

Know What Goes Where

California law now requires food scraps and yard waste to stay out of the landfill. Sorting items into the right cart helps reduce waste, protect air quality, and control costs.

Why This Matters

Placing materials in the wrong cart leads to increased costs to dispose of those items properly, resulting in higher costs for everyone.

Find and Fix Leaks to Save Water and Money

Next month's Fix a Leak Week is a reminder that fixing small leaks saves water and helps avoid higher bills.

3 QUICK LEAK CHECKS

- 1 Toilets: Listen for running water
- 2 Irrigation: Look for broken heads or soggy spots
- 3 Faucets & hoses: Check for drips

EyeOnWater®

Catch Leaks Faster

Download the EyeOnWater app to track your water use and get alerts when unusual activity may indicate a leak.
