WASTE MANAGEMENT PLAN (WMP) FOR CONSTRUCTION AND DEMOLITION DEBRIS

The California Green Building Standards (CAL Green) mandates that new residential and non-residential building construction, demolition and certain additions and alteration projects to recycle and/or salvage for reuse a minimum of 65% of the nonhazardous construction and demolition (C&D) generated during the project.

****THIS WMP FORM MUST BE SUBMITTED FOR APPROVAL PRIOR TO PERMIT ISSUANCE****

APPLICANT'S INFORMATION

Company/Individual Name:			<input type="checkbox"/> Contractor <input type="checkbox"/> Owner <input type="checkbox"/> Other _____
Address:			
City:	State:	Zip:	
Phone:	Email:		

PROJECT INFORMATION

Site Address:	Residential (circle all that apply): Construction Demolition Grading Renovation Remodel Addition
Project Description:	Non-Residential (circle all that apply): Construction Demolition Grading Renovation Remodel Addition
	Does this project consist of a re-roof? <input type="checkbox"/> Yes <input type="checkbox"/> No Type of roof being replaced: Composition/Asphalt Wood Tile
	Square footage: Value \$

MATERIALS MANAGEMENT PLAN

Waste Management Company:	Self-Haul (Name):
Facilities to receive debris:	<input type="checkbox"/> Unknown at this time
	How will C&D debris be stored at the project site? <input type="checkbox"/> Commingled and sorted offsite <input type="checkbox"/> Source separated onsite

The purpose of this plan is to identify and outline the methods to be used as the minimum requirements for a construction waste management plan. This construction waste management plan is hereby submitted to comply with Section 4.408 and Section 5.408 of the 2025 California Green Building Standards Code. By signing below, I acknowledge that I have read the terms and conditions of this WMP for this project and agree to my responsibility to follow the procedures of this plan.

WASTE MANAGEMENT PLAN (WMP) FOR CONSTRUCTION AND DEMOLITION DEBRIS

TERMS AND CONDITIONS

- Per 2025 CAL Green, 65% of all C&D debris generated must be recycled.
- This project shall generate the least amount of waste possible by planning and ordering carefully, following all proper storage and handling procedures to reduce broken and damaged materials and reusing materials whenever possible. The majority of the waste that is generated on this job site will be diverted from the landfill and recycled for other use.
- Only approved Non-exclusive Franchise Haulers may be hired to collect and transport trash or C&D materials off the job site.
- You must keep all receipts and/or weight tickets from your project to be provided with the final Waste Diversion Log to City staff prior to or at the time of final inspection and occupancy.
- A Waste Management Plan (WMP) (Part 1) must be submitted and approved before a building permit is issued. The WMP serves as acknowledgment that 65% of all C&D debris generated must be recycled.
- A Subcontractor Acknowledgement Form (Part 2) must be completed for each subcontractor that comes on site to document that they have read and understand the conditions of the Waste Management Plan for the project. Waste prevention and recycling activities will be discussed at meetings with all subcontractors. As each subcontractor comes on site, the WMP coordinator will present him/her with a copy of the WMP and provide a tour of the jobsite to identify materials to be salvaged and the procedures for handling jobsite debris.
- A Waste Diversion Log/Report (Part 3) with all supporting weight tickets must be completed and submitted to the City upon completion of the project. The Waste Diversion Log/Report will identify the total waste generated for both construction and demolition, the corresponding weight for each material type, total recycled and non-recycled waste, and percentage of recycled waste (min. 65%).
- The WMP, Acknowledgement Form, and Waste Diversion Forms must be kept on the jobsite for the duration of the project. City Inspection staff may review the documentation and jobsite anytime during construction to monitor compliance.
- Universal Waste: Non-residential additions and alterations to a building or tenant space shall require verification that Universal Waste items such as fluorescent lamps and ballasts and mercury containing thermostats are disposed of properly and diverted away from landfills.

• Resource List of approved C&D haulers:
