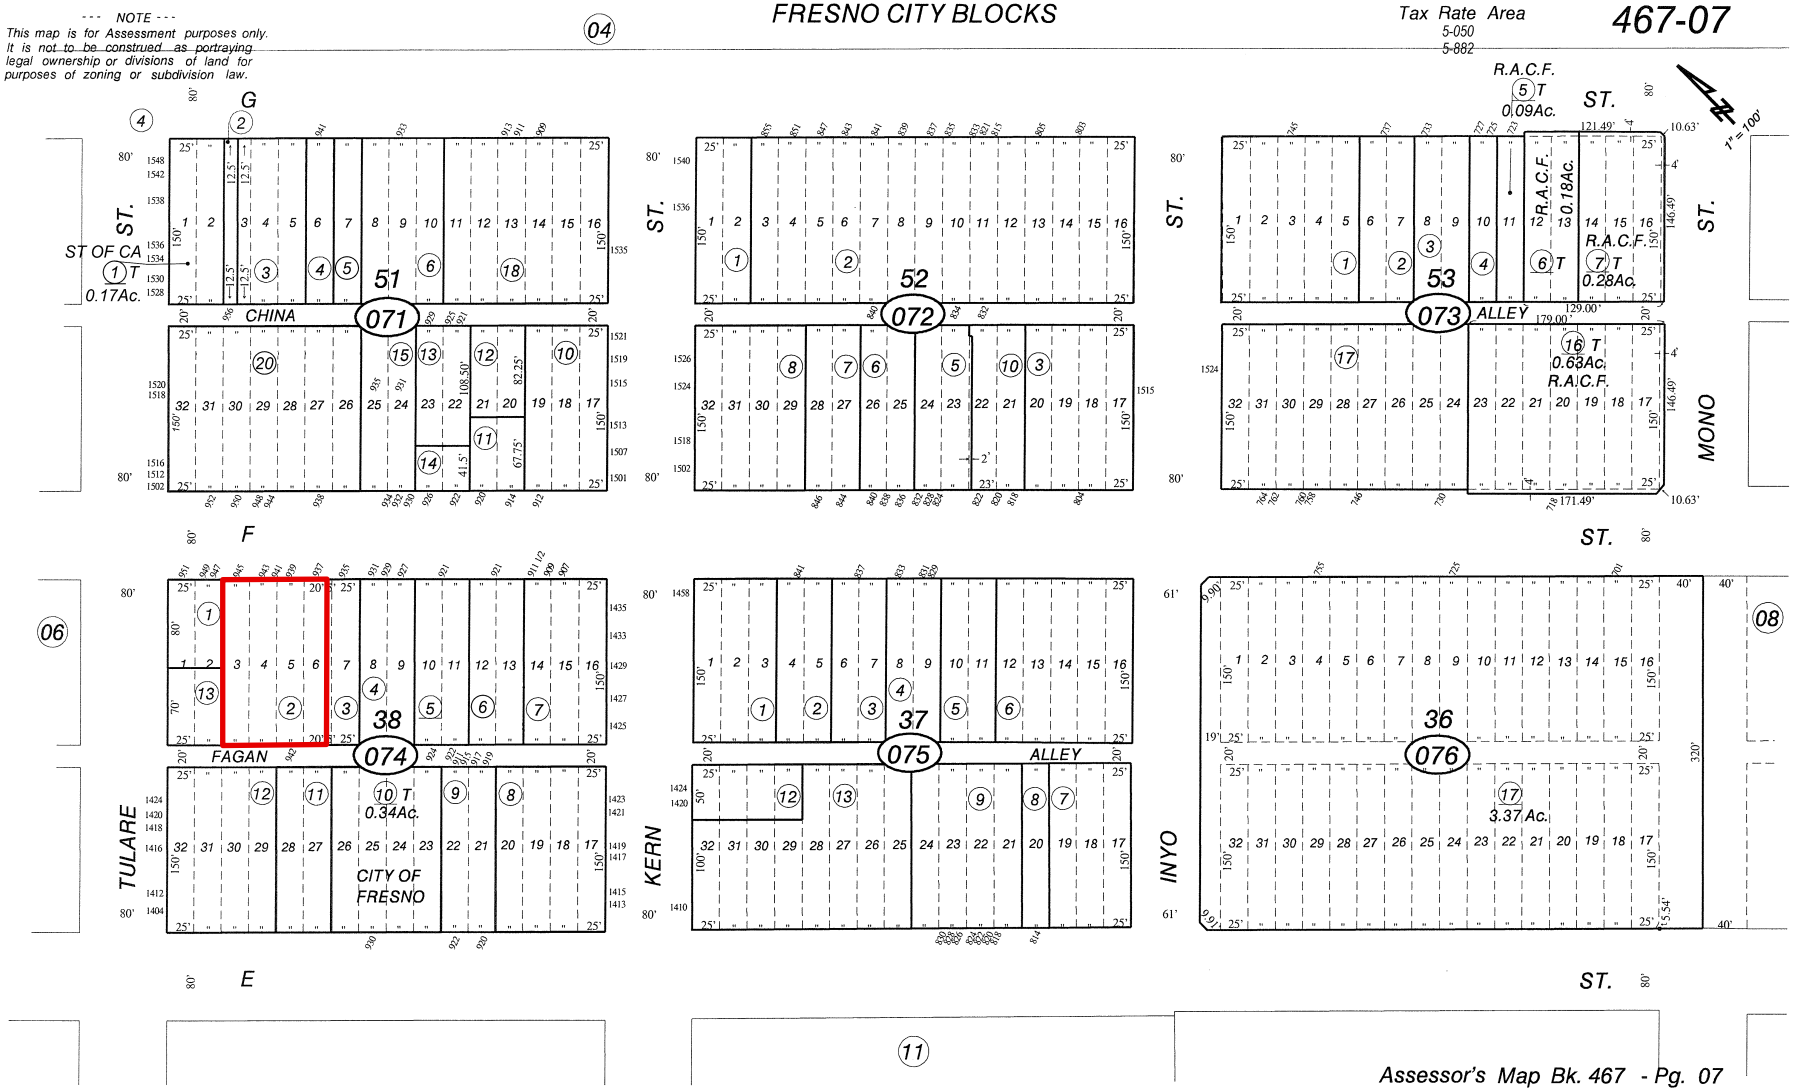

De minimis condition: A condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Condition determined to be *de minimis conditions* are not RECS or CRECs.

Data Gap: A lack of or inability to obtain information required by this practice despite good faith efforts by the Environmental Professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to the site reconnaissance and interviews.

Data Failure: A failure to achieve the historical research objectives even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. Data failure is one type of data gap.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Krazan & Associates, Inc. were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:

P.O.# 014-23080
Project: Peacock Building

Coordinates:

Latitude:	36.729982 36° 43' 48" North

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 1320 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Fidelity National Title Company

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Fidelity National Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(ies) of title insurance to be issued hereunder will be policy(ies) of Fidelity National Title Insurance Company, a Florida corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Recording No.: 2022-0142055, of Official Records

Reference is hereby made to said document for full particulars.

10. Certificate of Existence of a Substandard Building(s) as disclosed by a document

Recording Date: November 23, 2022
Recording No.: 2022-0142058, of Official Records

Reference is hereby made to said document for full particulars.

11. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.

12. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

END OF EXCEPTIONS

NOTES

Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

Note 1. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.

Note 2. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

Name(s) furnished: City of Fresno

If these name(s) are incorrect, incomplete or misspelled, please notify the Company.

Note 3. Note: Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts were:

Tax Identification No.:	467-074-02
Fiscal Year:	2022-2023
1st Installment:	$2,772.50
2nd Installment:	$2,772.50
Exemption:	$0.00
Land:	$60,412.00
Improvements:	$361,473.00
Personal Property:	$0.00
Code Area:	005-050

Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

Note 4. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land Commercial Property, known as 937-943 F Street and 942 Fagen Alley, Fresno, CA, to an Extended Coverage Loan Policy.

Note 5. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

Note 6. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.

Note 7. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

NOTES
(continued)

Note 8. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.

Note 9. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

Note 10. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

NOTES
(continued)

Note 11. The following Exclusion(s) are added to preliminary reports, commitments and will be included as an endorsement in the following policies:

A. 2006 ALTA Owner's Policy (06-17-06).

6. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

B. 2006 ALTA Loan Policy (06-17-06)

8. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

9. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

C. ALTA Homeowner's Policy of Title Insurance (12-02-13) and CLTA Homeowner's Policy of Title Insurance (12-02-13).

10. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

D. ALTA Expanded Coverage Residential Loan Policy - Assessments Priority (04-02-15).

12. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

13. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

E. CLTA Standard Coverage Policy 1990 (11-09-18).

7. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the public records but that would be disclosed by an examination of any records maintained by or on behalf of a tribe or on behalf of its members.

8. Any claim of invalidity, unenforceability, or lack of priority of the lien of the insured mortgage based on the application of a tribe's law resulting from the failure of the insured mortgage to specify state law as the governing law with respect to the lien of the insured mortgage.

END OF NOTES

WIRE SAFE™ | Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE

Effective January 1, 2023

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

For Virginia Residents: For additional information about your Virginia privacy rights, please email privacy@fnf.com or call (888) 714-2710.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions or would like to correct your Personal Information, visit FNF's Privacy Inquiry Website or contact us by phone at (888) 714-2710, by email at privacy@fnf.com, or by mail to:

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY - 1990 (11-09-18)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

3. Defects, liens, encumbrances, adverse claims or other matters:

   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;

   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;

   (c) resulting in no loss or damage to the insured claimant;

   (d) attaching or created subsequent to Date of Policy; or

   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.

4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.

5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.

6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.

2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.

4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY (02-04-22)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.
   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy.
   Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7 Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

PART I

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (7-01-21)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.

   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

ALTA OWNER'S POLICY (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.]
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FNF Underwritten Title Companies	**Underwritten by FNF Underwriters**

Available Discounts

DISASTER LOANS (CTIC, CLTIC, FNTIC)
The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within twenty-four (24) months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be fifty percent (50%) of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, FNTIC)
On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty percent (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

This map/plat is being furnished as an aid in locating the herein described Land in relation to adjoining streets, natural boundaries and other land, and is not a survey of the land depicted. Except to the extent a policy of title insurance is expressly modified by endorsement, if any, the Company does not insure dimensions, distances, location of easements, acreage or other matters shown thereon.

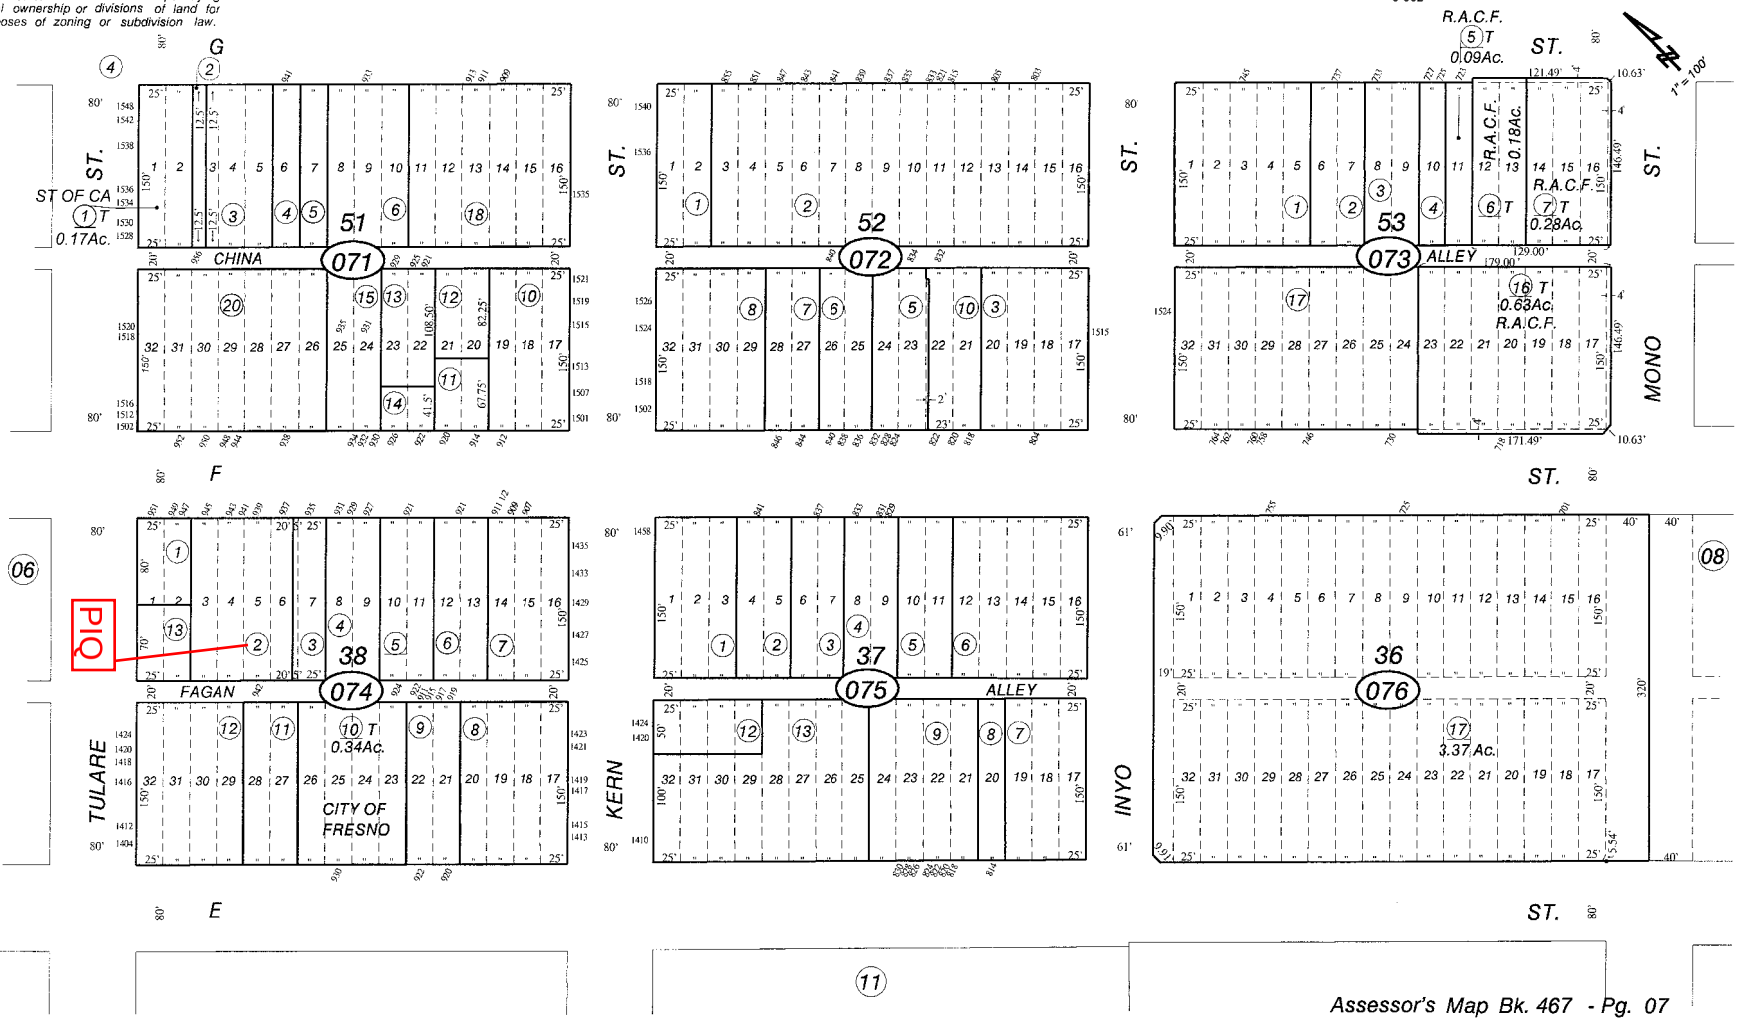

--- NOTE ---
This map is for Assessment purposes only. It is not to be construed as portraying legal ownership or divisions of land for purposes of zoning or subdivision law.

City/State/Zip: Fresno, CA 93706

Name: Yolanda Wong Company: _____
Date: 07/25/23 Phone: 415 632 8819

Knowledge of Previous Owner(s) and Phone Number? No knowledge of previous owners

How are you associated with the subject site? Owner

How long have you been associated with the subject site? Since 2004

What is the subject site currently used for? Currently not in use

Are there structures on the subject site? (**Yes**) **No** How many? 2

Do you know of any previous structures on the subject site? **Yes** (**No**)
If so, describe uses. _____

Do you have knowledge of the presence of underground storage tanks (UST) or aboveground storage tanks (AST) being located on the subject property (current or historical)? **Yes** (**No**)
(If so, please provide info including number, size, contents, and locations.)

Currently: _____ Historically: _____

Do you know of any chemicals, hazardous materials and/or persistent pesticides/herbicides (such as DDT) being used, stored or discharged on the subject site? **Yes** (**No**)
If so, please list any chemicals / hazardous materials and their location(s). _____

Do you have any knowledge of imported soil on the subject property? **Yes** (**No**)
If so, please indicate the origin and location of the imported soil? _____

Do you know of any buried materials such as garbage dumps, burn pits or underground pipelines located on the subject site? **Yes** **No**
If so, please specify and indicate the location(s). _____

_____

_____

Do you know of any septic systems located on the subject property (current or historical)? **Yes** **No**
If so, how many currently? _____ If so, how many historically? _____

Do you know of any domestic or agricultural water wells located on the subject property (current or historical)? **Yes** **No**
If so, how many currently? _____ If so, how many historically? _____

Do you know of any dry wells located on the subject property (current or historical)? **Yes** **No**

Do you know of any environmental monitoring wells located on the subject property (current or historical)? **Yes** **No**

Do you know of any drainage or disposal ponds located on the subject property? **Yes** **No**

Is the subject property connected to municipal water and/or sewer systems? **Yes** **No**

Do you know of obvious indications pointing to the presence or likely presence of contamination of the subject property? **Yes** **No**
If so, please specify and indicate location. _____

_____

Do you have any concerns about adjacent property usage such as gasoline stations, industrial uses, or USTs/ASTs on adjacent properties? **Yes** **No**

Are you aware of any environmental cleanup liens against the subject property that are filled or recorded under federal, tribal, state, or local law? **Yes** **No**

Have there been any previous commercial and/or industrial (non-residential) tenants/occupants on the subject property or in on-site buildings? **Yes** **No**
If so, please list: _____

_____

Are you aware of any activity use limitations (AULs) such as engineering controls, land use restrictions, or institutional controls that are in place at the subject property and/or have been filed or recorded in a registry under federal, tribal, state, or local law? **Yes** **No**
If so, please specify. _____

_____

_____

Do you have specialized knowledge or experience related to the subject property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject property or an adjacent property so that you would have specialized knowledge of the chemicals and processes used by this type of business? **Yes** **(No)**
If so, please specify and briefly explain. _____

_____

_____

Does the purchase price being paid for the subject property reasonably reflect the fair market value of the subject property? **(Yes)** **No**

Do you know the past uses of the subject property? **(Yes)** **No**
If so, briefly explain. Residential leasing

_____

Do you have knowledge of the current or historical presence of vehicle repair-related features (i.e. sumps, oil/water clarifiers, subsurface hydraulic vehicle hoists, etc.)? **Yes** **(No)**
If so, briefly explain. _____

_____

Do you know of specific chemicals that are present or once were present at the subject property?
Yes **(No)**
If so, briefly explain. _____

_____

Do you know of any spills or other chemical releases that have taken place at the subject property?
Yes **(No)**
If so, briefly explain. _____

_____

Are you aware of, or have you been notified of, any contamination issues to soil or groundwater either at the subject property or in the vicinity of the subject site? **Yes** **(No)**
If so, briefly explain. _____

_____

What is the reason for preparation of this Phase I ESA? (Property purchase/sale; bank loan; proposed development, etc.) Owners live to far to manage the property.

_____

If purchase price has been established, does it reasonably reflect fair market value? Yes

Are there any proposed changes in the uses of the subject site? **Yes** **(No)**
If so, please specify. _____

PROPERTY USER QUESTIONNAIRE

Property Name: _____

Address/APN: 937-943 F Street and 942 Fagen Alley/APN: 467-074-02

City/State/Zip: Fresno, CA 93706

Respondent Information:

Name: Keng Lee Company: City of Fresno

Date: July 25, 2023 Phone: 559-621-8050

Introduction

"In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfield Revitalization Act of 2001 (the 'Brownfields Amendments'), the *user* must provide the following inquiries required by 40 CFR §§ 312.25, 312.28, 312.29, 312.30 and 312.31. The *user* should provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that '*all appropriate inquiry*' is not complete." - American Society for Testing and Materials (ASTM) E1527-21 Appendix X3. User Questionnaire

1. Are you aware of any environmental cleanup liens against the subject site that are filed or recorded under federal, tribal, state, or local law?

I have not reviewed the records and do not know if there are any filed or recorded environmental liens.

2. Are you aware of any activity use limitations (AULs) such as engineering controls, land use restrictions, or institutional controls that are in place at the subject site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?

I have not reviewed the records and do not know if there are any field/recorded AULs or any AULs in place at the site.

3. As the user of the Phase I Environmental Site Assessment (ESA), do you have any specialized knowledge or experience related to the subject site or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the subject site or an adjacent property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No, I do not have any specialized knowledge and/or experience related to the property or nearby properties.

4. Does the purchase price being paid for the subject site reasonably reflect the fair market value of the subject site? **Yes** **No**

A. If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the subject site?

5. Are you aware of commonly known or reasonably ascertainable information about the subject site that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:

A. Do you know the past uses of the subject site? If so, briefly explain.

I do not know.

B. Do you know of specific chemicals that are present or once were present at the subject site? If so, briefly explain.

I do not know.

C. Do you know of spills or other chemical releases that have taken place at the subject site? If so, briefly explain.

I do not know.

D. Do you know of any environmental cleanups that have taken place at the subject site? If so, briefly explain.

I do not know.

6. As the user of the Phase I ESA, based on your knowledge and experience related to the subject site, are there any obvious indicators that point to the presence or likely presence of contamination at the subject site?

No, I do not know and/or do not have any experience with any obvious indicators that point to the presence or likely presence of contamination at the property or adjoining properties.

7. What is the reason for preparation of this Phase I ESA? (Property purchase/sale; bank loan; proposed development; etc.)

Purchase, demo, and construction of permanent affordable housing.

I, the user of this Phase I ESA (or authorized representative of the User), do hereby attest that I have carefully considered the questions herein and have presented answers to the best of my knowledge and ability based upon the Responsibilities of the User as required within ASTM E1527-21 guidance.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal sites subject to CERCLA removals and CERCLA orders

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 04/26/2023 has revealed that there are 2 SEMS sites within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page

PG & E FRESNO 2 Site ID: 0904605 EPA Id: CAD983650102	FRESNO & TULARE STRE	NNW 0 - 1/8 (0.123 mi.)	J51	64

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/26/2023 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/06/2023 has revealed that there are 4 RCRA-SQG sites within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/23/2023 has revealed that there are 12 ENVIROSTOR sites within approximately 1 mile of the target property.

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 6 UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/06/2023 has revealed that there are 12 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 03/30/2023 has revealed that there are 3 PFAS ECHO sites within approximately 0.25 miles of the target property.

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 35 CUPA Listings sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
PG AND E MANUFACTURE	BLOCK OF F,G, FRESNO	NNW 0 - 1/8 (0.113 mi.)	J47	61

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 8 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 20 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

RWQCB Region:	CENTRAL VALLEY RWQCB (REGION 5F)
Site History:	On 4 September 2015, two underground storage tanks (USTs) were removed from the subject address (Site). Analytical results of soil samples collected from beneath the USTs detected concentrations of petroleum hydrocarbon constituents. Considered evidence of a release of petroleum products from the USTs, the Fresno County Environmental Health Division (FCEHD) issued an Underground Storage Tank Unauthorized Release (Leak) / Contaminated Site Report on 20 June 2016. On 21 June 2016, the FCEHD referred the Site to the Central Valley Regional Water Quality Control Board (Central Valley Water Board) for regulatory oversight.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Hazardous Waste Summary:
Waste Code: D018
Waste Description: Benzene

Waste Code: D022
Waste Description: Chloroform

UNIVAR SOLUTIONS USA INC. (Continued) **1000136187**

Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	D040
Waste Description:	Trichlorethylene
Waste Code:	U002
Waste Description:	2-Propanone (I) (Or) Acetone (I)
Waste Code:	U012
Waste Description:	Aniline (I,T) (Or) Benzenamine (I,T)
Waste Code:	U019
Waste Description:	Benzene (I,T)
Waste Code:	U025
Waste Description:	Dichloroethyl Ether (Or) Ethane, 1,1'-Oxybis[2-Chloro-
Waste Code:	U026
Waste Description:	Chlornaphazin (Or) Naphthalenamine, N,N'-Bis(2-Chloroethyl)-
Waste Code:	U029
Waste Description:	Methane, Bromo- (Or) Methyl Bromide
Waste Code:	U037
Waste Description:	Benzene, Chloro- (Or) Chlorobenzene
Waste Code:	U044
Waste Description:	Chloroform (Or) Methane, Trichloro-
Waste Code:	U056
Waste Description:	Benzene, Hexahydro- (I) (Or) Cyclohexane (I)
Waste Code:	U072
Waste Description:	Benzene, 1,4-Dichloro- (Or) P-Dichlorobenzene
Waste Code:	U075
Waste Description:	Dichlorodifluoromethane (Or) Methane, Dichlorodifluoro-
Waste Code:	U076
Waste Description:	Ethane, 1,1-Dichloro- (Or) Ethylidene Dichloride
Waste Code:	U077
Waste Description:	Ethane, 1,2-Dichloro- (Or) Ethylene Dichloride
Waste Code:	U078
Waste Description:	1,1-Dichloroethylene (Or) Ethene, 1,1-Dichloro-
Waste Code:	U079
Waste Description:	1,2-Dichloroethylene (Or) Ethene, 1,2-Dichloro-,(E)-
Waste Code:	U080
Waste Description:	Methane, Dichloro- (Or) Methylene Chloride
Waste Code:	U083
Waste Description:	Propane, 1,2-Dichloro- (Or) Propylene Dichloride

UNIVAR SOLUTIONS USA INC. (Continued) **1000136187**

Waste Code: U121
Waste Description: Methane, Trichlorofluoro- (Or) Trichloromonofluoromethane

Waste Code: U161
Waste Description: 4-Methyl-2-Pentanone (I) (Or) Methyl Isobutyl Ketone (I) (Or) Pentanol, 4-Methyl-

Waste Code: U165
Waste Description: Naphthalene

Waste Code: U210
Waste Description: Ethene, Tetrachloro- (Or) Tetrachloroethylene

Waste Code: U211
Waste Description: Carbon Tetrachloride (Or) Methane, Tetrachloro-

Waste Code: U220
Waste Description: Benzene, Methyl- (Or) Toluene

Waste Code: U225
Waste Description: Bromoform (Or) Methane, Tribromo-

Waste Code: U226
Waste Description: Ethane, 1,1,1-Trichloro- (Or) Methyl Chloroform

Waste Code: U227
Waste Description: 1,1,2-Trichloroethane (Or) Ethane, 1,1,2-Trichloro-

Waste Code: U228
Waste Description: Ethene, Trichloro- (Or) Trichloroethylene

Waste Code: U236
Waste Description: 2,7-Naphthalenedisulfonic Acid,3,3'-[(3,3'-Dimethyl[1,1'-Biphenyl]-4,4'-Diyl)Bis(Azo)Bis[5-Amino -4-Hydroxy]-, Tetrasodium Salt (Or) Trypan Blue

Waste Code: U239
Waste Description: Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RWQCB Region:	CENTRAL VALLEY RWQCB (REGION 5F)
Site History:	The Site is located at 1152 G Street in Fresno. The Site was historically used, from 1965 to 1986, to store bulk tetracholoroethene (PCE) in an aboveground storage tank at the

UNIVAR (Continued) **S118504541**

northern section of the property. Soil and soil vapor surveys in 1996 indicated the presence of PCE. Several monitoring wells were installed in 1996 and showed PCE in the underlying groundwater. In 1998 a vapor extraction system was installed and ran until 2004. The extracted soil vapor is treated using two 2500-pound activated carbon vessels to remove the VOCs. Through subsequent testing a series of groundwater monitoring wells have been installed and continue to be monitored quarterly. Four new offsite SVE wells were installed during late 2008 and the SVE system. An SVE system is currenlty extracting soil vapors from five vapor extraction wells located near the highest concentrations of PCE in groundwater and soil. This is located just downgradient of the site. Investigation to assess the lateral and vertical extent of impacts to groundwater is ongoing. Univar installed a remediation system to inject potassium permanganate into groundwater beneath the source area. Two injection events have been conducted. No further injection events are anticipated.

Military DOD Site:	No
Facility Project Subtype:	Not reported
RWQCB Region:	CENTRAL VALLEY RWQCB (REGION 5F)
Site History:	One underground storage tank (UST) system was removed from this location. The contents of the 550-gallon tank was gasoline. The exterior of the tank was rusted and pitted. Several pin-sized holes were observed. The depth to the base of the tank was approximately 6 feet below site grade (BSG). A total of two soil samples were obtained from beneath the UST at depths of approximately 9 feet and

FIRE STATION NO 3 (Continued) **U001592362**

14 feet BSG. One soil sample was obtained from beneath the former dispenser at a depth of approximately 5 feet BSG. Both samples below the UST indicate that gasoline constituents were present in soil at the following levels: 15 mg/kg Total Petroleum Hydrocarbons - gasoline range (TPHg) at 9 feet BSG, and 46 mg/kg TPHg at 14 feet BSG. Ethylbenzene, Toluene, Xylene, and Naphthalene were also detected. This case will be referred to the Regional Water Quality Control Board, Central Valley Region-Fresno for further investigation.

Status: Completed - Case Closed
Status Date: 04/08/2013
Case Worker: MLE
RB Case Number: 5T10000905
Local Agency: FRESNO COUNTY
File Location: Not reported
Local Case Number: FA0169629
Potential Media Affect: Aquifer used for drinking water supply, Soil
Potential Contaminants of Concern: Benzene, Xylene, Diesel, Gasoline
EPA Region: 9
Coordinate Source: Google Map Move
Cuf Case: NO
Quantity Released Gallons: Not reported
Begin Date: 08/03/2009
Leak Reported Date: 01/19/2010
How Discovered: Tank Closure
How Discovered Description: Not reported
Discharge Source: Dispenser
Discharge Cause: Unknown

FIRE STATION #3 (Continued) **S106175238**

Stop Method:	Close and Remove Tank
Stop Description:	Not reported
No Further Action Date:	04/08/2013
CA Water Watershed Name:	South Valley Floor - Fresno (551.30)
Dwr Groundwater Subbasin Name:	San Joaquin Valley - Kings (5-022.08)
Disadvantaged Community:	Not reported
CA Enviroscreen 3 Score:	96-100% (highest scores)
CA Enviroscreen 4 Score:	95-100% (highest scores)
Military DOD Site:	No
Facility Project Subtype:	Not reported
RWQCB Region:	CENTRAL VALLEY RWQCB (REGION 5F)
Site History:	Subsurface analysis of soil revealed the presence of petroleum constituents. Benzene, a constituent of petroleum products is currently on the list of Proposition 65 chemicals as a known carcinogen. The preliminary investigation conducted at the site showed soil contamination. Further investigation will be required. The case will be referred to the California Regional Water Quality Control Board, Central Valley Region for review, future site investigations and direct further assessment work as needed. The scope of future subsurface investigation may include the determination of potential groundwater impacts.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Name:	PARCELS 467-04-20ST, -22ST, -23ST
Address:	801 H STREET
Recipient name:	Fresno Redevelopment Agency
Grant type:	Assessment
Region:	9
Property Number:	467-04-20ST, -22ST, -23ST
Parcel size:	5.5
Latitude:	36.7302
Longitude:	-119.7904
HCM Label:	Global Positioning Method-Unspecified Parameters
Map Scale:	Not reported
Point of Reference:	Center of a Facility or Station
Highlights:	Based on the date of construction, URS requested an asbestos and lead-based paint survey from a private subcontractor, T. Brooks and Associates of Clovis, California, for the warehouse located on parcel APN 467-04-23ST (aka 735, 739, 741 H Street). The methodology and results of the survey are presented under separate cover and entitled Asbestos Survey & Lead-Based Paint Inspection Report, Commercial Structure 735, 739, &741 H Street, Fresno, California, dated May 28, 2014. The survey concluded, in part, that 20 samples collected by Brooks for analysis included one or more s which tested positive for asbestos in amounts greater than 1.0 percent. The samples testing positive included drywall taping mud and texture, drywall texture, wall paneling, 9-inch x 9-inch vinyl floor tile and associated mastic, and vibration damper. The survey concluded, in part, that the majority of testing combinations considered as part of Brook s investigation were found to contain lead in some amount. A total of 47 testing combinations on the interior surfaces and 4 exterior surfaces were found to include lead in excess of 1.0 milligrams per square centimeter (mg/cm2)(0.5), (5,000 parts per million) and would be classified as Lead-Based Paint (LBP) under state and federal regulations. Former Use: Based on a review of historical documents, parcel APN -20ST has been developed as a parking lot for commercial use since the late 1990s. Between the late 1980s and the late 1990s the parcel was vacant. Prior to the 1980s the parcel consisted of several railroad spur lines used to service lumber, paper, and produce warehouses located on parcels APN -22ST and -23ST. Parcel -22ST consisted of warehouses and commercial development until the early 1980s. The parcel was vacant in the 1980s and developed into a parking lot in the late 1990s. The warehouse currently occupying parcel APN -23ST is visible in aerial photographs back to at least 1946 and other historical documents back to at least 1885.

Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Latitude:	36.727856
Longitude:	-119.790762
HCM Label:	Global Positioning Method-Unspecified Parameters
Map Scale:	Not reported
Point of Reference:	Center of a Facility or Station
Highlights:	In an October 7, 2004 letter to the City of Fresno, the Fresno County Environmental Health System (EHS) referred the case to the RWQCB for regulatory oversight. In a letter dated November 2, 2004, the RWQCB directed the City to submit a work plan to assess petroleum hydrocarbon impacts to soil beneath the site. Former Use: The site is the location of a former gasoline station at the south corner of Mono and G Streets in downtown Fresno, California. The site has no existing structures and is entirely paved with remnant concrete slabs from structures previously occupying the site.

Grant type:	Assessment
Region:	9
Property Number:	467-081-16T
Parcel size:	0.3
Latitude:	36.727856
Longitude:	-119.790762
HCM Label:	Global Positioning Method-Unspecified Parameters
Map Scale:	Not reported
Point of Reference:	Center of a Facility or Station
Highlights:	In an October 7, 2004 letter to the City of Fresno, the Fresno County Environmental Health System (EHS) referred the case to the RWQCB for regulatory oversight. In a letter dated November 2, 2004, the RWQCB directed the City to submit a work plan to assess petroleum hydrocarbon impacts to soil beneath the site. Former Use: The site is the location of a former gasoline station at the south corner of Mono and G Streets in downtown Fresno, California. The site has no existing structures and is entirely paved with remnant concrete slabs from structures previously occupying the site.

Name:	735 H STREET
Address:	735 H STREET
Recipient name:	City of Fresno
Grant type:	Assessment
Region:	9
Property Number:	467-040-23
Parcel size:	0.54
Latitude:	36.72984501
Longitude:	-119.789648
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The property is fully occupied by a 50-foot by 400-foot one-story vacant brick warehouse building that was historically divided into four areas with separate assigned addresses, historical uses, and occupants. The site was occupied by a lumber yard in 1906. The current building was constructed circa 1910-12. Sometime between 1950-1970 the walls of the building were raised by 6-8 feet and a new roof constructed (possibly in response to a major fire). Historical occupants of different portions of the building include Valley Lumber Co., United Warehouse Company, Fowler Lumber Company, Alta District Lumber Company, Johns Manville Inc. (roofing supplies), Sequoia Lumber Company, The Feed Barn, the Fresno Chamber of Commerce, Avernell & Arioto Florists, H.Graff Co., Mark Lally Company, Zellerbach Paper Co., Butler Johnson Inc., Slater Furniture Co, Falcon Enterprises of Fresno, Angelo & Son, Germain Seed & Plant Co, California Spray Chemical Co, Eagle Transfer Company, Mid Valley Distributing Company, Fresno Macaroni Co., Armour & Company, United Fairway Produce Company, and Brentwood Egg Company. Of these uses, the only one identified as a REC was use by the California Spray Chemical Company which occupied a portion of the building from 1931-1946 and which was a distributor of a wide-range of pesticides, poisons, and other hazardous materials. A structural analysis of the building suggests that the cost to bring the building to current earthquake and other construction codes would significantly exceed the cost of building a new structure in a similar design. It is anticipated that the building will be demolished and replaced by a new building, in conjunction with a larger development project.

Site History:	The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the CVRWQCB. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the CVRWQCB should be consulted.

Map Scale:	Not reported
Point of Reference:	Center of a Facility or Station
Highlights:	The main subject property parcel is currently utilized as a commercial parking lot operated by Ace Parking Management and available with permitted parking only. Former Use: Based on review of historical documents, the subject property appears to have been located in an area of downtown urban development dating back to 1885 when the first developments on the site were single-family residential dwellings, two paint shops; a livery stable and a hay shed. During the late 1890s and early 1900s the subject property was developed commercially with retail businesses including two blacksmith shops. Commercial development of the subject property was predominate through the 1950s and into the early 1960s including an auto garage and storage facilities; two gasoline service stations; and a bus depot. By 1970 all structures had been removed from the subject property and it had been converted to a commercial parking lot similar to the present-day configuration and activities. This assessment identified no Recognized Environmental Conditions (RECs) in connection with the subject property. For the reasons discussed in Section 8.2 of the ESA, it is URS opinion that there is a low likelihood that significant environmental liability exists regulated to the historical activities of auto repair shops, gasoline service stations, blacksmith shops and other potentially hazardous activities on the subject property parcel and no further investigations appear warranted

COMMERCIAL BUILDING (Continued) **1018125167**

Point of Reference:	Entrance Point of a Facility or Station
Highlights:	Based on a review of historical documents, the subject property and adjacent parcels have been developed for commercial use in a well-established portion of downtown Fresno since back to at least 1918. Prior to 1918, the subject property was developed as a single-family residence with appurtenant structures in a commercial district of downtown Fresno back to at least 1885. Based on the age of the structure dating back to at least 1946, building materials may contain asbestos. There is also the possible presence of lead-based paint. According to the best recollection of the subject property tenant, there has never been an asbestos or lead-based paint survey performed on the subject property structure. Former Use: In 1918, the subject property parcel contained Zibbell s Auto Exchange Garage in the general configuration as the present day structure. In 1948, the subject property parcel contained a wholesale beer distributorship, apparently part of the Richter Bottling Company located to the southeast. In 1950, the subject property parcel contained an auto brake shop. The subject property was identified with several different auto parts stores up to 2008, when the Fresno RDA took possession and the current tenant, Pool Tables R Us, occupied the site.

In 1948, the subject property parcel contained a wholesale beer distributorship, apparently part of the Richter Bottling Company located to the southeast. In 1950, the subject property parcel contained an auto brake shop. The subject property was identified with several different auto parts stores up to 2008, when the Fresno RDA took possession and the current tenant, Pool Tables R Us, occupied the site.

Name:	COMMERCIAL BUILDING
Address:	721 BROADWAY
Recipient name:	Fresno Redevelopment Agency
Grant type:	Assessment
Region:	9
Property Number:	468-286-05T
Parcel size:	0.26
Latitude:	36.7304309
Longitude:	-119.7886293
HCM Label:	Address Matching-House Number
Map Scale:	Not reported
Point of Reference:	Entrance Point of a Facility or Station
Highlights:	Based on a review of historical documents, the subject property and adjacent parcels have been developed for commercial use in a well-established portion of downtown Fresno since back to at least 1918. Prior to 1918, the subject property was developed as a single-family residence with appurtenant structures in a commercial district of downtown Fresno back to at least 1885. Based on the age of the structure dating back to at least 1946, building materials may

COMMERCIAL BUILDING (Continued) **1018125167**

contain asbestos. There is also the possible presence of lead-based paint. According to the best recollection of the subject property tenant, there has never been an asbestos or lead-based paint survey performed on the subject property structure. Former Use: In 1918, the subject property parcel contained Zibbell s Auto Exchange Garage in the general configuration as the present day structure. In 1948, the subject property parcel contained a wholesale beer distributorship, apparently part of the Richter Bottling Company located to the southeast. In 1950, the subject property parcel contained an auto brake shop. The subject property was identified with several different auto parts stores up to 2008, when the Fresno RDA took possession and the current tenant, Pool Tables R Us, occupied the site.

Point of Reference:	Entrance Point of a Facility or Station
Highlights:	The Fresno Housing Authority plans to redevelop the Site as a community garden for the homeless population that lives in the area.For reuse as a community garden, portions of the property may require cleanup, and garden users should take precautions, such as removing contaminated soil or using raised beds, and select fruiting vegetables, vine plants, and fruit trees. In the event the property is used for residences, the property may require cleanup in areas impacted by lead, PAHs, and petroleum. Former Use: The property is approximately 0.7 acre and is mostly undeveloped with an existing 0.1 acre community garden. Historical land use has been residential and commercial since 1898. A warehouse building constructed on the Site in the mid-to late-20th century was demolished in 2014.

Point of Reference:	Entrance Point of a Facility or Station
Highlights:	The Fresno Housing Authority plans to redevelop the Site as a community garden for the homeless population that lives in the area.For reuse as a community garden, portions of the property may require cleanup, and garden users should take precautions, such as removing contaminated soil or using raised beds, and select fruiting vegetables, vine plants, and fruit trees. In the event the property is used for residences, the property may require cleanup in areas impacted by lead, PAHs, and petroleum. Former Use: The property is approximately 0.7 acre and is mostly undeveloped with an existing 0.1 acre community garden. Historical land use has been residential and commercial since 1898. A warehouse building constructed on the Site in the mid-to late-20th century was demolished in 2014.

Point of Reference:	Center of a Facility or Station
Highlights:	The subject property is a commercial parking lot with no significant improvements other than a guard shack, asphalt pavement, parking stall stripping, parking meters, and several lighting fixtures with a chain-link fence along the southwest side. Former Use: Based on review of historical documents, the subject property appears to have been located in an area of downtown Fresno urban development dating back to 1885. The first developments occurred in the forms of private residences in about 1888. The subject property was occupied by single-family residences and boarding houses with stables through the early 1900s giving way to retail and commercial development during the mid-1900s. By the mid-1960s, all the structures had been removed and the site was developed as a paved parking facility similar to present-day configuration. This assessment identified no Recognized Environmental Conditions (RECs) in connection with the subject property. For the reasons discussed in Section 8.2 of the ESA, it is URS opinion that there is a low likelihood that significant environmental liability exists regulated to the New York Hatters Hat Cleaners and Blockers, or Victor Kuljian, clothes cleaner; and additionally it is URS opinion that there is a low likelihood that significant environmental liability exists regulated to the presence of lead-based paint on the subject property parcel as a result of sloughing from neighboring site structure and no further investigations appear warranted.

US BROWNFIELDS:
Name: AMERICAN & FOREIGN PROPERTY
Address: 603 BROADWAY
Recipient name: R9 TBA - California (STAG Funded)
Grant type: TBA
Region: 9
Property Number: 468-294-05
Parcel size: 0.35
Latitude: 36.729203
Longitude: -119.787318
HCM Label: Address Matching-House Number
Map Scale: Not reported
Point of Reference: Entrance Point of a Facility or Station
Highlights: Subsurface soil contamination from benzene, xylene, and 2-methylnaphthalene has been identified at one location on the property parcel at concentrations greater than the site screening levels and ESL benchmarks. The contamination is most likely associated with historical leaking of a dispenser pipe. Contamination was not found at any other sampled subsurface location. The identified contamination is not believed to be a threat to groundwater based upon the estimated quantity of soil affected, the contaminant concentrations, and depth to groundwater. The identified contamination is not likely to pose any risk to human health. Former Use: Property is an automotive repair facility. Property has operated as a gas station/auto care since 1937. All USTs were removed in 2014.

Military DOD Site:	No
Facility Project Subtype:	Not reported
RWQCB Region:	CENTRAL VALLEY RWQCB (REGION 5F)
Site History:	Sample results from beneath the underground storage tank indicate that an unauthorized release of fuel oil petroleum hydrocarbons occurred. Jurisdiction for clean up oversight belongs to the Regional Water Quality Control Board, Central Valley Region, Fresno office. The case will be referred to the Board as soon as possible for further action.

Longitude:	-119.7948
HCM Label:	Global Positioning Method-Unspecified Parameters
Map Scale:	Not reported
Point of Reference:	Center of a Facility or Station
Highlights:	The subject property is a commercial parking lot with no significant improvements other than a guard shack, asphalt pavement, parking stall stripping, and several lighting fixtures surrounded by a wrought-iron fence. Former Use: Based on review of historical documents, the subject property appears to have been located in an area of downtown urban development dating back to 1888 when the first developments on the site were single-family residential dwellings and a boarding house. During the late 1890s and early 1900s the subject property was developed commercially with retail businesses on the southeast end and the northwest end with the Fresno County Free Library built mid-parcel about 1906. Commercial development of the subject property was predominate through the 1950s and into the early 1960s. By 1965 all structures had been removed from the subject property and it had been converted to a commercial parking lot similar to the present-day configuration and activities.

CA BOND EXP. PLAN:

Reponsible Party:	BACKLOG SITE CLEANUP PLANNING REPORT
Project Revenue Source Company:	Not reported
Project Revenue Source Addr:	Not reported
Project Revenue Source City,St,Zip:	Not reported
Project Revenue Source Desc:	This site is projected to be remediated by the responsible parties with reimbursement to DHS for its oversight costs. If the RPs are unable to fund site investigation and remediation, another source of funds will need to be identified.
Site Description:	The site is presently owned by the Fresno County Credit Union and was previously a gasoline station. Five underground tanks were installed at the gas station by 1953. In December, 1981, a construction firm removed three tanks and the tanks were pressure tested. One tank failed to hold pressure and was disposed of as scrap metal. It is not known what became of the other two tanks.
Hazardous Waste Desc:	Soil samples taken indicate that the soils were contaminated with constituents, typically found in gasoline, down to a depth of 55 feet. Ground water was encountered at a depth of 75 feet. Soil borings from the site contained benzene, toluene, ethylbenzene, xylene, organic lead, and EDB. Water samples contained all these same contaminants with the exception of organic lead.
Threat To Public Health & Env:	Ground water beneath the site shows signs of contamination by constituents of gasoline. The ground water in this area, according to the Central Valley RWQCB, is of excellent quality and is used as the main source of drinking water.
Site Activity Status:	Twining Laboratories, Inc., prepared a report for Fresno County Employees Credit Union entitled "Preliminary Geotechnical Investigation, Gasoline Contamination Assessment, Proposed Credit Union Building". The report was dated May 28, 1985 and describes the field and laboratory investigation.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/26/2023

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS TSCA: PFAS Manufacture and Imports Information

EPA issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. EPA publishes non-confidential business information (non-CBI) and includes descriptive information about each site, corporate parent, production volume, other manufacturing information, and processing and use information.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS WQP: Ambient Environmental Sampling for PFAS

The Water Quality Portal (WQP) is a part of a modernized repository storing ambient sampling data for all environmental media and tissue samples. A wide range of federal, state, tribal and local governments, academic and non-governmental organizations and individuals submit project details and sampling results to this public repository. The information is commonly used for research and assessments of environmental quality.

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners
EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

PEACOCK BUILDING
937-945 F STREET
FRESNO, CA 93706

TARGET PROPERTY COORDINATES

Latitude (North):	36.729982 - 36° 43' 47.94''
Longitude (West):	119.794939 - 119° 47' 41.78''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	250406.3
UTM Y (Meters):	4068359.0
Elevation:	288 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	12012169 FRESNO SOUTH, CA
Version Date:	2018

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

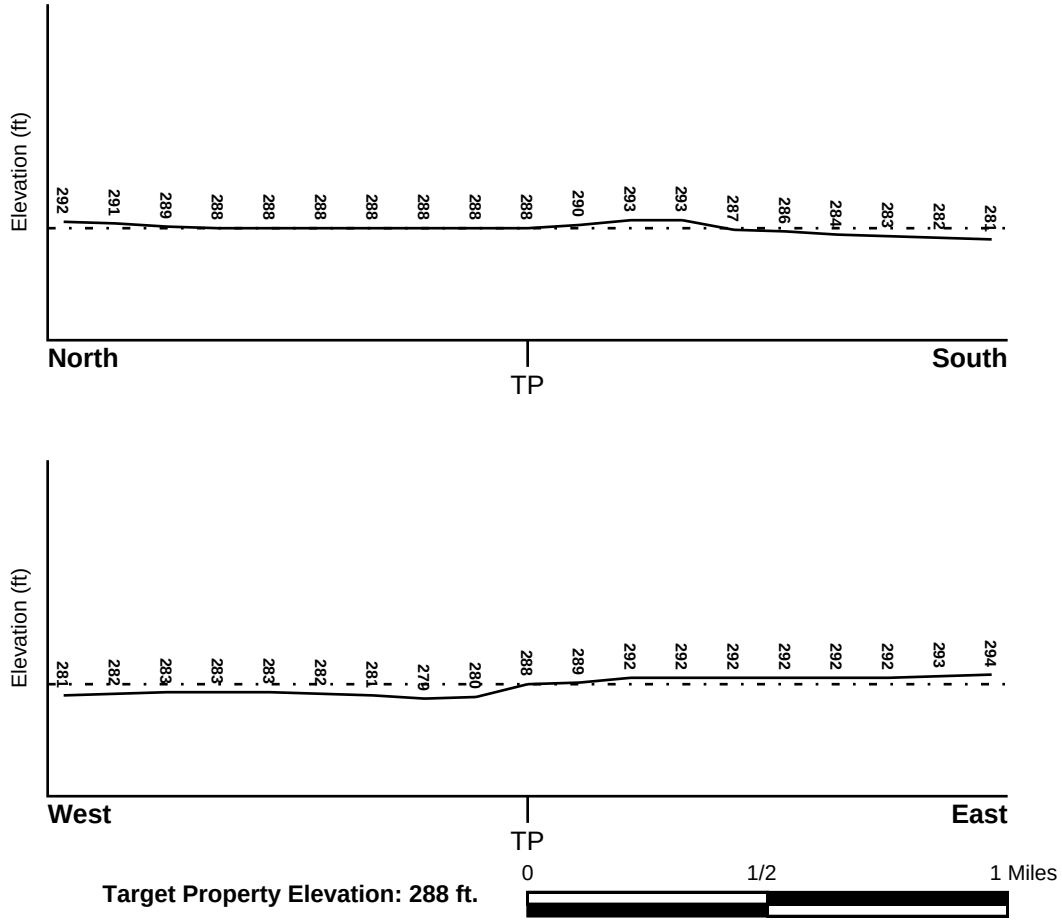

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 288 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06019C2110H	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06019C2105H	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
FRESNO SOUTH	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: HANFORD

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	16 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 7.3 Min: 6.1
2	16 inches	72 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 7.3 Min: 6.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: DELHI

Soil Surface Texture: loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	7 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.1
2	7 inches	25 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.1
3	25 inches	59 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	Not reported	Max: 141 Min: 42	Max: 7.3 Min: 6.1

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.
