About WSP

WSP is a leading engineering, environmental and professional services firm committed to delivering innovative and sustainable solutions. With over 100 planners across our California offices, which include Fresno, Los Angeles, Orange County, San Bernardino, San Diego, San Francisco Bay Area, and Santa Barbara.

Core Services and Specialties

Our professionals work on projects of every scale, from large, complex programs to smaller and more focused assignments.

- Environmental Planning: CEQA and NEPA documentation, Environmental Impact Reports , Environmental Assessments , Initial Studies, Mitigated Negative Declarations .
- Land Use Planning: General Plans, Specific Plans, Community Plans, Zoning Code Updates, Mobility and Transportation Plans, and Policy Development.
- Transportation & Infrastructure Planning: Corridor Studies, Active Transportation Plans, and Infrastructure Feasibility Assessments.
- Resource Assessments & Permitting: Air quality & Greenhouse Gas Analysis, Water Resources, Geology and Soils, Noise and Vibration, Hazardous Materials, and Environmental Justice and Equity, and Federal, State, and regional permitting.

Project Leadership

Kristin Blackson leads the team as the Contract Manager. Kristin is an experienced environmental planner with over 25 years of experience in environmental policy, CEQA/NEPA compliance, and multidisciplinary project coordination across both public and private sectors.

Local Partnership Team

We partnered with firms who augment our project delivery in community outreach, land use and planning, ecological surveys, and transportation. Together, we offer a comprehensive, locally grounded approach to every project.

Provides land use and planning, urban design and community outreach services. With over 20 years of experience in local government and public policy.

Specializes in transportation engineering, civil engineering, construction management, traffic analysis, and environmental assessments for air quality, GHG emissions and noise.

Assists with biological resource review and mitigation under CEQA/NEPA, managing investigations throughout Fresno and surrounding areas.

Produces biological, cultural, environmental site assessments, hazardous materials assessment plans, and stormwater pollution prevention plans.
