Resolution No.

a. As provided by Section 1206 of the Charter, any adjustments in the amounts appropriated for the purposes indicated herein at the department/fund level shall be made only upon a motion to amend this Resolution adopted by the affirmative votes of at least five Council members. Administrative changes within the department/fund level may be made without approval of Council pursuant to (d) below.

b. For accounting and auditing convenience, accounts may be established to receive transfers of appropriations from department appropriations for capital improvements in two or more different funds for the same capital project.

c. Department appropriations in Intragovernmental Service Funds may be administratively adjusted, provided no amendment to the Resolution is required to adjust the appropriation in the department receiving the service from the Intragovernmental Service Fund.

d. Permissible Adjustments:

Section 3. TRANSFER WITHIN AN APPROPRIATION. The funds allocated to the respective accounting object classes comprising the total appropriation for each division or bureau or department are for purposes of budgeting consideration and convenience only and are not intended to constitute separate appropriations; provided, however, that funds allocated to an object class may be expended for the purposes of any other object class if such expenditures are within the written guidelines established by the Chief Administrative Officer.

Any other prior Resolution or provision thereof of the Council respecting the appropriation and administration of the FY 2027 budget which is in contradiction with this Resolution is hereby superseded. Notwithstanding any other provisions of this Resolution, no funds appropriated into the reserves (other than the unappropriated Reserve Fund set forth in Charter Section 1212) of the City shall be expended, transferred, obligated, used, encumbered or otherwise disposed of except as specifically authorized by previously approved bonded
