

SUPERVISING FIRE PREVENTION INSPECTOR

DEFINITION

Under direction, supervises and coordinates the work of subordinate fire inspection personnel in all aspects of fire prevention, including fire inspections, plan review processes, hazardous materials inspections, and fire and life safety education.

SUPERVISION RECEIVED/EXERCISED

Receives supervision from the Deputy Chief or designee. This classification exercises supervision over subordinate fire inspection personnel.

DISTINGUISHING CHARACTERISTICS

Supervising Fire Prevention Inspector is the first-line supervisory class in the Fire Prevention Inspector series that serves in the Fire Department. Incumbents supervise technical staff, coordinate field operations, and assist in the planning, development, and implementation of operational policies and procedures. Under direction, incumbents exercise considerable independent judgment in making field and operational decisions. This class differs from Senior Fire Prevention Inspector in that incumbents of the latter do not have supervisory responsibilities.

EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES

(May include, but are not limited to, the following:)

Supervises staff in the technical evaluation of fire protection systems and equipment; evaluates the adequacy and maintenance of exits and fire access. Provides consulting services by outlining alternative methods of compliance with pertinent policies, codes, ordinances, and laws.

Consults with the City Attorney's Office staff, property owners, contractors, architects, and engineers regarding compliance with state laws, City building and fire codes, and applicable laws and regulations.

Investigates difficult field problems, interprets applicable fire codes and ordinances; and acts as a mediator/facilitator for construction compliance issues.

Supervises and participates in analyzing the condition of buildings and prepares reports on the status and condition of existing buildings with regard to safety.

May represent the City as an expert witness before boards, courts, and commissions in matters involving code enforcement.

Supervises the provision of and provides technical information to fire companies regarding fire prevention, inspections, fire and life safety education, and code enforcement.

Supervises and participates in the preparation of correction notices, citations, and letters pertaining to initial inspections; prepares documentation in support of citations or warrants for arrest of violators; testifies in court on criminal and civil matters filed by the Fire Prevention Division on offenses against fire laws, ordinances, and regulations.

Supervises and participates in the review and applicability of regulations and procedures governing fire prevention; and prepares amendments to codes for local adoption.

Supervises and participates in the preparation, review and maintenance of reports, and standard forms and letters.

Supervises and participates in the identification of fire hazards; demonstrates fire hazard control techniques and instructs the general public in fire prevention methods.

Plans, develops, and coordinates the delivery of fire and life safety educational outreach programs for presentation to the general public, fire personnel, school groups, and civic organizations.

Coordinates the provision of applicable resources needed for the successful implementation of fire protection practices and life safety, even those originating from other city departments or outside agencies.

Prepares performance evaluation reports.

Plans, supervises and evaluates the training of subordinates.

Reviews and evaluates hazardous materials disclosure documents and business emergency plans.

Provides technical interpretations.

Trains prevention inspectors, firefighters, business owners, City and building officials, and the general public on hazards, which may include inspections of facilities.

Assists in the development of technical procedures, training programs, and assigned projects.

Performs other duties as required.
