

## **EQUIPMENT SERVICE WORKER II**

### **DEFINITION**

Under supervision, performs routine maintenance and repairs on City cars, trucks, buses, construction equipment, and other vehicles and equipment.

### **SUPERVISION RECEIVED/EXERCISED**

Receives supervision from a Manager or designee. This class does not exercise supervision.

### **DISTINGUISHING CHARACTERISTICS**

Equipment Service Worker II is the advanced working level class in the Equipment Service Worker series. Incumbents perform tune-ups on engines, assist mechanics in adjusting, repairing and replacing vehicle components, and assist mechanics in more complex vehicle repair. This class is distinguished from Equipment Service Worker I in that the latter perform semiskilled duties involving cleaning, fueling, and preparing vehicles and equipment for operation. Equipment Service Worker II differs from the and Bus Mechanic series, in that the latter independently perform the more complex vehicle repair and overhaul duties.

### **EXAMPLES OF IMPORTANT AND ESSENTIAL DUTIES**

(May include, but are not limited to, the following :)

Performs maintenance and repairs on cars, trucks, construction equipment, and other vehicles and equipment, such as oil, filters, and fluid changes.

Removes and replaces equipment components, such as hydraulic system components, or suspension system components on cars, trucks, construction equipment and other vehicles and equipment.

Replaces and adjusts fuel, electronics and cooling system components such as carburetors, fuel and water pumps, starters and alternators.

Repairs and maintains brake systems including air, hydraulic and electric brakes.

Responds to road calls to repair cars, trucks, buses and other equipment.

Works with fleet and bus mechanics in the more complex tasks of repair, and overhaul of cars, trucks, buses and construction equipment.

Performs related duties as required.

### **General Services:**

Diagnoses and repairs electronic systems and electrical wiring circuits.

Performs fabrication tasks using appropriate tools and equipment.

Fills and repairs Self Contained Breathing Air (SCBA) and air cylinders as needed.

### **JOB RELATED AND ESSENTIAL QUALIFICATIONS**

#### **Knowledge of:**

The operating principles of engines and engine driven sub-systems.

The occupational hazards and safety precautions of the trade, including the handling of hazardous materials.

Less complex mechanical repairs and parts of cars, trucks, buses, and construction equipment.

#### **Skill/Ability to:**

Diagnose minor defects in cars, trucks, buses and construction equipment.
