Your earnings from a full time position in this unit are not covered under Social Security. When you retire, or if you become disabled, you may receive a pension based on earnings from the City. If you do, and you are also entitled to a benefit from Social Security based on either your own work or the work of your husband or wife, or former husband or wife, your pension may affect the amount of the Social Security benefit you receive. Your Medicare benefits, however, will not be affected. Under the Social Security law, there are two ways your Social Security benefit amount may be affected.
